Big Spring State Park

At Big Spring State Park, visitors love to hike, bike and bird-watch on this 382-acre parcel of rural land. Visitors should be on the lookout for horned lizards and roadrunners along a three-mile scenic drive looping around the park, which sprawls across a high mesa called Scenic Mountain—so named because of the beautiful sunsets and scenic views that it affords. Below the bluff lies the town of Big Spring, named for a large spring that once flowed nearby.
