TABLE 5
TRADE MISSION PARTICIPANTS
WHO PAID FOR TRANSPORTATION
COMPARED TO TOTAL PARTICIPANTS

Country Destination	Business Participants Who Paid For Transportation*	Participants That Federal Government Paid For	Total Participants**
India	44 47 42	45 47	89 87 94
Austria/Pakistan	70 69	80 73	142
India/Hong Kong/China	68 71	103	174 172
South Africa	54	78	132

*Business participants, including those identified in the respective trip reports, who did not use government-arranged air.

**Note that the total participants in this chart do not agree with total participants in other participant charts because those charts only included participants who used government-arranged air.

TRIP OVERVIEW

The Secretary led a Presidential Mission on Energy Investment in Pakistan, from September 21-24, 1994, in Islamabad and Lahore, Pakistan. An official delegation of American business executives, environmental leaders and government officials accompanied the Secretary on the mission. Nineteen of the government officials accompanied the Secretary to Vienna, Austria as part of an International Atomic Energy Association Conference but did not continue with the Secretary to the trade mission in Pakistan.

The trip report for the trade mission stated that the participants were made up of a diverse team representing a broad spectrum of large and small energy companies, financial institutions, woman and minority-owned businesses, environmental groups and government specialists. The delegation was organized into seven energy-sector subgroups, each of which had a mix of technical, commercial, regulatory and financial expertise to address specific areas of Pakistan's energy sector. These seven "PODs" covered the mission's focus areas which were: finance, electric generation; transmission and distribution; renewable resources; energy efficiency and demand side management; oil and gas; and coal.

The PODs engaged counterpart Pakistani representatives in discussions on their energy policies, focusing on opportunities, investment barriers and next steps necessary in the reform process to encourage investment in the energy sector. The centerpiece event for these discussions was a conference held in Lahore, on September 22-23. Each working group developed a list of policy recommendations that were presented at a closing plenary session and which served as a basis for a presentation to the Pakistan President in Islamabad on September 24th.

The mission highlighted shared an understanding, between the U.S. and Pakistan, that energy is a critical driver of economic progress. The mission also focused on helping Pakistan achieve its goal of developing a framework to attract much needed private investment in Pakistan's energy sector. The U.S. delegation encouraged the efforts of the Pakistan Government to structure an attractive investment climate in its power generation sector, noting that Pakistan has already established a favorable climate to encourage power development projects. The delegation also urged Pakistan to expand its reform effort to include its fuel supply, transmission, distribution and end-use efficiency infrastructure; and encouraged sustainable energy and economic development consistent with global environmental values.

The Secretary met several times with the official host, Prime Minister Bhutto, and with President Leghari, who attended an implementation strategy roundtable at the conclusion of the energy conference. The Secretary also held discussions with her Pakistani counterparts, the Water and Power Minister and the Petroleum and Natural Resources Minister. The Economic Advisor to the Prime Minister and architect of Pakistan energy reforms, was the Secretary's host throughout the visit.

JUSTIFICATION FOR TRIP

The mission was conducted at the invitation of Pakistan Prime Minister Benazir Bhutto. The Prime Minister sought to maintain the momentum generated by her government's macroeconomic reforms, which were designed to create a favorable investment climate and the energy sector reforms, which were designed to attract private foreign investment and strengthen energy partnerships with the United States.

TRIP OUTCOMES/RESULTS

An indication of the results of the mission's came in the business development area at a September 24th ceremony witnessed by Secretary O'Leary and Prime Minister Bhutto, where contracts and agreements reached between U.S. firms and Pakistan public and private organizations were signed. These projects included a diverse range of energy initiatives, including power generation, oil and gas exploration and development, a rice-hull fueled plant, gas compressors, efficiency retrofitting, solar and hydro power, and the establishment of a privately financed Pakistani energy financing fund.

A total of 16 business agreements worth \$3.9 billion were signed on the Presidential Mission to Pakistan. Although DOE did not report any of its non-monetary outcomes in their press releases, they were listed in the Department's trip report of the India mission. The non-monetary outcomes included intangible benefits as well as governmental agreements

The following table summarizes the business agreements signed during the Secretary's mission to Pakistan.

Number of Agreements	Type of Deals	Dollar Amount
2	Memoranda of Understanding	\$110 million
7	Implementation Agreements	\$3.18 billion
1	Sales Agreement	\$7 million
2	Licenses	\$275 million
1	Exclusive Participation Agreement	\$1 million
3	Not Specified	364 million
16	TOTAL	\$3.9 billion

In addition to witnessing the private sector signings, the Secretary signed three Joint Statements of Intent on resource development, power generation and usage, and environmental protection. Statements were signed with the Minister of Water and Power, the Minister of Petroleum and Natural Resources, and Chairman of the Environment Protection Council. The statements signed with the Ministry of Water and Power and the Ministry of Petroleum and Natural Resources were to symbolize an establishment of a Joint US/Pakistan Energy Commission to encourage opportunities for commercial activities in the energy and environmental sectors.

The Secretary and members of the delegation also participated in a helicopter tour of the proposed Ghazi Barotha run-of-the-river hydroelectric project on September 23rd and visited Tarbela Dam, where they discussed environmentally compatible development of Pakistan's hydropower capacity with the Chairman of Pakistan's Water and Power Development Authority.

The Secretary led a delegation visit to the village of Pakibun, which was scheduled to begin receiving electric service for the first time. They also witnessed the dedication of the National Energy Conservation Center Building in the Secretary's honor. The dedication symbolized dual emphasis on economic growth and environmental sustainability and served as an example of the utilization of U.S. energy efficient technologies in Pakistan's energy development.

Finally, the trip report stated that the mission also included a conference entitled "Dialogue on Energy Investment in Pakistan: Benefits, Opportunities, Challenges." The conference included energy and finance experts from both countries. As part of the conference the U.S. financial community provided its assessment of investment risk and opportunities in Pakistan and articulated next steps necessary to permit successful closure of the major power development projects under negotiation.

TRIP OVERVIEW

On Saturday, August 19, 1995, Secretary O'Leary, several DOE staff members, and a business delegation traveled from Washington, D.C. to Cape Town, South Africa, via chartered aircraft. Once in Cape Town, Secretary O'Leary met with Deputy President de Klerk, Minister of Mineral and Energy Affairs Botha, and other U.S. and South African officials at bilateral and delegation meetings. Secretary O'Leary visited Peninsular Technicon and Gugulethu Township. Secretary O'Leary and the delegation then traveled via charter aircraft to Johannesburg, South Africa on Tuesday, August 22, 1995. While in Johannesburg, Secretary O'Leary met with President Mandela, Minister of Trade and Industry Manuel, Minister of Public Enterprises Sigcau, and other South African government and business officials at bilateral and delegation meetings. Secretary O'Leary visited Ipolokeng School, a photovoltaic manufacturing facility, Technicon of the Northern Transvaal, and traveled to Sun City, South Africa to meet with Deputy President Mbeki. Secretary O'Leary hosted an Energy Summit and participated in a signing ceremony of bilateral agreements and business deals. After departing Johannesburg via charter aircraft on Saturday morning, August 26, 1995, Secretary O'Leary and interested delegation members traveled to Kimberley, South Africa. While in Kimberley, Secretary O'Leary met with Premier Dipico and participated in a roundtable on provincial issues on energy and empowerment. Secretary O'Leary and the interested delegation members then departed Kimberley on Saturday evening, August 26, 1995, returning to Johannesburg. That same evening, Secretary O'Leary and delegation members traveled to Cape Town. Secretary O'Leary and the delegation members then departed Cape Town for the United States on Sunday morning, August 27, 1996.

JUSTIFICATION FOR TRIP

Cape Town, Johannesburg, and Kimberly, South Africa

Secretary O'Leary's visit to South Africa in August 1995, was conducted in response to a request by President Mandela to President Clinton and Secretary O'Leary, which was followed by an invitation from Minister of Mineral and Energy Affairs R.F. "Pik" Botha. The Clinton Administration Mission to South Africa served as an important first step in encouraging policy and regulatory changes for greater private sector linkages between the U.S. and South Africa.

Additionally, Secretary O'Leary's mission promoted U.S.-South African energy cooperation and formalized the Sustainable Energy Development (SED) committee of the Gore-Mbeki Binational Commission, which followed in December 1995. During the August 1995 trip, the Secretary signed Government-to-Government Agreements on the Terms of Reference (TOR) for the SED committee of the Mbeki-Gore Binational Commission and Peaceful Uses of Nuclear Energy.

Finally, the mission was timed to fit with recent efforts by the new South African government to change its policy and regulatory frameworks to encourage economic growth. Part of the mission included government-to-government initiatives that supported the South African Reconstruction and Development Program's electrification goals and promoted cooperation in other areas, such as education and empowerment programs designed to develop the human resources to support energy development in South Africa. DOE had sponsored a one-day energy summit for over 300 South African and U.S. Government and business representatives

TRIP OUTCOMES/RESULTS

A majority of outcomes and accomplishments in South Africa were non-monetary. The South Africa trade mission was the only trip in which DOE reported some of its non-monetary outcomes in their press releases. Many other non-monetary outcomes were listed in the Clinton Delegation to South Africa trip report. A commitment matrix was compiled by DOE in order to set goals for the trade mission as well as future action to be taken by the agency in order to achieve these goals. The matrix is not listed, but can also be found in the trip report. The non-monetary outcomes included intangible benefits as well as governmental agreements.

DOE has claimed to have advanced 10 business agreements in South Africa. However, DOE has not reported any dollar value for these business agreements. The following table summarizes our analysis of the business agreements signed during the trade mission to South Africa.

Number of Agreements	Type of Deals	Dollar Amount
1	Memorandum of Understanding	\$0
2	Letters of Intent	\$0
2	Licensing Agreements	\$0
1	Management Contract	\$0
1	Joint Statement of Intent	\$0
3	Not Specified	\$0
10	TOTAL	\$0

Purpose - To determine billings by CFO of nonpaying Pakistan passengers.
 Source - Acct. Receivable File documents provided by Acct. Div
 Scope - Nonpaying travellers who participated in Pakistan trade mission.
 Results - All 13 were billed in Jan. 1995; second letters were sent out to those who had not paid in Sept. 1995; those still owing were sent letters in April 1996 except for Hydrovision for the reasons stated.
 Conclusion - 3 billings were sent but not at the time intervals recommended by DOE 2200.6A.

1 Telephone interview of: []
2 [] Enron Corporation.
3
4 Telephone # - (713-[])
5
6 Date: 3/22/96 by []
7

8 DOE records show that Enron signed a \$2.1 billion agreement on the India
9 mission for Dabhol power plant. DOE records also show that Enron, along with
10 Bechtel and GE Capital, signed a \$740 million agreement on the Pakistan
11 mission for a natural gas power plant.
12

13 Questions:
14

15 **1. Did your company sign any Business Agreements during these**
16 **missions?**
17

18 [] said that the \$2.1 billion agreement in India was not signed on the
19 mission. [] said that it was signed before the mission.
20
21 [] said that the \$740 million agreement in Pakistan was not signed on
22 the mission. [] said that it was signed this month.
23

24 NOTE: I asked [] could provide me more specific information on
25 the dates for the signing of the agreements relating to these projects, and the
26 specific type of agreements signed. [] would get me this
27 information. On April 19, 1996, [] faxed me a copy of the Enron
28 response to questions asked by the Commerce Committee, dated February
29 20, 1996, regarding business agreements that Enron may have signed on
30 DOE missions. This response is attached here.
31

32 **2. What specific agreements were signed?**
33

34 [] said that no agreements were signed on the India and Pakistan
35 missions. This is consistent with the attached February 20, 1996, Enron
36 response to the Commerce Committee.
37

38 **3. What is the potential value of this Business Agreement?**
39

40 [] said that [] would research this and get back to me.
41

42 **4. What is the U.S. share of any potential value?**
43

44 [] said that the \$2.1 billion agreement was all U.S. partners. []
45 [] would check on the \$740 million agreement.

42
43
44

5. Were negotiation/discussions with the foreign partner for this agreement initiated prior to the trip? Or on the trip?

[] said that negotiations were initiated prior to the India mission for the \$2.1 billion agreement. [] would check for the \$740 million agreement.

6. Was this agreement signed prior to the trip? Or on the trip?

[] said that the \$2.1 billion agreement was signed prior to the India mission. [] said that the \$740 million agreement was signed after the Pakistan mission.

7. Did DOE help facilitate the initiation and signing of this agreement prior to the trip?

[] said that DOE helped Enron get counter-guarantees from the Indian Government on the \$2.1 billion agreement. [] said that Enron received strong support from Secretary O'Leary on the counter-guarantees fro the Central Government.

[] said that the \$740 million agreement in Pakistan was just getting started at the time of the mission. [] would have to check on what DOE did to help facilitate this agreement.

8. Did DOE help facilitate or advance the initiation and signing of this agreement on the trip?

[] said that the big help from DOE was not the focus on specific deals, but rather the focus on market reforms. [] said that this was true for both India and Pakistan. [] said that, for India, the business delegation traveled with the Secretary in issue PODs, and that each POD tackled issues on areas such as power purchase agreements and other types of agreements necessary to make these deals happen. (See response to the Commerce Committee).

9. Did DOE accelerate the signing of this agreement?

[] said that DOE's mission may have moved up the timing on getting the counter-guarantees. [] said that DOE mission did not accelerate the \$740 million agreement.

10. Would this agreement have been signed without the DOE mission?

16
17

[] said that the counter-guarantees would have been received without the DOE mission - but when? [] said that if DOE helped move the approval of the counter-guarantees along, it saved Enron money.

11. Who from DOE was instrumental in facilitating or advancing this Business Agreement?

See attached response to the Commerce Committee.

12. When will this agreement result is a financially closed transaction?

[] said that politics in India caused the \$2.1 billion agreement to stall. [] said that the agreement was recently resigned, and that construction will begin on May 1, 1996.

[] would check on this for the \$740 agreement.

The Honorable Joe Barton
Chairman
Subcommittee on Oversight and Investigations
Room 2125, Rayburn House Office Building
Washington, DC 20515-6115

8
9
10
11
12

Dear Congressman Barton:

13

I am writing to you in response to the following questions about Enron's participation in trade missions undertaken by Secretary O'Leary in 1994 and 1995.

14
15
16

1. Provide background information on your company, including an annual report and general financial information.

17
18

See annual report sent by overnight courier and Enron's earnings release dated January 24, 1996 being faxed separately on January 24.

19
20

2. Indicate whether your company is a DOE contractor or whether your company receives grants or any other means of funding from DOE. If you do receive funding from DOE, indicate what level of annual funding you receive.

21
22
23

Enron is not a DOE contractor and does not receive funding from DOE.

24

3. Identify which trade missions you participated in and whether you participated in any other trips taken by the Secretary, and, if so, which trips.

25
26

I participated in the following trade missions undertaken by Secretary O'Leary in 1994-1995.

27
28

- India - July 7-15, 1994
- Pakistan - September 19-25, 1994
- China - February 16-26, 1995
- South Africa - August 19-27, 1995

29
30
31
32

Honorable Joe Barton
January 23, 1996
Page 2

1 F-40
2 6
3

4. Indicate why and how you were selected to be a participant in any other trips taken by the Secretary, and, if so, which trips. 4
5

In each instance Enron was selected to participate in these trade missions because our company either had a project underway or a proposed project under consideration in the host country. In each instance market reforms -- either regulatory, financial, or others -- were necessary to assure the success of the project. The focus of the trade mission was to resolve obstacles preventing U.S. businesses from successfully competing in these markets. The four projects under construction or proposed in these countries included:

6
7
8
9
10
11
12

India - Dabhol Power Project

This is a joint venture of Enron, Bechtel Enterprises and GE Capital to build a 2,450 megawatt gas-fired combined cycle power plant located about 100 miles south of Bombay in the state of Maharashtra. Enron is the developer and will operate the plant. The project is being developed in two phases, with an estimated completion of both phases by 2000.

13
14
15
16
17
18

Pakistan - Multan Power Project

Enron is negotiating with the Pakistan Water and Power Development Authority to develop a 754 megawatt power plant that will be powered by residual fuel oil. Upon finalization of all agreements, the facility is expected to be in commercial operation by 1999.

China -

Hainan Island Power Project

Enron completed construction of this 150 megawatt power facility in January 1996 and is the operator. The facility is located in an economic free trade zone located off the southeastern coast of China and is the first independent power project developed by a U.S. company in that country.

Coalbed Methane Testing

An Enron subsidiary is drilling test wells in the Hedong and San Jiao provinces in mainland China.

South Africa - Pande Gas Field/Mozambique Pipeline

Enron has signed a heads of agreement with the government of Mozambique to develop the Pande natural gas field, to construct a 540 mile natural gas pipeline system and to market the gas from the project.

5. Indicate the name and capacity of the individual from DOE who contacted you about participating in the trade mission and with whom at DOE you dealt

Honorable Joe Barton
January 23, 1996
Page 3

F-40
7

during organization of the trip. Also, indicate how far in advance of the trip you were contacted about participating in the trade mission.

In each instance, the main contact for each trip was either
accepted participation in the trip, a member of the DOE staff, usually
After Enron
contacted Enron for background
information for the project in the respective country and provided logistical information about the trip. In that the request for participation on these trips by American companies usually exceeded the available space on the mission, only those companies with good probabilities of success were selected to accompany the Secretary. After the screening process, I received an invitation letter from Secretary O'Leary inviting our participation in the trips. The invitation letter confirming our participation on the trade mission was received 2-4 weeks prior to the trip.

6. Indicate what information DOE sought from you before the trip, including whether DOE inquired about the status of any pending agreements you had or anticipated and whether the existence or prospect of an agreement was a factor in being invited to participate.

These inquiries were handled by various members of DOE staff. The information sought focused on background information on the Enron project and in which areas the mission would help advance the project.

7. Indicate whether you or others at your company were urged by DOE to sign nonbinding agreements such as letters of intent or memoranda of understanding. Also, indicate whether you or others at your company were urged to alter the timing of the announcements of an agreement to coincide with the DOE trade missions.

We were not encouraged to sign non-binding agreements such as letters of intent or memoranda of understanding. We were not urged to alter the timing of the announcement of an agreement to coincide with the DOE trade mission. DOE did focus on what were the roadblocks to closing the deal. We focused on these problems during the mission. If resolved, and a deal could be completed, it was signed.

8. Indicate whether you have entered into any agreements in the countries visited on trade missions, the nature of any such agreements, including whether the agreements are contract, letters of intent, memoranda of understanding, or take other forms. Also, indicate the dollar value of any binding agreements.

Honorable Joe Barton
January 23, 1996
Page 4

1 F-40
2 3
3 8

The only agreement signed in the countries visited on the trade missions was in China by an Enron affiliate, Amoco/Enron Solar. It was a Cooperation Agreement with the State Science and Technology Commission to be included in the set of agreements signed during the Secretary's visit in February 1995.

4
5
6
7

While there is no specific monetary value attached to the Agreement, our current estimate of the monetary value of what we proposed in the Agreement is approximately \$325 MM of capital spending, assuming the concept proposed in the Agreement comes to fruition.

8
9
10
11

Enron had agreements signed in some of the countries prior to the trade missions and we continue to have negotiations in China, India, Pakistan and South Africa.

12
13
14

9. Indicate whether you traveled with the Secretary or traveled separately.

With the exception of travel from Pakistan to Europe, and from Cape Town, South Africa to Washington, DC, I traveled separately from the Secretary.

10. Please provide a chronology of any agreement or agreements, at what point DOE provided assistance, and the nature of any assistance provided by DOE.

With the exception of the agreement in Question #8, no others were signed during the missions. However, as I noted earlier, the primary focus of the mission was to remove obstacles that were preventing American companies from completing their business deals. Accordingly, an understanding of the process used during the mission is important. Prior to a trip, the business group is divided into sectors or industry "pods" (power, renewables, finance, etc.) Each pod would then identify the major issues within their sector that cut across all projects. What are the problems in doing a power deal in a country? What market reform is needed? What laws or regulations need to be clarified? What obstacles are there to financing the project? Once this analysis is done, each group agreed on the most important issues for all the projects. In route to each country, the "pods" worked on presentations. In country, the business sectors met with their local counterparts in meetings facilitated by DOE to discuss issues and resolve differences. Although all problems were not solved, very often enough progress was made during the mission to bring the project to fruition at a later date.

F-90
9

Honorable Joe Barton
January 23, 1996
Page 5

11. Indicate whether you or others at your company were asked to send a letter to DOE commending the agency for the trade mission.

It is my understanding that because of the success of these missions some of the companies who participated discussed writing in support of the trade missions. Enron did not participate in such a letter. However, in an effort to be fully responsive to this question, we include a letter our Chairman wrote to the Secretary to correct a misstatement made about Enron Corp. on the House floor.

12. Indicate whether you reimbursed DOE for the cost of your participation on the trade mission, and the nature and level of the reimbursement provided DOE. Also, if you provided reimbursement, indicate at what point you were informed by DOE that your company was obligated to reimburse DOE for the costs it incurred on your behalf.

We were informed of our costs prior to each trip. Enron reimbursed DOE for our applicable share of these costs.

Sincerely,

F-40

JAMES E. ROBERTSON, CHIEF OF STAFF

Enron Corporation
 P.O. Box 1188
 1400 Smith Street
 Houston, TX 77251-1188

Dear [Redacted]

I want to thank you for responding to the letter I sent you last month requesting information related to your participation on trade missions undertaken by Secretary O'Leary during 1994 and 1995. I appreciate your assistance in this important matter.

The Subcommittee requests that you provide additional information in order to assist our investigation.

In your letter of January 23, 1996 you refer to a cooperative agreement in China entered into by an Enron affiliate, Amoco/Enron Solar. Please provide the Subcommittee a complete chronology of this agreement and indicate whether you believe this agreement would have been reached if the trade mission to China had not occurred.

Please fax your responses to [Redacted] Counsels to the House Commerce Committee, at (202)-226- [Redacted] by February 19. If for any reason you wish to telephone them with other information that would assist the Subcommittee in this matter, please do not hesitate to call them at (202)-226- [Redacted]. The Subcommittee thanks you in advance for your cooperation in this matter.

Sincerely,

Joe Barton

Message:

[]

With reference to the latest request from Joe Barton of the Subcommittee on Oversight dated 13 February asking for more information on our China agreement, I offer the following:

During September 1994, I went to China and gave a speech at the 1994 Beijing International Gas Conference on sustainable development in China. At this conference I was introduced to [] of The Department of Industrial Technology for The State Science and Technology Commission. At that time, [] showed an interest in looking at the prospect of solar energy in China. We agreed to meet at a later date to discuss this possibility. Upon my return to the U.S. we began corresponding on this subject via Enron's then representative in Beijing, []. Out of this correspondence developed a mutual desire to initiate a joint agreement to pursue a feasibility study on solar energy for China.

Early in 1995, I learned of the Secretary's trade mission to China and felt that it would be helpful to use the occasion of the trade mission to sign the LOI. We certainly would have pursued this agreement with or without the trade mission; whether the Chinese officials would have viewed the agreement similarly is a question which only they can answer. On balance, given that China is a country in which most deals are done in the public sector, I believe it was helpful to have the Secretary of Energy present during these proceedings.

If you need anything further, please let me know.

[]

India's credibility as a favored country in an increasingly competitive market for international capital for power development in emerging markets.

- In the near term, international financiers are likely to require counter guarantees for at least some of the power projects currently under evaluation.
- For the longer term, the development of a commercially viable power sector and independent regulatory regime that assures predictable and fair governance may provide assurance of payment adequate to replace Indian counter-guarantees. It will take several years and considerable political will to achieve these reforms.
- Misperceptions exist about the commercial availability of clean coal technologies. Indian officials incorrectly believed that the technologies were neither proven nor economical.
- There is limited understanding of the specific actions that could be taken to improve the efficiency of powerplants or transmission and distribution systems. Pricing schemes (focusing only on capital costs) provide no incentive for improving efficiencies and thereby reducing electricity costs.
- Environmental standards are lax or nonexistent. As a result, no incentives exist for advanced technologies like those currently used in developed countries.

Accomplishments:

- The mission received nearly unanimous support from the Indian government and business community on the necessity of counter guarantees as a transitional strategy for financing private power projects. This survived considerable pressure from the political opposition before and during the mission.
- As a result of the mission, Indian officials advanced proposals on counter-guarantees for two large U.S.-led private power projects, Enron Corporation and AES, with combined value of nearly \$2.75 billion). These counter-guarantees will enable these two projects to complete their financing packages and move into construction, providing momentum for the other five "fast track" projects. In addition, these initial successes combined with the Indian government's commitment to further reforms in power and finance will pave the way to move forward with the more than 60 other cooperative projects that are under various stages of development.
- Authoritative information provided by the U.S. delegation on the commercial viability of clean coal technologies cleared up misperceptions and paved the way for commercial tenders that will be based on these technologies. In addition, the Department of Energy announced technical support for site specific studies on integrated gasification combined cycle, paving the way for its commercial use in India.

Minister Salve Visit						
1	A-1/25/2-4/10-15	Energy Performance Services of Penn.	Agreement to set up energy services company	TBD	Yes	J-1C/1/27
		ThermoChem	Not in DOE listing		Yes	
	C-1/6/12/29	Proven Alternatives Inc.	Not in DOE listing		Yes	
		U.S. Enviro System	Not in DOE listing		Yes	
		Cogentrix Dev. Company	Not in DOE listing		Yes	
During Minister Salve's visit, only one agreement was reported in DOE's summary. The company was not part of the official delegation list and there was no dollar value associated with that agreement						
Therefore, a majority of the agreements involved companies that did not participate with the DOE trade mission to India.

**SECRETARY OF COMMERCE RONALD H. BROWN MEETS TODAY WITH
INDIAN PRIME MINISTER RAO**

**ANNOUNCES U.S.- INDIA BUSINESS TRANSACTIONS
WORTH \$2.6 BILLION**

NEW DELHI, INDIA -- U.S. Secretary of Commerce Ronald H. Brown met today with India's Prime Minister P.V. Narasimha Rao. Mr. Brown is continuing a comprehensive week-long Presidential Business Development Mission that will take the delegation on to Bangalore and Dombay. Secretary Brown and Prime Minister Rao met privately before being joined in a larger meeting by the CEOs and senior government representatives accompanying Secretary Brown on the Mission.

"I am most pleased with the accomplishments of the mission so far. Yesterday, Commerce Minister Mukherjee and I signed the U.S.- India Commercial Alliance, creating a framework of cooperation between our countries' private sectors. Our delegation also witnessed over \$1.4 billion in private sector transactions in the telecommunications and power sectors. Today we expect to announce \$2.6 billion of additional transactions," stated Secretary Brown. "I'd like to emphasize that Prime Minister Rao's bold vision of a more open Indian economy, and the courageous reforms he has implemented, have laid the groundwork for our successes today. President Clinton and I commend his leadership, and support his efforts as the United States and India continue to build a stronger commercial relationship."

-more-

1 Secretary Brown Visit to India.

2 Page Two

3 The delegation also met today with Indian Finance Minister Manmohan Singh to discuss issues
4 pertaining to India's economy, U.S.-India trade, and opportunities in the financial services
5 sector. Discussions focused on ways the government and the private sector can work together
6 to mobilize more investments to meet India's critical needs.

7 Secretary Brown, several CEOs, and senior representatives of government agencies participating
8 in the mission held a ceremony heralding the various business transactions between U.S. and
9 Indian parties.

10 The transactions signed and announced today include:

11 Energy

12 20 AES -- AES is the second "fast track" project to receive a counter-guarantee from the
13 Government of India, which will open the door to international financing. This signing
14 clears the way for the implementation of the \$633-million Ih Valley project units 3 and
15 4, a 420 megawatt power plant located in Orissa.

16 16 Enron -- Enron signed a \$1.1 billion contract for offshore oil and gas production during
17 the period immediately prior to Secretary Brown's mission.

18 18 Enserch Development Corporation Enserch is expected to sign an MOU on a \$450
19 million project for a 300 megawatt combined cycle power plant in Kerala

20 Petrochemicals

21 21 Ex-Im Bank -- Ex-Im Bank provided a preliminary commitment to India Petrochemicals
22 Limited for \$150 million worth of U.S. exports to be used in the petrochemical industry.

23 23 Ex Im Bank . Ex-Im Bank signed a financing agreement with the Indian Oil
24 Corporation for approximately \$8 million of U.S. exports to be sold by Universal Oil
25 Products Company of Illinois.

26 26 Petrodyne -- Petrodyne signed an MOU with the Indian Oil Corporation and Petro
27 Energy Products India to move an existing U.S. built oil refinery from Naples, Italy to
28 Karaikal.

29 29 Soros-Chatterjee Group This group has made a \$25 million financial commitment to
30 invest in the Haldia Petrochemical project.

-more-

**Secretary Brown Visit to India,
Page Three**

Telecommunications

- o **Hughes** -- Hughes signed a joint venture agreement with Nippon Denro Ispat to bid for basic telecommunications services.

- o **United International Holdings** -- UIH signed a Letter of Intent with RPG Enterprises to form a joint venture and enter into a shareholders agreement for developing and operating a \$250 million cable television network in Calcutta.

HealthCare/Medium Sized Business

- o **Integrated Health Services** -- IHS signed an MOU for an investment of at least \$25 million in Indian Hospital Corporation, which will provide access to a series of healthcare-related projects. This includes establishing India's first health maintenance organization.

"The extraordinary potential of the Indian market is only starting to become apparent, and today's agreements scratch only the surface. We have taken some important steps that will ultimately lead to a more vibrant economy and a better standard of living for both our great countries," stated Secretary Brown.

COMPLAINT FORM

b6, 7(c)

I. REFERENCE DATA

Hotline No: IGH02-161 Predication No: P02IN276
Date: 02-MAR-02 Time: Email Complaint Taken By: [redacted]

II. COMPLAINANT INFORMATION

Name: [redacted] Gender: Unknown

Use Name? Unknown
OIG confidentiality policy explained? No

Complainant Status: Private Citizen/General Public

Employer: Did not provide
Position/Title: Did not provide
Work Address: (Street) Did not provide
(City, State & Zip) Did not provide
Telephone No.: Did not provide
(Include E-Mail)
Home Address: (Street) [redacted]
(City, State & Zip) [redacted]
Telephone No.: Did not provide
(Include E-Mail)

III. ALLEGATION(S) (Who, What, When, Where, Why, How, and Impact. Identify Attachments, Available Documentation, and Other Witnesses.)

ISSUE(S): Private Citizen raises several issues of concern

DETAILS: On 02-MAR-02, the Office of Inspector General (OIG) Hotline received an email from [redacted] concern regarding the U.S. Justice Department's handling of the case brought by Judicial Watch against the Bush administration regarding the White House Energy Task Force. Reportedly, "The White House's interagency task force met last spring under Cheney's direction and produced a policy favoring more oil and gas drilling and a revival of nuclear power. But it held its meetings behind closed doors, and environmentalists say they were largely shut out of proceedings. The task force then refused to release its records, spawning the hodgepodge of lawsuits to get them. Please review and implement an action plan to thoroughly address this extremely troubling issue."

(Details continued on page 3? No)

IV. COMPLAINT ANALYSIS

A. Identifiable Criminal, Civil, or Administrative Violation(s)? Undetermined
 (If yes, identify specific law(s), regulation(s), order(s), contract clause(s), etc.)

Citation & Title

-
-
-
-

B. Estimated Loss to Government: \$ Undetermined

C. Does Complaint Involve Potential or Actual ES&H Hazard? No
 If yes, ES&H Notification (Date, Name, Title, and Location of ES&H Official):

D. Is the Complaint a Security Issue Requiring Immediate Action? No
 If yes, Security Notification (Date, Name, Title, & Location of Security Official):

F. Complaint Generated by Organizational Issues? No
 (RIF, reorganization, closing, etc.)
 If yes, explain:

G. Does Complaint Relate to a Current Audit, Inspection, or Investigation? No
 If yes, project title/code:

H. Does Complaint Involve a Notable Information Technology Issue? No
 If yes, **OIG Technology Audit Group or Technology Crimes Section**
Notification (Date, Name, Title, and Location of OIG Official):

I. Indices Check Conducted: Date--02-MAR-02

Complainant: +Positive []
 -Negative []

Subject: +Positive [Bush]
 -Negative [Cheney]

Witness(s): +Positive []
 -Negative [Judicial Watch]

Results: If positive, see Section VI. "Other Notes" below.

V. ALLEGATION DETAILS (CONTINUED)(Attachments? Yes)**VI. OTHER NOTES**

On 25-MAR-02, the Hotline performed an indices search that was positive, but unrelated to this matter.

On 25-MAR-02, the Hotline sent the complainant an email advising [] that the issues [] raised are not under the purview of the OIG and requested that [] contact the Hotline if [] has a specific allegation of fraud, waste, abuse, or mismanagement pertaining to DOE programs or personnel.

VII. COMPLAINT DISPOSITION

Recommended Action:

- ZZ (or similar action)
- CCC Recommendation:
- If an RR/RS, refer to?
- Other Notes:
- Pre-CCC Review Date: 25-MAR-02
- Pre-CCC Disposition: Close (ZH) this matter because the complaint does not contain an allegation against the Department.

CCC Review Date:

CCC Disposition:

Document Number 84

b6, 7(c)

From:
Sent: Saturday, March 02, 2002 6:40 PM
To: ighotline@hq.doe.gov
Subject: Concerns

Dear Honorable Sir,

I was reading the latest enn.com article "Judge raps U.S. delays in energy task force case" (Friday, March 01, 2002 By Susan Cornwell, Reuters) with great interest when I came across the following sentences:

...Calling the U.S. Justice Department the largest law firm in the world, a federal judge Thursday criticized the government for stalling in a court fight over records of a White House energy task force.
...Sullivan said he was "totally disappointed" in the Bush administration's approach to the case brought by a public interest law firm, Judicial Watch. "I'm not going to grant any future extensions," the judge said. "The Department of Justice is the largest law firm in the world," he said, adding that if they needed more lawyers on the case, then "assign them to the case."
...The case is one of several seeking access to records of the energy task force headed by Vice President Dick Cheney last year. A similar suit was filed last week by the investigative arm of Congress, the General Accounting Office.
...Judicial Watch is seeking to learn what influence Enron Corp. and other companies had on the energy task force headed by Cheney.
...Cheney's office has already acknowledged that representatives of Enron, the failed energy giant, were among industry experts the task force consulted.
...Another judge has ordered the Bush administration to release documents from the Department of Energy relating to the energy panel's work in a suit brought by the Natural Resources Defense Council (NRDC). The Department of Energy says it will comply with the order issued Feb. 21 by U.S. District Court Judge Gladys Kessler. She told the department to release thousands of pages of documents to the NRDC that had sought them under the Freedom of Information Act.
...But those documents are likely to constitute only part of the interagency task force documents Judicial Watch and Congress are seeking, and the administration has strongly resisted their lawsuits.
...The White House's interagency task force met last spring under Cheney's direction and produced a policy favoring more oil and gas drilling and a revival of nuclear power. But it held its meetings behind closed doors, and environmentalists say they were largely shut out of proceedings. The task force then refused to release its records, spawning the hodgepodge of lawsuits to get them.

Please review and implement an action plan to thoroughly address this extremely troubling issue. Media reports continue to underscore the complete lack of oversight of the energy industry lobbying efforts in relation to all levels in government in the United States of America. With a little to no revelation of energy industry lobbying efforts behind "closed doors" with elected, appointed and/or employed government officials, there is a real need to turnaround this negative trend. Please coordinate, collaborate and cooperate on Federal, State and/or local jurisdictional levels in addressing these concerns potentially impacting adversely public energy decisions, trust, confidence, and quality of life issues. Thank you for your time in this matter and hope to hear from you soon.
Sincerely,
