Under the provisions of Section 413.031 of the Texas Workers' Compensation Act, Title 5, Subtitle A of the Texas Labor Code, effective June 17, 2001 and Commission Rule 133.305 titled Medical Dispute Resolution- General and 133.308 titled Medical Dispute Resolution by Independent Review Organizations, the Medical Review Division assigned an IRO to conduct a review of the disputed medical necessity issues between the requestor and the respondent. This dispute was received on 1-24-03.

Dates of service 10-01-01 through 12-14-01 were submitted untimely, and therefore are not eligible for review per above referenced rule.

The IRO reviewed prescriptions rendered from 1-30-02 through 4-26-02 that were denied based upon "U".

The Medical Review Division has reviewed the IRO decision and determined that **the requestor did not prevail** on the issues of medical necessity. Consequently, the requestor is not owed a refund of the paid IRO fee.

In accordance with §413.031(e), it is a defense for the carrier if the carrier timely complies with the IRO decision.

Based on review of the disputed issues within the request, the Medical Review Division has determined that **medical necessity was not the only issue** to be resolved.

This dispute also contained services that were not addressed by the IRO and will be reviewed by the Medical Review Division.

On June 13, 2003, the Medical Review Division submitted a Notice to requestor to submit additional documentation necessary to support the charges and to challenge the reasons the respondent had denied reimbursement within 14 days of the requestor's receipt of the Notice.

The following table identifies the disputed services and Medical Review Division's rationale:

DOS	CPT CODE	Billed	Paid	EOB Denial Code	MARS (Maximum Allowable Reimbursement)	Reference	Rationale
1/30/02	59075059415	\$33.60	\$0.00	No EOB	\$33.60	Rule 133.307(g)(3)	The requestor did not submit a prescription or

TOTAL							The requestor is not entitled to reimbursement.

This Decision is hereby issued this 3rd day of November 2003.

NOTICE OF INDEPENDENT REVIEW DECISION

Re: IRO Case # M5-03-1287

Texas Worker's Compensation Commission:

___ has been certified as an independent review organization (IRO) and has been authorized to perform independent reviews of medical necessity for the Texas Worker's Compensation Commission (TWCC). Texas HB. 2600, Rule133.308 effective January 1, 2002, allows a claimant or provider who has received an adverse medical necessity determination from a carrier's internal process, to request an independent review by an IRO.

In accordance with the requirement that TWCC assign cases to certified IROs, TWCC assigned this case to ___ for an independent review. ___ has performed an independent review of the proposed care to determine if the adverse determination was appropriate. For that purpose, ___ received relevant medical records, any documents obtained from parties in making the adverse determination, and any other documents and/or written information submitted in support of the appeal.

The case was reviewed by a physician who is Board Certified in Anesthesiology and Pain Management. He or she has signed a certification statement attesting that no known conflicts of interest exist between him or her and any of the treating physicians or providers, or any of the physicians or providers who reviewed the case for a determination prior to referral to ___ for independent review. In addition, the certification statement further attests that the review was performed without bias for or against the carrier, medical provider, or any other party to this case.

The determination of the ___ reviewer who reviewed this case, based on the medical records provided, is as follows:

History

The patient is a 38-year-old female who sustained a leg contusion on ____. Initially she complained of leg pain and possibly back pain. She then noted pain “all over,” including head, neck, entire spine.

Requested Service

Prescriptions 1/30/02-4/26/02

Decision

I agree with the carrier’s decision to deny the requested medication.

Rationale

Physicians who have examined the patient have noted non-physiologic findings and exaggerated pain responses. No records were presented for this review that support the medications prescribed or that indicate that they are reasonable and necessary.

This medical necessity decision by an Independent Review Organization is deemed to be a Commission decision and order.
