Electricity Facts Reliant Energy, Medium Non-Residential POLR Plan

Texas-New Mexico Power Company January 2009

Your rate for POLR service will be derived from the following formula:

POLR rate (in \$ per kWh) = (Non-bypassable charges + POLR customer charge + POLR demand charge + POLR energy charge) / kWh used.

Where:

Electricity Price

- Non-bypassable charges shall be all TDU and other non-bypassable charges and credits for the appropriate customer class in the applicable service territory, including ERCOT administrative charges, nodal fees or surcharges, replacement reserve charges attributable to POLR load, and applicable taxes from various taxing or regulatory authorities, multiplied by the level of kWh and KW used, where appropriate.
- POLR customer charge shall be \$0.025 per kWh.
- POLR demand charge shall be \$2.00 per kW, per month, for customers that have a demand meter, and \$50.00 per month for customers that do not have a demand meter.
- POLR energy charge shall be the sum over the billing period of the actual hourly MCPEs, for the customer multiplied by the level of kWh used, multiplied by 130%, multiplied by the level of kWh used.
- The minimum POLR energy charge is 9.8¢/kWh.

Contract

Minimum Term: None

Early Cancellation fee: \$0.00
