PART III: REQUESTOR'S POSITION SUMMARY

TWCC Rule 134.401 provides the rules regarding reimbursement for Acute Care In-patient Hospital Fee services. Specifically, reimbursement consists of 75% of remaining charges for the entire admission, after a Carrier audits a bill... This figure is presumptively considered to be "fair and reasonable" in accordance with the preamble of TWCC Rule 134... Further, the TWCC stated that the stop-loss threshold increased hospital reimbursement and will ensure fair and reasonable rates for hospitals and ensure access to quality health care for injured workers...

PART V: MEDICAL DISPUTE RESOLUTION REVIEW SUMMARY, METHODOLOGY, AND/OR EXPLANATION

This dispute relates to inpatient services provided in hospital setting with reimbursement subject to the provisions of Rule 134.401 (Acute Care Inpatient Hospital Fee Guideline). The hospital has requested reimbursement according to the stop-loss method contained in that rule. Rule 134.401(c)(6) establishes that the stop-loss method is to be used for "unusually costly services." The explanation that follows this paragraph indicates that in order to determine if "unusually costly services" were provided, the admission must not only exceed \$40,000 in total audited charges, but also involve "unusually extensive services."

After reviewing the documentation provided by both parties, it does **not** appear that this particular admission involved "unusually extensive services." The claimant was admitted for a multi-level osteophyte resection, partial corpectomy and instrumented lumbar fusion. The claimant tolerated the operation extremely well. On the first postoperative day, the claimant had no numbness, weakness, clumsiness of the arms or hands. Claimant had neck pain, sore throat, and mild difficulty swallowing as expected, but no hoarseness or other complications. Accordingly, the stop-loss method does not apply and the reimbursement is to be based on the per diem plus carve-out methodology described in the same rule.

The total length of stay for this admission was 2 day (consisting of 2 days for surgical). Accordingly, the standard per diem amount due for this admission is equal to \$2,236.00 (2 times \$1,118). In addition, the hospital is entitled to additional reimbursement for (implantables/MRIs/CAT Scans/pharmaceuticals) as follows: The requestor submitted and implant invoice from Centerpulse – Spine-Tech, Inc. in the amount of \$9,317.00; this amount times 10% equals \$10,248.70. Per Diem rate of \$2,236.00 plus implantables in the amount of \$10,248.70.40 equals a reimbursement of \$12,484.70.

The insurance carrier reimbursed the healthcare provider a total of \$12,484.70. Considering the reimbursement amount calculated in accordance with the provisions of rule 134.401(c) compared with the amount previously paid by the insurance carrier, we find that no additional reimbursement is due for these services.

PART VI: COMMISSION DECISION

Based upon the review of the disputed healthcare services, the Medical Review Division has determined that the requestor is **not** entitled to additional reimbursement.
