THIS DECISION HAS BEEN APPEALED. THE FOLLOWING IS THE RELATED SOAH DECISION NUMBER:

SOAH DOCKET NO. 453-04-0013.M5

MDR Tracking Number: M5-03-0433-01

Under the provisions of Section 413.031 of the Texas Workers' Compensation Act, Title 5, Subtitle A of the Texas Labor Code, effective January 1, 2002 and Commission Rule 133.305 and 133.308 titled Medical Dispute Resolution by Independent Review Organizations, the Medical Review Division assigned an IRO to conduct a review of the disputed medical necessity issues between the requestor and the respondent.

The IRO reviewed the aquatic therapy, massage therapy, therapeutic exercise, supplies, physical medicine procedures, Phonophoresis and Phonophoresis supplies rendered from 2-1-02 to 3-18-02 that were denied based upon "U.

The Medical Review Division has reviewed the IRO decision and determined that **the requestor prevailed** on the issues of medical necessity. Therefore, upon receipt of this Order and in accordance with § 133.308(r)(9), the Commission hereby orders the respondent and non-prevailing party to **refund the requestor \$460.00** for the paid IRO fee. For the purposes of determining compliance with the order, the Commission will add 20 days to the date the order was deemed received as outlined on page one of this order.

In accordance with §413.031(e), it is a defense for the carrier if the carrier timely complies with the IRO decision.

Based on review of the disputed issues within the request, the Medical Review Division has determined that **medical necessity was not the only issue** to be resolved

This dispute also contained services that were not addressed by the IRO and will be reviewed by the Medical Review Division.

On February 14, 2003, the Medical Review Division submitted a Notice to requestor to submit additional documentation necessary to support the charges and to challenge the reasons the respondent had denied reimbursement within 14 days of the requestor's receipt of the Notice.

The following table identifies the disputed services and Medical Review Division's rationale:

Services denied without an EOB will be reviewed in accordance with Commission's *Medical Fee Guideline*.

DECISION

The reviewer disagrees with the prior adverse determination.

BASIS FOR THE DECISION

According to rule 133.304(c)

"At the time an insurance carrier makes payment or denies on a medical bill, the insurance carrier shall send, in the form and manner prescribed by the Commission, the explanation of benefits to the appropriate parties. The explanation of benefits shall include the correct payment exception codes required by the Commission's instructions, and shall provide sufficient explanation to allow the sender to understand the reason(s) for the insurance carrier's action(s). A generic statement that simply states a conclusion such as "not sufficiently documented" or other similar phrases with no further

description of the reason for the reduction or denial of payment doe not satisfy the requirements of this section. The insurance carrier shall maintain documentation of the date it was sent the explanation of benefits, and shall either maintain a copy of the explanation of benefits or be able to electronically reproduce it. The explanation of benefits may be printed on the insurance carrier's letterhead but must include all language required by the Commission."

The carrier did not present any documentation to substantiate its reason for denying payment for services other than to say that the care exceeded medically accepted UR criteria and TWCC treatment guidelines.

The Spinal Treatment Guidelines allow for this care in the tertiary phase of care. ____ condition at the time of treatment is consistent with the clinical indicators for tertiary phase of care as defined in Table III under phases of care.

"This interdisciplinary, individualized and intensive treatment designed for injured employees already demonstrating physical and psychological changes consisted with chronic disability. In general, differentiation from intermediate treatment includes medical direction, intensity of services, severity of injury, and individualized programmatic protocols with integration of physician, mental health and disability or pain management services and specificity of physical/psychological assessment."

The goal of this care was

"To represent the tertiary phase of nonoperative or postoperative treatments for severe cases, with the goal of giving injured employees an opportunity for cooperative activity in programs designed to achieve maximum medical improvement. Return to full duty work may not always be possible and may necessitate the introduction of post-medical vocational rehabilitation services by referral to Texas Rehabilitation Commission."

Aquatic therapy, massage therapy, therapeutic exercise, supplies, physical medicine
procedures, phonophoresis and phonophoresis supplies were found to be medically
necessary treatment and/or supplies for care of The documentation presented
indicates that needed the treatment, the treatment was performed, and benefited
from the treatment injury required very individualized care that was interdisciplinary
in nature improved as a result of the care provided.
has performed an independent review solely to determine the medical necessity of the health services that are the subject of the review has made no determinations regarding benefits available under the injured employee's policy
As an officer of, I certify that there is no known conflict between the reviewer, and/or any officer/employee of the IRO with any person or entity that is a party to the dispute.
