The Honorable Rick Perry, *Governor*
The Honorable Carole Keeton Strayhorn, *Texas Comptroller*
Mr. John O'Brien, *Deputy Director, Legislative Budget Board*
Mr. John Keel, CPA, *State Auditor*

Dear Public Officials:

We are pleased to submit the *Annual Financial Report* of the Texas Department of Insurance for the year ended August 31, 2005, in compliance with *Tex. Gov't Code, Ann. §2101.011*, and in accordance with the requirements established by the Comptroller of Public Accounts.

Due to the statewide requirements embedded in Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

If you have any questions, please contact Joe Meyer at 512-463-6143.

Sincerely,

A handwritten signature in black ink that reads "Mike Geeslin".

Mike Geeslin
Commissioner of Insurance

TEXAS DEPARTMENT OF INSURANCE (454)

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

ENTITY

The Texas Department of Insurance is an agency of the State of Texas and its financial records comply with state statutes and regulations. This includes compliance with the Texas Comptroller of Public Accounts' Reporting Requirements for State Agencies.

The Texas Department of Insurance is provided for in Articles 1.02 - 1.09, Texas Insurance Code (Vernon 1981 and Supp. 1986). Article 1.09 states: "The Texas Department of Insurance is created to regulate the business of insurance in this state." The history of the Agency dates back to the Texas Constitution of 1876. Since then, the composition of the Agency has changed several times. The latest change took place in 1993 when House Bill No. 1461, 73rd Legislature, Regular Session, amended the Insurance Code to establish the Commissioner of Insurance as the primary policy-setting authority and to abolish the three-member State Board of Insurance no later than September 1, 1994. The Board transferred all remaining power to the Commissioner effective December 16, 1993.

The Texas Department of Insurance includes within this report all components as determined by an analysis of their relationship to the Texas Department of Insurance as listed below.

Due to the statewide requirements embedded in Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

Blended Component Units

No component units have been identified which should have been blended into an appropriate fund.

Discretely Presented Component Units

These component units are legally separate from the state, but are financially accountable to the state, or have a relationship with the state such that exclusion would cause the financial statements to be misleading or incomplete. The component unit columns of the financial statements include the financial data of these entities.

- The Surplus Lines Stamping Office of Texas was created in August, 1987, by the 70th Legislature of the State of Texas to assist the Texas Department of Insurance in the regulation of surplus lines insurance and encourage compliance by surplus lines agents and insurers with the surplus lines law and the rules of the Texas Department of Insurance. The Texas Department of Insurance approves operating procedures for the administration of the Stamping Office.
- The Texas Health Reinsurance System is a not-for-profit entity created to assure the availability of appropriate health care coverage to Texas residents and to provide a reinsurance mechanism to facilitate the provision of small employer coverage. The Commissioner approves the assessment formula by which assessments are made against reinsured carriers.
- The Texas Health Insurance Risk Pool was created to provide access to quality health care at minimum cost to the public, to relieve the insurable population of the disruptive cost of sharing coverage and to maximize reliance on strategies of managed care proven by the private sector. It is governed by a nine-member board appointed by the Commissioner of Insurance, who also approves rates and rate schedules used by the Risk Pool.

FUND STRUCTURE

The accompanying financial statements are presented on the basis of funds, each of which is considered a separate accounting entity.

GOVERNMENTAL FUND TYPES AND GOVERNMENT-WIDE ADJUSTMENT FUND TYPES

General Fund

The General Fund is the principal operating fund used to account for most of the state's general activities. It accounts for all financial resources except those accounted for in other funds.

Special Revenue Funds

Special Revenue funds are used to account for the proceeds of specific revenue sources (other than for private-purpose trusts or for major capital projects) that are legally restricted to use for specified purposes.

Capital Assets Adjustment Fund Type

Capital Assets Adjustment fund type will be used to convert governmental fund types' capital assets from modified accrual to full accrual.

Long-Term Liabilities Adjustment Fund Type

Long-Term Liabilities Adjustment fund type will be used to convert governmental fund types' debt from modified accrual to full accrual.

Other Adjustments Fund Type

Other Adjustments fund type will be used to convert all other governmental fund types' activity from modified accrual to full accrual.

PROPRIETARY FUND TYPES

Enterprise Funds

Enterprise funds are used to account for any activity for which a fee is charged to external users for goods or services. Activities must be reported as enterprise funds if any one of the following criteria is met.

1. The activity is financed with debt that is secured solely by a pledge of the net revenues from fees and charges of the activity.
2. Laws or regulations require that the activity's costs of providing services including capital costs (such as depreciation or debt service), be recovered with fees and charges.
3. The pricing policies of the activity establish fees and charges designed to recover its costs, including capital costs.

FIDUCIARY FUND TYPES

Fiduciary funds account for assets held by the state in a trustee capacity or as an agent for individuals, private organizations, other governmental units, and/or other funds. When assets are held under the terms of a formal trust agreement, either a pension trust fund, or a private purpose trust fund is used.

Agency Funds

Agency funds are used to account for assets the government holds on behalf of others in a purely custodial capacity. Agency funds involve only the receipt, temporary investment, and remittance of fiduciary resources to individuals, private organizations, or other governments.

Private-Purpose Trust Funds

Private-Purpose Trust funds are used to account for all other trust arrangements whose principal and interest benefit individuals, private organizations, or other governments.

COMPONENT UNITS

The fund types of the individual discrete component units are available from the component units' separately issued financial statements. Additional information about component units can be found in Note 17.

Proprietary Component Units are used to account for the discretely presented component units which follow proprietary fund measurement focus and accounting principles.

BASIS OF ACCOUNTING

The basis of accounting determines when revenues and expenditures or expenses are recognized in the accounts reported in the financial statements. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

Governmental fund types that build the fund financial statements are accounted for using the modified accrual basis of accounting. Under the modified accrual basis, revenues are recognized in the period in which they become both measurable and available to finance operations of the fiscal year or liquidate liabilities existing at fiscal year end. The State of Texas considers receivables collected within sixty days after year-end to be available and recognizes them as revenues of the current year for Fund Financial Statements prepared on the modified accrual basis. Expenditures and other uses of financial resources are recognized when the related liability is incurred.

Governmental adjustment fund types that will build the government-wide financial statements are accounted for using the full accrual basis of accounting. This includes capital assets, accumulated depreciation, unpaid Employee Compensable Leave, and full accrual revenues and expenses. The activity will be recognized in these fund types.

Proprietary funds and private-purpose trust funds are accounted for on the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recognized at the time liabilities are incurred. Proprietary funds distinguish operating from non-operating items. Operating revenues and expenses result from providing services in connection with the proprietary funds principal ongoing operations. Operating expenses for the enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets.

BUDGET AND BUDGETARY ACCOUNTING

The budget is prepared biennially and represents appropriations authorized by the Legislature and approved by the Governor (the General Appropriations Act).

Unencumbered appropriations are generally subject to lapse 60 days after the end of the fiscal year for which they were appropriated.

ASSETS, LIABILITIES AND FUND BALANCES/NET ASSETS

ASSETS

Cash and Cash Equivalents

Short-term highly liquid investments with an original maturity of three months or less are considered cash equivalents.

Inventories and Prepaid Items

Inventories consist of consumable inventories. The consumption method of accounting is used to account for inventories and prepaid items that appear in the governmental and proprietary fund types. The cost of these items is expensed when the items are consumed.

Capital Assets

Assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year should be capitalized. These assets are capitalized at cost or, if any purchased, at appraised fair value as of the date of acquisition. Purchases of assets by governmental funds are reported as expenditures. Depreciation is reported on all "exhaustible" assets. Assets are depreciated over the estimated useful life of the asset using the straight-line method.

All capital assets acquired by proprietary funds are reported at cost or estimated historical cost, if actual historical cost is not available. Depreciation is charged to operations over the estimated useful life of each asset, using the straight-line method.

Current Receivables - Other

Other receivables include year-end revenue accruals. This account can appear in governmental and proprietary fund types.

UNAUDITED

TEXAS DEPARTMENT OF INSURANCE (454)

LIABILITIES

Accounts Payable

Accounts payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending.

Current Payables - Other

Payables are the accrual at year-end of expenditure transactions. Payables may be included in either the governmental or proprietary fund types.

Non-Current Payables - Other

Outstanding claims for the Texas Health Insurance Risk Pool are classified as Other Liabilities by the Comptroller of Public Accounts.

Employees' Compensable Leave Balances

Employees' Compensable Leave Balances represent the liability that become "due" upon the occurrence of relevant events such as resignations, retirements, and uses of leave balances by covered employees. Liabilities are reported separately as either current or noncurrent in the statement of net assets.

FUND BALANCE/NET ASSETS

The difference between fund assets and liabilities is "Net Assets" on the government-wide, proprietary and fiduciary fund statements, and the "Fund Balance" is the difference between fund assets and liabilities on the governmental fund statements.

Reservations of Fund Balance

Fund balances for governmental funds are classified as either reserved or unreserved in the fund financial statements. Reservations are legally restricted to a specific future use or not available for expenditure.

Reserved for Encumbrances

This represents commitments of the value of contracts awarded or assets ordered prior to year-end but not received as of that date. Encumbrances are not included with expenditures or liabilities. They represent current resources designated for specific expenditures in subsequent operating periods.

Unreserved/Undesignated

Other represents the unappropriated balance at year-end.

Invested in Capital Assets, Net of Related Debt

Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bond, notes and other debt that are attributed to the acquisition, construction, or improvement of those assets.

INTERFUND ACTIVITIES AND BALANCES

The agency has the following types of transactions among funds:

- (1) Transfers: Legally required transfers that are reported when incurred as "Transfers In" by the recipient fund and as "Transfers Out" by the disbursing fund.
- (2) Reimbursements: Reimbursements are repayments from funds responsible for expenditures or expenses to funds that made the actual payment. Reimbursements of expenditures made by one fund for another that are recorded as expenditures in the reimbursing fund and as a reduction of expenditures in the reimbursed fund. Reimbursements are not displayed in the financial statements.

NOTE 3: DEPOSITS, INVESTMENTS AND REPURCHASE AGREEMENTS

The Texas Department of Insurance reports investments held in the Texas Treasury Safekeeping Trust Company. The Texas Treasury Safekeeping Trust Company is authorized by statute to make investments following the "prudent person rule". There were no significant violations of legal provisions during the period.

DEPOSITS OF CASH IN BANK

As of August 31, 2005, the carrying amount of deposits was (\$3,925,921.10) as presented below. The negative balance for Cash in Bank is the result of a banking arrangement for one of the discretely presented component units. Balances in Cash Equivalents and Short Term Investments are ample to cover the shortfall.

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the agency and the discrete component units will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The agency does not have a policy for custodial credit risk but maintains cash balances in a major financial institution and monitors account balances for amounts over \$100,000 of the FDIC limit. The Surplus Lines Stamping Office's cash deposits are held in a major financial institution and are insured up to \$100,000. Management monitors balance in all accounts and has not experienced any losses on the deposits. The bank balances that were exposed to custodial credit risks are as follows:

Custodial credit risk for investments is that risk that, in the event of the failure of the counterparty, the agency will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The agency's investment policy limits holding of securities by counterparties to those involved with securities lending. The Surplus Lines Stamping Office investment policies limit the amount of credit exposure and the types of investments that can be purchased. The Stamping Office's investments are held by a registered broker/dealer and are protected by SIPC up to \$500,000 of which no more than \$100,000 may be in cash. Employees' Compensable Leave

A state employee is entitled to be paid for all unused vacation time accrued, in the event of the employee's resignation, dismissal, or separation from State employment, provided the employee has had continuous employment with the State for six months. Expenditures for accumulated annual leave balances are recognized in the period paid or taken in governmental fund types. For these fund types, the liability for unpaid benefits is recorded in the Statement of Net Assets. No liability is recorded for non-vesting accumulating rights to receive sick pay benefits.

Other Liabilities

Outstanding claims for the Texas Health Insurance Risk Pool are classified as Other Liabilities by the Comptroller of Public Accounts.

NOTE 9: CONTINGENT LIABILITIES

The Agency is involved in several lawsuits, including the following:

- Personnel There is one lawsuit against TDI by a former TDI employee challenging a personnel decision made by TDI. The case remains pending in Travis County District Court. The lawsuit does not specify an amount sought.
- Regulatory There are a number of pending actions to which TDI is a party in connection with TDI's regulatory duties. These generally do not seek monetary relief, other than attorneys' fees, but rather seek to reverse a regulatory action of the agency.

The Agency has received a federal grant for a specific purpose that is subject to review and audit by the grantor agency. Such audits could lead to a request for reimbursements to the grantor agency for expenditures disallowed under the terms of the grant. Based on prior experience, management believes such disallowances, if any, will be immaterial.

NOTE 10: CONTINUANCE SUBJECT TO REVIEW

Under the Texas Sunset Act, the Agency will be abolished on September 1, 2009, unless continued in existence by the 81st Legislature as provided by the Act.

NOTE 11: RISK FINANCING AND RELATED INSURANCE

The Texas Department of Insurance is exposed to a variety of civil claims resulting from the performance of its duties. It is the agency's policy to periodically assess the proper combination of commercial insurance and retention of risk to cover losses to which it may be exposed.

UNAUDITED

TEXAS DEPARTMENT OF INSURANCE (454)

The Agency assumes substantially all risks associated with tort and liability claims due to the performance of its duties. The only commercial insurance carried by the Agency is a Public Officers Liability Insurance policy, which is issued in accordance with terms and conditions from the State Office of Risk Management. The Texas Department of Insurance is not involved in any risk pools with other government entities.

The Agency's liabilities are reported when it is both probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Liabilities are reevaluated periodically to consider current settlements, frequency of claims, past experience and economic factors. There were no significant reductions in insurance coverage in the past year and losses did not exceed funding arrangements during the past three years.

Changes in the balances of the agency's claims liabilities during the fiscal 2004 and 2005 were as follows:

	Beginning of Fiscal Year Liability	Current Year Claims and Changes in Estimates	Claims Payments	Balance at Fiscal Year End
2004	\$ 0.00	\$ 4,438.17	\$ 4,438.17	\$ 0.00

Discretely Presented Component Units:

The Texas Department of Insurance is financially accountable for the following legally separate entities; however, they do not provide services entirely or almost entirely to the Texas Department of Insurance. They are reported in separate exhibits to emphasize that they are legally separate from the Texas Department of Insurance.

1. The *Surplus Lines Stamping Office of Texas* was created pursuant to Article 1.14-2, Section 6A of the Texas Insurance Code to assist this Agency in the regulation of surplus lines insurance, encourage compliance by surplus lines agents and insurers with the surplus lines law and the rules of the Texas Department of Insurance. The stamping office performs its functions under a plan of operation approved by order of the Texas Department of Insurance.
2. The *Texas Health Reinsurance System* reinsures risks covered under the health benefit plans of small employers' insurance carriers. The Commissioner of Insurance appoints the nine member board.
3. The *Texas Health Insurance Risk Pool* provides access to quality health care at a minimum cost to the public for those unable to obtain traditional health care coverage. The Texas Department of Insurance approves all rates and rate schedules before they are used.

Complete financial statements of the individual component units can be obtained from their respective administrative offices.
