Quarter 1 2,869.68 2,566.20 2,566.20 89.42 % * 2,726.20 - 3,013.16

Explanation of Variance: The targeted value assumes a rate increase related to implementing a Quality Assurance Fund (QAF) for nursing facilities (NF). The legislation authorizing an NF QAF was vetoed. Without QAF funding, the revised target would have been \$2268.12. We are at 113.1.% of the target excluding QAF. This variance reflects the fact that we gave an 11.75% rate increase to Medicaid nursing facilities effective January 1, 2006.

Explanation of Variance: Clients in this program are primarily receiving CBA services. Historically, CBA has experienced an upward trend in the average cost per client which was primarily the result of increased usage of Personal Assistance Service hours. The average cost per client increased by 5.6% in FY 2003 (over FY 2002) and by 3.8% in FY 2004. For the FY 2006-2007 appropriations, the cost trend for FY 2005 was estimated to be 3.1%, and this trend was assumed to continue through FY 2006-2007. However, the actual increase in FY 2005 was only 1.0%, and the experience for FY 2006 as well as FY 2007 to date shows a slight reduction in costs from FY 2005.
