TEXAS INDUSTRY PROFILE

Oil and Gas Extraction NAICS 211

Industry Description

Industries in the Oil and Gas Extraction subsector operate and/or develop oil and gas field properties. Such activities may include exploration for crude petroleum and natural gas; drilling, completing, and equipping wells; operating separators, emulsion breakers, desilting equipment, and field gathering lines for crude petroleum; and all other activities in the preparation of oil and gas up to the point of shipment from the producing property. This subsector includes the production of crude petroleum, the mining and extraction of oil from oil shale and oil sands, and the production of natural gas and recovery of hydrocarbon liquids. * NAICS 211(Oil and Gas Extraction), 212 (Mining Except Oil and Gas), 213 (Support Activities for Mining).

Support Activities for Mining NAICS 213

Industry Description

Industries in the Support Activities for Mining subsector group establishments primarily providing support services, on a fee or contract basis, required for the mining and quarrying of minerals and for the extraction of oil and gas. Establishments performing exploration (except geophysical surveying and mapping) for minerals, on a contract or fee basis, are included in this subsector. Exploration includes traditional prospecting methods, such as taking core samples and making geological observations at prospective sites.* NAICS 211(Oil and Gas Extraction), 212 (Mining Except Oil and Gas), 213 (Support Activities for Mining).

TEXAS INDUSTRY PROFILE

Food Manufacturing

NAICS 311

Industry Description

Industries in the Food Manufacturing subsector transform livestock and agricultural products into products for intermediate or final consumption. The industry groups are distinguished by the raw materials (generally of animal or vegetable origin) processed into food products. The food products manufactured in these establishments are typically sold to wholesalers or retailers for distribution to consumers, but establishments primarily engaged in retailing bakery and candy products made on the premises not for immediate consumption are included. *NAICS 3111 (Animal Food Mfg) 3112 (Grain and Oilseed Milling) 3113 (Sugar and Confectionary Product Mfg) 3114 (Fruit and Vegetable Preserving and Specialty Food Mfg) 3115 (Dairy Product Mfg) 3116 (Animal Slaughtering and Processing) 3117 (Seafood Product Preparation and Packaging) 3118 (Bakeries and Tortilla Mfg) 3119 (Other Food Mfg).

TEXAS INDUSTRY PROFILE

Beverage and Tobacco Product Manufacturing

NAICS 312

Industry Description

Industries in the Beverage and Tobacco Product Manufacturing subsector manufacture beverages and tobacco products. The industry group, Beverage Manufacturing, includes three types of establishments: (1) those that manufacture nonalcoholic beverages; (2) those that manufacture alcoholic beverages through the fermentation process; and (3) those that produce distilled alcoholic beverages. Ice manufacturing, while not a beverage, is included with nonalcoholic beverage manufacturing because it uses the same production process as water purification. *NAICS 3121 (Beverage Mfg) and 3122 (Tobacco Mfg).

Apparel Manufacturing

NAICS 315

Industry Description

Industries in the Apparel Manufacturing subsector group establishments with two distinct manufacturing processes: (1) cut and sew (i.e., purchasing fabric and cutting and sewing to make a garment) and (2) the manufacture of garments in establishments that first knit fabric and then cut and sew the fabric into a garment. The Apparel Manufacturing subsector includes a diverse range of establishments manufacturing full lines of ready-to-wear apparel and custom apparel: apparel contractors, performing cutting or sewing operations on materials owned by others; jobbers performing entrepreneurial functions involved in apparel manufacture; and tailors, manufacturing custom garments for individual clients are all included.

Paper Manufacturing

NAICS 322

Industry Description

Industries in the Paper Manufacturing subsector make pulp, paper, or converted paper products. The manufacturing of these products is grouped together because they constitute a series of vertically connected processes. More than one is often carried out in a single establishment. There are essentially three activities. The manufacturing of pulp involves separating the cellulose fibers from other impurities in wood or used paper. The manufacturing of paper involves matting these fibers into a sheet. Converted paper products are made from paper and other materials by various cutting and shaping techniques and includes coating and laminating activities. *NAICS 3221 (Pulp, Paper, and Paperboard Mills) and 3222 (Converted Paper Product Mfg).

Plastics and Rubber Manufacturing

NAICS 326

Industry Description

Industries in the Plastics and Rubber Products Manufacturing subsector make goods by processing plastics materials and raw rubber. The core technology employed by establishments in this subsector is that of plastics or rubber product production. Plastics and rubber are combined in the same subsector because plastics are increasingly being used as a substitute for rubber; however the subsector is generally restricted to the production of products made of just one material, either solely plastics or rubber. Many manufacturing activities use plastics or rubber, for example the manufacturing of footwear, or furniture. *NAICS 3261 (Plastics Product Mfg) 3262 (Rubber Product Mfg).

Nonmetallic Mineral Product Manufacturing NAICS 327

Industry Description

The Nonmetallic Mineral Product Manufacturing subsector transforms mined or quarried nonmetallic minerals, such as sand, gravel, stone, clay, and refractory materials, into products for intermediate or final consumption. Processes used include grinding, mixing, cutting, shaping, and honing. Heat often is used in the process and chemicals are frequently mixed to change the composition, purity, and chemical properties for the intended product. Refractory materials are heated and then formed into bricks or other shapes for use in industrial applications. *NAICS 3271 (Clay Product and Refractory Mfg) 3272 (Glass and Glass Product Mfg) 3273 (Cement and Concrete Product Mfg) 3274 (Lime and Gypsum Product Mfg) 3279 (Other Nonmetallic Mineral Product Mfg).

Machinery Manufacturing

NAICS 333

Industry Description

Industries in the Machinery Manufacturing subsector create end products that apply mechanical force to perform work. Some important processes for the manufacture of machinery are forging, stamping, bending, forming, and machining that are used to shape individual pieces of metal. Processes, such as welding and assembling are used to join separate parts together. Although these processes are similar to those used in metal fabricating establishments, machinery manufacturing is different because it typically employs multiple metal forming processes in manufacturing the various parts of the machine. Moreover, complex assembly operations are an inherent part of the production process. *NAICS 3331 (Agriculture, Construction and Mining Machinery Mfg) 3332 (Industrial Machinery Mfg) 3333 (Commercial and Service Industry Machinery Mfg) 3334 (Ventilation, Heating, Air-Conditioning, and Commercial Refrigeration Equipment Mfg) 3335 (Metal working Machinery Mfg) 3336 (Engine, Turbine, and Power Transmission Equipment Mfg) 3339 (Other General Purpose Machinery Mfg).

Furniture and Related Product Manufacturing NAICS 337

Industry Description

Industries in the Furniture and Related Product Manufacturing subsector make furniture and related articles, such as mattresses, window blinds, cabinets, and fixtures. The processes used in the manufacture of furniture include the cutting, bending, molding, laminating, and assembly of such materials as wood, metal, glass, plastics, and rattan. However, the production process for furniture is not solely bending metal, cutting and shaping wood, or extruding and molding plastics. Design and fashion trends play an important part in the production of furniture. The integrated design of the article for both esthetic and functional qualities is also a major part of the process of manufacturing furniture. Design services may be performed by the furniture establishment's work force or may be purchased from industrial designers. *NAICS 3371 (Household and Institutional Furniture and Kitchen Cabinet Mfg) 3372 (Office Furniture (including fixtures) Mfg.) 3379 (Other Furniture Related Product Mfg).

Motor Vehicle and Parts Dealers

NAICS 441

Industry Description

Industries in the Motor Vehicle and Parts Dealers subsector retail motor vehicle and parts merchandise from fixed point-of-sale locations. Establishments in this subsector typically operate from a showroom and/or an open lot where the vehicles are on display. The display of vehicles and the related parts require little by way of display equipment. The personnel generally include both the sales and sales support staff familiar with the requirements for registering and financing a vehicle as well as a staff of parts experts and mechanics trained to provide repair and maintenance services for the vehicles. Specific industries have been included in this subsector to identify the type of vehicle being retailed. *NAICS 4411(Automobile Dealers) 4412 (Other Motor Vehicle Dealers) 4413 (Automotive Parts, Accessories, and Tire Stores).

Air Transportation NAICS 481

Industry Description

Industries in the Air Transportation subsector provide air transportation of passengers and/or cargo using aircraft, such as airplanes and helicopters. The subsector distinguishes scheduled from nonscheduled air transportation. Scheduled air carriers fly regular routes on regular schedules and operate even if flights are only partially full. Nonscheduled carriers often operate during nonpeak time slots at busy airports. These establishments have more flexibility with respect to choice of airport, hours of operation, and load factors. Nonscheduled carriers provide chartered air transportation of passengers, cargo, or specialty flying services. Specialty flying services establishments use general purpose aircraft to provide a variety of specialized flying services. *NAICS 4811 (Scheduled Air Transportation) 4812 (Non-scheduled Air Transportation).

TEXAS INDUSTRY PROFILE

Pipeline Transportation NAICS 486

Industry Description

Industries in the Pipeline Transportation subsector use transmission pipelines to transport products, such as crude oil, natural gas, refined petroleum products, and slurry. Industries are identified based on the products transported (i.e., pipeline transportation of crude oil, natural gas, refined petroleum products, and other products). The Pipeline Transportation of Natural Gas industry includes the storage of natural gas because the storage is usually done by the pipeline establishment and because a pipeline is inherently a network in which all the nodes are interdependent. * NAICS 4861 (Pipeline Transportation of Crude Oil) 4862 Pipeline Transportation of Natural Gas) 4869 (Other Pipeline Transportation).

TEXAS INDUSTRY PROFILE

Couriers and Messengers NAICS 492

Industry Description

Industries in the Couriers and Messengers subsector provide inter-city and/or local delivery of parcels. These articles can be described as those that may be handled by one person without using special equipment. This allows the collection, pick-up, and delivery operations to be done with limited labor costs and minimal equipment. The restriction to small parcels partly distinguishes these establishments from those in the transportation industries. The complete network of courier services establishments also distinguishes these transportation services from local messenger and delivery establishments in this subsector. This includes the establishments that perform inter-city transportation as well as establishments that perform local pick-up and delivery. * NAICS 4921 (Couriers) 4922 (Local Messengers and Local Delivery).

Administrative and Support Services NAICS 561

Industry Description

Industries in the Administrative and Support Services subsector group establishments engaged in activities that support the day-to-day operations of other organizations. The processes employed in this sector (e.g., general management, personnel administration, clerical activities, cleaning activities) are often integral parts of the activities of establishments found in all sectors of the economy. The establishments classified in this subsector have specialized in one or more of these activities and can, therefore, provide services to clients in a variety of industries and, in some cases, to households. * NAICS 5611 (Office Administrative Services) 5612 (Facilities Support Services) 5613 (Employment Services) 5614 (Business Support Services) 5615 (Travel Arrangement and Reservation Services) 5616 (Investigation and Security Services) 5617 (Services to Buildings and Dwellings) 5619 (Other Support Services).
