Footnotes to Employed Persons 1991 Tax Chart

- An employed person not subject to the Old-age, Survivors and Disability Insurance/Hospital (Medicare) Insurance taxes will be allowed the reductions reflected in these columns, unless it is shown that such person has no similar contributory plan such as teacher retirement, federal railroad retirement, federal civil service retirement, etc.
- ** These amounts represent one-twelfth (½2) of the annual Federal income tax calculated for a single taxpayer claiming one personal exemption (\$2,150.00, subject to reduction in certain cases, as described in the next paragraph of this footnote) and taking the standard deduction (\$3,400.00).
 - For adjusted gross income in excess of \$100,000.00, the deduction for the personal exemption is reduced by two percent (2%) for each \$2,500.00 or fraction thereof by which adjusted gross income exceeds \$100,000.00. In no case is the deduction for the personal exemption reduced by more than 100%. For example, monthly gross wages of \$9,500.00 times 12 months equals \$114,000.00. The excess over \$100,000.00 is \$14,000.00. \$14,000.00 divided by \$2,500.00 equals 5.60. The 5.60 amount is rounded up to 6. The reduction percentage is 12% (6 \times 2% = 12%). The \$2,150.00 deduction for one personal exemption is reduced by \$258.00 (\$2,150.00 \times 12% = \$258.00) to \$1,892.00 (\$2,150.00 \times \$258.00 = \$1,892.00).
- *** For annual gross wages above \$53,400.00, this amount represents a monthly average of the Old-age, Survivors and Disability Insurance tax based on the 1991 maximum Old-age, Survivors and Disability Insurance tax of \$3,310.80 per person (6.2% of the first \$53,400.00 of annual gross wages).
- **** For annual gross wages above \$125,000.00, this amount represents a monthly average of the Hospital (Medicare) Insurance tax based on the 1991 maximum Hospital (Medicare) Insurance tax of \$1,812.50 per person (1.45% of the first \$125,000.00 of annual gross wages).

INSTRUCTIONS FOR USE

To use these tables, first compute the obligor's annual gross income. Then recompute to determine the obligor's average monthly gross income. These tables provide a method for calculating "monthly net income" for child support purposes, subtracting from monthly gross income the social security tax (Old-age, Survivors and Disability Insurance plus Hospital [Medicare] insurance) and the federal income tax withholding for a single person claiming one personal exemption and the standard deduction.

Thereafter, in many cases these guidelines call for a number of additional steps to complete the necessary calculations. For example, Section 14.053 provides for appropriate additions to "income" as that term is defined for federal income tax purposes, and for certain subtractions from monthly net income, in order to arrive at the net resources of the obligor available for child support purposes.

Determined without regard to Section 1402(a)(12) of the Internal Revenue Code of

1986, as amended (26 U.S.C.) (the "Code").

In calculating each of the Old-age, Survivors and Disability Insurance tax and the Hospital (Medicare) Insurance tax, net earnings from self-employment are reduced by the deduction under Section 1402(a)(12) of the Code. The deduction under Section 1402(a)(12) of the Code is equal to net earnings from self-employment (determined without regard to Section 1402(a)(12) of the Code) multiplied by one-half (½) of the sum of the Old-age, Survivors and Disability Insurance tax rate (12.4%) and the Hospital (Medicare) Insurance tax rate (2.9%). The sum of these rates is 15.3% (12.4% + 2.9% = 15.3%). One-half (½) of the combined rate is 7.65% (15.3% \times ½ = 7.65%). The deduction can be computed by multiplying the net earnings from self-employment (determined without regard to Section 1402(a)(12) of the Code) by 92.35%. This gives the same deduction as multiplying the net earnings from self-employment (determined without regard to Section 1402(a)(12) of the Code) by 7.65% and then subtracting the result.

For example, the Social Security taxes imposed on monthly net earnings from self-employment (determined without regard to Section 1402(a)(12) of the Code) of

\$2,500.00 are calculated as follows:

Old-age, Survivors and Disability Insurance Taxes: $\$2,500.00 \times 92.35\% \times 12.4\% = \286.28

(ii) Hospital (Medicare) Insurance Taxes: $\$2.500.00 \times 92.35\% \times 2.9\% = \66.95

These amounts represent one-twelfth (1/12) of the annual Federal income tax calculated for a single taxpayer claiming one personal exemption (\$2,150.00, subject to reduction in certain cases, as described below in this footnote) and taking the

standard deduction (\$3,400.00).

In calculating the annual Federal income tax, gross income is reduced by the deduction under Section 164(f) of the Code. The deduction under Section 164(f) of the Code is equal to one-half (1/2) of the self-employment taxes imposed by Section 1401 of the Code for the taxable year. For example, monthly net earnings from self-employment of \$9,500.00 times 12 months equals \$114,000.00. The Öld-age, Survivors and Disability Insurance taxes imposed by Section 1401 of the Code for the taxable year equal \$6,621.60 ($\$53,400.00 \times 12.4\% = \$6,621.60$). The Hospital (Medicare) Insurance taxes imposed by Section 1401 of the Code for the taxable year equal \$3,053.09 (\$114,000.00 \times .9235 \times 2.9% = \$3,053.09). The sum of the taxes imposed by Section 1401 of the Code for the taxable year equal \$9,674.69 (\$6,621.60 + \$3,053.09 = \$9,674.69). The deduction under Section 164(f) of the Code is equal to one-half (1/2) of \$9,674.69 or \$4,837.34.

For adjusted gross income in excess of \$100,000.00, the deduction for the personal exemption is reduced by two percent (2%) for each \$2,500.00 or fraction thereof by which adjusted gross income exceeds \$100,000.00. In no case is the deduction for the personal exemption reduced by more than 100%. For example, monthly net earnings from self-employment of \$9,500.00 times 12 months equals \$114,000.00. The \$114,000.00 amount is reduced by \$4,837.34 (i.e., the deduction under Section 164(f) of the Code - see the immediately preceding paragraph of this footnote for the computation) to arrive at adjusted gross income of \$109,162.66. The excess over \$100,000.00 is \$9,162.66. \$9,162.66 divided by \$2,500.00 equals 3.66. The 3.66 amount is rounded up to 4. The reduction percentage is 8% (4 \times 2% = 8%). The \$2,150.00 deduction for one personal exemption is reduced by \$172.00 (\$2,150.00 \times 8% = \$172.00) to \$1,978.00 (\$2,150.00 - \$172.00 = \$1,978.00).

For annual net earnings from self-employment (determined with regard to Section 1402(a)(12) of the Code) above \$53,400.00, this amount represents a monthly average of the Old-age, Survivors and Disability Insurance tax based on the 1991 maximum Old-age, Survivors and Disability Insurance tax of \$6,621.60 per person (12.4% of the first \$53,400.00 of net earnings from self-employment (determined

with regard to Section 1402(a)(12) of the Code)).

**** For annual net earnings from self-employment (determined with regard to Section 1402(a)(12) of the Code) above \$125,000.00, this amount represents a monthly average of the Hospital (Medicare) Insurance tax based on the 1991 maximum Hospital (Medicare) Insurance tax of \$3,625.00 per person (2.9% of the first \$125,000.00 of net earnings from self-employment (determined with regard to Section 1402(a)(12) of the Code)).
