U.S. COAST GUARD ALWAYS READY

OUR VALUE AND ROLE

We are an essential force in Homeland Security, working to prevent and respond to threats and hazards, while securing our borders, ports and waterways.

We protect those on the sea, we protect America from threats delivered by the sea and we protect the sea itself.

The Coast Guard ensures the Safety, Security and Stewardship of America's maritime interests. We are the lead federal agency in the maritime domain for law enforcement, incident response, homeland security and disaster management.

The U.S. Coast Guard is one of the five armed forces of the United States and the only military organization within the Department of Homeland Security. Since 1790 the Coast Guard has safeguarded our Nation's maritime interests and environment around the world. The Coast Guard is an adaptable, responsive military force of maritime professionals whose broad legal authorities, capable assets, geographic diversity and expansive partnerships provide a persistent presence along our rivers, in the ports, littoral regions and on the high seas. Coast Guard presence and impact is local, regional, national and international. These attributes make the Coast Guard a unique instrument of maritime safety, security and environmental stewardship.
