

COMMISSIONER
Adelaide Horn

February 1, 2008

John O'Brien, Director
Legislative Budget Board
P.O. Box 12666
Austin, TX 78711-2666

Dear Mr. O'Brien:

Enclosed is the agency's FY 2008 Monthly Financial Report as of December 31, 2007.

The following is a narrative summary of budget adjustments processed during the month; budget variances; explanations for significant changes from the previous report; capital budget issues, and other key budget issues at this time.

BUDGET ADJUSTMENTS

In total, the FY 2008 operating budget has increased by \$107.1 million from the original FY 2008 appropriation for the agency. Of this increase, \$82.0 million was for Nursing Home, ICF/MR, and Community Care rate increases included in Article IX of HB 1 and HB 15, while \$15.6 million was added for payroll-related items (two-percent pay raise and Benefit Replacement Pay). Please see Attachment A for a detailed accounting of these adjustments.

BUDGET VARIANCES

As of December 31, 2007, the Agency is projecting a total FY2008 surplus of \$11.2 million of which \$3.6 million is state general revenue. The remaining positive variances of \$7.6 million are federal funds associated with the general revenue lapse listed above for which cash is available. The surplus can be attributed to client services strategies in which caseloads or costs are projected to be lower than what was appropriated/budgeted for various strategies.

The Agency's operating budget reflects the appropriated budget plus Rider adjustments. In addition, the waiver strategies consist of transfers related to Goal D Waiting List and transfers between waiver strategies to compensate for projected caseload realignments and cost adjustments.

Projected expenditures for Medicaid entitlement client services are based upon caseload forecasts prepared by HHSC in January 2008, based upon payment data through November 2007.

The following is an explanation of notable variances (greater than \$1.0 million) by strategy:

- A.2.1 Primary Home Care – this strategy is projected to have a \$21.4 million positive variance of which \$8.6 million is state funds. This variance is due to a projected decrease in the number of persons served and a decrease in the costs associated with this program as compared to the current appropriated budget.
- A.2.3 Day Activity and Health Services – this strategy is projected to have a \$3.5 million negative variance of which \$1.4 million is state funds. This variance is due to a projected increase in the number of persons and an increase in the costs associated with this program as compared to the current appropriated budget.
- A.3.1 Community Based Alternatives – this strategy is projected to have a \$7.5 million positive variance of which \$3.1 million is state funds. This variance is due to a projected decrease in the number of persons served in this program as compared to the current operating budget.
- A.3.2 Home and Community-based Services-- this strategy is projected to have a \$2.4 million negative variance of which \$0.8 million is state funds. This variance is due to a projected increase in the number of persons served and an increase in the costs associated with this program as compared to the current operating budget.
- A.3.3 Community Living Assistance and Support Services – this strategy is projected to have a \$4.0 million negative variance of which \$1.5 million is state funds. This variance is due to a projected increase in the number of persons served and an increase in the costs associated with this program as compared to the current operating budget.
- A.3.5 Medically Dependent Children Program – this strategy is projected to have an \$8.4 million positive variance of which \$3.3 million is state funds. This variance is due to a projected decrease in the number of persons served and a decrease in the costs associated with this program as compared to the current operating budget.
- A.3.7 Texas Home Living Waiver – this strategy is projected to have a \$1.2 million negative variance of which \$0.5 million is state funds. This variance is due to a projected increase in the costs associated with this program which is partially offset by a projected decrease in the number of persons served as compared to the current operating budget.
- A.5.1 PACE – this strategy is projected to have a \$4.7 million negative variance of which \$1.8 million is state funds. This variance is due to a projected increase in the number of persons served and an increase in the costs associated with this program as compared to the current operating budget.
- A.6.1 Nursing Facility Payments – this strategy is projected to have a \$1.1 million negative variance of which \$.2 million is state funds. This variance is due to a projected increase in the number of persons served which is partially offset by a projected decrease in the costs associated with this program as compared to the current appropriated budget.

- A.6.2 Medicare Skilled Nursing Facility – this strategy is projected to have a \$5.2 million negative variance of which \$2.0 million is state funds. This variance is due to a projected increase in the number of persons served and an increase in the costs associated with this program as compared to the current operating budget.
- A.6.3 Hospice – this strategy is projected to have a \$6.6 million negative variance of which \$2.5 million is state funds. This variance is due to a projected increase in the number of persons served and an increase in the costs associated with this program as compared to the current operating budget.
- A.6.4 Promoting Independence Services – this strategy is projected to have a \$3.8 million positive variance of which \$0.7 million is state funds. This variance is due to a projected decrease in the number of persons served and a decrease in the costs associated with this program as compared to the current operating budget.
- A.7.1 Intermediate Care Facilities—Mental Retardation – this strategy is projected to have a \$1.9 million negative variance of which \$0.4 million is state funds. This variance is due to a projected increase in the number of persons served and an increase in the costs associated with this program as compared to the current operating budget.

SIGNIFICANT CHANGES FROM PREVIOUS REPORT

A significant variance was experienced in the projected total expenditures for Nursing Facilities from the prior month's submission. The deviation can be attributed to caseloads and projected cost per client for Nursing Facilities being updated based on actual data experienced through November 2007.

OTHER KEY BUDGET ISSUES

The FY 2008 State School ICF/MR interim rate is currently being calculated. The FY 2008 rate will be higher than the FY 2007 rate due to increased staffing levels (1,690 state school staff by the end of FY 2008). Until this rate is calculated, the FY 2007 rate will continue to be used.

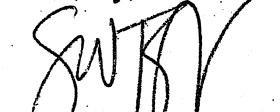

The Agency was authorized about 2,000 additional staff for State Schools; Long-Term Care Services support workers and related staff; and Long-Term Care Regulatory functions. Therefore, the number of filled positions will increase from approximately 14,000 during the fiscal year.

CAPITAL BUDGET ISSUES

The Agency was appropriated \$7.4 million in lapsing FY 2006-07 bond funding for continuing the projects approved by the Texas Public Finance Authority and the Texas Bond Review Board for financing related to the Bond projects shown in our FY 2006-07 Capital Budget Rider. The Agency started these state school repair and/or renovation projects during the month of December 2005 and the procurement of these items is proceeding. On November 6th, 2007, in conjunction with the passage of a constitutional amendment, the Agency received an additional \$39.8 million in bond funding for Repairs and Renovation of State Schools. These projects have received approval from the Legislative Budget Board and the Texas Public Finance Authority and are now awaiting approval from the Texas Bond Review Board before bonds may be issued. Upon approval, budgets and projections will be updated to include these bond projects.

Please feel free to contact me at 438-3355 if you have any questions or require additional information.

Sincerely,

Gordon Taylor
Chief Financial Officer
