

COMMISSIONER
Adelaide Horn

September 11, 2007

John O'Brien, Director
Legislative Budget Board
P.O. Box 12666
Austin, TX 78711-2666

Dear Mr. O'Brien:

Enclosed is the agency's FY 2007 Monthly Financial Report as of June 2007.

The following is a narrative summary of budget adjustments during the month, budget variances, significant changes from the previous report, capital budget issues, and other key budget issues at this time.

BUDGET ADJUSTMENTS

In total, the FY 2007 operating budget has decreased by \$206.1 million from the original FY 2007 appropriation for the agency. Please see Attachment A for a detailed accounting of these adjustments.

BUDGET VARIANCES

We are projecting a total FY 2007 agency surplus of \$65.3 million of which \$20.5 million is state general revenue. The additional positive variance of \$37.2 million will be federal funds associated with the general revenue surpluses above for which no cash will be available. Of the projected surplus, \$44.8 million is related to our client services strategies where caseloads or costs are projected to be less than what was appropriated/budgeted for various strategies.

COMMISSIONER
Adelaide Horn

September 11, 2007

John O'Brien, Director
Legislative Budget Board
P.O. Box 12666
Austin, TX 78711-2666

Dear Mr. O'Brien:

Enclosed is the agency's FY 2007 Monthly Financial Report as of June 2007.

The following is a narrative summary of budget adjustments during the month, budget variances, significant changes from the previous report, capital budget issues, and other key budget issues at this time.

BUDGET ADJUSTMENTS

In total, the FY 2007 operating budget has decreased by \$206.1 million from the original FY 2007 appropriation for the agency. Please see Attachment A for a detailed accounting of these adjustments.

BUDGET VARIANCES

We are projecting a total FY 2007 agency surplus of \$52.6 million of which \$15.4 million is state general revenue. The additional positive variance of \$37.2 million will be federal funds associated with the general revenue surpluses above for which no cash will be available. Of the projected surplus, \$49.6 million is related to our client services strategies where caseloads or costs are projected to be less than what was appropriated/budgeted for various strategies.

The following is an explanation of notable variances (greater than \$1.0 million) by strategy:

- A.1.2 Long-Term Care Functional Eligibility – this strategy is projected to have a \$9.0 million positive variance of which \$3.6 million is state funds. This variance is primarily due to an average of 85.1 vacancies for the year as well as lower overhead expenditures that anticipated.
- A.2.2 Community Attendant Services – this strategy is projected to have a \$4.0 million positive variance of which \$1.6 million is state funds. This variance is due to a projected decrease in the number of persons served and in the costs associated with this program as compared to the current operating budget.
- A.2.3 Day Activity and Health Services – this strategy is projected to have a \$1.8 million positive variance of which \$0.7 million is state funds. This variance is due to a projected increase in the number of persons served offset with a decrease in the costs associated with this program as compared to the current operating budget.
- A.3.1 Community Based Alternatives – this strategy is projected to have a \$2.6 million negative variance of which \$1.0 million is state funds. This variance is due to a projected increase in the number of persons served and an increase in the costs associated with this program as compared to the current operating budget.
- A.3.2 Home and community-based Services-- this strategy is projected to have a \$1.2 million positive variance of which \$0.9 million is state funds. This variance is due to a projected increase in the number of persons served which is partially offset by a decrease in the costs associated with this program as compared to the current operating budget
- A.3.3 Community Living Assistance and Support Services – this strategy is projected to have a \$9.0 million positive variance of which \$3.5 million is state funds. This variance is due to a projected decrease in the number of persons served and a decrease in the costs associated with this program as compared to the current operating budget.
- A.3.5 Medically Dependent Children Program – this strategy is projected to have a \$10.1 million positive variance of which \$3.9 million is state funds. This variance is due to a projected decrease in the number of persons served and a decrease in the costs associated with this program as compared to the current operating budget.
- A.5.1 PACE – this strategy is projected to have a \$1.6 million positive variance of which \$0.6 million is state funds. This variance is due to a decrease in the number of persons served which is partially offset by an increase in the costs associated with this program as compared to the current operating budget.
- A.6.4 Promoting Independence Services – this strategy is projected to have a \$4.1 million positive variance of which \$1.6 million is state funds. This variance is due to a projected decrease in the persons served as compared to the current operating budget, which is partially offset by an increase in the costs.

- A.7.1 Intermediate Care Facilities—Mental Retardation – this strategy is projected to have a \$14.1 million positive variance of which \$6.1 million is state funds. This variance is primarily due to a decrease in the number of persons served and a decrease in the costs associated with this program as compared to the current operating budget.
- A.9.1 Capital Repairs and Renovations – this strategy is projected to have a \$7.4 million positive variance in bond funding. This bond funding lapse was anticipated and has been re-appropriated in FY 2008.
- B.1.1 Long-Term Care Facility Regulation – this strategy is projected to have a \$1.6 million positive variance of which 1.2 million is state funds. This variance is primarily due to an average of 55.5 vacancies during the year.
- C.1.1 Central Administration – this strategy is projected to have a \$2.3 million positive variance with a small negative state dollar variance. This lapse is primarily due to vacancies during the year and increased billings from HHSC for consolidation/oversight. However, increased demands on state funds as a result of capped titles resulted in the small deficit in state funds.
- C.1.2 IT Program Support – this strategy is projected to have a \$5.6 million negative variance of which \$3.1 million is state funds. This negative variance is the result of increased billings from HHSC for consolidation/oversight and expenditures for Tiles to Rugs. The portion of the variance for Tiles to Rugs will be covered by a carry forward from FY 06.
- C.1.3 Other Support Services – this strategy is projected to have a \$3.7 million positive variance of which \$0.1 is state funds. This variance is primarily the result of the print shop transfer to DSHS and represents lapsing Interagency Contract budget.

SIGNIFICANT CHANGES FROM PREVIOUS REPORT*

This Budgeted Amount shown for this report is unchanged from the previous month's report. See Attachment A for an itemization of all budget adjustments for the fiscal year.

OTHER KEY BUDGET ISSUES

Due to the implementation of the 11.75% nursing facility rate increase and the increase in the personal needs allowance from \$45 to \$60; the Agency would be in a deficit situation for FY 2007. A carry forward of \$28.0 million state funds from FY 2006 and an anticipated transfer of \$115.0 million from HHSC will address our agency's projected FY 2007 shortfall.

This report reflects the passage of HB 15 in the 80th Legislature which funded the August deferral. A transfer of \$103.4 million state funds from HHSC and previously identified agency lapses have been used to cover these projected costs.

The State School ICF/MR interim rate changed effective September 1, 2006 for FY 2007 from the August 2006 rate of \$331.89 to \$341.66. The determination of this rate by HHSC Rate Analysis staff was based on the FY 2004 State School ICF/MR Cost Reports plus projected increases including inflation, the impact of the Legislatively mandated 3% across-the-board employee pay raise, and the increase in Quality Assurance Fee Assessment related to the 3% salary increase revenue.

CAPITAL BUDGET ISSUES

The Agency has received approval from the Texas Public Finance Authority as well as the Texas Bond Review Board for financing related to the Master Lease and Bond projects shown in our Capital Budget Rider for the biennium. These projects are Repairs or Rehabilitation of Buildings and Facilities, Acquisition of Information Resource Technologies, Transportation Items and Acquisition of Capital Equipment and Items. The Agency started these projects during the month of December 2005 and the procurement of these items is proceeding.

Please feel free to contact me at 438-3355 if you have any questions or require additional information.

Sincerely,

Gordon Taylor
Chief Financial Officer

- Programs showing zero "slots filled" have not yet filled to their "baseline" capacity. Although staff are diligently working interest list cases, we have not yet seen a significant increase in enrollments in these programs. As of the end of July 2006, DADS had released 35,958 names from the CBA interest list, 3,083 names from the CLASS interest list, 7,796 names from the MDCP list, and 34 names from the DBMD list.
- For CBA, information from regional staff has indicated that the Estate Recovery policy is resulting in a higher than expected rate of "voluntary withdrawals". As a result, a lower proportion of persons taken off the CBA interest list are being enrolled.
