EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2008: In 2008, The Evergreen Conservancy, in conjunction with the Susquehanna River Basin Commission, the Indiana County Conservation District, and the Office of Surface Mining, constructed the Bear Run Phase I passive treatment system to remove dissolved iron from an abandoned underground mine discharge with an average flow of 239 gpm. Construction of this project removes about 33 percent of the iron loading entering Bear Run from multiple discharges. Upper reaches of Bear Run have excellent populations of Brook Trout, and the goal is to re-establish a native Brook Trout population throughout the 19 square mile watershed. Restoration of the severely impacted South Branch of Bear Run is an eight phase project being accomplished through a comprehensive plan. Phase's I and III are completed and Phase II is under construction. Phase I was funded by a \$100,000 grant from Pennsylvania's Growing Greener Program and \$30,000 from OSM's Watershed Cooperative Agreement Program. Fiscal Year 2009: No Current Data Available Fiscal Year 2010: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

Section 404 of Public Law 95-87, State certification of eligibility is required. No opposition to the project from the State Abandoned Mine Land (AML) agency. All applicable Federal and State clearances and permits must be secured. The project should propose to use proven or innovative technology that has a high probability of success and produce tangible results, e.g., fishery restored, stream miles improved, educational and community benefits, pollutants removed from the streams. Funds must be used for the construction phase of a project and there must be demonstrated public support for the project. Also, there must be a plan to address any ongoing operation/maintenance considerations.

15.254 SUMMER WATERSHED INTERN**FEDERAL AGENCY:**

Office of Surface Mining, Department of the Interior

AUTHORIZATION:

Surface Mining Control and Reclamation Act of 1977; Public Law 95-87; 91 Stat. 445-532.

OBJECTIVES:

Over the past ten years, Reclamation Support has created a direct watershed assistance program working with volunteer watershed groups in the Appalachian Coal Country and, more recently, in the Western Hardrock Country. The primary partners are a coalition of change-minded community improvement groups determined to repair the environmental degradation left from historic mining while creating economic stability needed in rural communities, the watershed/neighborhood residents call home. Goals: build local capacity, monitor waterway quality, enhance outreach and education, engage economic redevelopment and require professional development. The program is supported by an innovative partnership among AmeriCorps VISTA, concerned with poverty, and the Office of Surface Mining, concerned with environmental reclamation and safety, and watershed groups.

TYPES OF ASSISTANCE:

DIRECT PAYMENTS FOR A SPECIFIED USE

USES AND USE RESTRICTIONS:

The OSM Summer Watershed Intern Program started in 1999, supporting college students working full-time for 10 weeks with coal country watershed groups. As many as 30 students have spent a summer working directly for watershed groups to conduct water monitoring, enhance outreach initiatives, develop school curricula and build stronger partnerships with agencies and industry.

The Appalachian Coal Country Watershed Team (ACCWT) began in 2002 as an OSM/VISTA initiative, placing determined college-trained OSM/VISTA Volunteers in a year of service in rural coal-mining communities. Reflecting the needs and the determination of the communities served, the ACCWT has placed more than 36 OSM/VISTAs in the field and more waiting to support an OSM/VISTA. New OSM/VISTA recruits are applying in increasing numbers every day.

The Western Hardrock Watershed Team (WHWT) began in Colorado at the invitation of the Colorado Division of Reclamation, Mining and Safety as an OSM/VISTA initiative in 2007, placing determined college-trained OSM/VISTA Volunteers in a year of service in rural mining communities. Over the past year the WHWT expanded from 4 to 18 positions in Colorado. Serious injuries are coming from other states (NM, UT, MT, NV) based on the board successes seen in Colorado, but cannot be filled at present. New OSM/VISTA recruits are also applying in increasing numbers.

Applicant Eligibility:

The OSM Watershed Intern Program recipients are required to be or to be in a position to support public or private non-profit institutions/organizations, established watershed organizations in following States to be eligible to participate: Alabama, Illinois, Indiana, Iowa, Kentucky, Maryland, Missouri, Ohio, Oklahoma, Pennsylvania, Tennessee, Virginia, and West Virginia. Undergraduate and Graduate Students, throughout the United States, interested in helping to clean up the environment are also eligible.

OSM/AmeriCorps VISTA requires qualified watershed groups to be non-profit organizations or be sponsored by a local group such as a Resource Conservation and Development District, a local historical society, or a Soil and Water Conservation Service. The program currently serves the following Appalachia States: Alabama, Kentucky, Maryland, Ohio, Pennsylvania, Tennessee, Virginia and West Virginia.

Beneficiary Eligibility:

Watershed organizations in communities impacted by streams polluted by acid mine drainage will benefit from this program.

AUTHORIZATION:

43 U.S.C. 1345 (e); 43 U.S.C. 1346 Section 20.

OBJECTIVES:

The Minerals Management Service Offshore Minerals Management and Minerals Revenue Management programs provide major economic and energy benefits on a national and local level to the taxpayers, states and the American Indian community. The Offshore Minerals Management program oversees the exploration and development of oil, natural gas and other minerals and renewable energy alternatives on the nations outer continental shelf. MMS continues to look for better ways to serve the American people and to ensure that the nation receives the best value for its resources now and into the future. The program not only supports decisions made within the Department of Interior, but also provides coastal states and local governments with the information necessary to ensure that all stages of offshore energy and mineral activities are conducted in a manner to protect both the human and natural environments. Outer Continental Shelf Lands Act (OCSLA) Section 1346 mandates the conduct of environmental and socioeconomic studies needed for the assessment and management of environmental impacts on the human, marine, and coastal environments which may be affected by oil and gas or other mineral development. OCSLA Section 1345 authorizes the use of cooperative agreements with affected States to meet the requirements of OCSLA, including sharing of information, joint utilization of available expertise, formation of joint monitoring arrangements to carry out applicable Federal and State laws, regulations, and stipulations relevant to outer continental shelf operations both onshore and offshore. The purpose of the Alaska Coastal Marine Institute is to use highly qualified scientific expertise at local levels to collect and disseminate environmental information needed for OCS oil and gas and marine minerals decisions; address local and regional OCS-related environmental and resource issues of mutual interest; and strengthen the MMS-State partnership in addressing OCS oil and gas and marine minerals information needs.

(LSU CMI)

FEDERAL AGENCY:

Minerals Management Service, Department of the Interior

AUTHORIZATION:

43 U.S.C. 1345 (e); 43 U.S.C. 1346 Section 20.

OBJECTIVES:

The Minerals Management Service Offshore Minerals Management and Minerals Revenue Management programs provide major economic and energy benefits on a national and local level to the taxpayers, States and the American Indian community. The Offshore Minerals Management program oversees the exploration and development of oil, natural gas and other minerals and renewable energy alternatives on the nations outer continental shelf. MMS continues to look for better ways to serve the American people and to ensure that the nation receives the best value for its resources now and into the future. The program not only supports decisions made within the Department of Interior, but also provides coastal states and local governments with the information necessary to ensure that all stages of offshore energy and mineral activities are conducted in a manner to protect both the human and natural environments. Outer Continental Shelf Lands Act Section 1346 mandates the conduct of environmental and socioeconomic studies needed for the assessment and management of environmental impacts on the human, marine, and coastal environments which may be affected by oil and gas or other mineral development. OCSLA Section 1345 authorizes the use of cooperative agreements with affected States to meet the requirements of OCSLA, including sharing of information, joint utilization of available expertise, formation of joint monitoring arrangements to carry out applicable Federal and State laws, regulations, and stipulations relevant to outer continental shelf operations both onshore and offshore. The purpose of the Louisiana State University Coastal Marine Institute (CMI) is to use highly qualified scientific expertise at local levels to collect and disseminate environmental information needed for OCS oil and gas and marine minerals decisions; address local and regional OCS-related environmental and resource issues of mutual interest; and strengthen the MMS-State partnership in addressing OCS oil and gas and marine minerals information needs.

15.426 COASTAL IMPACT ASSISTANCE PROGRAM (CIAP) (CIAP)

FEDERAL AGENCY:

Minerals Management Service, Department of the Interior

AUTHORIZATION:

Outer Continental Shelf (OCS) Lands Act, as amended; 31 U.S.C. 6301-6305.

OBJECTIVES:

The intent of the program is to disburse funding to eligible producing states and coastal political subdivisions for the purpose of conservation, protection, or restoration of coastal areas including wetlands; mitigation of damage to fish, wildlife, or natural resources; planning assistance and the administrative costs

of complying with these objectives; implementation of a federally-approved marine, coastal, or comprehensive conservation management plan; and mitigation of the impact of outer Continental Shelf activities through funding of onshore infrastructure projects and public service needs.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

Can only be used to directly benefit an authorized use to conserve, restore, enhance, and protect renewable natural resources. Funding cannot be used for projects that would not provide a direct benefit, including but not limited to, supporting litigation or to fund publicity or lobbying efforts for purposes of influencing or attempting to influence a member of the U.S. Congress or an agency of the Federal government.

Applicant Eligibility:

States eligible to receive funding are: Alabama, Alaska, California, Louisiana, Mississippi, and Texas and 67 coastal political subdivisions among the six states.

Beneficiary Eligibility:

The producing coastal states, their eligible coastal political subdivisions, and the general public will ultimately benefit from the program.

Credentials/Documentation:

Applicants must provide documentation that they have met state and local permitting requirements. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Prior to submitting any grant applications an eligible state must submit to MMS, for approval, a State Plan that provides detail on how a State and its Coastal Political Subdivisions (CPS) will use the CIAP funds and implement the state plan. To assist the States in developing a plan the MMS issued final Coastal Impact Assistance Program Guidelines, and published a Notice of Availability in the Federal Register, September 29, 2006. Coastal Political Subdivisions and State are required by the Act to work together to develop their Plan. The plan should contain prescribed components from Section 384 of the amended OCS Lands Act, which includes an implementation program representing both parties' interests. The State point of contact submits the Plan to the MMS for approval. The MMS will determine within 20 calendar days after receipt of a Plan or Plan amendment whether additional information is needed. If no deficiencies are identified and the required number of copies has been received, the Plan or amendment will be deemed complete. Once a Plan or amendment is determined complete, MMS will have 90 calendar days to notify the State in writing that the Plan or amendment is approved, disapproved, or remains under review (in which case the Plan or amendment is neither approved nor disapproved). If MMS fails to provide such written notice to the State, the Plan or amendment is deemed to be disapproved. If MMS notifies the State that the Plan or amendment remains under review, MMS will also provide the State with an estimate of the amount of additional time necessary to complete its review. If a Plan or amendment is disapproved, the State may revise and resubmit it. The MMS will then have 20 calendar days to determine completeness; once MMS determines that the revised Plan or amendment is complete, MMS will then have 90 calendar days to approve or disapprove the revised Plan or amendment. On April 16, 2007 MMS released the recipient allotment amounts that will be eligible to spend in 2007 and 2008. The States and CPSs will use this information to develop grant project applications with detailed descriptions of their individual projects, including detailed breakdowns of costs. The recipients will provide in each application the current status of Federal, State and local permits required for the project. A completed grant project application is to be submitted electronically through Grants.gov. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

OMB Circular No. A-102 applies to this program. This program is excluded from coverage under OMB Circular No. A-110. Specific projects submitted to the MMS for funding are subject to the Department of the Interior Regulations at 43 CFR Part 12, Subparts C and E, or any subsequent revisions. The OMB SF-424 application forms must be used for this program. Applications are submitted electronically through Grants.gov.

Award Procedure:

The MMS provides a notice of award to the recipient.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

MMS will have 90 days to notify the State in writing that the Plan or amendment is approved, disapproved, or remains under review (in which case the Plan or amendment is neither approved nor disapproved). No time limit is established for review of projects.

Appeals:

Applicants can appeal disapproval of Plans or project applications no later than December 2010.

Renewals:

Proposals are submitted for a project period. Projects that were approved and funded during the previous project period may be submitted as renewals for subsequent project periods.

Formula and Matching Requirements:

15.504 WATER RECLAMATION AND REUSE PROGRAM

FEDERAL AGENCY:

Bureau of Reclamation, Department of the Interior

AUTHORIZATION:

American Recovery and Reinvestment Act of 2009, Public Law 111-5; Reclamation Wastewater and Groundwater Study and Facilities Act, Title XVI, Public Law 102-575, as amended; Reclamation Recycling and Water Conservation Act of 1996, Public Law 104-266; Oregon Public Lands Transfer and Protection Act of 1998, Public Law 105-321; Consolidated Appropriation Act of 2000, Public Law 106-544; Hawaii Water Resources Act of 2000, Public Law 106-566; Lakehaven Utilities District, WA, Project, 2002, Public Law 107-344; Consolidated Appropriations Resolution, 2003, Public Law 108-7; San Diego Creek Watershed, CA, Project, 2004, Public Law 108-233; Williamson County, TX, Project, Public Law 108-316; Hawaii Water Resources Act of 2005, Public Law 109-70.

OBJECTIVES:

This Title gives Reclamation general authority to conduct appraisal and feasibility studies on water reclamation and reuse projects. It also provides general authority for research and demonstration programs to test water reclamation and reuse technologies. Reclamation may also participate in

construction of reuse projects after congressional authorization of the project. The original Act provided authority to participate in the design and construction of five specific projects in California and Arizona. The 1996 Act authorized 16 additional recycling projects and 2 desalination demonstration projects. Subsequent amendments to Title XVI and other individual acts authorized nine additional construction projects. For ARRA funded projects and in addition to the program objectives above, the Section 3 of the ARRA states the following objectives: (1) To preserve and create jobs and promote economic recovery. (2) To assist those most impacted by the recession. (3) To provide investments needed to increase economic efficiency by spurring technological advances in science and health. (4) To invest in transportation, environmental protection, and other infrastructure that will provide long-term economic benefits. (5) To stabilize State and local government budgets, in order to minimize and avoid reductions in essential services and counterproductive state and local tax increases.

TYPES OF ASSISTANCE:

Formula Grants (Cooperative Agreements)

USES AND USE RESTRICTIONS:

Reclamation is restricted by law to activities in the 17 Western States, unless otherwise authorized by Congress, as was done by Public Law 106-566, which extended Reclamation's authority to conduct Title XVI investigations to include Hawaii. The nonfederal sponsor must complete a feasibility study, including NEPA (National Environmental Policy Act) compliance, complete a cost-share agreement with Reclamation, and furnish a statement of financial capability of the project sponsor to fund the nonfederal share to Reclamation prior to receiving construction appropriations from Congress for the Federal cost share. Operation and Maintenance (O&M) costs for the constructed project must be furnished by the nonfederal sponsor. Federal contributions for demonstration projects that exceed 25 percent of the cost cannot be made unless the Secretary (of the Interior) determines that the project is not feasible without such Federal contribution. Although the Act provides that Reclamation may furnish up to 50 percent of O&M costs for demonstration projects, it is Reclamation policy not to provide funds for this purpose.

Applicant Eligibility:

A legally organized nonfederal entity to sponsor the project is required, such as an irrigation district or a municipality. The applicant must be able to furnish the nonfederal cost share and be able to assume the operation and maintenance of the project upon completion of construction. Research projects may also be undertaken by colleges and universities and architectural and engineering firms.

Beneficiary Eligibility:

A legally organized nonfederal entity such as an irrigation district or an organization within a municipality, such as the water department.

Credentials/Documentation:

A feasibility report must be completed, either by the nonfederal sponsor alone or with the assistance of the Federal government. A statement of financial capability by the nonfederal sponsor must be provided to Reclamation. This statement demonstrates the capability of the sponsor to fund its portion of the feasibility report, its share of construction costs, and the ability to fund and assume responsibility for the operation and maintenance of the completed project. A cost-share agreement must be completed with Reclamation before funds can be requested for appropriation for construction. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

An environmental impact assessment or environmental impact statement may be required. It is recommended nonfederal entities contact the appropriate Reclamation office to discuss the processes and procedures for participation. An environmental impact statement is required for this program. An environmental impact assessment is required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

OMB Circular No. A-102 applies to this program. This program is excluded from coverage under OMB Circular No. A-110. Discretionary funding opportunities will be posted on Grants.gov. The standard application forms furnished by the Federal agency and required by 43 CFR Part 12, Subparts C and F, must be used for this program. The required documents must be

furnished to Reclamation prior to authorization for construction. Upon satisfactory completion of these documents, Reclamation may seek authorization for the project and initiate appropriation requests. Reclamation has limited funding authority for this program, therefore requests for project construction authority may be delayed until a funding request can be made that is within the authorized limit.

Award Procedure:

After funds are appropriated, Reclamation will complete the necessary paperwork to transfer funds.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Authorization of a project and appropriation of funds for its construction are dictated by the schedule of Congress with respect to appropriating funds. Because of the limitation on the ability of Reclamation to request funding for this program, delay can be anticipated in requesting funds for construction. Depending on the number of requests for funding, this delay could be several years.

Appeals:

Not Applicable.

Renewals:

Continuation of funding from one fiscal year to the next to complete a project is at the discretion of the Congress.

Formula and Matching Requirements:

Statutory Formula: Title Title XVI, Public Law 102-575. Reclamation can pay up to 100 percent for appraisal level study costs, up to 50 percent for feasibility level study costs, and to 25 percent for research and demonstration projects unless specifically raised to 50 percent. Federal funding for Title XVI construction projects is limited to 25 percent of the total project or a specified maximum amount, whichever is less. The maximum amount varies by project. Generally, all projects authorized after 1996 have a ceiling of \$20 million or less; the specific details are available in the authorizing legislation. If a project conducted under the Title XVI Program includes planning, design, and construction, the Reclamation Wastewater and Groundwater Study and Facilities Act of 1992 (the Act) requires the sponsor to provide at least 75 percent of all the costs incurred, including Reclamation's administrative costs. In addition, the sponsor must pay all operation, maintenance and replacement (OM&R) costs of the project.

Matching requirements are not applicable to this program.

MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

There are no time restrictions placed on the use of the funds and the funds have generally been made available periodically throughout the year on a reimbursable basis. A schedule is planned between Reclamation and the recipient when the cost share agreement is arranged. However, this schedule can be impacted by funds availability during the year. See the following for information on how assistance is awarded/released: Information not available.

Reports:

Reporting requirements are as prescribed by 43 CFR 12, Subparts C and F, as applicable. Cash reports are not applicable. Progress reports are not applicable. Federal Financial Report, SF 425 is required. Performance monitoring is not applicable.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133.

Records:

The required records will be specified as part of the audit procedure discussed above.

Range and Average of Financial Assistance:

Range \$10,000,000 to \$40,000,000; Average \$74,286,666.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2008: Some of the Title XVI water reuse benefits include improving water-use efficiency, providing flexibility during water shortages, and diversifying the water supply. In areas where municipalities and industry (M&I) are looking to agriculture as a water source, Title XVI Projects reduces the need to transfer agriculture water to M&I uses. Forty-three projects are specifically authorized to receive funds for construction. Two demonstration projects have also been undertaken through the general authority. Of the 45 Title XVI projects, 20 projects are actively being pursued and 4 are complete. The 20 active projects and the 4 complete projects will have an estimated maximum projected capacity of 675,000 acre-feet per year after final construction is complete. EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2008: Reclamation partially funded the Groundwater Replenishment System which takes highly treated sewer water from the Orange County Sanitation District and treats it to beyond drinking water standards using advanced membrane purification technologies at the Orange County Water District in Fountain Valley. The water is injected into an expended underground seawater intrusion barrier along the coast. The project makes use of more than 30 years of water purification experience began in 1975 with Water Factor 21. Additional information is available at www.gwrsystem.com. Reclamation is participating with the city of Long Beach, CA to research seawater desalination, which will eventually make up a small part of the Department's overall reliability portfolio (around 10 percent). Currently, seawater desalination is not a cost-effective option for water supply reliability in Long Beach, primarily due to the high cost of energy needed for operations and several abrasive environmental impacts. Simply put, at this time, the costs associated with importing water from northern California and the Colorado River are far less. However, as the costs of desalination, and its environmental impacts, decrease, made possible by advances in technology, seawater desalination will become a more relevant asset in water resources management. Additional information is available at <http://www.lbwater.org/desalination/desalination.html>.

CRITERIA FOR SELECTING PROPOSALS:

Reclamation will place priority on funding projects that are economically justified and environmentally acceptable in a watershed context, not eligible for funding under another Federal program, and that directly address Administration priorities for the Reclamation program, such as providing instream flows for Federally endangered or threatened species, meeting the needs of Native American communities, and meeting international commitments.

For ARRA funded projects: The purposes of the Recovery Act are, among others, to quickly and prudently commence activities that preserve and create jobs and to promote economic recovery, and to invest in transportation, environmental protection, and other infrastructure that will provide long-term economic benefits. To meet these purposes, Reclamation will allocate funds based on the criteria set forth in the Recovery Act and the accompanying conference report, and will target activities that quickly infuse money into the economy.

15.506 WATER DESALINATION RESEARCH AND DEVELOPMENT PROGRAM

(Desal R&D Program)

FEDERAL AGENCY:

Bureau of Reclamation, Department of the Interior

AUTHORIZATION:

Water Desalination Act of 1996, Public Law 104-298, 42 U.S.C. 10301.

OBJECTIVES:

The Water Desalination Act of 1996 is based on the fundamental need in the United States and world-wide for additional sources of high quality water. Therefore, the primary objective of the program is to develop more cost-effective, technologically efficient, and implementable methods by which usable water can be produced from saline water or water otherwise impaired or contaminated. The two principal parts of the program are: (1) perform research on desalination technologies and related issues to advance the state of the art forward (research and studies), and (2) conduct development and demonstration activities to test technological advancements, confirm economics, and gain public acceptance (development projects).

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

To be used to support research and studies, demonstration and development projects and related activities, as described in the Act.

Applicant Eligibility:

Any responsible source, to include individuals, State and local entities, public nonprofit institutions/organizations, other public institutions/organizations, Federally recognized Indian Tribal Governments, small businesses, profit organizations, private nonprofit institutions/organizations, quasi-public nonprofit institutions/organizations, and other private institutions/organizations may submit a proposal which will be considered by Reclamation. Foreign entities, other than United States-Mexico binational research foundations and inter-university research programs established by the two countries, are not eligible for funding under the Act. Federal agencies are not eligible to apply.

Beneficiary Eligibility:

Individuals, State and local entities, public nonprofit institutions/organizations, other public institutions/organizations, Federally recognized Indian Tribal Governments, small businesses, profit organizations, private nonprofit institutions/organizations, quasi-public nonprofit institutions/organizations, other private institutions/organizations, and United States-Mexico binational research foundations and inter-university research programs established by the two countries.

Credentials/Documentation:

(1) A detailed written technical proposal including the current status of the technology supporting the proposed research, technical approach proposed to

accomplish the work, a scope of work which separates the work into major tasks, applicability to local and/or national water problems, type of personnel participating in the research, type and location of facilities and equipment that will be utilized by the project applicant, experience in this type of research, the environmental impact of the research, an estimate of the costs and/or cost savings (\$/1000 gal) and economic benefit of the technology, and other information that may be useful for proposal evaluation. (2) A detailed project cost proposal including a budget covering salaries and wages, fringe benefits, travel, equipment, supplies, subcontracts, indirect cost rates, funding sources and commitments, cost-sharing, and a breakdown of costs by task. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

On an annual basis, a pre-proposal solicitation announcement is issued by Reclamation. Submission of a pre-proposal is not mandatory; however, offerors are strongly encouraged to do so in order to receive the benefit of the initial pre-proposal screening process and thereby eliminate the possibility of submitting a full proposal that would not be considered for award. The pre-proposal application limits the description of a proposed project to six pages. The project description must address each of the following areas: (1) Description of the project objective(s). (2) Description of the approach to be taken to meet the project objectives. (3) Description of the relevance of the project to the Program objectives and specific research Task area. (4) Estimate of the costs and/or cost savings (\$/1000 gal) and economic benefits of the technology. (5) Anticipated funding partners, if any. Applicants must submit an SF-424 with their pre-proposal. Questions regarding the pre-proposal process should be directed to the Grants and Cooperative Agreements Officer identified in the pre-proposal solicitation package. An environmental impact statement is required for this program. An environmental impact assessment is required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. A full proposal solicitation package is issued annually by Reclamation. There will be a general solicitation and one for pilot plants or a demonstration project in FY02. Submission of full technical and cost proposals in accordance with the instructions stated in the solicitation document is mandatory. Additionally, applicants must submit all applicable SF-424 forms and a DI-2010 form which will be included in the solicitation document.

Award Procedure:

The number of awards, maximum funding amount per award, and areas of interest for which proposals will be considered, are determined on an annual basis and are dependent upon the annual appropriation from Congress. Proposals received in response to the annual solicitation are reviewed on the basis of a competitive, merit- review process, and are rated in accordance with evaluation criteria stated in the solicitation document. Reclamation will make awards for the highest rated proposals based on the amount of funding available each year. Reclamation reserves the right to make awards to maintain balance among the program objectives listed in the solicitation document.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Contact Reclamation for the range of time when proposals are approved or disapproved.

Appeals:

None. Final award decisions are not subject appeal; however, the Bureau of Reclamation will provide all applicants with information on why their proposals were not selected for award.

Renewals:

Continuation of funding for the Program from one fiscal year to the next is at the discretion of the Congress. Yearly solicitation is made for projects of 12 months duration or less (follow-on funding may be available for additional

research studies, pilot-plant projects, or demonstration projects). No-cost extensions to awarded agreements are provided for unique projects that can justify additional time beyond the 12-month duration.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: The Federal share of the cost of a project or activity carried out under this Act shall not exceed 50 percent of the total cost of the project or activity. A Federal contribution in excess of 25 percent for a project carried out under this Act may not be made unless the Secretary of the Interior determines that the project is not feasible without such increased Federal contribution. Costs of operation, maintenance, repair, and rehabilitation of facilities funded under the authority of this Act shall be nonfederal responsibilities. In each fiscal year, up to \$1,000,000 may be awarded to institutions of higher education, including United States-Mexico binational research foundations and interuniversity research programs established by the two countries, for research grants or cooperative agreements without any cost-sharing requirement.

MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Solicitation is made for projects of 12 months duration or less (follow-on funding may be available for additional research studies, pilot-plant projects, or demonstration projects). No-cost extensions to awarded agreements are provided for unique projects that can justify additional time beyond the 12-month duration. See the following for information on how assistance is awarded/released: Information not available.

Reports:

The Recipient shall furnish quarterly reports and a final report as a permanent record of the work accomplished under the agreement. A midterm project review shall be held at the Recipient's site approximately 3 to 6 months after project award. Approximately at the time of delivery of the draft final report, the Project Manager shall make a presentation in Denver on the overall progress of the project. Cash reports are not applicable. Progress reports are not applicable. Federal Financial Report, SF 425 is required. Performance monitoring is not applicable.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2008: Salinity Improvement Project; Identifying Sources of Salt and Water in Colorado, Utah and Wyoming. Fiscal Year 2009: No Current Data Available Fiscal Year 2010: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

In 1984, the Salinity Control Act was amended to direct the Secretary of the Interior to give preference to units which reduce salinity at the least cost per unit of salinity reduction (or cost-effectiveness). Cost-effectiveness is defined as the Salinity Program's annual cost per ton of salt prevented from entering the Colorado River system. Conceptually, cost-effectiveness is analogous to determining the cost per mile to own and operate a car. That computation combines the annual expenses (loan payments, gas, maintenance, etc.) and divides by the miles traveled each year. The key to understanding this approach is to appreciate that the government evaluates all projects as if the money is borrowed from a loan institution and repaid in annual installments over the life of the project. This economic evaluation principle is required by the "Economic and Environmental Principles Guidelines for Water and Related Land Resources Implementation Studies", March 1983. This method lends consistency in the comparison of non-federally financed alternatives (which must borrow funds) to Federally financed projects. Each proposal will be evaluated by a technical review panel in accordance with the following criteria and corresponding percentage weights: (a) Technical merit - those passing will be evaluated further, (b) Cost effectiveness 70 percent of the annual cost for each ton of salt load reduction, expressed in dollars per ton, (c) Performance risk 30 percent of performance risk will evaluate the cost and effectiveness risks of the proposal. More detailed information will be included in each funding announcement or may be obtained from the Salinity Control Program contacts listed above.

For Recovery Act projects: The purposes are among others, to quickly and prudently commence activities that preserve and create jobs and to promote economic recovery, and to invest in transportation, environmental protection, and other infrastructure that will provide long-term economic benefits. To meet these purposes, Reclamation will allocate funds based on the criteria set forth in the Recovery Act and the accompanying conference report, and will target activities that quickly infuse money into the economy.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2008: Endangered Species Habitat Restoration Analysis and Recommendation on the Pueblo of Isleta, New Mexico - This project will provide a means to describe and to define existing conditions in the Pueblos project area, to provide qualitative and quantitative analyses of existing information, to recommend site-specific projects aimed at improving habitat for the Rio Grande Silvery Minnow and the Southwestern Willow Flycatcher. Additionally, the project will enable the Pueblo to identify specific monitoring and adaptive management approaches and techniques to ensure long-term success and sustainability of current and future habitat restoration sites.

Development of Habitat Restoration Monitoring Plan in the Pueblo of Santa Clara, New Mexico - The project is designed to complete a Habitat Restoration Plan for the Pueblo of Santa Clara Sub-reach of the Middle Rio Grande river. The Plan will systematically and comprehensively analyze and incorporate baseline conditions and existing information to provide specific habitat restoration/rehabilitation goals and recommendations for future Rio Grande habitat restoration projects within Pueblo of Santa Clara lands in accordance with restoration techniques, and priorities discussions outlined in prior habitat restoration planning documents and recovery plans. The restoration goals, techniques, and discussions will be targeted to directly benefit threatened and endangered species, culturally significant species, and other species of concern, all of which have experienced detrimental losses due to the failing health of the Rio Grande riverine and riparian ecosystem.

Operations and Maintenance of the Los Lunas Naturalized Refugium for the Rio Grande Silvery Minnow - The project aims at assisting in the cost of the operations and maintenance at the New Mexico Interstate Stream Commissions Rio Grande Silvery Minnow Naturalized Refugium located in Los Lunas, New Mexico. The facility is used to breed and to propagate silvery minnow for wild population augmentation to prevent extinction and to assist in the recovery of the species. The project also supports the maintenance of a captive population as a precautionary measure to prevent extinction from catastrophes in the wild and will also maintain an independent population to prevent captive population catastrophic loss.

Maintenance of Habitat Restoration Projects at the Pueblo of Ohkay-Owingeh, New Mexico The project involves the maintenance of a desirable habitat restoration trajectory in restored Southwest Willow Flycatcher habitats at the Pueblo of Ohkay-Owingehs geographical area of resource management. This project will benefit the SWFL recovery efforts by maintaining constructed habitats to ensure successional trajectory to a desirable SWFL habitat, and by collecting viable information in planning maintenance activities and adaptive management of on-going projects. Activities include locating and eradicating invasive trees and invasive herbaceous weeds and planting native grass and forbs seeds, among maintenance measures.

Habitat Restoration for the Isleta Reach, Phases I and II The project involves planning, design development, preparation of environmental compliance and implementing active and passive habitat restoration techniques in the area known as Isleta Reach of the Middle Rio Grande River. Monitoring results from this project in combination with results from other Albuquerque Reach work will provide information for the better identification and implementation of restoration techniques that are most successful in creating and maintaining silvery minnow habitats. Fiscal Year 2009: No Current Data Available Fiscal Year 2010: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The Las Vegas Wash Coordination Committee has decided that the SNWA will be the lead agency for receiving funding for this program due to the high costs and types of environmental improvement and enhancement, and ability to maintain restoration projects. The Las Vegas Wash Program plays an important role in environmental and water resource issues in Southern Nevada. Historically, the Las Vegas was an ephemeral stream carrying storm flows from the Las Vegas Valley to Lake Mead and the Colorado River. Urban development over the past 60 years has resulted in the formation of the wetlands that helped remove nutrients from these wastewater flows. As the rate of discharges increased, erosion also increased, gradually destroying the existing natural treatment systems and wildlife habitat and creating a large delta in the Las Vegas Bay of Lake Mead. Accelerating erosion, declining water quality, and loss habitat are some of the more pressing issues. Proposals submitted will be reviewed and awarded based on priority fulfillment of the 44 action items identified in the Plan and the availability of funding appropriations.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2008: A variety of projects were funded through the Cooperative Endangered Species Conservation Fund in FY 2008, including Habitat Conservation Planning Assistance grants to develop Habitat Conservation Plans (HCP) across the country in areas ranging from the bottomland forests of Arkansas to sagebrush-steppe habitat in Utah. These HCPs will benefit a wide range of plants and animals, including the endangered Butte County meadowfoam, threatened Monetary spineflower, endangered Ivory-billed woodpecker and endangered Indian bat. Most of the HCPs will address multiple species, many of them on a city, county or large watershed basis. Recovery Land Acquisition grants awarded in fiscal year 2008 will be used to acquire and protect important forest, riparian, coastal, desert, wetland, and mountain areas that represent critical portions of species' last remaining habitats. Some of these acquisitions support more than one endangered or threatened species, as well as, provide important habitat for migratory birds, other plants, and wildlife. For example, acquisition of property in northern Idaho will benefit grizzly bear, mountain caribou, bull trout, Canada lynx, and gray wolf. The acquisition of relatively pristine coastal dune, coastal prairie and riparian wetlands habitats in California will enhance recovery of three federally listed species: Western snowy plover, Howell's spineflower, and Menzie's wallflower. HCP Land Acquisitions in fiscal year 2008 will be used to help acquire vital habitat for threatened and endangered species ranging from red-cockaded woodpecker in Georgia to the Lake Erie water snake in Ohio. The land acquired under the HCP

Land Acquisition program are purchased only from willing sellers, and are intended to complement but not replace the conservation responsibilities contained in the HCP. Fiscal Year 2009: No Current Data Available Fiscal Year 2010: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

Proposals for grant funding must be submitted by the State fish and wildlife agency. The State must have an approved cooperative agreement with the Secretary of the Interior which provides for sharing responsibilities for endangered species, prior to receiving Cooperative Endangered Species Conservation Fund (section 6 of the Endangered Species Act) funds. Individual project proposals must compete with other State submissions for funding.

RELATED PROGRAMS:

15.630 Coastal Program

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2008: Typical wetland restoration and enhancement techniques involve restoring the natural hydrology of a site through the blocking of surface ditches, breaking sub-surface drain tiles, building shallow berms to trap water, filling in concentration pits, removing eroded sediment which fills in basins, installing grass buffers, or installing fences along wetlands or stream corridors that prevent cattle grazing within the stream or wetland. Other wetland enhancement activities include working with the landowners to better manage the wetlands through the use of grazing, haying, discing, and burning. Upland restoration and enhancement and riparian areas are restored and enhanced through re-seeding or planting native grass, forbs, woody shrubs and trees. The installation of cross fencing along with providing alternative sources of water, assist landowners develop grassland/grazing management plans that have greater benefits for wildlife. Removing barriers to fish migration and using natural channel design techniques is the main focus of the Partners Program in-stream restoration work. Riparian fencing and improved grazing systems compliments stream restoration work. Fiscal Year 2009: No Current Data Available Fiscal Year 2010: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

In general, projects must benefit Federal trust species, involve on-the-ground habitat restoration, and be cost-effective. Specific criteria for reviewing and ranking projects were established in the national Partners policy, at <http://www.fws.gov/policy/640fw1.html>. The program gives high priority to proposed projects that benefit the National Wildlife Refuge System and/or species at risk. Projects also receive priority if they: were identified as priority by Service ecosystem teams; reduce habitat fragmentation; conserve globally or nationally imperiled habitats; and are self-sustaining. The Department of the Interior and Related Agencies Appropriations Bill for FY 05, Public Law 108-447, Title I requires that: (1) The Secretary of the Interior shall, after deducting administrative expenses and \$6,000,000 for Tribal grants, apportion the remaining amount in the following manner: (A) to the District of Columbia and to the Commonwealth of Puerto Rico, each a sum equal to not

more than one-half of 1 percent thereof; and (B) to the territories of American Samoa, Guam, the Commonwealth of Virgin Islands, and the Commonwealth of Northern Mariana Islands, each a sum equal to not more than one-fourth of one percent thereof. (2) The Secretary must apportion the remaining amount in the following manner: (A) one-third of which is based on the ratio to which the land area of such State bears to the total land area of all such States; and (B) two-thirds of which is based on the ratio to which the population of such State bears to the total population of all such States. The amounts apportioned under this paragraph must be adjusted equitably so that no State must be apportioned a sum which is less than 1 percent of the amount available for apportionment under this paragraph for any fiscal year or more than 5 percent of such amount: The Federal share of project costs is not to exceed 75 percent for planning or competitive grants, nor 50 percent for an implementation grant. 15.636 ALASKA SUBSISTENCE MANAGEMENT

FEDERAL AGENCY:

Fish and Wildlife Service, Department of the Interior

AUTHORIZATION:

Alaska National Interest Lands Conservation Act (ANILCA) of 1980, Title VIII, Public Law 96-487, 16 U.S.C. 3101-3233, Section 809. Fish and Wildlife Coordination Act (16 U.S.C. 661 to 666).

OBJECTIVES:

To identify and provide information needed to sustain subsistence fisheries and wildlife management on Federal public lands, for rural Alaskans, through a multidisciplinary, collaborative program. Three programs are administered under ANILCA to fulfill this objective. The Fisheries Resource Monitoring Program (Monitoring Program) funds approximately 80 studies annually to provide information on stock status and trends, harvests, and traditional ecological knowledge to manage and regulate Federal subsistence fisheries. The Partners for Fisheries Monitoring Program (Partners Program) strengthens Alaska Native and rural involvement in subsistence fisheries and research. The program provides funds directly to Alaska Native and rural organizations to hire fishery biologists, social scientists, and educators to implement fisheries monitoring projects and rural internship programs. The Liaison and Staff Support Grant to the State of Alaska is directed specifically to the Alaska Department of Fish and Game. The grant defrays salary and travel expenses that occur in support of the coordination between State and Federal subsistence fish and wildlife programs.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Funds may be used for approved fish and wildlife subsistence management, fisheries monitoring and traditional ecological knowledge projects.

Applicant Eligibility:

An individual/family, profit organization, other private institution/organization, public nonprofit institution/organization; an officer, employee, agent, department or instrumentality of the Federal government, of the State of Alaska, municipality or political subdivision of the State of Alaska; Federally recognized Indian Tribal Government (including any Native village as defined in the Alaska Native Claims Settlement Act).

Beneficiary Eligibility:

An individual/Family, profit organization, other private institution/organization, public nonprofit institution/organization; an officer, employee, agent, department, or instrumentality of the Federal government, of the State of Alaska, municipality or political subdivision of the State of Alaska, or of any foreign government.

Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. The standard SF-424 application forms required by 2 CFR Part 215.12, and the Department of Interior Code of Federal Regulations at 43 CFR Part 12, Subpart F, or its revisions, must be used. For both the Monitoring and Partners programs, a Request for Proposal (RFP) will be posted biennially on <http://fedbizopps.gov> and <http://grants.gov>. Complete application information can be found on the Office of Subsistence Management (OSM) website at: <http://alaska.fws.gov/asm/fisindex.cfm> or, if unable to access the website a proposal package containing specific requirement information can be requested from Attn: Kathleen Orzechowski, Program Specialist, Office of Subsistence Management, 1101 E Tudor Road, MS 121, Anchorage, Alaska 99503. For the Liaison and Staff Support Grant, a Request for Proposal will be posted annually on <http://grants.gov> APPLY. Information can be requested from Attn: Chuck Ardizzone, Wildlife Biologist, Office of Subsistence Management, 1101 E Tudor Road, MS 121, Anchorage, AK 99503.

Award Procedure:

For the Monitoring Program, an inter-agency technical review committee evaluates and ranks proposals, and, for those selected for further consideration, subsequently the full investigation plans. The committee develops a draft monitoring program from the highest priority projects, based on their technical review and available funds. The draft monitoring plan is reviewed by ten regional advisory councils and the public. An inter-agency staff committee reviews all recommendations, and reconciles differences between staff and public recommendations. The Federal Subsistence Board approves biennial monitoring plans with the benefit of both a technical recommendation by the Technical Review Committee and public review by the Regional Advisory Councils. For the Partners Program, an internal review committee evaluates proposals and makes recommendations for funding. The committee evaluations are based on the criteria outlined in the request for federal assistance. The review committee ranks proposals and the assistant regional director selects proposals that best support the program within available funding. Once a Monitoring Program project or Partners Program position is selected for funding, a funding instrument, i.e., notice of award, between Fish and Wildlife Service and the recipient is drafted by the OSM. The award is processed by OSM through the contracting office and sent to the recipient for signature. The award is considered executed when signed copies of the agreement are received from the recipient and the contracting office has obligated funds to the agreement. The awards are administered by OSM. For the Liaison and Staff Support Grant, the Alaska Department of Fish and Game is the only non-Federal entity with management authority over fish and wildlife resources. This grant agreement is not open to competition outside the Alaska Department of Fish and Game.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Federal Subsistence Board decisions on funding of Monitoring Program projects are made no later than January 20. OSM decisions on Partners Program positions are announced within one year of the Request for Proposals.

Appeals:

Not Applicable.

Renewals:

Monitoring projects and positions may be approved for one to four years duration. Applicants may re-apply during subsequent Request for Proposals.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program. Matching Requirements: There is no requirement for cost sharing, matching, or cost participation. However, applicants are encouraged to document matching contributions. Proposals with substantial cost sharing will be ranked higher than similar proposals with no identified cost sharing. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

For the Monitoring and Partners Programs, upon approval, the project may be extended or the agreement modified for a period not to exceed five years from initial award. Awarded funds must be spent during the approved Period of Performance of the award, and in accordance with financial and reporting procedures specified in the award. For the Liaison and Staff Support Grant, award is for one year. See the following for information on how assistance is awarded/released: Information not available.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2008: The Monitoring and Partners programs provide critical information needed for the management and regulation of Alaska's subsistence resources, as directed by the ANILCA. The Monitoring Program provides over \$4 million annually for research and monitoring projects in Alaska. Approximately 80 projects are conducted annually. Projects provide information on over 70 fish populations important for subsistence fishers, who annually consume over 220 pounds of fish per person in rural Alaska. Over 100 Alaska Native and rural organizations have participated in the program. By providing sound scientific data, building capacity in rural organizations forging partnerships, and promoting local involvement, the Monitoring Program has enabled Federal and State governments to better manage fisheries and provide for subsistence uses. Through the Partners for Fisheries Monitoring Program, the U.S. Fish and Wildlife Service is building the capability and expertise of Alaska Native organizations to participate more fully in subsistence fishery management. With both Monitoring and Partners programs, subsistence fisheries are actively managed and sustained, proposed regulatory changes are analyzed, local concerns are addressed, conflicts among user groups are minimized, and Alaska Native and rural organizations are meaningfully involved in subsistence fisheries management and monitoring. Successful partnerships among government, Alaska Native, and other organizations have promoted more effective information collection, promoted internships and mentoring in rural Alaska, and improved local understanding and support for the subsistence management program. The Liaison and Staff Support Grant provides for effective dual management and coordination between the Alaska Department of Fish and Game and the Office of Subsistence Management. The grant provides funding for the State to meet its responsibilities to maintain healthy fish and wildlife resources while providing contained harvest opportunities for Alaska residents. In addition to the development of State and Federal harvest regulations, i.e., seasons, harvest limits, and methods and means, dual management also includes the recognition of customary and traditional uses and subsistence use amounts, as well as the sharing of harvest data. More specifically it is intended to protect and promote the sustained health of fish and wildlife populations, to ensure conservation and stability in fisheries and wildlife management and to include meaningful public involvement. EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2008: Monitoring Program: There are more than 330 known steelhead streams in Southeast Alaska. The numbers of adult fish in these streams were estimated in the late 1980s. Most populations are thought to be quite small, with an annual run size of 100 or fewer adult steelhead. Approximately 56 streams are estimated to have run sizes of more than 200 fish, of which 12 are thought to contain more than 500 fish. Several systems may contain adult runs of 1,000 or more fish. Of the approximately 330 steelhead streams in Southeast Alaska, 75 are located on Prince of Wales Island. A three-year project to assess adult steelhead populations through the use of weirs on five Prince of Wales Island streams concluded in 2007 and a final report is being prepared. The data gathered will help ensure careful management of steelhead stocks. The steelhead population assessment project is a cooperative effort of the Alaska Department of Fish and Game, the Organized Village of Kasaan, the Bureau of Indian Affairs, and the Forest Service. A study documenting traditional methods of harvest, use and processing of steelhead was completed in 2005. This was a cooperative effort of the Alaska Department of Fish and Game, Craig Community Association, Klawock Cooperative Association, and Hyدابurg Cooperative Association. Partners Program: The success of the Fisheries Resource Monitoring Program depends upon a well informed public, and support of the program and resulting projects within rural communities. However, most rural communities and organizations do not have the capacity to meaningfully participate in the program, and many people do not understand how the program operates. Within the Kuskokwim region, Kuskokwim Native Association was recently awarded two positions, a fishery biologist and an educator position. The biologist will serve as a co-investigator on seven Monitoring Program projects and serve as a mentor for rural college student interns. The educator will mentor students working on Monitoring Program projects during the summer and assist students in the fall while they bring what they learned into their classrooms. Fiscal Year 2009: No Current Data Available Fiscal Year 2010: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

For the Monitoring Program, each proposal is evaluated using the following four criteria: (1) Strategic Priorities: Studies must be responsive to identified issues and information needs. All projects must have a direct association to a Federal subsistence fishery, and either the subsistence fishery or fish stocks in question must occur in waters within or adjacent to Federal public lands. (2) Technical and Scientific Merit: Technical quality of the study design must meet accepted standards for information and collection, compilation, analysis, and reporting. Studies must have clear objectives, appropriate sampling design, correct analytical procedures, and specified progress and final reports. (3) Investigator Ability and Resources: Investigators Ability and Resources: Investigators and their organizations should have demonstrated technical and administrative expertise to complete prior studies, or have co-investigators or appropriate partnerships with other organizations to meet all requirements of the study. (4) Partnership-Capacity Building: Studies must include appropriate partners and contribute to building capacities of rural organizations, local communities, and residents to participate in fisheries resource management. Investigators and their organizations should be able to demonstrate the ability to maintain effective local relationships and a commitment to capacity building. For the Partners Program, each proposal is evaluated using the following equally weighted criteria: (1) Ability to successfully implement the program as described. (2) Strategic priority and past performance of the Monitoring

Program project. (3) Letters of support from tribal and rural organizations, government agencies, project investigators, and schools/universities. (4) Annual and total cost of the proposal, including the use of in-kind or matching contributions that either decrease cost or expand support for implementing the Partners Program. (5) Past performance on implementing Monitoring Program projects. (6) Past performance on current or past agreements with the Office of Subsistence Management. (7) Previous experience in mentoring, training, and supervising personnel. (8) Past and current accounting practices to ensure deliverables and accountability. Recovery Implementation - FY08 (\$1,000, smallest grant to \$760,000, largest grant); Average grant is \$45,000.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2008: The program supports the ultimate goal of threatened and endangered species conservation which is to recover listed species to levels where protection under the Endangered Species Act is no longer required and they can be removed from the list. Restoring listed species to a point where they are secure, self-sustaining components of their ecosystem is a challenging task. The factors responsible for their endangered status may have been at work for hundreds of years, and reversing declines, stabilizing populations, and achieving recovery goals may require coordinated actions from many partners over a lengthy period. The following are specific accomplishments from FY08: the Tinian monarch and West Virginia northern flying squirrel have been delisted due to recovery; the Hawaiian hawk and Maguire daisy have been proposed for delisting due to recovery; and proposed rules to down-list two other species from endangered to threatened are being drafted because the Service was able to implement actions from projects funded through the program. If the proposed project meets Service priority needs, an application will be submitted to the appropriate Ecological Services Field Office.

General Criteria that apply to all Recovery Implementation project proposals:

(1) Project should show a clear conservation benefit that will help prevent extinction of a species, improve the recovery status of a species, or lead to de-listing of a species. (2) All projects will be considered independently on a year-to-year basis. (3) Multi-year projects are not prohibited, but applicants will need to resubmit and compete annually for financial assistance. The purpose is to provide a means by which the ecosystems upon which endangered and threatened species depend may be conserved, to provide a program for the conservation of these species, and to take appropriate steps to achieve the purposes of treaties and conventions set forth in the law.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

The assistance can be used for Candidate Conservation. Funding may be used for actions related to: (1) the development of scientific information that is useful in supporting candidate assessments, conservation actions and candidate conservation agreements; (2) reduce threats to a candidate and other high priority species, such as propagation of imperiled freshwater mussels; or (3) conservation of candidate species, such as biological field work to conduct species surveys. These are discretionary funds that are used for project purposes to help ensure the use of the best available scientific information in making management decisions.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2008: The Candidate Conservation program is implemented

through a proactive and collaborative approach with states and territories, tribes, federal agencies, and the private sector to keep species from declining to the point that they warrant listing under the Endangered Species Act. Through this program the Service work to: (1) identify species that are on the brink of becoming listed or that face threats that make listing a possibility; (2) provide information, planning assistance, and resources to encourage partnerships for conservation measures for these species; and (3) prioritize non-listed species so those most needing protection or additional study are addressed first. Some specific accomplishments in FY08 include the following: Funding for habitat restoration projects on federal lands; the development of important propagation and rearing of captive specimens; the use of remote sensing technologies and geographic information systems to identify and map important habitat areas. In FY 2007, five Candidate Conservation Agreements with landowners were completed, benefiting conservation listed species. 16.015 MISSING ALZHEIMER'S DISEASE PATIENT ASSISTANCE PROGRAM

FEDERAL AGENCY:

Department of Justice

AUTHORIZATION:

Consolidated Appropriations Act, 2009, Public Law 111-8.

OBJECTIVES:

This program provides funds for projects that aid in the protection and location of missing persons living with Alzheimers disease and related dementias and other missing elderly individuals. It is currently estimated that 5.3 million people in the United States alone are living with Alzheimers disease or some form of dementia. Over 60 percent (3.1 million individuals) of those with dementia will wander at some point. More than 50 percent of those who wander become lost and separated from their loved ones. Law enforcement agencies often expend resources searching for missing persons with Alzheimers disease, and if not found quickly, they are at high risk of serious injury or even death. In addition, law enforcement officers may not be trained or equipped to handle the special needs of those with Alzheimers, once they are found.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Applications are solicited for projects, pursuant to Congressional appropriations, that address one or more of the following: (1) Develop or enhance a national outreach program to increase awareness among law enforcement agencies and the public in addressing the needs of missing persons with Alzheimers disease. This national outreach program should include partnerships between national level law enforcement and Alzheimers disease associations, and may include providing a website that serves as a national clearinghouse of information and resources for those involved with missing persons. (2) Develop and/or sustain a national registry for persons living with Alzheimers disease or other form of dementia. (3) Develop and/or implement a process for aiding in the location of lost persons with Alzheimers disease. (4) Provide training and substantive informational material to law enforcement agencies through a national or regional initiative. (5) Support the development of a model policy that can be implemented nationwide by law enforcement agencies. Because there is no guarantee of future funding for this initiative, the successful applicant must address sustainability for any website and/or national registry developed or enhanced, beyond federal funding awarded under this solicitation.

16.202 PRISONER REENTRY INITIATIVE DEMONSTRATION (OFFENDER REENTRY)

Offender Reentry

FEDERAL AGENCY:

Bureau of Justice Assistance, Department of Justice

AUTHORIZATION:

H.R. 5548, as approved under H.R. 4577, the Consolidated Appropriations Act of 2001, 42 U.S.C. 3793w, Public Law No. 90-351, Title I, Part FF.

OBJECTIVES:

The Offender Reentry Initiative (Reentry Grant Program) is a combined federal effort to assist jurisdictions in facing the challenges presented by the return of offenders from prison to the community. The goal is to support the effective delivery of pre-release assessments and services, and to develop transition plans in collaboration with other justice and community-based agencies and providers, for supervised and non-supervised non-violent offenders. The current initiative addresses the continuing problem of offenders entering the community after incarceration with little or no surveillance, accountability, or resource investment.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

The Reentry Initiative encourages the development of model reentry programs

that begin in correctional institutions and continue through an offender's transition (release) to and stabilization in the community. These programs provide for individual reentry plans that address issues confronting offenders as they return to their communities. The initiative encompasses three phases and is implemented through appropriate programs. Phase 1-Protect and Prepare: Institution-Based Programs, Phase 2-Control and Restore: Community-Based Transition Programs Phase 3-Sustain and Support: Community-Based Long-Term Support Programs.

Applicant Eligibility:

An applicant must select a lead agency responsible for the operational aspects of the grant. The applicant must also establish a multidisciplinary collaborative partnership, which includes members of faith-based and/or community organizations; e.g., State and local corrections agencies, the State and local mental health and substance abuse agencies, and the State and local Workforce Investment Boards (WIB). The partnership must select the lead agency to serve as the applicant and the fiscal agent or grantee. If the lead agency designates another to serve as fiscal agent, the lead will remain as grantee with ultimate responsibility for the grant. The lead agency and/or fiscal agent must be a State or tribal agency's unit of government. Federally Recognized Indian Tribes must establish a partnership that includes (but is not limited to) entities or agencies that address corrections, criminal justice, law enforcement, employment services, substance abuse, and mental health. Tribes may involve State level agencies as their key partners, although this is not a requirement. Eligibility is limited to jurisdictions in which grants were awarded to community- and faith-based organizations through the U.S. Department of Labor's FY 2005 Prisoner Reentry Initiative (See www.dol.gov/opa/media/press/eta/eta20052123list.htm). State agencies are encouraged to partner with local and regional jails when submitting applications, or to serve as a pass-through for funding. All applicants must coordinate applications with their community- and faith-based partners.

Beneficiary Eligibility:

State, units of local government, and federally recognized tribes.

Credentials/Documentation:

The applicant must submit a completed Application for Federal Assistance (Standard Form 424), including signed assurances that it will comply with statutory and administrative requirements. The applicant is also required to submit a description that includes the goals of the program, the implementation process, timetable for implementation, how the State will coordinate substance abuse treatment activities at the State and local levels, and the State's law or policy requiring substance abuse testing of individuals in correctional residential substance abuse treatment programs. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

A considerable amount of preapplication coordination is required amongst the required and suggested stakeholders. The Offender Reentry Program (Prisoner Reentry Initiative (PRI)) strengthens urban communities characterized by large numbers of returning, nonviolent prisoners. With the support of several federal agencies, PRI is designed to reduce recidivism by helping returning inmates find work and access other critical services in their communities. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

This program is excluded from coverage under OMB Circular No. A-102. This program is excluded from coverage under OMB Circular No. A-110. All competitive grant applications must be submitted electronically at: <http://www.grants.gov/>.

16.309 LAW ENFORCEMENT ASSISTANCE NATIONAL INSTANT CRIMINAL BACKGROUND CHECK SYSTEM

(NICS)

FEDERAL AGENCY:

Federal Bureau of Investigation, Department of Justice

AUTHORIZATION:

None.

OBJECTIVES:

To provide a system so that any Federal Firearm Licensee (FFL) could receive an immediate determination by telephone or by other electronic means, on whether receipt of a firearm and/or explosive by a prospective buyer would violate Federal or State laws.

TYPES OF ASSISTANCE:

PROVISION OF SPECIALIZED SERVICES

USES AND USE RESTRICTIONS:

The NICS Operations Center conducts NICS background checks by analyzing and evaluating criminal history records to determine whether the transfer of a firearm to an individual may violate State or Federal law. The staff at the Operations Center provides technical and operational support to users, provides customer service to FFLs and State Point of Contacts (POCs), processes appeals of denied transactions, and prepares management and statistical reports on the operation of the NICS.

Applicant Eligibility:

All persons purchasing firearms.

Beneficiary Eligibility:

The Federal Firearm Licensees and American public.

Credentials/Documentation:

Initial request for services must be from a licensed and enrolled FFL. For checks performed by the FBI, FFLs may contact the NICS Section by telephone via a toll-free number or, electronically by the NICS E-Check via the Internet. The FFLs will provide the required descriptive information requested on the Bureau of Alcohol, Tobacco, Firearms and Explosives Form 4473 and each background check is assigned a unique NICS Transaction Number. If a NICS background check results in no matching records, the transfer will proceed.

If one or more matching records are found, a NICS Legal Instruments Examiner (Examiner) will review the record(s) to determine if the subject of the record may be identical with the prospective purchaser and to determine if the record contains state and/or federal firearm prohibitive criteria which may prohibit the transfer of the firearm. If it is determined that prohibitive criteria exists, the NICS Examiner will advise the FFL to deny the firearm transaction. If potentially prohibitive criteria exists and more information is required in order to make the determination, the NICS Examiner will advise the FFL to delay the firearm transaction. When a transaction is delayed, the NICS Examiner begins extensive research on the potential prohibitor. The NICS Examiner will contact local, state, and federal law enforcement agencies and courts to resolve questions about an individual who appears to be prohibited from purchasing or possessing a firearm, as well as to request clarification regarding information in a prior record or disposition. When the research is complete, the NICS Examiner calls the FFL and gives a decision on the firearm transaction. Individuals who are denied the purchase of a firearm will be advised by the FFL of the process for appealing the denial decision if he/she believes it is incorrect. This program is excluded from coverage under OMB Circular No. A-87.

16.320 SERVICES FOR TRAFFICKING VICTIMS**FEDERAL AGENCY:**

Office of Victims of Crime, Department of Justice

AUTHORIZATION:

22 USC 7105(b)(2)(A).

OBJECTIVES:

To provide assistance to victims of severe forms of trafficking (i.e., sex trafficking in which a commercial sex act is induced by force, fraud, or coercion, or in which the person induced to perform such act has not attained 18 years of age; or the recruitment, harboring, transportation, provision or obtaining of a person for labor or services, through the use of force, fraud, or coercion for the purpose of subjection to involuntary servitude, peonage, debt bondage, or slavery) without regard to the immigration status of the victim. A set aside of the total appropriation for the following purposes is as follows: three percent for research, evaluation, and statistics; five percent for training and technical assistance; and one percent for management and administration of grant funds.

TYPES OF ASSISTANCE:

DIRECT PAYMENTS FOR A SPECIFIED USE; PROJECT GRANTS

USES AND USE RESTRICTIONS:

Funding under this program is intended primarily, but not exclusively, to meet victims' pre-certification needs. Pre-certification refers to the period of time between when trafficking victims are initially identified by law enforcement and officially certified by the Federal government as such. In FY 04, 10 cooperative agreements to provide comprehensive victim services were awarded under this program. During FY 05, OVC made one award of \$281,595 to support training and technical assistance to victim service organizations to

enhance their services to trafficking victims. OVC also made one award of \$499,155 to a grantee for the provision of comprehensive services. Beginning in 2004, OVC joined with its sister agency, the Bureau of Justice Assistance (BJA) to support an expanded strategy of funding anti-trafficking task forces in cities throughout the country known to have a high concentration of trafficking victims. This task force strategy focuses on enhancing law enforcement's ability to identify and rescue victims of human trafficking; providing law enforcement with the resources and training to identify and rescue victims of trafficking; and to ensuring that comprehensive services are available wherever trafficking victims are found. OVC and BJA released a joint competitive solicitation in FY 06 that resulted in the creation of 10 new law enforcement task forces and funding for victim service provision in areas where new task forces were formed. In FY 07, BJA awarded supplemental funding to six task forces. BJA has provided funding to 42 local and state law enforcement anti-trafficking task forces across the country. In FY 07, OVC awarded supplemental funding to 14 Services for Trafficking Victims grantees to continue providing services to pre-certified trafficking victims. In FY 08, OVC and BJA competitively awarded five grants to support task forces and service providers in additional communities. To date, OVC has funded 43 victim service agencies to provide a wide range of services to trafficking victims in the United States. Comprehensive Services awards support the creation and/or enhancement of collaborative networks that will provide critical services for trafficking victims within a given community or region. These awards are intended to build community-based networks of comprehensive, integrated, and culturally appropriate services for trafficking victims. Applicants must demonstrate to capacity to quickly mobilize resources to accommodate the needs of potentially large numbers of victims and the ability to coordinate with other trafficking programs and other service providers. In FY 09, OVC plans to provide continuation funding to support ongoing services to victims in 12 existing task forces. In order to receive Department of Justice funding support and the assistance of the local U.S. Attorney, local law enforcement agencies and victim services providers are required to enter into a Memorandum of Understanding with all task force members committing themselves to collaborating together on investigations and assistance to victims. Also in FY 09, OVC anticipates releasing a competitive solicitation, entitled OVC Services for Domestic Minor Victims of Human Trafficking. This will be a demonstration project which will identify promising practices in the delivery of a comprehensive array of services to victims of severe forms of human trafficking who are U.S. citizens or lawful permanent residents under the age of 18. OVC will partner with the U.S. Department of Justice, Office of Justice Programs, National Institute of Justice (NIJ) to conduct a participatory process evaluation of the two OVC -funded demonstration sites.

Funding from this program was previously transferred to the National Institute of Justice to support a ground-breaking evaluation of three of the OVC funded comprehensive service sites. Once approved for applying, an AEAP solicitation, with detailed instructions on applying as well as reporting requirements, will be posted on the OJP electronic Grants Management System (GMS). OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. AEAP: Whereas the previously submitted proposal letter, budget, and budget narrative were key factors in determining eligibility for funding, they were submitted prior to the posting of a solicitation. Application materials submitted electronically through GMS in response to either the assistance or compensation solicitation become permanent parts of the award file. Thus, it will be necessary to resubmit the proposal letter, budget, and budget narrative documents as part of the application package. Applications will be accepted following an incident of terrorism or mass

violence in accordance with the timetable set forth in the AEAP Guidelines. There are two factors that determine the application submission requirements for the AEAP: (1) the applicant status, i.e., government agency (Federal, State, or local), non-governmental organization, or victim service organization; and (2) the type of support requested, i.e., crisis response, consequence management, criminal justice, victim compensation, technical assistance (nonmonetary assistance). OBJECTIVES:

To provide communities with critical resources that help them forge partnerships across agencies and disciplines to respond effectively to violent crimes against women. OVV's Technical Assistance Program was created to provide grantees with the expertise and support they need to develop and implement successful local projects, increase victim safety, and bolster offender accountability. Grantees participate in educational initiatives, conferences, peer-to-peer consultations, and targeted assistance that allow them to learn from experts and one another about how to overcome obstacles and incorporate promising practices in their efforts to address violence against women. AUTHORIZATION:

Juvenile Justice and Delinquency Prevention Act of 2002, Sections 221-223, 42 U.S.C. Sections 5631-5633.

OBJECTIVES:

To increase the capacity of State and local governments to support a variety of programs related to delinquency prevention and reduction, juvenile justice system improvement, research, evaluation, statistical analysis, and training and technical assistance.

TYPES OF ASSISTANCE:

FORMULA GRANTS; PROJECT GRANTS

USES AND USE RESTRICTIONS:

This program, established by the Juvenile Justice and Delinquency Prevention Act of 2002, allocates formula grant funds to States and territories on the basis of their relative population under age 18. The minimum allocation to each State is \$600,000 and to the Territories is \$100,000. States/Territories must demonstrate compliance with four core requirements of the JJDP act in order to receive their full allocation of Formula Grants funds. The core requirements

are: Section 223(a) (11) deinstitutionalization of status offenders; (12) separation of adults and juveniles in secure custody; (13) removal of juveniles from adult jails and lockups; and (22) the elimination of the disproportionate contact of minority juveniles, where such conditions exist. The State's allocation will be reduced by 20 percent for each core requirement with which the State is in non-compliance. Technical Assistance: Not in excess of two percent of the funds available each fiscal year to formula grants is available for grants and contracts with public and private agencies, organizations and individuals to provide assistance to States, units of general local governments, and combinations thereof, and local private agencies to facilitate compliance with Section 223 of the JJDP Act and implementation of the State Plan approved by OJJDP. Technical assistance provided under this provision is coordinated with the State agencies designated to implement the formula grants program. To be eligible for formula grant funds, a State must submit electronically a comprehensive plan applicable to a 3-year period embodying the purposes of the Act and including provisions that: (1) provide for an advisory group appointed by the chief executive of the State to carry out specified functions and to participate in the development and review of the State's juvenile justice plan; (2) provide that juveniles who are charged with or who have committed offenses that would not be criminal if committed by an adult, or offenses which do not constitute violations of valid court orders or such non-offenders as dependent and neglected children, are removed from secure juvenile detention and secure correctional facilities; (3) provide that juveniles alleged to be or found to be delinquent and youths within the purview of the deinstitutionalization core requirement not be confined or detained in any institution in which they have contact with adult persons incarcerated because they have been convicted of a crime or are awaiting trial on criminal charges; (4) provide that no juvenile shall be detained or confined in any jail or lockup for adults (with specified exceptions); and (5) provide for programs to eliminate the disproportionate contact of minority juveniles where such condition exists. Once the plan is approved, each State determines the specific programs to be funded. The States are responsible for processing applications for subgrants and administering funded projects. Two-thirds of funds must be passed through to units of general local government, private nonprofit agencies, and Indian Tribes performing law enforcement functions unless a waiver is granted.

Applicant Eligibility:

The Chief Executive of each State which chooses to apply for a formula grant shall establish or designate a State agency as the sole agency for supervising the preparation and administration of the plan, in accordance with the Juvenile Justice and Delinquency (JJDP) Act of 2002. Technical Assistance: Grants and contracts may only be made to agencies, organizations and individuals that have experience in providing technical assistance to State agencies in implementing State plans, and in facilitating compliance with Section 223 of the JJDP Act, Public Law 102-586.

Project Alert. NCMEC provides targeted fax distribution for missing-child posters. Utilizing the coded databases of 4 million fax numbers, NCMEC distributes more than 50,000 fax transmissions per month to law-enforcement personnel, media outlets, and the general public. Now numbering 59, the ICAC Task Forces are on the front line addressing computer facilitated child sexual exploitation through aggressive investigations, prosecutions, computer forensics and community outreach. The Task Forces have become regional centers of technical and investigative expertise offering both prevention and investigative services to youth, parents, educators, law enforcement, and others working on child sexual exploitation issues. Since the program's inception in 1998, the Task Forces have reviewed over 200,000 complaints over the last nine years, resulting in the arrest of almost 11,000 individuals across the country intent on sexually victimizing children. Once source of complaints reviewed by the ICAC Task Forces is CyberTipline referrals forwarded from the National Center for Missing Exploited Children's. The CyberTipline has received over 500,000 tips and complaints since the system was activated in 1998. The ICAC Training and Technical Assistance Program, an OJJDP supported effort, provides training to tens of thousands of law enforcement personnel and prosecutors in the United States and around the world in 17 countries. In fiscal year 2007 alone, ICAC investigations led to more than 2,400 arrests and more than 10,500 forensic examinations. To date there have been 399 successful AMBER alert child recoveries. Fiscal Year 2008: During fiscal year 2001, the Office of Juvenile Justice and Delinquency Prevention provided continuation funds to the National Youth Gang Center which assesses the nature and extent of the gang problem, reviews the current gang literature, advances statistical data collection and analyses, identifies promising program models, and integrates this body of information into user-friendly dissemination products. OJJDP also provided continuation funds to two existing demonstration sites to continue and enhance the implementation of a Comprehensive Community-Wide Approach to Gang Prevention, Intervention, and Suppression Program, which utilizes the program model developed by Dr. Irving Spergel and colleagues at the University of Chicago. These sites continued implementing the comprehensive model program which is based on a thorough assessment of the nature, causes, and extent of the community's gang violence problem. In addition, an Evaluation of the Comprehensive Community-Wide Approach to Gang Prevention, Intervention, and Suppression Program was provided continuation funds. In 2001, OJJDP funded the Rural Gang Initiative (RGI) which provides support to rural communities interested in addressing local gang problems using the OJJDP Comprehensive Model. OJJDP's Comprehensive gang model is also being implemented in 10 communities as part of the Gang Free Schools and Communities initiative. Four of these communities are demonstrating a school emphasis in their community-wide gang programs. The Boys and Girls Clubs of America (B&GCA) will continue to expand its efforts in preventing at-risk youth from becoming involved in gangs. During FY 2001, the Boys and Girls Clubs added 30 new gang prevention sites, 4 new gang intervention sites and 3 new "Targeted Reintegration" sites where clubs provide services to youth returning to the community from juvenile correctional facilities to help prevent them from returning to gangs and violence. property damage. If the sums available in the Fund for grants under this program are insufficient to provide grants of 60 percent as provided above, grants from the sums available will be made to each eligible crime victim compensation program so that all such programs receive the same percentage of the amounts awarded by such programs during the preceding fiscal year, other than amounts awarded for property damage. A crime victim compensation program is an eligible crime victim compensation program if (1) such program is operated by a State and offers compensation to victims and survivors of victims of criminal violence, including drunk driving and domestic violence for: (A) medical expenses attributable to a physical injury resulting from a compensable crime, including expenses for mental health counseling and care; (B) loss of wages attributable to a physical injury resulting from a compensable crime; and (C) funeral expenses attributable to a death resulting from a compensable crime; (2) such program promotes victim cooperation with the reasonable requests of law enforcement authorities; (3) such State, possession or territory certifies that grants received under this program will not be used to supplant funds otherwise available to provide crime victim compensation; (4) such program, as to compensable crimes occurring within the State, possession or territory, makes compensation awards to victims who are nonresidents of the State, possession or territory on the basis of the same criteria used to make awards to victims who are residents of the State, possession or territory; (5) such program provides compensation to victims of Federal crimes occurring within the State on the same basis that such program provides compensation to victims of State crimes; (6) such program does not, except pursuant to rules issued by the program to prevent unjust enrichment of the offender, deny compensation to any victim because of that victim's familial relationship to the offender, or because of the sharing of a residence by the victim and the offender; (7) such program does not provide compensation to any person who has been convicted of an offense under Federal law with respect to any time period during which the person is delinquent in paying a fine, other monetary penalty, or restitution imposed for the offense; and (8) such program provides such other information and assurances related to the purposes of this section as the Director may reasonably require. Section 1403(c), any amount of crime victim compensation that the applicant receives through a crime victim compensation program under this section shall not be included in the income of the applicant until the total amount of assistance that the applicant receives from all such programs is sufficient to fully compensate the applicant for losses suffered as a result of the crime. PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2008: OVC supports the development of training, technical assistance, and demonstration projects to expand and improve the quality of services to crime victims. In recent years, OVC has directed substantial funding to developing resources for the field that will assist victim advocates and other allied practitioners in reaching and serving victims from populations that have been largely underserved including victims with disabilities, immigrant victims, victims in rural areas or large urban centers, victims from cultural, ethnic and racial minority groups, teen victims, and victims who are Lesbian, Gay, Bisexual, Transgendered, and Questioning. Serving child and adult victims of sexual assault remains problematic for many communities, and OVC continues to support several training and technical resources that foster the replication of Sexual Assault Response Teams across the nation, OVC also funds a biennial Sexual Assault Response Team (SART) National Training Conference to provide multi-disciplinary training to SART members. Various other solicitations provide funding for projects in Indian Country. These grants support victim assistance programs for Indian tribes under Federal criminal justice jurisdiction, including 28 victim assistance programs, one elder abuse demonstration program, a training and technical assistance grant for OVC's

American Indian/Alaska Native grantees, tribal CASA programs, grants to support faith-based organizations which provide counseling services to American Indian/Alaska Native crime victims, and a project to provide training to tribal leaders on the critical role of their support of tribal victim assistance programs. OVC also has funded the planning and implementation of State Victim Assistance Academies to meet the entry-level educational and training needs of a broad range of victim assistance providers and allied professionals who work directly with victims of crime. OVC also supports public awareness initiatives on crime victims' rights and issues, including the annual dissemination of a resource kit to the field to assist their activities during National Crime Victims Rights Week (NCVRW) and the sponsorship of an annual NCVRW awards ceremony for exemplary service providers and organizations. OVC has funded several key projects that focus on strengthening collaboration and cross-training between victim assistance and faith-based providers, in order to improve services for crime victims. In FY 2007, OVC funded discretionary programs to assist victims of identity theft and financial fraud. Also in FY 2007, OVC funded the development and delivery of a National Professional Training Conference on Responding to Victims of Crime with Disabilities to be held in 2009 and two national demonstration projects designed to replicate successful multidisciplinary response models to victims with disabilities. In FY 2008, OVC continued many of these initiatives and also funded initiatives for postsecondary educational institutions to incorporate crime victims issues into college and university curricula; new State Victim Assistance Academies; new public awareness and outreach campaigns for underserved communities; and for counseling and faith-based services to victims in Indian Country, among others. OVC has continued to fund assistance and services for victims of terrorist attacks. Assistance has included toll-free information lines, Family web sites, informational briefings, travel to criminal Justice proceedings, and mental health counseling. In addition, OVC works in liaison with other Federal agencies to coordinate services for victims of terrorism; has worked with the Center for Mental Health Services at HHS to develop training for mental health service providers on assisting victims of terrorism and mass violence; is working with the Office for Domestic Preparedness to provide training to enhance the capacity of first responders to deal effectively with victims of terrorism; provides funding for a community-based assessment and planning process to help states and local communities design and implement a strategic plan for responding to victims of criminal mass violence; and provides funding to track kidnapped children taken across international borders (in parental abductions) to help their left-behind parents attend court hearings and return to the US with their children. In FY 2009, OVC continued many of these projects as well as set aside money in the Antiterrorism Emergency Reserve to respond to future incidents of terrorism and mass violence occurring both within the United States and abroad and to fund an International Terrorism Victim Expense Reimbursement Program. Other examples of programs to be funded in FY 2009 include intensive case management programs for family members of homicide victims in rural areas; tribal victim assistance programs, including the Tribal Victim Assistance Program, the Counseling and Faith-Based Services in Indian Country program and the National Court-Appointed Special Advocates in Indian Country initiative; identity theft victim assistance collaborative networks; and new public awareness and outreach programs focused on underserved communities as well as national-scope partnership projects with allied professionals. 16.606 STATE CRIMINAL ALIEN ASSISTANCE PROGRAM

SCAAP

FEDERAL AGENCY:

Bureau of Justice Assistance, Department of Justice

AUTHORIZATION:

Omnibus Appropriations Act, Public Law 106-113, Division B, Section 1000(a); Immigration and Nationality Act, 8 U.S.C. 1252, Section 242 as Amended; Title II, subtitle C, Section 20301; Violent Crime Control and Law Enforcement Act of 1994, Public Law 103-322.

OBJECTIVES:

The State Criminal Alien Assistance Program (SCAAP) is a payment program designed to provide federal assistance to states and localities that incur costs for

incarcerating undocumented criminal aliens who are being held as a result of state and/or local charges or convictions. BJA administers this program in conjunction with the Department of Homeland Security's (DHS) Immigration and Customs Enforcement (ICE), and U.S. Citizenship and Immigration Services branches.

TYPES OF ASSISTANCE:

DIRECT PAYMENTS WITH UNRESTRICTED USE

USES AND USE RESTRICTIONS:

The Department of Justice Reauthorization Act of 2005 (Public Law 109-162, Title XI) included the following requirement regarding the use of SCAAP funds: "Amounts appropriated pursuant to the authorization of appropriations in paragraph (5) that are distributed to a State or political subdivision of a State, including a municipality, may be used only for correctional purposes." All funds must be used for correctional purposes only. To be eligible for reporting, inmates must have been convicted of a felony or second misdemeanor for violations of state or local law, and housed in the applicant's state or local correctional facility for 4 or more consecutive days during the reporting period. Once a person meets these criteria, all pre-trial and post-conviction time served may be included in the application. Salary information reported in the SCAAP application must reflect the total salaries and wages paid to full and part-time correctional officers and others who meet the SCAAP definition. See the SCAAP Guidelines at <http://www.ojp.usdoj.gov/BJA/>.

Applicant Eligibility:

Eligible applicants include States, the District of Columbia, Puerto Rico, Guam, the Virgin Islands and localities or local jurisdictions exercising authority with respect to the incarceration of an undocumented criminal alien. This covers state prison facilities (including those housing juveniles convicted as adults of felony offenses or two or more misdemeanors) and local jails, whether operated by counties or cities. Applicants are generally State and units of local government. Note: Only one application is accepted from each separate political division (i.e., State, county, city).

Beneficiary Eligibility:

States, the District of Columbia, Puerto Rico, Guam, the Virgin Islands and localities or local jurisdictions.

Credentials/Documentation:

Applicants who are seeking funding must complete an electronic application form via the Office of Justice Programs Grant Management System (GMS). Inmate data, including the proper inmate identifiers, will either be manually key-stroked into the on-line application system, or submitted on-line by electronically attaching the applicable portions of the applicants inmate databases. The authorized official certifies compliance with all SCAAP requirements, including that: the applicant has been authorized by the Chief Executive Officer of the applicable unit of government; the inmate identifiers required have been submitted to BJA in the proper format(s) for Immigration and Customs Enforcement (ICE) verification within the prescribed deadlines; all inmates counted by the applicant have been convicted of either a felony or two misdemeanor offenses under the applicant's law; and, only salary costs for corrections officers were included in the Total Salary Costs. By certifying on-line, the authorizing signing official is also assuring that all federal certifications and assurances are being met. The certification and assurance forms (Assurances, OJP Form 4000/3 and Certifications Regarding Lobbying; Debarment, Suspension and Other Responsibility Matters; and Drug-Free Workplace Requirements, OJP Form 4061/6) are provided on-line to allow applicants to review and accept them electronically. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

This program is excluded from coverage under OMB Circular No. A-102. This program is excluded from coverage under OMB Circular No. A-110. SCAAP

applications are administered via the Office of Justice Programs Internet-based Grants Management System. Inmate data, including the proper inmate identifiers, may either be manually key-stroked into the on-line application system, or submitted on-line by electronically attaching the applicable portions of their inmate databases. Awards are announced after the ICE inmate verification process is done. Technical assistance is available to applicants for preparation of the on-line application process by calling the OJP Grants Management System Hotline at 1-888-549-9901.

Award Procedure:

The final payment process requires that all applications and all data be fully processed and verified before any payments are made. Inmate data will be verified by the Immigration and Customs Enforcement. ICE will attempt to match the inmate data records provided to records in its databases to obtain the maximum number of confirmed matches. These matches are expected to include three categories: 1) those positively identified (matched) as qualifying undocumented criminal aliens; 2) those unknowns and 3) those positively identified as non criminal aliens. Applicants will be given credit for a percentage of inmates whose eligibility cannot be determined through positive identification or "match," but have valid foreign countries of birth. Payments will be based on the days of incarceration for the verified number of aliens incarcerated by each applicant. Payments are granted by the Director of the Bureau of Justice Assistance, Office of Justice Programs, Department of Justice. The payment must be accepted on-line and the acceptance will effect a simultaneous assurance of compliance with conditions. Acceptance of the payment online initiates the automatic electronic transfer of funds from OJP to the recipient.

16.607 BULLETPROOF VEST PARTNERSHIP PROGRAM

BVP

FEDERAL AGENCY:

Bureau of Justice Assistance, Department of Justice

AUTHORIZATION:

Bulletproof Vest Partnership Grant Act of 1998, Public Law 105-181, June 16, 1998, and Bulletproof Vest Program Act of 2000, Public Law 106-517.

OBJECTIVES:

To protect the lives of law enforcement officers by helping State, local, and tribal law enforcement agencies provide officers with armored vests.

TYPES OF ASSISTANCE:

DIRECT PAYMENTS FOR A SPECIFIED USE

USES AND USE RESTRICTIONS:

The program pays up to 50 percent of the total cost of each vest order. Total cost includes the cost of the vests, vest carriers, attachments, inserts, and covers considered integral or essential for its proper care, use, and wearability, shipping, handling, fitting charges, and applicable taxes. The total invoiced price, after all vendor and prompt payment discounts have been deducted, is what the Bureau of Justice Assistance (BJA) uses to determine the Federal match. This program only allows the purchase of body armor that has been

tested and found to comply with applicable ballistic and stab standards promulgated by the National Institute of Justice's (NIJ) Standard 0101.03 Ballistic Resistance of Police Body Armor. In FY 2001, stab-resistant body armor was also included in the program as an allowable purchase.

Applicant Eligibility:

Only chief executives of jurisdictions (or their designees) may apply for funds. Jurisdictions are defined as general purpose units of local government (e.g., cities, towns, townships, boroughs, counties, etc.), Federally-recognized Indian tribes, the 50 State governments, the District of Columbia, the Commonwealth of Puerto Rico, the U.S. Virgin Islands, American Samoa, Guam, and the Northern Mariana Islands. The chief executive of the jurisdiction registers on-line, submits the jurisdiction application, and requests payment for completed vest orders.

Beneficiary Eligibility:

Only law enforcement officers may receive vests through this program. According to the Act, "law enforcement officer" means any officer, agent, or employee of a State, unit of local government, or an Indian tribe authorized by law or by a government agency to engage in or supervise the prevention, detection, or investigation of any violation of criminal law, or authorized by law to supervise sentenced criminal offenders. Eligible officers may be full-time, part-time, paid or volunteer.

Credentials/Documentation:

Eligible jurisdictions must be general purpose units of local government, Federally-recognized Indian tribes, the 50 state governments, the District of Columbia, the Commonwealth of Puerto Rico, the U.S. Virgin Islands, American Samoa, Guam, and the Northern Mariana Islands. The validity of the on-line registration process is verified through independent reviews which may include certification by the banking institutions serving the jurisdiction, the U.S. Census Bureau, and agencies within the U.S. Department of Justice. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

This is an Internet-based program. The jurisdiction is required to complete and submit an on-line registration form, providing information about the jurisdiction's chief executive officer, program contact person, and electronic banking information. The registration process is handled through the program's web site <http://vests.ojp.gov>. For jurisdictions without Internet capability, other means of registration are available. Only those jurisdictions with approved registrations are permitted to make application. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under OMB Circular No. A-102. This program is excluded from coverage under OMB Circular No. A-110. The jurisdiction submits the application to BJA via the Internet web site <http://vests.ojp.gov>. On-line instructions guide the jurisdiction through the application process. Law enforcement agencies or agencies with law enforcement functions which meet the Act's definition, will assist in completing the jurisdiction's on-line application by indicating the types, numbers, and costs of vests they intend to order. For jurisdictions and/or agencies without Internet capability, other means of application are available. Only those jurisdictions that complete and submit applications will be eligible for matching funds from BJA.

Award Procedure:

Applications received by BJA are reviewed for completeness, accuracy, and compliance with all program requirements. Each application is then checked against the availability of funds to cover up to 50 percent of the application's total cost, in keeping with established criteria for program fund allocation. When all checks are complete and the application approved, the jurisdiction is notified through e-mail that the necessary funds have been obligated.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

A minimum of 15 working days may be required for complete registration validation, although jurisdictions and law enforcement agencies will have

immediate access to certain program components during this validation process. A minimum of 20 working days may be required after the program closes for approval of the jurisdiction's application for funding. A minimum of 25 working days may be required for the electronic transfer of funds from the U.S. Treasury to the jurisdiction's bank account, once the request for funds has been received, reviewed, and approved by the Office of Justice Programs.

Appeals:

Not Applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula. Matching Requirements: Percent: 50%. The program requires that each applicant jurisdiction be responsible for providing at least 50 percent of the cost of each vest purchased. Tribal governments may use Federal funds to provide this match; all other jurisdictions must use nonfederal match funds. Nonfederal fund sources include State and/or local jurisdiction revenues, private or personal funds, and contributions from insurance or workman's compensation consortiums. Asset forfeiture funds may also be used to meet the jurisdiction's matching requirement. Beginning in FY 2002, changes (Bulletproof Vest Partnership Act of 2000; Public Law 106-517) gives preference to small jurisdictions (those populations below 100,000) guaranteeing them the full 50 percent match payment before payments are calculated and approved for larger jurisdictions. MOE requirements are not applicable to this program.

MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Jurisdictions with approved applications must request the federal match no later than September 30th of the fourth federal fiscal year following the end of the federal fiscal year in which their application was approved. In other words, the jurisdiction has four years beyond the year of their application to request payments for vests contained in that application. Payments of the federal match will be made whenever the jurisdiction indicates that at least part of the approved vest order was received and invoiced. See the following for information on how assistance is awarded/released: See program office for more information.

Reports:

Audits:

This program is excluded from coverage under OMB Circular No. A-133. Payments and transactions are subject to audits by the General Accounting Office, Department of Justice's Office of the Inspector General, state or local government auditors, and auditors from independent public accounting firms. Jurisdictions must follow their local procurement policies and procedures, including maintenance of reliable and accurate accounting systems, record keeping, and systems of internal control.

Records:

Recipients of federal funds are expected to retain documentation supporting all program transactions for at least three years after the closure of audit reports related to such funding. If any litigation, claim, negotiation, audit, or other action involving records has been started before the expiration of the three year period, the records must be retained until completion of the action and resolution of all related issues, or until the end of the regular three year period, whichever is later.

**16.727 ENFORCING UNDERAGE DRINKING LAWS PROGRAM
FEDERAL AGENCY:**

Office of Juvenile Justice and Delinquency Prevention, Department of Justice
AUTHORIZATION:

The statutory authority for the EUDL Block Grant Program may be found within Section 504 of the Juvenile Justice and Delinquency Prevention Act, 42 U.S.C. 5783. Congress has delegated the authority to administer the EUDL Program to the Office of Juvenile Justice and Delinquency Prevention (OJJDP), in the U. S. Department of Justice's (DOJ's) Office of Justice Programs (OJP) under the Consolidated Appropriations Act, 2008, P.L. 110-161.

OBJECTIVES:

The EUDL Program supports and enhances states' and local jurisdictions' efforts to prohibit the sale of alcoholic beverages to minors and the purchase and consumption of alcoholic beverages by minors. (For the purpose of this solicitation, "minors" are defined as individuals under the age of 21.) Activities under the EUDL Program may include: -Statewide task forces of state and local law enforcement and prosecutorial agencies to target establishments suspected of a pattern of violations of state laws governing the sale and consumption of alcohol by minors. -Public advertising programs to educate establishments about statutory prohibitions and sanctions. -Innovative programs to prevent and combat underage drinking.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

The Enforcing the Underage Drinking Laws (EUDL) Program allocates block grants for every state and the District of Columbia to enforce state laws prohibiting the sale of alcoholic beverages to minors and to prevent the purchase or consumption of alcoholic beverages by minors. From fiscal years (FYs) 1998 to 2008, Congress appropriated \$25 million annually to OJJDP for

its EUDL program. In fiscal year 2008, a total of \$25 million will be awarded as block and discretionary grants in the following manner: Funds will be dispersed in the amount of \$350,000 to each State, each Territory, and the District of Columbia in block grants totaling \$19,600,000.00 to support and enhance efforts by States, in cooperation with local jurisdictions, to prohibit the sale of alcoholic beverages to, or consumption of alcoholic beverages by minors. Funds will be dispersed to support discretionary program activities in local jurisdictions, as well as training and technical assistance to all States. To support local discretionary programming activity, funds plan to be competitively awarded to State agencies receiving block grants. The local programs implement the comprehensive approach to curtailing access and consumption of alcoholic beverages by minors, including the enforcement of laws pertaining to underage alcohol purchase, possession, and use. For purposes of this initiative, minors are defined as individuals under 21 years of age. These funds cannot be used to supplant existing programs and activities (Supplanting means to deliberately reduce State or local funds because of the existence of Federal funds).

The designated State agencies may apply to receive a Discretionary Grant. Their applications must detail a comprehensive approach to curtailing access and consumption of alcoholic beverages by minors, including the enforcement of underage drinking laws and how that approach will be implemented by State-selected local communities. States are encouraged to link with ongoing public and private efforts (including those of foundations and national organizations). EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2008: The Suquamish Tribe, Washington is addressing substance

abuse related delinquency among Indian youth through a prevention program targeting young people ages 10 to 21. The program consists of after school activities focusing on teaching youth leadership skills, communication skills, and traditional survival skills. The program includes cultural activities and opportunities for youth to become involved with the community. The goal of the activities and skills building is to improve young people's ability to avoid involvement with drugs and alcohol and delinquent behavior, and to strengthen youth, family, and community interactions. Implementing a graduated sanctions program for youth convicted of underage drinking and curfew violations. The program is administered through the joint effort of the Tribal Court and the Menominee Office of Family Preservation and Support. Juveniles are referred to the program by the Tribal Court. The program seeks to reduce recidivism amongst juveniles that enter the program. The program includes alcohol abuse education classes to teach juveniles about the danger, both physically and spiritually, that alcohol can cause. The program also provides drug and alcohol abuse assessment and treatment along with a community service component. Muscogee (Creek) Nation proposes to establish a Juvenile Delinquency Prevention and Services Program to provide prevention services to impact risk factors for delinquency and improve its juvenile justice system. The Nation's proposed project will promote delinquency prevention by providing intervention and education, resource, and support activities to tribal youth identified as at-risk; provide advocacy to tribal youth entering the state juvenile justice system; and develop and implement juvenile probation services. During the three year project period, the Nation will provide the following: delinquency prevention services, including individual/family needs assessment, service plan development, and individual/family home-based counseling, to at least seventy-five 12-17; advocacy to at least thirty (30) youth under the age of 17 entering the State of Oklahoma juvenile justice system; and probation services, including home visits, community service, and case management, to between 10-15 youth under the age of 17, who are identified as delinquent by the Nation's District Court. The Cheyenne and Arapaho Tribes of Oklahoma intend to develop a program that will reduce the high incidence of violence among the Tribal Youth that reside within the eight county service area through a community-based approach. The project will be developed in order to prevent the widespread use of alcohol and drugs through the use of education awareness, recreational activities, and tradition/cultural activities by developing on-site classes and on-site activities in the four target communities during the summer months for the tribal youth, ages 6 - 17. The other objective of this grant shall be to reduce the high incidence of school truancy, the high percentage rate of dropouts from the local school system through increased awareness of the importance of a formal education from the local school districts. The project will work with the whole family unit by providing a Mentor within the communities that will strive to increase the self-esteem of the Cheyenne and Arapaho students, and to reduce the incidence of child neglect, teen pregnancy, through the use of Parenting Skills Training and Sex Education classes. The Southern Ute Indian Tribe in Colorado is attempting to reduce delinquency and substance abuse among at-risk and court-involved Native American youth. Using FY04 Tribal Youth Program funds, the Southern Ute Tribe is supporting the collaborative efforts of two tribal government departments (the Southern Ute Social Services Division and the Southern Ute Tribal Court) and a tribally affiliated nonprofit (Youth Services Division of SouthernUteCommunity Action Programs, Inc.) to address juvenile delinquency on multiple fronts. The program, which serves approximately 85 juveniles a year (ages 8 to 17), includes a variety of elements such as an evidence-based parenting program which aims to improve the communication, problem solving, and life skills of at-risk youth and their parents, and a Teen Court which allows Native American youth to participate in the sentencing portion of certain juvenile misdemeanor and felony cases. In addition, the Teen Court is developing its sentencing procedures to use sentencing circles, a process that engages youth in meaningful interactions with defendants and is designed to increase their connection to the community. The Swinomish Indian Tribal Community of Washington is a relatively small rural community, gripped by significant drug and alcohol abuse. Recognizing the importance of stemming the tide of youth substance abuse and delinquent behavior, the Swinomish Tribal Community has established a team of tribal court and social services personnel to plan and implement the Swinomish Youth Wellness Court (SYWC). The focus is to improve the tribal juvenile justice system and provide alcohol and drug abuse prevention programs. The expected target population for the SYWC is youths between the ages of 12 and 17. There are currently 64

tribal members within the target age and 228 members under the age of 18. It is anticipated that the SYWC will provide services to 10 to 15 clients yearly when fully operational. Fiscal Year 2009: No Current Data Available Fiscal Year 2010: No Current Data Available

Formula and Matching Requirements:

Statutory formulas are not applicable to this program. Matching Requirements: The Bureau of Justice Statistics (BJS) calculates, for each state and territory, a minimum base allocation which, based on the congressionally mandated JAG formula, can be enhanced by (1) the states share of the national population, and (2) the states share of the country's Part 1 violent crime statistics. Once the State funding is calculated, 60 percent of the funding is awarded to the State and 40 percent to the eligible units of local government. State also have a variable percentage of the allocation that is required to be passed through to units of local government. This amount, as calculated by BJS, is based on each State's crime expenditures. Additionally, the formula then calculates direct allocations for local governments within each state, based on their share of the total violent crime reported within the state. Local governments entitled to at least \$10,000 awards may apply directly to BJA for local JAG grants. There is no match required at the Federal level. However matching is an effective strategy for states and local units of government to expand justice funds and build buy-in for local criminal justice initiatives.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2008: No Current Data Available
Fiscal Year 2009: In FY 2009, BJS is processing and analyzing data from four different collections obtained under the Prison Rape Elimination Act of 2003 (PREA) the Survey of Sexual Violence (SSV), the first and second years of the National Inmate Survey (NIS), the National Survey of Youth in Custody (NSYC), and the Former Prisoner Survey (FPS). Between October 2008 and April 2009, data were collected from 32,000 inmates in 167 prison facilities in the second round of the NIS; data collection in jail facilities is ongoing and will be completed in August 2009. Between June 2008 and April 2009, BJS fielded the NSYC, the first and largest self-report data collection to focus on sexual victimization in juvenile facilities. At the end of data collection, the NSYC surveyed roughly 10,500 adjudicated youth in 168 State-operated facilities and 29 large non-State facilities. Facility rankings will be released in December 2009. The FPS was fielded from January through November 2008, with nearly 18,000 interviews completed with former state prisoners being actively supervised by 285 state parole offices nationwide. The FPS represents the first national survey of offenders under parole supervision. Because former inmates have completed their term of incarceration, the FPS provides the first look at reports of sexual victimization across the entire period of confinement, including both local jail and state prison stays. BJS anticipates publication of final data findings by the end of the year. BJS, in conjunction with NIJ and CDC, has continued work on the National Prison Rape Surveillance Project, using medical indicators and medical surveillance methodologies to measure the incidence and prevalence of sexual assault in correctional facilities. OMB approval for the Clinical Indicators of Sexual Violence in Custody (CISVC) was received in April 2009, and data collection is expected to begin in January 2010. Upcoming reports include findings from the most recent SSV administrative records collections and findings from the NSYC, the second year of NIS, and the FPS. OBJECTIVES:

The goal of NIJ's Forensic DNA Backlog Reduction Program for Fiscal Year (FY) 2008 is to assist eligible States and units of local government to reduce forensic DNA case turnaround time, increase the throughput of public DNA laboratories, and reduce DNA forensic casework backlogs. These improvements are critical to preventing future DNA backlogs and to helping the criminal justice system use the full potential of DNA technology.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

Expenditures from Forensic DNA Backlog Reduction Program awards may include the following: (1) Salary and benefits of additional laboratory employees: Funds may be used to hire additional full-time or part-time laboratory employees who will be directly engaged in handling, screening, and/or analyzing forensic evidence that may contain DNA, or in validating new DNA analysis technologies. Matching funds are not required. NIJ makes no

assurance that funds will be available for this purpose in future award announcements. (2) Overtime for existing laboratory staff: Funds may be used to pay overtime for existing laboratory employees who will be directly engaged in handling, screening, and analyzing forensic evidence that may contain DNA, or in validating new DNA analysis technologies. Any payments for overtime must be in accordance with the applicable provisions of the OJP Financial Guide, available at <http://www.ojp.usdoj.gov/finguide06>. (3) Training: Funds may be used for appropriate training of DNA laboratory personnel. - Existing members of the DNA unit: Appropriate training may include internal or external training, appropriate continuing education/training opportunities, and/or applicable graduate-level coursework that is directly related to the applicant's forensic DNA laboratory operation and is for members of the DNA Unit. (Reasonable travel expenses directly associated with training may be paid in accordance with the provisions of the OJP Financial Guide.) Funds associated with internal or external training, appropriate continuing education/training opportunities, and/or applicable graduate-level coursework for existing members of the DNA Unit (including travel expenses) are limited to no more than 5 percent of the total award. Expenses that may be allowable include the purchase or upgrade of benches, cabinets, interior dividing walls, plumbing, HVAC systems, electrical wiring, evidence examination and preparation rooms, evidence storage rooms, drying rooms, walk-in freezers, and extraction or amplification rooms. (9) Consultant and contractor services other than sending forensic DNA casework samples to accredited fee-for-service laboratories for analysis: Funds may be used to hire consultants and/or temporary contract staff to handle, screen, and analyze forensic evidence that may contain DNA or to validate new DNA analysis technologies. Funds may also be used to hire consultants or contractors to assist laboratories with the installation of LIMS or expert systems, or with the implementation of DNA process-improvement measures. (10) Sending forensic DNA casework samples to public or private accredited forensic DNA laboratories for analyses: Funds may be used to send samples to accredited fee-for-service laboratories to conduct DNA analyses. Funds may also be used to enter into agreements with accredited government-owned laboratories to conduct DNA analyses, perform data review, enter eligible forensic DNA profiles into CODIS, and, where applicable, upload to NDIS. If an eligible applicant chooses to send samples to an external accredited forensic DNA laboratory, the applicant will be responsible for ensuring that applicable NDIS Data Acceptance Standards are met for all profiles uploaded to NDIS. 16.748 CONVICTED OFFENDER AND/OR ARRESTEE DNA BACKLOG REDUCTION PROGRAM (IN-HOUSE ANALYSIS AND DATA REVIEW)

FEDERAL AGENCY:

National Institute of Justice, Department of Justice

AUTHORIZATION:

Science, State, Justice, Commerce, and Related Agencies Appropriations Act.

OBJECTIVES:

The objective of this program is to accelerate the analysis of convicted offender and/or arrestee DNA samples collected by States pursuant to applicable law for databasing purposes (hereinafter, "DNA database samples"), in order to provide timely Combined DNA Index System (CODIS)- compatible data for all 13 CODIS core STR loci for State and national DNA databases. Funds are to be used by a State's designated existing and accredited DNA database laboratory to reduce the backlog of DNA database samples in one of three ways: a) Through in-house analysis. The DNA database laboratory will determine what its backlog is and can apply for \$35.00 per sample to be analyzed. If the database laboratory lacks funding to ensure timely review of the profiles generated, it may apply for an additional \$5.00 per DNA profile generated in-house for a total of \$40.00 per sample tested in-house. b) Through sending samples to be tested by accredited fee-for-service laboratories. Funding requests for this option are to be calculated in exactly the same fashion as for the in-house testing option above. c) Through data review of sample profiles generated by an accredited fee-for-service laboratory. If the database laboratory lacks funding to ensure timely review of the profiles generated, it may apply for an additional \$5.00 per DNA profile generated. All profiles obtained from DNA database samples with funding provided under this announcement must be entered in the Combined DNA Index System (CODIS) within 90 days of completion of analysis and uploaded to the National DNA Index System (NDIS). Laboratories that receive funds from awards made under this announcement for sample testing and review must track and report the number of DNA database samples analyzed and/or reviewed under this fiscal year (FY) 2008 program and the number of resulting CODIS hits.

TYPES OF ASSISTANCE:

When a CASA volunteer was involved, both children and their parents were ordered by the courts to receive more services. The audit concluded that this was an indication that CASA is effective in identifying the needs of children and parents.

Cases involving a CASA volunteer are more likely to be permanently closed (i.e., the children are less likely to reenter the child welfare system) than cases where a CASA volunteer is not involved. Fiscal Year 2009: No Current Data Available Fiscal Year 2010: No Current Data Available

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2008: Currently, there are more than 700 Childrens Advocacy Centers across the nation in various stages of development. Last year, Childrens Advocacy Centers provided services to more than 240,000 children.

In August 2008, OJJDP published a bulletin Evaluating Childrens Advocacy Centers Response to Child Sexual Abuse which describes an evaluation of the effectiveness of four prominent Childrens Advocacy Centers and comparison communities in coordinating child abuse investigations and providing victim services. Important findings included:

- o Coordination of investigations: Police in CAC communities were involved in 81 percent of child protective services investigations of sexual abuse, compared to 52 percent in other communities. Team interviews (two or more observers) were more common in CAC cases (28 percent) than non-CAC cases (6 percent).

- o Medical exams: In the CAC sample, nearly half (48 percent) of child victims received a forensic medical examination, compared to less than a fourth (21 percent) of non-CAC cases.

- o Mental health services: Sixty percent of CAC children received referrals for mental health services compared to 22 percent in non-CAC communities. Of the CAC children referred, 31 percent were counseled onsite by a therapist specializing in treatment of child abuse victims.

Childrens Advocacy Centers have been growing internationally and are under development in Canada, Iceland, Poland, Norway, and Sweden. Fiscal Year 2009: No Current Data Available Fiscal Year 2010: No Current Data Available

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2008: The ICAC Task Force Program has been working to protect American children since 1998. The ICAC program is a national network of fifty-nine coordinated task forces representing over 2,000 federal, State and local law enforcement and prosecutorial agencies. These agencies are engaged in proactive investigations, forensic examinations, and effective prosecutions. By helping state and local law enforcement agencies develop effective and sustainable responses to online child victimization and child pornography, OJJDP and the ICAC program have built capacity at the local level to address ICAC related offences.

Since the programs inception in 1998, the ICAC Task Forces have reviewed over 100,000 complaints of alleged child sexual victimization resulting in the arrest of over 13,500 individuals.

In fiscal year 2007, ICAC investigations led to more than 2,400 arrests, over 10,500 forensic examinations, and the identification of nearly 400 children who were victims of some form of abuse and neglect.

In fiscal year 2008, the ICACs arrested over 3,000 individuals. Over one-third of those arrests (1,109) resulted in the acceptance of a plea agreement by the defendant in lieu of a trial.

In fiscal year 2007, the ICAC program trained over 20,000 law enforcement personnel and nearly 1,700 prosecutors. In fiscal year 2008, the number of trained law enforcement personnel increased to over 26,500, while an additional 2,219 prosecutors were trained.

Since the ICAC programs inception in 1998, nearly 100,000 law enforcement officers, prosecutors, and other professionals have been trained throughout the United States and in 17 countries around the world on techniques to investigative and effectively prosecute ICAC related cases. Such factors might include

- 1) Project objectives that are linked to meaningful and measurable outcomes consistent with the goals of the Recovery Act, and the likelihood of achieving such outcomes, such as job creation and preservation.

16.804 RECOVERY ACT - EDWARD BYRNE MEMORIAL JUSTICE ASSISTANCE GRANT (JAG) PROGRAM / GRANTS TO UNITS OF LOCAL GOVERNMENT

FEDERAL AGENCY:

Department of Justice

AUTHORIZATION:

The American Recovery and Reinvestment Act of 2009, Public Law 111-5, (the Recovery Act); Subpart 1 of Part E of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3750-3758).

OBJECTIVES:

The Recovery Act JAG programs allow states and local governments to support a broad range of activities to prevent and control crime and to improve the criminal justice system. The Recovery Act JAG program will solicit applications from eligible States, territories, tribes, and units of local government for state and local initiatives, technical assistance, training, personnel, equipment, supplies, contractual support, and information systems for criminal justice, as well as research and evaluation activities that will improve or enhance law enforcement programs related to criminal justice such as: prosecution and court programs; prevention and education programs; corrections and community corrections programs; drug treatment and enforcement programs; planning, evaluation, and technology improvement programs; and crime victim and witness programs (other than compensation).

In addition to fulfilling JAG program-specific purposes, projects funded under the Recovery Act should be designed to further one or more of the general purposes of the Recovery Act, which are to preserve and create jobs and promote economic recovery; to assist those most impacted by the recession; to

provide investments needed to increase economic efficiency by spurring technological advances in science and health; to invest in transportation, environmental protection, or other infrastructure that will provide long-term economic benefits; and to stabilize State and local government budgets, in order to minimize and avoid reductions in essential services and counterproductive State and local tax increases. For additional information on Office of Justice Programs Recovery Act Grant Programs, please visit the OJP website at <<http://www.ojp.usdoj.gov/recovery/>>.

JAG funds cannot be used directly or indirectly for security enhancements or equipment for nongovernmental entities not engaged in criminal justice or public safety. JAG funds also cannot be used directly or indirectly to provide for any of the following matters unless the Attorney General certifies that extraordinary and exigent circumstances exist, making them essential to the maintenance of public safety and good order:

- Vehicles (excluding police cruisers), vessels (excluding police boats), or aircraft (excluding police helicopters).
- Luxury items.
- Real estate.
- Construction projects (other than penal or correctional institutions).
- Any similar matters.

For example, see section 1605 of the Recovery Act (Buy American), section 1606 (wage rate requirements), section 1602 (preference for quick-start activities), and section 1554 (special contracting rules). Recipients should also be aware of the requirements of the National Environmental Policy Act.

Under the Recovery Act, funds may not be used by any State or local government, or any private entity, for any casino or other gambling establishment, aquarium, zoo, golf course, or swimming pool.

Additional government-wide guidance that applies to Recovery Act programs may become available that could affect proposal narratives, time lines, budget requests, certifications and other matters, including appropriate uses of funds and restrictions on uses of funds. Interested applicants are encouraged to regularly check the OJP website for further information and updates. Renewals:

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: The funding for states is allocated based on the number of violent crimes reported by the state from 2005 through 2007 to the FBI's UCR, and the population as provided by the U.S. Census Bureau for 2008.

For purposes of Recovery Act Byrne/JAG, by statute, the initial allocation to each state and Puerto Rico (excluding the remaining territories) is divided between the state and the local jurisdictions at a rate of 60 and 40 percent, respectively.

For the local jurisdictions, the allocation process begins by determining which of the local jurisdictions are eligible to receive an award. To be eligible, a jurisdiction must provide to the FBI's UCR--a count of the number of violent crimes reported each year for a minimum of three years in the last ten years. By statute, jurisdictions that have not reported any data for at least three years in the last ten years for which UCR data is available, do not receive an award.

For each eligible jurisdiction, BJS computes the average number of violent crimes committed for the three most recent years in which they reported data. Next, BJS uses the sum of these averages to determine the jurisdictions share of the local award they may receive. Finally, BJS examines the initial amount of the award, and jurisdictions that were allocated an initial award that is greater than or equal to \$10,000 receive a direct award from BJA for their own use. If the initial allocation is less than \$10,000, the statute provides that the allocation is given to the state, rather than to the local jurisdiction.

There is no match required at the Federal level. However matching is an effective strategy for states and local units of government to expand justice funds and build buy-in for local criminal justice initiatives. This program does not have MOE requirements.

16.813 NICS ACT RECORD IMPROVEMENT PROGRAM

(NARIP)

FEDERAL AGENCY:

Bureau of Justice Statistics, Department of Justice

AUTHORIZATION:

The NICS Improvement Amendments Act of 2007.

OBJECTIVES:

To improve the FBI's National Instant Criminal Background Check System (NICS) by providing assistance to States to improve the completeness, automation and transmittal to state and federal systems the records utilized by the NICS. Such records include criminal history records, records of felony convictions, warrants, records of protective orders, convictions for misdemeanor involving domestic violence and stalking, records of mental health adjudications, and others, which may disqualify an individual from possessing or receiving a firearm under federal law. Helping States to automate these records will also reduce delays for law-abiding gun purchasers.

The NICS Improvement Act amends the Brady Handgun Violence Prevention Act of 1993 (the Brady Act) (Pub. L. 103-159), under which the Attorney General established the National Instant Criminal Background Check System (NICS). The Brady Act requires Federal Firearms Licensees (FFLs) to contact the NICS before transferring a firearm to an unlicensed person for information on whether the proposed transferee is prohibited from receiving or possessing a firearm under state or federal law.

The NICS Improvement Act was enacted in the wake of the April 2007 shooting tragedy at Virginia Tech. The Virginia Tech shooter was able to purchase firearms from an FFL because information about his prohibiting mental health history was not available to the NICS and the system was therefore unable to deny the transfer of the firearms used in the shootings.

The Act seeks to address the gap in information available to NICS about such prohibiting mental health adjudications and commitments and other prohibiting backgrounds. Filling these information gaps will better enable the system to operate as intended to keep guns out of the hands of persons prohibited by federal or state law from receiving or possessing firearms.

The Act authorized two grant programs to assist states in providing certain information to the NICS, and prescribes grant penalties for non-compliance with the Acts record completeness goals.

Pursuant to the Act, there are certain conditions, described below, that a state must satisfy in advance of receiving grants under the Act.

The NICS Improvement Act has provisions that require states to meet specified goals for completeness of the records submitted to the Attorney General on individuals prohibited by federal law from possessing firearms. The records covered include automated information needed by the NICS to identify felony convictions, felony indictments, fugitives from justice, drug arrests and convictions, prohibiting mental health adjudications and commitments, domestic violence protection orders, and misdemeanor crimes of domestic violence. The Act provides for a number of incentives for states to meet the goals it sets for greater record completeness.

First, the Act allows states to obtain a waiver, beginning in 2011, of the state matching requirement under the National Criminal History Improvement Program (NCHIP) grant program, if a state provides at least 90 percent of its records identifying persons in specified prohibited categories.

Second, the Act authorizes grant programs described herein, which, pursuant to the Act, are being administered consistent with NCHIP, for state executive and judicial agencies to establish and upgrade information automation and identification technologies for timely submission of final criminal record dispositions and other information relevant to NICS checks.

Finally, the Act provides for discretionary and mandatory Byrne Justice Assistance Grant (JAG) program grant penalties, beginning 3 years after enactment, for non-compliance with specified record completeness

requirements within certain timeframes: after 3 years, 3 percent may be withheld in the case of less than 50 percent completeness; after 5 years, 4 percent may be withheld in the case of less than 70 percent completeness; and after 10 years, 5 percent shall be withheld in the case of less than 90 percent completeness (although the mandatory reduction can be waived if there is substantial evidence of the state making a reasonable effort to comply).

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

The Act outlines the allowable uses of grant funds:

Grants to States:

Section 103 of the NICS Improvement Act, regarding implementation assistance to the states, provides that the grants "shall be used by the States and Indian tribal governments, in conjunction with units of local government and State and local courts, to establish or upgrade information and identification technologies for firearms eligibility determinations." In accordance with the Act, a grant to a state, territory or Indian tribes may only be used to:

Create electronic systems, which provide accurate and up-to-date information which is directly related to checks under the NICS, including court disposition and corrections records;

Assist states in establishing or enhancing their own capacities to perform NICS background checks;

Supply accurate and timely information to the Attorney General concerning final dispositions of criminal records to databases accessed by NICS;

Supply accurate and timely information to the Attorney General concerning the identity of persons who have a federally prohibiting mental health adjudication or commitment;

Supply accurate and timely court orders and records of misdemeanor crimes of domestic violence for inclusion in federal and state law enforcement databases used to conduct NICS background checks;

Collect and analyze data needed to demonstrate levels of state compliance with the Act; and

Maintain the required relief from disabilities program in accordance with the Act however, not less than 3 percent and no more than 10 percent of each grant shall be used for this purpose.

State Court Grants

Section 301 of the Act provides that grants shall be made to each state and territory, consistent with the states plans for the integration, automation, and accessibility of criminal history records, for use by the court systems to improve automation and transmittal to federal and state repositories of: (1) criminal history dispositions; (2) records relevant to determining whether a person has been convicted of a misdemeanor crime of domestic violence or a prohibiting domestic violence protection order; and (3) prohibiting mental adjudications and commitments. Further, the law provides that the amounts granted shall be used by the state court system only to:

Carry out, as necessary, assessments of the capabilities of state courts to automate and transmit arrest and conviction records, court orders, and mental health adjudications or commitments to federal and state record repositories; and

Implement policies, systems, procedures to automate and transmit arrest and conviction records, court orders, and mental health adjudications or commitments to federal and state record repositories.

17.201 REGISTERED APPRENTICESHIP AND OTHER TRAINING**FEDERAL AGENCY:**

Employment Training Administration, Department of Labor

AUTHORIZATION:

National Apprenticeship Act of 1937 (Fitzgerald Act), Title 29, Part 29, Public Law 075-75-308, 50 Stat. 664, 29 U.S.C 50-50a-50b.

OBJECTIVES:

To stimulate and assist industry in the development, expansion, and improvement of Registered Apprenticeship and other training programs designed to provide the skilled workers required by U.S. employers, ensure equal employment opportunities in Registered Apprenticeship and other training programs, and ensure the quality of all new and existing Registered Apprenticeship programs.

TYPES OF ASSISTANCE:

Training

USES AND USE RESTRICTIONS:

Under the Office of Apprenticeship (OA), apprenticeship training programs and apprentices are registered in 25 States. OA also provides technical assistance and works closely with State Apprenticeship Agencies (SAAs) in the remaining 25 States, the District of Columbia, and three territories that register programs and apprentices in accordance with Federal standards. OA provides information on existing and recommended standards of training in Registered Apprenticeship as well as on other types of industrial skill improvement programs. The wage rates of apprentices in registered programs (Federal and State) are exempt from the prevailing wage requirements of the Davis-Bacon Act and the Service Contract Act. Registered Apprenticeship is the combination of learning on-the-job and related technical and theoretical instruction in a skilled occupation. Registered programs are driven directly by the demands of the labor market. The training is industry-driven, voluntarily sponsored by individual employers, employer associations, and/or by joint employer-employee groups. OA brings these entities together, as appropriate, to formulate Registered Apprenticeship training programs which meet the federal standards. Various educational institutions and sponsors provide theoretical and related instruction. Special efforts are being made to introduce the apprenticeship concept of training into high-growth/emerging industries and occupations and also to build a pipeline of skilled workers, particularly in the health care, green jobs, and advanced manufacturing sectors. The Advisory Committee on Apprenticeship, representing employers, labor, vocational education, and others with an interest in skill training, advises the Secretary of Labor on apprenticeship and training issues. Special grants are provided to eligible organizations to assist employers and labor unions in placement and retention of women in apprenticeship and nontraditional occupations.

Applicant Eligibility:

Employers, a group of employers, or an association of employers, or individual employers with or without in each case the participation of a labor union. For grants: community based organizations, which may be faith based - see announcement of solicitation for grant applications.

Beneficiary Eligibility:

Individuals applying for acceptance into an apprenticeship training program must be at least 16 years old and must satisfy the apprenticeship program sponsor that they have sufficient ability, aptitude, and education to master the rudiments of the trade/occupation and to satisfactorily complete the related theoretical instruction required in the program.

Credentials/Documentation:

Along with the completed application form, each prospective apprentice may be required by the sponsor to submit a transcript of school subjects and grades, proof of age, an honorable military discharge (if applicable), and a high-school diploma or equivalence certificate (if applicable). References from all previous employers may be required. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under OMB Circular No. A-102. This program is excluded from coverage under OMB Circular No. A-110. Prospective program sponsors must meet with an OA or SAA field representative, as appropriate, to draw up a set of apprenticeship training program standards. These include the age and educational background of apprentices, and a schedule of the work processes and related theoretical instruction subjects to be covered during the training program. The program will be registered if it meets Federal requirements covering (a) the apprenticeability of the occupation(s) and (b) the suitability of the training standards for providing apprentices with sufficient knowledge to become skilled workers. Grants for projects are awarded on a competitive basis, announced in Solicitation for Grant Applications (SGAs) in the Federal Register and also on ETA's Internet website at <http://www.doleta.gov>. To compete for a grant, organizations develop a proposal and budget that

demonstrate how the organization will provide services to a targeted population. The SGA provides all of the necessary information for applying for federal assistance.

Award Procedure:

Not applicable for advisory services and counseling type of assistance. Procedures for grant projects are specified in the applicable request for proposals. Generally, the procedure is as follows: A technical review panel composed of staff from ETA program offices as well as peer reviewers evaluates eligible submitted applications. The panel prepares a report for the ETA Grant Officer identifying the strengths and weaknesses of the application and the cumulative rating. Once selections are made by the Grant Officer, an Award Notification is sent through the appropriate congressional channels for notification. After awardees are notified, the list of awardees is posted on the ETA website at www.doleta.gov. If an application is rejected, a letter is sent to the applicant as notification that they were not selected as a recipient of the grant.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

For grants, from 45 to 90 days.

Appeals:

From 15 to 30 days. OA refusal to register programs and OA de-registration of existing programs may be appealed to the OA Administrator as provided in Title 29 CFR Part 29. For grants, procedures for each project are specified in the applicable request for proposals.

Renewals:

Reinstatement of program registration is set out in Title 29 CFR Part 29.9.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program. Matching requirements are not applicable to this program. MOE requirements are not applicable to this program.
