

COMMISSIONER  
Adelaide Horn

August 1, 2008

John O'Brien, Director  
Legislative Budget Board  
P.O. Box 12666  
Austin, TX 78711-2666

Dear Mr. O'Brien:

Enclosed is the agency's FY 2008 Monthly Financial Report as of June 30, 2008.

The following is a narrative summary of budget adjustments processed during the month; budget variances; explanations for significant changes from the previous report; capital budget issues, and other key budget issues at this time.

#### BUDGET ADJUSTMENTS

In total, the FY 2008 operating budget has increased by \$134.2 million from the original FY 2008 appropriation for the agency. Of this increase, \$82.0 million was for Nursing Home, ICF/MR, and Community Care rate increases included in Article IX of HB 1 and HB 15, while \$15.6 million was added for payroll-related items (two-percent pay raise and Benefit Replacement Pay). Furthermore, an additional \$39.8 million in bond funding for the purpose of Capital Repairs and Renovations received approval from the Legislative Budget Board, the Texas Public Finance Authority, and the Texas Bond Review Board. Please see Attachment A for a detailed accounting of these adjustments.

#### BUDGET VARIANCES

As June 30, 2008, the Agency is projecting a total FY 2008 surplus of \$70.5 million. Of this surplus, \$38.8 million can be attributed to the additional bond funding for Repairs and Renovations of State Schools which was recently approved by the Legislative Budget Board, Texas Public Finance Authority, and the Texas Bond Review Board. The remaining positive variances of \$31.7 million, of which \$15.5 million is state general revenue, is a result of client service strategies in which caseloads or costs are projected to be lower than what was appropriated/budgeted. The General Revenue balances will be brought forward into FY 2009, in order to address the anticipated shortfalls within that fiscal year.

The Agency's operating budget reflects the appropriated budget plus Rider adjustments. In addition, the waiver strategies consist of transfers related to Goal D Waiting List and transfers between waiver strategies to compensate for projected caseload realignments and cost adjustments.

Projected expenditures for Medicaid entitlement client services are based upon caseload forecasts prepared by HHSC in July 2008, based upon payment data through May 2008.

The following is an explanation of notable variances (greater than \$1.0 million) by strategy:

- **A.1.1     Intake, Access, & Eligibility** – this strategy is projected to have a \$4.5 million positive variance of which \$2.5 million is state funds. This variance is due to cost associated with the hiring of new employees being lower than initially anticipated.
- **A.2.1     Primary Home Care** – this strategy is projected to have a \$14.8 million positive variance of which \$6.0 million is state funds. This variance is due to a projected decrease in the number of persons served and a decrease in the costs associated with this program as compared to the current appropriated budget.
- **A.2.2     Community Attendant Services (Formerly Frail Elderly)** – this strategy is projected to have a \$6.2 million positive variance of which \$2.5 million is state funds. This variance is due to a projected decrease in the number of persons served and a decrease in the costs associated with this program as compared to the current appropriated budget.
- **A.2.3     Day Activity and Health Services** – this strategy is projected to have a \$4.1 million negative variance of which \$1.6 million is state funds. This variance is due to a projected increase in the number of persons and an increase in the costs associated with this program as compared to the current appropriated budget.
- **A.3.1     Community Based Alternatives** – this strategy is projected to have a \$4.2 million positive variance of which \$1.8 million is state funds. This variance is due to a projected decrease in the number of persons served in this program, which is partially offset by an increase in the cost associated with this program as compared to the current operating budget.
- **A.3.2     Home and Community-based Services** – this strategy is projected to have a \$14.5 million negative variance of which \$5.9 million is state funds. This variance is due to a projected increase in the number of persons served and a projected increase in the cost associated with this program as compared to the current operating budget.
- **A.3.3     Community Living Assistance and Support Services** – this strategy is projected to have a \$6.9 million negative variance of which \$2.7 million is state funds. This variance is due to a projected increase in the number of persons and an increase in the costs associated with this program as compared to the current appropriated budget.
- **A.3.4     Deaf-Blind Multiple Disabilities** – this strategy is projected to have a \$1.2 million positive variance of which \$.5 million is state funds. This variance is due to a projected decrease in the number of persons served and a decrease in the costs associated with this program as compared to the current operating budget.
- **A.3.5     Medically Dependent Children Program** – this strategy is projected to have a \$4.1 million positive variance of which \$1.6 million is state funds. This variance is due to a projected decrease in the cost associated with this program, which is partially offset by a

projected increase in the number of persons served as compared to the current operating budget.

- **A.4.1 Non-Medicaid Services** – this strategy is projected to have a \$4.4 million positive variance of which \$4.4 million is state funds. This variance is due to a projected decrease in the number of persons served and a decrease in the costs associated with this program as compared to the current operating budget.
- **A.4.2 MR Community Services** – this strategy is projected to have a \$1.0 million positive variance of which \$1.0 million is state funds. This variance is due to a projected decrease in the number of persons served and a decrease in the costs associated with this program as compared to the current operating budget.
- **A.6.1 Nursing Facility Payments** – the Strategy is projected to have a \$5.8 million positive variance of which \$2.6 million is state funds. This variance is due to a projected decrease in the number of persons served and a decrease in the costs associated with this program as compared to the current appropriated budget.
- **A.6.2 Medicare Skilled Nursing Facility** – this strategy is projected to have a \$2.4 million negative variance of which \$0.9 million is state funds. This variance is due to a projected increase in the number of persons served and a projected increase in the costs associated with this program as compared to the current operating budget.
- **A.6.3 Hospice** – this strategy is projected to have a \$2.7 million positive variance of which \$1.1 million is state funds. This variance is due to a projected decrease in the number of persons served and a decrease in the costs associated with this program as compared to the current operating budget.
- **A.7.1 Intermediate Care Facilities - Mental Retardation** – this strategy is projected to have a \$7.2 million positive variance of which \$3.1 million is state funds. This variance is due to a projected decrease in the number of persons served and a decrease in the costs associated with this program as compared to the current operating budget.
- **A.9.1 Capital Repairs & Renovations** – this strategy is projected to have a \$38.8 million positive variance as a result the approval of additional \$39.8 million in bond funding for Repairs and Renovation of State Schools. These projects have received approval from the Legislative Budget Board and the Texas Public Finance Authority. The Texas Bond Review Board approved the issuance of these bonds in March 2008.

#### SIGNIFICANT CHANGES FROM PREVIOUS REPORT

In regards to Nursing Facilities and Hospice, the annual projections are slightly lower than the previous month's report as a result of updated payment data/completion factors. For Nursing Facilities the actual average census through June 2008 is slightly less than previously estimated. As for Hospice, the average cost per client is running slightly lower than previously estimated.

## OTHER KEY BUDGET ISSUES

The FY 2008 Interim State School ICF/MR rate is \$381.26 for non-dually eligible clients (Medicaid-only) and \$365.09 for dually eligible clients (Medicaid and Medicare). The FY 2008 rate is higher than the FY 2007 rate due to increased staffing levels (1,690 state school staff by the end of FY 2008).

The Agency was authorized about 2,000 additional staff for State Schools; Long-Term Care Services support workers and related staff; and Long-Term Care Regulatory functions. Therefore, the number of filled positions will increase from approximately 14,000 during the fiscal year.

## CAPITAL BUDGET ISSUES

The Agency was appropriated \$7.4 million in lapsing FY 2006-07 bond funding for continuing the projects approved by the Texas Public Finance Authority and the Texas Bond Review Board for financing related to the Bond projects shown in our FY 2006-07 Capital Budget Rider. The Agency started these state school repair and/or renovation projects during the month of December 2005 and the procurement of these items is proceeding. On November 6<sup>th</sup>, 2007, in conjunction with the passage of a constitutional amendment, the Agency received an additional \$39.8 million in bond funding for Repairs and Renovation of State Schools. These projects have received approval from the Legislative Budget Board and the Texas Public Finance Authority. The Texas Bond Review Board approved the issuance of these bonds in March 2008.

Please feel free to contact me at 438-3355 if you have any questions or require additional information.

Sincerely,

Gordon Taylor  
Chief Financial Officer
