

RAILROAD COMMISSION OF TEXAS
Oil and Gas Division

NOTICE TO OPERATORS

Revisions to Statewide Rule 58, Form P-4, and Form P-6

Statewide Rule 58, *Oil, Gas, or Geothermal Resource Operator's Reports*, has been revised to clarify the purpose and effect of filing Form P-4 and Form P-6. Form P-4, Certificate of Compliance and Transportation Authority and Form P-6, Request for Permission to Subdivide or Consolidate Oil Lease(s) have been revised effective May 2002. A copy of the revised Form P-4 and Form P-6 are enclosed.

Please note the following concerning the revised Form P-4:

- If the information on your most recent P-4 is correct, you do not need to file on the new form until a change occurs.
- When filing a P-4 for a change, continue to fill the form out in its entirety, not just the areas being changed.
- Gas nominator information is no longer required.
- An area is provided to list individual oil wells being acquired. (A Form P-6 may be necessary in these instances.)
- A check box is provided to identify signatories as authorized agents or authorized employees.

Refer to the instructions on the back of the Forms P-4 and P-6 for detailed information concerning the new formats.

Limited supplies of the new forms are available in the Commission's district offices. A larger supply may be ordered by phone at (512) 463-7128 or by mail at

Railroad Commission of Texas
Attn: Supply Department
P.O. Drawer 12967 –Capitol Station
Austin, Texas 78711-2967.

Both forms are available for downloading off the Commission web site at www.rrc.state.tx.us. For further information concerning Statewide Rule 58 or filing requirements for Forms P-4 and P-6, please contact the Proration Unit of the Permitting/Production Section of the Railroad Commission at (512) 463-6742.
