PART 2A: UPDATE OF MAINTENANCE-OF-EFFORT DATA

SPECIAL NOTES:

- In the SFSF Phase I Application, States were required to submit MOE data. The Department is requesting that States reaffirm these data for Phase II, and in particular, to update FY 2009 data to actual levels of State support.
- *For further information, see Appendix D – Instructions for Part 2: Maintenance of Effort.*

1. Levels of State support for elementary and secondary education *(the amounts may reflect the levels of State support on either an aggregate basis or a per-student basis):*

FY 2006 \$ 3,463,982,300
FY 2009 \$ 3,867,496,900
FY 2010* \$ 3,463,982,300
FY 2011* \$ 3,463,982,300

(* Provide data to the extent that data are currently available.)

2. Levels of State support for public institutions of higher education *(enter amounts for each year):*

FY 2006 \$ 987,239,500
FY 2009 \$ 1,040,924,100
FY 2010* \$ 987,239,500
FY 2011* \$ 987,239,500

(* Provide data to the extent that data are currently available.)

3. Additional Submission Requirements:

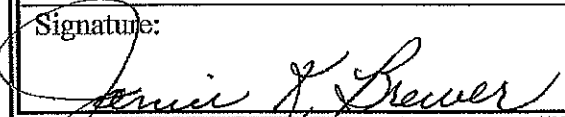

Attached in Appendix A.

PART 2B: ATTESTATION OF MAINTENANCE-OF-EFFORT COMPLIANCE

The Governor or his/her authorized representative attests to the following:

To the best of his/her knowledge and based on the best available data, the State has met all maintenance-of-effort requirements for the State Fiscal Stabilization Program for FY 2009 (check all that apply):

- for elementary and secondary education.
- for public Institutions of Higher Education (IHEs).

Governor or Authorized Representative of the Governor (Printed Name): Janice K. Brewer, Governor	
Signature: 	Date: 1-8-10

If a State has not met or cannot meet MOE for either elementary and secondary education or public IHEs, or both, it must complete the following:

The State has not met all maintenance-of-effort requirements for the State Fiscal Stabilization Program for FY 2009 and

(check one):

- has already submitted a MOE Waiver Request to the US Department of Education.
- is submitting a MOE Waiver Request with this application package.

I. Assurance (a): Achieving Equity in Teacher Distribution

A State must collect and publicly report data and other information on: (1) the extent that students in high- and low-poverty schools in the State have access to highly qualified teachers; (2) the extent that current strategies and efforts to address inequities in the distribution of inexperienced, unqualified, or out-of-field teachers; (3) how teacher and principal performance is evaluated and how performance ratings are used; and (4) the distribution of performance evaluation ratings or levels among teachers and principals.

Indicator Confirm, for the State, the number and percentage (including numerator and denominator) of core academic courses taught, in the highest-poverty and lowest-poverty schools, by teachers who are highly qualified consistent with section 9101(23) of the Elementary and Secondary Education Act of 1965, as amended (ESEA).

Please respond (Yes or No): Are the data related to this indicator at <http://www.ed.gov/programs/statestabilization/indicator-a1.xls> correct?

- ¹ Yes, the data are correct.
- ² No, the data are not correct.

If checked, provide below or in an attachment the correct data and any supporting information. A URL linking to the correct data on the State's website is also sufficient.³

Please respond (check only one):

- ⁴ The State makes the data *publicly available* and updates the data *annually* on a website.
- Provide the State website where the data are provided by the State to the public⁵ :

II. Assurance (b): Improving Collection and Use of Data

A State must collect and publicly report information on the elements of its statewide longitudinal data system, on whether teachers receive data on student growth in a manner that is timely and informs instructional programs, and on whether the State provides teachers with reports of individual teacher impact on student achievement.

Indicator (b)(1) Indicate which of the 12 elements described in section 6401(c)(2)(D) of the America COMPETES Act are included in the State's statewide longitudinal data system.

Instructions: Please indicate which of the 12 elements of the America COMPETES Act are included in the State's statewide longitudinal data system.

Please respond (check Yes or No): For pre-K through postsecondary education, does the State's statewide longitudinal data system include the following elements:

(1) A unique statewide student identifier that does not permit a student to be individually identified by users of the system?

- Yes.
 No.

Provide a plan for including this element in your statewide longitudinal data system in Part 3B. Cite #1 in the Plan Element Verification Chart in Part 3B, Section II.

(2) Student-level enrollment, demographic, and program participation information?

- Yes.
 No.

Provide a plan for including this element in your statewide longitudinal data system in Part 3B. Cite #2 in the Plan Element Verification Chart in Part 3B, Section II.

(3) Student-level information about the points at which students exit, transfer in, transfer out, drop out, or complete pre-K through postsecondary education programs?

- Yes.
 No.

Provide a plan for including this element in your statewide longitudinal data system in Part 3B. Cite #3 in the Plan Element

Verification Chart in Part 3B, Section II.

4) The capacity to communicate with higher education data systems?

- Yes.
 No. Provide a plan for including this element in your statewide longitudinal data system in Part 3B. Cite #4 in the Plan Element Verification Chart in Part 3B, Section II.

(5) An audit system assessing data quality, validity, and reliability?

- Yes.
 No. Provide a plan for including this element in your statewide longitudinal data system in Part 3B. Cite #5 in the Plan Element Verification Chart in Part 3B, Section II.

Please respond (check Yes or No): For pre-K through grade 12 education, does the State's statewide longitudinal data system include the following elements:

(6) Yearly State assessment records of individual students?

- Yes.
 No. Provide a plan for including this element in your statewide longitudinal data system in Part 3B. Cite #6 in the Plan Element Verification Chart in Part 3B, Section II.

(7) Information on students not tested, by grade and subject?

- Yes.
 No. Provide a plan for including this element in your statewide longitudinal data system in Part 3B. Cite #7 in the Plan Element Verification Chart in Part 3B, Section II.

(8) A teacher identifier system with the ability to match teachers to students?

- Yes.
 No. Provide a plan for including this element in your statewide longitudinal data system in Part 3B. Cite #8 in the Plan Element Verification Chart in Part 3B, Section II.

(9) Student-level transcript information, including on courses completed and grades earned?

- Yes.
 No. Provide a plan for including this element in your statewide longitudinal data system in Part 3B. Cite #9 in the Plan Element Verification Chart in Part 3B, Section II.

(10) Student-level college readiness test scores?

- Yes.
 No. Provide a plan for including this element in your statewide longitudinal data system in Part 3B. Cite #10 in the Plan Element Verification Chart in Part 3B, Section II.

Please respond (check Yes or No): For postsecondary education, does the State's statewide longitudinal data system include the following elements:

(11) Information regarding the extent to which students transition successfully from secondary school to postsecondary education, including whether students enroll in remedial coursework?

- Yes.
 No. Provide a plan for including this element in your statewide longitudinal data system in Part 3B. Cite #11 in the Plan Element Verification Chart in Part 3B, Section II.

(12) Other information determined necessary to address alignment and adequate preparation for success in postsecondary education?

- Yes.
 No. Provide a plan for including this element in your statewide longitudinal data system in Part 3B. Cite #12 in the Plan Element Verification Chart in Part 3B, Section II.

Indicator (b)(2) Indicate whether the State provides student growth data on their current students and the students they taught in the previous year to, at a minimum, teachers of reading/language arts and mathematics in grades in which the State administers assessments in those subjects in a manner that is timely and informs instructional programs.

Please respond (check Yes or No): Does the State provide student growth data on their current students and the students they taught the previous year to, at a minimum, teachers of reading/language arts and mathematics in grades in which the State administers assessments in those subjects, in a manner that is timely and informs instructional programs?

Yes. You are not required to provide further information. In Part 3B, Section III, check "Not Applicable."

No. Provide a plan for providing this information to teachers in Part 3B, Section III.

Indicator (b)(3) Indicate whether the State provides teachers of reading/language arts and mathematics in grades in which the State administers assessments in those subjects with reports of individual teacher impact on student achievement on those assessments.

Please respond (check Yes or No): Does the State provide teachers of reading/language arts and mathematics in grades in which the State administers assessments in those subjects with reports of individual teacher impact on student achievement on those assessments?

Yes. You are not required to provide further information. In Part 3B, Section IV, check "Not Applicable."

No. Provide a plan for providing this information to teachers in Part 3B, Section IV.

Assurance (c): Standards and Assessments

A State must collect and publicly report data and other information on whether students are provided high-quality State assessments; whether students with disabilities and limited English proficient students are included in State assessment systems; whether the State makes information available regarding student academic performance in the State compared to the academic performance of students in other States; and on the extent to which students graduate from high school in four years with a regular high school diploma and continue on to pursue a college education.

Indicator (c)(1) Confirm the approval status, as determined by the Department, of the State's assessment system under section 1111(b)(3) of the ESEA with respect to reading/language arts, mathematics, and science assessments.

Please respond (check one): Is the status of the Department's approval, available at <http://www.ed.gov/programs/statestabilization/indicator-c1.xls> correct?

Yes, the status is correct.

No, the status is not correct. If checked, provide below or in an attachment the correct information and any other supporting information. A URL linking to the correct data on the State's website is also sufficient.³

➔ Provide the State website where the most recently updated data are provided by the State to the public⁵

The State does not make the data publicly available on a website.

➔ Provide the State’s plan for making the data publicly available and updating it annually on a website in Part 3B. Cite “Indicator (d)(2)” in the Plan Element Verification Chart in Part 3B, Section I and mark the Public Reporting column.

No, the State does not collect these data.

➔ Provide the State’s plan for making the data publicly available and updating it annually on a website in Part 3B. Cite “Indicator (d)(2)” in the Plan Element Verification Chart in Part 3B, Section I and mark both the Collection and Public Reporting columns.

Descriptor (d)(1) Provide the definition of “persistently lowest-achieving schools” (consistent with the requirements for defining this term set forth in the Definitions section of the NFR) that the State uses to identify such schools.

Please respond (check Yes or No): Does the State have a definition of “persistently lowest achieving schools” (consistent with the requirements for defining this term set forth in the Definitions section of the NFR) for the purposes of this indicator?

Yes, the State has a definition of “persistently lowest achieving schools” for the purposes of this indicator.

➔ **ARIZONA Definition of Persistently Lowest Achieving Schools:**

Tier I. Any Title I school in improvement, corrective action, or restructuring that is:

1. Among the lowest-achieving 5 percent of Title I schools in improvement, corrective action, or restructuring
Or
2. Is a high school that has not had a graduation rate of 60 percent or greater in any of the past three years.

Tier II. Any high school that is eligible for but did not receive Title I funds that is:

1. Among the lowest-achieving 5 percent of high schools
Or
2. Has not had a graduation rate of 60 percent or greater in any of the past three years.

High schools are defined as schools serving grades 9-12.

Determining the lowest-achieving 5 percent. Arizona ranked schools using the Single Percentage Method defined in federal guidance using current year test results (p5). Arizona also ranked schools by progress achieved. Progress was measured as the average annual change in percent proficient over the past three years. A school’s final ranking was determined by averaging the two ranks.

Exceptions. Schools identified as credit recovery were not included on the list. To be identified as credit recovery, a school had to have met the state Board’s definition of an alternative school, and to have identified itself through its publicly posted mission statement on its school report card as a credit recovery school.

We will also work to post these updates on the Arizona Department of Education's website once their internal project portfolio management portal has been modified to allow for external viewing. There are no obstacles identified that would prevent this from being completed within the time frame. It is expected that there will not be any additional costs to implement this plan.

State Plan for Indicator (c)(10):

Arizona currently collects and reports at least annually graduation rates at each level in the indicator, but does not include the numerator and denominator when reporting publicly.

In the next planned iteration and update of the state public school/district report card application, the graduation percentage's numerator and denominator will be published. The planned completion date is 12/01/2010. Because this information is already collected and the percentages are already published, there will be no additional costs or foreseeable obstacles in publishing this additional information.

State Plan for Indicator (d)(4):

At this time the state does not collect information regarding the implementation of intervention models as defined in the NFR, and therefore does not make this information publicly available. Identified LEA's will choose to implement one of the four intervention models in the 2010-2011 school year. Upon completion ADE will make this information public by the summer of 2011. There are no obstacles identified that would prevent this from being completed within the time frame. It is expected that there will not be any additional costs to implement this plan.

Prior to public release of school closures or restarts, and with ongoing technical assistance from ADE school improvement specialists, LEAs will:

- analyze the needs of each Tier I and Tier II school it commits to serve
- choose the most appropriate intervention model to implement
- must submit an LEA application for ADE approval

Upon approval, ADE will make public no later than Sept 30, 2010 LEA decisions regarding school closures and restarts

During the school year 2010-11, with technical assistance from ADE specialists, LEAs will:

- establish annual student achievement goals
- monitor progress towards these goals
- report quarterly progress to ADE
- complete yearly report that includes results of the implementation of the chosen intervention model

Upon submission of this yearly report, ADE will make public in the summer of 2011, the results of the implemented intervention.

The progress of this data collection and reporting will be posted quarterly beginning with the 2nd quarter of 2010 at: <http://az.gov/recovery/agencies-governor.html>.

State Plan for Indicator (d)(6):

At this time the state does not identify secondary schools that are eligible for but do not receive Title 1 funds and ADE does not identify schools that are persistently lowest achieving as determined by the definition in the NFR. At this time the state does not collect information regarding intervention models as defined in the NFR, and therefore does not make this information publicly available. Identified LEA's will choose to implement one of the four intervention models in the 2010-2011 school year. Upon completion ADE will make this information public by the summer of 2011. There are no obstacles identified that would prevent this from being completed within the time frame. It is expected that there will not be any additional costs to implement this plan.

Prior to public release of school closures or restarts, and with ongoing technical assistance from ADE school improvement specialists, LEAs will:

- analyze the needs of each Tier I and Tier II school it commits to serve
- choose the most appropriate intervention model to implement
- must submit an LEA application for ADE approval

Upon approval, ADE will make public no later than Sept 30, 2010 LEA decisions regarding school closures and restarts

During the school year 2010-11, with technical assistance from ADE specialists, LEAs will:

- establish annual student achievement goals
- monitor progress towards these goals
- report quarterly progress to ADE
- complete yearly report that includes results of the implementation of the chosen intervention model

Upon submission of this yearly report, ADE will make public in the summer of 2011, the results of the implemented intervention.

The progress of this data collection and reporting will be posted quarterly beginning with the 2nd quarter of 2010 at: <http://az.gov/recovery/agencies-governor.html>.

State Plan for Indicator (d)(11) and (d)(12):

The Arizona State Board for Charter Schools (ASBCS) collects the number and identity of charter schools that have closed (including schools that were not reauthorized to operate) within each of the last five years. ASBCS also records whether the charter schools that have closed were closed for financial, enrollment, academic or other reasons. The information is not currently available on a website.

Making the charter schools closure information available to the public and updating it annually on a website will require minimal effort and no cost. The process will include the following steps and timeline:

January, 2010 –

- Prepare current collection document to be posted on the Arizona State Board for Charter School's website and available in PDF format for public viewing.
- Work with the Arizona Department of Education to prepare posting the same information on the ADE's public-facing portal.

February, 2010 –

- Prepare the Closed Schools information on ASBCS Online to include reasons for closure so that public users will also have information on why a charter school closed or was closed.

March, 2010 –

- Post information on the ASBCS website, ADE website, and ASBCS Online in order to make information available to public users.
- Provide an announcement for the websites to alert public users to the availability of the charter schools closure information.

July, 2010 –

- Conduct first annual update of charter schools closure information on websites and through ASBCS Online.

The Arizona State Board for Charter Schools (ASBCS), an agency in the Department of Administration, is the primary authorizer of charter schools in Arizona and currently holds contracts with 355 entities authorized to operate a total of 458 school sites. Additionally, the ASBCS provides oversight of the 37 charter schools sponsored by the Arizona State Board of Education (SBE). The ASBCS collects the number and identity of charter schools that have closed within each of the last five years, including charters authorized by the State Board of Education (SBE). Due to the term of the contract (15 years), at this time, no charters have become eligible for reauthorization. However, starting in January, 2010, the ASBCS will begin the process of considering charters for reauthorization.

Because the ASBCS is the State's largest authorizer and has been collecting information regarding closed charter schools and the reasons for closure, the agency is the most appropriate one for assuming primary responsibility for development, execution, and oversight of the plan for making the information available to the public. The ASBCS hosts a website and is preparing to launch a publicly-accessible search capability with the agency's new database (ASBCS Online), accessed through the agency's website. The Arizona Department of Education (ADE) hosts a website which includes information on Arizona's charter schools and which many public users access. The ADE website would also have the information posted for public access. Once the steps in the plan have been executed, the information on charter schools that have closed and the reasons for the closure will be available to the public through websites in three locations.

There are no obstacles identified that would prevent this from being completed within the time frame. It is expected that there will not be any additional costs to implement this plan.

3B.II ARIZONA DATA COLLECTION & PUBLIC REPORTING PLAN

State Plan for Indicator (b)(1)

Arizona's planned data collection expansion is an integral component of the overall SLDS enhancement strategy. Included in Appendix B of this application is "Outcome 1" from Arizona's SLDS overall strategy. This plan details the critical tasks and milestones associated with collecting Arizona's five missing America Competes Act data elements. The plan's aggressive implementation timeline has initial data being collected early 2011. The summary of Arizona's plan to collect these additional critical elements is shown below, and Outcome #1, Task #1.4 can be found in Appendix B.

8. A teacher identification system with the ability to match teachers to students

The proposed budget for this element is \$2 million, paid for by the SLDS grant.

Milestones:

- a. 12/2009 – Submit SLDS Grant application
- b. 03/2010 – Receive funding decision on SLDS Grant application (utilize SFSF – Government Services funds if not awarded)
- c. 05/2010-07/2010 - Re-architect the existing system and data collection processes
- d. 09/2010 – Add new data elements to the system
- e. 11/1/2010 - Initial teacher/student link data to be collected.

9. Student level transcript information, including courses completed and grades received.

The proposed budget for this element is \$3 million, paid for by the SLDS grant.

Milestones:

- a. 12/2009 – Submit SLDS Grant application
- b. 03/2010 – Receive funding decision on SLDS Grant application (utilize SFSF – Government Services funds if not awarded)
- c. 05/2010-07/2010 - Re-architect the existing system and data collection processes
- d. 09/2010 – Add new data elements to the system
- e. 02/01/2011 - Initial student level transcript information data will be collected

10. Student-level college readiness test scores

The proposed budget for this element is \$3 million, paid for by the SLDS grant.

Milestones:

- a. 12/2009 – Submit SLDS Grant application
- b. 03/2010 – Receive funding decision on SLDS Grant application (utilize SFSF – Government Services funds if not awarded)
- c. 05/2010-07/2010 - Re-architect the existing system and data collection processes
- d. 09/2010 – Add new data elements to the system
- e. 07/01/2011 - Initial student level college readiness test scores will be collected.

11. Information regarding the extent to which students transition successfully from secondary

school to postsecondary education, including whether students enroll in remedial coursework

The proposed budget for this element is \$3 million, paid for by the SLDS grant.

Milestones:

- a. 12/2009 – Submit SLDS Grant application

- b. 03/2010 – Receive funding decision on SLDS Grant application (utilize SFSF – Government Services funds if not awarded)
- c. 05/2010-07/2010 - Re-architect the existing system and data collection processes
- d. 09/01/2010 – Implementation plan/Student Clearinghouse integration will be functional
- e. 09/30/2011 – Initial information regarding student transitions from secondary to postsecondary school will be collected.

12. Other information determined necessary to address alignment and adequate preparation for success in postsecondary education

The proposed budget for this element is \$1 million, paid for by the SLDS grant.

Milestones:

- a. 12/2009 – Submit SLDS Grant application
- b. 03/2010 – Receive funding decision on SLDS Grant application (utilize SFSF – Government Services funds if not awarded)
- c. 05/2010-07/2010 - Re-architect the existing system and data collection processes
- d. 09/01/2010 – Implementation plan/Student Clearinghouse integration will be functional
- e. Subsequent data collection will be initially available by 09/30/2011.

The progress of this data collection and reporting will be posted quarterly beginning with the 2nd quarter of 2010 at: <http://az.gov/recovery/agencies-governor.html>. We will also work to post these updates on the Arizona Department of Education's website once their internal project portfolio management portal has been modified to allow for external viewing.

This data collecting will be done by the Arizona Department of Education, and is planned to be funded through the Statewide Longitudinal Data System grant. If Arizona is not awarded the grant, we will have to consider other funding sources such as: SFSF, RTTT, the State's General Fund, or other sources. Because this plan is already in place for the SLDS grant, we do not foresee any major obstacles in preventing this plan from being implemented.

3B.III ARIZONA DATA COLLECTION & PUBLIC REPORTING PLAN

State Plan for Indicator (b)(2)

In addition to the enhanced data collection capabilities, the expansion and enhancement plans for the existing AEDW includes working with a consortium of states to implement the Colorado (Arizona) Growth Model to the student level. “Outcome 2” shown in Appendix C shows the detailed steps in completing this indicator.

The proposed budget for this indicator is \$4 million, paid for by the SLDS grant.

Milestones:

- a. 12/2009 – Submit SLDS Grant application
- b. 03/2010 – Receive funding decision on SLDS Grant application (utilize SFSF – Government Services funds if not awarded)
- c. 05/2010 – 09/2010 – Implement the statistical component of the Colorado (Arizona) Growth Model
- d. 08/2010 – 03/2011 – Implement adapted model for student-level growth
- e. 05/2010-06/2011 Study Colorado (Arizona) Growth Model school-level data
- f. 02/2011 – 07/2011 – Develop guides for parents, teachers, and principals

The progress of this data collection and reporting will be posted quarterly beginning with the 2nd quarter of 2010 at: <http://az.gov/recovery/agencies-governor.html>. We will also work to post these updates on the Arizona Department of Education’s website once their internal project portfolio management portal has been modified to allow for external viewing.

This data collecting will be done by the Arizona Department of Education, and is planned to be funded through the Statewide Longitudinal Data System grant. If Arizona is not awarded the grant, we will have to consider other funding sources such as: SFSF, RTTT, the State’s General Fund, or other sources. Because this plan is already in place for the SLDS grant, we do not foresee any major obstacles in preventing this plan from being implemented.

3B.IV ARIZONA DATA COLLECTION & PUBLIC REPORTING PLAN

State Plan for Indicator (b)(3)

Included in the growth model implementation and AEDW expansion strategy highlighted in “Outcome 2.1.2” (shown in Appendix C) is the development, implementation and operations of the processes and tools for providing and utility of student-level growth information to schools, teachers and parents.

The proposed budget for this indicator is \$2 million, paid for by the SLDS grant.

Milestones:

- a. 12/2009 – Submit SLDS Grant application
- b. 03/2010 – Receive funding decision on SLDS Grant application (utilize SFSF – Government Services funds if not awarded)
- c. 05/2010 – 09/2010 – Implement the statistical component of the Colorado (Arizona) Growth Model
- d. 08/2010 – 03/2011 – Implement adapted model for student-level growth
- e. 05/2010-06/2011 Study Colorado (Arizona) Growth Model school-level data
- f. 02/2011 – 07/2011 – Develop guides for parents, teachers, and principals

The progress of this data collection and reporting will be posted quarterly beginning with the 2nd quarter of 2010 at: <http://az.gov/recovery/agencies-governor.html>. We will also work to post these updates on the Arizona Department of Education’s website once their internal project portfolio management portal has been modified to allow for external viewing.

This data collecting will be done by the Arizona Department of Education, and is planned to be funded through the Statewide Longitudinal Data System grant. If Arizona is not awarded the grant, we will have to consider other funding sources such as: SFSF, RTTT, the State’s General Fund, or other sources. Because this plan is already in place for the SLDS grant, we do not foresee any major obstacles in preventing this plan from being implemented.

3B.V DATA COLLECTION & PUBLIC REPORTING PLAN

Plan Element Verification: Please check only the boxes that apply in the following chart to indicate which elements must be addressed in this section of your state plan:

<u>Element</u>	<u>Not Applicable: The State will develop and implement the means to collect and publicly report the data (Complete Plan in Section I).</u>	<u>Applicable: The State will develop but not implement the means to collect and publicly report the data (Complete Plan in this section).</u>
Indicator (c)(11)		X
Indicator (c)(12)		X

State Plan for Indicators (c)(11) AND (c)(12)

The current plans to expand and enhance the State Longitudinal Data System (SLDS) includes incorporating a State Data System Advisory Panel of the State Higher Education Officers issued draft on the desired capabilities of a state data system for post secondary education, including data elements needed for post secondary students from the systems of higher education organizations. For Arizona higher education organizations, these data can be fed directly to Arizona Education Data Warehouse (AEDW). Arizona Higher Education officials can define derived facts and measures to support their particular interests and issues relating to all or particular stages in the P-20 workforce transitions. This data collecting will be done by the Arizona Department of Education, and is planned to be funded through the Statewide Longitudinal Data System grant.

Included in Appendix B is “Outcome 1”, where the implementation of the indicators (c)(11) and (c)(12) is detailed.

Indicator (c)(11)

Included in the State’s plan is the ability to collect and report the number and percentage of students that graduate high school who enroll in an institution of higher education, public or private, in state or out of state, within 16 months of receiving a regular high school diploma. This information will be collected for the State, for each LEA in the State, for each High School, and for each student subgroup in each of these levels. This information will be incorporated into the statewide/district/school web based public facing report card solution for semi-annual reporting of evaluation data at <http://www10.ade.az.gov/ReportCard/Default.aspx>.

The proposed budget for this indicator is \$2 million, paid for by the SLDS grant.

Milestones for this indicator include:

- a. 12/2009 – Arizona submitted Statewide Longitudinal Data System Grant

- b. 03/2010 – Receive funding decision on SLDS Grant application (utilize SFSF – Government Services funds if not awarded)
- c. 05/2010-07/2010 - Re-architect the existing system and data collection processes
- d. 09/2010 – Add new data elements to the system
- e. 09/01/2010 – Student Clearinghouse integration – provides functionality
- f. 03/30/2011 – ADE will perform an interim assessment of the process and adjust the systems and process as needed
- g. 09/30/2011 –Required data collection will be initially available.

Indicator (c)(12)

Included in the State’s plan is the ability to collect and report the number and percentage of students who complete one year’s worth of college credit (applicable to a degree) within two years of enrollment. This information will be collected on the students listed above in indicator (c)(11) who enroll in a public institution of higher education in Arizona, but we hope to expand to other higher education institutions as well. This information will be collected for the State, for each LEA in the State, for each High School, and for each student subgroup in each of these levels. This information will be incorporated into the statewide/district/school web based public facing report card solution for semi-annual reporting of evaluation data at <http://www10.ade.az.gov/ReportCard/Default.aspx>.

The proposed budget for this indicator is \$3 million, paid for by the SLDS grant.

Milestones for this indicator include:

- a. 12/2009 – Arizona submitted Statewide Longitudinal Data System Grant
- b. 03/2010 – Receive funding decision on SLDS Grant application (utilize SFSF – Government Services funds if not awarded)
- c. 05/2010-07/2010 - Re-architect the existing system and data collection processes
- d. 09/2010 – Add new data elements to the system
- e. 09/01/2010 – Student Clearinghouse integration – provides functionality
- f. 03/30/2011 – ADE will perform an interim assessment of the process and adjust the systems and process as needed
- g. 09/30/2011 –Required data collection will be initially available.

The progress of this data collection and reporting will be posted quarterly beginning with the 2nd quarter of 2010 at: <http://az.gov/recovery/agencies-governor.html>. We will also work to post these updates on the Arizona Department of Education’s website once their internal project portfolio management portal has been modified to allow for external viewing.

This data collecting will be done by the Arizona Department of Education, and is planned to be funded through the Statewide Longitudinal Data System grant. If Arizona is not awarded the grant, we will have to consider other funding sources such as: SFSF, RTTT, the State’s General Fund, or other sources. Because this plan is already in place for the SLDS grant, we do not foresee any major obstacles in preventing this plan from being implemented.

PART 3C-- GENERAL REQUIREMENTS

- (1) Describe the processes the State employs to review and verify the required data and other information on the indicators and descriptors.
 - a. The Governor and the Office of Economic Recovery relied on the Arizona Department of Education (ADE) and the Arizona State Charter School Board to review and verify the required data and other information on the indicators and descriptors needed for this application. It will be ADE's responsibility to implement the plans described in this document, provide annual updates of information to the public and keep the various stakeholder groups, the Governor's P-20 Council, and the Arizona State Legislature updated on the implementation and budget ramifications of these activities.

- (2) Describe the processes the State employs to ensure that, consistent with 34 CFR 99.31(b), the required data and other information are not made publicly available in a manner that personally identifies students, where applicable.
 - a. Privatization and securitization of personally identifiable is insured by leveraging:
 - i. ADE's investment in an enterprise class identity management system (EduAccess),
 - ii. ADE's existing rigorous data management processes, policies and infrastructure,
 - iii. ADE's secure infrastructure that is logically and physically secured with a class 3 off-sight data center including incorporating maturing disaster recovery and continuity of operations best practices.
 - iv. Arizona established governance body and structure including, amongst other responsibilities, oversight into evaluating authorized data users and quality data usage.

Appendix A

Part 2A

3. Additional Submission Requirements

- a) Identify and describe the data sources used in determining the levels of State support for elementary and secondary education; - and -

- b) Identify and describe the data sources used in determining the levels of State support for public IHEs.

a. & b. Data sources to identify the levels of State support for elementary and secondary education and higher education:

1. Fiscal Year 2008 Appropriations Report; pp84, 160, 163-168, 395, Joint Legislative Budget Committee. This is the annual appropriations report published subsequent to the enactment of the state budget. The report reconciles individual agency budget items with statewide adjustments such as state employee pay increases, health insurance adjustments, and other legislative adjustments that are part of the appropriations bills. This report also contains actual expenditures for fiscal year 2006.
2. Fiscal Year 2010 Baseline Book; pp182-187, Joint Legislative Budget Committee. This publication contains actual expenditures for fiscal year 2008 and updated expenditure projections for fiscal year 2009.
3. Fiscal Year 2010 Appropriations Report; pp159-169, 404-406, Joint Legislative Budget Committee.
4. *Laws 2009, 4th Special Session, Chapter 2, Section 2*. Link:
<http://www.azleg.gov/legtext/49leg/4s/bills/sb1002s.pdf>
5. *Internal Working Documents*, Governor's Office of Strategic Planning and Budgeting. These documents record the Governor's budget development.

Appendix B

Outcome 1: Expand Data Content Scope and Provide Instructional Support Tools and Technology

SUBTASK 1: EXPAND STUDENT DATA COLLECTION AND REDEVELOP DATA COLLECTION SYSTEMS

This subtask has a number of complex components. To successfully collect and integrate many new data elements will require redevelopment and re-architecture of the production systems that collect source data, as well as interagency and data delivery agreements. Each of the sub-activities within this subtask contains implicitly data agreements, cross-platform/cross-system technical and data architectures, security standards, and extensible data modeling.

1.1.1 Re-architect the existing and new data and the data collection processes. New data include student contact (home address, Guardian, last 4 SSN digits), immunization, curriculum and course completion, student-teacher link at a course and/or grade level, post secondary courses taken while a student is in high school, post secondary readiness (SAT, ACT, AP achievements), additional data as required by incorporation of student populations not included in the current student data systems.

1.1.2 Incorporate birth-preschool age children into the new student data system including children in Head Start programs, Early Childhood programs, preschools programs provided by public schools, some for a fee. The entities providing education for this age group will be included in the new master data management system, see Outcome 1.

1.1.3 Incorporate mobile students into the new student data system. This population includes children of migrant families (source data is in COESTAR and M6 systems), children of active military families (source data is in MIC3 system), students in detention and behavioral rehabilitation facilities (source data is in correction state agencies), interstate students the inclusion of which requires collaboration with Arizona adjacent states to establish data sharing.

1.1.4 Incorporate tribal students educated by BIA, BIE and other non public schools. The current data collection is partial and fragmented. Complete inclusion of tribal students in the new student data system is a top priority for the tribal authorities in Arizona.

NOTE: SEE TIMELINE IN APPENDIX D.

Appendix C

Outcome 2: Improve Student and School Performance Measures

SUBTASK 1: IMPLEMENT COLORADO GROWTH MODEL

The Colorado growth model (CGM) provides student and school level growth indicators. It uses the Colorado state standard assessment for academic performance data, along with Colorado-specific technology for data processing, storage, and display. To use the CGM, Arizona will need to adapt the model to the Arizona state standard assessment (AIMS) and ADE technology.

2.1.1 Implement the statistical component of CGM in the ADE SQL Server environment, test relative to AIMS and make necessary adaptation.

2.1.2 Implement adapted model for student-level growth, including design and development of processes and tools for providing student-level growth information to schools, teachers and parents.

2.1.3 Develop guides for parents, teachers, and principals on student-level growth; conduct teacher and parent workshops on interpretation and use of results.

2.1.4 Study CGM school-level growth formula and evaluate its adequacy for Arizona; explore criteria to determine the formula for Arizona implementation; design and develop processes and tools to implement and display the Arizona formula.

2.1.5 Conduct workshops for LEAs on interpretation and use of school-level growth results.

2.1.6 Analyze impact of school-level growth indicators on AYP and AZ LEARNS; modify AYP and AZ LEARNS or develop new school performance indicators.

SUBTASK 2: CREATE METRICS FOR STATE FISCAL STABILIZATION FUND

Metrics for SFSF compliance will be collected, vetted and published by ADE for statewide consolidation by the Arizona Department of Administration.

NOTE: SEE TIMELINE IN APPENDIX D.
