

## Curb-side Recycling Suspended

Effective July 1, 2009 the City of Nacogdoches will no longer collect co-mingled recyclables from resident's curbside. It is unfortunate a slow recycling market leaves the City with few options to dispose of recyclables. The sale of blue recycling bags will also be discontinued.

Residents may still recycle separated cardboard and paper by bringing the material to the City Sanitary Landfill at 4602 Northwest Stallings Drive where an easy drop-site will be accessible to off load cardboard and paper. The cardboard and paper must be separated. The landfill gate attendant will be available to answer questions. The recyclable drop-site will be open Monday through Saturday 8:00AM to 5:00PM.

The City of Nacogdoches encourages all who wish to continue recycling aluminum cans to take them to the Animal Shelter, who will use the proceeds to assist in animal care. Local metal recyclers will also take aluminum and other metals.

The City of Nacogdoches and Keep Nacogdoches Beautiful are committed to developing other effective and efficient alternatives for recycling and source reduction.
