PART III: REQUESTOR'S POSITION SUMMARY

Should have paid stoploss.

PART IV: RESPONDENT'S POSITION SUMMARY

The carrier maintains the right to audit hospital charges as provided for by TWCC Rule 133.301, 134.401, 134.600, 133.206. Section 413.011(b) of the Texas Labor Code mandates that the "Guideline for medical services fees must be fair and reasonable and designed to ensure the quality of medical care and to achieve effective medical cost control..." It is this carrier's position that a percent of an artificially inflated UNLIMITED billed amount is not effective medical cost control.

PART V: MEDICAL DISPUTE RESOLUTION REVIEW SUMMARY, METHODOLOGY, AND/OR EXPLANATION

This dispute relates to inpatient services provided in hospital setting with reimbursement subject to the provisions of Rule 134.401 (Acute Care Inpatient Hospital Fee Guideline). The hospital has requested reimbursement according to the stop-loss method contained in that rule. Rule 134.401(c)(6) establishes that the stop-loss method is to be used for "unusually costly services." The explanation that follows this paragraph indicates that in order to determine if "unusually costly services" were provided, the admission must not only exceed \$40,000 in total audited charges, but also involve "unusually extensive services."

The operative report indicates claimant underwent, "Posterior arthrodesis T11-12, T12-L1, and L1-2; Posterior segmental instrumentation with pedicle fixation of T11 to L2; and Harvest of autologous bone through the same incision."

After reviewing the documentation provided by both parties, it **does** appear that this particular admission involved "unusually extensive services." In particular, this admission resulted in a hospital stay of 4 days based upon multi-level operation. Accordingly, the stop-loss method does apply and the reimbursement is to be based on the stop-loss methodology.

The requestor billed \$64,194.25 for the hospitalization. The requestor billed \$19,449.00 for the implantables. Based on a reimbursement of \$7705.50, it appears that the carrier found that the cost for the implantables was \$7,005.00 (reimbursed amount divided by 110%). This amount multiplied by the average mark-up of 200% results in an audited charge for implantables equal to \$14,010.00.

The audited charges for this admission, excluding implantables, equals \$44,745.25. The requestor is not disputing the room and board charge of \$2312.00; therefore, this amount minus room and board charge = \$42,433.25. This amount plus the above calculated audited charges for the implantables equals \$56,443.25, the total audited charges. This amount multiplied by the stop-loss reimbursement factor (75%) results in a workers' compensation reimbursement amount equal to \$42,332.43.

The insurance carrier audited the bill and paid \$11,247.88 for the inpatient hospitalization. The difference between amount paid and amount due = \$31,084.55.

Based on the facts of this situation, the parties' positions, and the application of the provisions of Rule 134.401(c), we find that the health care provider is entitled to a reimbursement amount for these services equal to \$31,084.55.

PART VI: COMMISSION DECISION AND ORDER

Based upon the review of the disputed healthcare services, the Medical Review Division has determined that the requestor is entitled to additional reimbursement in the amount of \$31,084.55. The Division hereby **ORDERS** the insurance carrier to remit this amount plus all accrued interest due at the time of payment to the Requestor within 20-days of receipt of this Order.
