The Attorney General's Office is directed to continue during the 1994-95 biennium an accounting and billing system by which the costs of legal services provided to each agency may be determined. This cost information shall be provided to the Legislative Budget Board and the Governor's Office of Budget and Planning within 60 days after the close of the fiscal year.

3. Petty Cash Fund Authorized. The Office of the Attorney General is authorized a Petty Cash Revolving Fund in the amount of \$5,000 to be used in accordance with those procedures outlined in the Special Provisions for Executive and Administrative Agencies in this Act.

b. Amounts earned as interest on, and allocated by the State Treasurer to, the Child Support Trust Fund No. 994 shall be transferred monthly by the Comptroller of Public Accounts to such funds from the General Revenue Fund, and all amounts so transferred are hereby appropriated to the Attorney General for use during fiscal years 1994 and 1995, in addition to the amounts otherwise appropriated herein. Amounts transferred pursuant to

this provision shall be shown as a separate, individual entry in the Method of Finance in all standard reports regularly utilizing a method of finance which are submitted to the Governor's Office of Budget and Planning or the Legislative Budget Office.

- c. The Attorney General is directed to accrue and leave unexpended amounts in the Child Support Retained Collections Accounts sufficient to be used as the initial state funding necessary for operation of the Child Support Enforcement program during fiscal year 1996. It is the intent of the Legislature that this program be self sufficient through funding from the Child Support Retained Collections Account and related Title IV-D grant funds.
 - d. The office may solicit, accept and expend grants from the federal government or other sources in excess of amounts appropriated herein, and such amounts are hereby appropriated for purposes relating to child support enforcement. Expenditures from such grants are limited to the amount of the grants and for the specific purposes expressed in the grants and for no other purposes.
 - e. The Attorney General, in cooperation with the Comptroller of Public Accounts and the State Treasurer, shall develop and maintain such cost centers and/or subaccounts within Child Support Trust Fund No. 994 and/or the Child Support Retained Collections Account as may be determined necessary or appropriate to separately account for, and allocate the interest earned on, the various sources for receipts deposited to, and types of expenditures made from such funds. The State Treasury shall separately allocate interest earned by the State to each such cost center and/or subaccount, or to such groupings thereof as may be designated by the Attorney General for purposes of reporting interest earned to the federal government.
 - f. ~~The Comptroller of Public Accounts~~ is directed to transfer and carry forward all the balances of funds in the Child Support Trust Fund No. 994 and the Child Support Retained Collections Account from fiscal year 1993 into such funds to be available for use in fiscal year 1994. Any balances in the Child Support Trust Fund No. 994 and the Child Support Retained Collections Account on hand as of August 31, 1994, shall be carried forward in such funds as funding sources for the fiscal year 1995 appropriation. It is the intent of the Legislature that the remaining balances in the Child Support Trust Fund No. 994 and the Child Support Retained Collections Account as of August 31, 1995, be carried forward into fiscal year 1996 in such funds and be reappropriated for fiscal year 1996 for the child support enforcement program.
 - g. Fifty percent of all funds deposited in or transferred to the Child Support Retained Collections Account in excess of the amounts in the agency method of finance are hereby appropriated to the Office of the Attorney General for use during fiscal years 1994 and 1995.
 - h. Out of the funds in the Child Support Retained Collections Account that are not appropriated in the agency's method of finance or subsection g. above, the Office of the Attorney General is hereby directed to set aside an amount not to exceed \$10 million each fiscal year of the biennium in order to provide start-up funds for the next fiscal year. Any retained collection amounts in excess of those subject to this provision are hereby transferred from the Office of the Attorney General to the unrestricted general revenue fund to be available for use in the programs for Texas families that draw federal matching funds.
5. **Disposition, Earned Federal Funds.** Earned Federal Funds received in connection with child support or other programs of the Office of the Attorney General, and funds received as

OFFICE OF THE ATTORNEY GENERAL

depreciation on child support capital equipment, in excess of the amount shown in the method of financing are specifically not appropriated to the Office of the Attorney General, except as allowed by rider. Earned Federal Funds received in excess of the amount shown in the method of financing for any fiscal year are to be carried forward as a funding source available for appropriation during subsequent biennia.

6. **Debt Collection Report Required.** Within 60 days after the close of the fiscal year, the Office of the Attorney General shall submit to the Legislative Budget Board and the Governor's Office of Budget and Planning a report detailing judgments and debts collected as a result of litigation, and judgments and debts yet to be collected.
7. **Reporting Requirement.** The Attorney General's Office is directed to develop and maintain separate accounting information and records on receipts and distribution of funds from the Child Support Trust Fund No. 994 and the Child Support Retained Collections Account. Such information must at a minimum identify all deposits, allocations and expenditures by type of revenues. The Comptroller of Public Accounts shall prescribe rules and procedures to assure compliance with this section and all transactions and balances shall be reconciled monthly against the records of the Comptroller. In addition to the requirements for annual financial reports required by Article V of this Act, the Attorney General shall include a separate section detailing all such balances, receipts and distributions of money in Fund No. 994 and the Child Support Retained Collections Account. The report must specifically show balances held for transfer to operating appropriations of the Attorney General's Office and any other agency. In addition, any balances which are unclaimed and subject to escheat under other laws must be identified as to amount and age.
8. **Debt Collections.**
 - a. The Office of the Attorney General shall attempt to collect all delinquent judgements owed the State of Texas. A portion of those debts collected, as outlined below, shall be eligible for retention by the Office of the Attorney General and may be used as a source of funding for agency operations as specified in and limited by the method of financing of the Office. The portion of debts collected by the Office of the Attorney General and eligible for retention by the Office shall be calculated as 50 percent of qualifying judgements for the biennium. Of the remaining collections, one hundred percent (100%) of collection revenues up to an amount of \$18.0 million total for the biennium shall be set aside to be eligible for use as payment of Workers' Compensation claims in fiscal years 1994 and 1995. Regardless of the total amount collected by the Attorney General, in no event shall this provision be construed as an appropriation in addition to the amount appropriated above as specified in the method of financing, of any of the funds collected by the Office of the Attorney General.
 - b. To be eligible for retention by the Office of the Attorney General the debt collected must be from a qualifying judgement. Qualifying judgements, as used in this rider, are judgements that are at least one-year old from the date of entry of the court order and also includes debts not reduced to judgement where there are collections on the debt by the Collections Division of the Attorney General's Office if the debt is delinquent by more than one year or has been certified for collection to the Collections Division of the Attorney General's Office. In no event shall more than \$5.0 million from collections stemming from a common nucleus of operative fact be eligible for retention by the Office of the Attorney General.
 - c. It is the intent of the Legislature that the following not be allowed as a credit toward the percentages set forth above: judgements collected by state agencies; judgements less than one year old; or judgements collected without direct action by the Attorney

OFFICE OF THE ATTORNEY GENERAL

General's Collection Division. The State Auditor shall verify that the above funds resulting from funds collected by the Collections Division of the Attorney General's Office do not include child support collections, or judgements collected from any other source or process other than through the Collections Division and the other requirements as set out in this rider.

- d. The Attorney General shall maintain a centralized recordkeeping system for accounting for various departmental and agency certification of delinquent taxes, judgements, and other debts owed the state. The accounting should distinguish by type of tax, judgement, or other debt, and provide for: when the debt was certified by an agency or department for collection by the Attorney General; when it was collected or disposed of, and such other information as the Legislative Budget Board, Governor's Office of Budget and Planning, or the Comptroller of Public Accounts may require. The Attorney General shall submit semi-annual reports to the Governor's Office of Budget and Planning and the Legislative Budget Board detailing by agency or department the amount of each debt, when the debt was certified and when, and in what amount, it was collected or disposed of.
9. **Death Penalty Litigation.** Out of the funds appropriated above the amount of \$250,000 for each year of the biennium shall be used for the purpose of litigating issues related to the death penalty. These funds are intended to provide for attorneys and legal support staff to handle an increased number of appeals in capital punishment cases. All funds subject to this rider shall lapse to the General Revenue Fund if not required for the purpose specified in this rider.
10. **Child Support Case Tracking System.** It is the intent of the Legislature that the Office of the Attorney General develop a child support case flow system that automatically tracks delinquent payments that are 30 days in arrears and serves notice at this time. At the 60-day period, delinquency collection procedures will be initiated by the department.
11. **Child Support Cost.** The Attorney General is directed to identify alternatives available under existing law to assist district courts, district clerks, sheriffs, constables, and other local government authorities in meeting the costs they incur in the administration, adjudication, or enforcement of child support cases related to the Attorney General's child support enforcement program. The alternatives so identified shall be reported by the Attorney General to the Legislative Budget Board by March 1, 1994.
12. **Interagency Contracts.** Any such interagency contract for legal services between the Attorney General's Office and state agencies shall not jeopardize the ability of the agencies to carry out their legislative mandates, shall not affect their budget such that employees must be terminated in order to pay the requested amount and shall not exceed reasonable attorney fees for similar legal services in the private sector.
13. **Crime Victims Compensation Program: Utilization of Medical Fee Guidelines.** All funds used to reimburse health care providers for the cost of health care services provided to victims of crime shall be reimbursed at rates not to exceed the fee guidelines established in Articles 8.21 through 8.25, Texas Workers' Compensation Act (Article 8308-8.21 et seq., Vernon's Texas Civil Statutes). The agency, victims or claimants are not responsible for health care service charges in excess of the fee guidelines unless a review of medical or dental services determines there is a reasonable medical justification for the deviation.
14. **River Compact Lawsuit Contingency.** The amounts appropriated above for the River Compact Commissioners Lawsuit Contingency include \$205,000 which shall be used to purchase professional services to force compliance of the Texas river compacts member states

15. **Client Representation.** In making a determination whether to initiate or settle litigation referred by a state agency, the Attorney General shall follow the written recommendation of the executive director of the referring state agency, unless the Attorney General determines that good cause exists to disregard such recommendation. In that event, the Attorney General shall provide the client agency with an explanation of the reasons for such determination. This provision does not apply to workers' compensation litigation wherein the state or its agencies are represented by the Attorney General.
16. **Program Transfer.** Funds appropriated above in Item A.1.2., Court Appointed Volunteer Advocacy, are contingent on the enactment of legislation by the Seventy-third Legislature amending V.T.C.A., Government Code, Chapter 72, Subchapter D, so as to designate the Office of the Attorney General as the state entity charged with the responsibility of administering state funds appropriated for Subchapter D, court appointed volunteer advocate programs. In the event such legislation does not become law the Comptroller of Public Accounts is hereby directed to transfer from Fund No. 421 the funds appropriated in this strategy to the Office of Court Administration. Funds so transferred are hereby appropriated to the Office of Court Administration for the purposes specified in Subchapter D.
17. **Limitation on Expenditure of State Funds.** None of the funds appropriated above in Strategy A.1.1., Legal Services, shall be expended for legal resource materials which are purchased on a renewal or continuing basis except through interagency contract with the State Law Library.
18. **Transfer Authority.** Notwithstanding limitations on appropriation transfers contained in Article V of this Act, the Attorney General is hereby authorized to direct agency resources, and transfer such amounts appropriated above between appropriation line items.
19. **Appropriation of Receipts, Court Costs.** Fifty percent of all court costs, attorneys' fees and investigative costs recovered by the Office of the Attorney General in excess of those specifically appropriated and shown in the agency's method of finance are hereby appropriated to the office of the Attorney General during the biennium of receipt in an amount not to exceed \$3 million for the biennium.
20. **Contingency Appropriation for House Bill 354.** Contingent upon the enactment of House Bill 354, Seventy-third Legislature, Regular Session, or similar legislation, the Office of the Attorney General is hereby appropriated the additional fee revenue collected and deposited in the Attorney General Law Enforcement Account pursuant to the provisions of that bill in an amount not to exceed \$104,878 for fiscal year 1994 and \$55,020 for fiscal year 1995 for the purpose of implementing the provisions of that Act. The Office of the Attorney General is hereby authorized to transfer the appropriations pursuant to this provision to the appropriate strategies listed above.

CONSTRUCTION, REPAIRS AND RENOVATION:

2. **Disposition of Construction Appropriation.** Construction appropriations may be used to pay salaries of engineers, architects, superintendents, supervisors and administrative expenses and support personnel of construction projects; architectural fees and the actual and necessary travel expenses incurred by them or their representatives in making special trips of inspection at the instance of the Board of Criminal Justice or the Director of the Institutional Division during construction or repair of buildings or installation of fixed equipment in such buildings. The State Classification Officer shall approve job titles and rates of pay for such salaried positions.

3. **Temporary Loan of Construction Resources.** The Texas Department of Criminal Justice may temporarily utilize materials and equipment acquired and personnel paid from one project appropriated or reappropriated for construction, repairs, and renovation, including construction of additional capacity, and building maintenance, to construct any other similar project for which funds have been appropriated. The receiving project must reimburse the providing project within twelve months with funds and/or a like amount of materials, equipment, equipment usage or personnel of equivalent value. Reimbursement with funds may be accomplished by transfer in a manner which records appropriate expenditures to the borrowing project and negative expenditures to the lending project. These transfers may be summary amounts in a manner approved by the Comptroller of Public Accounts. However, the TDCJ-ID must maintain adequate detailed records to support such summary transfer amounts.

4. **Unexpended Balances.** Any unexpended balances as of August 31, 1993, for the Texas Department of Criminal Justice - Institutional Division in the general appropriations made and/or reappropriated by the Seventy-first Legislature, Second Called Session, 1989 (Senate Bill 222) for Construction Appropriations (including funds from the Mineral Fund No. 272), and the Capital Trust Fund, and any unexpended balances remaining from the appropriations, reimbursements and/or transfers authorized by the Seventy-first Legislature, (House Bill 1477, Regular Session, Senate Bill 13, Sixth Called Session) or by the Seventy-Second Legislature (House Bill 2110, Regular Session, House Bill 1, First Called Session or House Bill 93, Second Called Session), are hereby reappropriated to the Texas Department of Criminal Justice - Institutional Division for the biennium beginning September 1, 1993, for the same purpose or for transfer and use in completing other authorized building projects in authorized amounts, provided that such reappropriated funds shall not be expended without approval of the Board of Criminal Justice and that copies of such approvals shall be filed with the Governor and the Legislative Budget Board.

5. **Architectural Fees.** Notwithstanding other provisions of this Act, in those instances where inmate labor is used on construction projects, the Department of Criminal Justice - Institutional Division is authorized to pay architectural fees based on the estimated total cost of a project as if it were to be done by a private contractor. The department shall employ an independent firm, separate from the architect, to estimate the total cost of a project. Architectural fees based on the estimated cost shall be governed by other provisions of this Act.

6. **Medicaid Services for Special Needs Offenders Funded by the Pardons and Parole Division, the Community Justice Assistance Division, and the Texas Council on Offenders with Mental Impairments.** Within appropriations made above, the Department of Criminal Justice will maximize Medicaid funding for offenders with mental illness and/or mental retardation who, through interagency contracts with the Department's divisions or the Council on Offenders with Mental Impairments, receive services from Community Mental Health and Mental Retardation Authorities. The department shall accomplish this goal by:

Ensuring that when Medicaid-reimbursable services are funded by the Department (for Medicaid-eligible special needs offenders) through state or local interagency contracts with Mental Health and Mental Retardation centers, the department's share of the service cost constitutes no more than the state share of the cost of the Medicaid services.
 - b. Developing, by September 1, 1993, an interagency agreement with the Texas Department of Mental Health and Mental Retardation (in coordination with the Texas Council on Offenders with Mental Impairments) that standardizes interagency policy on contracts between criminal justice agencies and MHMR authorities. The interagency agreement should specify that both agencies will use Medicaid funding for special needs services whenever possible and that the criminal justice agency's share of the service cost will constitute no more than the state share of the cost of the Medicaid services.
7. **Transfer Limitation.** Upon any order from a federal court that requires the Texas Department of Criminal Justice to transfer funds from any appropriation made hereinabove, those funds which were attempted to be transferred shall lapse and the Comptroller shall return the amount appropriated to its respective source.

- c. For each full-time active and retired employee enrolled in a coverage category that includes a spouse and/or dependent, the state's monthly contribution shall not exceed the smaller of (1) 50 percent of the difference between the premium for that category and the "Employee Only" premium plus the "Employee Only" contribution, or (2) the following monthly contributions for each category: \$307.39 in fiscal year 1994 and \$337.90 in fiscal year 1995 for the "Employee and Spouse" category; \$270.52 in fiscal year 1994 and \$297.35 in fiscal year 1995 for the "Employee and Children" category; and \$382.09 in fiscal year 1994 and \$420.07 in fiscal year 1995 for the "Employee and Family" category.

These funds are hereby appropriated to the agency for such use. Any remaining balances in the Savings Measurement Account related to awards approved by the Commission in fiscal year 1993 are hereby reappropriated to the implementing agency for use during fiscal year 1994.
 - (3) Lapse the remainder of the balance in the Savings Measurement Account. The lapsed amount will be held in the fund from which the original transfer was made for future appropriation by the Legislature.

The Comptroller of Public Accounts shall develop rules for the above provisions.

3. **Net Savings/Revenues Encumbered and Reappropriated.** The net savings/revenues realized in a fiscal year are to be considered encumbered by the agency implementing the suggestion or productivity plan and the Texas Incentive and Productivity Commission for purposes of carrying out the transfers listed in Sections 1 and 2 above. The amounts encumbered shall be accounted for in the following manner:

Upon implementation of an approved employee suggestion or productivity plan, an agency shall establish a Savings Measurement Account for that suggestion or productivity plan and transfer into this account the share of the projected net first-year savings/revenues attributable to the suggestion or productivity plan during that fiscal year. All balances in these accounts as of August 31, 1994 are reappropriated for fiscal year 1995. At the beginning of the following fiscal year, the agency shall transfer into the Savings Measurement Account the remaining share of the projected net savings/revenues for each approved suggestion or productivity plan.

At the conclusion of the implementation period for an approved and implemented suggestion or productivity plan, the amount of net savings/revenues certified by the agency and the Texas Incentive and Productivity Commission shall be compared with the balance in the Savings Measurement Account for that employee suggestion or productivity plan. If the certified net savings/revenue amount exceeds the balances in the Savings Measurement Account, the additional funds shall be derived from that agency's current year appropriations. If the certified net savings/revenue amount is less than the balance in the Savings Measurement Account, the excess amount deposited is available to the agency for expenditure

TEXAS INCENTIVE AND PRODUCTIVITY COMMISSION

in the current fiscal year for the same purposes as the original source appropriations. The certified net savings/revenues shall be transferred in accordance with Sections 1 and 2 above.

The Comptroller and the Texas Incentive and Productivity Commission shall jointly develop rules for the above provisions.

4. **Appropriation Source, Contributions.** Contributions accepted by the Texas Incentive and Productivity Commission from September 1, 1993 through August 31, 1995, along with contribution balances on hand at August 31, 1993, are hereby appropriated to the Commission for the biennium ending August 31, 1995 for purposes authorized by Article 6252-29(a), Vernon's Texas Civil Statutes.
5. **Appropriation Source, Net Annual Savings/Revenues.** Amounts transferred under Section 1.a. above, along with balances on hand from prior year general revenue and transfer appropriations at August 31, 1993, are hereby appropriated to the Texas Incentive and Productivity Commission for the biennium ending August 31, 1995. The funds are to be utilized for awards made and administrative costs incurred under Article 6252-29(a), Vernon's Texas Civil Statutes. Should any award paid to an employee reach the maximum allowable amount, the remainder of the 10% share will be used to cover agency administrative costs.
6. **Appropriation Source, Productivity Bonus Program Amounts.** Amounts transferred under Section 2.a., not to exceed the appropriation amount in Fund No. 578 above, are hereby appropriated to the Texas Incentive and Productivity Commission for the biennium ending August 31, 1995. The funds are to be utilized for administrative costs incurred under Article 6252-29(a), Vernon's Texas Civil Statutes. Remaining balances in Fund No. 578 shall be used to reduce the general revenue appropriations in Sections 5 and 7.
7. **Usage and Reimbursement of General Revenue Funds.** Pending Receipt of Funds from the Commission's Share of the Productivity Bonus Fund No. 578 and from the Commission's share of transfers under the State Employee Incentive Program, the Commission may utilize general revenue funds. Upon receipt of funds from these sources, the Commission shall reimburse general revenue.
8. **Sources and Amounts of Net Savings/Revenue Transfers.** In the event that agencies identify statutory, federal or constitutional restrictions on the use of funds in accounts where savings/revenues were generated by approved employee suggestions, agencies are authorized to substitute other funding and appropriation sources for the 20% portion that is transferred to the Texas Incentive and Productivity Commission and agencies are authorized to defer the transfer of the remaining 80%. All such deferrals for statutory, federal or constitutional restrictions shall be reviewed and approved by the Comptroller's Office before the deferral and substitution of 20% from other funds is adopted.
9. **Awards for Statewide Suggestions Approved Under the State Employee Incentive Program.** In the event that an employee suggestion approved under the State Employee Incentive Program results in savings or revenue increases in funds that are not appropriated to the agency that implemented the employee suggestion, the Comptroller shall transfer 20% of the savings or revenue increases from the fund that recognized the savings or revenue increases to the special fund established in Texas Civil Statutes, Article 6252-29a., Section 2.002(f) to pay employee awards and administrative costs incurred by the Texas Incentive and Productivity Commission. Amounts transferred for awards are hereby appropriated and the remaining amounts transferred are available to fund the Commission's appropriation.

If the temporary post of duty is neither the employee's headquarters nor his place of residence, such employee may return to his headquarters or to his place of residence daily or on the weekend providing that the actual expense involved, including per diem, mileage or public transportation in returning to headquarters or place of residence daily or on weekends, shall never exceed the per diem allowance the employee would have received had he remained at this post of duty.

The Department of Insurance shall submit a detailed plan of employee reductions and management reorganization to the Office of the Governor and the Legislative Budget Board no later than March 1, 1994.
12. **Publication and Distribution of Printed Matter.** Any moneys appropriated may be used within the discretion of the Department for the publication and distribution of any notice; brochure; pamphlet; booklet; newsletter; manual, including rule and rate manuals; rules; regulations, or other material of public interest, the subject matter of which is directly related to the statutory responsibilities of the Department. It is further the intent of the Legislature that the department counsel each assessed individual and provide to them in writing information regarding all available long term care alternatives, per federal freedom of choice requirements.
30. **Local Office Notification Policy.** Before relocation of an office, execution of a contract for lease of a local Department of Human Services office, or before implementing a change in policy which affects office location, the Legislative members for the respective district must be notified.
31. **Employee Identification.** Out of the funds appropriated above, the Department of Human Services is directed to ensure that all departmental employees who serve clients, in a city with a population of 500,000 or more, wear an identification badge.
32. **ICF-MR Rates.** It is the intent of the Legislature that reimbursement of vocational services for residents of Intermediate Care Facilities for Mental Retardation (ICFs/MR) and recipients of Home and Community-Based Waiver Services (HCS) shall be set to make maximum use of federal matching funds. The Department of Human Services, in conjunction with the Department of Mental Health and Mental Retardation and providers of ICFs/MR and HCS services, shall develop a survey as part of their annual ICFs/MR and HCS cost reports that will accurately capture the cost of providing an array of economical, efficient and effective vocational services including supported employment. Further, it is the intent of the Legislature that these costs become part of the ICFs/MR and HCS reimbursement rate and that rates for ICF-MR vocational services be established on a facility-specific basis. This does not prohibit the Agency from implementing an ICF-MR facility-specific rate system.
33. **JOBS Program.** The Texas Department of Human Services, as the coordinating agency for JOBS Services, shall assist the Central Education Agency, Department of Commerce, Texas Employment Commission, and the Higher Education Coordinating Board in developing intermediate outcome measures appropriate to program objectives for each JOBS program component. The measures should include baseline and end-of-program information on clients (e.g., pretest-posttest design data) and should be entered into the DHS automated data system. DHS will also develop and implement its own intermediate outcome measures. All outcome measures shall be developed no later than April 1, 1994 subject to the review and approval by the State Auditor's Office and the Legislative Budget Office. Implementation shall be no later than September 1, 1994.
34. **Nursing Home Services.** Funds appropriated above in Strategy A.1.4., Nursing Home Payments include amounts to be utilized to provide services to nursing home clients with mental illness, mental retardation, or related conditions. The Department of Human Services shall consult with the Department of Mental Health and Mental Retardation and the Commissioner of Health and Human Services on the most efficient methodology to utilize and may transfer such funds as appropriate or engage in interagency contracts to maximize resources available.

DEPARTMENT OF HUMAN SERVICES
(Continued)

- 35. **Specialized Services for Nursing Home Clients.** In order to provide for unanticipated events that increase costs associated with providing specialized services for nursing home clients with mental illness, mental retardation, or related conditions, the Department of Human Services is authorized to transfer up to \$6,000,000 in general revenue and \$10,700,000 in federal funds from amounts appropriated for that purpose in Strategy A.1.4., Nursing Home Payments, in the second year of the biennium to the first year of the biennium. At least 15 days prior to any transfer of funds under the provisions of this section, the Department will provide in writing to the Governor and the Legislative Budget Board a detailed description of the need for and amount of funds to be transferred. Any unexpended and unobligated balances in appropriations made for this purpose are hereby reappropriated for the same purposes and subject to the same restrictions for the second year of the biennium.
- 36. **Gang Activity Prevention.** In the funds appropriated for the Strategy C.2.1., Services to Runaway and At-Risk Youth, the Department will fund the Gang Activity Prevention at \$200,000 each fiscal year.
- 37. **Contingency Appropriation, Nutrition Outreach.** Contingent upon enactment of Senate Bill 714 or similar legislation which establishes a project targeting nutritional education and outreach, there is hereby appropriated in Strategy B.1.3., Nutrition Assistance, from the General Revenue Fund the amounts of \$45,908 in fiscal year 1994 and \$67,639 for fiscal year 1995. It is the intent of the legislature that the general revenue shall be expended only in the event that matching federal funds are available.
- 38. **Long Term Care Vendor Payments.** The funds appropriated above for Strategy A.1.4., Nursing Home Payments, and for Strategy A.1.5., ICF-MR/RC Payments, are based on amounts estimated to be paid for 23 months of client services during the 1994-95 biennium. Payments for nursing facility and intermediate care facility services incurred in August 1995 which exceed appropriated amounts will be paid from fiscal year 1996 appropriations.
- 39. **Contingency Appropriation for S.B. 982.** Contingent upon the enactment of S.B. 982, Seventy-third Legislature, Regular Session, or other similar legislation, the Department of Human Services is hereby appropriated the additional administrative penalties collected pursuant to the provisions of that bill in an amount not to exceed \$31,582 for fiscal year 1994 and \$31,582 for fiscal year 1995 for the purpose of implementing the provisions of that Act. The Department of Human Services is hereby authorized to transfer the appropriations herein to the appropriate strategies listed above.

2. **Transfer Authority.** The Department of Mental Health and Mental Retardation is authorized complete transferability from any strategy to any other strategy.
3. **Food and Utility Transfers.** In order to provide for unanticipated cost increases in food and utilities at the facilities under its jurisdiction the Department of Mental Health and Mental Retardation is authorized to transfer amounts necessary from the second year of the biennium to the first year of the biennium. The Legislative Budget Board and Governor's Office of Budget and Planning shall be notified prior to such transfers.
4. **Unexpended Balances.** Except as otherwise provided, all unexpended and unobligated balances remaining from appropriations for the first year of the biennium to the Department of Mental Health and Mental Retardation are reappropriated to the department for the purpose of complying with the provisions of existing settlement agreements in litigation dealing with residential, non-residential, and community based mental health and mental retardation services. This paragraph does not apply to those unexpended and unobligated balances remaining from appropriations for the first year of the biennium that the department is authorized by this act to retain for specific purposes in the second year of the biennium.
5. **Unobligated Construction Balances.** Any unobligated construction, repairs, or renovation balances from previous appropriations are hereby reappropriated for the identical purposes and subject to the same restrictions for the biennium beginning with the effective date of this Act. Any balances remaining in excess of the requirements of such identical purposes may be allocated by the Board of the Department of Mental Health and Mental Retardation for the purpose of capital improvements with prior notification to the Legislative Budget Board and the Governor's Office of Budget and Planning.
6. **Nursing Home Transition.** In order to provide for unanticipated events that increase costs associated with the Nursing Home Transition strategy, the Department of Mental Health and Mental Retardation is authorized to transfer amounts necessary from amounts appropriated in that strategy in the second year of the biennium to the first year of the biennium. At least 15 days prior to any transfer of funds under the provisions of this section, the department will provide in writing to the Governor and the Legislative Budget Board a detailed description of

the need for and amount of funds to be transferred. Any unexpended and unobligated balances in appropriations made for this purpose are hereby reappropriated for the same purposes and subject to the same restrictions for the second year of the biennium.

7. **Collections, Medicaid and Medicare.** The Department of Mental Health and Mental Retardation shall maximize reimbursement under Title XVIII and Title XIX of the Social Security Act. Except as noted below, the department shall identify and budget the state share of Medicaid expenditures. The department shall transfer and/or certify state Medicaid matching funds to the Medicaid single state agency or its designee as necessary. All federal collections from Title XVIII and Title XIX programs shall be deposited to the General Revenue Fund, except as noted below:
- a. Federal Medicaid reimbursement for community-based Intermediate Care Facility for the Mentally Retarded (ICF-MR) programs operated by community MHMR centers (under local MHMR boards of trustees), state schools, or state centers shall be retained by the provider of services. The state share of Medicaid expenditures for ICF-MR services delivered by community MHMR centers (under local MHMR boards of trustees) or private providers shall be identified and budgeted by the Medicaid single state agency or its designee.
 - b. Federal Medicaid reimbursement for 1915(c) Medicaid waiver programs or other Medicaid waiver programs provided by state schools, state centers, or community MHMR centers shall be retained by the provider of services.
 - c. Federal Medicaid reimbursement received by the department for the provision of Inpatient Psychiatric Services to Persons under Age 21 shall be retained by the department for the sole purpose of expanding the number of Medicare-certified beds in department-operated psychiatric hospitals.
 - d. Federal Medicaid reimbursement for Medicaid-funded outpatient services (including rehabilitation services, case management services, diagnostic and screening services, and any other Medicaid optional services) provided by local or state-operated Mental Health and/or Mental Retardation authorities shall be retained by the provider of the services.
 - e. Fifty percent of the federal Medicaid reimbursement received by the department for the provision of Institutions for Mental Disease services to persons aged 65 years and older shall be retained by the department for the sole purpose of expanding the number of Medicare beds in department-operated psychiatric hospitals.
 - f. Federal Medicare reimbursement received by the department as reimbursement for services to patients in department-operated psychiatric hospitals shall be retained by the department to cover the cost of such services.
 - g. Fifty percent of the federal Medicaid reimbursement for outpatient drugs dispensed by the departments' clinics and outpatient pharmacies may be retained by the department to offset the cost of collections.
 - h. Federal Medicaid reimbursement for Title XIX administrative activities (delegated to the department by the Medicaid single state agency) may be retained by the department.
8. **Transfers of Appropriation - State Owned Hospitals.** The Department of Mental Health and Mental Retardation shall transfer from non-Medicaid state appropriated funds the following amounts to the Department of Health:

DEPARTMENT OF MENTAL HEALTH AND MENTAL RETARDATION
(Continued)

	1994	1995
State Mental Hospitals	239,993,785	183,192,693

Tarrant County Psychiatric Hospital	4,115,770	3,042,423
	\$ 270,446,270	\$ 205,218,051

The timing and form of such transfers shall be determined by the Comptroller of Public Accounts in consultation with the Department of Health. The Legislative Budget Board is authorized to adjust the amounts of such transfers as necessary to match available federal funds.

9. **Medicaid-funded Institutions for Mental Disease Services.** The Department of Mental Health and Mental Retardation and the Medicaid single state agency or its designee are authorized to extend Medicaid coverage for inpatient psychiatric services to individuals age 65 and over in institutions for mental diseases. The Department of Mental Health and Mental Retardation may certify or transfer funds appropriated for mental health services to the Medicaid single state agency or its designee to implement Medicaid mental health services.
10. **Harris and Tarrant County Medicaid Services.** The Harris County Psychiatric Center and the Tarrant County Psychiatric Hospital shall certify appropriated state funds to the Health and Human Services Commission or its designee for the state share of Medicaid reimbursement for the following services:
- a. Inpatient psychiatric services for children.
 - b. Inpatient psychiatric services for age 65 and over (Institute for Mental Disease option).

Transfers and/or certification shall also be provided for the Disproportionate Share Hospital reimbursement programs consistent with the Texas Medicaid State Plan.

11. **Hospital Medicare Provisions.** Within appropriations made above, the department shall:
- a. increase the number of Medicare certified beds available to eligible state hospital patients;
 - b. work with the Texas Medical Foundation to develop consistent criteria for use in its statewide Medicare program; and
 - c. seek dual medical and psychiatric certification for its hospitals.
12. **Medicaid Funding for Special Needs Offenders Served by Community Mental Health and Mental Retardation Authorities.** Within appropriations made above, the Department of Mental Health and Mental Retardation should maximize Medicaid funding for offenders with mental illness and/or mental retardation who receive services from community Mental Health and Mental Retardation Authorities. The department shall accomplish this goal by:
- a. ensuring that when services are delivered to a Medicaid-eligible special needs offender by means of a state or local interagency contract between an MHMR center and a criminal justice agency, the criminal justice agency's share of the service cost constitutes no more than the state share of the cost of the Medicaid services.
 - b. executing, by September 1, 1993, an interagency agreement with the Department of Criminal Justice (in coordination with the Council on Offenders with Mental Impairments) that standardizes interagency policy on contracts between criminal justice agencies and MHMR authorities. The interagency agreement should specify that both agencies will use Medicaid funding for special needs services whenever possible and that

DEPARTMENT OF MENTAL HEALTH AND MENTAL RETARDATION
(Continued)

the criminal justice agency's share of the service cost will constitute no more than the state share of the cost of the Medicaid services.

13. **Home and Community Based (HCS) Waiver Program.** It is the intent of the Legislature that the provisions of 1915(c) of the Social Security Act shall be utilized in order to maximize funds available for home and community-based services. The Department of Mental Health and Mental Retardation shall certify and/or transfer appropriated state funds to the Medicaid single state agency or its designee so that it can claim federal financial participation through the provisions of 1915(c), Social Security Act.

The department shall ensure the cost-effectiveness of the HCS program by limiting the average annual HCS expenditure per client to an amount, not to exceed 80% of the average annual per client ICF-MR expenditure. Expenditures for individual clients may exceed this cap as long as the overall average expenditure for HCS clients remains below. The department shall provide estimates of HCS and ICF-MR expense to the Legislative Budget Board as requested.

14. **Residential Services Funded by General Revenue.** The Department of Mental Health and Mental Retardation shall refinance, with Medicaid funding, residential mental retardation services to Medicaid-eligible clients that are currently funded exclusively with general revenue. The department shall accomplish this refinancing through the use of the Home and Community-Based waiver program, or, if-necessary, the Intermediate Care Facility for the Mentally Retarded program. The department may transfer and/or certify general revenue funds appropriated for these residential services to the Medicaid single state agency or its designee for this purpose. Beginning June 1, 1993, the department shall submit quarterly reports to the Legislative Budget Board that document the number of residential sites converted to Medicaid funding, the amount of general revenue redirected to the state share of Medicaid funding, and the amount of new federal funds received.
15. **Community Placement.** The department shall continue to develop community alternatives and to place residents of state schools into appropriate community programs in accordance with the department's six-year strategic plan when such placements are determined by department professionals to be in the best interest of the individual. A portion of the funds appropriated for the client's care and treatment in state schools shall be transferred with the client to the community setting.
16. **Rio Grande Accreditation.** The Department of Mental Health and Mental Retardation shall assure that the Rio Grande State Center will apply for and meet the Joint Commission Accreditation for Healthcare Organizations (JCAHO) accreditation standards for mental health services by August 31, 1994.
17. **Provision of Emoluments.** The Commissioner is authorized to provide emoluments for certain positions provided that the provision of such emoluments is necessary to effectively carry out the job responsibilities of the position.
18. **Employee Meals.** Notwithstanding any other provision in this act, the Department of Mental Health and Mental Retardation may provide free meals to employees who are required to eat meals with clients.
19. **Maximum Security Salaries.** As a specific exception to the provisions in Article V of this Act governing salary rates of classified positions, funds are included above for Rusk State Hospital and Vernon State Hospital, to pay those of their employees working in the Skyview Unit of the Department of Criminal Justice or the Maximum Security Units of Vernon State Hospital, a two step increase over those salary rates provided by Article V.

DEPARTMENT OF MENTAL HEALTH AND MENTAL RETARDATION
(Continued)

20. **Contingency Appropriation for Community MHMR Center Employee Salary Increases.** It is the intent of the Legislature to provide as much parity as practicable between salaries of employees of the Department of Mental Health and Mental Retardation and salaries of employees of local community MHMR centers which are agents of the department and which serve as the local mental health or mental retardation authority. Therefore, in the event the Legislature authorizes an across-the-board salary increase for state employees, and in addition to funds appropriated above, there is hereby appropriated to the department an additional \$1,500,000 each year of the biennium from the General Revenue Fund for each one percent across the board increase granted to state employees. The funds shall be distributed to community MHMR centers based upon the proportionate share of state funding for each community MHMR center. In the event the salary increase is only for a portion of the year, the comptroller shall only allocate the appropriate portion of the total amount authorized above.
21. **Revolving Fund Services.**
- a. **Central Services.** The Department of Mental Health and Mental Retardation may maintain and operate revolving funds on a reimbursable basis for central services that contribute to the efficiency and economy of the facilities under its control and management. All receipts deposited to such central service funds are appropriated for all costs necessary for the operation of these services. Any balances remaining in such funds at the end of a fiscal year are reappropriated for any expenses necessary to the operation of these services for the second year of the biennium. To reimburse the funds from which expenditures are made, the department may make fund transfers from the appropriations of the facilities and agencies which receive the services and supplies, or may submit purchase vouchers through the Office of the State Comptroller.
 - b. **Canteen Services.** Each of the facilities under control and management of the Department of Mental Health and Mental Retardation, except the Central Office, may establish, maintain and operate a canteen for the convenience of its patients. Any balances remaining in each canteen operation fund at the end of each fiscal year, plus all receipts deposited to its credit, are appropriated for all costs necessary for the operation of a canteen. Each of the facilities under control and management of the department that contracts with the Commission for the Blind for the operation of its canteen shall deposit the amount of moneys originally appropriated for its Canteen Operation Fund into the General Revenue Fund. The balance remaining in the facility's Canteen Operation Fund, after the amount originally appropriated is deposited to the General Revenue Fund, shall be deposited to the Benefit Fund created at the facility under the provisions of Health and Safety Code V.T.C.A., § 551.004.
 - c. **Motor Pool Services.** The Department of Mental Health and Mental Retardation is hereby authorized to utilize the services of its motor pool to transfer and deliver the household goods and effects of its employees transferred from one place of employment to another within the department when such service to such employee is deemed to be in the best interest of the state, however, this service shall not be extended to any new employee.

Each principal, supervisor, and classroom teacher employed in an institution operated by the Texas Youth Commission shall receive a monthly salary to be computed as follows: The applicable monthly salary rate plus increments specified in Section 16.056, Texas Education Code, as amended, shall be multiplied by twelve to arrive at an annual salary rate. Such rate shall be divided by the number of days required in Section 16.055, Texas Education Code, for pay grades 1-11 twelve-month employees, and the resulting daily rate shall be multiplied by the number of on-duty days required of Texas Youth Commission educators, resulting in the adjusted annual salary. The adjusted annual salary is to be divided by twelve to arrive at the monthly rate. Salary rates for educational aides shall be calculated in the same manner, using 60% of the salary rate plus increments specified in Section 16.056, Texas Education Code.
 - b. The Foundation School Fund Budget Committee is authorized to adjust the amounts of the basic and special allotments in accordance with its responsibilities under Section 16.256(c) of the Texas Education Code, but the total appropriation may not exceed the sum-certain amount.
3. **Transportation Cost Allotment.** Pursuant to Section 16.156 of the Texas Education Code, the appropriation for funding regular transportation programs for the 1993-94 and 1994-95 school years shall be calculated on the following basis:

Linear Density Grouping	Allocation Per Mile of Approved Route
2.40 and above	\$1.43
1.65 to 2.40	1.25
1.15 to 1.65	1.11

Pursuant to Section 16.156 of the Texas Education Code, the maximum mileage rate for special education transportation shall be \$1.08 per mile. Private transportation rates shall be \$0.25 per mile or a maximum of \$816 per pupil for both special education and isolated areas as defined in sub-sections 16.156(g) and 16.156(e).

4. **Education Service Centers.** The Central Education Agency shall continue and improve as necessary a standardized reporting system for Regional Education Service Center budgets and personnel rosters including salaries, consultant services, and fringe benefits. Financial information shall reflect uniformity in account code classifications. In order to expend state funds, Regional Education Service Centers must comply with this reporting requirement and provide the necessary information to the Commissioner of Education. The Commissioner shall furnish these reports to the State Board of Education for transmittal, along with recommendations for change, modification, or improvement, to the Legislative Budget Board and the Governor's Budget and Planning Office. Regional Education Service Centers shall be prohibited from purchasing land and acquiring buildings without prior authorization from the Commissioner of Education.
5. **Unobligated Balances of Education Service Centers.** It is the intent of the Legislature that the reference to "funds available" in Section 11.32(f), Texas Education Code, includes funds maintained by regional education service centers as unobligated balances. In allocating appropriated funds to Education Service Centers, the Commissioner of Education shall take into account to the extent possible under law the ability of each regional education service center to fund its programs using unobligated state funds.

CENTRAL EDUCATION AGENCY

6. **Windham Schools.** Out of funds appropriated above in Strategy A.5.1., Adult Education and Literacy, the Commissioner of Education shall allocate from the Foundation School Fund amounts not to exceed \$40,740,000 in fiscal year 1994 and \$46,360,000 in fiscal year 1995 to the Windham School System within the Texas Department of Criminal Justice. These funds are to be expended only for academic and vocational educational programs approved by the Texas Education Agency. The Commissioner shall allocate funds to the Windham Schools based on contact hours for the best 180 of 210 school days in each year of the biennium. The contact hour rates for the 1994-95 biennium are the following: \$3.23452 for academic education, \$2.88743 for vocational education, \$5.65945 for special education, and \$0.62265 for bilingual education.
7. **Audit Adjustments.** When reviews and audits of allocations to school districts reveal the allocations previously made were greater or less than the amounts found to be due, the Central Education Agency is authorized to recover or pay the sums necessary to adjust to the correct amounts. All such amounts recovered shall become a part of the Foundation School Fund or General Revenue Fund, and the amounts necessary to make such additional payments to the school districts are hereby appropriated from the Foundation School Fund or General Revenue Fund. Any net balances to the state are hereby appropriated, if necessary, to make Chapter 16 formula funding allocations to school districts.
8. **State Textbook Fund.** Any amount expended for Textbook Administration, including new textbooks, rebinding, and other related expenses, shall be paid out of the State Textbook Fund. A transfer of funds from the Available School Fund to the State Textbook Fund is authorized in an amount which, together with other revenues of the State Textbook Fund, is sufficient to finance the sum-certain appropriation from the State Textbook Fund for each fiscal year.
9. **Day-care Expenditures.** It is expressly provided that the pre-school day care programs, such as the Early Childhood Program for Educationally Disadvantaged Children and Special Education and Training for Pre-School Handicapped Children administered by the Texas Education Agency, are day-care programs. The funds expended in those programs on behalf of children meeting eligibility requirements in accordance with interagency contracts with the Texas Education Agency under the day care program of the Social Security Act shall be considered as expenditures for day care.
10. **Timely Reporting of Student Counts.** Prior to the beginning of each school year, the State Board of Education shall establish reporting deadlines for the counts of students in average daily attendance. If a school district has not filed its report by the deadline, payments from the Foundation School Fund are to be withheld from the district until an acceptable report is filed.
11. **Adult Education.** Priority shall be given to adult literacy programs in the expenditure of adult education funds appropriated above. It is the intent of the Legislature that, in providing educational programs, the Central Education Agency and the Adult Education Cooperatives shall make every effort to provide appropriate training to recipients of Aid to Families with Dependent Children in accordance with the Family Support Act of 1988. Out of the general revenue funds appropriated above for Item A.5.1., Adult Education and Literacy, an amount not less than \$2,000,000 each year shall be used to provide education and training services to AFDC recipients by entering into contracts or arrangements with the Department of Human Services pursuant to Section 485(a) of the Family Support Act of 1988.
12. **Loss Due to Property Value Decline.** The Commissioner of Education is authorized to distribute no more than \$26,000,000 in fiscal year 1994 and \$26,000,000 in fiscal year 1995 under Section 16.252(e) of the Texas Education Code, to the extent that excess funds are

available under the Foundation School Program. It is the intent of the Legislature that, in expending these funds by making adjustments in the local share, the Commissioner shall consider only the amount of property value decline in each school district that is in excess of eight percent in taxable values. To the extent that entitlements under 16.252(e) exceed appropriated amounts, the Commissioner shall reduce adjustments using the same formula for proration of state aid under section 16.254 of the Texas Education Code.

13. **Standardized Reporting.** It is the intent of the Legislature that the State Board of Education promulgate rules and standards of accounting and reporting for elements of direct and indirect costs of education. Rules regarding the standard school fiscal accounting system shall have sufficient clarity to result in adequacy of reported detail, to allow valid comparisons with statewide average costs and those of other districts of comparable size and wealth. Such elements shall include, but not be limited to, all major components of both instructional and administrative services, costs by program and campus, and all salary costs paid. Such data shall be provided to the agency. Implementation of this reporting shall be accomplished in a manner that requires no additional personnel or significant data processing cost at the local level. In the event that a district fails to adhere to the rules and standards for accounting and reporting in their entirety, the Commissioner of Education may reduce the amount of state funds to which the school district is entitled. Withheld funds shall be used to enhance the Commissioner's efforts to improve the public school accounting system.
14. **Governor's School.** Out of funds appropriated for Item A.1.3., *Leadership and Support*, \$100,000 in each fiscal year is appropriated to the Governor's School Program. These appropriated funds are contingent upon the receipt of contributions or donations in the amount of \$100,000 which are deposited in the State Treasury by December 31, 1993, and the amount of \$100,000 which are deposited in the State Treasury by December 31, 1994. These funds are to be used to support the Governor's School, which is a residential program designed to meet the needs of gifted secondary students in the state. In the event that contributions or donations deposited in the State Treasury by December 31, 1993, for fiscal year 1994, total less than \$100,000 or contributions or donations deposited in the State Treasury by December 31, 1994, for fiscal year 1995, total less than \$100,000, the appropriation is reduced to an amount which equals the total contributions or donations received.
15. **Funding for Quality Workforce Planning Committees.** Out of the total statewide allotment for vocational education appropriated above for the Foundation School Program, the Commissioner shall set aside an amount of state funds, which may not exceed \$1,100,000 in each fiscal year, to provide staff services and to pay related operating costs of the 24 Quality Workforce Planning Committees. An amount of \$500,000 in each fiscal year shall be transferred from the Texas Department of Commerce, or from whichever agency administers the Job Training Partnership Act Program, to the Central Education Agency and such funds shall also be used to fund the staff and operating expenses of the Quality Workforce Planning Committees. An additional amount of \$200,000 in each fiscal year shall be retained at the Central Education Agency out of the Texas Higher Education Coordinating Board's share of Section 201, State Programs and State Leadership funds under the Carl D. Perkins Vocational and Applied Technology Education Act of 1990, and such funds shall also be used to fund Quality Workforce Planning Committees. The Carl Perkins funds shall be used to ensure that Quality Workforce Planning Committees serve the needs of special populations. Each committee shall make every effort to serve the needs of special populations by applying for funds from the private sector.
16. **Texas Successful School Awards.** Out of funds appropriated above in Item A.3.2., *Performance Evaluation*, \$5,000,000 in each fiscal year is appropriated for the Texas Successful Schools Awards program under Subchapter A, Chapter 34 of the Texas Education

Code. The Commissioner must ensure that all ethnic and socioeconomic groups in selected districts have improved their performance. In determining which school districts have demonstrated the greatest improvement in achieving the educational goals of the state, the Commissioner shall include criteria related to the inclusion of students with disabilities in the regular classroom insofar as these criteria address Goal A and Goal G in Section 2.01 of the Texas Education Code.

17. **Public Education Development Fund.** From the general revenue related funds appropriated in Item A.1.3., Leadership and Support, \$1,750,000 in each fiscal year is appropriated to the Public Education Development Fund. Out of the appropriated funds, \$250,000 in each fiscal year shall be transferred to the Legislative Budget Board to administer the Educational Economic Policy Center (EEPC). The remaining amount in the Public Education Development Fund shall be used to fund innovative programs under Section 11.27 of the Texas Education Code. Ten percent of the innovative grants shall be used to fund innovative programs attempting to integrate students with disabilities in regular classrooms.
18. **Professional Staff Development.** Out of the funds appropriated above in Item A.2.2., Professional Development, \$20,000,000 in each fiscal year shall be used to provide pre-service and staff development training in technology and innovative teaching practices for public school teachers and administrators. The State Board of Education shall allocate the appropriated funds to centers for professional development and technology, created under Section 13.050 of the Education Code, or to any other entity that proposes to provide services outlined in Section 13.050 of the Code.
19. **Cooperation in Staff Development Demonstrations.** The Commissioner of Education shall notify the Comptroller of Public Accounts of any district for which the Commissioner authorizes a specific number of days of staff development in lieu of days of instruction, not to exceed 15 days, pursuant to Section 11.273 of the Texas Education Code. The Comptroller shall cooperate with the Commissioner to assure that any such district receives the full amount of state aid to which it would otherwise be entitled.

between institutions and will count toward the same degree at any public college or university in Texas.

19. **TEG Reporting Requirements.** Upon request, every institution receiving tuition equalization grants shall furnish to the Coordinating Board student expense budgets, data concerning student need, and any other financial information required by the board. All such information shall be in a format prescribed by the Texas Higher Education Coordinating Board.
20. **Residency Eligibility.** It is legislative intent that any student who is eligible for Texas resident tuition at a tax-supported institution is eligible for the Tuition Equalization Grants Program, provided all other requirements established by the Coordinating Board have been met by that student. None of the funds appropriated in this Act to the Coordinating Board for Tuition Equalization Grants may be expended for grants to non-resident students attending independent colleges or universities in Texas except for grants to National Merit Finalists.
21. **TEG Need Survey.** The Coordinating Board shall present the result of its most recent annual need survey for Tuition Equalization Grant (TEG) funds as part of its biennial appropriations request to the Legislative Budget Board and the Governor's Budget Office. The request shall include the number of eligible students and an estimate of the amount needed to fund fully the TEG program in the coming biennium. The Coordinating Board shall update this projection to include the most recent fall semester data prior to the convening of each regular session of the Legislature and shall provide this information to the Legislative Budget Board staff prior to Legislative Budget Board deliberations on the TEG appropriation.
22. **Annual Financial Aid Need Survey.** The Coordinating Board shall present an annual report concerning unmet financial aid need of students attending Texas public institutions of higher education. The report shall include the number of eligible students for whom aid is not available from existing programs and an estimate of the amount necessary to meet their needs. This report shall be provided to the Legislative Budget Office by December 31 of each calendar year.
23. **Formula Rate Incentives for Undergraduate Instruction.** The Coordinating Board is hereby instructed to continue its review of the current role and scope of institutions of higher education in relation to the formulas used for appropriating funds for faculty salaries. It is the intent of the Legislature that the Coordinating Board develop formula rate incentives for teaching at the baccalaureate level. These incentives shall include a higher level of funding at public senior colleges and universities for lower-division courses taught by tenure-track or tenured faculty. The Coordinating Board is to report to the Seventy-fourth Legislature its findings and recommendations.
24. **Family Practice Residency.** It is the intent of the Legislature that the Coordinating Board administer funds trusteeed for Family Practice Residency in strict compliance with its authorizing statute.
25. **Family Practice Rural Rotations.** Funds appropriated above for Family Practice Residency Programs, include \$363,000 in 1994 and \$363,000 in 1995 for one month rural rotation for family practice residents in accordance with the provision of V.T.C.A., Education Code, Section 51.917(b)(2).

HIGHER EDUCATION COORDINATING BOARD
(Continued)

27. **Upper-Level Transition Funding to Four-Year Status.** The Coordinating Board shall modify the formulas that provide a differential rate per semester credit hour between four-year general academic teaching institutions and upper-level institutions as follows for application to: a four-year general academic teaching institution that is established by converting an upper-level general academic teaching institution into a four-year institution and that has no permanent limitation on the enrollment of lower-division students; or to an upper-level general academic teaching institution that is permitted to admit lower-division students or offer lower-division courses and that has no permanent limitations on the enrollment of lower-division students.

For the first two state fiscal years that begin after the institution first admits lower-division students or offers lower-division courses, the formula for upper-level general academic teaching institutions shall be applied to upper-division semester credit hours at the institution. Beginning with the third state fiscal year that begins after the institution first admits lower-division students or offers lower-division courses, the formula for four-year general academic teaching institutions shall be applied to upper-division semester credit hours at the institution, except that the board shall modify the formula to provide the institution additional funding equal to a percent of the difference between the amount derived from application of the four-year formula to the institution's upper-division semester credit hours and the amount derived from application of the upper-level formula to those semester credit hours. The percent to be applied to that difference is 87.5 percent for the first fiscal year to which this rider applies and is reduced by 12.5 percentage points for each subsequent fiscal years.

28. **Transition Funding for Programmatic Restructuring.** The Coordinating Board is directed to develop an adjustment to the formula system by which institutions that lose enrollments in a funding base period due to a restructuring of course offerings to meet changing societal educational demands are held harmless from loss of formula funding from enrollment decline. The adjustment process should include certification by the relevant institutional governing board that programmatic changes are being undertaken that are approved by the Coordinating Board and that could result in a significant decline in credit hours earned by students prior to the enrollment loss actually occurring. It is intended that the hold harmless mechanism be developed for the public community/junior colleges, Lamar lower-division institutions, Texas State Technical College, general academic teaching institutions, and the health-related institutions and take into account the unique educational mission of each segment of higher education delineated above. The formula adjustment should be directed only to courses that are vocational/technical or applied in nature and not to traditional academic course offerings. No institution may be held harmless by such provision for the same individual set of course restructuring for more than one two-year period.
29. **Allied Health Education Review.** The Texas Higher Education Coordinating Board shall complete a study by August 31, 1994 of all undergraduate allied health courses which could be taught in a more cost effective manner at universities, health-science centers, or community/junior colleges. The study shall include an analysis of curriculum, costs per student, and a strategic plan for the needs of Texas health care as supplied by allied health programs.

In addition, by January 1, 1995 the Coordinating Board shall recommend to the Legislature a plan for quality allied health care at the most cost effective manner. If it is recommended by the Coordinating Board to transfer identified courses from the health science centers to universities or community/junior colleges, the health science centers shall have until August 31, 1995 to submit a plan for reducing costs to be in line with the cost of allied health programs statewide.

- 30. **Minority and Women Recruitment and Retention Programs Study.** The Texas Higher Education Coordinating Board shall conduct an analysis of all minority and women recruitment and retention programs at the 35 general academic teaching institutions to determine the adequacy and efficiency of those programs, with emphasis on any possible duplication among those programs. The Coordinating Board shall report findings and any recommendations to the Legislative Budget Board staff by August 31, 1994. The Legislative Budget Board staff will submit final findings and any recommendations to the Legislative Budget Board prior to the Seventy-fourth Texas Legislature.
- 31. **Appointments to Coordinating Board Advisory Committees.** Appointments of faculty or university personnel to positions on formula advisory committees to the Texas Higher Education Coordinating Board shall be approved by either the president or chancellor of the employing university or system.
- 32. **Contingency Appropriation for Senate Bill 218 (Loan Repayment Assistance for Certain Family Practice Physicians).** Contingent upon the enactment of Senate Bill 218 or similar legislation, the amount of \$500,000 per year is appropriated for the 1994-95 biennium for the purpose of providing repayment assistance to physicians in approved family practice residency training programs in accordance with the provisions of V.T.C.A., Education Code, Sec. 61.532(3). The Texas Higher Education Coordinating Board shall report to the Seventy-Fourth Legislative gender and ethnicity data concerning physicians receiving tuition loan repayment assistance due to this program.
- 33. **Contingency Appropriation for House Bill 1261 (Texas Partnership and Scholarship Program).** Contingent upon the enactment of House 1261, Seventy-third Legislature, Regular Session, or similar legislation, \$28,870 in 1994 and \$17,501 in 1995 is appropriated from the General Revenue Fund to Strategy A.2.1., Improve College Participation and Graduation Rates for administration of the Texas Partnership and Scholarship Program.

2. **Appropriation of Charges and Fees.** There is hereby appropriated to The University of Texas Medical Branch at Galveston all charges and fees collected from pay patients for the general expenses of the medical branch hospitals, including maintenance, support, and salaries of employees for the fiscal years ending August 31, 1994 and 1995.
3. **Rates, Donations and Gifts.** The Board of Regents of The University of Texas System shall fix reasonable rates to be charged and collected from pay patients of the hospitals, and may make and enter into contracts for the hospitalization of the indigent sick and accept donations and gifts for the support and maintenance of the hospitals and may utilize up to \$5 million per annum of local income to match any gift made to the John Sealy Memorial Endowment Fund, a permanent endowment for biomedical research at The University of Texas Medical Branch at Galveston, provided, however, such match will not result in any reduction in the level of services for patients or any requirement for general revenue replacement. Any project initiated under this authorization shall not be structured in such a manner that will require future specific appropriation of general revenue. Provided, however, that this provision shall not be construed so as to authorize, without the prior and specific approval of the Legislature, the acceptance of real property which would require an appropriation by the Legislature for maintenance, repair, or construction of buildings.
4. **Helicopter Operation.** The University of Texas Medical Branch at Galveston is authorized to lease and operate a helicopter for the purpose of transporting critically ill or emergency patients to the medical branch hospitals. No state funds are to be used for the operation of this helicopter, except where the patient served is indigent or through an interagency contract with another state agency, or unless costs are reimbursed from insurance proceeds.

5. **Merit Requirement for Employees of Institutions and Agencies of Higher Education.** Notwithstanding any other provision of this act, salary increases for employees of institutions and agencies of higher education shall be awarded on the basis of merit and performance in accepted activities. This shall not be interpreted so as to preclude salary adjustments designed to avoid salary inequities. If a salary increase is granted to state employees and officials including employees of institutions of higher education by other provisions of this bill, there is hereby appropriated to each institution and agency of higher education an amount equal to the rate of the authorized salary increase times the total of salaries of the institutions and agencies which are paid from appropriated funds. Sec. 8. Expenditure Provisions. The expenditure of the appropriations made in this Article or authorized in law for institutions of higher education except bequests and gifts specifically designated to be in some manner handled otherwise, shall be subject to the provisions of this section which follow and with exceptions only as specifically noted:

3. Clearing Accounts.

- a. The State Comptroller and the State Treasurer are to credit such receipts deposited by each such institution to a separate fund account for the institution depositing the receipts. For the purpose of facilitating the transferring of such institutional receipts to the State Treasury, each institution may open in a local depository bank a clearing account to which it shall deposit daily all such receipts, and shall, not less than every three (3) days make remittances therefrom to the State Treasurer of all except Five Hundred Dollars (\$500) of the total balance in said account, such remittances to be in the form of checks drawn on the clearing account by the duly authorized officers of the institution, and no disbursements other than remittances to the State Treasury shall be made from such clearing account. All moneys so deposited in the State Treasury shall be paid out on warrants drawn by the Comptroller of Public Accounts, as is now provided by law.
- b. At their option, the institutions may use their local depository bank account in lieu of the special clearing account, provided that the general requirements as set out in the above paragraphs, for deposits and transfers to the State Treasury, are complied with.

4. Revolving Funds.

- a. Each institution affected by this section, at its option, is hereby authorized to maintain a revolving fund to facilitate the payment of nominal expenses and to pay bills within cash discount periods. The institutions may use the revolving fund for regular monthly payrolls as well as for weekly and special payrolls. Disbursements from the revolving funds are to be reimbursed from respective items of educational and general appropriation made herein, the State Comptroller being hereby authorized to make such reimbursements on claims filed with him by the institutions under his regularly prescribed procedures except that one voucher and one warrant may cover any number of claims for this purpose. These reimbursement claims shall meet the same requirements as other claims against state appropriations, and each institution shall prepare such a reimbursement claim as at the close of business on the last day of each month and as many times during the month as may be expedient in order to make unnecessary the maintaining of an unreasonably large revolving fund.
 - b. The respective governing board shall determine the amounts of the revolving funds to be set up for each institution, and may increase or decrease the amounts if necessary. Such governing board shall designate a depository bank for each revolving fund, and shall specify the officers and/or employees to sign checks drawn on each such fund. The depository bank for each revolving fund shall be required to secure the deposit as provided by law.
 - c. Appropriations to all institutions of higher education and systems, except funds identified exclusively for salaries, may be used to reimburse any revolving fund operated for the benefit of one or more parts or component units of an institution or system, such as a motor pool for managing automotive vehicles authorized by this Act, a feed supply center, an office supply or laboratory supply center, a computer center, or any other operations of a similar nature established by authority of the governing board of said institution or system.
- 5. Local Depositories.** The governing boards of the respective institutions for which appropriations are made in this Article are hereby authorized to select depository banks for the safekeeping of funds which are authorized, by statute, to be maintained outside the State Treasury. The boards shall require depository banks to furnish adequate surety bonds or securities to be posted for the assurance of safety of such deposits. The depository bank or

banks so selected are hereby authorized to pledge their securities for assurance of safety for such funds. All such local funds shall be deposited in these depositories within seven (7) days from date of collection. The governing boards may require the depository so designated and selected to pay interest on deposits at a rate to be agreed upon by said depositories and said boards.

6. **Investment Reports.** The Audit Committee may require the governing board of each of the educational institutions named in this Article to file with the State Auditor a report of all investment transactions involving endowment funds, short-term and long-term investment funds, and all other securities transactions during the preceding year, on forms as prescribed by the Legislative Budget Board. Copies of such reports, if submitted, shall be available for public inspection.
7. **Central Services Accounts.**
- a. Out of funds appropriated in this Article, the governing boards of the university systems and their component units, and institutions of higher education may employ persons to serve two or more parts or component units of the system or institution and may pay their salaries in whole or in part from the informational items of appropriation made herein to any component unit. The governing boards are authorized to establish accounts from which salaries and expenses for the administration and supervision of the units of the system or institution may be paid and to require the units, including any other agency the administration of which it may be charged with by law, to pay into this account from any general revenue, local, or institutional funds their proportionate share as determined by the board for the expense of such administration and supervision. The Comptroller of Public Accounts is authorized to set up an account for each of the systems or institutions and to deposit in the account funds to the amount authorized by the governing boards and executive heads of the respective units, from funds appropriated by the Legislature to the units for noninstructional salaries and general operating expenses. The Comptroller is authorized to draw warrants against such accounts based on vouchers submitted by the systems or institutions in payment of salaries, maintenance, equipment or travel incidental to the administration and supervision of the respective units.
- b. The systems and institutions whose governing boards and component units are subject to the above are authorized to establish the following accounts:
- Texas A&M University System Central Services Account
 - The University of Texas System Central Services Account
 - University of Houston System Central Services Account
 - Texas Tech University and Texas Tech University Health Sciences Center Central Services Account
 - East Texas State University Central Services Account
 - University of North Texas Central Services Account
 - Texas College of Osteopathic Medicine Central Services Account
 - Lamar University System Central Services Account
 - Texas State University System Central Services Account
- c. Travel expense incurred by a person employed by one unit of an above system or institution in connection with service to the other units may be reimbursed by the unit for which such services are performed or proportionately if more than one such unit is involved.

**SPECIAL PROVISIONS RELATING ONLY TO STATE AGENCIES
OF HIGHER EDUCATION
(Continued)**

- 8. Utility Revolving Funds.** The governing boards of Texas Woman's University, Texas Tech University, West Texas State University, all components of the University of Houston System, Texas State University System, and The University of Texas System are authorized to use appropriated funds, except funds expressly identified for salaries, to make payments of debt service and other payments in connection with utility plant revenue bonds and utility plant operation and maintenance expenses, and/or to reimburse any revolving fund now or hereafter established in connection with providing utility services to any building or facility of the college or university, in accordance with the general principles established by Senate Bill No. 365, Acts of the Sixtieth Legislature, Regular Session, 1967, originally codified as Vernon's Annotated Civil Statutes, Article 2909c-1, and the creation and maintenance of any such revolving fund is hereby authorized.
- 9. Appropriation Expenditure Authorization.**
- a. The educational and general appropriations made in this Act to the general academic teaching institutions, health centers, health science(s) centers, medical education programs and Texas State Technical College may be expended for the following purposes, including, but not limited to: General Administration and Student Services; General Institutional Expense; Staff Benefits; Faculty Salaries; Departmental Operating Expense; Instructional Administration; Organized Activities; Library; Research Enhancement; Extension and Public Service; Plant Support Services; Campus Security; Building Maintenance; Custodial Services; Grounds Maintenance; Utilities; Special Items; Lease of Facilities; and Patient Care.
 - b. No educational and general funds appropriated to any institution or agency named in this article may be expended on auxiliary enterprises.
- 10. Tuition Revenue Bonds and Revenue Bonds.** Funds clearly identified in separate informational strategies to the general academic teaching institutions and health sciences centers for revenue or tuition revenue bond retirement may be expended only to reimburse institutions or centers for debt retirement authorized by V.T.C.A., Education Code, Section 55.17 (e-2), (f-2); Section 55.171; Section 55.1711; Section 55.1712; Section 55.172; Section 55.19 and any additional authorization in House Bill 2058 or Senate Bill 618 as enacted by the Seventy-third Legislature. Any funds in excess of the amount expended for debt retirement shall be reverted to the General Revenue Fund at the end of each fiscal year.
- Sec. 9. Recruitment of Students.** No general revenue, local funds, or institutional funds may be expended for travel expenses incurred outside the boundaries of the State of Texas for the purpose of direct recruitment of students, unless the students being recruited are qualified minority applicants whose attendance at a Texas public institution would help that institution meet its enrollment goals established by the Texas Educational Plan for Higher Education or unless the students being recruited graduated at the top ten percent of their graduating class.
- Sec. 10. Television Stations Prohibited.** None of the educational and general funds appropriated in this Article may be expended for the acquisition, construction or operation of television transmitter stations; provided, however, this prohibition shall not be construed so as to prevent the institutions of higher education named in this Article from using closed-circuit television for purely instructional purposes, or to prevent institutions with existing transmitter stations to use them for educational purposes, or to prevent the continuance of operating arrangements with existing transmitter stations for purely educational purposes.
- Sec. 11. Intercollegiate Athletics.** The special and general provisions of Articles III and V of this Act shall not apply to intercollegiate athletics. The governing boards of the respective institutions of higher education shall make such necessary rules and adjustments as may be deemed advisable

for the management and operation of such activities; however, no funds under control of intercollegiate athletics may be used to purchase alcoholic beverages; no educational and general funds appropriated may be used for the operation of intercollegiate athletics; such rules and adjustments shall be designed to complement the rules applicable to other departments of the respective institution and finally, such rules and adjustments shall specifically prohibit violation of NCAA or other governing body rules with respect to recruitment of athletes.

Sec. 12. Prohibition Against Additional Museums. None of the educational and general funds appropriated in this Article shall be used for establishing additional museums or for the maintenance and operation of museums unless the language of this Act or of other acts and resolutions of the Legislature specifically authorizes such use of educational and general funds.

Sec. 13. Method of Financing Scholarships.

1. Out of the funds identified by this Article in the informational items described as "Other Educational and General Income" or "Other Educational, General and Patient Income," the respective governing boards of the general academic teaching institutions and of the health centers, health science centers, medical education programs or technical colleges may allocate and expend the actual receipts in such informational item for student scholarships pursuant to the provisions of V.T.C.A., Education Code, Sec. 56.031 to Sec. 56.038, cited as the Texas Public Educational Grants Program.
2. Out of the funds identified by this Article in the informational strategies described as "Scholarships," the respective governing boards may allocate and expend for student scholarships and the institutional share required to match Federal Work Study Funds such amounts as the boards may determine; provided, however, that each student receiving such scholarship first shall have utilized any federal grant funds for which the student may reasonably be eligible; and, that such scholarship, when combined with all other grant or gift funds awarded to the student, shall not exceed seventy percent (70%) of the reasonable expenses to be incurred by the student in the semester or term for which the scholarship is awarded; and provided, however, that no student shall receive an amount in excess of demonstrated need. The respective governing boards may transfer up to one-half of the amount to be awarded as scholarship to each otherwise eligible student to the Texas Higher Education Coordinating Board for use as matching funds to be awarded to that student through the Texas Public Educational Grants Program.
3. Copies of such approved allocations together with copies of rules and regulations adopted by the respective governing boards concerning the award of such scholarships, shall be filed with the Coordinating Board and with the Comptroller prior to the disbursement of any moneys for scholarships. Copies of any subsequent changes in such allocations or rules shall be similarly filed with the Coordinating Board and with the Comptroller.
4. No educational and general funds appropriated in this Act for scholarships to institutions of higher education may be used to provide athletic scholarships.
5. Out of the additional funds appropriated for the 1994-95 biennium for the informational strategy described as "Scholarships," it is the intent of the Legislature that the respective governing boards shall allocate and expend such funds for need-based student scholarships regardless of the race, sex, color or ethnicity of the student recipient.

Sec. 14. Use of Educational and General Funds for Alumni Activities Prohibited. None of the educational and general funds appropriated by this Article may be expended by state agencies of higher education for the support or maintenance of alumni organizations or activities.

**SPECIAL PROVISIONS RELATING ONLY TO STATE AGENCIES
OF HIGHER EDUCATION**

(Continued)

Sec. 15. Limitation of Nonresident Enrollment in Certain State-supported Professional Schools.

1. None of the funds appropriated by this Act, regardless of the source or character of such moneys, may be expended for the establishment, operation, or maintenance, or for the payment of any salaries to the employees in, any wholly or partially state-supported medical, dental, or law school (a) which imposes a limitation on the number of students that it admits, (b) which in an academic semester denies admission to one or more Texas residents who apply for admission and who reasonably demonstrate that they are probably capable of doing the quality of work that is necessary to obtain the usual degree awarded by such school, and (c) which in the same academic semester admits, as either class, nonresidents of the State of Texas in a number greater than 10% of the class of which such nonresidents are a part. Limitation of nonresident enrollment at The University of Texas Law School, Texas Tech University School of Law, and the University of Houston Law Center may be increased to 20% of the class of which nonresidents are a part provided that the admission of such nonresident students is on the basis of academic merit alone. By the provisions of this paragraph it is intended to withhold funds appropriated by this Act from state-supported medical, dental, and law schools which limit their enrollments and which fill more than 10% of their classes with non-resident students in the case of medical and dental schools, and 20% in the case of The University of Texas Law School, Texas Tech University Law School and the University of Houston Law Center, when the result of admitting a nonresident denies admission to a qualified Texas applicant. This provision shall not apply to the funds appropriated to the Coordinating Board for the funding of Baylor College of Medicine, Baylor College of Dentistry, or to funds appropriated for tuition equalization grants for students attending private colleges.
2. In addition, The University of Texas Southwestern Medical Center at Dallas may admit up to 25 competitively recruited medical students in each entering class for a specialized six-year program of clinical and research training designed to lead to the M.D. and Ph.D. degrees irrespective of whether those students are Texas residents.

Sec. 16. Off-campus instruction. General academic institutions may teach courses off campus with the following restrictions:

1. At the conclusion of each fiscal year, the Coordinating Board shall file a report with the Executive Budget Office and the Legislative Budget Board on all general academic institutions concerning off-campus semester credit hours for that fiscal year.
2. Semester credit hours generated at upper level centers authorized by the Legislature or by the Coordinating Board, as well as at Prairie View A&M's Houston nursing program and Texas Woman's University nursing programs in Dallas and Houston are not considered to be off-campus.
3. All courses taught off campus must be taught by a regular faculty member or administrator who is employed at least half-time on the main campus of the institution. The Commissioner of Higher Education may waive this requirement in special cases where institutions can justify the use of a uniquely qualified individual. Allied health and vocational instructors are exempted from this requirement.

Sec. 17. Major Repairs and Rehabilitation.

1. Unless otherwise indicated, it is declared to be legislative intent that the informational strategy "Major Repairs and Rehabilitation of Buildings and Facilities" be expended as nearly as practicable in the manner summarized within the institution's informational rider pattern. However, such work may be done by the institution's own maintenance staff.
2. Informational items for "Major Repairs and Rehabilitation of Buildings and Facilities" shall include salaries, wages and the cost of materials for extraordinary or major repairs, rehabilitation or renovation of existing buildings and facilities (including production and distribution facilities where such facilities do not primarily serve auxiliary enterprises) which involve relatively large amounts of funds, are not recurring in nature and increase the use value or the service life of an asset. Major repairs and rehabilitation include any measures taken to eliminate health and safety hazards, correct structural and mechanical defects that would endanger the integrity of a building, facility or its components, reduce institutional operating costs and upgrade or convert existing facilities. This informational item does not include new construction.

Sec. 18. Clear English Required. All Texas public universities that utilize teaching assistants, instructors, lab assistants, research assistants, lecturers, assistant professors, associate professors, and full professors whose primary language is not English shall establish a program or short course that will ensure that all courses (with the exception of foreign languages) will be clearly taught in the English language, or in signed English; provided that, this section shall not prohibit individual assistance to a non-English speaking student in his or her native language during course instruction. The Texas Higher Education Coordinating Board shall monitor and approve such programs at each institution of higher education to verify compliance with V.T.C.A., Education Code, Sec. 51.917. If the Coordinating Board determines that an institution has failed to establish an adequate program or short course by September 1, 1993, the Coordinating Board shall notify the Comptroller of Public Accounts, who shall withhold from fiscal years 1994 and 1995 an amount equal to five percent of the faculty salary amounts appropriated to that institution for each year of the biennium.

Sec. 19. Dismissal of Unneeded Faculty. It is the intent of the Legislature that the general academic institutions, when entering into contractual agreements with faculty and staff, should review, consider, and take into account any and all available information regarding trends and projections in student enrollment with particular attention being paid to indications of decline in the number of actual and/or potential students enrolling at said institution.

Sec. 20. Medical School Enrollment.

1. It is the intent of the Legislature that the first year class enrollment of undergraduate medical students in the fiscal years ending August 31, 1994 and August 31, 1995, shall be no less than 200 students at The University of Texas System medical colleges and 100 students at the Texas College of Osteopathic Medicine and the Texas Tech University Health Sciences Center College of Medicine. However, for the biennium ending August 31, 1995, in order to accommodate the reshaping of The University of Texas Health Science Center at Houston, the first year Houston undergraduate medical student enrollment may vary between 100 and 200 but may only retain funding for 40 of those lost students for the biennium. The University of Texas Health Science Center at Houston shall at least maintain the current ethnic minority breakdown in first year enrollment of undergraduate medical students. Each school of medicine shall certify its first year class enrollment as of September 15 to the Legislative Budget Board and the Governor's Budget Office. This provision shall not be construed as requiring any school of medicine to accept an unqualified applicant. In the event that a school of medicine falls below the required first year class enrollment of

undergraduate medical students by more than five percent for fiscal years 1994 and 1995, the school shall report to the Legislative Budget Office the reasons for failing to meet the required enrollment. It is the intent of the Legislature that this information be taken into account when preparing the appropriation recommendations for the Seventy-fourth Legislature.

2. Health science institutional and medical schools may allocate educational and general funds appropriated in this Article for scholarships to not more than five percent of the students in each class of the institution.

Sec. 21. Tuition Collection. On or before the dates for reporting official enrollments each semester to the Coordinating Board, each institution of higher education will collect in full from each student that is to be counted for state aid purposes the amounts set by law as tuition in accordance with the installment tuition payment plan provided for by V.T.C.A., Education Code, Chapter 54, as amended. Valid contracts with the United States Government for instruction of eligible military personnel, and valid contracts with private business and public service-type organizations or institutions such as hospitals, may be considered as collections thereunder but subject to adjustments after final payment thereof.

Sec. 22. Compliance with Texas Educational Opportunity Plan. It is the intent of the Legislature that state agencies and institutions of higher education give top priority and consideration to compliance with the spirit and mandates of the Texas Educational Opportunity Plan for Higher Education.

Sec. 23. Minority Student Independent Programs at UT-Austin and TAMU. Out of the funds appropriated to The University of Texas at Austin and Texas A&M University at least \$130,000 per year shall be expended for independent programs designed to recruit and retain through scholarships and financial aid Black and Mexican American students. These universities will by the year 2000 increase the number of Mexican American and Black students to a level which reasonably reflects the proportion of Mexican Americans and Blacks in Texas. They shall be required to submit to the Governor, Lieutenant Governor, and Speaker of the House a report detailing how the funds were spent and the progress of the programs. Failure to implement and sustain the programs will result in a reduction of \$650,000 per year of funds allocated to the respective campus(es) for the biennium. Any reduction will be allocated to the program entitled Scholarship Fund for Educationally Disadvantaged Students and for Recruitment of Minority Staff and Faculty that is administered by the Coordinating Board and will be available to all of the public colleges and universities except those which fail to abide by this provision.

Sec. 24. Indigent Health Care County Contracts Required. It is the intent of the Legislature that all institutions of higher education providing indigent health care contract with relevant counties in their service area to recover the costs associated with treating those counties' indigent patients.

Sec. 25. Formula Variable and Educational and General Income Audits. The Texas Higher Education Coordinating Board in consultation with the State Auditor's Office and the Legislative Budget Office, shall clearly define all variables used by the Seventy-third Legislature in arriving at formula appropriations for 1994 and 1995. According to an audit plan developed in consultation with the Coordinating Board and Legislative Budget Office, the State Auditor shall audit the accuracy of all variables of selected formulas used in making 1994 and 1995 formula appropriations and report any differences from data submitted by the institutions to the Coordinating Board. The Coordinating Board shall then calculate a new appropriations amount for each institution that reported data in conflict with that verified by the Auditor. These calculations shall then be reported to the Legislative Budget Board and the Comptroller of Public Accounts and used to revise appropriation authority accordingly.

**SPECIAL PROVISIONS RELATING ONLY TO STATE AGENCIES
OF HIGHER EDUCATION
(Continued)**

In addition, the State Auditor shall audit the accuracy of selected components of educational and general income reported in the institutional requests for legislative appropriations for fiscal years 1994 and 1995.

The State Auditor may require the assistance of an institution's internal auditor in performing the audits described in this section.

Sec. 26. System Offices Funding Authorized.

1. Educational and general funds appropriated to components of The University of Texas, Texas A&M University, University of Houston, Lamar University, Texas State University System and Texas State Technical College Systems may be transferred or contracted to system offices to provide support for coordination, administration, and other related services.
2. The educational and general appropriation for each of the university system offices is hereby allocated to the general academic institutions based on each institution's proportionate share. On September 1 of each year of the biennium the State Comptroller shall transfer the appropriation from each component part to the system office for its support.

Sec. 27. Dental School Clinical Services. It is the intent of the Legislature that services provided at clinics sponsored or staffed by dental schools funded under this Act and operated for the primary benefit of low-income or rural residents not be reduced below the level of such services provided in fiscal year 1989.

Sec. 28. License Plate Scholarship Program. In addition to educational and general funds amounts appropriated by this Act, available balances and the portion of fees deposited in the state treasury during the biennium ending August 31, 1995, to the credit of the general academic institutions as provided by Vernon's Annotated Civil Statutes, Article 6675a-5j, is appropriated for that period to the general academic teaching institution for which it was credited for the purpose of providing scholarships for students who demonstrate a need for financial assistance.

Sec. 29: Practice Plans of Medical, Dental, Nursing Institutions, and Allied Health Units. The governing board of each public medical, nursing, dental, or allied health institution must establish bylaws for any practice plan created by the institution. The bylaws must regulate the collection and expenditure of patient fees paid to the institution and must require that each faculty member as a condition of employment assign all patient fees to the institution to be held in trust by the institution. The bylaws may allow any fees collected to be used for the following purposes: patient care personnel and programs, educational and research personnel and support, medical and professional liability premiums and reserves, faculty and administration salaries and benefits, fee accounting, and collection costs, institutional development and recruitment, new program development, endowment programs, and capital projects. No fees collected may be used for any purpose except that which benefits the mission and purpose of the particular institution. The bylaws must also provide for annual audits of the collections and expenditures of each plan, and must require each institution to provide an annual report of any practice plan to the governing board of the institution within 90 days after the end of each fiscal year. As used in this section, "faculty" includes all persons appointed to clinical, research, or teaching positions of a public institution.

Sec. 30. Annual Reports of Medical School Practice Plans. As a limitation and restriction upon appropriations made by this Act, all agencies that have a public medical school covered under Article III shall not expend funds after a period of one hundred twenty (120) days following the close of the fiscal year, unless there has been filed with the Governor, the State Auditor, the Legislative Budget Board, the Legislative Reference Library and the Comptroller of Public Accounts an annual report as of August 31 of the preceding fiscal year, showing the use of practice

plan funds. The State Auditor's Office shall develop and establish a uniform reporting system for all financial data concerning the medical school practice plans.

Sec. 31. Self-insurance Funds. Any funds of an agency or institution of higher education used for or allocated to a self-insurance fund authorized by Vernon's Annotated Civil Statutes, Article 715(c), for a risk otherwise insurable by the agency or institution of higher education shall be treated by the Comptroller of Public Accounts as an expenditure of the respective funds. The self-insurance funds so created shall be considered designated funds as that term is used in Sec. 51.008(b) of the Education Code. Any self-insurance fund reserves so created shall not exceed in amount the maximum value determined to be actuarially sound for each such self-insurance program.

Sec. 32. Elements of Un-sponsored Charity Costs.

1. **Financially Indigent.** Un-sponsored charity costs shall include the unreimbursed costs of services to the financially indigent. Financially indigent shall mean uninsured or underinsured patients accepted for care with no obligation or a discounted obligation to pay for services rendered based on a teaching hospital or clinic's formal eligibility system which may include: (a) income levels and means testing or other criteria for determining a patient's inability to pay; or (b) other criteria for determining a patient's inability to pay that are consistent with the hospital's mission and established policy. The federal poverty level shall serve as an index for the threshold below which patients receiving care at The University of Texas Medical Branch at Galveston, The University of Texas M. D. Anderson Cancer Center, and The University of Texas Health Center at Tyler are deemed financially indigent.
2. **Medically Indigent.** Un-sponsored charity costs shall include the unreimbursed cost of services to the medically indigent. Medically indigent shall mean patients who are responsible for their living expenses, but whose medical and hospital bills, after payment by third-party payers, where applicable, exceed: (a) a specified percentage of the patient's annual gross income (i.e., catastrophic medical expenses) in accordance with a teaching hospital or clinic's formal eligibility system in such instances where payment would require liquidation of assets critical to living or earning a living; or (b) the criteria for determining a patient's inability to pay as established by The University of Texas Medical Branch at Galveston, The University of Texas M. D. Anderson Cancer Center, and The University of Texas Health Center at Tyler.
3. **Charity Care Determination.** The determination that a patient is financially or medically indigent should occur within 60 days of the patient's discharge from the hospital setting.
4. **Unreimbursed Costs from Coverage Limitations in Government Programs.** Un-sponsored charity costs shall include unreimbursed costs of services provided to patients eligible for federal, state and local government programs including, but not limited to, Medicaid, Medicare, Chronically Ill and Disabled Children's Services (CIDC), services provided under the Maternal and Infant Health Improvement Act (MIHIA), and State Legalization Impact Assistance Grants (SLIAG), when the services provided to such patients exceed or are outside specified coverage limits and no additional coverage is available. The calculation of unreimbursed costs should be based on the amount of reimbursement which would be received if the services provided are within specified coverage limits.
5. **Contractual Adjustments.** The cost of contractual adjustments to faculty physicians or The University of Texas hospitals shall not be counted as un-sponsored charity costs, and shall be defined as discounts made to specified persons, entities, or classes of persons for commercial purposes.

**SPECIAL PROVISIONS RELATING ONLY TO STATE AGENCIES
OF HIGHER EDUCATION
(Continued)**

6. Bad Debt. Bad debts shall not be counted as unsponsored charity costs. Bad debts shall include the uncollected billed charges for services rendered to patients who do not qualify under the definition of unsponsored charity care.

Sec. 33. Unsponsored Charity Costs Reporting Requirement. Each health-related institution including: The University of Texas Southwestern Medical Center at Dallas; The University of Texas Medical Branch at Galveston; The University of Texas Health Science Center at Houston; The University of Texas Health Science Center at San Antonio; Texas Tech University Health Sciences Center; Texas College of Osteopathic Medicine; The University of Texas M. D. Anderson Cancer Center; and The University of Texas Health Center at Tyler shall include in their biennial legislative appropriations request information including the actual amount of unsponsored charity costs provided through each institution's respective physician practice plan, and if applicable, hospital program using the definition of unsponsored charity costs set forth in the section called "Elements of Unsponsored Charity Costs."

Sec. 34. Patient Income Eligibility Guidelines. The University of Texas Medical Branch at Galveston, The University of Texas M. D. Anderson Cancer Center, and The University of Texas Health Center at Tyler shall use the federal poverty level indexed at an agreed-upon level as the guideline for determining indigent patient status, and that each institution's eligibility guidelines regarding copayment by patients deemed financially or medically indigent shall be the same beginning September 1, 1993.

Sec. 35. County Indigent Care Contracts. The University of Texas Medical Branch at Galveston and The University of Texas Health Center at Tyler shall submit to the Legislative Budget Office at the end of each fiscal year a list of counties whose indigent residents have been served by each institution; the total amount of reimbursement received by each institution from each county pursuant to the Indigent Health Care and Treatment Act; and the total cost, by county, of services provided by each institution for which counties are liable pursuant to the Indigent Health Care and Treatment Act. In addition, each institution shall report annually to the Legislative Budget Office on the status of contract agreements or negotiations with each county whose indigent residents have been served by either of the two institutions.

Sec. 36. Family Practice Clerkship Funding. Each medical school or college shall expend the following amounts for the purpose of providing a clerkship in family practice during the third core clinical year pursuant to V.T.C.A., Education Code Section 51.918 (d)(1) as renumbered by Senate Bill No. 232, Acts of the Seventy-second Legislature, Regular Session, 1991. Funding for these clerkships may include appropriated funds, institutional funds or restricted grant funds. These amounts may not be used to supplant allocations made for other purposes to family practice departments and affiliated family practice residency programs. The required third year family practice clerkship must have a set curriculum and the student must take an exam during the clerkship. The compliance of each medical school or college with the provisions of this rider shall be reviewed annually by the state auditor in conjunction with the Family Practice Advisory Committee of the Texas Higher Education Coordinating Board. The state auditor shall report the findings of the review to the Legislature.

All agencies and institutions of higher education shall report to the General Services Commission all non-treasury funds spent in excess of \$10,000 with DBE's in accordance with the current reporting period outlined in House Bill 799, Seventy-second Legislature.

Sec. 38. Reduction in Appropriations Due to Advanced Placement Program. The Texas Higher Education Coordinating Board shall report the calculation of the savings, by institution, of the reduced number of TASP examinations, the reduced number of remedial courses taken and the reduced number of other academic courses taken by virtue of acquiring course credit through the Advanced Placement Testing Program of the College Education Examination Board, to the Comptroller of Public Accounts by December 1, 1993 and December 1, 1994. The amount of the reduction must total not less than \$6,051,421 for fiscal year 1994 and not less than \$6,660,448 for fiscal year 1995, and the Comptroller shall reduce the general revenue funding of those institutions by that amount. In the event that the Coordinating Board is unable to make these calculations or fails to provide this information, the Comptroller shall reduce the general revenue appropriations to general academic institutions across the board as a pro rata reduction in order to achieve the total required budget savings. The savings calculated above are pursuant to a Texas Performance Review recommendation and legislation establishing the Texas Advanced Placement Incentive Program.

Sec. 39. Coordinating Board Reporting Requirement. To help the Legislature, institutions of higher education, and the public know the status of efforts to carry out both the letter and the spirit of the Texas Educational Opportunity Plan for Higher Education, it is the intent of the Legislature that no later than December 15 of each odd numbered year, each general academic teaching institution, as defined by V.T.C.A., Education Code, Section 61.003, shall report to the Texas Higher Education Coordinating Board for the preceding academic year, the following information in a format to be determined by the Coordinating Board. The Coordinating Board shall compile all information in a biennial report by individual institution and by comparison among institutions, including trends where appropriate. The Coordinating Board shall determine whether each institution has a section of library holdings on gender studies and ethnic studies.

The Coordinating Board may require new measures in addition to these essential measures, based on the availability of new information.

General academic teaching institutions shall report the information required by this section beginning with the 1992-1993 academic year. Information that is not being collected by institutions for 1992-1993 must be reported in subsequent years.

The applicable policies are conversion to statewide utilization of general revenue and educational and general income in setting the institutions' level of appropriation (All Funds Bill Pattern); setting of a 131 hour doctoral cap (Senate Bill 380); and semester credit hour enrollment declines and base period enrollment mix changes. The hold-harmless provisions contained herein are for the 1994-95 biennium only and institutions shall adjust their budgetary and personnel policies to make the need for hold-harmless provisions from legislatively instructed policies unnecessary in future funding periods.

Sec. 41. Delay of Payment and Appropriations Disbursement for Public Education and Public Higher Education. In accordance with Senate Bill 380, 73rd Legislature, Regular Session, the appropriations contained in Article III are subject to the following restrictions:

1. The payments to school districts from the foundation school fund for August 1995 shall be made by the Comptroller on September 1, 1995. The commissioner of education may, based upon a finding of fact as to extreme hardship, waive this delay provision.
2. One-twelfth of the fiscal year 1995 General Revenue Fund appropriations to institutions of higher education are not available for expenditure for obligations incurred for the 1995 fiscal year until September 1, 1995. The Comptroller and the Texas Higher Education Coordinating Board shall disburse the one-twelfth appropriations being held for community colleges on September 1, 1995.

SALARY PROVISIONS

1. **Salary Rates for Classified Positions.** For each fiscal year of the biennium beginning September 1, 1993, within the limitation of funds available for salaries of classified positions, annual salary rates for classified positions shall be in accordance with the above Classification Salary Schedules. Except as specifically provided by other provisions of this Act, salaries of state employees who in August 1993 are in classified positions shall be converted to the salary schedule set forth in this Act as follows:
 - a. For the fiscal year beginning September 1, 1993 the salary of an employee, who in August 1993 is paid at a numbered salary step in salary groups 2 through 21, shall be converted to the salary schedule for fiscal year 1994 in this Act at the same numbered salary step in the same salary group in which paid in August 1993.
 - b. For the fiscal year beginning September 1, 1994 the salary of an employee, who in August 1994 is paid at a numbered salary step in salary groups 2 through 21, shall be converted to the salary schedule for fiscal year 1995 in this Act at the same numbered salary step in the same salary group in which paid in August 1994.
2. **Salary When an Employee Changes Salary Status.** An employee who moves, within an agency or transfers from one agency to another, from an exempt or line-item position to a classified position, shall receive an annual salary rate in the proper salary group not to exceed the salary step equal to the current salary or the next higher salary step rate.
3. **Adjustments to Salary Rates for Reallocated or Reclassified Positions.**
 - a. Reallocation to a higher salary group -- an employee whose classified position is reallocated by this Act to a higher salary group shall receive the step 1 rate in the higher salary group or the rate which he would have received had his classified position not been reallocated, whichever rate is higher; provided, however, an employee whose classified position is reallocated by this Act to a higher salary group may have his salary adjusted not more than two steps higher than otherwise provided by this section. Such additional adjustment shall be for the purpose of maintaining desirable salary relationships among employees in the affected positions. However, in no case shall the employee advance to a step number in the new salary group higher than the step number held prior to the reallocation.
 - b. Reallocation to a lower salary group -- an employee whose classified position is reallocated by this Act to a lower salary group shall receive the annual rate which he would have received had the position not been reallocated, not to exceed the step 8 rate of the lower salary group.
 - c. Reclassification of positions on September 1 -- all state agencies subject to the Classification Act shall review individual job assignments on September 1 each fiscal year and on a regular basis thereafter to insure that each position is properly classified.

If it is determined that, in compliance with the Classification Act, and not contrary to the specific classification and position limitations in this Act, a position should be reclassified to a classification: (a) in a higher salary group the salary rate of the employee shall be determined in the same manner as prescribed above for reallocation to a higher salary group, or (b) in a lower salary group the salary rate of the employee shall be determined in the same manner as prescribed above for reallocation to a lower salary group. Nothing in this subsection shall have the effect of increasing or decreasing the specific classified positions authorized each agency by the Act.

Each agency shall report to the Classification Officer the approach used to comply with this provision and in the event the approach taken is determined by the Classification

SALARY PROVISIONS

(Continued)

Officer to be inadequate, he shall undertake spot audits to determine if positions are properly classified.

4. **Merit Salary Increases.** It is expressly provided that agency administrators may grant merit salary increases to classified employees whose job performance and productivity is consistently above that normally expected or required. Such merit increases shall be subject to the following restrictions:
 - a. The source of funds shall be the items of appropriation in this Act for "Merit Salary Increases," or specific items of appropriation for classified salaries and wages, or appropriation items which include salaries of classified positions;
 - b. For each fiscal year of the biennium beginning September 1, 1993, the maximum monthly rate of expenditure for merit salary increases shall not exceed: (a) an amount equal to 3.4% of the total amount specifically appropriated in such fiscal year in appropriation items for salaries of classified positions divided by twelve, (b) where this Act appropriates in each fiscal year a sum or estimated amount in an appropriation item for a particular program or purpose, the maximum monthly expenditure for such merit salary increases shall not during the first year of the biennium exceed 3.4% of the average monthly payroll of the salaries of employees in classified positions for the six-month period March 1, 1993 through August 31, 1993; nor during the second year of the biennium exceed 3.4% of such average monthly payroll for the six-month period March 1, 1994 through August 31, 1994, or (c) the amount specifically appropriated for "Merit Salary Increases" divided by twelve. It is the intent of the Legislature that the maximum rates of expenditures for merit salary increases be computed separately for each year of the biennium and that such merit salary increases as may be awarded in the first fiscal year of the biennium shall not count against the maximum monthly rate of expenditure for such increases in the second fiscal year of the biennium.
 - c. The Comptroller shall prescribe such accounting and reporting procedures as are necessary to insure that expenditures for merit salary increases shall not exceed the amounts authorized herein for that purpose.
 - d. All departments and agencies shall file a report with the Governor and the Legislative Budget Board at the close of each fiscal year detailing the utilization of merit funds.
 - e. It is the intent of the Legislature that merit salary increases be applied throughout the classified salary groupings authorized an agency.
 - f. For an employee to be eligible for a merit salary increase, the following additional criteria must be met: (a) the employee must have been employed by the agency in a classified position for at least six continuous months prior to the award, (b) at least six (6) months must have elapsed since the employee's last promotion, demotion, achievement bonus award, or merit increase, and (c) agency criteria for granting merit salary increases must include specific criteria and documentation to substantiate the granting of more than a one step merit increase.
5. **Achievement Bonuses.** State Agencies and institutions of higher education are hereby authorized to establish an achievement bonus program and to award achievement bonuses, out of funds authorized below, to employees who have demonstrated a consistent and high level of performance during the period covered by the bonus. All exempt, classified, and hourly employees, whether full-time, part-time, or temporarily employed by the state are to be eligible for the achievement bonus program. Chief executives and persons appointed to full-time paid positions by the Governor may also receive an achievement bonus provided that the

SALARY PROVISIONS
(Continued)

governing body or Governor, as applicable, follows the requirements established in this provision.

Before an employee can be given an achievement bonus, the employee must have been continuously employed by the agency or institution for at least six months and must not have received a salary increase or previous achievement bonus for a minimum of six months prior to the achievement bonus award. For the purposes of this provision a "salary increase" includes: i) an increase in an exempt position salary whether by legislative act, bona fide new position approved by the Governor pursuant to subsection 16 of this Section, or amendments to an exempt position plan pursuant to subsection 17.a. of this Section; ii) a merit salary increase; iii) a promotion; or iv) an increase in the amount of an exempt salary paid up to the authorized maximum. For the purposes of this provision a "salary increase" does not include: i) an across-the-board salary increase authorized in Article V of a General Appropriations Act; ii) a productivity bonus; iii) a reallocation; or, iv) a temporary increase in salary due to a temporary assignment.

An achievement bonus may be no more than 10% of the employee's annual base rate of pay, as defined by Section 811.007(7) of the Government Code. However, in no event shall the aggregate sum of achievement bonuses awarded during a twelve-month period exceed an amount equal to 10% of the receiving employee's base rate of pay. An achievement bonus award for a chief executive, or a person appointed to a full time paid position by the Governor may not receive a bonus in excess of three (3) percent of the annual salary in any twelve month period. The bonus amount is not to be considered when calculating either the employee's or state's contribution for retirement or in calculating future retirement benefits.

Achievement bonus awards may be made only in compliance with Section 109, subsection 3, of this Article.

Prior to granting an achievement bonus, agencies and institutions must complete a notification form, supplied by the Governor's Office of Budget and Planning and the Legislative Budget Board, for each bonus awarded and send a copy thereof to the Governor's Office of Budget and Planning, the Legislative Budget Board, the Senate Finance Committee, the House Appropriations Committee, the assigned House committee for budget and oversight, and the Human Resources Information Services (HRIS) Division of the Comptroller's Office.

6. **Promotions.** A promotion means a change in duty assignment of an employee within an agency from a position in one classification to a position in another classification in a higher salary group requiring higher qualifications such as a greater skill or longer experience, and involving a higher level of responsibility. When an employee is promoted to a position in a higher salary group, he will receive at least a rate one increment higher than his salary rate before promotion or the minimum rate of the new salary range, whichever is higher, and may, at the discretion of the agency administrator, receive an annual rate up to and including the rate designated by the same step number which designated his former rate.
7. **Demotions.** Demotion means a change in duty assignment of an employee from a position in one classification to a position in another classification in a lower salary group. An employee who is demoted shall have his salary reduced at least to a rate one increment below the rate he received before demotion.
8. **Salary Reduction for Disciplinary Reasons.** If a classified employee's performance so warrants, the executive head may reduce his salary for disciplinary reasons to a step rate in the designated salary group no lower than the minimum step rate. The employee's pay may

SALARY PROVISIONS
(Continued)

- be restored to any step rate in the range up to and including his prior rate as such employee's performance improves.
9. **Reductions In Force.** Notwithstanding agency rules, regulations, personnel handbooks or policies, agencies undergoing statutorily mandated reorganizations may institute reductions in force occurring as a direct result of the reorganizations or reductions.
 10. **Salary Limited to Maximum Step Rate.** No salary adjustment authorized by this section shall result in an employee receiving an annual salary rate in excess of the maximum rate of the salary group to which his classified position is allocated.
 11. **Temporary Assignment.** To facilitate the work of state agencies, any classified employee may, during emergencies or other special circumstances, be temporarily assigned to other duties for periods not to exceed three months and during that time may receive the appropriate rate of pay.
 12. **Reclassifications.**
 - a. As provided in the Position Classification Act of 1961, a position may be reclassified to another class of work in the Classification Plan as a result of classification audits or of program reorganizations by executive heads, or to a new classification properly established by the Classification Officer. Reclassification shall not be interpreted to mean a change in the employee's duty assignment, but only shall mean the proper definition of duties and classification of the position based upon duties actually performed by the employee; hence, a position shall be reclassified for the sole purpose of complying with the requirements of the Classification Act.
 - b. If classification audits determine that positions are classified higher than is warranted by actual duty assignment, the employees occupying such positions may be subject to salary reduction under such policies and procedures as the Legislative Audit Committee may prescribe.
 13. **Part-time Employees.** Regular full-time positions paid out of funds appropriated may also be filled by part-time employees except for line item exempt salaries not designated as part-time. In computing the salaries of these employees, the rates of pay shall be proportional to the rates authorized for full-time classified employment. It is further provided that part-time employees as described in this subsection shall be subject to all of the provisions of this section.
 14. **Hourly Employees.** It is the intent of the Legislature that hourly employees shall receive per hour rate increases proportionate to those provided in this Act for full-time salaried classified employees.
 15. **Salary Supplementation.**
 - a. No employee holding a position classified in this Act under the authority of the Position Classification Act of 1961 or a line item or exempt position for which the salary is specifically set in this Act may receive a salary supplement from any source unless a specific grant of authority is provided in the agency's appropriation pattern in this Act, or as provided by law.
 - b. None of the funds appropriated to departments, agencies and institutions of higher education covered in Articles I through IV of this Act shall be expended for payment of salary to any person whose classified or individual line item exempt salary is being

SALARY PROVISIONS
(Continued)

supplemented from other than appropriated funds until a report showing the amount and sources of salary being paid from other sources has been reported to the Secretary of State and Comptroller of Public Accounts.

16. **Exemption of Positions by the Governor.** Appropriations may be used to pay the salaries of positions exempted from the Classification Plan by the Governor under authority granted in Section 2. of the Position Classification Act of 1961 with the limitation that appropriations may be used only to pay the salaries of bona fide new positions that are established to carry out duties in relation to programs, functions, etc., that were not anticipated and therefore, not authorized for funding under this Act. It is expressly provided that this authorization does not extend to the use of appropriations to adjust the salary of any line item or exempt position retitled solely for the purpose of adjusting salaries that have already been established by the Legislature in this Act and any position exempted from the Position Classification Plan by the Governor shall contain a certification that the exemption is for a bona fide new position. No payment of funds for a position exempted by the Governor shall be made by the Comptroller of Public Accounts until formal notification of the action of the Governor to exempt the position has been filed with the State Classification Officer and the Legislative Budget Board. If a position is exempted by the Governor in the first year of this biennium, the position established may be continued and the NTE rate established for the position may be adjusted the second year of the biennium at no higher than the same rate as adjustments set forth in this Act for classified positions.
17. **Designation of Exempt Positions and Classified Salary Rates.**
- a. Notwithstanding other provisions in this Act relating to the Position Classification Plan or exempt positions, an agency head may designate the title, number and compensation rate of exempt positions to be utilized in accordance with standards developed by the Governor with the consent of the Legislative Budget Board. Except as provided elsewhere in this subsection, this provision does not apply to a position listed in a "Schedule of Exempt Positions" in this Act, which shall receive compensation at a rate not to exceed the level shown. The authority granted in this provision relating to exempt positions and salaries is contingent upon the filing of written notice with the Governor's Office of Budget and Planning and the Legislative Budget Board at least 60 days prior to the effective date of any such action and is subject to the disapproval of the Governor or the Legislative Budget Board within that period. This provision may apply to a position listed in a "Schedule of Exempt Positions" in this Act, provided that the request is submitted by the agency's governing board or commission, and that both the Governor's Office of Budget and Planning and the Legislative Budget Board approve any change in compensation.

Exempt positions and compensation rates authorized during fiscal years 1992 and 1993 pursuant to Article V, Section 1, subsection 18.a., of House Bill 1, Seventy-second Legislature, First Called Session, as may be adjusted for any across-the-board salary increases authorized in that Act or in this Act, are hereby reauthorized effective September 1, 1993.

Exempt positions and compensation rates authorized during fiscal years 1992 and 1993 pursuant to Article V, Section 1, subsection 17 of House Bill 1, Seventy-second Legislature, First Called Session, as may be adjusted for any across-the-board salary increases authorized in that Act or in this Act, are hereby reauthorized on a temporary basis and shall be effective for the period of time from September 1, 1993 through November 30, 1993.

SALARY PROVISIONS
(Continued)

- b. Agencies covered by Section 1 of this Article shall make employments in accordance with the provisions of the Position Classification Plan. It is specifically provided that agencies may utilize classified position titles as appropriate and agency head may determine the step within the salary pay group for personnel employed under the Position Classification Plan.
18. **Personnel and Payroll Reporting Procedures.** To facilitate pre-audit of payrolls and classification audits to assure conformity with the provisions of this Act, and to provide the Legislative Audit Committee with current information on employment and wage rate practices in the state government, the Comptroller and the State Auditor shall jointly promulgate and issue uniform procedures for personnel and payroll reporting for all state agencies.

OTHER EMPLOYMENT POLICIES AND PROVISIONS

Sec. 2. Method of Salary Payments.

1. All annual salaries appropriated by this Act are for full-time employment unless specifically designated as part-time or other and shall be paid in twelve (12) equal monthly installments, except as otherwise provided in Article II of this Act. Except for patrolmen and other law enforcement positions in the Department of Public Safety which shall be paid only at the annual rates stipulated in the particular language accompanying the appropriations therefor, this paragraph shall not be construed so as to prevent the head of any other agency of the state from paying less than the maximum salary rates specified in this Act for line item positions, or the employment of part-time employees to fill regular positions provided for in this Act, so long as the salary rates for such part-time employees are proportional to the regular rates for full-time employment. The equivalent monthly rate of pay for annual employees maintaining a 40-hour work week and covered under Article 5165a, Vernon's Civil Statutes, as amended, shall be determined by dividing the annual salary by twelve (12). The hourly rate for a given month shall be determined by dividing the monthly rate by the number of working hours in that month. This basis applies to partial pay and other special situations. When a full-time or regular part-time employee is on leave without pay, compensation for that particular pay period shall be reduced at the equivalent hourly rate of pay times the number of work hours lost by leave without pay.

Facilities of the Texas Department of Mental Health and Mental Retardation in Article II and the agencies of higher education, and the schools for the blind and deaf in Article III of this Act which make contracts for less than a twelve-month period may pay salaries in equal monthly payments for the period contracted for.

2. Agencies having a "Schedule of Exempt Positions" following their appropriation may expend funds to employ those positions designated as exempt at rates not to exceed the rates shown. Each title authorizes one position unless the title is followed by a number indicating the number of positions authorized or by (UL) which authorizes an unlimited number of positions for such position title.

The number of authorized positions in a title shown in the "Schedule of Exempt Positions" may be exceeded only under the following conditions: (1) for the purpose of hiring a replacement in a key management position as certified by the agency head, (2) the current incumbent of the position must have formally resigned or otherwise announced irrevocable plans to vacate the position, (3) the position number limitation may be exceeded for no more

than one full calendar month per year per position, (4) reporting such exceptions will be made in such manner as prescribed for payroll reporting procedures.

3. No deduction shall be made from the salary or wages of any state employee who is called for jury service; nor shall such employee be required to account to the state for any fee or compensation received for jury service.
4. None of the moneys appropriated under this Act shall be used for the payment of salaries to any employee who accepts witness fees in contravention of the following provisions:

Any state official or employee called to appear in his official capacity in any judicial action or legislative investigation shall neither accept nor receive any witness fees for such a governmental appearance;

But if the appearance as a witness is not in an official capacity but is to testify from personal knowledge concerning matters related to the inquiry, then such employee or official shall be entitled to any customary witness fees;

And any state employee or official appearing as an expert witness shall be entitled to accept compensation for his appearance only when such appearance shall be made on his own time;

But this prohibition against accepting compensation shall not extend to any mileage or per diem allowance tendered to the state employee or official for expenses incurred while serving as a witness, unless the state official or employee has also made a claim for such expenses against the state, and in no instance shall there be double reimbursement for expenses.

5. Overtime.

- a. Employees Subject to FLSA. An employee who is subject to the overtime provisions of the Fair Labor Standards Act of 1938, 29 U.S.C. Secs. 201 et seq., (FLSA) is entitled to compensation for overtime as provided by that Act and this subdivision.

An employee who is required to work hours in excess of 40 hours in a workweek is entitled to compensation for the excess hours either by:

- (1) the agency allowing (or requiring) the employee to take compensatory time off at the rate of 1-1/2 hours off for each hour of overtime; or
- (2) at the discretion of the employing agency, in cases in which granting compensatory time off is impractical, the employee receiving pay for the overtime at the rate equal to 1-1/2 times the employee's regular rate of pay.

Any paid leave or holidays taken are not counted as hours worked in determining overtime hours under the preceding paragraph.

Each employee may accumulate overtime credit of not more than 240 hours, except that an employee engaged in a public safety activity, an emergency response activity, or a seasonal activity may accumulate not more than 480 hours. Employees must be paid for overtime worked in excess of the limits on accumulation, at the rate equal to 1-1/2 times the employee's regular rate of pay.

In situations in which the employee has not worked more than 40 hours in a workweek but the total of hours worked and hours of paid leave or paid holidays exceeds 40 hours, the employee shall be allowed equivalent compensatory time off for the excess hours. In

OTHER EMPLOYMENT POLICIES AND PROVISIONS
(Continued)

situations in which the employee has worked more than 40 hours in a workweek and the total of hours worked and hours of paid leave or paid holidays exceeds 40 hours after subtracting FLSA overtime hours worked, the employee shall be allowed equivalent compensatory time off for such excess hours. The compensatory time must be taken during the 12-month period following the end of that workweek. Compensatory time under this paragraph may not be carried forward past the end of the 12-month period and an employee may not be paid for the unused time. As an exception to the provisions in this paragraph, however, employees of institutions of higher education or employees engaged in a public safety activity, including but not restricted to highway construction and maintenance or an emergency response activity, may be paid for compensatory time hours on a straight-time basis when the taking of compensatory time off would be disruptive to normal teaching, research, and other critical functions.

Exceptions to the workweek overtime calculation for hospital, fire protection, and law enforcement activities (including security personnel in the correctional institutions) shall be made in accordance with the FLSA.

- b. **Employees Not Subject to FLSA.** An employee who is not subject to the overtime provisions of the FLSA may be allowed compensatory time off for hours in excess of 40 hours in a workweek in which the combination of hours worked, paid leave, and holidays exceeds a total of 40 hours.

An employee who is exempt as an executive, professional, or administrative employee under 29 U.S.C. Sec. 213 (FLSA), may be allowed compensatory time off during the 12-month period following the end of the workweek in which the overtime was accrued, at a rate not to exceed equivalent time.

In accordance with the provisions set forth in 29 CFR, Part 541, Section 541.118 and subject to that section's exceptions provided below, an employee who is exempt as an executive, professional, or administrative employee under 29 U.S.C. Sec. 213(a)(1) (FLSA) shall receive full salary for any week in which work is performed without regard to the days and number of hours worked. This is also subject to the general rule that an employee need not be paid for any workweek in which the employee performs no work.

- (1) Deductions may be made when the employee absences himself/herself from work for a full day or more for personal reasons, other than sickness or accident. However deductions may not be made for absences caused by jury duty, attendance as a witness at a judicial action, or temporary military leave.
- (2) Deductions may also be made for absences of a day or more occasioned by sickness or disability (including workers' compensation accidents) if the deduction is made after exhaustion of paid sick leave or workers' compensation benefits.
- (3) Deductions may also be made for penalties imposed for infractions of significant safety rules relating to prevention of serious danger to the workplace or other employees.

Further, in accordance with the special provisions applicable to executive, professional, or administrative employees of public agencies set forth in CFR, Part 541, Section 541.5d, an employee's pay may be reduced for absences for personal reasons or because of illness or injury of less than one work day when accrued leave is not used by the employee because

- (1) permission for its use has not been sought or has been sought and denied;

OTHER EMPLOYMENT POLICIES AND PROVISIONS
(Continued)

- (2) accrued leave has been exhausted; or
- (3) the employee chooses to use leave without pay.

In addition, in accordance with Section 541.5d, deductions from the pay of an executive, professional, or administrative employee for absences due to a budget-required furlough shall not disqualify the employee from being paid "on a salary basis" except in the workweek in which the furlough occurs and for which the employee's pay is accordingly reduced.

If deductions have been inadvertently made in contradiction to Department of Labor regulations, reimbursement will be made retroactively to the affected employees.

An employee who is not subject to the FLSA because of 29 U.S.C. Sec. 203(e)(2)(C), as a staff member, appointee, or immediate adviser of an elective officeholder, may be allowed compensatory time off under the terms and conditions determined by the officeholder.

Employees covered by this subdivision may not be paid for any unused compensatory time.

- c. No employee, whether or not subject to FLSA, shall accrue state compensatory time during any week unless the combination of paid leave and hours worked exceeds 40 hours.
- d. Article VI Employees. Subdivisions (a), (b) and (c) of this subsection do not apply to an employee compensated from funds appropriated under Article VI of this Act. Consistent with the requirements of the FLSA, overtime pay and compensatory time off for employees of the House or Senate shall be determined by the presiding officer of the respective houses, and for all other employees shall be determined by the administrator of the agency involved or the employing officeholder.

Sec. 3. Salary Payment, Withholdings, Deductions, and Matching Contributions. The disbursement of moneys appropriated in this Act for salaries and wages shall be subject to the provisions of Public Law No. 68, Seventy-eighth Congress, known as the Current Tax Payment Act of 1943, and any amendments thereto. The officers and employees of agencies for which appropriations are made in this Act also are authorized to make retirement deductions in accordance with the Teachers Retirement or Employees Retirement or Judiciary Retirement Acts on payroll forms prescribed by the State Comptroller, and the Comptroller is directed to issue warrants accordingly. The Comptroller shall also prescribe rules and procedures for agencies to follow in making adjustments to payrolls for periods following the period in which an inaccurate payment, deduction or other error occurred.

In each instance in which an operating fund or account is created and named by statute, the responsible officials of the state are authorized to transfer into such operating fund or account sufficient moneys from treasury funds, local, institutional and federal funds to pay proportionally the costs of matching state employees' retirement contributions and the state's share of Old Age and Survivors Insurance.

Sec. 4. Per Diem of Board or Commission Members.

- 1. As authorized by Section 2 of Article 6813f, Texas Revised Civil Statutes Annotated, the per diem of state board and commission members shall consist of (1) compensatory per diem at

\$30 per day; (2) actual expenses for meals and lodging not to exceed \$75 per day; and (3) transportation.

2. If a law enacted after Article 6813f authorizes per diem for members of a particular state board or commission, but does not specify the amount of the per diem, then the amount of the per diem shall be as listed in the preceding paragraph.
3. Agencies having a "Schedule of Exempt Positions and Per Diem of Board (or Commission) Members" following their appropriation may expend appropriations for board or commission member compensatory per diem in an amount not to exceed amounts shown in such schedule for each respective fiscal year.
4. No full time employee paid from funds appropriated by this Act shall be paid both a salary and compensatory per diem for concurrent service as a state employee and as a board or commission member.

Sec. 5. Political Aid and Legislative Influence Prohibited. None of the moneys appropriated by Articles I, II, III, and IV of this Act, regardless of their source or character, shall be used for influencing the outcome of any election, or the passage or defeat of any legislative measure. This prohibition shall not be construed to prevent any official or employee of the state from furnishing to any Member of the Legislature or committee upon request, or to any other state official or employee or to any citizen information in the hands of the employee or official not considered under law to be confidential information. Any action taken against an employee or official for supplying such information shall subject the person initiating the action to immediate dismissal from state employment.

No funds under the control of any state agency or institution, including but not limited to state appropriated funds, may be used directly or indirectly to hire employees or in any other way fund or support candidates for the legislative, executive, or judicial branches of government of the State of Texas or the government of the United States.

None of the funds appropriated in this Act shall be expended in payment of the salary for full-time employment of any state employee who is also the paid lobbyist of any individual, firm, association or corporation. None of the funds appropriated in this Act shall be expended in payment of the partial salary of a part-time employee who is required to register as a lobbyist by virtue of the employee's activities for compensation by or on behalf of industry, a profession or association related to operation of the agency or institution for which the person is employed. A part-time employee may serve as a lobbyist on behalf of industry, a profession or association so long as such entity is not related to the agency with which he or she is employed.

No employee of any state agency shall use any state-owned automobile except on official business of the state, and such employees are expressly prohibited from using such automobile in connection with any political campaign or any personal or recreational activity.

None of the moneys appropriated by this Act shall be paid to any official or employee who violates any of the provisions of this section.

The head or heads of each agency of the state shall furnish each employee of such agency with a copy of the five (5) paragraphs immediately preceding this one, and shall take a receipt therefor from each employee. The preceding sentence shall not be construed to mean that new receipts are to be obtained each year from continuing employees who have previously received for copies of identical provisions prohibiting political aid and legislative influence. The receipts shall be kept accessible for public inspection.

OTHER EMPLOYMENT POLICIES AND PROVISIONS
(Continued)

It is provided, however, that nothing in this section shall be construed as prohibiting the payment of reasonable dues to an organization that is designed to represent student interests in the state legislature or federal congress from that portion of mandatory student service fee collections that is allocated to the student government organization at an institution of higher education. Nothing herein shall be construed to permit such mandatory student service fees to be used to influence the outcome of any election.

Sec. 6. Publicity of Individuals Restricted. None of the moneys appropriated under this Act shall be used by any agency of the state government for the purpose of publicizing or directing attention to any individual official or employee of any agency of the state government.

It is also provided that none of the moneys appropriated under this Act shall be used by any agency of the state government for maintaining any publicity office or department, or for the employment of any person who has the title or the duties of a public relations agent, or press agent, or for paying any public relations firm or agent.

The policy and restrictions set out in this section shall not be interpreted to prevent the head of any agency of the state, when he deems it necessary or desirable in the public interest, to issue through any of such agency's officials or employees any statement or information respecting the work, legal responsibilities, or activities of such agency. Such statement shall be issued, or such information imparted, in the name of the agency of the state and shall have attached thereto the name of the official or employee authorized to issue the same.

It is also provided that any agency of higher education may continue to maintain and operate a news and information service for the benefit of the public which has been specifically authorized and approved by the governing board of such agency of higher education.

Sec. 7. Employee Working Hours and Holidays. It is further provided that moneys appropriated for salaries and wages in this Act shall be expended only in accordance with the following conditions and limitations, and pursuant to Article 5165a, Vernon's Civil Statutes, as amended.

1. State offices shall remain open during the noon hours each working day with at least one person on duty to accept calls, receive visitors, or transact business.
2. Agencies may stagger the work day of their personnel. All agencies shall be open between the hours of 8:00 A.M. and 5:00 P.M. and shall maintain the eight-hour day and 40-hour week as provided in Article 5165a, Vernon's Civil Statutes, as amended.
3. Except as provided elsewhere in this Article, holidays for state employees including hourly wage workers for each year covered by this Act shall be those specified in Article 4591.2, Vernon's Civil Statutes, as amended. Except as provided elsewhere in this Article, holidays for employees of institutions and agencies of higher education are as provided in Article 4591.3, Vernon's Civil Statutes, as amended.

For institutions and agencies of higher education, a regular employee is defined as one who is employed to work at least 20 hours per week for a period of at least four and one-half months, excluding students employed in positions which require student status as a condition for employment. Only regular employees of institutions of higher education shall be eligible for paid holidays.

Each state agency and institution and agencies of higher education will, during the biennium, have on hand enough personnel to carry on the activities of each institution or agency on a state holiday as defined in the statute so that the public business can be carried on during that period. However, this does not apply to a state holiday that falls on a Saturday or Sunday.

the Friday immediately following the fourth Thursday in November, the 24th day of December, or the 26th day of December.

Those employees who are working during a national holiday or a state holiday period will be allowed compensatory time off during the twelve-month period following the date of the holiday worked. The supervisor in charge may require the employee to give reasonable notice in advance of taking compensatory time off but may not require that the employee specify the reason for which the compensatory time is to be taken. As an exception to the provisions in this paragraph, however, employees of institutions of higher education may be paid for compensatory time hours on a straight-time basis when the taking of compensatory time off would be disruptive to normal teaching, research, and other critical functions.

Agencies who have work schedules other than provided in Article 5165a, Section 2, will insure that employees working these schedules observe the equivalent number of holidays each year as employees working normal office hours.

A state employee is entitled to observe Rosh Hashanah, Yom Kippur, and Good Friday in lieu of any holiday or holidays on which the employee's agency or institution is required by this provision to be open and staffed to conduct the public business.

It is specifically provided, however, that the benefit provisions of this section apply to the employees of the House of Representatives and Senate only at the discretion of the presiding officer or the administration committee of each house.

4. Other provisions of this Act notwithstanding, state agencies shall not observe as a holiday days on which an election is held throughout the state. However, employees shall be allowed sufficient time off without deduction from pay or leave time accrued to vote.
5. Each state agency and institution and agencies of higher education shall adjust the work schedule of any employee who is a member of the National Guard or any Reserve Component of the Armed Forces so that two of the employee's non-work days per month coincide with two days of military duty to be performed by the employee, it being the intent of the Legislature to facilitate participation in military duties by state employees.

Sec. 8. Employees Vacations and Leaves.

1. Other than faculty with appointments of less than twelve months at institutions of higher education and other than instructional employees with contracts for periods of less than twelve months at the Texas School for the Blind and the Texas School for the Deaf, employees of the state shall, without deduction in salary be entitled to a vacation in each fiscal year. Part-time employees will accrue vacation leave on a proportionate basis and the maximum carryover will also be proportionate. Such entitlement shall be earned in accordance with the following schedule:

Employees With Total State Employment Of:	Hours Accrued Per Month for Full-time Employment	Maximum Hours to Carry Forward From One Fiscal Year to Next Fiscal Year for a Full-time Employee

10 but less than 15 years	10	280
15 but less than 20 years	12	328
20 and over years	14	376

An employee will earn vacation entitlement beginning on the first day of employment with the state and terminating on the last day of duty. Vacation entitlement is accrued at the applicable rate cited above. Credit for one month's accrual will be given for each month or fraction of a month of employment with the state and will be posted to each employee's leave record on the first day of employment with the state and on the first of each succeeding month of employment thereafter. Vacation with pay may not be granted until the employee has had continuous employment with the state for six (6) months, although credit will be accrued during that period.

Credit for the higher rate of accrual as shown on the chart above shall be given on the first calendar day of the month if the employee's anniversary date falls on the first calendar day of the month; otherwise, the increase will occur on the first calendar day of the following month. If an employee begins working in a position that accrues vacation leave on the first workday of the month, the employee is deemed to have begun working on the first calendar day of the month for the purpose of this subsection.

The net balance of unused accumulated leave not to exceed the maximum cited above shall be carried forward for any employee from fiscal year 1993 to fiscal year 1994 and from fiscal year 1994 to fiscal year 1995.

All hours of unused accumulated vacation leave which are lapsed at the end of a fiscal year by operation of this subsection may be credited to the employee's sick leave balance as of the first day of the next fiscal year.

In computing vacation time taken, time during which any employee is excused from work because of holidays shall not be charged against the employee's vacation.

A state employee who resigns, is dismissed, or separated from state employment shall be entitled to be paid for all vacation time duly accrued at the time of separation from state employment, provided the employee has had continuous employment with the state for six (6) months.

2. Employees of the state shall, without deduction in salary, be entitled to sick leave subject to the following conditions:

An employee will earn sick leave entitlement beginning on the first day of employment with the state and terminating on the last day of duty. Credit for one month's accrual will be given for each month or fraction of a month of employment with the State and will be posted to each employee's leave record on the first day of employment with the State and on the first day of each succeeding month of employment thereafter.

Sick leave entitlement shall be earned at the rate of eight (8) hours for each month or fraction of a month employment, and shall accumulate with the unused amount of such leave carried forward each month. Sick leave accrual shall terminate on the last day of duty.

Sick leave with pay may be taken when sickness, injury, or pregnancy and confinement prevent the employee's performance of duty or when the employee is needed to care and assist a member of his immediate family who is actually ill. For purposes relating to regular sick leave, immediate family is defined as those individuals who reside in the same household and are related by kinship, adoption or marriage, as well as foster children

certified by the Texas Department of Protective and Regulatory Services. Minor children of the employee, whether or not living in the same household, will be considered immediate family for purposes of regular sick leave. An employee's use of sick leave for family members not residing in that employee's household is strictly limited to the time necessary to provide care and assistance to a spouse, child or parent of the employee who needs such care and assistance as a direct result of a documented medical condition. An employee who must be absent from duty because of illness shall notify his supervisor or cause him to be notified of that fact at the earliest practicable time.

To be eligible for accumulated sick leave with pay during a continuous period of more than three (3) working days, an employee absent due to illness shall send to the administrative head of his employing agency a doctor's certificate showing the cause or nature of the illness, or some other written statement of the facts concerning the illness which is acceptable to such administrative head.

Upon return to duty after sick leave the employee concerned shall, without delay, complete the prescribed application for sick leave and submit the same through proper channels to the appropriate approving authority for his consideration.

Exceptions to the amount of sick leave an employee may take may be authorized by the administrative head or heads of any agency of the state provided such exceptions are authorized on an individual basis after a review of the merits of such particular case. A statement of any such authorized exceptions or the reasons for them shall be attached to the state agency's duplicate payroll voucher for the payroll period affected by such authorized exceptions. Agencies are required to have a written statement filed with the State Auditor covering the policies and procedures to be used for the extension of leave in this manner and shall make this statement available to all employees. Faculty members at institutions of higher education must submit prescribed leave forms for all sick leave even though no classes were missed if the absence occurred during the normal workday for regular employees.

A terminating employee may, with the agreement of the employing agency, be allowed to remain on the payroll to utilize vacation leave in lieu of being paid in a lump sum, providing that such employee will not be eligible to use paid sick leave prior to final separation from employment.

3. The administrative head of an agency shall grant an emergency leave to an employee because of a death in the employee's family. The death of the employee's spouse, or the employee's or spouse's parents, brothers, sisters, grandparents, grandchildren and children shall constitute adequate need for emergency leave. The administrative head of the agency may make a determination on other reasons for emergency leaves and shall grant an emergency leave, when in his determination, the employee shows good cause.

For institutions and agencies of higher education, a regular employee is defined as one who is employed to work at least 20 hours per week for a period of at least four and one-half months, excluding students employed in positions which require student status as a condition for employment. Only regular employees of institutions and agencies of higher education shall be eligible for paid vacation and leave as provided herein.

4. A leave of absence with full pay shall be provided any state employee who is called to active duty with the National Guard by the Governor of Texas because of an emergency in accordance with Art. 6252-4b, V.A.C.S.

Employees shall be entitled to leave of absence from their respective duties without loss of time or efficiency rating or vacation time or salary on all days during which they shall be

An employee called to active duty during a national emergency by a reserve branch of the United States Armed Forces shall have a leave of absence. The employee shall not lose the ability to accrue state service credit while on active duty but shall not accrue vacation or sick leave. However, the employee shall retain any accrued vacation or sick leave and shall be credited with such balances upon return.

State employees who are volunteer firemen shall also be granted a leave of absence with full pay to attend training schools conducted by state agencies provided such leave does not exceed five (5) working days in any one fiscal year. The leave of absence, authorized by this subsection, shall in no way be charged against the employee's vacation or sick leave privileges provided by this Act.

A state employee, who is a foster parent to a child under the conservatorship of the Department of Protective and Regulatory Services, is entitled to a leave of absence with full pay for the purpose of attending staffing meetings held by the Department of Protective and Regulatory Services regarding the child under the foster care of the employee, or to attend the Admission, Review and Dismissal (ARD) meeting held by a school district regarding the child under the foster care of the employee.

Any State employee, who is a certified disaster service volunteer of the American Red Cross or who is in training to become such a volunteer, with the authorization of his/her supervisor, may be granted a leave not to exceed five days each year to participate in specialized disaster relief services for the American Red Cross, upon the request of the American Red Cross and with approval of Governor's office, without loss of pay, vacation time, sick leave or earned overtime, and/or compensatory time. Notwithstanding this provision, the pool of state employees certified disaster volunteers shall not exceed 500 participants at any one time. A list of such employees will be coordinated with the Division of Emergency Management and Governor's office. Within sixty days of any request made by the American Red Cross, a report shall be prepared by the American Red Cross for the Legislative Budget Board setting forth the reasons and needs for any request made.

5. A state employee who transfers directly from one State agency to another, shall be given credit by the receiving agency for the unused balance of this accumulated vacation and sick leave, provided that his employment with the state is uninterrupted.
6. Funds appropriated in this Act may be used to pay the estate of an employee when the employee dies while employed by the State of Texas for: (1) all of the employee's accumulated vacation leave and (2) one-half of the employee's accumulated sick leave, or for 336 hours of sick leave, whichever is less, provided that requirement and limitations in Article 6252-8b, V.A.C.S. are satisfied.
7. In addition to maintaining an official personnel file on each employee containing an application for employment and other records normally placed in a personnel file, the administrative head or heads of each agency of the state shall require time and attendance records, a record of the vacation and sick leave accrual and absences of each employee, and the reasons therefor whether from sickness, vacation, other paid leave, or leave of absence without pay. Such records shall be available for public inspection in keeping with the provisions of the Open Record Act.

OTHER EMPLOYMENT POLICIES AND PROVISIONS
(Continued)

8. The State Auditor shall provide a uniform interpretation of the provisions herein contained on employee vacations and leaves, and shall report to the Governor and the Legislature any exceptions practiced by the various entities of the state government.
9. It is specifically provided, however, that the benefit provisions of this section apply to employees of the House of Representatives and Senate only at the discretion of the presiding officer of each House.
10. An employee separated from employment with the state under a formal reduction-in-force shall have his sick leave balance restored if reemployed by the state within twelve months of termination. An employee separated for other reasons shall also have his sick leave balance restored if reemployed by the state within twelve months of termination, provided there has been a break in service of at least one month since termination.
11. Agencies may grant employees leave without pay or leave of absence without pay subject to the following provisions:
 - a. Except for disciplinary suspensions, active military duty, parental leave as provided in Section 8(13) below, Federal Family and Medical Leave Act leave as provided in Section 8(15) below, and workers compensation situations all accumulated paid leave entitlements must be exhausted before granting such leaves, with the additional provision that sick leave must be exhausted only in those cases where the employee is eligible to take sick leave, as provided in Section 8(2) above. Such leaves will be limited in duration to twelve (12) months.
 - b. Subject to fiscal constraints, approval of such leaves constitutes a guarantee of employment for a specified period of time.
 - c. The administrative head of an agency may grant exceptions to these limitations for such reasons as interagency agreements or educational purposes.
 - d. Except in the case of an employee returning to state employment from military leave without pay, any full calendar month (i.e., from the first day of a month through the last day of a month, inclusive) in which an employee is on leave without pay, shall not be counted in the calculation of total state service for purposes of longevity pay or vacation leave entitlements. No employee shall accrue vacation or sick leave for such month. Further, any such full calendar month of leave without pay shall not constitute a break in continuity of employment but shall not be included in the calculation of the six continuous months of employment set forth in the Act under both the merit salary provisions, Section 1(4)(f)(a) and under Employees Vacations And Leaves, Section 8(1) last paragraph.
12. A state employee who is blind is entitled to a leave of absence with full pay for the purpose of attending a training program to acquaint the employee with a seeing-eye dog to be used by the employee. The leave of absence provided by this subsection may not exceed 10 working days in a fiscal year. This period begins with the date of birth or the first day the adoptive child is formally placed in the home. Employees may elect to use any combination of available vacation leave.

14. In addition to employee leave authorized elsewhere in this Article, administrative leave with pay may be granted by the head of an agency as a reward for outstanding performance as documented by employee performance appraisals. Administrative leave may be granted pursuant to this subsection only to those employees in classified positions who have not received an achievement bonus pursuant to Section 1, Subsection 5, of this Article within the three months previous to the grant of leave. In no event shall the aggregate amount of administrative leave granted pursuant to this subsection exceed 32 hours in any fiscal year.
15. State employees who have been employed for 12 continuous months by the state, and who have worked at least 1,250 hours during that period, are hereby entitled to leave pursuant to the Federal Family and Medical Leave Act provided that the employee utilizes all available applicable paid leave while taking leave pursuant to this provision.

Sec. 9. Dual Employment with the State. Employees who are legally employed in two positions within Texas State government are subject to the following provisions and are to be informed of these provisions prior to being placed in such dual employment status: (1) completely separate leave records will be maintained for each employment; (2) time worked in one position may not be used as additional tenure credit for purposes of longevity or annual leave accrual for other positions; (3) upon termination of one employment, the leave balances accrued under that employment may not be transferred to the remaining employment; (4) the state contribution towards the employee's portion of social security tax liability will be subject to the overall limit specified elsewhere in this Act. The Comptroller shall prescribe such uniform accounting and reporting procedures as necessary to ensure that expenditures for this purpose do not exceed this limit; (5) the total state contribution towards the employee's group insurance will be limited to no more than the amount specified elsewhere in this Act for full-time active employees; (6) the employee will be entitled to receive longevity payment for no more than one employment; (7) overtime compensation will accrue to each employment totally independent of the other except that when an employee works in a dual employment capacity where the employee is subject to the overtime provisions of the Fair Labor Standards Act of 1938, 29 U.S.C. Secs. 201 et seq., (FLSA) in either employment, the employing agency or agencies must consider all combined time worked in excess of 40 hours per week as overtime and compensate the employee in accordance with the FLSA provisions applicable to joint employment relationships. In cases where the dual employment is with two separate agencies, the two agencies shall coordinate in order to determine which agency shall have the responsibility to assure that the employee is properly compensated in accordance with such provisions.

Where dual employment cases involve two legislative agencies and both employments are less than full-time, provision numbers (1) above, except for accrual of leave, and (3) above, will not apply and the legislative employee may utilize paid leave from leave balances in both employments. Where combined employments total at least forty hours per week, the employee will be treated as a full-time employee for longevity purposes. Upon termination of one legislative employment, unused leave balances accrued under that employment shall be transferred to the remaining legislative employment.

All state employees are to be informed of their obligation and responsibility to inform both initial and second employers of their intent to accept an additional employment with the state.

Institutions of higher education with employees which have multiple component assignments may enter into necessary agreements designating the principal employer to maintain personnel and leave records in compliance with provisions of this section.

Such awards will be limited to lapel pins, tie clasps, plaques, loving cups, engraved certificates or other awards of a similar nature and shall be purchased through the General Services Commission, the cost of which shall not be in excess of fifty dollars (\$50) per employee.

For awards to volunteers, a state agency may expend funds appropriated by this Act to purchase engraved certificates, plaques, pins, and other awards of a similar nature that do not exceed \$50 in value per volunteer. The awards may be purchased only to recognize volunteers' special achievement and outstanding service and only if the agency has established a volunteer program that complies with Article 6252-11e, Vernon's Texas Civil Statutes, or with other applicable general law.

Sec. 13. General Travel Provisions.

1. The amounts appropriated in this Act to each state agency for the payment of transportation, meals, lodging, and incidental expenses shall be the maximum amounts to be expended by those agencies. None of the moneys appropriated by this Act may be expended for those expenses unless the travel and the resulting requests for payment or reimbursement comply with the conditions and limitations in this Article.
2. Heads of agencies shall conserve the funds appropriated in this Act by maximizing economy and efficiency when planning the travel of state employees under their authority. In this connection, heads of agencies are responsible for ensuring that the expenses of transportation,

TRAVEL REGULATIONS
(Continued)

meals, lodging, and incidental items are the lowest possible considering all relevant circumstances.

3. A head of agency may specify a reimbursement or payment rate that is less than the maximum rate specified in this article for transportation, meal, lodging, or incidental expenses. However, a lower rate applies only to travel occurring after a head of agency has notified his state employees in writing about the lower rate. A state agency is solely responsible for enforcing its lower reimbursement or payment rates.
4. Necessary and reasonable expenses for transportation, meals, lodging, and incidental expenses may be paid or reimbursed from the funds appropriated in this Act only when the purposes of the travel clearly involve official state business, are consistent with the legal responsibilities of the state agency represented, and, for the travel outside the State of Texas, the travel is approved in advance in accordance with the policy of the employing state agency.

None of the funds appropriated in this Act shall be used to pay or reimburse expenses for transportation, meals, lodging, and incidental expenses unless the travel voucher submitted to the Comptroller identifies persons contacted, places visited, or otherwise describes the nature of the official state business performed.

5. A state employee may claim extra travel time for the purpose of calculating reimbursement for meals, lodging, rental cars, parking, and other reimbursable expenses in order to take advantage of lower airfares if: (a) the cost of the additional expenses plus the lower airfare is less than or equal to the average coach airfare between the employee's designated headquarters and duty point, (b) the rental car was rented during the period of time when the employee conducted official state business, and (c) it is in the employing state agency's interest to allow the employee to be absent from headquarters for an additional period of time.
6. Requests for advance written approval for travel outside of the United States and its possessions shall be submitted to the Governor as provided in TEX. REV. CIV. STAT. ANN. Art. 6823a (Vernon).
7. State employees from one state agency who provide services to another state agency may be reimbursed for their transportation, meals, lodging, and incidental expenses from the funds of the agency being served.
8. A traveling state employee may be reimbursed for his incidental expenses in addition to his expenses for meals, lodging, and transportation. The Comptroller shall promulgate specific rules for the effective and efficient administration of this sub-section.
9. When this Article authorizes state agencies to directly pay commercial lodging establishments or commercial transportation companies, agencies may instead directly pay credit card issuers or travel agencies for the lodging or transportation. The same documentation that would be required for a direct payment to a commercial lodging establishment or commercial transportation company is required for a direct payment to a credit card issuer or travel agency.
10. When a state agency requires a state employee on personal leave to return to his designated headquarters from another location, the agency may reimburse the employee for the transportation, meal, lodging, and incidental expenses he incurs while traveling to headquarters. In addition, the agency may reimburse the employee for the transportation, meal, lodging, and incidental expenses he incurs while traveling back to the location at which

TRAVEL REGULATIONS
(Continued)

the employee was staying while on personal leave. The reimbursements authorized by this subsection may not exceed the reimbursement rates specified in this article.

11. A state agency may pay or reimburse a state employee for a cancellation charge if the charge is incurred for a reason related to official state business.
12. The Comptroller shall establish rules and procedures for the effective and efficient administration of the travel regulations in this Article.

Sec. 14. Transportation Expenses.

1. State employees' use of personally owned or leased motor vehicles:
 - a. Mileage reimbursement rate. A state agency shall reimburse a state employee for using a personally owned or leased motor vehicle. The mileage reimbursement rate for travel occurring during a fiscal year is equal to the maximum fixed mileage allowance specified in the revenue rulings issued by the Internal Revenue Service under Section 1.274-5(f) of the federal income tax regulations as of August 1 preceding the start of the fiscal year. The mileage reimbursement rate may not be less than 25 cents per mile or more than 28 cents per mile. The Comptroller shall announce the mileage reimbursement rate for a fiscal year as soon as possible after August 1 of the preceding year. Except for tolls and the cost of airport parking or other parking fees incurred while employees are away from their places of employment, no additional expenses incidental to the operation of such motor vehicles shall be reimbursed.
 - b. Computing distances. The reimbursement authorized in this subsection for travel within the State of Texas shall be based upon the shortest route between points. For the purpose of computing the shortest route, farm-to-market roads shall be included.
 - c. Travel between a residence and the airport. State employees traveling in a personally owned or leased motor vehicle between their residence and the nearest airport may be reimbursed for mileage at the rate specified in Section 14(1)(a) of this Article subject to the following provisions:
 - (1) If the travel occurs during working hours, the reimbursement may not exceed the reimbursement that would be due had the employee traveled between a place of employment and the airport.
 - (2) A state employee may be reimbursed for the mileage incurred by another person while transporting the employee between his residence and the nearest airport during working or non-working hours so long as the employee demonstrates that the reimbursement would be less than the cost of parking a personally owned or leased motor vehicle at the airport.
 - d. Travel between a residence and a duty point. State employees who travel in a personally owned or leased motor vehicle between their residence and their duty point may be reimbursed for mileage at the rate specified in Section 14(1)(a) of this Article subject to the following provisions:
 - (1) If the travel occurs during working hours, the reimbursement may not exceed the mileage that would have been paid had the employee traveled from his place of employment to his duty point.

TRAVEL REGULATIONS

(Continued)

- (2) If the travel occurs before working hours on a working day, the reimbursement may not exceed the reimbursement that would be due had the employee traveled from a place of employment to a duty point. The preceding limitation does not apply if the employee is required to travel because of an unforeseen emergency that is related to official state business.
- e. Travel between a residence and a place of employment. A state employee may not be reimbursed for his mileage when he travels in a personally owned or leased motor vehicle between his residence and his place of employment unless (1) the travel is necessitated by extraordinary circumstances, and (2) the travel occurs during non-working hours.
- f. Mileage rate for travel outside of the State of Texas. State employees traveling alone may be reimbursed at the standard mileage rate for the use of their personally owned or leased motor vehicles while traveling outside the State of Texas in accordance with this paragraph. The reimbursement may not exceed either of the following: (a) the amount the employees would have received had they flown the average coach airfare below first class plus the expenses necessary to complete such flight or (b) the reimbursement calculated at the standard mileage rate for the actual miles traveled. Mileage, calculated at the standard mileage rate, between an employee's place of employment and the airport plus other necessary and reasonable expenses that would have been incurred at the airport had the employee flown, including parking fees, shall be considered as expenses necessary to complete a flight for the purpose of this paragraph.
- g. Travel by a group of state employees outside of the State of Texas. When two or more state employees travel together outside the State of Texas in a motor vehicle that is owned or leased by one of those employees, the reimbursement for the use of that vehicle shall be based upon the total miles between the motor vehicle owner's place of employment and the employees' destination at the standard mileage rate authorized elsewhere in this Article. However, this reimbursement shall not exceed the total cost had each employee flown the average coach airfare below first class plus the expenses necessary to complete the flight as specified in Section 14(1)(f) of this Article.
- h. Travel to points outside of the State of Texas that are not served by commercial airlines. State employees traveling either alone or with other state employees to duty points outside of the State of Texas that are not directly served by commercial airlines shall be reimbursed for their mileage. This reimbursement cannot exceed the sum of the following: (a) average coach airfare below first class to the nearest city served by air to the destination, (b) mileage between the nearest city served by air and the destination, and (c) the expenses necessary to complete the flight as specified in Section 14(1)(f) of this Article.
2. Transportation in personally owned or leased aircraft:
- a. The rate of reimbursement to key officials, members of boards and commissions, and members of the Legislature for travel in their personally owned or leased aircraft within and without the boundaries of the State of Texas shall be forty cents (40¢) per highway mile when traveling in single-engine aircraft, fifty-five cents (55¢) per highway mile when traveling in twin-engine aircraft, and one dollar (\$1.00) per highway mile when traveling in turbine-powered aircraft.

When additional key officials, members of boards and commissions, or members of the Legislature are conveyed on trips within or without the boundaries of the State of Texas in privately owned or leased aircraft, they each shall receive as a mileage reimbursement

TRAVEL REGULATIONS
(Continued)

an amount equal to that which would have been paid had they traveled by average coach airfare below first class. The Comptroller shall develop procedures whereby these multiple reimbursements can be aggregated into a single payment and paid either to the individual owning or leasing the aircraft or to the vendor providing a leased aircraft; however, the total reimbursement shall not exceed the actual cost of the trip.

Key officials, members of boards and commissions, and members of the Legislature may lease aircraft from a proprietorship, partnership, or corporation in which they have an interest. Reimbursement shall be at the rates established for travel by personally owned or leased aircraft.

- b. The rate of reimbursement for state employees when they travel in their personally owned or leased aircraft within and without the boundaries of the State of Texas shall be forty cents (40¢) per highway mile when traveling in single-engine aircraft and fifty-five cents (55¢) per highway mile when traveling in twin-engine aircraft.

3. Travel by rented or public conveyance:

- a. When a state employee travels by rented or public conveyance, the actual cost of transportation is payable from funds appropriated in this Act subject to the following limitations.
- (1) The cost of commercial air transportation between an employee's designated headquarters and his duty point must be equal to the lowest rate available. First class airfare may be paid only if it is the only available airfare.
 - (2) The cost of transportation by limousine may be paid only if it is the lowest cost transportation considering all relevant circumstances.
- b. State agencies may pay the expenses associated with state employees traveling by rented or public conveyance in either of two ways at the option of each head of agency.
- (1) When state employees pay for authorized travel by rented or public conveyance with their personal funds, they shall be reimbursed for that travel in accordance with this Article. Receipts for such transportation, excluding receipts for bus, taxi, or limousine fares, shall be submitted to the Comptroller or processed locally by the institution as attachments to the employee's travel voucher.
 - (2) A head of agency may request a commercial transportation company to furnish transportation to designated state employees of such agency. The cost of the transportation services shall be billed monthly to the agency. The Comptroller may issue a warrant or the institution may issue a check payable to a commercial transportation company only upon the submission by a state agency of a voucher showing the purpose of travel and the necessary approval by the agency. An official receipt from the commercial transportation company showing the details of the transportation must be attached to the voucher.

To facilitate auditing of billings from commercial transportation companies, such companies shall list on their billings the point of origin and point of destination of each trip and shall also show the taxes charged. In addition, on each purchase voucher submitted to the Comptroller for processing or processed locally by the institution, state agencies shall specify in detail the official state business conducted on each trip.

TRAVEL REGULATIONS

(Continued)

4. State agencies may directly pay commercial transportation companies prior to the travel of their employees if the companies required the payments to be made in advance in order to obtain lower rates. Cancellation charges are payable if they are incurred because of a business-related reason. The Comptroller shall promulgate rules for the effective and efficient implementation of this paragraph.
5. Return from personal leave: Employees on personal leave at a location outside of their designated headquarters who are required by their heads of agencies to return to their designated headquarters may be reimbursed for the cost of their transportation to headquarters as provided in this section.

Sec. 15. Expenses for Meals and Lodging.**1. General provisions:**

- a. Heads of agencies shall conserve funds by authorizing less than the maximum reimbursements for meals or lodging, or both, when conditions warrant. However, reductions in the amount of reimbursements for meals or lodging, or both, may be authorized only if the affected state employees are notified of those reductions before they incur any expenses. Employees whose living costs are unusually low when traveling, such as those camping out, shall not be reimbursed for their meals and lodging at the maximum rates.
- b. When a state employee stays at a commercial lodging establishment, the head of his employing state agency may request the lodging establishment to directly bill the agency for the cost of the lodging. The Comptroller may issue a warrant payable to the commercial lodging establishment only upon the submission of a voucher showing the name and designated headquarters of the employee, the room rate for a single occupancy, and the lodging charges on a daily basis. An official receipt from the commercial establishment must be attached to the voucher.
- c. Each state employee who travels with one or more additional employees in a motor vehicle that is owned or leased by one of those employees shall be reimbursed for the meals and lodging incurred during the trip subject to the limitations contained in this Section.
- d. No reimbursements for meals and lodging may be paid to state employees when they travel within the confines of their designated headquarters or when they are away from their designated headquarters for fewer than six consecutive hours.
- e. State employees, board or commission members, must attach the actual receipts for lodging expenses to their travel vouchers when requesting reimbursement of those expenses. A head of agency other than a member of a board or commission is not required to attach lodging receipts.
- f. Travel to foreign countries, except for Canada and Mexico, must be approved by the Governor in advance of the travel in accordance with the Travel Regulations Act of 1959. A copy of the Governor's approval must be attached to each travel voucher.
- g. A state agency may reimburse a state employee for a state, county, or local hotel occupancy tax or any similar tax imposed by a law of this state or another state. A state agency may reimburse a state employee for a state, county, or local hotel occupancy tax from which the employee is exempt by law if the employee properly claims the exemption and the commercial lodging establishment refuses to honor the exemption. If

TRAVEL REGULATIONS
(Continued)

a state agency directly pays a commercial lodging establishment instead of reimbursing an employee, then the agency may directly pay the tax to the commercial lodging establishment.

- h. A state agency may reimburse a state employee for apartment rental expenses. The Comptroller shall adopt rules to facilitate a state agency's conservation of state funds by renting an apartment in lieu of using another type of commercial lodging establishment.
2. Travel within the State of Texas:
- a. State employees who travel within the State of Texas shall be reimbursed for the actual cost of lodging and meals. However, the reimbursements may not exceed \$55.00 per day per location for lodging and \$25.00 per day for meals.
 - b. At the discretion of each head of agency, a state employee whose duties require him to travel outside his designated headquarters without an overnight stay away from his headquarters may be reimbursed for the actual cost of his meals not to exceed \$25.00 per day.
3. Travel outside the State of Texas but within the continental United States:
- a. State employees who travel outside the State of Texas but within the continental United States shall be reimbursed for their actual expenses for lodging and meals. However, these reimbursements may not exceed the locality-based rates specified in the Federal Travel Regulations unless the Comptroller determines, in advance of travel, that local conditions necessitate a change in the lodging rate for a particular location. If an employee travels to a location where a locality-based allowance has not been set in the Federal Travel Regulations, the Comptroller shall establish a rate for that location. This rate cannot exceed the lowest locality-based allowance for that state unless the Comptroller determines, in advance of travel, that local conditions necessitate a higher lodging rate.
 - b. Reimbursements for meals to employees whose travel does not require an overnight stay away from their designated headquarters may not exceed \$26.00 per day.
4. Travel outside the continental United States: State employees may receive reimbursements of their actual expenses for meals and lodging when traveling outside the continental United States.

- 2. The governing board of each institution of higher education may delegate to its president, chief executive, vice presidents, deans, or fiscal officers the authority to approve travel and the resulting payments and reimbursements. However, such delegations of authority shall specify the kind of travel that may be approved and the termination date of the delegated authority. The delegation of authority shall be entered in the official minutes of each governing board, and a copy of those minutes shall be filed with the Comptroller.

These reimbursements may be paid out of the appropriations for the state agencies at which the employees or key officials are employed.
4. **Travel by legislators:**
 - a. **General provisions:**
 - (1) When traveling inside or outside the State of Texas a legislator, at the discretion of each House of the legislature, is reimbursed an amount equal to either the maximum per diem rate in the federal travel regulations for the location at which the expenses are incurred or the actual amount of meals, lodging and incidental expenses incurred. This provision also applies to the meals, lodging, and incidental expenses legislators incur while serving on boards, councils, committees, or commissions.

The designations authorized in this sub-section must occur on a trip-by-trip basis.
- b. Members of the Legislature, judicial officers, heads of agencies, the Executive Director of the Legislative Council, the Secretary of the Senate, and members of state boards and commissions may authorize state employees traveling with them to receive reimbursement of their actual expenses for meals and lodging.

However, aircraft pilots are not subject to the requirement of being away from their designated headquarters for at least six consecutive hours in order to qualify for reimbursements of their meals.
8. Prior written approval required: None of the funds appropriated by this Act may be used to reimburse actual expenses as authorized in sub-sections 3 and 6 of this Section unless the head of the agency gives advance written approval and indicates the approximate cost of such travel.
9. Members of state boards and commissions:
- a. As authorized by TEX. REV. CIV. STAT. ANN. Art. 6813f (Vernon), members of state boards and commissions shall receive the following from the state when conducting official state business:

- b.  - e. When members of boards or commissions who are entitled to be reimbursed for their actual expenses incur expenses for meals or lodging while attending official meetings, the reimbursements may be claimed by the submission to the Comptroller or institution of a single travel voucher. However, this voucher must itemize expenses for each board or commission member. The board or commission shall designate the appropriate employee or officer of the agency to be responsible for approval of these vouchers.
10. Travel by disabled persons:
- a. Notwithstanding any other provision of this Article, state agencies may reimburse disabled state employees and disabled members of the Legislature for attendant care and other necessary expenses incurred when they travel inside or outside their designated headquarters. Sec. 18. Moving Expenses of State Employees.

- 1. A State agency included in Articles I, II, III, or IV of this Act may use appropriated funds to pay the reasonable, necessary, and resulting costs of moving the household goods and effects of a state employee who is transferred from one designated headquarters to another so long as the agency determines that the best interests of the State will be served by such transfer and the distance between the two designated headquarters is at least 25 miles. A state agency may pay the costs of moving the household goods and effects of any state employee who is employed at any facility that is being closed or downsized, if the agency retains that employee by offering a position in another location that is at least 25 miles from the location being closed or downsized. This does not include a transaction fee or sales commission for sale of a homestead or other real property.
- 2. State-owned equipment shall be used to move the household goods and effects of transferring state employees. However, when such equipment is unavailable, state agencies may pay for the services of a commercial transportation company or for self-service vehicles to make the move.

Only the following agencies are authorized the use of appropriated funds for the purchase, operation, and maintenance of passenger cars and other vehicles designed for passenger transportation (excluding aircraft): Texas Youth Commission, Adjutant General's Department, Alcoholic Beverage Commission, Department of Agriculture, Attorney General, General Services Commission, Department of Criminal Justice, Department of Transportation, Historical Commission, General Land Office, Parks and Wildlife Department, Railroad Commission, Department of Public Safety, Natural Resources Conservation Commission, Water Development Board, Board of Plumbing Examiners, Board of Pharmacy, Low-Level Radioactive Waste Disposal Authority.
2. For the purposes of the above limitation, the following vehicular equipment shall not be construed to be passenger cars and other vehicles designed for passenger transportation and may be purchased, operated, and maintained by an agency through appropriated funds: panel, pickup and delivery trucks and trucks required for the conveyance of special equipment; motorcycle delivery units; dual control automobiles used exclusively for driver training; passenger cars equipped with two-way radios when such equipment is a direct requirement of the user's primary responsibility; motorcycles, jeeps, and boats needed and used for fire prevention, fire fighting and other activities for safeguarding public safety, public property, or for criminal law enforcement; ambulances or other passenger vehicles specifically equipped and regularly used for ambulance services; buses, sedans, vans and station wagons regularly used for the mass transportation of numbers of people and essential to the efficient management of the operating agency of the state as certified by a report filed with the Governor's Budget and Planning Office and the Legislative Budget Office prior to acquisition.
3. It is the intent of the Legislature that agencies authorized to purchase passenger vehicles and/or other general use ground transportation vehicles shall purchase economical, fuel efficient vehicles assembled in the United States of America when the purchase of such vehicles would have no significant detrimental effect on the public service being performed. Each agency purchasing vehicles as authorized in this Act shall file, as a part of the annual report required elsewhere in this Article, a report listing each passenger vehicle purchased, make and model, purchase price, assigned type of use and fuel efficiency as expressed by the manufacturer fuel efficiency rating.
4. No funds appropriated by this Act may be expended by any agency or employee or state official to use a state car for personal use or for commuting to or from work, except when such commuting may be necessary to ensure vital agency functions are performed. Exceptions and reasons therefore shall be certified by individual name and job title by the administrative head of each affected agency and reports of such exceptions shall be filed in the annual report of the agency.

Sec. 20. Aircraft.

1. This sub-section shall apply only to state-owned aircraft and shall be the only appropriation authority therefor:
 - a. No purchase of aircraft shall be made from appropriated funds except as authorized in this Section.

TRAVEL REGULATIONS
(Continued)

- b. Agencies authorized to expend appropriated funds for the maintenance and operation of state-owned aircraft or replacements authorized below are: Texas A&M University System, Department of Criminal Justice, Department of Transportation, Parks and Wildlife Department, Department of Public Safety, University of Texas System, Texas State Technical College, Texas Forest Service, and Aircraft Pooling Board. Notwithstanding any other provision of this Act, all state-owned aircraft (including aircraft forfeited to or seized by a particular agency) are subject to the authority of the Aircraft Pooling Board under Article 4413(34b), V.A.C.S.
- c. Expenditure of appropriated funds for replacement of the above aircraft with aircraft of comparable quality may be made contingent upon approval of the Aircraft Pooling Board and a finding of fact by the Governor that a report has been filed with his office showing:
 - (1) That the aircraft to be replaced has been destroyed or has deteriorated to an extent that continued operation presents a serious hazard or that the aircraft to be replaced can no longer meet the mission requirements of the principal user state agency.
 - (2) That other state-owned aircraft cannot be effectively utilized in lieu of a replacement aircraft.
- d. It is the intent of the Legislature that state-owned aircraft be utilized by all agencies of the state. To determine the extent to which this intent is being met, agencies operating state-owned aircraft shall file an annual report with the Legislative Budget Office detailing utilization by other agencies and the methods used to increase the utilization. Statewide-elected officials shall be given priority in the scheduling of aircraft, however, the State Aircraft Pooling Board may require a twelve (12) hour notice by an official in order to accomplish such priority scheduling.
- e. The Aircraft Pooling Board shall purchase liability insurance to protect the officers and employees of state agencies operating state-owned aircraft. Expenditures necessary to purchase such insurance shall be made on a pro rata basis, as determined by the Aircraft Pooling Board, from appropriations authorized to each agency operating a state-owned aircraft. The Comptroller shall transfer such necessary amounts from agencies operating aircraft to the Aircraft Pooling Board for the purchase of liability insurance and expenditure of such funds by the board is hereby authorized.
- f. All state agencies operating aircraft based in Austin shall use State Aircraft Pooling Board facilities for storage, maintenance, and fueling of these aircraft to the extent that State Aircraft Pooling Board facilities are available.
- g. All agencies using State Aircraft Pooling Board services shall reimburse the State Aircraft Pooling Board for providing services within 30 days from the date of billing.
- h. Any reimbursements received by an agency of the state for authorized aircraft services rendered to any other agency of the state are hereby reappropriated to the agency receiving such reimbursements, and shall be credited to the agency's appropriation item(s) for aircraft expenses.
- i. All rates charged for interagency aircraft services shall be approved by the Aircraft Pooling Board and shall be set at levels adequate for recovery, to the extent possible, of all direct costs (including the pro-rata share of major maintenance, overhauls, and pilots' salaries) for the services provided.

TRAVEL REGULATIONS
(Continued)

- j. Except for appropriations made to the State Aircraft Pooling Board and the Comptroller of Public Accounts, no appropriations made in this act may be expended for lease or operation of aircraft, unless used only for transportation which meets the following criteria:
- (1) the purpose of the trip is official state business;
 - (2) all passengers are state officers or employees, or are persons in the care or custody of state officers or employees, or are persons whose transportation furthers the official state business purpose of that flight;
 - (3) the destination is not served by commercial carriers, or the time required to use such a carrier interferes with other obligations, or the number of state officers and employees traveling makes the use of state aircraft cost effective;
 - (4) any speeches to be given by passengers are related to official state business;
 - (5) events attended by passengers are not sponsored by a political party or for its promotion;
 - (6) no fees or honorariums are received by passengers, unless travel costs are reimbursed to the state;
 - (7) no money is raised for private or political purposes; and
 - (8) audiences are not charged to see or hear any of the passengers.
2. This subsection shall apply to expenditure of funds in connection with aircraft not owned by the state.
- a. In the event that a need arises and no state-owned aircraft are available through the Aircraft Pooling Board, or if the board determines that long or short-term lease or rental of aircraft would reduce the cost of transportation to the State of Texas, the board shall authorize state agencies to expend funds for such lease or rental of aircraft or helicopters.
 - b. Other than mileage reimbursements provided for in this Act, no other state agency in Articles I through IV may expend appropriated funds for the lease or rental of aircraft.

OTHER PROVISIONS

Sec. 21. Acceptance of Gifts of Money. All bequests and gifts of money to state agencies named in this Act including Article VI who have specific authority to accept gifts are hereby appropriated to the agency designated by the grantor and for such purposes as the grantor may specify, subject to the following:

1. Unless exempted by specific statutory authority, all such bequests and gifts of moneys shall be deposited into the State Treasury and shall be expended in accordance with the provisions of this Act.
2. No gifts or bequests to a state agency shall be transferred to a private or public development fund or foundation, unless written permission for the transfer is given by the donor of the gift

or representative of the estate. An account of all such letters of written permission and transfers of gifts and bequests shall be kept by the agency and shall be reported to the State Auditor.

Sec. 22. Federal Funds.

1. All funds received from the United States government by state agencies and institutions named in this Act are hereby appropriated to such agencies for the purposes for which the federal grant, allocation, aid, payment or reimbursement was made subject to the following:
 - a. Except for institutions and agencies of higher education, federal funds including unexpended balances shall be deposited to and expended from the specific appropriation item identified under each agency's appropriation bill pattern.

Except for institutions and agencies of higher education, no federal funds may be expended for strategies or functions other than those which have been reviewed by the Seventy-third Legislature and authorized by specific language in this Act or encompassed by an agency's budget structure as established by this Act.
 - b. As applicable, federal reimbursements received for expenditures previously made or services performed on behalf of federal programs from state funds shall be credited by the Comptroller to the fund from which the expenditure was originally made. The credit shall be to the agency's current appropriation item or accounts from which the expenditures of like character were originally made and are hereby reappropriated. Reimbursements received from employee benefits paid from General Revenue Fund appropriations of other administering agencies shall be deposited to the unappropriated General Revenue Fund.
 - c. All agencies receiving federal funds shall utilize those funds to the maximum extent possible to reduce expenditures of state funds appropriated for use. It is the intent of the Legislature that reductions in state funds be returned to the State Treasury.
 - d. It is the intent of the Legislature that any position created for administration of federal grant programs shall be phased out upon discontinuance of the particular federal grant for which it was authorized.
 - e. Annual reports showing federal funds received and their intended usage shall be filed by the Governor's Budget and Planning Office with the presiding officers of both houses of the Legislature for referral to appropriate standing committees for review.
2. Agencies subject to the Position Classification Act of 1961 will make federal grant employment in accordance with the provisions of that Act in positions listed in Article V of this Act.
3. In order to maximize the amount of federal alcohol and drug abuse funds which might become available to the Texas Commission on Alcohol and Drug Abuse, it is the intent of the Legislature that state funds used by any state agency to provide alcohol and drug abuse services may be counted towards any required state matching contribution for such federal funds.
4. All state agencies are required to report potential losses of any federal funds to the Governor, Legislative Budget Board, and the Comptroller of Public Accounts so that the Comptroller can include these potential federal fund losses in his report to the Legislature prior to each session.

OTHER PROVISIONS
(Continued)

Sec. 23. Earned Federal Funds. Earned federal funds are defined as all moneys received in connection with each entitlement period of a federally funded contract, grant or program excluding reimbursements as defined in Section 22(1)(b), which are not required by the governing agreement to be disbursed thereon. Typically, they arise from recoveries of costs previously paid from a nonfederal fund source, interagency contracts paid from another agency's federal funds, indirect cost allocations, interest earned on federal funds, and minor sources such as the sale of fixed assets purchased with federal funds. Except for state agencies of higher education and their affiliated agencies, the expenditure of funds received and/or earned in accordance with this definition by state agencies is limited to the appropriation authority granted to each agency. Any such excess funds remaining at the end of the biennium for each agency are to be carried forward as a funding source available for appropriations of the subsequent biennium.

Sec. 24. Prison-produced Goods. In order that all state agencies and institutions covered by this Act fully utilize funds herein appropriated, it is the intent of the Legislature that such agencies and institutions shall purchase goods produced by the Texas prison system when such goods are equal to or lower in price than goods of a comparable quality when purchased on the open market.

Sec. 25. Acquisition of Property. In order to conserve the moneys appropriated by this Act, the General Services Commission and the governing boards of the state institutions of higher learning either acting directly or through the General Services Commission or through any other state agency in behalf of their respective institutions, are hereby authorized to negotiate purchases of commodities and supplies of any kind or character whatsoever needed by any state agency with the duly authorized agencies of the federal government. However, any such commodities or supplies so purchased shall be obtained at a price not to exceed the prevailing market value thereof, and if there be no market value then at the real or intrinsic value.

It is further provided that only for the purposes of the expenditures authorized in the preceding paragraph, the General Services Commission and the governing boards of the state institutions of higher learning may waive the requirement of bidder's bond and performance bonds, otherwise required, in negotiating such purchases with the duly authorized representatives of the federal government.

Except as specifically authorized to do so by existing statutes, none of the agencies for which appropriations are made in this Act shall accept the donation of real property or expend any of the moneys appropriated herein for the purchase of real property without the expressed permission and authorization of the Legislature. It is further provided that the institutions of higher education are specifically authorized to accept gifts or devise of real property from private sources for the establishment of scholarships, professorships, or other trusts for educational purposes, provided such property will not hereafter require educational and general funds appropriations by the Legislature for operation, maintenance, repair, or the construction of buildings.

Sec. 26. Surplus Property. Receipts to any agency of the state government specified in this Act which are received from the sale of surplus property, equipment, livestock, commodities, or salvage pursuant to the provisions of House Bill No. 1673, Chapter 773, Acts, Sixty-sixth Legislature, 1979, are hereby appropriated to such State agency for expenditure during the fiscal year in which such receipts are received. Receipts from such surplus and salvage sales are to be credited to the appropriation item from which like property, equipment, livestock, or commodities would be purchased.

Sec. 27. Excess Obligations Prohibited. No department or agency specified in this Act shall incur an obligation in excess of the amounts appropriated to it for the respective objects or purposes named. As a specific exception to this provision the General Services Commission may determine that a proposed installment purchase arrangement is cost effective and certify this finding in response to an agency request. Such a finding may be made for obligations incurred for the

OTHER PROVISIONS

purchase or lease of automated information system equipment only if such department or agency has filed with the Department of Information Resources (DIR) a long-range automated information system plan and such plan has been approved by DIR. In the event this provision is violated, the State Auditor shall certify the fact and the amount of over-obligation to the Comptroller, and the Comptroller shall deduct an amount or amounts equivalent to such over-obligation from the salary or other compensation due the responsible disbursing or requisitioning officer or employee, and apply the amount to the payment of the obligation. This provision is specified pursuant to Section 10, Article XVI, of the Constitution of Texas.

Sec. 28. Definition of "U.B." In this Act, the term "unexpended balance" or the abbreviation "U.B." means the unobligated balance remaining in any appropriation, i.e., only that part of an appropriation, if any, that has not been set apart by the incurring of an obligation, commitment, or indebtedness by the state agency authorized to spend the appropriation. A reference in this Act to "unexpended balance" or "U.B." is a reference to the unobligated balance of an amount appropriated for the fiscal year ending August 31, 1993, by House Bill 1, Acts of the Seventy-second Legislature, First Called Session, 1991.

Sec. 29. Reimbursements and Payments.

1. Any reimbursements received by an agency of the state for authorized services rendered to any other agency of the state government, and any private sources and any payments to an agency of the state government made in settlement of a claim for damages, are hereby appropriated to the agency of the state receiving such reimbursements and payments for use during the fiscal year in which they are received.
2. Forfeited money, proceeds from the sale of forfeited property or similar monetary awards related to the agency's participation in the seizure of controlled substances or other contraband are appropriated to the receiving state agency, unless distribution is otherwise provided by statute.
3. Except as provided elsewhere in this Act, net amounts of money received by an agency as a result of tax seizures, forfeitures of property, or other similar regulatory functions authorized by statute shall be deposited in the state treasury as unappropriated revenues to the funds and/or accounts authorized by statute. The portion of proceeds representing recoveries of costs incurred in such forfeitures, seizures or similar functions are appropriated to the receiving agency. Such cost recoveries include court costs, attorney fees, rentals or storage fees, auction and sale costs, preparation costs to condition property for sale, and salaries, travel, and other overhead costs of the agency.
4. The reimbursements and payments received shall be credited by the Comptroller to the agency's current appropriation items or accounts from which the expenditures of like character were originally made, or in the case of damage settlements to the appropriation items or accounts from which repairs or replacements are made; provided, however, that any refund of less than fifty dollars (\$50) to an institution of higher education for postage, telephone service, returned books and materials, cylinder and container deposits, insurance premiums and like items, shall be deposited to the current fund account of the institution in the State Treasury and such funds are hereby reappropriated.

Sec. 30. Refunds of Deposits.

1. Any money deposited into the State Treasury which is subject to refund as provided by law shall be refunded from the fund into which such money was deposited, transferred, or otherwise credited, and so much as is necessary for said refunds is hereby appropriated.

OTHER PROVISIONS
(Continued)

2. Unless another law, or Section of this Act, provides a period within which a particular refund claim must be made, funds appropriated herein may not be used to pay a refund claim made under this Section after four years from the latest date on which the amount collected or received by the state was due, if the amount was required to be paid on or before a particular date. If the amount was not required to be paid on or before a particular date, a refund claim may not be made after four years from the date the amount was collected or received. A person who fails to make a refund claim within the period provided by law, or this provision, shall not be eligible to receive payment of a refund under this provision.
3. As a specific limitation to the amount of refunds paid from funds appropriated in this Act during the 1994-95 biennium, the Comptroller shall not approve claims or issue warrants for refunds in excess of the amount of revenue estimated to be available from the tax, fee, or other revenue source during the biennium according to the Biennial Revenue Estimate of the Comptroller of Public Accounts used for certification of this Act. Any claim or portion of a claim which is in excess of this limitation shall be presented to the next legislature for a specific appropriation in order for payment to be made. This limitation shall not apply to any taxes or fees paid under protest.
4. The State Comptroller of Public Accounts shall establish accounting procedures for suspense fund refund transactions in which all agencies will eliminate the delayed clearance of moneys from the suspense fund, reduce accounting paperwork, and maximize revenues to the General Revenue Fund and other state funds.

Sec. 31. Dormant Accounts. As provided in Tex. Govt. Code Ann., Sec. 403.091 the State Comptroller of Public Accounts shall, with the consent of the State Auditor and the State Treasurer, transfer the balances in any dormant account to the General Revenue Fund.

Sec. 32. Audits. None of the appropriations herein made shall be used to employ any firm or person to audit the books of any department, board, commission, institution or state agency, this being the duty of the State Auditor; provided, however, that in any instances where the funds available to the State Auditor are not, in the State Auditor's judgment, sufficient for any requested or contemplated audit, the department head or heads having authority to disburse the appropriations herein made are hereby authorized to direct the state Comptroller to transfer from any appropriations to the appropriation herein made for the State Auditor the amount which in the judgment of the State Auditor is necessary for the purpose of making such audit.

Any amount so transferred to the State Auditor shall be used for the actual costs of the specified audit, and any balances of such funds remaining at the end of any fiscal year are hereby appropriated to the State Auditor for the purpose of completing the audit or audits for which the funds were transferred. On the completion of any such audits any excess funds remaining shall be transferred by the State Auditor back to the department, board, commission, institution or agency from which transferred.

The provisions of this Section notwithstanding, supplemental audits of funds received from the United States Government by agencies of the state named in this Act, which are required as a condition of the receipt of such funds, may be made in addition to the auditing performed by the State Auditor when funds for such purpose are provided by the federal grant, allocation, aid or payment.

Notwithstanding other provisions of this Act, any state agency providing grants or operating funds for governmental programs to local governmental units, private corporations, or other organizations other than a state agency or department, may require, as a condition to granting or providing such funds, that the receiving entity have a yearly independent audit performed and transmitted to the state agency. If sufficient personnel are available, the state agency may have its internal audit staff

make a yearly inspection visit to the local entity. The state agency shall take action on exceptions noted in the independent audits and provide documentation of that action to the State Auditor, Legislative Audit Committee, Legislative Budget Board and the Governor's Office. Notice of such action shall be given at the board meeting of the state agency and shall be announced on the agenda of that meeting.

Sec. 33. Interpretation of Estimates. In the event the amounts of federal funds, local funds, or funds other than appropriations from the General Revenue Fund, have been estimated in this Act in sums greater than are actually received by the respective agencies of the state, this Act shall not be construed as appropriating additional funds from General Revenue to make up such differences. Wherever the language of this Act appropriates all receipts and balances from a specified source but uses an estimated amount to inform the Legislature and the public, the estimated figure is not to be construed as a limitation on the amount appropriated.

Sec. 34. Petty Cash Accounts. A state agency may expend petty cash funds in a manner consistent with the provisions of §403.241 et seq., Government Code. Such amounts as are necessary for the efficient operation of state agencies are appropriated. All amounts should be drawn from appropriations where similar expenditures would be made.

Sec. 35. Sale of Hearings Transcripts. Proceeds from the sale of transcripts made by hearings reporters who are state employees shall be deposited in the State Treasury in all cases where the copies of the transcript are made on state time or using state supplies or equipment. State agencies allowing employees to retain proceeds from the sale of transcripts shall develop procedures for assuring that neither state equipment nor supplies are used in preparing copies of transcripts.

Sec. 36. Vending Machines Authorized. Except in those areas which are now served by vendors operating under supervision of the Blind Commission, vending machines may be placed on state-owned or leased property or in state-owned or leased buildings only with the approval of the governing boards or commissions and such approval shall be recorded in the minutes of the body. A copy of the contract shall be filed with the General Services Commission showing the location within the agency and the terms of the contract. Proceeds, net revenues, rentals or commissions received shall be accounted for as state revenue and the amount so collected is hereby appropriated to the institution, board, commission or agency for use as directed by the board or commission authorizing the installation. The amount of such proceeds, net revenues, rentals or commissions and disposal of such funds shall be included in the annual report of the state agency as required elsewhere in this Act. Vending machines located in areas or buildings now being serviced by vendors under the supervision of the Blind Commission must be operated under a joint contract with the machine owners and the vendors operating under the supervision of the Blind Commission.

Sec. 37. Pay Station Telephones Authorized. Pay station telephones may be located in the capitol area only with the approval of the General Services Commission and the net proceeds of such installations shall be collected and deposited to the General Revenue Fund by the General Services Commission. In other areas pay telephones may be located in state-owned or leased buildings or on state-owned land only with the approval of the governing board or commission and the net proceeds shall be collected and accounted for as state revenue and the amount so collected is hereby appropriated for use by the agency as determined by the governing board or commission. The amount of net proceeds and disposal of such funds shall be included in the annual report of the state agency as required elsewhere in this Act.

Sec. 38. Central Supply Store and Revolving Fund. The legislative intent in establishing a Central Supply Store to serve state agencies is to obtain maximum efficiency and economy of operations and convenience to state agencies. To this end the revolving fund previously established in the amount of Seven Hundred Thousand Dollars (\$700,000) is hereby reappropriated. Transfer

OTHER PROVISIONS
(Continued)

of agency funds to reimburse this revolving fund for purchases made by the using agency shall be accomplished by the most efficient and expeditious procedure possible including the elimination of warrant issuance when feasible.

Sec. 39. Purchases of Postage. Except as otherwise provided in this section, the funds appropriated by this Act may be expended for purchasing postage only from, or paying post office box rent only to, the United States Postal Service. However, the preceding limitation does not apply to any reimbursement authorized under either Section 29 of this article or Section 8. 4. of Article III of this Act; to reimbursements to any authorized petty cash account; or, to reimbursements to state employees for emergency purchases of postage or emergency payments of post office box rent.

If the expenditures for postage by any agency, other than the legislature or an agency of higher education, exceed \$4,000 for a fiscal year, then the agency shall install a postage meter machine and have all purchases of postage recorded on that machine, excepting purchases of stamps for field offices or traveling employees. The installation cost and rental of the postage meter machine shall be paid from appropriations in this Act for general operating, current and recurring operating expense, other operating, maintenance, miscellaneous, or contingent expenses. An agency, including the legislature or an agency of higher education, may rent a postage meter machine from a private company approved by the General Services Commission and may pay the company for postage in accordance with procedures established by the commission.

The amount received by an agency as a refund of postage used by the agency shall be deposited in the fund to the credit of the appropriation from which postage for the agency is paid and is reappropriated to the agency for postage use.

The Comptroller of Public Accounts shall adopt procedures to implement this section after consulting with the General Services Commission.

It is the intent of the Legislature that state agencies and institutions use the most cost-effective means of postal service available.

Sec. 40. Court Representation and Outside Legal Counsel. Except as otherwise provided by the Constitution or general or special statutes, the Attorney General shall have the primary duty of representing the State of Texas in the trial of civil cases. Funds appropriated in this Act may not be expended by any agency of the state government (other than those included in Article VI of this Act) to initiate a law suit or defend itself against any legal action without the consent of the Attorney General. Absent this consent, such agency shall be represented in that particular action by the Attorney General or a member of his staff. Where the Attorney General, District Attorney, Criminal District Attorney, County Attorney, or other lawyer is required by constitutional or statutory provision to represent a state agency, state official, state board or state department, no compensation shall be paid from any appropriation made in this Act to any other attorney for representing the State of Texas in the trial of a civil law suit in Constitutional Courts except in those cases where the Attorney General consents to such representation or the District Attorney, Criminal District Attorney, County Attorney or other lawyer has requested that the attorney or attorneys employed by the particular state agency, state official, state department or state board assist with the trial of the particular law suit. This provision shall not, however, restrict a state agency, state official, state department or state board in the investigation and assembling of evidence in connection with a pending or prospective civil suit. Further, this provision shall not prohibit the foregoing state officials, state agencies, state boards or state departments and their employees from investigating, filing or presenting a claim, owing to the State of Texas, when such claim is filed with or presented to an individual, association, corporation, guardian, administrator, executor, receiver, trustee, legal representative, or probate court.

OTHER PROVISIONS
(Continued)

This provision was not intended and shall not restrict the Attorney General from employing special assistants to assist in the trial of civil suits to be paid from the appropriations therefor made to the Attorney General's Office.

Prior to expenditure of funds for retaining outside legal counsel, agencies and departments other than those included in Article VI of this Act shall request the Attorney General to perform such services. If the Attorney General cannot provide such services, he shall so certify to the requesting agency who may then utilize appropriated funds to retain outside counsel. However, funds appropriated in this Act may not be used to contract with an attorney who represents clients before the agency or who has, during a six month period preceding the initiative of the contract and a six month period following the termination of the contract, represented clients before the agency. It is specifically provided that no agency shall initiate the process of selecting outside legal counsel prior to receiving the approval of the Attorney General to retain outside counsel.

It is the intent of the Legislature that when the Attorney General is called upon by a state agency to take legal action in court against another state agency that the Attorney General give special consideration to permitting one of the agencies to employ, from the permitted agency's funds, outside counsel to represent that agency in that action in order to avoid a conflict of interest by the Attorney General in the representation of both agencies.

In the event that the Attorney General should initiate legal action against another state agency in behalf of the Attorney General rather than another agency, the Legislature determines that a conflict of interest exists and the agency against which the Attorney General takes action is hereby authorized to expend appropriated funds for outside legal counsel to represent that agency without the prior approval or consent of the Attorney General.

Sec. 41. Prime Design Professional Fees. The prime design professional may be either a registered architect or a registered professional engineer. Fees paid to the prime design professional from funds appropriated in this Act shall be governed by the following schedule and provisions:

1. The schedule of basic fees to be paid a prime design professional for all professional services as set out below, based on the total cost of the work, shall not exceed:

Construction Cost of Project:	Dormitories, Garages, and Warehouses	Classroom, Office and Other Bldgs.	Health, Research, Special Education Facilities
Over \$15,000,000	6.0%	6.0%	6.0%
\$200,000 to \$15,000,000	6.5%	7.0%	7.5%
Up to \$200,000	7.5%	8.0%	8.5%

Basic fee for remodeling and alterations shall be one-third greater than scheduled above. Alterations and remodeling is defined as any change, architectural, structural, mechanical or electrical, made to an existing structure and includes portions of that structure changed as a result of additions or extensions to a structure.

2. When one building design is used in two or more locations within the same project, the fees to be paid shall be:
 - a. For the first building of such design, a basic fee calculated according to the schedule above.

OTHER PROVISIONS
(Continued)

- b. For the second and subsequent buildings utilizing such design, the basic fee shall be reduced 35%. Such fee shall include changes required by site conditions including foundation redesign; partition changes; mechanical and electrical changes; necessary program changes; other architectural or engineering services normal under such circumstances; and inspection of the construction.
3. Prime design professional fees shall include:
- a. The necessary conferences, and the preparation of preliminary studies and final designs.
 - b. The production of complete architectural and engineering drawings and specifications including their proper correlation.
 - c. Construction contract administration and all other normal professional services.
 - d. Payment of all fees to consulting engineers, architects and landscape architects for their services in connection with the building design and construction when employed by the prime design professional.
4. The prime design professional shall inspect the construction of the work to such an extent as may be necessary to ascertain whether the work is being executed in conformity with his working drawings or specifications or directions; make recommendations on materials and equipment; check and report on contractor's proposals in connection with changes in the contract; and approve certificates of payment. When continuous field supervision or a clerk of the works is deemed necessary by the state, the cost of such supervisory personnel shall be borne by the state in addition to the basic fee.
5. The maximum fee specified shall include the cost of all professional services rendered by architects or engineers, and the aggregate contract price for services rendered by a consulting architect and consulting engineer shall never exceed the applicable fee limitation except as set forth in sub-section 4 hereof.
6. The state will furnish the prime design professional a limited consulting service consisting of a complete survey, soil analysis, and a program of the work outlining in detail the space requirements, their general relationships and the standards of types of construction.

Sec. 42. Minutes of Board Meetings. The appropriations made in this Act are contingent upon adherence to the following procedure: in order that the Governor and the Legislature may be more adequately informed about the disposition and use of appropriations authorized from all funds, the governing bodies of the institutions, schools, and agencies of the executive branch of the government shall cause to be filed with the Legislative Reference Library, immediately upon transcription, certified copies of the minutes of board meetings. Any changes or subsequent corrections of minutes shall be similarly filed with the Legislative Reference Library.

Sec. 43. State Telephone System Use. It is the intent of the Legislature that policy manuals of state agencies and institutions of higher education contain the directive that state employees be advised that an employee may be held liable for the cost difference between a non-State Telecommunications System (STS) call and an STS call, unless the non-STS call meets the following standards: (1) the executive head certifies to the Comptroller that an emergency exists; (2) the General Services Commission determines the non-STS call is most cost effective; or (3) the STS network is not available at the location.

Sec. 44. Intercity Telecommunications. State agencies shall to the fullest extent possible utilize the State Telecommunications System (STS). Funds appropriated in this Act to state agencies as

OTHER PROVISIONS
(Continued)

defined in Section 1.02(2), Article 601b, V.T.C.S., shall not be expended for the acquisition of intercity telecommunications until a determination has been made by the Telecommunications Services Division of the General Services Commission that the agency requirement for intercity telecommunications cannot be met by the STS network. Existing facilities of the STS network will be utilized to the maximum extent possible to meet the intercity telecommunications needs of each agency.

Sec. 45. Telecommunication Revolving Account. All moneys paid into this account in accordance with the provisions of Article 10 of Article 601b, V.T.C.S., are hereby appropriated and may be expended for the purposes set out in Article 10. This includes services such as planning, development of requests for information and proposals and contract negotiations. The balance in this account as of August 31, 1993, is hereby reappropriated and may be expended for those same purposes

Sec. 46. Centralized Capitol Complex Telephone System. This section shall apply to state departments and agencies in the Capitol Complex area utilizing the state-owned Centralized Telephone Service of the General Services Commission.

Upon certification by the General Services Commission as to the pro rata share of the system for each using agency, a reimbursement to the General Services Commission shall be accomplished by the most efficient and expeditious procedure possible including the elimination of warrant issuance when feasible. Funds applicable to the state-owned Centralized Telephone Service shall be maintained in the Telecommunication Revolving Account but specifically identified. The Telecommunication Revolving Account shall be utilized as the depository for specific appropriations, reimbursements from using agencies, and shall be a source of funds to purchase, installment purchase, lease or otherwise acquire services, supplies, and equipment and to pay salaries, wages, and other costs directly attributable to the provisions and operations of the system.

All moneys paid into this account are appropriated for stated purposes and the balance at August 31, 1993, is reappropriated for the 1994 fiscal year and the balance at August 31, 1994, is reappropriated for fiscal year 1995. Notwithstanding other provisions in this Act, the General Services Commission is authorized to enter into a lease-purchase or installment purchase agreement for equipment and related telephone lines, etc., for a state-owned Centralized Telephone System.

Sec. 47. Use of TEX-AN Network. The Legislature instructs state agencies to use the Texas Agency Network (TEX-AN) to the fullest extent possible. Funds appropriated in this Act to state agencies as defined in Section 1.02(2), Article 601b, V.T.C.S., shall not be expended for the acquisition of intercity telecommunications facilities or services until a determination has been made by the Telecommunications Services Division of the General Services Commission and the Department of Information Services (DIR) that the agency requirement for intercity telecommunications cannot be met by the TEX-AN network. State agencies shall not enter into or renew contracts with carriers or other providers of intercity telecommunications facilities or services without obtaining waivers from the Telecommunications Services Division and DIR certifying that the requested intercity telecommunications requirements cannot be provided at reasonable costs on the TEX-AN network. Waiver requests will be evaluated by the Telecommunications Services Division and DIR based on cost-effectiveness to the entire State of Texas. Waivers may be granted for specific periods of time and automatically expire upon the expiration date unless an extension is approved by the Telecommunications Services Division and DIR. Contracts for services obtained under waiver shall not extend beyond the expiration date of the waiver.

Sec. 48. Unlisted Telephone Numbers Prohibited. None of the funds appropriated by this Act shall be expended by any state agency, official or employee thereof, for the payment or rental or toll charges on telephones which are not listed or available from "Information Operators" at telephone exchanges. This section shall not prohibit unlisted telephone numbers used in providing

access to computers, telephone system control centers, long distance networks, elevator control systems, and other tone controlled devices where restricted access to the telephone number is justified for security or other purposes, or in narcotic undercover operations or in detection of illegal sales of securities under the Securities Act.

Sec. 49. Budgeting and Reporting. As a limitation and restriction upon appropriations made by this Act, all agencies covered under Article I through Article IV shall expend funds only if there is compliance with the following provisions:

1. On or before November 1 of each fiscal year, an itemized budget covering the operation of that fiscal year shall be filed with the Governor's Office of Budget and Planning, the Legislative Budget Office, the Treasury Department and Legislative Reference Library in the format prescribed jointly by both budget offices. The operating budget submitted shall include a cash flow analysis in a format determined by the State Treasurer. Such analysis shall be required of any agency by the State Treasurer only if the Treasurer has determined that revenue benefits will accrue to the state as a result of the analysis.
2. All subsequent amendments to the original budget shall be filed with the Governor's Office of Budget and Planning and the Legislative Budget Board within thirty (30) days of approval of such amendments unless such reporting requirement is waived.
3. Under guidelines developed by the Legislative Budget Board, each agency shall file a report with the Legislative Budget Board, the Governor's Office of Budget and Planning, the Legislative Reference Library, the Texas State Publications Clearinghouse, and the appropriate substantive committees of the House and Senate analyzing the performance and operational efficiency of each funded objective and strategy as indicated by the agency's efforts in attaining stated outcome, output and efficiency targets. The report shall be submitted at such intervals required by the Legislative Budget Board and shall contain a comparison of actual performance for the reporting period with performance projected to be achieved based on the level of funding appropriated. In developing guidelines for the submission of agency performance reports, the Legislative Budget Board shall:
 - (1) specify the measures to be reported including the key performance measures established in this Act;
 - (2) approve the definitions of measures reported;
 - (3) establish standards for the calculation of projected performance target levels and the reporting of significant variances between actual and projected target levels;
 - (4) utilize, to the extent possible, the features and capabilities of the Uniform Statewide Accounting System for agency compliance with these reporting requirements.

The Legislative Budget Board may adjust projected performance target levels, modify existing measures and measure definitions, develop new measures, and/or transfer measures between agencies to reflect appropriation changes made by riders or other legislation subsequent to passage of this Act, invocation of budget execution authority by the Governor and the Legislative Budget Board, or as unforeseen circumstances may warrant during the biennium.

4. To ensure that the Program and Cost Accounting functions of the Uniform Statewide Accounting System (USAS) are maximized, it is the intent of the Legislature that the Legislative Budget Board and the Governor's Budget Office: (1) determine the agencies, institutions, goals, strategies or other reporting units for which cost accounting data is required; (2) approve the basis for calculating and allocating costs to selected functions, tasks or measures; (3) determine the frequency of reporting cost accounting data needed; and, (4) provide for the integration of cost accounting data into the budget development and oversight

process. The determinations to be made should be based upon due consideration of the relative benefits and cost-effectiveness of applying cost accounting requirements to a given state operation.

It is further the intent of the Legislature that the Comptroller of Public Accounts develop and provide USAS training modules and support for state agencies and institutions to activate the cost accounting requirements addressed above.

Sec. 50. Annual Reports and Inventories. None of the moneys appropriated in this Act in Articles I, II, III, or IV may be expended after a period of one hundred (100) days following the close of the 1993 fiscal year and ninety (90) days following the close of the 1994 fiscal year, unless there has been filed with the Governor, the State Auditor, the Legislative Budget Board, Legislative Reference Library, and Comptroller of Public Accounts an annual report as of August 31 of the preceding fiscal year by the executive head of each department or agency specified in this Act, showing the use of appropriated funds. The goal of the legislature is to ultimately reduce the reporting date to fifty (50) days following the close of the fiscal year to allow the timely reporting of accounting data and the issuance of the state's Comprehensive Annual Financial Report. The annual report shall include the following:

1. An annual financial report including a statement of assets, liabilities and fund balances and showing the true condition of all funds and accounts balances for which the department or agency head is responsible, and reflecting the actual cash on hand and on deposit in banks and in the State Treasury accounts, and moneys due the department or agency from all sources; values of consumable supplies and postage; values of inventories of movable equipment and other fixed assets; investments of bonds, notes, and other securities owned by any special funds under the jurisdiction of the department or agency; all other assets; and all sums of which the department or agency is liable for services rendered or goods received; and all outstanding commitments. The report shall also contain summaries by sources of all revenues collected or accruing to the state through the department or agency for the fiscal year immediately preceding; and a summary of appropriations, expenditures, bona fide encumbrances and all other disbursements of the department or agency for the fiscal year. The Comptroller of Public Accounts is to approve all reports as to form and content.
2. A list of all bonded employees showing name, title, and amount of surety bond, together with the name of the surety company.
3. An analysis of space occupied by the department or agency showing the number of square feet rented and the number of square feet occupied in state-owned buildings; giving the location of such space by building name or address and the number of square feet devoted to office, warehouse or other designated uses, indicating the cost per square foot, cost per month, annual cost and lessor of all rented space, and such other information as may be of assistance in describing the space utilized by each state department or agency.
4. An itemized statement of all professional and/or consulting fees paid out of appropriations made in this Act. The statement shall include the name of each person, partnership, corporation or other business entity receiving such fees and for what purposes the fees were paid. Except as otherwise provided by this Act, the statement shall include the services of licensed professionals, as defined in Article 666-4, V.A.C.S., and the personal services of individuals or entities under an independent contract to study or advise the agency as defined in Article 6265-11c., V.A.C.S.

description, date purchased or leased, cost, hours flown, operating costs, number of flights and destination, number, names and destination of passengers, date of each flight and a detailed and specific description of the official business purpose of each flight. Aircraft flight logs required by this section shall be provided on a monthly basis to the State Aircraft Pooling Board.

6. A list of purchases made in accordance with Article 601b, Section 3.09, V.A.C.S., to which the General Services Commission has taken exception. Each item in the list should contain the following information: product purchased, vendor and purchase amount.
7. A section, consisting of the Master File Report Verification Form certified by the Texas General Land Office; confirming that the inventory report is an accurate and complete record of the agency's real property as of the date specified, or if the report is not accurate and complete, that the appropriate update forms will be submitted within 15 days of the date of the annual report. Certification by the General Land Office will serve as acknowledgement that the agency is in compliance with the real property inventory reporting requirements as stated in Texas Natural Resource Code, §31.151, et seq. A copy of this section should be directed to the General Land Office for inclusion in the State Real Property Inventory records.
8. It is further provided that the State Auditor is to certify to the Comptroller of Public Accounts any and all departments which have not filed the required annual report within the specified time, and the Comptroller of Public Accounts is to withhold any salary warrants or expense reimbursement warrants to the heads or any employees of such departments or agencies as are on this certified list until such time as the State Auditor shall notify the Comptroller that such delinquent reports have been filed. The words "heads of departments or agencies" as used in this Section shall mean the elected and appointed officials, members of commissions, boards, etc., and the chief administrative officer of such department, board, commission, bureau, office, or agency of the state for which appropriations are made in this Act.

All departments, institutions of higher education, agencies, officers and employees or agents of the state shall, in addition to those estimates and reports now provided by law relating to appropriations, submit a binding encumbrance report by appropriation account relating to prior year's non-construction appropriations within sixty days after the close of a fiscal year to the Comptroller of Public Accounts, State Auditor and the Legislative Budget Office. The Comptroller of Public Accounts, upon receiving the report, will promptly lapse any excess prior year appropriation authority. If an agency submits a valid claim after sixty days against a prior year appropriation account, the Comptroller of Public Accounts may re-open the account sufficient to pay the claim. The Comptroller of Public Accounts is to approve all reports as to form and content.

Sec. 51. Bookkeeping Entries. Should clerical or bookkeeping errors result in any moneys being expended, transferred, or deposited into incorrect funds in or with the State Treasury or any moneys being cleared from a trust and suspense fund to other than the proper fund, such erroneously expended, transferred, deposited, or cleared moneys may be transferred to the correct funds or accounts or trust and suspense account within the State Treasury upon request of the administering department with the concurrence of the State Comptroller, and so much as is necessary for said transfer is hereby appropriated.

Sec. 52. Cost Allocations. For the purpose of more effective and efficient identification and allocation of costs, and to effect timely payments to employees and vendors, agencies may temporarily charge salary and/or operating costs to appropriations most applicable for the expense being incurred. Upon receipt of more specific information such as personnel-time allocation

The General Revenue Fund and the Unemployment Compensation Special Administration Fund shall be reimbursed from amounts appropriated elsewhere in this Act from Other Special Funds and from funds held in local bank accounts for all former state employees whose payroll warrants were originally issued in whole or part from Other Special Funds or local bank accounts. From information provided by the Texas Employment Commission, the Comptroller of Public Accounts shall determine the proportionate amount of the reimbursement or payment due from funds other than General Revenue and transfer such funds to the General Revenue Fund and/or the Unemployment Compensation Special Administration Fund. For reimbursements due from funds not held in the State Treasury, state agencies shall reimburse the General Revenue Fund and/or the Unemployment Compensation Special Administration Fund with a check. Such transfers and payments as are authorized under law shall be made within thirty (30) days from receipt of the statement of payments due. The Comptroller of Public Accounts may prescribe accounting procedures and regulations to implement this section.

2. An agency, institution, department, commission, board, division, or other unit of state government is authorized to allocate funds to a revolving account created on its books to receive contributions from funds other than General Revenue based on a percentage-of-payroll assessment to be determined by such unit of government for the purpose of reimbursing the General Revenue Fund and/or the Unemployment Compensation Special Administration Fund for the unemployment benefits paid.

Upon verification that an agency has not obtained the Attorney General's approval prior to payment of a judgment or settlement, the State Auditor shall certify such fact to the Comptroller of Public Accounts. The Comptroller shall withhold all appropriations for administrative expenses for the involved agency, until such time as the Legislative Audit Committee notifies the Comptroller that the agency's non-compliance has been reviewed and necessary recommendations or changes made.

Sec. 66. Research Policy. No agency may expend any funds appropriated by this Act for research projects of any type until the agency has adopted and filed with the Legislative Budget Board a policy which clearly establishes and protects the property rights of the state with regard to any patentable product, process, or idea that might result from such research.

In order to avoid duplication, state agencies excluding institutions of higher education may not expend any funds to conduct or support policy research on subjects within the statutory jurisdiction of another agency without providing written notification to the agency concerning work plan and coordination of resources.

In order to implement this provision, the various boards for lease shall include a provision in all mineral leases to allow the taking in kind of any royalties due to the state. Further, the leases may include a provision for placing state meters on all gas wells at the wellhead for monitoring the amount of gas taken.

Sec. 70. Expenditures for State-federal Relations. Sec. 109. Cooperation in Implementing USAS. The Legislature directs each agency, department, and institution to cooperate fully with the Comptroller of Public Accounts in implementing the Uniform Statewide Accounting System (USAS). Full cooperation includes adopting standards as promulgated, complying with instructions, and otherwise participating in good faith toward the timely implementation of USAS under the direction of the Comptroller of Public Accounts.

Sec. 110. State Agency Cost Savings/Revenue Enhancement Plans. It is the intent of the legislature that appropriations made in this Act be utilized in the most efficient and effective manner possible to achieve the intended purposes of administering agency operations and programs. In order to achieve identifiable spending reductions, savings, or revenue enhancements of not less than \$100 million for the General Revenue Fund during the 1994-95 biennium, the following provisions shall apply to funds appropriated in this Act:

1. The plans required by this section shall be submitted no later than December 1, 1993. A Productivity Plan approved by the Texas Incentive and Productivity Commission under the Productivity Bonus Program shall be considered a valid savings plan under this section.
2. The Legislative Budget Board shall determine the amounts to be reduced for each agency and institution of higher education to realize the minimum savings of \$100 million to the General Revenue Fund. The Legislative Budget Board may reduce appropriations in amounts necessary to accomplish the total reduction goal. In the event the Legislative Budget Board fails to reduce budgets within 90 days of notification from the Comptroller, the Comptroller shall reduce appropriations. The Comptroller shall utilize the savings identified in the cost savings and revenue enhancement programs together with across-the-board reductions to agency and institution appropriations to achieve the minimum savings of \$100 million. The Comptroller shall apply the across-the-board reduction to all appropriations except those designated as being estimated to achieve

State agencies and institutions of higher education that identify certifiable savings for their respective agency or institution that exceeds 1% of that agency's or institution's biennial general revenue appropriations shall not be subject to any additional reductions of their respective appropriations as a result of this rider.

3. Agencies or institutions of higher education may not pay achievement bonus awards unless a cost savings and revenue enhancement plan is on file with the Legislative Budget Board, the Comptroller's Office, and the Governor's Office. Sec. 112. Job Notice Posting Waiver. To the extent permissible by law, any agency affected by legislatively-mandated reorganizations and/or mergers may transfer or reassign an employee without the necessity of posting a job vacancy notice provided that the executive director of the agency certifies that each transfer or reassignment is necessary for the proper implementation of the reorganization and/or merger.

Sec. 113. Oil Overcharge Settlement Funds. All funds allocated to the State of Texas through consent decrees, court decrees and administrative orders involving violation of mandatory petroleum pricing and allocation strategies, including the interest earned on those funds as well as the accrued earnings, are hereby appropriated to the Office of the Governor or the administering agency for the biennium beginning September 1, 1993. To the extent possible, all expenditures from funds held in the Treasury shall be reported on an actual basis reflecting the county where the goods or services were delivered. However, in situations where it may not be possible or practical to accurately determine the correct county, such as debt service payments, employee fringe benefits, etc., the Comptroller shall estimate the expenditures by county. All state agencies shall cooperate as necessary with the Comptroller in providing necessary information to enable the timely completion of the report. A copy of each report shall be filed with the Governor, Lt. Governor, Speaker of the House of Representatives, and Legislative Budget Board no later than December 1 of each year.

If the General Land Office is able to substitute a contract using in-kind royalty gas from state-owned lands or other gas for the contract under which the agency acquires or proposes to acquire its natural gas supplies, the Commissioner shall, on a monthly basis, inform the Comptroller of the savings being achieved by the agency and the Comptroller shall reduce the agency's utility appropriation authority accordingly. The Comptroller

Sec. 119. Limitation on Consultant Contracts with Previous Employees. None of the funds appropriated to a department or agency may be used to enter into a consultant contract with any individual who has been previously employed by the department or agency within the past twelve months.

Sec. 120. Interpretation of Legislative Intent. It is the intent of the Legislature that funds appropriated in this Act be expended, as nearly as practicable, for the purposes for which they were appropriated. In the event departments and agencies cannot determine legislative purpose from the pattern of appropriations they shall seek to determine that purpose from the proceedings of the legislative committees responsible for proposing appropriations for the State of Texas.

It is further provided that the Comptroller shall not refuse to pass for payment a legal claim, factually justified, for which a valid appropriation has been made.

Sec. 121. Funds Consolidation. Special funds, referred to in the Method of Financing of the various agencies and institutions of higher education, may be consolidated into the General Revenue Fund in accordance with the Government Code Section 403.094. Funds transferred pursuant to this provision may be expended only for the purpose of paying salaries.

Funds appropriated in this Act in appropriation items styled "Section 146, 1993 Salary Increase" are appropriated for the purpose of paying that portion of the respective agency's payroll attributable to the across-the-board salary increase authorized for fiscal year 1993 pursuant to Article V, Section 146 of House Bill 1, Seventy-second Legislature, First Called Session, and may be transferred to the appropriate line items for this purpose notwithstanding limitations on transfers found elsewhere in this Act.

Sec. 125. Appropriations Adjustment - Higher Education. From appropriations to the general academic institutions and the two year institutions of higher education in Article III of this Act, the Comptroller of Public Accounts shall transfer unexpended balances from fiscal year 1994 to fiscal year 1995 for each of the affected institutions referenced by this section in an amount not-to-exceed fifty percent of the 1994 general revenue cost of the December 1992 three percent salary increase.

Sec. 126. Accounting for State Expenditures. Notwithstanding the various patterns of appropriation established in this Act, the Comptroller of Public Accounts is hereby directed to account for the expenditure of funds appropriated by this Act in a manner which allows for the reporting of expenditures attributable to each strategy in an agency's respective Strategic Planning and Budget Structure as approved by the Governor's office of Budget and Planning and the Legislative Budget Board. Such information shall be recorded and maintained systematically in the state accounting system in a manner which provides for the integration of the state's budget data and the state's accounting data and to facilitate the state's budget development process.

This provision is not intended to require the deposit into and subsequent disbursement of funds from the State Treasury which relate to Texas Public Education Grants, Skiles Act Debt Service, or Local Funds defined in V.T.C.A. Education Code, Section 51.009(C), except for tuition and lab fees.

Sec. 127. EEPC, Transfer of Funds. Funds authorized in this act for the Educational Economic Policy Center are appropriated and transferred to the Legislative Budget Board. OTHER PROVISIONS
(Continued)

- B. Agencies may transfer appropriation amounts from any appropriation into the administrative cost pool for payment of these administrative costs.
- C. Using the methodology authorized in Section 52 of this article, or other appropriate means, administrative expenditures must be allocated to the appropriate strategy within one month after the end of each quarter or other reporting period as later required by the Legislative Budget Board and the Governor's Office of Budget and Planning.
- D. Unexpended and unobligated balances in the administrative cost pools must be transferred back to the source appropriation within 30 days after the end of each fiscal year.

It is the intent of the Legislature that the provisions of this section be included in any special appropriation act which makes an appropriation subject to the cost allocation requirements of the Legislative Budget Office and the Governor's Office of Budget and Planning. The Comptroller shall establish rules and procedures for the agencies to carry out the provisions of this section in the Uniform Statewide Accounting System.

Sec. 130. Prompt Payment for Interagency Goods and Services. Any funds appropriated in this Act that are obligated pursuant to written agreement for payment by one state agency or institution to another state agency or institution for the exchange of goods or services shall be remitted within thirty (30) days after the goods or services are provided and an invoice is received. In the event that a receiving agency or institution does not accept the goods or services or finds an error in the invoice, the receiving agency or institution shall notify the performing agency or institution in writing as soon as possible within the 30-day period and shall make payment not less than ten (10) days after the problems are corrected or the error resolved to the satisfaction of both parties. If both parties are unable to agree on the amount of payment, the Comptroller shall determine the appropriate amount. However, in the event that written notice is not provided within the 30-day period, the Comptroller is hereby authorized to transfer the necessary funds upon request by the agency or institution providing the interagency goods and services from appropriated balances of the receiving agency or institution.

Sec. 131. Prompt Payment Discounts. State agencies when purchasing goods and services including those purchased through or by the General Services Commission shall negotiate a prompt payment discount with the vendor.

All state agencies when paying for goods and services that were purchased under an agreement that included a prompt payment discount shall submit the necessary payment documents or information to the Comptroller with sufficient lead time to allow the Comptroller to generate a payment or warrant and for the agency to deliver the warrant to the vendor in time to take advantage of the prompt payment discount.

Sec. 132. Performance Rewards and Penalties. It is the intent of the legislature that appropriations made in this Act be utilized in the most efficient and effective manner possible to achieve the intended mission of each state agency and institution. In order to achieve the objectives and service standards established in this Act, agencies and institutions shall make every effort to attain the designated key performance target levels associated with each item of appropriation.

- (a) To support and encourage the achievement and maintenance of these appropriated annual performance levels, continued expenditure of any appropriations in this Act shall be contingent upon compliance with the following provisions:

OTHER PROVISIONS

 - (2) Agencies and institutions shall provide testimony as to the reasons for any performance variances to the Senate Finance Committee and the House Appropriations Committee, as determined to be necessary by those committees; assessments of agency and institution performance shall be provided to the committees under guidelines and procedures developed by the Legislative Budget Board.
- (b) Upon a finding that an agency or institution has successfully met or exceeded performance expectations, or has failed to achieve expected performance levels, the Legislative Budget Board, and the Governor, may adopt a budget execution order, which may include but is not limited to, one or more of the following:
- (1) Positive Incentives/Rewards - Increased funding, exemption from reporting requirements, increased funding transferability, formalized recognition or accolade, awards or bonuses, expanded responsibility, or expanded contracting authority;

 - (4) The Legislative Budget Board may request from the State Auditor's Office comments regarding performance penalties and rewards.

Sec. 133. Quality Assurance Review on Major Information Resources Projects.

- a. Major information resources projects shall be construed as any information resources technology project identified in an agency operating plan whose development costs are over \$1,000,000 and include one or more of the following: (1) require a year or more to reach operational status; (2) involve more than one agency or government; or, (3) materially alter work methods of agency personnel and/or the delivery of services to agency clients.
- b. The appropriation authority provided for major information resources projects as specified in (a) is contingent upon approval of the project by a Quality Assurance Team comprised of the Legislative Budget Office, Department of Information Resources, and the Office of the State Auditor.
- c. The Quality Assurance Team shall determine major information resources project approval based on the completion of an independent risk analysis for each project meeting the criteria in (a). The Quality Assurance Team may waive the risk analysis requirement for any project it deems appropriate.

OTHER PROVISIONS
(Continued)

- d. The Department of Information Resources, with the assistance of the Quality Assurance Team, shall develop guidelines and issue rules for the preparation of the risk analysis. The risk analysis shall include, but not be limited to, the following factors:
- (1) potential impact on statewide goals, objectives, or operations;
 - (2) completeness of planning;
 - (3) appropriateness of the technical solution and/or feasibility;

 - (5) size, costs, and complexity of project;
 - (6) use of a standard systems development methodology;
 - (7) past performance of the agency; and,
 - (8) any other factors the quality assurance team may prescribe.
- e. The level of monitoring shall be proportional to the level of risk to the state as identified by the risk analysis. Based on the determination of the level of risk, the Quality Assurance Team may require the agency to submit a project development plan. The project development plan shall include a description of management and project controls in place and shall detail system development milestones.
- f. The implementing agency must demonstrate to the satisfaction of the Quality Assurance Team that the agency has met project milestones as identified in the approved project development plan prior to the expenditure of funds for major information resources projects in subsequent specified intervals. In addition, at the request of the Quality Assurance Team, the implementing agency may be required to submit reports regarding significant project delays and cost overruns.

Sec. 134. Transfer and Appropriation of Master Equipment Lease Purchase Program Payments. The Texas Public Finance Authority is hereby authorized to transfer each agency's pro rata share of administrative fees and lease payments pursuant to the Master Equipment Lease Purchase Program from each agency's appropriations made elsewhere in this Act to the Texas Public Finance Authority Master Equipment Lease Purchase Program cost of issuance fund(s) and the State Lease Fund No. 507, respectively. Transfers for administrative fees and lease payments shall not be made earlier than fifteen (15) days prior to the date that debt service payment is required. The Texas Public Finance Authority may transfer funds necessary for Master Equipment Lease Purchase Program debt service payments from the State Lease Fund No. 507 to the Texas Public Finance Authority Master Equipment Lease Purchase Program interest and sinking fund(s).

Sec. 135. Agency's Participation in Master Lease Purchase Program. It is the intent of the Legislature that all agencies participate in the Master Equipment Lease Purchase Program to the extent that the Master Equipment Lease Purchase Program is the most cost effective type of financing when using a lease-purchase method for acquisition of capital assets. Agencies are hereby authorized to utilize up to fifteen percent (15%) of appropriations not restricted to capital budget purposes in accordance with Section 106 hereof, "Limitation on Expenditures-Capital Budget", when financing the acquisition of capital assets under the Master Equipment Lease Purchase Program.

Sec. 138. Administrative Fee Appropriation. The administrative fees charged by the Comptroller to cover the costs incurred as a result of administering the state employee organization membership fee deduction under Section 403.0165, Government Code, are to be deposited in the General Revenue fund as a credit towards the \$100 million spending reductions, savings, and revenue enhancements provided for in Sec. 109, State Employee Incentive Savings/Revenues, in this Article.

Sec. 139. Consolidation of Lease Space to State Owned Space. In the event that any agency moves from leased space to state owned space subsequent to the passage of this Act, the Comptroller of Public Accounts is hereby directed to reduce funds appropriated to each affected agency, by an amount equal to the lease costs that would have been incurred for the remainder of the biennium had the agency remained in leased space, less the costs the agency incurs for moving and/or the agency's tenant finish-out expenses. Required moving and/or tenant finish-out costs incurred by an agency moving from leased to state owned space in fiscal year 1993 may be paid from 1994 year appropriations and costs incurred in 1994 may be paid from 1995 year appropriations as necessary to facilitate the move. Furthermore, the Comptroller of Public Accounts is hereby directed to transfer to the General Services Commission from special funds or accounts of those agencies that move into a state facility funded from Texas Public Finance Authority revenue bond proceeds, each agency's proportional share of the lease payments made for the facility as determined by the General Services Commission. The Comptroller shall reduce the amounts appropriated to the General Services Commission from the General Revenue Fund in Strategy B.1.2., Lease Payments, by an amount equal to the sum of the transfers from the special funds or accounts. These funds are hereby appropriated for the purposes of making lease payments to the Texas Public Finance Authority State Lease Fund No. 507. This section does not apply to the Office of the Attorney General.

Sec. 140. La Paz Agreement. In conformity with the La Paz Agreement of 1983, and in the event that the government of the Republic of Mexico institutes a similar policy, it is the intent of the Legislature that no commercially-operated hazardous waste disposal facility be located within 50 miles of the Texas border with Mexico unless the Texas Natural Resources Conservation Commission has previously conferred with the government of the United States and the government of the Republic of Mexico regarding the placement of such a site.

Sec. 141. Hazardous Waste Plan, Texas-Mexico Border. The Texas Natural Resources Conservation Commission shall develop and implement a plan by January 1, 1994, for the purpose of reducing by at least 50% the discharge of hazardous waste into the environment along the Texas-Mexico border by the year 2000. Source reductions and re-use/recycling shall be given priority relative to these pollution prevention and reduction measures.

Sec. 142. Buildings in Houston. No later than January 1, 1996, the General Services Commission is encouraged to build or buy one or more buildings in Houston that are located in a community development block grant targeted area.

Sec. 143. Construction Policy. No state entity receiving an appropriation under this Act may establish a rule or policy which is inconsistent with the legislative intent that funds appropriated herein for construction projects be expended only pursuant to state entity policies which provide the greatest competitive advantage to the state allowable under Article 5159a., V.T.C.S.

Contingent upon the passage of Senate Bill 674, or similar legislation by the 73rd Legislature, Regular Session, creating the Health Professions Council, the participating agencies on the council shall transfer funds from each of their appropriated amounts set in this Act in prorated amounts approved by the Governor which are sufficient to cover the cost of the council's adopted budget.

Sec. 152. Redistricting Lawsuit. In the event that the court awards attorney's fees either by approval of a settlement or entry of a final judgement there is appropriated from General Revenue an amount not to exceed \$2,000,000 to pay attorney's fees related to Legislative Redistricting, provided that in no single case shall such fees exceed \$1,250,000. The Comptroller of Public Accounts is instructed to pay the amount to the Plaintiff's attorneys upon receipt from the Office of the Attorney General of proof of a settlement approved by the court or a final judgment.

Sec. 153. Reduction of Appropriations for Travel. The Comptroller of Public Accounts shall reduce the appropriations for fiscal year 1994 and for fiscal year 1995 for all state agencies, including the legislature, funded in Article I, II, III, IV, and VI of this Act in an amount equal to ten (10) percent of their fiscal year 1993 expenditures for travel. The Comptroller shall promulgate rules and procedures to implement this rider based on the following guidelines:

1. The appropriation reduction is to be applied to appropriations from all funds except constitutionally dedicated funds or other sources that cannot be statutorily diverted, federal funds, funds pledged to the payment of bonds or notes, funds held in trust or escrow, or funds held outside the treasury.
2. Not later than November 1 of each fiscal year, the Comptroller shall inform each agency whose appropriations or funds are affected of the amount of the reduction. The agency shall determine the strategy(ies) from which the reduction is to be taken and provide this information to the Comptroller not later than December 1 of each fiscal year. The Comptroller shall provide the Governor and the Legislative Budget Board the amount of reductions by fund and strategy for each agency affected not later than January 1 of each year.
3. The General Revenue Fund Appropriations reduction shall be transferred to the unappropriated General Revenue Fund.
4. From each special fund or account from which appropriations are reduced, an amount equal to the reduction shall be transferred to the unappropriated General Revenue Fund.

The Legislative Budget Board may consider requests from agencies who demonstrate circumstances which would make such reductions in actual travel impractical or inefficient in accomplishing the goals and strategies contained in their appropriations pattern. Such circumstances may include new or expanded programs, law enforcement, tax collection activities, statutory mandated travel, or other pressing public purposes. The LBB may transfer appropriations from other agencies or programs to replace the 10% annual travel reductions required herein for any such exceptions approved. To the extent agencies expenditures for travel during fiscal years 1994 or 1995 exceed 90% of the total travel expenditures for fiscal year 1993 without specific LBB

Sec. 154. ARTICLE II Contingency Reductions.

1. It is the intent of the Legislature that the recommendations listed below, as developed by the Texas Performance Review (TPR) in *Against the Grain*, the Governor's health Care Cost Containment Initiative and/or any related legislation enacted by the Seventy-third Legislature, be implemented by the appropriate agencies. The Health and Human Services Commission is responsible for the oversight of the implementation of these revenue producing and cost reduction recommendations. The Comptroller of Public Accounts shall assist the Commission and all affected Article II agencies in the implementation of the recommendations. The Commission may transfer appropriations between agencies under the jurisdiction of the Commission for any excess revenues or cost reductions realized from a particular recommendation(s) to cover shortfalls in other recommendation(s). As an offset to the budget reductions imposed in this section, all revenues generated and cost reductions realized from implementation of the TPR recommendations herein referenced are hereby appropriated and shall be used to replace the budget reductions to the maximum extent possible. In addition to authority granted elsewhere in this Act, any unexpended balances remaining from general revenue appropriations made to Article II agencies for fiscal year 1994 may be carried forward to fiscal year 1995 and are hereby appropriated. The Commission shall monitor the use of such increased revenues, cost reductions and the amounts carried forward under this provision. The Commission shall report to the Governor, Legislative Budget Board, and the Comptroller of Public Accounts on or before November 15, 1994, the total aggregate revenues and cost reductions achieved and anticipated by each agency through implementation of the TPR recommendations and the amount of unexpended balances carried forward to fiscal year 1995 under this provision. The report shall identify the revenues and cost reductions by specific recommendation, agency, fiscal year, and include information concerning specific budget transfers, contracts, and other actions taken to implement the measures. Further, the report shall identify by agency and strategy the amount of any unexpended balances carried forward to fiscal year 1995 pursuant to this provision.

The Governor and Legislative Budget Board shall review the report and may make general revenue budget reductions of \$320,706,251 for the fiscal biennium ending August 31, 1995. If the Article II agencies listed below have achieved their target amounts of cost reductions or revenues, the budget reductions shall be made from those agencies' appropriations. In the event the total revenues and cost reductions have not been achieved, and based upon a finding of fact by the Governor and Legislative Budget Board that the Commission and the affected agencies have taken appropriate measures in attempting to reach the target amount, seventy-five percent of the total remaining reductions will be made against general revenue appropriations to Article II agencies. The remaining twenty-five percent of the reductions shall be applied across the board to appropriations to all other agencies including institutions of higher education, excluding the Article II agencies, to achieve the full reductions. The reduction may be applied to any or all appropriations except those designated as being estimated.

In the event the Governor and Legislative Budget Board fail to reduce budgets by February 1, 1995, the Comptroller shall reduce general revenue appropriations to achieve the remaining reductions set by this provision. The Comptroller shall use the criteria expressed above to the Governor and Legislative Budget Board for making budget reductions. The Comptroller shall notify the Governor, Legislative Budget Board, and the affected agencies and institutions of such appropriation reductions.
