

COMMISSIONER  
Adelaide Horn

May 22, 2007

John O'Brien, Director  
Legislative Budget Board  
P.O. Box 12666  
Austin, TX 78711-2666

Dear Mr. O'Brien:

Enclosed is the agency's FY 2007 Monthly Financial Report as of February 2007.

The following is a narrative summary of budget adjustments during the month, budget variances, significant changes from the previous report, capital budget issues, and other key budget issues at this time.

### BUDGET ADJUSTMENTS

In total, the FY 2007 operating budget has decreased by \$510.3 million from the original FY 2007 appropriation for the agency. Please see Attachment A for a detailed accounting of these adjustments.

### BUDGET VARIANCES

We are projecting a total FY 2007 agency surplus of \$93.1 million of which \$44.4 million is state general revenue. The additional positive variance of \$48.7 million will be federal funds associated with the general revenue surpluses above for which no cash will be available. Of the projected surplus, \$92.4 million is related to our client services strategies where caseloads or costs are projected to be less than what was appropriated/budgeted for various strategies. The department currently plans to use the \$44.4 million lapsing state general revenue to assist with funding the August 2007 deferrals approved for payment in Section 31 of House Bill 15, 80<sup>th</sup> Legislature.

The following is an explanation of notable variances (greater than \$1.0 million) by strategy:

- A.2.1 Primary Home Care – this strategy is projected to have a \$1.5 million negative variance of which \$0.6 million is state funds. This variance is primarily due to an increase in the number of persons served offset by a decrease in the costs associated with this program as compared to the current operating budget.
- A.2.2 Community Attendant Services – this strategy is projected to have a \$29.8 million positive variance of which \$11.7 million is state funds. This variance is due to a projected decrease in the number of persons served and in the costs associated with this program as compared to the current operating budget.
- A.2.3 Day Activity and Health Services – this strategy is projected to have a \$2.8 million positive variance of which \$1.0 million is state funds. This variance is due to a projected decrease in the number of persons served and in the costs associated with this program as compared to the current operating budget.
- A.3.1 Community Based Alternatives – this strategy is projected to have a \$1.9 million negative variance of which \$0.7 million is state funds. This variance is due to a projected increase in the number of persons served and an increase in the costs associated with this program as compared to the current operating budget.
- A.3.2 Home and community-based Services-- this strategy is projected to have a \$7.3 million negative variance of which \$2.5 million is state funds. This variance is due to a projected increase in the number of persons served which is partially offset by a decrease in the costs associated with this program as compared to the current operating budget.
- A.3.3 Community Living Assistance and Support Services – this strategy is projected to have a \$9.9 million positive variance of which \$3.9 million is state funds. This variance is due to a projected decrease in the number of persons served and a decrease in the costs associated with this program as compared to the current operating budget.
- A.3.5 Medically Dependent Children Program – this strategy is projected to have a \$12.7 million positive variance of which \$5.0 million is state funds. This variance is due to a projected decrease in the number of persons served and a decrease in the costs associated with this program as compared to the current operating budget.
- A.3.7 Texas Home Living Waiver – this strategy is projected to have a \$2.6 million positive variance of which \$1.0 million is state funds. This variance is due to a projected decrease in the number of persons served and a decrease in the costs associated with this program as compared to the current operating budget.
- A.6.1 Nursing Facility Payments – this strategy is projected to have a \$39.9 million positive variance of which \$22.5 million is state funds. This variance is due to a projected decrease in the number of persons served and a decrease in the costs associated with this program as compared to the current operating budget.

- A.6.2 Medicare Skilled Nursing Facility – this strategy is projected to have a \$3.9 million positive variance of which \$1.5 million is state funds. This variance is due to a projected decrease in the number of persons served and a decrease in the costs associated with this program as compared to the current operating budget.
- A.6.3 Hospice – this strategy is projected to have a \$2.0 million negative variance of which \$0.8 million is state funds. This variance is due to a projected increase in the number of persons served which is partially offset by a decrease in the costs associated with this program as compared to the current operating budget.
- A.6.4 Promoting Independence Services – this strategy is projected to have a \$9.6 million positive variance of which \$3.8 million is state funds. This variance is due to a projected decrease in the persons served as compared to the current operating budget, which is partially offset by an increase in the costs.
- A.7.1 Intermediate Care Facilities—Mental Retardation – this strategy is projected to have a \$2.0 million positive variance of which \$1.3 million is state funds. This variance is primarily due to a decrease in the number of persons served and is partially offset by an increase in the costs associated with this program as compared to the current operating budget.
- A.8.1 MR State Schools Services – this strategy is projected to have a \$8.5 million negative variance of which \$2.6 million is state funds. This variance is primarily due to an increase in the costs associated with this program as compared to the current operating budget.

#### **SIGNIFICANT CHANGES FROM PREVIOUS REPORT\***

This Budgeted Amount shown for this report is unchanged from the previous month's report. See Attachment A for an itemization of all budget adjustments for the fiscal year.

#### **OTHER KEY BUDGET ISSUES**

Due to the implementation of the 11.75% nursing facility rate increase and the increase in the personal needs allowance from \$45 to \$60; the Agency would be in a deficit situation for FY 2007. A carry forward of \$28.0 million state funds from FY 2006 and an anticipated transfer of \$115.0 million from HHSC will address our agency's projected FY 2007 shortfall.

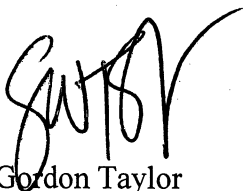

The State School ICF/MR interim rate changed effective September 1, 2006 for FY 2007 from the August 2006 rate of \$331.89 to \$341.66. The determination of this rate by HHSC Rate Analysis staff was based on the FY 2004 State School ICF/MR Cost Reports plus projected increases including inflation, the impact of the Legislatively mandated 3% across-the-board employee pay raise, and the increase in Quality Assurance Fee Assessment related to the 3% salary increase revenue.

## CAPITAL BUDGET ISSUES

The Agency has received approval from the Texas Public Finance Authority as well as the Texas Bond Review Board for financing related to the Master Lease and Bond projects shown in our Capital Budget Rider for the biennium. These projects are Repairs or Rehabilitation of Buildings and Facilities, Acquisition of Information Resource Technologies, Transportation Items and Acquisition of Capital Equipment and Items. The Agency started these projects during the month of December 2005 and the procurement of these items is proceeding.

Please feel free to contact me at 438-3355 if you have any questions or require additional information.

Sincerely,

A handwritten signature in black ink, appearing to read 'Gordon Taylor', written over a faint, illegible typed name.

Gordon Taylor  
Chief Financial Officer

\* In Home and Family Support client counts are reported on a quarterly basis

1. Programs showing zero "slots filled" have not yet filled to their "baseline" capacity. Although staff are diligently working interest list cases, we have not yet seen a significant increase in enrollments in these programs. As of the end of July 2006, DADS had released 35,958 names from the CBA interest list, 3,083 names from the CLASS interest list, 7,796 names from the MDCP list, and 34 names from the DBMD list.

2. For CBA, information from regional staff has indicated that the Estate Recovery policy is resulting in a higher than expected rate of "voluntary withdrawals". As a result, a lower proportion of persons taken off the CBA interest list are being enrolled.
