

## **Section 19: Special Funding Initiatives**

2/19/10

This section contains information on various competitive programs, or groups of programs, that North Carolina must either make a direct application for, or is somehow involved in the selection process.

This section contains the following subsections:

- Health Internet Technology (HIT)
- Broadband
- Race To The Top
- Research & Development
- I-85 Corridor Improvement and Yadkin River Crossing Project
- Historically Underutilized Businesses (HUBs)
- Small Businesses
- Byrne/JAG Justice and Public Safety Funds
- Subsidized Childcare
- High Unemployment County Outreach
- By-county General Contractor Opportunity list

The American Recovery and Reinvestment Act of 2009 (ARRA) contains approximately \$19 billion in funding for Health Information Technology (HIT) infrastructure over six years. The largest portion, roughly \$17 billion, is set aside for incentive payments by Medicare and Medicaid to qualified providers for making meaningful use of electronic health records (EHR) in their practices.

The remaining portion of ARRA funding, roughly \$2 billion, is appropriated to the Office of the National Coordinator (ONC). These funds primarily will be used by states to create the infrastructure on which the information exchange will take place. It will also be used by states to educate providers about HIT and provide technical support.

The overall goal of ARRA federal recovery funds for HIT is to create a nationwide health information infrastructure that enables electronic health information to be recorded, shared, and used in a way that improves health and protects the privacy of individuals.

North Carolina entities applied for three HIT funding opportunities through the ONC, with two awards already announced:

**Health Information Exchange (HIE)** Governor Perdue designated the Health and Wellness Trust Fund (HWTF) to apply for grant funding to develop a statewide HIE. The governor also established an HIT Collaborative under the auspices of the HWTF to guide strategic planning and implementation of HIE. The application was approved in February for \$12.9 million. An operational plan is under development.

**Regional Extension Center (REC)** The North Carolina Area Health Education Centers Program applied for the REC grant on behalf of the state and was awarded \$13.6 million in February. The REC will offer technical assistance, guidance and information to health care providers as they implement HIT into their practices.

**Community College Consortia** Pitt County Community College applied to serve the 12 states in the southeast region, including North Carolina, in assisting institutions of higher education to establish or expand medical health information education programs. The application was submitted on January 22, 2010. The anticipated funding amount is \$21.15 million.

### **Medicaid Planning**

The North Carolina Department of Health and Human Services submitted a plan to receive 90% federal matching funds to plan administrative activities related to identifying, certifying and paying incentives to health care providers who implement and make meaningful use of electronic health records. The plan was approved and the state expects to use approximately \$2.3 million federal funds, matched by \$266,000 state funds, for these administrative activities. Incentive payments to providers will be made as a supplement to

reimbursements for care delivered to Medicare and Medicaid patients. The incentive payments to Medicaid providers will be 100% funded by the federal government.

### **Beacon Communities**

Up to \$20 million is available for non-profit organizations or government entities representing geographic health care communities to build and strengthen their health information technology infrastructure and exchange capabilities. Successful communities must have advanced rates of electronic health record adoption and health information exchange, and the readiness to incorporate health IT in care coordination and quality monitoring.

### **Education**

Institutions of higher learning in North Carolina may choose to apply for one or more of the following three funding opportunities:

**Academic Program Standards** Up to \$6 million is available to institutions of higher learning for expansion and/or creation of university-level training programs in fields related to health information technology. The purpose of this program is to rapidly increase the availability of individuals qualified to serve in specific health information technology professional roles.

**Competency Exam Development** Up to \$6 million is available to institutions of higher learning for the development and initial administration of a set of health information technology competency examinations. The competency examinations developed with these funds will enable health IT professionals, employers, and other stakeholders to assess their own health IT competency levels, or the competency of their health IT staff members.

**Advanced Research Projects** Up to \$18 million is available for institutions of higher learning to support research regarding well-documented problems that have impeded adoption of health IT, and to accelerate progress towards achieving nationwide meaningful use of health IT.

## **Broadband**

Titles I and II of part A of the American Recovery and Reinvestment Act establish the two major broadband implementation and expansion programs: the Rural Utilities Service (RUS) Broadband Initiatives Program (BIP) and the National Telecommunications and Information Administration's (NTIA) Broadband Technology Opportunities Program (BTOP). The BIP and BTOP programs were both new programs overseen jointly by their respective agencies. The two agencies worked together to establish a Joint NOFA (Notice of Funding Availability) a joint application, and a joint portal for submission. The guidance, released on July 1, 2009, announced that there would be a little more than \$4 billion available in Round 1 between the two programs. The first round of BTOP/BIP applications closed on August 15, with more than 100 applications submitted with a North Carolina service area.

As part of the first round of the BTOP evaluation and award process, the NTIA has asked for comment from governors regarding programs that serve "the best interest of the state." These comments were due by October 14. The BTOP Review Committee was established under the Office of Economic Recovery and Investment to advise Governor Perdue on applications on the NTIA's list of projects serving North Carolina. The Committee was made up of eight people divided into two subcommittees: the Subcommittee on Infrastructure and the Subcommittee on Sustainable Broadband Adoption and Public Computer Centers:

1. Subcommittee on Infrastructure
  - a. John McHugh, Dennis Holton, Jim Lowry, Michael Fenton.
2. Subcommittee on PCC/SA
  - a. Terry Bledsoe, Lee Mandell, Cynthia Marshall, Sandy Babb

The BTOP subcommittees read, discussed and ranked all of the applications by their funding category within the BTOP program, and reported their findings to Governor Perdue for review.

The recommendations made by the BTOP Review Committee were accepted by the Governor, who made a special recommendation for the MCNC proposal to the NTIA.

A special subset of the BTOP program was the Broadband Data Improvement Act (BDIA). The program provides grants to designated entities to assist states or their designees in gathering and verifying state-specific data on the availability, speed, location, and technology type of broadband services. The governor of each state was asked to designate by August 15 a single entity to spearhead broadband mapping efforts and to contribute to the FCC's national broadband map initiative. Governor Perdue designated the e-NC Authority as the state's mapping agent. The data they collect and compile will also be used to develop publicly available state-wide broadband maps and to inform the comprehensive, interactive, and searchable national broadband map that NTIA is required by the Recovery Act to create and make publicly available by February 17, 2011.

On Oct. 5 the NTIA awarded e-NC \$2,000,000 for its mapping and outreach program. The e-NC Authority was one of the first four award announcements made nationally by NTIA on the

strength of the application. The NTIA noted that e-NC submitted a grant application that met or exceeded program requirements in all areas.

An Advisory Committee on State Broadband Needs Analysis will be established by the governor to review and evaluate the overall needs assessment and mapping process. Members will be appointed by the governor with recommendations from the e-NC Authority. The committee will advise the governor and the e-NC Authority. The committee will adhere to open meetings law, and meetings will be listed on [www.ncrecovery.gov](http://www.ncrecovery.gov).

On January 20, 2010 the NTIA announced that MCNC's BTOP proposal would be fully funded. The \$28.2 million grant award, along with \$11.7 in matching funds provided by MCNC, funds a total of \$40 million expansion in the North Carolina Research and Education Network (NCREN), which provides connectivity to the state's public schools, libraries and health facilities. The project will expand 480 miles of new fiber in 37 North Carolina counties.

On January 22, 2010 the NTIA and RUS released the second and final NOFAs for the BIP and BTOP programs. The BIP and BTOP are now distinct programs with separate applications and goals. In the second round, BTOP is making \$2.35 billion available for Comprehensive Community Infrastructure Projects, a more unified broadband infrastructure program, \$150 million for Public Computer Center applications, and \$100 million for Sustainable Broadband Adoption Projects. BIP is making \$2.2 billion available for various programs, including last mile infrastructure, satellite broadband projects, and rural library programs.

The application period for the second round of both programs opened February 16, 2010 and closes March 15, 2010. Please see [www.broadbandUSA.gov](http://www.broadbandUSA.gov) for additional information.

(Please insert Section 19 attachment 1 here)

## **Press Release: NTIA Announces First State Broadband Mapping Grants**

### **Recovery Act Funding to Provide Policymakers and Consumers with Improved Data on Internet Service in California, Indiana, North Carolina, and Vermont**

*For Immediate Release: October 5, 2009*

*Contact: Mark Tolbert, 202-482-8176 or [press@ntia.doc.gov](mailto:press@ntia.doc.gov)*

WASHINGTON – The Department of Commerce's National Telecommunications and Information Administration (NTIA) today announced that it has awarded the first four grants under NTIA's State Broadband Data and Development Grant Program to fund activities in California, Indiana, North Carolina, and Vermont. The program, funded by the American Recovery and Reinvestment Act, will increase broadband access and adoption through better data collection and broadband planning. The data will be displayed in NTIA's national broadband map, a tool that will inform policymakers' efforts and provide consumers with improved information on the broadband Internet services available to them.

"Broadband will bring many benefits to the Nation, such as job creation and innovation, but these benefits have been delayed by the lack of comprehensive, reliable data on the availability of broadband service," said Assistant Secretary for Communications and Information and NTIA Administrator Lawrence E. Strickling. "This program addresses an important need and will provide a valuable tool in bringing broadband and jobs to more Americans."

NTIA received applications representing all 50 states, 5 territories, and the District of Columbia to participate in the program, meaning that all governments that were eligible to apply for grants did so, whether directly or through a designated entity. The agency is currently reviewing the remaining 52 applications and expects to continue announcing awards on a rolling basis throughout the fall.

A summary of the four awards announced today is as follows:

- The California Public Utilities Commission (CPUC) is awarded approximately \$1.8 million; the Indiana Office of Technology (IOT) is awarded approximately \$1.3 million; the Rural Economic Development Center, Inc. (e-NC Authority) is awarded approximately \$1.6 million; and the Vermont Center for Geographic Information (VCGI) is awarded approximately \$1.2 million to collect and verify the availability, speed, and location of broadband across the states of California, Indiana, North Carolina, and Vermont, respectively. This activity is to be conducted on a semi-annual basis between 2009 and 2011, with initial data coming available in November 2009 to inform broadband policy efforts. Awardees are to present the data in a clear and accessible format to the public, government, and the research community.
- The CPUC is also awarded \$500,000 for the cost of broadband planning activities in California over four years, bringing its grant award total to approximately \$2.3 million. In addition, the e-NC Authority is awarded approximately \$435,000 for the cost of broadband planning activities in North Carolina over five years, bringing its grant award total to over \$2 million.

"The four award recipients submitted well-formed proposals that are both fiscally prudent and serve as a model for others," Strickling added. "We are committed to making the program succeed nationwide and will continue to provide guidance to applicants where necessary to help them improve their proposed projects."

NTIA noted that the four award recipients submitted grant applications that met or exceeded program requirements in all areas. For example:

- **Data Collection:** While all four recipients plan to collect data directly from broadband providers, each also described plans to collect or utilize data from other sources. Examples include wireless propagation models, speed tests, online and field surveys, and drive testing. Recipients also plan to use existing datasets that were developed for other purposes but are valuable for broadband mapping, including orthophotography, parcel maps, and E911 datasets.
- **Verification:** The recipients will use multiple verification methods, and each also plans to use independent verifiers to conduct data verification work.
- **Collaboration:** Recipients demonstrated that the relevant state agencies are committed to the success of the project and plan to be actively engaged in its leadership. Each recipient is collaborating with other state partners, resulting in plans that are unique to each state's needs and capabilities. In addition, while current Geographic Information Systems (GIS) and/or broadband resources vary by state, recipients described how their projects will integrate and leverage existing capacity.

The State Broadband Data and Development Grant Program is a matching grant program that implements the joint purposes of the American Recovery and Reinvestment Act and the Broadband Data Improvement Act (BDIA). The program will provide grants to assist states or their designees in gathering and verifying state-specific data on the availability, speed, location, and technology type of broadband services. The data they collect and compile will also be used to develop publicly available state-wide broadband maps and to inform the comprehensive, interactive, and searchable national broadband map that NTIA is required by the Recovery Act to create and make publicly available by February 17, 2011.

The national broadband map will publicly display the geographic areas where broadband service is available; the technology used to provide the service; the speeds of the service; and broadband service availability at public schools, libraries, hospitals, colleges, universities, and public buildings. The national map will also be searchable by address and show the broadband providers offering service in the corresponding census block or street segment.

Awardees are required to contribute at least 20 percent non-federal matching funds toward project costs. In addition, while the BDIA mandates that each state may designate only one eligible entity to receive funds under the program, each state's applicant will be carefully evaluated and must meet the standards described in NTIA's Notice of Funds Availability for this program in order to receive funding.

U.S. Department of Commerce's NTIA serves as the executive branch agency principally responsible for advising the President on communications and information policy. For more information about the NTIA, visit [www.ntia.doc.gov](http://www.ntia.doc.gov).

## **Competitive Education Grants on National Level (includes Race To The Top)**

Congress approved a competitive grant program for the states as an investment in school reform. It is a reward to states for past accomplishments and creates incentives for future improvements while incorporating the four reform goals/assurances in the Stabilization grant. The goals of each of the competitive grants are inter-related and support the goal of improving education quality. The categories of competitive grants are:

**Race To The Top** – The goal is to have a comprehensive strategy to improve education quality and results statewide and improve student achievement. Proposals must address the four reform goals: 1) Teacher effectiveness and inequities in teacher distribution; 2) student data systems; 3) college and career-ready standards and assessments; and 4) support struggling schools.

Supports states' bold strategies and makes changes to increase the number of percentage of effective teachers / principals, closes the gap in teacher effectiveness that hurts high-need students / schools and turns around the lowest achieving schools.

**Teacher Quality Enhancement** – Improve student achievement and teacher quality in high-need schools by improving teacher preparation and professional development programs; hold teacher preparation programs accountable for preparing effective teachers; and recruit highly qualified individuals into the teaching profession.

**Statewide Data Systems** – Develop / implement longitudinal data systems to enable analysis of student, staff and program data to support continuous improvements of education services and outcomes, facilitate research to improve student achievement and close achievement gaps by evaluating data and looking for patterns.

**Teacher Incentive** – Develop and implement performance-based teacher / principal compensation programs to support recruitment and retention in high-need schools, providing rewards for increases in student achievement, and to help ensure equitable distribution of effective educators.

**Innovation Fund / Invest in What Works** – Recognize local-level projects that have made gains in closing achievements gaps, can document best practices, and be replicated. Projects may expand the existing approaches, evaluate new initiatives to see if suitable for expansion, support development of projects that incorporate strategies proven to increase student achievement, and leverage partnerships with the private sector.

## **Research Grants awarded to UNC-System Institutions**

The OERI has, as part of its transparency mission, been tracking and reporting on research and development grants awarded to UNC-system institutions. The document created to track and report on these grants is a subset of the Federal Departments Direct Grants list, and to avoid double counting, please note that the grants are already represented by institution in the previous section.

This document serves to provide a summary of the amount, the goal, and the timeline of each ARRA-funded grant.

These grants are funded through federal agencies and have been either won competitively by applicants or were previously-submitted applications that are being funded by increases in ARRA funding. Currently, UNC system institutions have submitted applications for more than a billion dollars in proposed grants and have been awarded about \$30 million in federal grant funds. Awarded grants range in subject from experimental medical investigations, to lab equipment, new cancer treatment methods, studying economically important environmental resources, studying new educational methodologies, and outreach and training for new industries, among others.

To see the full breakdown, please visit [www.ncrecover.gov](http://www.ncrecover.gov), the information is updated weekly.

## Summary - Recovery Act Grants Awarded to UNC-System for Research & Development\*

University	Amount of ARRA Research Grant Funding	Number of ARRA Research Grants
Appalachian State University	\$452,342	4
East Carolina University	\$3,098,437	14
Elizabeth City State University	\$500,000	1
NC Agricultural & Technical State University	\$2,281,645	8
NC Central University	\$282,241	2
NC State University	\$20,941,589	48
UNC Asheville	\$1,100,768	2
UNC Chapel Hill	\$94,000,302	229
UNC Charlotte	\$5,647,783	18
UNC Greensboro	\$1,686,284	8
UNC Pembroke	\$278,675	2
UNC Wilmington	\$1,719,091	4
Winston-Salem State University	\$1,070,764	6
<b>UNC System Total</b>	<b>\$133,059,921</b>	<b>346</b>

\*Totals do not include sub-awards from in-state prime recipients of ARRA funding, or awards for research facility construction.

For information on specific grants, please go to our website at:  
[www.ncrecovery.gov/library/xls/R&D\\_to\\_Universities.xls](http://www.ncrecovery.gov/library/xls/R&D_to_Universities.xls)

## **I-85 Corridor Improvement and Yadkin River Crossing Project**

9/24/09

North Carolina submitted a grant application for \$300 million in discretionary grant money included in the American Recovery and Reinvestment Act to use for the I-85 Corridor Improvement Project, which includes replacing the I-85 bridge over the Yadkin River, in Davidson and Rowan counties.

Comprehensive information about the project is available on a new Web site,

[www.ncdot.gov/recovery/i85corridor/](http://www.ncdot.gov/recovery/i85corridor/).

Support for this project is overwhelming. Nearly 100 letters and resolutions of endorsement have been received to date and can be viewed on the project Web site.

The I-85 Corridor Improvement Project will complete a comprehensive overhaul of the highway, bridge and rail infrastructure located along 6.8 miles of I-85 from north of Long Ferry Road (Exit 81) in Rowan County to U.S. 29-52-70/I-85 Business (Exit 87) in Davidson County. The project would be completed under two design-build contracts, which allow project teams of designers and contractors to conduct design and construction work simultaneously to expedite completion, at an estimated cost of more than \$300 million.

I-85 is the most direct and heavily traveled route between Richmond and Atlanta. The stretch of highway included in this project currently carries nearly 70,000 vehicles per day, with traffic counts projected to more than double by 2030. Trucks account for 26 percent of the traffic along this portion of I-85.

Right now, this stretch has only two lanes in each direction, with narrow shoulders, sharp curves and closely spaced interchanges. The existing I-85 Yadkin River Bridge is outdated and narrow, currently rated in poor condition, and classified as both structurally deficient (having elements that need to be monitored and/or repaired) and functionally obsolete (outdated in design).

The total crash rate for this portion of I-85 is about 77 percent higher than the average crash rate for comparable roadways across the state, while the fatal crash rate is 80 percent higher. The project is expected to reduce crash rates by 75 percent and improve traffic flow by alleviating existing bottlenecks.

Improvements to the railroad tracks that cross under I-85 will increase track speed by 45 percent and accommodate future rail needs, including the implementation of high-speed rail.

From an economic standpoint, the project has the potential to create or sustain more than 7,000 jobs, and it is expected to result in economic benefits 12 to 17 times its cost. This stretch of I-85 is located in a region of the state that has been hard-hit by job losses, with both Davidson and Rowan counties qualifying as economically distressed areas under the Public Works and Economic Development Act of 1965.

The ARRA includes \$1.5 billion in discretionary grants to be awarded to states for transportation projects. The grants will be awarded on a competitive basis and can range in size from \$20 million to \$300 million, with not more than 20 percent of the total money allocated to any one state.

(Please insert Section 19 attachment 4 here)

## **Historically Underutilized Business and Small Businesses Outreach**

10/23/09

The N. C. Office of Economic Recovery and Investment has undertaken an awareness campaign targeted to small and historically underutilized businesses (HUBs), including minority contractors and women-owned businesses. The four-month campaign was designed to reach out to these groups through workshops and the use of a variety of communication vehicles to promote awareness, provide answers and increase levels of participation and to offer help with navigation of the various funding opportunities available through the American Recovery and Reinvestment Act (ARRA).

Through Executive Order 13, “Support for Historically Underutilized Businesses,” Governor Bev Perdue addresses the importance of providing opportunities to small and historically underutilized businesses when awarding state contracts and procuring goods and services in a variety of areas, including transportation and construction.

The Office of Economic Recovery and Investment is working with the Office of Historically Underutilized Businesses (NC HUB) to reach out to the Hispanic and Native American communities to broaden their awareness of North Carolina’s recovery efforts in hopes of increasing participation levels.

As part of its outreach mission, OERI retained BTA Public Relations, Inc. to conduct nine Small and HUB Awareness Workshops throughout the state of North Carolina. The workshops helped connect small and historically underutilized businesses to the recovery process.

**HUBS / Small Businesses Workshop Schedule  
(All workshops run from 9:30 a.m. – 12:30 p.m.)**

**July 15 - Williamston**  
NC Technology Center

**July 22 - Salisbury**  
Rowan Business Alliance

**July 29 - Wilmington**  
St. Phillips AME Church

**August 5 - Greensboro**  
NC A&T State University

**August 12 - Goldsboro**  
Rebuilding Broken Places CDC  
2105 N. William Street

**August 19 - Charlotte**  
Friendship Missionary Baptist

**September 16 - Raleigh**  
Mount Peace Baptist Church  
1601 Martin Luther King Jr. Blvd.

**September 23 - Hickory**  
Morning Star First Baptist Church  
126 4th Avenue, SW

**September 30 - Rocky Mount**  
The OIC Center

**November 12<sup>th</sup> – Greenville, NC**  
TBA

**November 17<sup>th</sup> – Fayetteville, NC**  
TBA

7/8/2009

## OERI Launches Outreach Program for Small and Historically Underutilized Businesses

The N. C. Office of Economic Recovery and Investment (OERI) today announced the implementation of a statewide awareness campaign targeted to historically underutilized businesses (HUBs), including minority and small businesses. The four-month campaign will reach out to these groups through workshops and the use of a variety of communication vehicles to impart information and offer help with navigation of the various funding opportunities available through the American Recovery and Reinvestment Act (ARRA).

Through Executive Order 13, “Support for Historically Underutilized Businesses” [www.governor.state.nc.us/NewsItems/ExecutiveOrderDetail.aspx?newsItemID=438](http://www.governor.state.nc.us/NewsItems/ExecutiveOrderDetail.aspx?newsItemID=438) Governor Bev Perdue addresses the importance of providing opportunities to small and historically underutilized businesses when awarding state contracts and procuring goods and services in a variety of areas, including transportation and construction. “It’s critical that small businesses and HUBs in North Carolina have access to funding available through the American Recovery and Reinvestment Act for job creation and other opportunities,” said Governor Perdue.

OERI has retained BTA Public Relations, Inc. to conduct the outreach campaign. BTA Public Relations, Inc. is Raleigh-based and has extensive experience working with state government agencies. The budget for this contract is not to exceed \$110,000. OERI Director Dempsey Benton said, “This outreach campaign promotes full participation in vital Recovery opportunities by North Carolina businesses by seeking out small and historically underutilized businesses that otherwise might not be included in this historic effort.”

Planned workshops and training programs will allow HUBs an opportunity to ask questions one-on-one and receive guidance on proper application for funds. Workshops will be held in Charlotte, Hickory, Goldsboro, Greensboro, Raleigh, Rocky Mount, Salisbury, Williamston and Wilmington. The first workshop will be held in Williamston on July 15 at Northeast Technology & Business Center, 415 E. Blvd., Williamston. All workshops run from 9:30 a.m. through 12:30 p.m.

While the workshops are aimed at HUBs and other small businesses, larger contracting organizations, associations and advocates will also benefit from the workshops.

This outreach effort will include direct contact with HUBs and small businesses with the aim of increasing participation and promoting proper preparation for application to participate in Recovery programs. Telephone support and assistance will be available through a support line (1-888-833-5003).

Further information is available at [www.ncrecovery.gov](http://www.ncrecovery.gov) or through BTA Public Relations, Inc. (1-888-833-5003) or the N. C. Office of Economic Recovery and Investment (919-733-1433).

# 2009 RECOVERY ACT

## **Overview of the American Recovery and Reinvestment Act of 2009 (Recovery Act)**

The American Recovery and Reinvestment Act of 2009 (Recovery Act) was signed into law by President Obama on February 17, 2009. It is an unprecedented effort to jumpstart our economy, create or save millions of jobs, and put a down payment on addressing long-neglected challenges so our country can thrive in the 21st century.

The Act is an extraordinary response to a crisis unlike any since the Great Depression, and includes measures to modernize our nation's infrastructure, enhance energy independence, expand educational opportunities, preserve and improve affordable health care, provide tax relief, and protect those in greatest need.

- [Implementing the American Recovery and Reinvestment Act of 2009 \(Recovery Act\)](#)
- [Agency Plans and Reports](#)
- [SBA Recovery Information Center](#)
- [ARC Loan Program](#)
- [Microloan Program](#)
- [Recovery Act Legislation](#)
- [Additional Resources](#)

## Micro Loan Program

The SBA provides funding for qualified nonprofit community-based lenders who, in turn, provide microloans of up to \$35,000 to local entrepreneurs and small business owners, in conjunction with technical assistance training. In the last fiscal year, the average loan size was \$11,600. The Recovery Act has provided \$50 million in additional funding to support these microloans as well as \$24 million for technical assistance training. The SBA provides these technical assistance grants to community-based lenders up to a maximum of 25% of their outstanding SBA debt to enable the intermediaries to provide marketing, management, and business counseling for potential and actual microloan borrowers. Thanks to the Recovery Act, community-based lenders will now be able to provide additional loans and technical assistance to assist start-up businesses and to help successfully grow small businesses.

## **PATRIOT EXPRESS** YOUR KEY TO BUSINESS SUCCESS

### **Patriot Express Pilot Loan Initiative Overview**

The U.S. Small Business Administration has announced the SBA's Patriot Express Pilot Loan Initiative for veterans and members of the military community wanting to establish or expand small businesses.

Eligible military community members include:

- Veterans
- Service-disabled veterans
- Active-duty service members eligible for the military's Transition Assistance Program
- Reservists and National Guard members
- Current spouses of any of the above
- The widowed spouse of a service member or veteran who died during service or of a service-connected disability
- The SBA and its resource partners are focusing additional efforts on counseling and training to augment this loan initiative.

### **Start with a Self Assessment**

You've got an idea for a business. Now it's time to evaluate if your dream of starting a business can be a reality. The [Checklist for Starting a Business](#) is a comprehensive tool designed to prepare you for self employment by analyzing your responses in key areas and providing a menu of supporting resources.

## **Byrne/JAG Justice and Public Safety Funds**

9/24/09

The ARRA funded an increase in the federal Justice Assistance Grants Program (JAG). The Byrne Justice Assistance Grant Program is a federal program administered by the Bureau of Justice Assistance in the Federal Department of Justice. This program provides grant funding for projects fulfilling any of nine major public safety purposes”

- Law enforcement programs.
- Prosecution and court programs.
- Prevention and education programs.
- Corrections and community corrections programs.
- Drug treatment and enforcement programs.
- Planning, evaluation, and technology improvement programs.
- Crime victim and witness programs (other than compensation).

JAG funds flow into the state in three ways. The first is a formula allocation to the state. North Carolina received **\$34,491,558** that was distributed to various applicants through the Governor’s Crime Commission. In addition, \$21,853,798 went to 216 local governments across the state for various purposes in line with the requirements of the Act. Finally, there is a federal competitive portion that is open to state or local government applicants. North Carolina has successfully applied for additional Violence Against Women, and Victims of Crime funds.

In a separate but related program, local governments would apply for funds to train or retain public safety officers. The COPS (Community Oriented Policing Services) awards grants to law enforcement agencies to hire and train community policing professionals, acquire and deploy cutting-edge crime-fighting technologies, and develop and test innovative policing strategies. COPS funding also provides training and technical assistance to community members and local government leaders and all levels of law enforcement. North Carolina received \$30,956,114 in COPS funding, which represents 202 officers in 50 communities.

In order to help leverage the efficiency of these programs, Governor Perdue set aside \$400,000 of state JAG funding to help pay for uniforms and equipment for local governments who have new COPS funded positions. These funds should be distributed soon.

## JAG Funding

State	Jurisdiction Name	Government Type	Eligible Individual Allocation	Eligible Joint Allocation
NC	ALAMANCE COUNTY	County	\$67,307	
NC	BURLINGTON CITY	Municipal	\$238,581	
NC	GRAHAM CITY	Municipal	\$53,018	
NC	MEBANE CITY	Municipal	\$26,885	\$385,791
NC	BUNCOMBE COUNTY	County	\$107,164	
NC	ASHEVILLE CITY	Municipal	\$265,466	\$372,630
NC	CABARRUS COUNTY	County	\$28,577

\* Counties that have an asterisk (\*) under the “Eligible Individual Allocation” column are ineligible for a direct FY 09 Recovery Act - Edward Byrne Memorial Justice Assistance Grant (JAG) award from BJA. For JAG purposes, these counties remain a partner with the jurisdictions receiving funds and must be a signatory on the required Memorandum of Understanding (MOU). A sample MOU is provided online at: <http://www.ojp.usdoj.gov/BJA/recoveryJAG/JAGrecoveryMOU.pdf>.

\*\* Shaded allocation amounts for disparate jurisdictions appearing in the “Eligible Individual Allocation” column are suggested amounts based on what each jurisdiction would have been eligible to receive if there was no identified disparity. Disparate jurisdictions are responsible for determining individual allocations and documenting individual allocations in the MOU. Additional JAG Frequently Asked Questions can be found on the BJA JAG web page at: <http://www.ojp.usdoj.gov/BJA/recoveryJAG/JAGrecoveryFAQ.pdf>.

## Subsidized Childcare\*

The ARRA provides \$67.5 million for additional child care assistance. By federal directions, \$11.5 million is to be used for quality--enhancement efforts. This leaves \$56 million for direct services.

The ARRA funds are divided across all the counties using the same legislative approved formula as in past distributions for this program. This creates a new total funding for each county, including all sources. Since there are 5,000 childcare centers in the state, the decision was made to focus the ARRA funds to a specific number of the centers so that the reporting and record-keeping would be more manageable. This process involves choosing 50 counties, which include the tier 1 counties and/or those counties with highest unemployment rates, plus counties with the highest number of children on the waiting list. DHHS then selects a number of centers within those counties which would receive the ARRA funded slots and be responsible for reporting. They have identified 291 centers out of the 5,000 to be responsible for reporting. This approach does not modify the actual amounts each county receives. It adjusts the mix of funding sources.

These ARRA funds must be used in fiscal year 09-10, so the department will more closely monitor how the funds are used in each county and make adjustments on a quarterly basis to avoid the use it- or-lose it situation.

Overall, the adopted state budget cut \$15 million from this program. The net increase is therefore \$41 million which should serve an additional 8,000 children this year.

\*Subsidized Childcare has now been rolled into the new "Human Services" column on the 100-County spreadsheet

County	Base Formula Allocation			Stimulus Funds	Total Annual Allocation - With Stimulus			2nd Quarter - 36% ARRA	3rd Quarter - 35% ARRA	4th Quarter - 29% ARRA

Note: Subsidized child care funds for Cherokee, Clay, Graham, Haywood, Jackson, Macon, and Swain Counties are administered by Southwestern Child Development. These allocations are combined into a contract with SWCD each year.

## **Section 19: OERI Outreach Efforts In High Unemployment Counties**

2/24/2010

OERI launched an outreach effort in September 2009 aimed at twenty of the most economically distressed counties in the western and eastern parts of North Carolina, based on unemployment figures and how quickly those percentages rose. The goal of the outreach was for the OERI to serve as point of contact and act as a liaison between local governments and other state and federal agencies.

The OERI utilized two teams to establish connections between the local governments and other Recovery-related outside entities. This effort is focused on two groups of high unemployment counties:

### Western Group:

Alexander,  
Anson,  
Burke,

Caldwell,  
Cleveland,  
Gaston,

Lincoln,  
McDowell,  
Rutherford.

### Eastern Group:

Edgecombe,  
Halifax,  
Montgomery,

Nash,  
Richmond,  
Scotland,

Wilson,  
Vance,  
Warren.

OERI staff meets with county and municipal leaders in these areas of focus to raise awareness of current and upcoming ARRA funding opportunities available through state and federal recovery programs. The group coordinates with various partners, such as Waste Reduction Partners, State Energy Office, the Department of Commerce, USDA, Councils of Government, and Business and Technology Centers. The outreach effort also provides technical and hands-on assistance to local governments to help them in applying for Recovery funds, especially with programs through the State Energy Office.

### OERI Contacts:

Jack Duncan (Eastern outreach)  
Jack.Duncan@nc.gov  
919.733.1587

Liz Riley (Western outreach)

704.330.5283

## **Western Outreach Meetings**

### **Meetings with State Agencies:**

State Energy Office, Reid Conway: Monday, October 19, 2009

Department of Commerce's Main Street Program Director, Liz Parham: Friday, October 16, 2009

### **Meetings with Community Experts/Community Program Administrators:**

Foothills Connect Business and Technology Center, Director Tim Will: Tuesday, September 1, 2009

Isothermal Planning and Development Commission, Workforce Development Director, Bill Robertson: Thursday, September 3, 2009

Isothermal Planning and Development Commission, Weatherization Program Administrator, Becky McKelvey: Thursday, September 3, 2009

Western Piedmont Council of Government (WPCOG), Workforce Development Director, Sheila Dotson: Monday, September 7, 2009

Waste Reduction Partners, Russ Jordan: On-going

### **Community Meetings Attended:**

Western Piedmont Council of Government's Manager's Meeting: Friday, September 4, 2009

Foothills Connect Business and Technology Center Meeting: Monday

Burke County Broadband Commission Meeting: Wednesday, September 9, 2009

OERI HUB/Small Business Workshop: Wednesday, September 23, 2009

Caldwell County Commissioner's Meeting: Monday, October 5, 2009

Catawba County Manager's Meeting: Tuesday, October 6, 2009

Lenoir City Council Meeting: Wednesday, October 9, 2009

### **Community Meetings to Attend:**

Burke County Broadband Commission Meeting: Wednesday, October 28, 2009

McDowell County Broadband Commission: TBA

### **Reporting Assistance:**

Town of Forest City Police Department

Town of Spindale

Hickory Police Department

City of Morganton

City of Morganton Police Department

Town of Morven

## **Eastern Outreach meetings:**

The Eastern Outreach team divided their efforts into two distinct rounds of outreach. Round 1 was dedicated to explaining grant opportunities to areas with the highest unemployment rate. This round saw visits to counties, municipalities, and a community college.

Round 2 focused on those that had already been awarded a grant with the focus of the outreach on compliance and reporting, with additional outreach for remaining grant opportunities. These visits were separated between county, municipality and Public Housing Authorities (PHA).

## **Initial Outreach Team Meetings:**

### Rutherford County (September 2, 2009)

John Condrey, County Manager  
Jerry Stensland, Recreation, Cultural, and Heritage Planner

### Burke County Meeting (September 15, 2009)

Aaron Church, Assistant to the County Manager  
Randy Price, Emergency Management Services Director  
John McDevitt, Sheriff  
Susan Burley, Senior Planner  
Paul Ijames, County Finance Director

### Towns of Hildebran, Drexel, and Rutherford College (September 15, 2009)

Amanda Reid, Local Government Service Corps member

### Catawba County Meeting (September 22, 2009)

Tom Lundy, County Manager  
Lee Worsley, Assistant County Manager  
Rodney Miller, Finance Director  
Terry Bledsoe, Technology Director

### City of Newton (September 22, 2009)

Todd Clark, City Manager  
Gary Herman, Public Information Officer  
Donald Brown, Police Chief  
Wilce Martin, Director of Public Works

### City of Hickory (September 22, 2009)

Andrea Surratt, Assistant City Manager

### City of Lenoir (September 24, 2009)

Lane Bailey, City Manager  
Danny Gilbert, Assistant City Manager

### Caldwell County (September 24, 2009)

David Hill, Interim County Manager  
Harry Whalen, County Economic Development Director  
Lou Anne Kincaid, Public Information Officer

### Town of Morven (September 30, 2009)

Carolyn Solomon, Morven Mayor  
Mr. Solomon, Town Councilman  
Sarah Burr, Maintenance Operations Director

### Town of Wadesboro (September 30, 2009)

John Witherspoon, Town Manager

### Town of Valdese (October 6, 2009)

Jeff Morse, City Manager  
Bryan Duckworth, Director of Public Works  
Larry Johnson, Planning and Community Development Director  
Leah Pannell Martin, WPCOG Community Development Administrator

### City of Morganton (October 6, 2009)

Sally Sandy, City Manager  
Ron George, Assistant City Manager  
Mark Tolbert, Police Chief  
Sharon Jablonski, Main Streets Director  
Scott Lookadoo, Director of Public Works

Dan Brown, Director of Electric System  
Nikki Gregory, Information Management  
Bill Harkins, Compas Cable Director

### City of Lincolnton (October 8, 2009)

Jeff Emory, City Manager

### Lincoln County (October 8, 2009)

George Wood, County Manager  
Martha Lide, Assistant County Manager

### City of Shelby (October 12, 2009)

Ted Philips, Finance Director  
Brad Cornwell, Director of Public Utilities  
Bryan Howell, Director of Housing  
Walter Scharer, Planning Director  
Jeff Ledford, Police Chief

### Cleveland County (October 12, 2009)

David Dear, County Manager  
Eddie Bailes, Assistant County Manager

### Town of Kings Mountain (October 13, 2009)

Marilyn Sellers, Town Manager  
Lori Hall, Finance Director  
Steve Killian, Senior Planner

### City of Gastonia (October 13, 2009)

James Palenick, City Manager  
Flip Bombadier, Assistant City Manager  
Larry Wood, Assistant City Manager  
Jack Kiser, Senior Planner  
Rusty Boss, City Engineer  
Suzanne Hinely, Neighborhood and Community Development  
Kristy Crisp, Key Accounts Manager, Electric Department

### Gaston County (October 13, 2009)

Jan Winters, County Manager  
Ray Maxwell, Public Works Director  
Yvonne Gibbs, Grants Administrator

### McDowell County (October 21, 2009)

Chuck Abernathy, County Manager  
Ashley Wooten, Assistant County Manager

### City of Marion (October 21, 2009)

Heather Cotton, Planning and Development Director  
Danielle, City Intern for Planning and Energy Projects

### Town of Taylorsville (October 23, 2009)

David Odom, Town Manager

### Alexander County (October 23, 2009)

Rick French, County Manager  
Sherry Long, WPCOG Community Development Director  
Leah Pannell Martin, WPCOG Community Development Administrator  
Sam Erwin, WPCOG Environmental Development Administrator

## **Section 19: By-County General Contractor Opportunity List**

12/04/09

As part of our outreach and transparency mission the OERI has established a list that represents, to the best of our knowledge, possible opportunities for general contractors. This list is organized by county where ARRA-funded projects have been awarded or are currently ongoing.

Please note that this list represents only possible contracting opportunities, usually at the local government level. Contracts for goods and services purchased by the state or a political subdivision of the state from private sources must still be listed on the Department of Administration's Interactive Purchasing System (IPS) web site. Individual jobs established through ARRA-funded contacts still have to be listed on with local ESC office.

Since several of these opportunities are formula allocations to local governments from the state and have been announced, but not delivered, or in grants directly from federal agencies, there is very little program description information available. It is our hope that this information will be used by general contractors for outreach purposes for future work.

This list will also be available on our web site, [www.ncrecovery.gov](http://www.ncrecovery.gov).

### Notes:

CDBG-R— [Community Development Block Grant entitlement](#). The CDBG program is administered at the state level by DHHS. Some ARRA-funded CDBG funds went directly to large cities and counties. These funds can be used for various repair and renovation or infrastructure projects.

EECBG – [Energy Efficiency and Conservation BGs – State](#). This program is administered at the state level by the State Energy Office. However, EECBG Formula funds were directed at large cities and counties to be used directly for energy efficiency efforts.

HRSA—[Health Resources Services Administration Capital Improvement Program](#). A Federal agency that provides grants to local health centers.

NOAA—[National Oceanic and Atmospheric Administration](#). A federal agency focused on the condition of the oceans and the atmosphere.

RHS—[Rural Housing Service, Community Facilities Funds](#). A subset of USDA's Rural Development Office, this program focuses on single and multi-housing facilities in rural areas.

Weatherization—The [Weatherization](#) program is funded by the ARRA through the NC Department of Commerce. The Weatherization program is administered at the local level by various community action agencies. The program allows for various energy saving improvements for low-income homes. Please see Section 10 of this guidebook for more information.

### Federal ARRA Projects by County

<b>Place of Performance (County)</b>	<b>Federal Purchasing Agency</b>	<b>ARRA Program</b>	<b>Project Site</b>	<b>Project Description</b>
Bladen	Army Corps of Engineers	Operations & Maintenance	Cape Fear River Above Wilmington	Cape Fear River Above Wilmington - Repair recreation facilities 3 locks & dams - restroom renovation, road repaving and boat ramp repairs. Project will correct severely deteriorated roadways and boat ramps, improving visitors experience.
Bladen	Army Corps of Engineers	Operations & Maintenance	Cape Fear River Above Wilmington	Perform repairs to large submerged scour hole adjacent to cape fear lock & dam structure #1.
Brunswick	Army Corps of Engineers	Operations & Maintenance	Lockwoods Folly River	Conduct hydrographic surveys, perform disposal island improvements and perform maintenance dredging of Lockwoods Folly River (inlet portion of the project) with disposal to the adjacent shoreline (beneficial use of dredged material).
Brunswick	Army Corps of Engineers	Operations & Maintenance	Lockwoods Folly River	Perform upland disposal island improvements for future disposal of dredged material from the Lockwoods river. This activity will also provide unrestricted navigation from the Atlantic ocean to the protected waters of the Atlantic Int
Brunswick	Army Corps of Engineers	Operations & Maintenance	Shalotte River	Perform disposal island improvements for the purpose of creating capacity for future maintenance dredging.
Buncombe	Agriculture	Forest Service - Wildland Fire Management	(blank)	Creation of Cooperative marketing Network in Western NC - Includes funding for WFM
Buncombe	General Services Admin.	High Performance Green Building Projects	Veach-Baley Federal Complex	Veach-Baley Federal Complex
Buncombe	Interior	US Fish & Wildlife Service - Maintenance	ES Field Office in Asheville	
Buncombe	Veterans Affairs	New Construction	100 Bed Medical Facility	100 Bed Facility
Buncombe	Veterans Affairs	Non-recurring repair and maintenance	Medical Facility	Evaluate Feasibility of a Wind Turbine
Buncombe	Veterans Affairs	Non-recurring repair and maintenance	Medical Facility	Renovate Emergency Department
Buncombe	Veterans Affairs	Non-recurring repair and maintenance	Medical Facility	Renovate for a Community Living Center
Buncombe	Veterans Affairs	Non-recurring repair and maintenance	Medical Facility	Repair and Replace Exterior
Buncombe	Veterans Affairs	Non-recurring repair and maintenance	Medical Facility	Repair Dom Water System
Caldwell	Agriculture	Forest Service - Wildland Fire Management	Pisgah National Forest, Linville Area	Pisgah Natl Forest, Linville Area Wildfire Paulownia Control

Carteret	Army Corps of Engineers	Operations & Maintenance	Atlantic Intracoastal Waterway	Perform design and dike construction along AIWW from Morehead City to the Virginia state line and dredging from Morehead City to little river.
Carteret	Army Corps of Engineers	Operations & Maintenance	Atlantic Intracoastal Waterway	Perform maint dredging of inlet crossings from Morehead City to the South Carolina state line small business set aside for maintenance dredging
Carteret	Army Corps of Engineers	Operations & Maintenance	Bogue Banks	Award two Architect/Engineer Contracts to complete coastal analysis and economics using Beach FX model, a comprehensive analytical framework for evaluating the physical performance and economic benefits and costs of shore protection projects.
Carteret	Army Corps of Engineers	Operations & Maintenance	Channel From Back Sound To Lookout Bight	Perform hydrographic surveys, environmental coordination and geotechnical investigation necessary to produce plans and specifications for contract solicitation.
Carteret	Army Corps of Engineers	Operations & Maintenance	Connecting Pamlico Sound To Beaufort Harbor	Connecting Pamlico Sound To Beaufort Harbor, NC - Perform hydrographic surveys, geotechnical sediment analysis and environmental coordination necessary to produce contract plans and specifications of future maintenance dredging of the Atlantic Harbor
Carteret	Army Corps of Engineers	Operations & Maintenance	Morehead City Harbor	Continue execution of the Morehead City harbor dredged material management plan. Recent geotechnical sediment investigation revealed a change in sediment characteristics which necessitated a revision to the project disposal practices.
Carteret	Army Corps of Engineers	Operations & Maintenance	Morehead City Harbor	Perform inner harbor maintenance dredging to full project dimensions. This activity will provide unrestricted navigation within the turning basin portion of the project (turning basins adjacent to the berthing facilities) a Morehead C
Chatham	Army Corps of Engineers	Operations & Maintenance	B Everett Jordan Dam And Lake	Hire additional temp ranger employees and term employees--hl. This activity will provide additional visitor Assistance during the peak recreation season, which will improve public safety and security.
Chatham	Army Corps of Engineers	Operations & Maintenance	B Everett Jordan Dam And Lake	Perform debris removal from trash racks, maint on 3 remaining water quality gates, repairs to monuments and piezometers. This activity will improve operations of outlet works and improve precision of releases from Jordan Dam
Chatham	Army Corps of Engineers	Operations & Maintenance	B Everett Jordan Dam And Lake	Repair eroded riprap toe on the downstream side of dam and to perform maint on the three water quality gates.

				This activity will help to maintain structural integrity by replacing severely eroded riprap on the downstream toe
