

Protect Texas Children. Use **ImmTrac** Effectively.

ImmTrac is the innovative online system that allows physicians to store and update immunization information for Texas children. It is a FREE service that allows you easy access to your participating patients' immunization histories. ImmTrac enables you to view immunization information consolidated from multiple providers and health plans statewide.

Protect Texas children by using ImmTrac effectively:

- ✓ Review child's record in ImmTrac (prior to or during visit).
- ✓ Administer vaccines due or overdue.
- ✓ Update ImmTrac with newly administered vaccine information.
- ✓ Print child's updated immunization history for parent.
- ✓ Conduct patient Reminder/Recall.
