

On-Site Sewerage Facility Soil Evaluation Report Information

Date Soil Survey Performed: _____

Site Location: _____

County: _____

Proposed Excavation Depth: _____

Name of Site Evaluator: _____ Registration Number: _____

Requirements:

At least two soil excavations must be performed on the site, at opposite ends of the proposed disposal area.

Soil boring locations or dug pits must be shown on the site drawing.

For subsurface disposal, soil evaluations must be performed to a depth of at least two feet below the proposed excavation depth. For surface disposal, the surface horizon must be evaluated.

Describe each soil horizon. Identify any restrictive features and indicate depths where features appear.
