PART III: REQUESTOR'S POSITION SUMMARY

The carrier has not provided the proper payment exception code in this instance, which is in violation of the Texas Administrative Code. The carrier did not make "fair and reasonable" reimbursement and did not provide any documentation of a developed or consistently applied methodology, which was used in reducing payment for the treatment/service in question.

PART IV: RESPONDENT'S POSITION SUMMARY

The carrier paid per Texas Fee Schedule at fair and reasonable per carrier's ASC protocol.

PART V: MEDICAL DISPUTE RESOLUTION REVIEW SUMMARY, METHODOLOGY, AND/OR EXPLANATION

This dispute relates to services provided in an Ambulatory Surgical Center that are not covered under a fee guideline for this date of service. Accordingly, the reimbursement determined through this dispute resolution process must reflect a fair and reasonable rate as directed by Commission Rule 134.1. This case involves a factual dispute about what is a fair and reasonable reimbursement for the services provided.

After reviewing the documentation provided by both parties, it appears that neither the requestor nor the respondent provided convincing documentation that sufficiently discusses, demonstrates, and justifies that their purported amount is a fair and reasonable reimbursement (Rule 133.307). The failure to provide persuasive information that supports their proposed amounts makes rendering a decision difficult. After reviewing the services, the charges, and both parties' positions, it is determined that no other payment is due.

During the rule development process for facility guidelines, the Commission had contracted with Ingenix, a professional firm specializing in actuarial and health care information services, in order to secure data and information on reimbursement ranges for these types of services. The results of this analysis resulted in a recommended range for reimbursement for workers' compensation services provided in these facilities. In addition, we received information from both ASCs and insurance carriers in the recent rule revision process. While not controlling, we considered this information in order to find data related to commercial market payments for these services. This information provides a very good benchmark for determining the "fair and reasonable" reimbursement amount for the services in dispute.

To determine the amount due for this particular dispute, staff compared the procedures in this case to the amounts that would be within

the reimbursement range recommended by the Ingenix study (from 192.6% to 256.3% of Medicare for this particular year). Staff considered the other information submitted by the parties and the issues related to the specific procedures performed in this dispute. Based on this review, the original reimbursement on these services is at the low end of the Ingenix range. The decision for no additional reimbursement was then presented to a staff team with health care provider billing and insurance adjusting experience. This team considered the decision and discussed the facts of the individual case.

Based on the facts of this situation, the parties' positions, the Ingenix range for applicable procedures, and the consensus of other experienced staff members in Medical Review, we find that no additional reimbursement is due for these services.

PART VI: COMMISSION DECISION AND ORDER

Based upon the review of the disputed healthcare services, the Medical Review Division has determined that the requestor is not entitled to additional reimbursement.
