

Activities of the Health and Human Services Commission, Office of the Inspector General and the Office of the Attorney General in Detecting and Preventing Fraud, Waste, and Abuse in the State Medicaid Program

RECENT DEVELOPMENTS

The Health and Human Services Commission (HHSC) and the Office of the Attorney General (OAG) continue to build upon the success of their efforts in detecting and preventing fraud, waste, and abuse in the Medicaid program. Reinforced by legislative action, the two agencies are making timely and relevant referrals to the other, and cooperative efforts have resulted in a number of successful investigations of potentially fraudulent providers.

The HHSC Office of Inspector General (OIG) and the OAG Medicaid Fraud Control Unit (MFCU) recognize the importance of partnership and regular communication in the coordinated effort to fight fraud and abuse in the Medicaid program. Activities in the latest biannual reporting period continue to reflect progress and success in this area. For example, the following has occurred in the last six months:

- OIG and MFCU staff worked jointly to improve communication regarding providers under indictment who remit overpayments or seek a release of payment holds.
- The MFCU applied statewide resources to simultaneously investigate 35 Houston area durable medical equipment providers engaged in a common scheme. The majority of these investigations were initiated from referrals from the OIG.
- The MFCU communicated two program vulnerabilities to OIG it had identified during the course of investigations.
- Joint training across the two agencies continued.
- Both agencies continued to uphold their commitment to promptly send and/or act upon referrals. The ensuing working relationship between the two agencies is recognized by other states as highly effective.
- Monthly meetings continued between OIG and MFCU staff to discuss referrals of cases and to conduct joint investigations.
- Communication on cases remained consistent and ongoing throughout all staff levels, ensuring all case resources and knowledge were shared and efforts not duplicated.
- In locations where the OIG does not have field investigators, MFCU have investigators assisted in conducting on-site provider verifications for provider types that have higher rates of anticipated fraud.

OTHER DEVELOPMENTS

The 79th Texas Legislature approved an increase in staffing for the Health and Human Services Commission (HHSC) Office of Inspector General (OIG) for SFY 2006. Sixteen new FTE's were allocated to the OIG's Medicaid Provider Integrity (MPI) section. The MPI staff is primarily devoted to investigating provider fraud in the Texas Medicaid Program. This staffing increase allowed MPI to place investigators in key areas of the state to more efficiently investigate issues related to Medicaid fraud, waste, and abuse. In addition to its Austin headquarters office, MPI now has field investigators located in Dallas, Houston, San Antonio, and Edinburg.

MPI continues to conduct criminal history background checks for all potential Medicaid, Medicaid Managed Care, and Children with Special Health Care Needs Services Program providers submitting an enrollment application through the Texas Medicaid and Healthcare Partnership (TMHP). Additionally, criminal background checks are performed for any person or business entity that meets the definition of "indirect ownership interest" as defined in 1 *Texas Administrative Code* §371.1601 who are applying to become a Medicaid provider, or who are applying to obtain a new provider number or a performing provider number.

**Joint Semi-Annual Interagency Coordination Report
September 1, 2006 – February 28, 2007**

Pursuant to §531.103, Texas Government Code, as adopted by Senate Bill 30, 75th Legislature, 1997

Details of these changes were made available in the January/February 2006 *Texas Medicaid Bulletin*, No. 192, and the February 2006 *CSHCN Provider Bulletin*, No. 57.

In December 2006, MPI began conducting criminal history background checks on ALL Medicaid providers currently enrolled through TMHP, the state's claims administrator. During this reporting period, MPI has conducted nearly 9,000 criminal history checks on Medicaid provider applicants, those under investigation, and current Medicaid providers. Of the criminal history checks conducted, 540 were either denied or are pending receipt of return information.

In accordance with section 531.113 of the Government Code, all Managed Care Organizations (MCOs) contracting with the State of Texas are required to adopt a plan to prevent and reduce waste, abuse, and fraud and file their plan annually with OIG for approval. For the first and second quarters of SFY 2007, OIG received 28 complaint referrals from MCOs based on their mandated Special Investigative Units (SIUs). All appropriate cases received from the SIUs were referred to the MFCU.

The 78th Texas Legislature afforded the MFCU a unique opportunity for expansion. With agreement from the United States Department of Health and Human Services, Office of Inspector General, the unit has grown over the past three years from 36 staff to nearly 200. Field offices are open in Corpus Christi, Dallas, El Paso, Houston, Lubbock, McAllen, San Antonio and Tyler. Both formal and informal task forces have been formed with the unit's federal and state investigative partners in conducting its criminal investigations.

The benefits of the MFCU's expansion are clear. The number of criminal cases opened has grown from 134 in the first half of FY 2004, the year the expansion began, to 359 this reporting period. The number of cases presented for prosecution increased from 57 to 169. Convictions increased from 12 to 31. The Medicaid Fraud Control Unit pending caseload jumped from 353 to 1239. Another benefit of increased staff resources focused on Medicaid fraud has been the amount of overpayments identified: from \$13.4 million in the first two quarters of FY 2004 to \$29,145,347 in this reporting period.

MEMORANDUM OF UNDERSTANDING

As required by HB 2292 of the 78th Texas Legislature, the MOU between the MFCU and HHSC-OIG was updated and expanded in November 2003. It continues to ensure the cooperation and coordination between the agencies in the detection, investigation, and prosecution of Medicaid fraud cases and has proven beneficial to both agencies.

THE HEALTH AND HUMAN SERVICES COMMISSION OFFICE OF INSPECTOR GENERAL

The 78th Texas Legislature created the OIG to strengthen HHSC's authority to combat waste, abuse, and fraud in health and human services program. OIG provides program oversight of health and human service (HHS) activities, providers, and recipients through its compliance, chief counsel and enforcement divisions, which are designed to identify and reduce waste, abuse or fraud, and improve HHS system efficiency and effectiveness. Specifically, the chief counsel and enforcement divisions play an intricate role in coordinating with the OAG as it relates to provider investigations and sanction actions.

Within the Enforcement Division, the MPI section investigates allegations of waste, fraud, and abuse involving Medicaid providers and other health and human services programs; refers cases and leads to law enforcement agencies, licensure boards, and regulatory agencies; refers complaints to the MFCU; provides investigative support and technical assistance to other OIG divisions and outside agencies; monitors recoupments of Medicaid overpayments, civil monetary penalties, damages, and other administrative sanctions.

**Joint Semi-Annual Interagency Coordination Report
September 1, 2006 – February 28, 2007**

Pursuant to §531.103, Texas Government Code, as adopted by Senate Bill 30, 75th Legislature, 1997

Under the Chief Counsel, the Sanctions section imposes administrative enforcement intervention and/or adverse actions on providers of various state health care programs found to have committed Medicaid fraud, waste, or abuse in accordance with state and federal statutes, regulations, rules or directives, and investigative findings. Sanctions monitors the recoupment of Medicaid overpayments, damages, penalties, and may negotiate settlements and/or conduct informal reviews as well as prepare agency cases, and provide expert testimony and support at administrative hearings and other legal proceedings against Medicaid providers.

OIG has clear objectives, priorities, and performance standards that emphasize:

- Coordinating investigative efforts to aggressively recover Medicaid overpayments;
- Allocating resources to cases that have the strongest supporting evidence and the greatest potential for monetary recovery; and
- Maximizing the opportunities for case referrals to the MFCU.

Providers Excluded	143	98	241

¹ MFADS is a detection source and as such the numbers are duplicated within sections that work or take action on MFADS generated cases.

² May include OAG identified amounts and Medicaid global settlements. Amounts listed in OAG's statistics may also include potential overpayments identified by OIG.

**Joint Semi-Annual Interagency Coordination Report
September 1, 2006 – February 28, 2007**

Pursuant to §531.103, Texas Government Code, as adopted by Senate Bill 30, 75th Legislature, 1997

**OFFICE OF THE ATTORNEY GENERAL
MEDICAID FRAUD CONTROL UNIT**

For more than 28 years, the Texas Medicaid Fraud Control Unit (MFCU) has been conducting criminal investigations into allegations of fraud, physical abuse, and criminal neglect by healthcare providers in the Medicaid program. MFCUs are operating in 48 states and Washington, D.C., all with similar goals.

The staff increase mandated by House Bill 2292 helped bring Texas in line with other states with similar numbers of Medicaid recipients and Medicaid spending. The legislature appropriated funding that, when matched with federal grant funds, has expanded the unit from 36 staff to nearly 200. Of this number, 57 are commissioned peace officers. Field offices are open in Corpus Christi, Dallas, El Paso, Houston, Lubbock, McAllen, San Antonio and Tyler. Two teams are located in the Dallas office and a third team was recently added to the Houston office. Cross-designated Special Assistant U.S. Attorneys (SAUSAs) are working within each of the four federal judicial districts.

Referral Sources

The MFCU receives referrals from a wide range of sources including concerned citizens, Medicaid recipients, current and former provider employees, HHSC-OIG, other state agencies, and federal agencies. MFCU staff review every referral received. Not all are investigated, however, because the statutory mandate restricts investigations to referrals that have a substantial potential for criminal prosecution. The current addition of staff and field offices has enabled the unit to respond quickly and efficiently to the referrals investigated. The following chart provides a breakdown of referral sources for this reporting period.

Referral Source	Received
Board of Medical Examiners	4
Department of Aging and Disability Services	81
District and County Attorneys	4
Federal Bureau of Investigation	5
Health & Human Services Commission - Office of Inspector General	97
Law Enforcement	9
Medicaid Fraud Control Unit Self-Initiated	50
Owner/Administrator	3
Public	85
U.S. Department of Health and Human Services, Office of Inspector General	17
Other Agencies and Boards	4
Other	37
TOTAL	396

Criminal Investigations

The MFCU conducts criminal investigations into allegations of fraud, physical abuse, and criminal neglect by Medicaid healthcare providers. The MFCU strives for a blend of cases that are representative of Medicaid provider types. The provider types cover a broad range of disciplines and include physicians, dentists, physical therapists, licensed professional counselors, ambulance companies, case management centers, laboratories, podiatrists, nursing home administrators and staff, and medical equipment companies. Common investigations include assaults and criminal neglect of patients in Medicaid facilities, fraudulent billings by Medicaid providers, misappropriation of patient trust funds, drug diversions, and filing of false information by Medicaid providers. Unit investigators often work cases with other state and federal law enforcement agencies.

**Joint Semi-Annual Interagency Coordination Report
September 1, 2006 – February 28, 2007**

Pursuant to §531.103, Texas Government Code, as adopted by Senate Bill 30, 75th Legislature, 1997

Because the MFCU's investigations are criminal, the penalties assessed against providers can include imprisonment, fines, and exclusion from the Medicaid program. The provider is also subject to disciplinary action by his or her professional licensing board. Increased staff has allowed the unit to increase its open investigations from 1078 in the last reporting period to 1239 this reporting period. This, in turn, has led to more cases being presented to prosecutors in state and federal court.

Until the passage of House Bill 2292, the MFCU depended upon state and federal authorities for criminal prosecution of its cases. Now having concurrent jurisdiction with the consent of local prosecutors to prosecute certain state felony offenses, the MFCU can apply additional resources and assistance in the trial work. During this reporting period, MFCU state prosecutors have been deputized by various district attorneys to prosecute MFCU cases. As the unit continues to offer its prosecutorial expertise to assist local district attorneys in prosecuting MFCU cases, this trend is expected to continue. In addition, the Code of Criminal Procedure was amended to allow the OAG to institute asset forfeiture proceedings in cases that are filed by the OAG or requested by the OIG.

The MFCU's partnership with the four federal judicial districts has proven to be especially beneficial in increasing the number of MFCU cases prosecuted through the federal system. Under this arrangement, a cadre of MFCU Assistant Attorneys General has been cross-designated as Special Assistant U.S. Attorneys (SAUSA). They are housed primarily in the federal district offices. As SAUSAs, they are authorized to prosecute Medicaid healthcare cases in federal court. The unit's federal convictions increased from 10 in FY 2004 to 22 in FY 2006.

Medicaid Fraud and Abuse Referral Statistics

The MFCU statistics for the first and second quarters of fiscal year 2007 are as follows.

Action	1st & 2nd Quarters FY2007
Cases Opened	359
Cases Closed	198
Cases Presented	169
Criminal Charges Obtained	93
Convictions	31
Potential Overpayments Identified	\$29,145,347
Misappropriations Identified	\$240,730
Settlements	\$1,360,000
Cases Pending	1239

**OFFICE OF THE ATTORNEY GENERAL
ANTITRUST & CIVIL MEDICAID FRAUD DIVISION**

In August 1999, the Civil Medicaid Fraud Section (CMF) was created within the Elder Law and Public Health Division (ELD) of the Office of the Attorney General (OAG). CMF was instituted to investigate and prosecute civil Medicaid fraud cases under Chapter 36 of the Texas Human Resources Code (the Texas Medicaid Fraud Prevention Act). In February 2004, CMF was merged into the Antitrust Division as part of a reorganization, and the resulting division was renamed the Antitrust & Civil Medicaid Fraud Division.

Under the Texas Medicaid Fraud Prevention Act, the Attorney General has the authority to investigate and prosecute any person who has committed an “unlawful act” as defined in the statute. The OAG, in carrying out this function, is authorized to issue civil investigative demands, require sworn answers to written questions, and obtain sworn testimony through examinations under oath. All of the investigative tools can precede the filing of a lawsuit based on any of the enumerated “unlawful acts.” The remedies available under the Act are extensive and include the automatic suspension or revocation of the Medicaid provider agreement and/or license of certain providers.

The Texas Medicaid Fraud Prevention Act also permits private citizens to bring actions on behalf of the State of Texas for any “unlawful act.” In these lawsuits, commonly referred to as *qui tam* actions, the OAG is responsible for determining whether or not to prosecute the action on behalf of the state. If the OAG does not intervene, the lawsuit is dismissed. On the other hand, if the OAG intervenes and prosecutes the matter, the private citizen, known as the “relator,” is entitled to a percentage of the total recovery.

Statistics

CMF Docket	1st & 2nd Quarters FY2007
Pending Cases/Investigations	151
Cases Closed	0
Cases Opened	30

During this reporting period, CMF settled three cases:

1. State of Texas v. Omnicare. Total recovery including both state and federal portions equaled \$2,246,634.66.
2. State of Texas v. Pediatrix. Total recovery was \$5,672,880.39.
3. State of Texas v. Schering. Total recovery was \$15,718,222.12

CMF also opened a new case against Janssen Pharmaceuticals and its parent company, Johnson & Johnson. The allegation is that the companies improperly marketed the drug Risperdal to children and others which caused the Texas Medicaid program to pay more than \$117 million for the drug.

CMF continues to pursue significant cases against the following defendants:

1. Abbott Laboratories and B. Braun for pricing fraud.
2. Caremark for failure to reimburse Medicaid for pharmacy benefits paid on behalf of dual eligible Medicaid recipients
3. Merck & Co. for misrepresentations to Texas Medicaid about the safety and efficacy of Vioxx.

CMF continues its heavy involvement in multi-state cases or investigations against Medicaid providers which are under seal and cannot be revealed at this time publicly.
