

**Project Certification as Required by the American Recovery
and Reinvestment Act of 2009**

The Director of the Idaho Department of Environmental Quality hereby certifies that the loan application for the Central Shoshone County Water District, DWSRF Loan #DW0903, has received full review and vetting required by law and the Department accepts full responsibility that the loan to the Central Shoshone County Water District is an appropriate use of taxpayer funds pursuant to the American Recovery and Reinvestment Act (ARRA).

The loan to the Central Shoshone County Water District is for construction of a membrane microfiltration water treatment plant to treat the Enaville Well. The well is ground water under the direct influence of surface water and is being contaminated. The project includes associated piping filtration and pumping upgrades. The project is estimated to cost a total of \$12,274,000, of which \$12,274,000 of ARRA funds will be used.

Dated June 22, 2009
