Description: The Information Assurance Scholarship Program (IASP), authorized by Chapter 112, title 10, United States Code, is designed to

assist in recruiting and retaining highly qualified personnel in the field of *Information Assurance* (IA) to meet the Department of Defense' s (DoD) information technology requirements for national defense and the security of its information infrastructure. By utilizing and securing the most sophisticated networked information systems in the world, DoD maintains a substantial information advantage over any potential adversary, a key contributor to mission success. Protecting and securing this information advantage is critical to the national security of the United States and its allies.
