Bexar County Equal Employment Opportunity (EEO) Policy Statement

Bexar County provides equal employment opportunity for all employees and applicants without regard to race, ethnicity, gender, age, religion, national origin, political affiliation or beliefs, physical or mental disability, veteran status or any non-merit factor except where such is a bona fide occupational qualification. This policy applies to all aspects of employment, including but not limited to the following: recruitment, selection, promotion, transfer, demotion, compensation, benefits, training, termination, layoff and return from layoff.

Executive Summary

The leadership of Commissioners Court and the Elected and Appointed Officials of the Offices and Departments of Bexar County government employing our workforce has set, and continues to enforce, a clear and distinctive policy designed to provide equal employment opportunity for all. This EEOP and Workforce Report (endorsed by these leaders as a forum from which to generate the best ideas, processes, and follow-up actions) not only ensures non-discrimination, but also takes advantage of the rich diversity available throughout the workforce. Bexar County leaders take pride in the progress made as they commit to the goals of equal employment opportunity and non-discrimination.

This is a living plan and it is expected to be widely distributed and discussed. The information in this report has been adjusted to correspond with job categories issued in conjunction with the 2000 United States Census.

Section 2. County of Bexar Workforce Analysis

Workforce by Ethnicity and Gender in 2008

Bexar County government currently employs a diverse workforce. The breakdown of Bexar County's actual workforce by gender and ethnicity as of May 2008 is presented in Chart 1.

The County's workforce is predominately Hispanic, followed by White, Black and Asian, respectively. Hispanic employees make up the largest percentage of Bexar County government's workforce at 64%. Employees who report their ethnicity as White make up 24.9%. Employees who report their ethnicity as Black make up 8.8%. Those who report their ethnicity as Asian is the smallest group at 0.6%. Those who identified themselves as Native Hawaiian or Other Pacific Islander, American Indian or Alaskan Native, or as Two or More Races make up 1.7% of the total current workforce.

Today, over one-half of the workforce, 56.3%, is male, dropping from 57.5% in 2006. Females make up 43.7%, up slightly from 42.5% of the workforce in 2006.

The largest single group in Bexar County's workforce is that of Hispanic Males (34.7%) followed by Hispanic Females (29.3%).

Workforce by Ethnicity, Gender, and Job Category in 2008

A breakdown of Bexar County's actual workforce by gender, ethnicity, and job category is shown in Table 1. Bexar County Workforce by Gender, Ethnicity, and Job Category. This snapshot, coupled with the Community Labor Statistics (CLS) in Section 3 of this report, demonstrates how Bexar County utilizes minorities and females in the different job categories as outlined by the U.S. Census Bureau. Gathering and analyzing this data supports Bexar County's commitment to equal employment. Table 1 shows the eight standard occupational job categories cross referenced by gender and ethnicity. A complete list of the jobs in each of the job categories used in the 2000 Census appears in Appendix 2. Occupational Crosswalk to State and Local Government Job Categories.

Job Category Analysis

The gender and ethnicity of our workforce described in Table 1 is presented by job category, displayed by gender and ethnicity total for the County and by individual Offices and Departments in Appendix 1.

Section 3. Community Labor Statistics

The U.S. Census Bureau compiles a profile of the workforce by gender and ethnicity within a job category. The 2000 Census cross tabulation was used in Table 2 in this section, and in the utilization analysis included in Table 3, Section 4 of this report.

Table 2, San Antonio Metropolitan Statistical Area – Available Workforce Profile 2000 United States Census Report shows a detailed breakdown of the San Antonio Metropolitan Statistical Area (SAMSA) data. The largest ethnic group is Hispanic (H) Males, with 25.5% of the SAMSA available workforce. The White (W) Male available workforce represents the second largest group at 23.3%. The Black (B) Male and Female available workforce groups represent 2.9% and 3.1%, respectively. In terms of gender groups, Males represent 53% of the San Antonio MSA available workforce and Females represent 47%.

The Hispanic (H) Female available workforce represents 22.5% of the SMSA available workforce, while the White (W) Female available workforce represents 20.1%.

Section 4. Utilization Analysis

Discussion

In 2008, Bexar County surveyed all regular employees to update employee records and place employees in one of the seven ethnicity categories included in the EEOP Seven Step Guide issued by the Office of Civil Rights – White, Hispanic, Black, Asian, Native

Hawaiian or Other Pacific Islander, Native Indian or Alaskan Native, and Two or More Races. Employees were asked to self identify by selecting one of these seven ethnicity categories established by the Office of Civil Rights. Bexar County then analyzed its workforce based on the ethnicity categories established by the Office of Civil Rights.

Utilization analysis is a process to determine whether minorities and women are employed in each job category at a percentage consistent with the available qualified minorities and women in the local workforce. A utilization analysis for Bexar County is shown in Table 3. The utilization analysis is used to explore utilization of minorities and women in each job category.

A Metropolitan Statistical Area is a county or group of counties that have at least one city with a population of at least 50,000. The local workforce for Bexar County is described at the San Antonio Metropolitan Statistical Area (SAMSA). SAMSA includes eight Texas counties – Atascosa, Bandera, Bexar, Comal, Guadalupe, Kendall, Medina, and Wilson.

In Table 3, the SAMSA and Bexar County Government workforce are grouped by job category, gender and ethnicity. The SAMSA represents the approximate labor force from which to draw analyses regarding utilization as it represents the geographic area from which applicants for most of the positions are typically recruited.

In addition to the County-wide analysis provided in Table 3, a utilization analysis for each Department / Office is shown in Appendix 1, Bexar County Workforce Utilization Analysis – 2008 County Workforce Compared to the 2000 San Antonio Metropolitan Statistical Area.

Analysis

The analysis is based on 2008 Bexar County workforce statistics compared to the 2000 Census data, the most current data available. The comparison for the current workforce appears in Table 3.

Statistics used for analysis in Table 3 are defined as follows:

- Workforce # - actual count of active Bexar County employees
- Workforce % - actual percentage of active Bexar County employees
- CLS # - the number of employable people in the civilian labor force with required skills and abilities needed by the County, within a reasonable recruitment area
- CLS % - the percentage of employable people in the civilian labor force with required skills and abilities needed by the County, within a reasonable recruitment area
- Utilization % - the percentage of under- or over-utilization of ethnicity or gender per job category
- 100% model – the number of Bexar County employees needed to reflect 100% utilization of a gender or ethnicity per job category

- 80% model – the number of Bexar County employees needed to reflect 80% utilization of a gender or ethnicity per job category
- Needed to meet 80% - the number of employees per job category, gender, and ethnicity needed to reach the 80% model

The last row for each job category is named “Needed to meet 80%.” This is in reference to the “80% Rule”. This rule states that if the County’s workforce, when broken down by gender, ethnicity, and job category, meets at least 80% or more of the number of employable people within the civilian labor force, then the County is not underutilizing any particular group. Less than 80% for any particular group reveals that particular group as underutilized.

In Table 3, the groups with the highest underutilization are highlighted in yellow.

1. Officials & Administrators – Asian Males and Asian Females are under-represented by a total of 1.7%. To fully utilize Asian Males and Females (80% rule), the County would need to add 1 Asian Male and 1 Asian Female.
2. Professionals – Asian Males are under-represented by 1% and Native Hawaiian or Other Pacific Islander (NH or OPI) Females are under-represented by 0.1%. To fully utilize Asian Males and NH or OPI Females, the County would need to add 5 Asian Males and 1 NH or OPI Female. Males who are Two or More Races are under-represented by 0.3%. The County would need to add 2 Males in this category.
3. Technicians – Black Males are under-represented by 1.5% and Asian Males are under-represented by 1.1%. To fully utilize these two groups, the County would need to add 1 Black Male and 1 Asian Male. Females overall are under-represented by 23.8%, with Hispanic Females under-represented by 6.5%. To fully utilize these groups, the County would need to add 13 Females overall, including at least 5 Hispanic Females.
4. Protective Services Non-Sworn – Females overall are under-represented by 20.7%. To fully utilize this group, the County would need to add 47 Females to this job category.
5. Administrative Support – Asian Males are under-represented by 0.2% and Asian Females are under-represented by 0.5%. To fully utilize these two groups, the County would need to add 1 Asian Male and 4 Asian Females.
6. Skilled Craft – Asian Males are under-represented by 0.4% and Females overall are under-represented by 4.1%, with Hispanic Females under-represented by 1.7%. To fully utilize these groups, the County would need to add 1 Asian Male and 6 Females, including at least 2 Hispanic Females.

7. Service & Maintenance – Females overall are under-represented by 30.8%, with Hispanic Females under-represented by 18%, Black Females under-represented by 2%, and Asian Females under-represented by 1.1%. To fully utilize Females overall, the County would need to add 25 Females with at least 14 Hispanic Females, 2 Black Females, and 1 Asian Female.

While the above analysis examines all areas of under-representation, the County exceeds representation of minorities and women in the following areas:

- Females make up 48.3%, almost half, of all Officials & Administrators.
- Black Males and Females make up 8.9% of all Professionals.
- Females make up 18.7% of all employees in the Protective Services Sworn category.
- Black Males and Females make up 21.8% of all employees in the Protective Services Non-Sworn category.

Section 5. Objectives

Bexar County is committed to hiring the best candidate for any position, regardless of race, ethnicity, gender, age, religion, national origin, political affiliation or beliefs, physical or mental disability, or veteran status.

The following objectives have been identified to address the areas of under-representation in Bexar County:

1. Regular review of progress in meeting the goal of improved representation of minorities and women across job categories;
2. Periodic review of EEO objectives to ensure that identified goals for equal representation across job categories is not held as quotas, but rather diversity recruiting and selection goals;
3. Because minority women are most often under-represented across job categories, the County will evaluate its recruitment practices to ensure that females, and specifically minority women, are receiving equal opportunity to for County employment;
4. Bexar County will place a major emphasis on the categories that show to have significant underutilization rates;
5. Bexar County will continue to communicate our job opportunities to all minority and female groups in an effort to have our workforce mirror the diverse population of our area.

The County of Bexar is an Equal Opportunity Employer dedicated to hiring the most qualified applicant without regard to non-merit factors. In those cases where the County has two qualified applicants who are equal in regard to all bona fide job qualifications, the County will take positive action in its selection to reduce areas of underutilization.

Section 6. Steps to Achieve Objectives

For Bexar County to meet the goals of a fully utilized workforce, specific steps must be taken to correct any under-representation of females and minorities in each EEO job category. These steps center around three main areas:

- 1) Recruitment, selection, and monitoring/evaluating the EEO Plan;
- 2) Training regarding EEO issues; and,
- 3) Additional steps to achieve EEO objectives.

Recruitment, Selection, Monitoring, and Evaluation of EEO Plan

The County *Human Resources Analyst* serves as a recruiter in the Sheriff's Office (the largest employee group in the County) to work specifically in improving the applicant pool, particularly as it relates to females and minorities.

This individual, as well as all other County Offices and Departments, continues efforts to develop recruitment methods for attracting female and minority applicants. The evaluation of potential external factors that constitute obstacles to the employment of women and minorities in the County will continue to be identified and addressed.

Currently, the County uses the Internet, media (radio), local publications, and a job line to attract qualified candidates that reflect the current available workforce. To generate a diverse pool of candidates, the County advertises on Work in Texas, the Governor's Job Bank, America's Job Bank, monster.com, and hotjobs.com. The County also continues to advertise in the Hispanic newspaper La Prensa.

Bexar County will continue to post open positions on the County website so that the citizens of the County and the surrounding areas have an equal opportunity to apply for open positions.

The County takes positive steps to ensure that selection procedures promote equal employment opportunity at all levels, from recruitment and selection to promotion. The Human Resources Division of PRM is available to assist in advising Elected Officials and Department Heads during the hiring and promotion process regarding the Office or Department's workforce utilization in regards to female and minority staff.

The County is presently working to enhance the effectiveness of EEO monitoring and evaluation system. The County is working on further development and additional implementation within the CHRIS (County Human Resource Information System) to allow all County Elected Officials and Department Heads to easily track applicants. The additional capability will allow the system to produce an annual update of statistics on applicants, selection, promotions, and other terms and conditions of employment by ethnicity and gender.

Training Regarding EEO Issues

Training is essential to promote diversity and implementation of this plan at management, supervisory, and line levels. The County continues to provide basic supervisory skill training for employees, including instruction related to promoting cultural diversity and equal opportunity employment.

The County offered the following training to employees in 2008:

- Basic Supervisory Skills
- Leadership
- Communication Skills for Managers
- Supervision 101
- Employee Orientation and Policies
- Technical Training

All new employees are required to attend orientation training that includes introduction to the County's commitment to equal employment for all qualified candidates, regardless of race, ethnicity, gender, age, religion, national origin, political affiliation or beliefs, physical or mental disability, veteran status, or any non-merit factor except where such is a bona fide occupational qualification.

In 2009 and 2010, the County will continue to offer supervisory training classes that promote a diverse workforce.

Additional Steps to Achieve Objectives

Bexar County has continued the following activities to help the County address areas of underutilization and to promote equal opportunity for all employees.

The Human Resources and HRIS Manager will continue to act as the EEO Officer to monitor and evaluate the County's EEOP. Specific functions performed include:

- Acting as an in-house resource on all EEO matters;
- Explaining EEOP within the County and to outside sources;
- Maintaining contact with minority and women's groups;
- Providing informal mediation and guidance for resolving discrimination complaints;
- Acting as liaison with civil rights compliance agencies;
- Conducting internal audits of EEOP effectiveness;
- Making periodic progress reports to Commissioners Court; and,
- Keeping up-to-date on EEO regulations.

The County is currently evaluating the expansion of work-life balance initiatives, including a job-share program and alternative work schedules, to help attract female candidates in underutilized job categories.

Section 7: Dissemination

The Bexar County EEO Report is scheduled to be reported to Commissioners Court, the governing body of the County. This presentation is broadcast on local television, allowing Bexar County to disseminate the EEOP information to the Citizens of Bexar County.

Internal Dissemination of EEO Policy

Bexar County will continue to make its equal employment opportunity policy available to employees through internal communications by:

1. Including the policy as an electronic document linked to the County website (<http://www.bexar.org>) and on the internally accessed "County Intranet."
2. Linking the policy to the Employee Self-Service module of the County Human Resources Information System accessing position openings and promotion and training opportunities.
3. Publishing the policy statement in various employee and management handbooks.
4. Addressing Bexar County's EEO policy to all new hires during orientation.
5. Encouraging reference to active support of equal opportunity policies in performance appraisals.
6. Conducting special meetings with executive management and supervisory staff, if requested, including Elected Officials, Executive Directors, Appointed Officials and other senior employees to review the intent of the policy, the County Judge and Commissioners commitment and attitude, and individual responsibilities to ensure effective implementation.
7. Posting the policy statement on County bulletin boards.

External Dissemination of EEO Policy

Bexar County will continue to make its equal employment opportunity policy, including the details of this plan, available to the public, including potential applicants by:

1. Informing all recruiters accessing announcements for County position openings of the policy and the need to actively recruit and refer people from all groups, particularly those that tend to be underrepresented.
2. Incorporate the policy guidelines and goals in purchase orders, requests for proposals, leases and contracts at every opportunity allowed by law.
3. Including the policy as an electronic document linked to the publicly accessed County website (<http://www.bexar.org>) and linked to the Recruitment and Application screens of the Bexar County Civil Service Commission.

Census 2000 Special EEO Tabulation

Occupational Crosswalk To State and Local Government Job Categories

The Census 2000 Special EEO Tabulation occupational crosswalk began with 509 detailed categories from the Census 2000 classification system and was adjusted as follows: (a) categories with fewer than 10,000 coded nationwide were aggregated into larger categories, so that all occupational categories shown on the Special EEO Tabulation will be greater than 10,000; (b) four military specific occupations were excluded; and (c) one category was added for the unemployed with no work experience since 1995. This process resulted in the 472 occupational categories shown in the table below.

The 472 Census 2000 codes are matched to equivalent 2000 SOC codes and use the following notational rules for SOC codes. In general, when a census code matches a 2000 SOC detailed occupation, the detailed SOC code is cited, e.g., 11-1011, 11-9199, and 13-1022. However, if a census code combines all of several 2000 SOC detailed occupations within a broad occupation or minor group, the SOC broad occupation or minor group code is cited, e.g., 11-2020 and 25-1000. Furthermore, if the census code aggregates two or more SOC categories in a way that does not have a single SOC equivalent code, the SOC code on the Special EEO Tabulation contains alpha characters, e.g., 13-11XX and 47-50YY.

A list of codes and titles for eight State and Local Job Categories for the Census 2000 Special EEO Tabulation are presented below. These categories are similar, if not identical, to the job categories used by State and Local governments in reporting EEO-4 survey data.

992 (a)	Unemployed, with no civilian work experience since 1995	none	-

1. Note: Helpers – Extraction Workers (693) and Other Extraction Workers (694) would normally not be combined in the same occupational category. In this instance, however, EEOC defers to the OMB requirement that census occupational categories must be consistent with the SOC minor group structure.

2. Note: Code 992 has been expanded to include people who are 16 years and older with civilian work experience who are unemployed and have not worked since 1995; who have never worked and are looking for work; and who have worked since 1995, but whose last job was in the military, and are looking for civilian work. Code 992 is not included in worksite/residence and worksite tables.
