

Residential POLR Service TNMP Service Area – 1/1/09

Electricity Price

Average monthly usage:	500 kWh	1,000 kWh	1,500 kWh
Average price per kilowatt-hour (kWh):	18.25¢	17.89¢	17.77¢

This price disclosure is based on minimum service prices. Your average price for electricity will vary according to your usage and the components shown in the POLR pricing formula [POLR price/kWh = (Nonbypassable charges + POLR customer charge + POLR energy charge) + kWh usage] where:

- "Nonbypassable" shall mean all TDSP and other nonbypassable charges and credits for the appropriate customer class in the applicable service territory, including ERCOT administrative charges, nodal fees or surcharges, replacement reserve charges attributable to POLR load, and applicable taxes from various taxing or regulatory authorities, multiplied by the level of kWh and kW used, where appropriate;
- The POLR customer charge shall be \$0.06 per kWh;
- The POLR energy charge shall be the sum of the actual hourly MCPEs over the customer's billing period multiplied by the level of kWh used, multiplied by 130 percent, multiplied by the level of kWh used;
- The minimum POLR energy charge is \$0.087/kWh.

Contract

Minimum Term: None **Penalty for early cancellation:** None
See *Terms of Service Agreement* for a full listing of fees, deposit policy, and other terms.

Sources of Power Generation

Source	This Product	Texas (for comparison)
