

Table 114. Age-Adjusted Death Rates by Major Causes: 1960 to 2006

[Rates per 100,000 population; see headnote, Table 106. Beginning 1999, deaths classified according to tenth revision of International Classification of Diseases; for earlier years, causes of death were classified according to the revisions then in use. Changes in classification of causes of death due to these revisions may result in discontinuities in cause-of-death trends. See Appendix III]
