Managing Wildlife During A Drought

The drought in South Texas has put a strain on the resources that naturally provide for wildlife.

This workshop will explore a variety of topics related to wildlife management during and after a drought. The event is open to all landowners and individuals interested in wildlife and some of the factors affecting wildlife because of the drought.

The workshop includes top notch instructors who are experts in their respective fields.

Wildlife supply exhibitors as well as state and federal agencies will be on hand to provide information and answer questions.

Come join us to learn how to better manage your wildlife and utilize available programs for improving your operation.

Agenda (9:00 a.m.— 3:00 p.m.)

9:00 a.m. Registration

- ◆ Deer Management: A Hands off Approach
- ◆ Wildlife Tax Appraisal
- ◆ Hunting: No the Laws
- ◆ Deer Management Permit Program
- ◆ Deer Nutrition, Drought and Cows
- ◆ Deer Browse Surveys
- ◆ Wildlife Incentive Programs

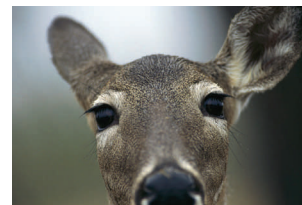

Speakers

- ◆ Dr. Jim Gallagher, Wildlife Specialist, Agrilife Extension, Texas A & M System
- ◆ Garry Stephens, Wildlife Biologist, Natural Resources Conservation Service (NRCS)
- ◆ Matt Reidy, Regulatory Wildlife Biologist, Texas Parks and Wildlife
