ArcGIS VERSION 10.1 PRODUCT LIST

Note: This note pertains to orders of ArcGIS for Desktop version 10.1 placed by Bureau of Indian Affairs employees only. All v10.1 orders processed for Indian Affairs networked computers will be dependent on usage of the OTSGS License Manager server for licensing. Therefore all Indian Affairs networked computers will operate v10.1 at an Advanced (formerly ArcInfo) license level, with a robust suite of extensions available. BIA laptops requiring v10.1 will make use of the license borrowing function available with v10.1. For more information, visit <http://otsgs/ELASoftwareSupport/Licensing/tabid/81/Default.aspx> on the BIA Intranet, <http://www.bia.gov/WhatWeDo/ServiceOverview/Geospatial/index.htm> on the internet, or contact the OTSGS Help desk at 877-293-9494 or otsgs@bia.gov.

ArcGIS for DESKTOP

ArcGIS Concurrent Licenses:

*ArcGIS concurrent licenses **require a keyless license manager** which can operate on a single server and serve multiple seats in a heterogeneous network. Ideally, the license manager is installed on a network server or can operate on one PC, serving it and other seats. A provisioning file will be sent with your order for either concurrent or single use licenses to authorize the ordered number of seats/licenses. **MAC addresses and host name are no longer required** when ordering concurrent licensing.*
