**Rows with yellow highlights contain updated information regarding allocations.**

All forms of the word "allocate" are used generically to refer to either parceling or award of funds. "Unknown" indicates a possibility of funds availability but amounts have not been determined or could not be confirmed. "Not Yet Allocated" indicates allocation decisions are pending and/or an award release date has not been projected.

Line items from the State Comptroller's spreadsheet were excluded if there was virtually no potential for direct impact on the Region. We have also excluded line items for tax, unemployment, health insurance, business incentives, higher education, and other funding for benefits whose impact on the region, though real, cannot be calculated.

**TOTAL ANTICIPATED IMPACT FOR THE AACOG 12-COUNTY REGION**

**\$913,332,456**
