Under the provisions of Section 413.031 of the Texas Workers' Compensation Act, Title 5, Subtitle A of the Texas Labor Code, effective January 1, 2002 and Commission Rule 133.305 and 133.308 titled Medical Dispute Resolution by Independent Review Organizations, the Medical Review Division assigned an IRO to conduct a review of the disputed medical necessity issues between the requestor and the respondent.

The Medical Review Division has reviewed the IRO decision and determined that **the requestor prevailed** on the issues of medical necessity. Therefore, upon receipt of this Order and in accordance with §133.308(q)(9), the Commission hereby orders the respondent and non-prevailing party to **refund the requestor \$450.00** for the paid IRO fee. For the purposes of determining compliance with the order, the Commission will add 20 days to the date the order was deemed received as outlined on page one of this order.

In accordance with §413.031(e), it is a defense for the carrier if the carrier timely complies with the IRO decision.

Based on review of the disputed issues within the request, the Medical Review Division has determined that **medical necessity was the only issue** to be resolved. The chiropractic treatments, including, office visits, joint mobilization, myofascial release, traction, therapeutic procedure, ROM, physical performance testing/FCE and muscle testing were found to be medically necessary. The respondent raised no other reasons for denying reimbursement for these chiropractic treatment charges.

This Finding and Decision is hereby issued this 7<sup>th</sup> day of August 2003.

\_\_\_ has performed an independent review of the medical records of the above-named case to determine medical necessity. In performing this review, \_\_\_ reviewed relevant medical records, any documents provided by the parties referenced above, and any documentation and written information submitted in support of the dispute.

The independent review was performed by a matched peer with the treating health care provider. This case was reviewed by a physician who is Certified in Chiropractic Medicine.

**Clinical History:**

This female claimant suffered a work-related injury to her elbow on \_\_\_\_. She quit her work soon thereafter and reported her pain to her employer in \_\_\_\_. She received treatment for her pain from May until July 2002.

**Disputed Services:**

Chiropractic treatments from 05/31/02 through 07/25/02.

**Decision:**

The reviewer disagrees with the determination of the insurance carrier and is of the opinion that the services in question were medically necessary in this case.

**Rationale:**

The records provided for review show obvious lateral epicondylitis on MRI and objective findings of the same diagnosis from her MD and DC. She received the appropriate course of treatment for her injury, both active and passive services.

According to Texas Labor Code 408:021(a), an employee is entitled to the care reasonably required in association with their injury and the treatment thereof. If the patient's condition is not stable, the care to maintain and promote healing is medically necessary.

I am the Secretary and General Counsel of \_\_\_ and I certify that the reviewing healthcare professional in this case has certified to our organization that there are no known conflicts of interest that exist between him and any of the treating physicians or other health care providers or any of the physicians or other health care providers who reviewed this case for determination prior to referral to the Independent Review Organization.

Sincerely,
