

## FAMILY FISHING EVENTS

“Free Fishing in State Parks” is more than free fishing. It's also events with cool prizes! Many parks will be hosting fishing events such as fishing derbies for kids, “learn to fish” classes and “Fish with a Ranger.” Prizes, including fishing equipment and other fun outdoor gear, will also be given out at many of these events. For more information about fishing events visit the Web site at

Lake Casa Blanca State Park

## No fishing license needed inside state parks!

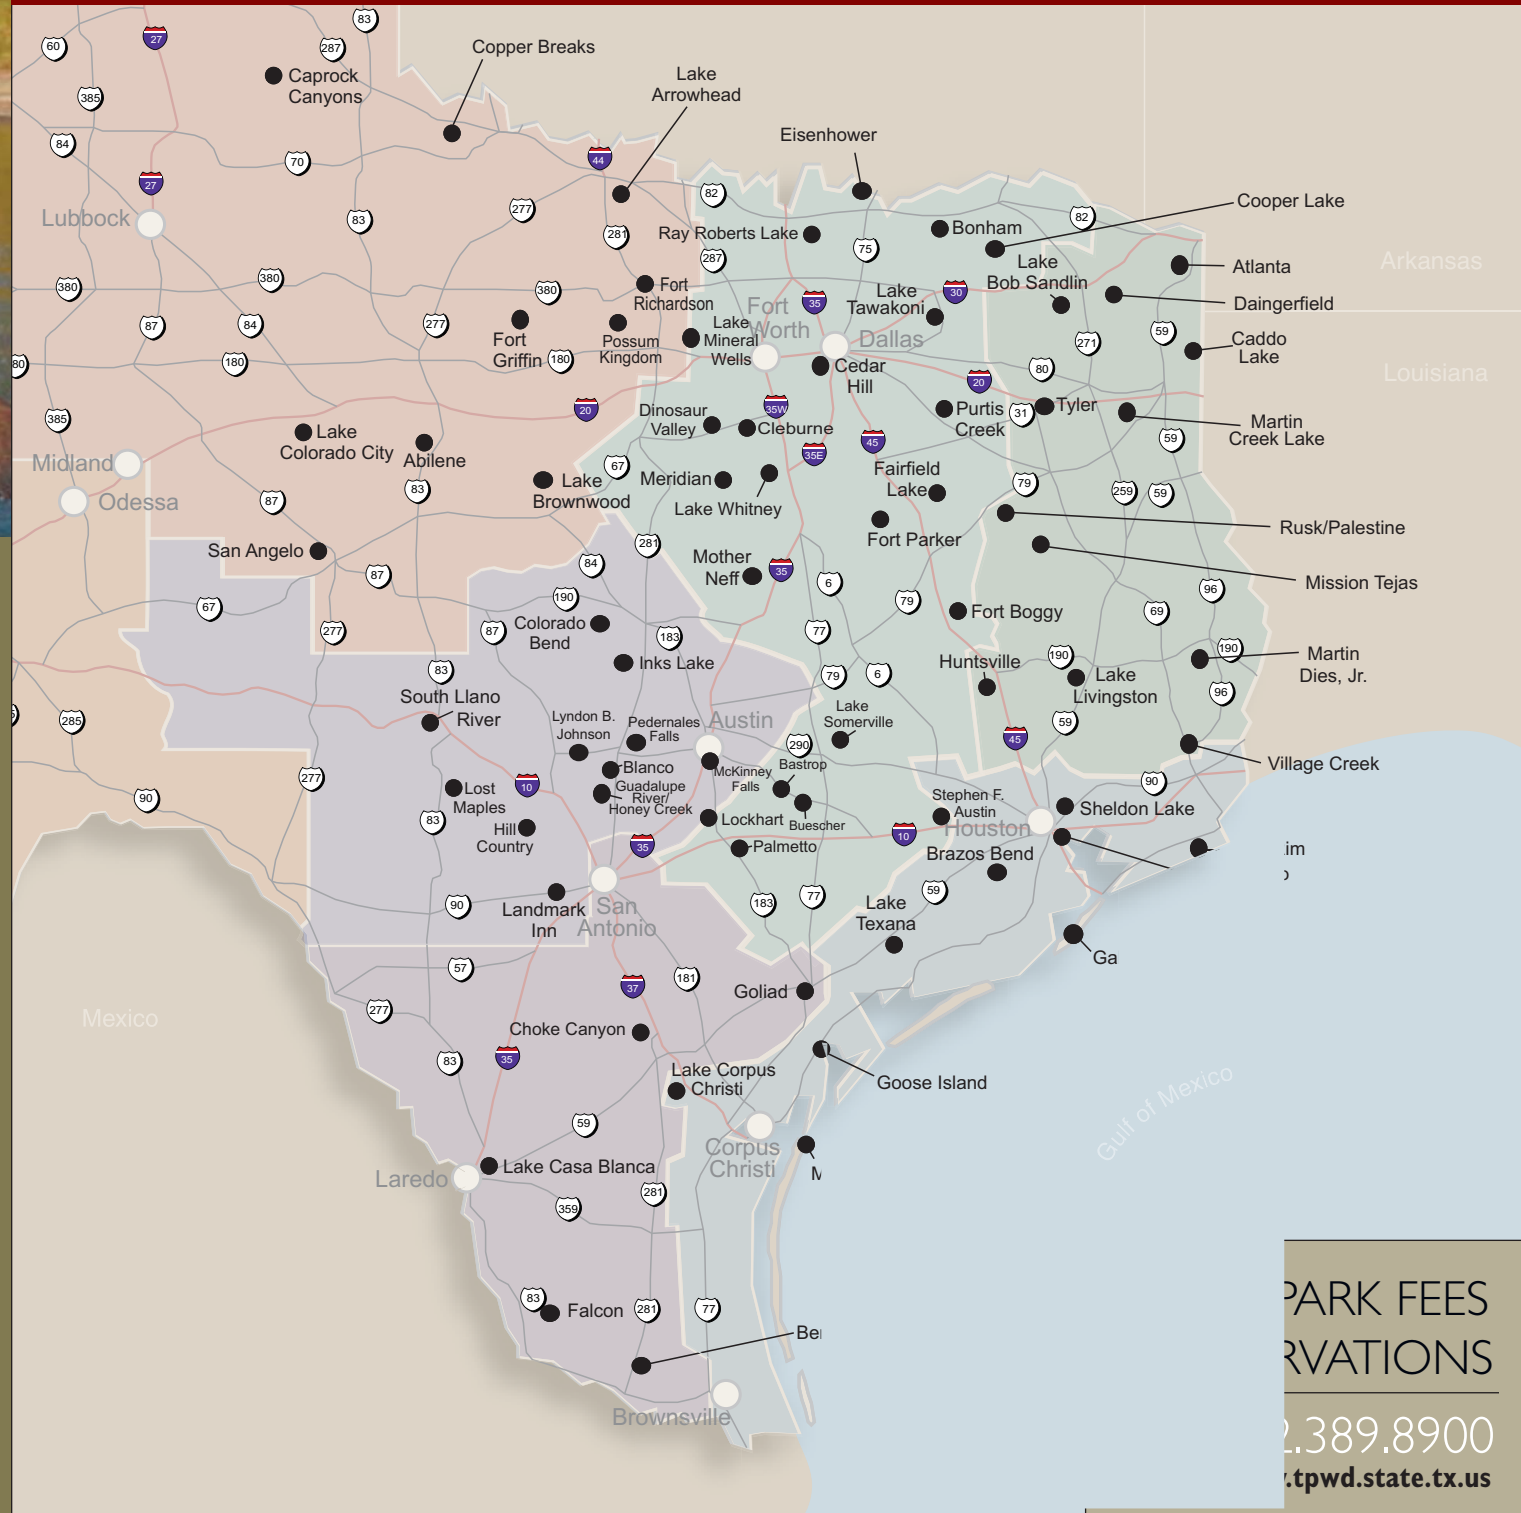

**Free Fishing in State Parks** is designed to encourage more people to get out and enjoy the great sport of fishing. It has long been one of the most popular activities in the U.S., and we encourage families and children to share in the countless memories that can be created out on the water.

To do that, we've waived the normal license and stamp requirements for anyone fishing inside the property boundary of a Texas state park. **Once you've paid the park entrance fees**, no one needs a fishing license or stamp, whether freshwater or saltwater, adult or child, as long as they're inside the state park.\*

This applies to fishing from the bank, a pier, river or creek fishing. When fishing from a boat, the water body must be fully contained within the state park boundary. You can even wade fish in our coastal state parks along park property.

\*All bag limits, length limits and other regulations still apply.
