## DrPH in Health Management & Policy

The doctor of public health degree in health management and policy is designed for health professionals who want to become leaders in health management and policy in the public and private, for-profit and not-for-profit, health sectors. The Department of Health Management and Policy coordinates this concentration. The graduate of this program will understand and apply skills relevant to health policy development and analysis, management practices, and health services research. Two research papers and a dissertation will provide the opportunity to apply the knowledge and skills gained during coursework and a residency practice. The dissertation is expected to analyze and propose solutions to health management or policy problems by applying new theoretical or analytic advances to current problems in health care. Graduates will be able to start or develop their careers in state or federal government health programs, academia, or health care provider organizations. By the conclusion of the Dr.P.H. program, a student in the health management and policy concentration will be able to:

1. Conduct management and policy analysis of health issues using advanced quantitative and qualitative techniques.
2. Synthesize knowledge of the political and legal system and affect changes to health policies and programs within various systems.
3. Plan and evaluate health programs in the public and private sectors.
4. Apply ethical frameworks to the conduct of health care research, practice, policy-making and management.
5. Conduct research focusing on the analysis and solution of management and policy issues in public health practice.

### DrPH Prerequisites (18 SCH)

BIOS	5210	Biostatistics for Public Health I	3 SCH
BIOS	5215	Biostatistics for Public Health II	3 SCH
ENVR	5300	Environmental Health	3 SCH
EPID	5100	Principles of Epidemiology	3 SCH
HMAP	5210	Introduction to Health Management and Policy	3 SCH
SCBS	5110	Behavioral and Social Aspects of Public Health	3 SCH

### Health Management & Policy DrPH Curriculum (65 SCH)

#### CORE COURSES: 22 SCH

BIOS	6100	Applied Statistical Methods for Data Analysis	3 SCH

**CULMINATING EXPERIENCE: 9 SCH**

SPH	6950	Dissertation	9 SCH
-----	------	--------------	-------

## Health Management & Policy Dissertation Committee

Students should select a doctoral committee by the end of their first semester, which should be comprised of a major professor and two other members (refer to the DrPH Academic Procedures section of the catalog for details).

## Health Management & Policy Qualifying Examination

1. Students must complete all coursework before taking exam.
2. The exam will be divided into two 4-hour sessions.
3. Students will take the exam on campus and will not be permitted to discuss their exam with anyone during the exam.
4. The exam will be open book. Students will not have access to the Internet.
5. The exam will cover all courses.
6. An oral exam may be required for remediation. If an oral exam is necessary, it must occur within 2 weeks of notification of exam results.
7. A student who does not pass the oral exam will be given the opportunity to repeat the course pertaining to the part of the exam not mastered. The student will take the exam again the next time it is offered.
