PART III: REQUESTOR'S POSITION SUMMARY

IC failed to pay per TWCC Rule 134.401 Acute Care Inpatient Hospital Fee Guideline and SOAH decision 453-04-3600.M4...Per TWCC Rule 134.401(c)(6)...claim pays @ 75% of total charges as charges exceed \$40,000.00 stop-loss threshold. Carrier further failed to audit according to TWCC Rule 134.401(C)(6)(A)(v).

PART IV: RESPONDENT'S POSITION SUMMARY

The standard per diem reimbursement method should be applied. In the absence of the implant invoices, Provider has been properly reimbursed under the per diem reimbursement method and is not entitled to additional reimbursement. However, even if the stop-loss exception were otherwise applicable to this case, surgical implants are excepted from stop-loss, and, when medically necessary, are reimbursed at cost plus 10%.

PART V: MEDICAL DISPUTE RESOLUTION REVIEW SUMMARY, METHODOLOGY, AND/OR EXPLANATION

This dispute relates to inpatient services provided in hospital setting with reimbursement subject to the provisions of Rule 134.401 (Acute Care Inpatient Hospital Fee Guideline). The hospital has requested reimbursement according to the stop-loss method contained in that rule. Rule 134.401(c)(6) establishes that the stop-loss method is to be used for "unusually costly services." The explanation that follows this paragraph indicates that in order to determine if "unusually costly services" were provided, the admission must not only exceed \$40,000 in total audited charges, but also involve "unusually extensive services."

After reviewing the documentation provided by both parties, it **does** appear that this particular admission involved "unusually extensive services." In particular, this admission resulted in a hospital stay of 6 days based upon 5 days surgical and 1 day in ICU. Claimant underwent anterior and posterior lumbar fusion L4 to S1. Accordingly, the stop-loss method does apply and the reimbursement is to be based on the stop-loss methodology.

The requestor billed \$118,383.13 for the hospitalization. In determining the total audited charges, it must be noted that the insurance carrier has indicated some question regarding the charges for the implantables. The requestor billed \$54,843.00 for the implantables. The respondent paid \$0.00 based upon not documented.

The audited charges for this admission totaled \$91,262.37 (\$118,383.13 minus usual and customary audit \$27,120.76). This amount multiplied by the stop-loss reimbursement factor (75%) results in a workers' compensation reimbursement amount equal to \$68,446.77.

The insurance carrier audited the bill and paid \$5,878.00 for the inpatient hospitalization. The difference between amount paid and

amount due = \$62,568.77.

Based on the facts of this situation, the parties' positions, and the application of the provisions of Rule 134.401(c), we find that the health care provider is entitled to a reimbursement amount for these services equal to \$62,568.77.

PART VI: COMMISSION DECISION AND ORDER

Based upon the review of the disputed healthcare services, the Medical Review Division has determined that the requestor is entitled to additional reimbursement in the amount of \$62,568.77. The Division hereby **ORDERS** the insurance carrier to remit this amount plus all accrued interest due at the time of payment to the Requestor within 20-days of receipt of this Order.
