## PART V: MEDICAL DISPUTE RESOLUTION REVIEW SUMMARY, METHODOLOGY, AND/OR EXPLANATION

C issue: Requestor did not dispute that a contract exist between parties, infact noted that a 10% reduction was to be taken based upon contract. Requestor argued that payment was not in accordance with Rule 134.401. Since neither party submitted contract information the dispute will be reviewed in accordance with Rule 134.401.

This dispute relates to inpatient services provided in hospital setting with reimbursement subject to the provisions of Rule 134.401 (Acute Care Inpatient Hospital Fee Guideline). The hospital has requested reimbursement according to the stop-loss method contained in that rule. Rule 134.401(c)(6) establishes that the stop-loss method is to be used for "unusually costly services." The explanation that follows this paragraph indicates that in order to determine if "unusually costly services" were provided, the admission must not only exceed \$40,000 in total audited charges, but also involve "unusually extensive services."

The discharge summary indicated that, claimant underwent an anterior posterior fusion at L3 to the Sacrum. "Postoperatively course was unremarkable."

After reviewing the documentation provided by both parties, it does **not** appear that this particular admission involved "unusually extensive services." Accordingly, the stop-loss method does not apply and the reimbursement is to be based on the per diem plus carve-out methodology described in the same rule.

The total length of stay for this admission was 4 days (consisting of 4 days for surgical). Accordingly, the standard per diem amount due for this admission is equal to \$4472.00(4 times \$1,118). In addition, the hospital is entitled to additional reimbursement for (implantables/MRIs/CAT Scans/pharmaceuticals) as follows:

Synthes invoice \$2749.89  
Synthes invoice \$6602.12

MTF invoice \$472.45  
MT invoice \$2577.19  
Synthes invoice illegible.

TOTAL of Invoices = \$12,401.65 + 10% = \$13,641.81

TOTAL of Invoice + Surgery/Per diem = \$13,641.81 + \$4472.00 = \$18,113.81.

The insurance carrier paid \$36,542.42 for inpatient hospitalization.

Considering the reimbursement amount calculated in accordance with the provisions of rule 134.401(c) compared with the amount previously paid by the insurance carrier, we find that no additional reimbursement is due for these services.

**PART VI: COMMISSION DECISION**

Based upon the review of the disputed healthcare services, the Medical Review Division has determined that the requestor is **not** entitled to additional reimbursement.
