Your individual taxes may increase at a greater or lesser rate, or even decrease, depending on the change in the taxable value of your property in relation to the change in taxable value of all other property and the tax rate that is adopted.

The average taxable value of a residence homestead in City of Buda last year was \$152,477. Based on last year's tax rate of \$0.2250 per \$100 of taxable value, the amount of taxes imposed last year on the average home was \$343.07.

The average taxable value of a residence homestead in City of Buda this year is \$151,283. If the governing body adopts the effective tax rate for this year of \$0.2433 per \$100 of taxable value, the amount of taxes imposed this year on the average home would be \$368.07

If the governing body adopts the proposed tax rate of \$0.2250 per \$100 of taxable value, the amount of taxes imposed this year on the average home would be \$340.39.

Members of the public are encouraged to attend the hearings and express their views.
