PROCEEDINGS AND DEBATES OF THE 112th CONGRESS, FIRST SESSION

Vol. 157

WASHINGTON, MONDAY, DECEMBER 5, 2011

No. 185

Senate

The Senate met at 2 p.m. and was called to order by the Honorable JEFF BINGAMAN, a Senator from the State of New Mexico.

PRAYER

The Chaplain, Dr. Barry C. Black, offered the following prayer:

Let us pray.

O God, our Father, take our Senators this day and make them what they cannot be without Your power. Enlighten their minds so they will know what is best for the good of our land. Break for them the habits they cannot break, calm for them the worries they cannot still, soothe for them the sorrows no human comfort can ease. May they always remember that nothing can separate them from Your great love.

We pray in Your merciful Name. Amen.

PLEDGE OF ALLEGIANCE

The Honorable JEFF BINGAMAN led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE

The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore (Mr. INOUE).

The assistant legislative clerk read the following letter:

To the Senate:

Under the provisions of rule I, paragraph 3, of the Standing Rules of the Senate, I hereby appoint the Honorable JEFF BINGAMAN, a Senator from the State of New Mexico, to perform the duties of the Chair.

DANIEL K. INOUE,
President pro tempore.

Mr. BINGAMAN thereupon assumed the chair as Acting President pro tempore.

Mr. REID. Mr. President, I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. REID. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

RECOGNITION OF THE MAJORITY LEADER

The ACTING PRESIDENT pro tempore. The majority leader is recognized.

SCHEDULE

Mr. REID. Mr. President, today following leader remarks, the Senate will be in morning business until 4:30 p.m. Following morning business, the Senate will be in executive session to consider four U.S. District judges. At 5:30 p.m., there will be a rollcall vote on confirmation of the Ramos nomination. We hope the rest of the nominations can be confirmed by voice vote.

PAYROLL TAX CUT

Mr. REID. Mr. President, last week, my friend the Republican leader tried to convince us that Republicans realize it would be disastrous to raise taxes on the middle class. Here on the Senate floor, he quoted half a dozen news reports as evidence that the Senate Republicans support an extension of payroll cuts for 160 million American workers. I said at that time I was skeptical the Republicans support this tax cut. It turns out I was right. Last Thursday the Republicans shot down the Democrats' proposal to cut taxes

for middle-class Americans, supposedly on the grounds it raised taxes on the richest of the rich. But a few minutes later the Republicans also shot down their own proposal—one they had placed on the Senate floor—to expand the payroll tax cuts even though it was paid for with their own hand-picked reductions in government spending. Well, they shot that down. They only got 19 votes plus the vote of the cosponsor.

Whatever my friend Senator McCONNELL may say, it is obvious that the Republicans are not interested in preventing a \$1,000 tax increase on nearly every family in the Nation from taking effect on January 1. Democrats will not relent on keeping taxes low for the middle class.

Today Senator CASEY will unveil a modified version of the proposed payroll tax cut that he introduced last week. Like our previous proposal, it will cut back taxes for 160 million American workers. That is 160 million workers, including 1.2 million Nevadans. This proposal will allow the average family to keep \$1,500 to spend on necessities next year. Like our previous proposal, it will be fully paid for with a mixture of spending cuts that Republicans have already agreed to and a tiny surtax on the top .2 percent of Americans. Every spending reduction was agreed to by a bicameral group of Republicans in the supercommittee, so we know they support these cuts—or they should support these cuts. In an effort to make our proposal more palatable to Republicans, we conceded significantly to cut the tax on income above \$1 million and make it temporary.

Democrats know how important extending and expanding the payroll tax cut is to working families. It is also important to our economy. Economists of every political persuasion agree that if Republicans block this proposal—raising taxes on American families by

\$1,000 next month—it will have an immediate negative impact on our economy. It will halt our still fragile recovery in its tracks and drag us back into a recession.

We all know Congress cannot afford to play chicken with the economy. That is why Democrats are committed to passing the tax cut. Republicans need to be prepared to meet us part way. We are offering a serious proposal with meaningful concessions, including spending cuts to which Republicans have already agreed.

The scaled-back, temporary tax on the very richest Americans—a group with an average income of \$3 million a year—is also an attempt to get Republicans onboard to pass what they say they want to do. We know a few of them said publicly that they are open to asking millionaires and billionaires to contribute to our economic recovery. I was happy to see those press reports. I hope we have the courage to vote accordingly, as one Republican did last Thursday. One Republican voted the right way.

I repeat, this is a serious proposal and the Republicans should take it seriously. Here is why: Americans, regardless of political affiliation, say they wholeheartedly support the Democrats' plan to cut taxes for middle-class families. Fifty-eight percent of Republicans agree we should extend payroll tax cuts for 160 million American workers. Further, Americans overwhelmingly support our proposal to have millionaires and billionaires pay their fair share to help this country. Americans from every corner of the country agree. Democrats, Republicans, and Independents agree. When asked if they support a plan that would require people making more than \$1 million to contribute a little more to ensure this country's economic success, the results were decisive: 75 percent, or three-quarters of Americans, said yes. Wealthy Americans agree. Two-thirds of people making more than \$1 million said they would gladly contribute more. A supermajority of Republicans agrees, with two-thirds supporting the idea. Even a majority of 52 percent of members of the tea party agree. It seems the only place in the country they cannot find a majority of Republicans willing to speak up for sacrifice are Republicans in the U.S. Senate. Republicans across the country support our plan and the way to pay for it. Republicans in Congress dismiss it at their peril. I repeat, Republicans dismiss this at their peril. The American people are watching what my Republican colleagues will do.

Mr. President, will the Acting President pro tempore be so kind as to introduce the business of the day.

RESERVATION OF LEADER TIME

The ACTING PRESIDENT pro tempore. Under the previous order, the leadership time is reserved.

MORNING BUSINESS

The ACTING PRESIDENT pro tempore. Under the previous order, the Senate will be in a period of morning business until 4:30 p.m., with Senators permitted to speak therein for up to 10 minutes each.

Mr. REID. Mr. President, I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. MCCAIN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. BLUMENTHAL). Without objection, it is so ordered.

JOINT STRIKE FIGHTER

Mr. MCCAIN. Last week, AOL Defense published an interview with VADM David J. Venlet, who heads up the Lightning II Joint Strike Fighter Program for the Department of Defense. In this interview, Admiral Venlet candidly offered his concerns about where the Joint Strike Fighter Program stands today. His professional judgment, while welcome in its forthrightness, is deeply troubling. His concerns, which I share, are what bring me to the floor this afternoon.

I ask unanimous consent to have printed in the RECORD a copy of Admiral Venlet's remarks as contained in the AOL Defense article entitled "JSF's Build and Test Was 'Miscalculation,' Adm. Venlet Says; Production Must Slow."

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From AOL Defense, Dec. 1, 2011]

JSF'S BUILD AND TEST WAS 'MISCALCULATION,' ADM. VENLET SAYS; PRODUCTION MUST SLOW

(By Richard Whittle)

WASHINGTON.—Fatigue testing and analysis are turning up so many potential cracks and "hot spots" in the Joint Strike Fighter's airframe that the production rate of the F-35 should be slowed further over the next few years, the program's head declared in an interview.

"The analyzed hot spots that have arisen in the last 12 months or so in the program have surprised us at the amount of change and at the cost," Vice Adm. David Venlet said in an interview at his office near the Pentagon. "Most of them are little ones, but when you bundle them all up and package them and look at where they are in the airplane and how hard they are to get at after you buy the jet, the cost burden of that is what sucks the wind out of your lungs. I believe it's wise to sort of temper production for a while here until we get some of these heavy years of learning under our belt and get that managed right. And then when we've got most of that known and we've got the management of the change activity better in hand, then we will be in a better position to ramp up production."

Venlet also took aim at a fundamental assumption of the JSF business model: concurrency. The JSF program was originally structured with a high rate of concurrency—

building production model aircraft while finishing ground and flight testing—that assumed less change than is proving necessary.

"Fundamentally, that was a miscalculation," Venlet said. "You'd like to take the keys to your shiny new jet and give it to the fleet with all the capability and all the service life they want. What we're doing is, we're taking the keys to the shiny new jet, giving it to the fleet and saying, 'Give me that jet back in the first year. I've got to go take it up to this depot for a couple of months and tear into it and put in some structural mods, because if I don't, we're not going to be able to fly it more than a couple, three, four, five years.' That's what concurrency is doing to us." But he added: "I have the duty to navigate this program through concurrency. I don't have the luxury to stand on the pulpit and criticize and say how much I dislike it and wish we didn't have it. My duty is to help us navigate through it."

Lockheed Martin, prime contractor on the Pentagon's biggest program, has been pushing hard to increase the production rate, arguing its production line is ready and it has reduced problems on the line to speed things up. Speeding up production, of course, would boost economies of scale and help lower the politically sensitive price per plane.

But slowing production would help reduce the cost of replacing parts in jets that are being built before testing is complete, Venlet said. Although fatigue testing has barely begun—along with "refined analysis"—it's already turned up enough parts that need to be redesigned and replaced in jets already built that the changes may add \$3 million to \$5 million to each plane's cost.

The price of the F-35, being built by Lockheed Martin Corp. in three variants, has averaged roughly \$111 million under the most recent Low Rate Initial Production (LRIP) Lot 4 contract.

The required changes to the aircraft aren't a matter of safety or of the F-35's ability to perform its missions, Venlet said. They're necessary, though, to make sure the plane's structural parts last the 8,000 hours of service life required. Nor are the weaknesses surprising in the world of fighter jets, he added. The discoveries are "not a quote 'problem with the airplane,'" Venlet said. "It's a fighter made out of metal and composites. You always find some hot spots and cracks and you have to go make fixes. That's normal. This airplane was maybe thought to be a little bit better, wouldn't have so much discovery. Well, no. It's more like standard fighters."

Venlet declined to say how much he thinks production should be slowed. Earlier plans called for the Pentagon to order 42 F-35s in fiscal 2011, but that was cut to 35 and more recently it was dropped to 30. Previous plans, which Venlet's comments and the unprecedented pressure to cut the defense budget make clear will change, had been to ramp up orders to 32 in fiscal 2012, 42 in fiscal 2013, 62 in fiscal 2014, 81 in fiscal 2015 and 108 in fiscal 2016 before jumping to more than 200 a year after fundamental fatigue and flight testing is done.

Officially the "Lightning II," the F-35 is a stealthy attack jet Lockheed is building with major subcontractors Northrop Grumman Corp. and BAE Systems for the Air Force, Navy, Marine Corps and II allied nations. There is a conventional take off and landing (CTOL) version, an aircraft carrier-suitable (CV) model and a short takeoff/vertical landing (STOVL) jump jet that hovers and lands much like a helicopter. The U.S. services alone are scheduled to buy 2,443 to replace a variety of older fighters, making the \$379 billion program the Pentagon's largest.

Venlet's comments address a key issue in negotiations between the government and

Lockheed for the next contract, LRIP 5. The government paid for design changes and retrofits through the first four lots, but Pentagon acquisition chief Frank Kendall issued a memo in August requiring Lockheed to bear a “reasonable” share of such costs in LRIP 5. Lockheed complained last month that the government was refusing to reimburse it for parts the company was buying in advance for LRIP 5 aircraft as the price and terms of that next production contract are negotiated.

“We negotiated the LRIP 4 contract with a certain amount of resources considered to pay for concurrent changes,” Venlet said. “We were probably off on the low side by a factor of four. Maybe five. And we’ve discovered that in this calendar year, ‘11, and it’s basically sucked the wind out of our lungs with the burden, the financial burden.” On top of that, he added, the cost of concurrency changes figures to grow as more testing is done—one reason it’s important to slow production rather than testing.

“Slowing down the test program would be probably the most damaging thing anybody could do to the program,” Venlet said. “The test program must proceed as fast as possible.”

Flight testing of the F-35, though going extremely well lately, is only 18 percent complete, Venlet said. As of Nov. 29, 1,364 test flights had been flown—896 of them in the past 10 months, despite two stoppages of a couple of weeks each to fix problems found by flying. Under a new program baseline created after the JSF project breached cost limits under the Nunn-McCurdy law, about 7,700 hours of flight tests are planned. “That’s a lot,” Venlet said, adding that number will grow if more problems are found.

Fatigue testing has barely begun, Venlet said. The CTOL variant’s fatigue testing is about 20 percent complete; the CV variant has not started yet. For the STOVL variant, fatigue testing was halted at 6 percent last year and has not resumed after a crack in a large bulkhead in the wing was found, requiring a major redesign of that part.

That bulkhead crack was one of five discoveries in the F-35B that required engineering changes, one reason former Defense Secretary Robert Gates placed it on “probation” last January and said the Marine’s plane should be canceled if the problems weren’t solved within two years. Venlet repeated earlier statements that he was sure the changes needed to take care of the problems are now in place, though he wants to await final testing of them this winter before saying it’s time for the jump jet to come off of probation.

After discovering the bulkhead crack in the B variant last year, Venlet explained, “We said, ‘Well, where else do we need to look?’ The fallout of that additional analysis has revealed additional spots that (may fail in) less than 8,000 hours of service life. We call them ‘analyzed low-life hot spots.’” In other words, he said, engineering analysis indicates those spots “are going to crack” well before the parts in question have flown 8,000 hours.

“The question for me is not: ‘F-35 or not?’” Venlet said. “The question is, how many and how fast? I’m not questioning the ultimate inventory numbers, I’m questioning the pace that we ramp up production for us and the partners, and can we afford it?”

Mr. McCAIN. Mr. President, I will briefly summarize the history of the Joint Strike Fighter Program that has taken us where we are today.

In a nutshell, the Joint Strike Fighter Program has been both a scandal and a tragedy. The JSF Program has been in the development phase for 10

years. Over that time, it has been the beneficiary of an estimated \$56 billion of taxpayer investment. Yet after so much time and so great an investment by the taxpayers, we still don’t have an aircraft that provides the Air Force, Navy, and Marine Corps with the combat capability they need. In fact, flight testing sufficient to demonstrate the full mission systems and weapons delivery capability of F-35 aircraft has not even started. At this point, this most advanced phase of flight testing won’t begin any sooner than 2015.

Developing and buying these aircraft and building the facilities to support them was originally supposed to cost \$233 billion. However, according to the April 2011 Government Accountability Office report on the Joint Strike Fighter, these costs are now estimated to be closer to \$383 billion. Let me repeat that. The original cost was estimated to be \$233 billion. Now it is estimated to be \$383 billion. That is an increase of some \$150 billion of the taxpayers’ money. This increase in total development and acquisition costs will only get worse when the Department announces a new baseline cost estimate, which resulted from a second restructuring of the program over the last 2 years.

Overall, the schedule for the end of the development phase and start of full-rate production has slipped 5 years since the current baseline was set in 2007, and it is now planned for 2018. I want to point out that during this period of time, the manufacturer, Lockheed Martin, has continued to make record profits. In fact, they just announced their third-quarter profits to be \$700 million. Here is the manufacturer that was supposed to build an aircraft that was going to cost \$233 billion, and now it is estimated at close to \$383 billion—a \$150 billion increase—and it is well known now that there will be significant cost increases to follow in light of the production manager, Admiral Venlet’s remarks.

In 2001, 10 years ago, the Department of Defense told Congress that the Joint Strike Fighter would cost about \$69 million per aircraft. But according to the GAO’s report from April, the cost of each F-35 aircraft has now risen to about \$133 million per plane. Including the cost of research, development, and testing across the entire program, the unit cost of each individual aircraft goes up to \$156 million. In inflation-adjusted dollars, that is about double the original 2001 estimate. Unfortunately, we know that the estimate will go up substantially when the Pentagon releases its latest projections, with the costs of restructuring the program factored in and a new cost baseline established for the program.

As if these costs of developing and buying the aircraft were not high enough, the Pentagon now estimates that operating and sustaining these new aircraft may cost as much as \$1 trillion over their planned service life. Thankfully, I think we have reason to

believe this jaw-dropping number may be artificially high and can be reduced. But keep in mind that the rule of thumb is that the cost of developing and buying a major weapons system tends to be about one-third of its total cost; the other two-thirds is in operating and sustaining it. So with the development and procurement costs of the F-35 already approaching \$400 billion, it would not be unreasonable to expect sustainment costs of about \$800 billion over the F-35’s lifespan. That amounts to about a \$1.2 trillion investment of taxpayer resources, which makes the F-35 the most expensive weapons program in history.

Over the nearly 10-year life, so far, of the F-35 program, Congress has authorized and appropriated funds for 113 of these weapons systems, but as of today the program has delivered just 18 aircraft, most of which are being used for flight testing. The first production aircraft intended for training just started to be delivered this summer—3 years late.

In July, the numbers came in on how much these early production model jets will cost compared to original estimates. That was a shocking \$1 billion over the original estimate of about \$7 billion. Under the cost-plus contracts for these early production aircraft, taxpayers will be on the hook for \$771 million to cover their share of this cost overrun for these first 28 aircraft. Let me repeat that taxpayers of America are now on the hook for \$771 million in cost overruns to cover their share for the first 28 aircraft, and Lockheed Martin will absorb the cost of \$283 million. Maybe that helps you understand why Lockheed Martin, in the third quarter of this year, has been able to announce a profit of some \$700 million. The cost of the first 28 is a 15-percent cost overrun when you total everybody’s share. So for about \$8.1 billion, we get 28 aircraft at a cost per aircraft of about \$289 million.

Just last week, we learned that the costs associated with the fourth lot of these early production aircraft may be as high as 10 percent over that contract’s \$3.46 billion target cost. That is a \$350 million overrun, with only about 40 percent of the work completed to date. That tells us that the costs of the program have still not been contained despite 2 years of very concentrated effort by the Pentagon to bring costs under control, knowing the future of the program hangs in the balance.

This brings us to where we are today and the context of Admiral Venlet’s remarks. The Pentagon has recently completed its analysis of how much the next lot—the fifth lot—of early production aircraft “should cost” and is negotiating with Lockheed Martin on who will bear the cost of changes to the design and manufacturing of the aircraft that could result from thousands of hours of flight testing that lie ahead.

It is at this exact moment that the excessive overlap between the development and production that was originally structured into the JSF Program—called concurrency—is now coming home to roost. It means that you deliver aircraft to the owners—in this case, the Air Force—and at the same time continue testing. That is something we warned against over and over as not having worked, but it was done in order to make an effort to have some semblance of their schedule being adhered to of delivery of aircraft. Lockheed Martin doesn't want to bear the risk of new discoveries that may require retrofit or redesign of the aircraft.

Based on the in-depth studies the Department has conducted to date, Admiral Venlet told the publication AOL Defense last week that the Joint Strike Fighter Program needs to slow down production and deliveries of the aircraft. He explained that this was necessary to open the aircraft and install fixes to numerous structural cracks and "hot spots" the program has discovered in the plane in the last year or so. He estimated that the work needed to remedy these cracks could add an additional \$3 million to \$5 million per aircraft.

Bear in mind that this revelation comes on top of the fact that the Department has just reduced the latest F-35 purchase—what will be lot five—by five jets. Admiral Venlet concluded that even as the Pentagon negotiates with Lockheed Martin on lot five of the aircraft under the terms of a fixed-price contract, there is much "heavy learning" that remains in the program. Here is what Admiral Venlet said:

The analyzed hot spots that have arisen in the last 12 months or so in the program have surprised us at the amount of change and at the cost. Most of them are little ones, but when you bundle them all up and package them and look at where they are in the airplane and how hard they are to get at after you buy the jet, the cost burden of that is what sucks the wind out of your lungs. I believe it's wise to sort of temper production for a while here until we get some of these heavy years of learning under our belt and get that managed right. And when we've got most of that known and we've got the management of the change activity better in hand, then we will be in a better position to ramp up production.

Mr. President, 2001 was the year we decided to build this aircraft. So here we are 11 years later, and the manager of the program says, "And when we've got most of that known and we've got the management of the change activity better in hand, then we will be in a better position to ramp up production." I am not making this up. Admiral Venlet, who oversees the JSF Program for the Pentagon, is basically saying that even after the program was restructured 2 years ago by Secretary Gates to add \$7.3 billion and 33 more months to development, there is still too much concurrency baked into this program. In other words, the overlap between development and production is

still too great to assure taxpayers that they will not have to continue paying for costly redesigns or retrofits due to discoveries made late in production. In that context, ramping up production—even under the program's revised schedule—would not be a move in the right direction. I absolutely agree.

When the head of the most expensive, highest profile weapons system program in U.S. history effectively says: Hold it, we need to slow down how much we are buying, we should all pay close attention.

What does this mean in terms of the pending negotiations for the next production lot? As I said a few days ago during my opening remarks on Senate consideration of the fiscal year 2012 National Defense Authorization Act, I strongly support the Department's position. I think Admiral Venlet's concerns are completely consistent with the view reflected in the Senate Armed Services Committee's markup of the Defense authorization bill.

As we negotiate to buy more early production jets at a time when most of the developmental testing of the aircraft is yet to be done, Lockheed Martin must be held increasingly accountable for cost overruns that come as a result of wringing out necessary changes in the design and manufacturing process for this incredibly expensive weapons system. For this reason, the Department must negotiate a fixed-price contract for this next lot of aircraft that requires Lockheed Martin to assume fully any cost overruns. I expect that this contract negotiation will reflect unit costs that are lower than for the last lot purchased and that the contract will ensure shared responsibility for reasonable concurrency cost increases.

Put simply, the deal we negotiate on this next production lot must be at least as good, if not better, than the deal we negotiated under the previous one; otherwise, I can only conclude that we are moving in the wrong direction, and it will only be a matter of time before the American people and the Congress and our allies lose faith with the F-35 program, which is already the most expensive weapons program in history.

One thing is clear: The culprit is, among other things, excessive concurrency, which is overlap of trying to develop an advance aircraft at the same time as we buy production model aircraft intended for training and operations. The danger of excessive concurrency is the grand, enormously expensive lesson of the Joint Strike Fighter Program, a lesson we continue to overlook at our peril: Trying to execute a strategy for the acquisition of a major weapons system that has too much concurrency based into it under a cost-type contract is absolutely a recipe for disaster.

In so many different aspects, the F-35 program truly represents a tragedy. The Air Force, Navy, and Marine Corps desperately need a new aircraft to take

the place of the current strike and fighter jets that have been at war for most of the last 10 years. These well-worn legacy aircraft are coming to the end of their service lives, but we are saddled with a program that has little to show for itself after 10 years and \$56 billion in taxpayer investment that has produced less than 20 test and operational aircraft, a bill for \$¾ billion, and the promise of considerable "heavy learning" yet to go.

Admiral Venlet's message last week clearly conveyed the path we are on is neither affordable nor sustainable. On that fact he and I are in total agreement. But that agreement provides very little solace. If things don't improve quickly, taxpayers and the warfighters will insist all options will be on the table, and they should be.

Mr. President, I came to the Senate floor today to talk specifically about the F-35 aircraft. I will be coming to the floor again on the whole issue of what is, unfortunately, a culture of corruption in the Pentagon as far as weapon systems acquisition is concerned. Time after time, with regard to the future combat system, the F-35, the shipbuilding, the littoral combat ship, there is story after story after story of cost overruns, of cancellation, of delays, of incredible cost to the taxpayer. We never should have gotten into it. We simply cannot afford to do it now. We have to reform the culture of corruption that pervades the Pentagon, and we must reform the way we acquire the weapons and the systems necessary to defend this Nation.

I am not saying there aren't success stories. Certainly, there are. MRAP is an example of a success story. But when we look at the tens of billions and billions of dollars that have been wasted on research and development on weapons systems that never got off the ground, when we look at what happened to the future combat systems, the littoral combat ship, now the F-35, there must be reform or the taxpayers and citizens of America will lose faith in our ability to defend this Nation at a cost that is reasonable in these extremely difficult economic times for all Americans.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. KYL. Mr. President, I ask unanimous consent the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. KYL. Mr. President, I ask unanimous consent I be allowed to speak as in morning business for up to 15 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

PAYROLL TAX HOLIDAY

Mr. KYL. Mr. President, the reason I wish to speak is because there is a lot

of confusion around something called the payroll tax holiday. It is legislation that is likely to be acted upon by the Congress and perhaps a bill will be sent to the President before the end of this year. It is something the President is pushing very strongly to try to achieve. There are a lot of different versions of it and a lot of confusing ideas about what people support and what they do not. I wish to talk a little bit about that.

First of all, what is it? The payroll tax is the tax that funds Social Security. It is a tax that is paid on the employee's wages. Half of that is paid by the employee, half of it is paid by the employer. From the employee's standpoint, the more they pay in, the more they get out when they retire; the less they pay in, the less they get out. That is what funds Social Security.

There is a question: Why would someone not support a reduction in the payroll tax—or as it is called right now a temporary payroll tax holiday because what is being proposed is that a portion of that tax would not be paid. It represents one-third the amount of the tax an employee would ordinarily be paying that is not being paid today. The President would actually like to cut that to the point that an employee would only pay half the payroll tax liability. I understand he is going to revise his proposal and not ask there be any relief on the employer's side. What the President, therefore, is asking is that half of what an employee pays—or 3.1 percent of payroll—not be paid for 1 more year.

The first reason one should think carefully about extending this holiday is that, as I said, this is what funds Social Security. For an employee, the less they pay in, the less they are going to get out. If you are OK with that, then think about the program writ large. Social Security is in big financial trouble. We all know that. As a result, the less we put into it, then the less money there is to pay benefits for people who are on retirement.

What is happening with this particular shortfall is that we are paying for it out of general revenues. What is happening is, since we borrow 40 cents out of every \$1 we spend in this country, we are going to go someplace, such as to the Chinese, for example, and we are going to borrow the money. Out of \$1 that we want to spend, we are going to borrow 40 cents of that, and then we are going to put that money into the Social Security trust fund that is immediately going to be paid to someone who is on Social Security.

What is the problem with that? Severalfold. First of all, as we said, the amount of money we put through the payroll tax into Social Security is what we are going to get back. If we put less in, we are going to get less back.

Second, because Social Security is already broke, that means the United States has to borrow the money to put back into Social Security in order to

keep it going. When we do that, then there is less money in general revenues to pay for other things. So, yes, our general tax revenues and borrowing can make up for that difference in the payroll tax that is not being paid in now, but that means there is that amount of money less available for education benefits or agriculture or the Defense Department or whatever else we might be wanting to spend the money on. The fact is, if we are going to spend the same amount of money as the Federal Government and now we are increasing the amount we have to spend on Social Security, there is less to spend elsewhere.

I find it ironic that our Democratic friends in particular would think this is a good idea. I ran across something from the AARP, back in 2010. I wish to quote from it. This is a press release dated just about exactly 1 year ago, December 7, 2010, by Thomas Bethell. The subject is "What the Payroll Tax Cut Means for Social Security." He quotes Nancy Altman, who is co-director for Social Security Works, which, as he said, describes "a worst-case scenario."

She thinks the cut could well become permanent.

If that happens, Social Security's long-term shortfall could double over 75 years, she says, and political pressure to downsize the program could mount. That could lead to converting Social Security from a universal insurance program to a welfare program, with the numerous drawbacks of programs for the poor, including low public support.

If this scenario unfolds, says Altman, "it's good-bye, Social Security."

His conclusion is "there is little doubt that reducing the payroll tax carries a risk."

That is the first reason I think one should be very careful about deciding that since tax cuts are usually appreciated by people, therefore, this is one we should extend, even though it is just temporary.

That brings up the second point. It can be argued this is very bad economic policy. There is no evidence this temporary tax cut has actually produced any new jobs, which is the whole idea. In fact, our economy has decelerated. In 2010, we had a 2.8-percent GDP growth. We are now down to just over 1 percent. Unemployment remains stubbornly high. In fact, I thought I would quote from a commentary of Ed Gillespie on "FOX News Sunday." Yesterday, he was asked a question by Chris Wallace about the payroll tax.

First of all, 50,000 of those jobs—

Meaning the jobs that have been created now in the economy over the last month—

50,000 of those jobs are retail jobs that likely could be temporary for the holiday season. On top of that, for every two people who found a new job, five people left the workforce entirely, which is part of a continuing pattern.

In fact, if the labor force today were the same size it was when President Obama took office, the unemployment rate would be 11 percent. So, shrinking the labor force is not

the right way to bring down the unemployment rate. . . .

The point is, a lot of people have stopped looking for jobs. That is one reason why the unemployment rate actually went down. There are plenty of economists who will tell us reducing the payroll tax is not a good way to create jobs. I am going to quote from three or four.

As taxes go, the payroll tax is a big revenue raiser and one of the least damaging to work incentives. So cutting it is a poor choice if jobs are the objective.

Arthur Laffer, economist, in the National Review, the last day of October this year.

Troy Davig, an economist with Barclays Capital, Reuters:

Hiring is a long-term contract and this is a short-term stimulus.

Meaning the temporary payroll tax holiday.

Neil Dutta, an economist with Bank of America Merrill Lynch, says:

Nothing that's likely to get done—with regard to the payroll tax—is going to have a meaningful impact in terms of lowering the unemployment rate and creating jobs.

Bruce Bartlett, in the New York Times, is quoted in August of this year:

There is no evidence that the lower payroll tax has done much of anything to stimulate either spending or hiring.

In the New York Post, by Andrew Biggs, some time ago now:

The payroll-tax holiday is a dubious idea. . . .

Finally, Charles Blahous, who is a real expert on Social Security and an economic research fellow at Stanford's Hoover Institution, says:

Taking real tax revenue away from Social Security and issuing debt in its place—the policy now in effect—is the worst of all worlds, both for the program and for the budget.

It does not stimulate the economy, doesn't produce jobs, and it creates a budgetary problem for Social Security itself.

I also believe, the third point is, it can be bad tax policy. I note from a Wall Street Journal editorial, dated December 2—here is the beginning of it:

So here's the latest Democratic job growth plan: Pay for a temporary tax cut that has already proven not to create jobs with a permanent tax increase that almost certainly will cost jobs.

That's the essence of Senate Majority Leader Harry Reid's plan to finance a one-year payroll tax cut with a 3.25 percent tax surcharge on upper-income Americans that would last for at least 10 years. I understand now they are thinking about revising that for this exact reason, but that is the point. The surtax is, in reality, a new tax that primarily hits small business owners. They are the ones who create the jobs. Almost all of the new net jobs created since the 1980s are in small businesses. They create about 70 percent of the new jobs, most of them coming out of the recessionary time we are in.

And what does Treasury say about the people who would be hit by this surtax? Treasury estimates 392,000 returns have an income over \$1 million,

and of that 311,000 are classified as business owners. So about 80 percent of the people who would get hit by this surtax are the very job creators we are hoping will invest their money into their businesses to help the economy and to create new jobs. How do you create new jobs by taking more earnings away from the very employers who are creating the jobs? So, third, it is bad tax policy.

Fourth, Democrats argue: Well, the wealthy are not paying their fair share, and this too is something that doesn't stand up to scrutiny. These are from the Internal Revenue Service. These are their tables. The top earners pay the bulk of the taxes in this country. In fact, we have the most progressive income tax system of all of the industrialized countries—all of the countries in the OECD. The top 1 percent in our country earns 20 percent of all the income—that is pretty good—but they pay 38 percent of all of the income taxes. The top 2 percent earns about 28 percent of the total income. They pay over 48 percent—almost 50 percent. They pay almost half of all of the income taxes that are paid by the top 2 percent.

Some people say: Well, what about the payroll tax? That is exactly what we are cutting here. Remember? That is what they are getting a tax holiday from paying. So you have the top 2 percent of the people paying 50 percent of the taxes.

What do the bottom half pay? It turns out the Joint Committee on Taxation estimates that 51 percent of all households had either zero or negative income liability for the tax year 2009. So you have 2 percent of the people paying 50 percent and the bottom 50 percent paying none. In fact, the top 5 percent pays a whole lot more than the bottom 95 percent combined. Think of that. In our country the top 5 percent of the earners pay a lot more than the bottom 95 percent combined.

Then the question is: Is it fair to say about the United States progressive income tax code that the wealthy don't pay their "fair share" when the top 1 percent pays 38 percent, the top 2 percent pays almost half of all the taxes? I think that is a canard. I am not trying to defend rich people here, but what I am saying is it is unfair to say they are not paying their fair share.

Finally, my colleague DICK DURBIN—who I believe is going to be here shortly, and I hope will respond to what I am saying here—was interviewed on MSNBC on November 30. He said something that in retrospect I suspect he would say is inaccurate and would take back, but I want to quote him. He is talking about the payroll tax holiday and he said:

Jon Kyl rejected it. He said, no. There's no way we're going to impose any taxes on the wealthy people in this country.

Well, of course, Senator DURBIN knows that we impose a lot of taxes on the wealthy people in this country. He simply misspoke. I understand he sim-

ply misspoke, but it is a manifestation of the political dialogue here of one side accusing the other of favoring the rich over the poor. Can't we ask them to contribute a little bit more? Well, if it is the IRS, we are not asking them, we are forcing them. When the top 2 percent of all of our citizens pays half of all of the taxes and the bottom half pays none, when the top 5 percent pays 95 percent of all of the taxes and 95 percent pays the rest, it is hard to say the rich are not paying taxes.

In any event, my colleague Senator DURBIN, I am sure, would acknowledge that I have not said nor has anyone said, "There is no way we are going to impose any taxes on the wealthy people in this country." They are paying a lot of taxes.

Finally, we extended this tax cut holiday for 1 year a year ago in December. We did that as part of an overall budget deal. The Vice President of the United States, the leaders of the House and Senate negotiated this and the President went along with it. It was part of an overall agreement in which we said we will extend all of the existing tax rates, the so-called Bush tax cuts, that is, the rates that have been in effect since 2001 and 2003. We said we would extend this temporary tax holiday from the payroll tax cut. We would extend all of those. I supported that.

Frankly, that was the right thing to do, to extend all of these existing rates. The country at that point could not have stood an increase in taxes of over \$4 trillion, which is what it would have been not to extend the so-called Bush tax cuts. If we can do that again, I am all for it. I will support the extension of the payroll tax holiday. I will support the extension of the payroll tax holiday with other things being done as well. The point is there are times when it absolutely does not make any sense and there are times when it could make sense.

But because of the four other reasons I pointed out, this is what pays for Social Security benefits, it is bad economic policy, it is bad tax policy, and certainly the surtax that would fund this is something that would very much hurt small businesses and job creation. Those are reasons to be very skeptical about continuing this supposedly temporary tax holiday, and we should therefore only do it under circumstances that, in effect, override these objections, one of which would be to extend all of the taxes that expire at the end of next year—at the end of 2012, and to include this in them. That would be a good idea. It is also a good idea to "pay for" it; that is, to find an offset for the revenue loss here because we cannot leave Social Security holding the bag. When we borrow 40 cents of every dollar in general revenue to pay for this lost revenue, obviously, that is not a good idea. So if we can find offsets for it, that is another factor in deciding whether to do it. I believe Republicans will work to find offsets if we, in fact, are going to extend this payroll tax holiday.

Clearly, you don't necessarily need to find offsets to pay for any tax or every tax reduction. We are keeping current rates where they are, for example, when they otherwise would expire at the end of next year. Some people say: Well, that is the Bush tax cuts. That is right. Did revenues to the Treasury go down when the Bush tax rates were reduced in 2001 and 2003? No. Tax revenues—the amount of money coming into the Treasury of the United States—actually increased after the so-called Bush tax cuts. So sometimes, for economic growth reasons, keeping taxes where they are or even reducing them in some cases makes a lot of sense. In this case, however, because you are having to take it out of the Social Security trust fund, you need to replenish that money, you need to pay for it, and that is why we need to have the offsets I spoke of.

The bottom line is the payroll tax cut holiday can be a little confusing. There are some very important reasons not to do this again. It doesn't produce a good result and it can produce some bad results. If there are offsetting policies that more than overcome these bad features, then it is something I think a lot of Republicans will look to. As I said a year ago, I was willing to support the extension of it because we extended the other tax rates as well. If we do that again, obviously, it is something I would be supportive of.

I hope this helps to clarify the debate when we deal with this subject later on this week and perhaps even in the final week—that we at least hope is the final week we are here—before Christmas.

Mr. President, I note the absence of a quorum.

The PRESIDING OFFICER (Mr. COONS). The clerk will call the roll.

The assistant legislative clerk called the roll.

Mr. LEAHY. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

NOMINATION OF DANA L.
CHRISTENSEN TO BE UNITED

THE DISTRICT OF MONTANA

The PRESIDING OFFICER. Under the previous order, the Senate will proceed to executive session to consider the following nominations, which the clerk will report.

The bill clerk read the nominations of Edgardo Ramos, of Connecticut, to be United States District Judge for the Southern District of New York; Andrew L. Carter, Jr., of New York, to be United States District Judge for the Southern District of New York; James Rodney Gilstrap, of Texas, to be United States District Judge for the Eastern District of Texas; and Dana L. Christensen, of Montana, to be United States District Judge for the District of Montana.

The PRESIDING OFFICER. Under the previous order, there will be 1 hour of debate equally divided in the usual form.

The Senator from Vermont.

Mr. LEAHY. Today the Senate will finally consider nominations to fill four vacancies on Federal district courts, all of which were reported by the Judiciary Committee unanimously in September and early October. All four nominees Edgardo Ramos and Andrew Carter, nominated to the Southern District of New York, James Rodney Gilstrap, nominated to fill a judicial emergency vacancy in the Eastern District of Texas, and Dana Christensen, nominated to the District of Montana are superbly qualified nominees with the strong support of their home state Senators. It should not have taken three months or more for the Senate to vote on their nominations.

I thank the Majority Leader for securing a vote on these nominations, but I am disappointed that the Senate Republican leadership would not agree to a vote on the nomination of Jesse Furman to fill a third vacancy on the Southern District of New York. Like Edgardo Ramos, Andrew Carter and James Gilstrap, his nomination was re-

ported by the Judiciary Committee on September 15 without opposition from a single member of the Committee, Democratic or Republican. Mr. Furman, an experienced Federal prosecutor who served as Counselor to Attorney General Michael Mukasey for two years during the Bush Administration, is a nominee with an impressive background and bipartisan support. There is no reason or explanation for why the Senate could not also consider his nomination today.

There is also no reason or explanation why Republican leadership will not consent to consider the other 20 judicial nominations waiting for final Senate action, all but four of which were reported by the Committee without any opposition, all but two of them with significant bipartisan support. Senator GRASSLEY and I have worked together to ensure that each of the 25 nominations now on the Senate Calendar was fully considered by the Judiciary Committee after a thorough, fair process, including completing our extensive questionnaire and questioning at a hearing. Before each of these nominees was selected by the President, the White House worked with the nominees' home state Senators who support them, the FBI completed an extensive background review, and each nominee was peer reviewed by the American Bar Association's Standing Committee on the Federal Judiciary. When the nominations have been favorably reported by the Judiciary Committee after this extensive and thorough process, there is no reason for months and months of further delay before they can start serving the American people.

It is now December 5, with only weeks left in the Senate's 2011 session. I am concerned that we are not able to move more quickly at a time when we continue to hear from chief judges around the country about the overburdened courts in their districts and circuits. We need to consider at least eight judges every week in order to begin to catch up and erase the backlog that has developed from the delays in the consideration of consensus nominees caused by the Senate Republican leadership.

We should not repeat the mistakes of last year, when the Senate Republican leadership refused to consent to consider 19 judicial nominations reported by the Judiciary Committee, an exercise in unnecessary delay I believe to be without precedent with respect to such consensus nominees. It took us until June of this year, halfway into 2011, to consider and confirm 17 of these nominations that could and should have been considered before the end of 2010. Before we adjourn this year, there is certainly no reason the Senate cannot at least consider the 17 judicial nominations reported unanimously by the Committee this session, who are by any measure consensus nominees.

I hope that we do not see a repeat of the damaging decision by Senate Re-

publican leadership at the end of last year to refuse to agree to votes on those nominations. That decision stood in stark contrast to the practice followed by the Democratic majority in the Senate during President Bush's first two years. Last year, Senate Republicans refused to use the same standards for considering President Obama's judicial nominees as we did when the Senate gave up or down votes to all 100 of President Bush's judicial nominations reported by the Committee in his first two years. All 100 were confirmed before the end of the 107th Congress, including two controversial circuit court nominations reported and then confirmed during the lame duck session in 2002. The Senate last year should not have been forced to adjourn with 19 judicial nominations still on the Senate calendar.

With vacancies continuing at harmfully high levels, we cannot afford to repeat these unnecessary and damaging delays. There is no reason we cannot make significant progress this month and consider all of the consensus nominations now pending on the Senate calendar. That is what we did at the end of President Reagan's third year in office and President George H.W. Bush's third year in office, when no judicial nominations were left pending on the Senate Calendar. That is what we did at the end of the 1995 session, President Clinton's third year in office, when only a single nomination was left pending on the Senate calendar. That is also what we did at the end of President George W. Bush's third year, when seven of the nine judicial nominations left on the calendar by the Senate's Republican majority were among President Bush's most extreme ideological picks and had previously been debated extensively by the Senate. The standard has been that noncontroversial judicial nominees reported by the Judiciary Committee get Senate action before the end of the year. That is the standard we should follow this year.

We remain well behind the pace set by the Senate during President Bush's first term. By the end of his first term, the Senate had confirmed 205 district and circuit nominees, and had already confirmed 167 by this point in his third year. So far, the Senate has confirmed only 119 of President Obama's district and circuit nominees. Senate action before adjournment on all 25 judicial nominations that are before the Senate today would go a long way to help resolve the longstanding judicial vacancies that are delaying justice for so many Americans in our Federal courts across the country.

The 100 circuit and district court nominations we confirmed in President Bush's first two years leading to a vacancy total of 60 at the beginning of his third year is almost a complete reverse of the 60 the Senate was allowed to confirm in President Obama's first two years, leading to nearly 100 vacancies at the start of 2011. Yet, even following those years of real progress, in 2003 we

proceeded to confirm more judicial nominations than there were vacancies at the start of that year, and reduced vacancies even further, down to 5 percent, half of where they stand today.

Chief Justice Roberts, the Attorney General and the White House counsel have all spoken about the serious problems created by persistent judicial vacancies. More than half of all Americans over 167 million live in districts or circuits that have a judicial vacancy that could be filled today if Senate Republicans just agreed to vote on the nominations now pending on the Senate calendar. As many as 23 states are served by Federal courts with vacancies that would be filled by these nominations. Millions of Americans across the country are harmed by delays in overburdened courts. The Republican leadership should consent to vote on the qualified, consensus candidates nominated to fill these extended judicial vacancies before we adjourn for the year and not unnecessarily delay their consideration until next spring.

The four nominees we consider today will all be confirmed, I expect, with significant bipartisan support. Edgardo Ramos is nominated to fill a vacancy on the District Court for the Southern District of New York. Since 2002, Mr. Ramos has been in private practice after serving for ten years as an Assistant U.S. Attorney in the Eastern District of New York, where he was promoted to Deputy Chief of the Narcotics Section. The ABA's Standing Committee on the Federal Judiciary unanimously rated him "well qualified" to serve, its highest possible rating. The nomination of Mr. Ramos has the strong support of both his home state Senators, Senator SCHUMER and Senator GILLIBRAND, and was reported by the Judiciary Committee by voice vote with no dissent on September 15.

The nomination of Judge Andrew Carter to fill a vacancy on the District Court for the Southern District of New York also has the strong support of the New York Senators and was also reported unanimously by voice vote on September 15. Since 2009, Judge Carter has been a Magistrate Judge for the Eastern District of New York. Prior to joining the bench, Judge Carter served for 13 years as a public defender in New York state and Federal and spent two years at the Ford Foundation as a Program Assistant in its Rights and Social Justice Program.

James Rodney Gilstrap is nominated to fill a vacancy on the District Court for the Eastern District of Texas determined by the Administrative Office of the U.S. Courts to be a judicial emergency vacancy. His nomination has the support of both his Republican home state Senators, Senator CORNYN and Senator HUTCHISON. For 27 years Mr. Gilstrap has been a partner at the law firm of Smith & Gilstrap in Marshall, Texas. He has also served as a part-time County Judge for Harrison County, Texas. His nomination was reported unanimously by the Judiciary Committee by voice vote on September 15.

Dana Christensen is nominated to fill a vacancy on the District Court for the District of Montana. Mr. Christensen has spent his 34-year legal career in private practice and is currently the president of the law firm of Christensen, Moore, Cockrell, Cummings & Axelberg, P.C. in Kalispell, Montana. The ABA Standing Committee on the Federal Judiciary unanimously rated Mr. Christensen "well qualified" to serve, its highest possible rating. His nomination has the support of both his home state Senators, Senator BAUCUS and Senator TESTER, and was reported by the Judiciary Committee by voice vote with no dissent on October 6.

I hope the Senate can build on today's progress to fulfill its constitutional duty and ensure the ability of our Federal courts to provide justice to Americans around the country.

NOMINATION OF CAITLIN HALLIGAN

Tomorrow the Senate should be holding an up-or-down vote on the long-delayed nomination of Caitlin Halligan to fill one of three vacancies on the Court of Appeals for the D.C. Circuit. Instead, for the seventh time since President Obama took office 34 months ago, we are required to overcome a Republican filibuster for the Senate to consider one of President Obama's superbly qualified judicial nominees.

Ms. Halligan, President Obama's first nominee to the important D.C. Circuit, is the former Solicitor General for the State of New York. With an impressive record in private practice and public service, she is widely respected for the quality of her work as an advocate. Indeed, Ms. Halligan's nomination was greeted with bipartisan support and has since garnered endorsements from law enforcement officials and organizations, women's organizations, law school deans and professors, judges and preeminent lawyers from across the political spectrum. The Judiciary Committee favorably reported Ms. Halligan's nomination nearly nine months ago.

By any traditional standard, she is the kind of superbly qualified nominee who should easily have been confirmed by the Senate months ago with the support of both Republicans and Democrats. I am disappointed that yet again instead of seeing bipartisan cooperation we are required to seek cloture.

From the beginning of the Obama administration, we have seen some Senate Republicans shift significantly away from the standards they used to apply to the judicial nominations of a Republican President. During the administration of the last President, a Republican, Republican Senators insisted that filibusters of judicial nominees were unconstitutional. They threatened the "nuclear option" in 2005 to guarantee up-or-down votes for each of President Bush's judicial nominations. Senator MCCONNELL, then the Republican whip, said: "Any President's judicial nominees should receive careful consideration. But after that

debate, they deserve a simple up-or-down vote. . . . It's time to move away from advise and obstruct and get back to advise and consent. The stakes are high. . . . The Constitution of the United States is at stake."

Many Republican Senators declared that they would never support the filibuster of a judicial nomination—never. Yet, only a few years later, Senate Republicans reversed course and filibustered President Obama's very first judicial nomination, that of Judge David Hamilton of Indiana.

David Hamilton was a widely respected 15-year veteran of the Federal bench. President Obama nominated Judge Hamilton in March 2009, after consultation with the most senior and longest-serving Republican in the Senate, Senator DICK LUGAR of Indiana, who strongly supported the nomination. Rather than welcome the nomination as an attempt by President Obama to step away from the ideological battles of the past, some Senate Republicans ignored Senator LUGAR's support, caricatured Judge Hamilton's record and filibustered his nomination. After the Senate rejected that filibuster, Judge Hamilton was confirmed.

The partisan delays and opposition to President Obama's judicial nominations have continued since. Senate Republicans have required cloture motions to be filed on judicial nominations that ultimately won unanimous support from the Senate. Earlier this year they filibustered the nomination of Professor Goodwin Liu of California, who was supported by both his home state Senators to fill a judicial emergency vacancy on the Ninth Circuit. That successful filibuster of a brilliant lawyer and a good man prevented the Senate from having an up-or-down vote on his nomination and prevented an outstanding nominee from serving the American people on the Federal bench. They attempted to justify that filibuster on ideological grounds. There is no such justification here, in connection with the nomination of Caitlin Halligan who is a mainstream lawyer and public servant from New York. Senate Republican leadership took the virtually unprecedented step this year of requiring cloture to be filed on a district court nomination. That effort to ratchet up the judge wars was rejected when 11 Republican Senators joined to ensure an up-or-down vote on the nomination of Jack McConnell to the District of Rhode Island.

With their latest filibuster, the Senate Republican leadership seeks to set yet another new standard, one that threatens to make confirmation of any nominee to the D.C. Circuit virtually impossible for the future. Caitlin Halligan is well-qualified nominee with a mainstream record as a brilliant advocate on behalf of the State of New York and in private practice. I have reviewed her record carefully in the course the Judiciary Committee's thorough process, including her response to our extensive questionnaire and her answers to questions at her hearing and

in writing following the hearing. In my view, there is no legitimate reason or justification for filibustering her nomination.

Caitlin Halligan is the kind of nominee who has demonstrated not only legal talent but also a dedication to the rule of law throughout her career. We should encourage nominees with the qualities of Ms. Halligan to engage in public service and we should welcome them on the Federal bench, not denigrate them. Concocted controversies and a blatant misreading of Ms. Halligan's record as an advocate are no reason to obstruct this outstanding nomination.

We must reject these misguided arguments. This filibuster against this qualified woman will set a standard that could not be met by judicial nominees of Presidents of either party. I trust that, as with the nomination of Jack McConnell, sensible Republican Senators will, again, join in preventing such an outcome. It is time to edge away from this dangerous precipice.

When Democratic Senators cooperated to confirm John Roberts to the D.C. Circuit in 2003, it broke the stalemate created by the Republicans refusal for years to even consider President Clinton's nominees to that Court. Like John Roberts, Caitlin Halligan is a highly regarded appellate advocate with the kind of impeccable credentials in both public service and private practice that make her unquestionably qualified to serve on the D.C. Circuit. She should be confirmed, not unjustifiably filibustered.

Ms. Halligan served for nearly six years as Solicitor General of New York and has been a leading appellate lawyer in private practice. She is currently General Counsel at the New York County District Attorney's Office, an office that investigates and prosecutes 100,000 criminal cases annually in Manhattan. Ms. Halligan has served as counsel of record in nearly 50 matters before the U.S. Supreme Court, arguing five cases before that court and many cases before Federal and state appellate courts. Just as John Roberts had served in government and clerked for the Supreme Court, she clerked for Supreme Court Justice Stephen Breyer. She also clerked for Judge Patricia Wald on the D.C. Circuit, the court to which she has been nominated. The American Bar Association's Standing Committee on the Federal Judiciary, which Republican Senators often cite, unanimously rated Ms. Halligan "Well-Qualified" to serve on the D.C. Circuit. That is the highest rating that can be received from its non-partisan peer review.

The letters of support we have received for Ms. Halligan's nomination from a broad range of people and organizations is a testament both to her exceptional qualifications to serve and to the fact that this should be a consensus nomination, not a source of controversy and contention.

Twenty-one prominent appellate advocates from across the political spec-

trum who have worked with Caitlin Halligan, including Miguel Estrada and Carter Phillips, endorsed her nomination, writing:

"We believe that Caitlin is an outstanding selection for the D.C. Circuit. She is a first-rate lawyer and advocate. She is well respected and highly regarded as a leader of the profession. Caitlin has an ideal judicial temperament. She brings reason, insight and judgment to all matters. Even those of us who have been on the opposite sides of Caitlin in litigation have been greatly impressed with her ability and character. We have no doubt she would serve with distinction and fairness."

When Ms. Halligan was nominated, Carter Phillips, a preeminent Supreme Court advocate who served as Assistant to the Solicitor General during the Reagan administration, described her as "one of those extremely smart, thoughtful, measured and effective advocates" and concluded that she "will be a first-rate judge." Judge Albert Rosenblatt, who was appointed to serve on New York's highest court by former Republican Governor George Pataki, wrote in praise of Ms. Halligan's work as New York's Solicitor General, concluding that "her sense of fairness and balance is among the best—if not the best—that I have ever seen in my 34 years as a judge and a prosecutor." This is not a nomination that should be filibustered. To do so will set a destructive standard that no one will be able to meet. If someone of Caitlin Halligan's outstanding credentials, character and experience cannot be confirmed, no one can be.

The nomination of Ms. Halligan has likewise received significant support from law enforcement officials and organizations. The National District Attorneys Association has called Caitlin Halligan's background "impressive," stating that she "would be an outstanding addition" to the D.C. Circuit. District Attorneys from the State of New York, including Republicans Derek Champagne, Daniel Donovan, Jr., William Fitzpatrick, James Reams and Scott Burns, support her nomination, as do the New York Association of Chiefs of Police and the New York State Sheriff's Association. New York City Police Commissioner Raymond Kelly has said that Ms. Halligan has the "three qualities important for a nominee: intelligence, a judicial temperament, and personal integrity." Legendary New York County District Attorney Robert Morgenthau, endorsing her nomination in the "strongest of terms," described Ms. Halligan as "qualified in terms of intellect, ability and temperament." This is not someone to be filibustered and blocked from serving as a Federal judge.

More than 20 former United States Supreme Court clerks, including clerks who worked for conservative Justices such as former Chief Justice Rehnquist, Justice Scalia and Justice Kennedy, wrote that they "retain a distinct appreciation of Caitlin's sharp intelligence and her ability to cooperate with others in resolving difficult legal

problems." They concluded their letter of support by praising her "reasonableness and collegiality," and calling her a "fair-minded colleague who was a pleasure to work with in a sophisticated and demanding legal setting." This is not a closed minded ideologue. Caitlin Halligan is an outstanding lawyer who will be an outstanding judge.

Ms. Halligan's nomination has received support from numerous women's law enforcement, business, and legal organizations, including the New York Women in Law Enforcement, the National Center for Women and Policing, the National Conference of Women's Bar Associations, and the Women's Bar Association of the District of Columbia. The U.S. Women's Chamber of Commerce asked the Senate to confirm Ms. Halligan, describing her as "exceptionally well-qualified" with "outstanding legal credentials and legal experience that is both broad and deep." The National Conference of Women's Bar Associations, which supports Ms. Halligan because her "broad experience, public service and intellect make her well suited to the federal appellate bench," also notes that "her appointment would add much needed diversity to the federal court, where only three women are among the active judges on the DC Circuit." More than 100 women who are deans and professors at top law schools throughout the country strongly support the nomination because "Ms. Halligan has won accolades for her judgment, legal acumen, and expertise in appellate litigation," and because her "legal credentials, experience and accomplishments make her exceptionally well-qualified to serve" on the D.C. Circuit. They also echo the need for bringing gender diversity to this critical court, noting that, "women have been historically underrepresented on this court, as only five of the fifty-seven judges to serve there have been women." This outstanding nominee is a leader and role model whose career should not be short-circuited by petty partisanship.

I ask unanimous consent that some of these letters of support be printed in the RECORD at the conclusion of my remarks.

DEAR CHAIRMAN LEAHY AND SENATOR GRASSLEY: We write in enthusiastic support of the nomination of Caitlin Halligan to be a judge on the United States Court of Appeals for the District of Columbia Circuit. We are lawyers who have worked with Caitlin in various capacities. We believe that Caitlin is an outstanding selection for the D.C. Circuit. She is a first-rate lawyer and advocate. She is well respected and highly regarded as a leader of the profession. Caitlin also has an ideal judicial temperament. She brings reason, insight and judgment to all matters. Even those of us who have been on opposite

sides of Caitlin in litigation have been greatly impressed with her ability and character. We have no doubt that she would serve with distinction and fairness.

Hon. CHARLES E. GRASSLEY,
Ranking Member, Senate Judiciary Committee, Dirksen Senate Office Building, Washington, DC.

DEAR CHAIRMAN LEAHY AND SENATOR GRASSLEY: I am a retired member of New York's highest court, the Court of Appeals, a position to which I was appointed by Governor George Pataki. Caitlin Halligan appeared frequently before me on behalf of the State of New York in her capacity as Solicitor General. The quality of her work was exemplary and serves as a model of how to deal with important issues. Her sense of fairness and balance is among the best—if not the best—that I have ever seen in my 34 years as a judge and as a prosecutor before that. In her appearances before our court, there is no one who commanded more respect and who had greater credibility. If I had to choose a candidate to serve on a federal appeals court I can think of no one better. I emphasize: No one. I urge the Senate to act expeditiously to confirm her to this position.

Most respectfully I hope the Senate sees fit to act expeditiously to confirm her for service on the U.S. Court of Appeals for the District of Columbia Circuit.

Please feel free to contact me, if you wish, by phone or email. I recall fondly, Senator Leahy, that we met many years ago at a convention when I was an assistant DA in New York and you were a prosecutor in Vermont.

Very truly yours,

ALBERT M. ROSENBLATT.

Hon. CHARLES E. GRASSLEY,
Ranking Member, Senate Committee on the Judiciary, Dirksen Senate Office Building Washington, DC.

DEAR CHAIRMAN LEAHY AND RANKING MEMBER GRASSLEY: On behalf of the National District Attorneys Association, the oldest and largest organization representing over 39,000 of America's state and local prosecutors, we would like to offer our full support for the nomination of Caitlin J. Halligan for the position of United States Circuit Judge for the District of Columbia.

Ms. Halligan has an impressive background which developed her into an extremely impressive and qualified candidate to serve as an U.S. Circuit Judge. Ms. Halligan currently serves as General Counsel of the New York County District Attorney's Office, where she helps to supervise more than 500 lawyers handling a wide range of criminal investigations and prosecutions. Prior to joining the District Attorney's Office in 2010, Ms. Halligan was a partner and head of the appellate practice at Weil, Gotshal & Manges, LLP, a leading New York law firm. From October 2001 until January 2007, Ms. Halligan served as the Solicitor General of New York State, where she represented the State in the federal and state appellate courts and headed an office of 45 appellate attorneys.

The National District Attorneys Association believes that Ms. Halligan would be an outstanding addition to the United States Circuit Court for the District of Columbia. We are happy to offer our full support for Ms. Halligan's nomination and encourage her swift confirmation by the Senate.

Sincerely,

JAMES REAMS,

Hon. CHARLES E. GRASSLEY,
Ranking Member, Senate Judiciary Committee, Dirksen Senate Office Building, Washington, DC.

DEAR CHAIRMAN LEAHY AND SENATOR GRASSLEY: I am writing in support of the nomination of Caitlin J. Halligan to the United States Court of Appeals for the District of Columbia. I am familiar with the work of Ms. Halligan in her capacity as Counsel to the New York County District Attorney.

Ms. Halligan possesses the three qualities most important for a nominee: intelligence, a judicial temperament, and personal integrity. Ms. Halligan is without question an attorney with a keen legal intellect. Indeed, the rapid successes of her career since graduating from law school in 1995 provide ample evidence of her intelligence and abilities. With regard to her temperament, the interactions between Ms. Halligan and my staff consistently demonstrate an even-handed disposition in navigating potential conflicts between police and prosecutors in New York City. Lastly, Ms. Halligan's personal integrity is simply without question.

In sum, Ms. Halligan possesses all the qualities required for a successful federal ap-

pellate judge, and I highly recommend her for such a position.

Sincerely,

RAYMOND W. KELLY,
Police Commissioner.

Hon. PATRICK J. LEAHY,
Chairman, Senate Judiciary Committee, Dirksen Senate Office Building, Washington, DC.

DEAR CHAIRMAN LEAHY AND SENATOR GRASSLEY: I write this letter in support of the nomination of Caitlin Halligan to the United States Court of Appeals for the District of Columbia Circuit. I have known Caitlin personally a short time, but her reputation for even-handedness and excellence as an attorney are well-known in New York's legal community.

I will not belabor her exemplary record as an attorney: Georgetown Law Review, clerk to Justice Patricia Wald of the D.C. Circuit, to Justice Stephen Breyer of the United States Supreme Court, adjunct faculty member of Columbia University Law School and Georgetown University Law Center, Solicitor General of the State of New York, Partner and Head of Appellate Practice Group at the firm Weil, Gotshal & Manges LLP, and most recently, General Counsel to the District Attorney of New York County. Certainly this is a resume and career that is grounded solidly in the law, and I submit that her legal qualifications are beyond question.

More recently, I have worked with Caitlin in her capacity as General Counsel to my former office. She is well-known and well-regarded as a lawyer's lawyer. She follows the law and holds herself to the highest ethical standards. She is as intellectually honest as she is tough—she does not take short cuts and she does not pull her punches; both necessary attributes for her to be effective in her current position.

At the Manhattan District Attorney's Office, she handles some of the toughest issues that a lawyer has to address; issues that go to the core of law enforcement authority; issues that involve claims of wrongful conviction and the use of prosecutorial discretion. I can speak from experience to tell you that these are weighty issues that can keep any lawyer awake at night. A District Attorney needs counsel who is tough but fair, and counsel who can advise the district attorney on these weighty issues not from a gut feeling or personal agenda, but based solely on the law and the facts. She meets these high standards. I cannot stress enough the difficulties of the issues that Ms. Halligan has to address every day. And, based on both my personal observation and accounts I hear from my former colleagues at the D.A.'s Office—Caitlin handles these pressures with grace and poise, and is a tough proponent of the core mission of the Manhattan D.A.'s Office—to keep the citizenry safe, to enforce the law without fear or favor, and to hold accountable those who break the law. She brings solid law enforcement perspective to her work, and upholds the highest standards of my former office.

In sum, Caitlin Halligan is qualified in terms of intellect, ability and temperament, and I endorse her in the strongest of terms.

Sincerely,

ROBERT M. MORGENTHAU.

Chairman, Committee on the Judiciary, U.S. Senate, Dirksen Senate Office Building, Washington, DC.

Hon. CHUCK GRASSLEY,
Ranking Member, Committee on the Judiciary, U.S. Senate, Dirksen Senate Office Building, Washington, DC.

DEAR CHAIRMAN LEAHY AND RANKING MEMBER GRASSLEY: We write as former clerkship colleagues of Caitlin Halligan in support of her nomination for a seat on the U.S. Court of Appeals for the District of Columbia Circuit. All of us worked alongside Caitlin as law clerks at the U.S. Supreme Court during the 1997–98 Term. Our shared experience left us with an indelible impression of Caitlin's brilliant legal mind, her collegiality and fair-mindedness, and her abiding respect for the rule of law. Even now, almost a decade and a half later, as we have moved on to disparate careers in the government, private sector, and the legal academy, we retain a distinct appreciation of Caitlin's sharp intelligence and her ability to cooperate with others in resolving difficult legal problems.

As you well know, the work of the Supreme Court is intense and eclectic, encompassing a vast array of intricate legal matters, a host of overlapping deadlines, and a variety of formal and informal procedures for internal deliberation and discussion among the Justices and their clerks. Our work on the difficult cases the Court decided during the 1997–98 Term generated among our group an unending discussion of legal issues, both in connection with our specific law clerk tasks and in more freewheeling conversations in the clerks' dining room and related settings. In this milieu Caitlin stood out for her ability to meaningfully discuss and explicate tough legal questions with an open mind and a willingness to consider multiple perspectives on the law. Throughout the year, Caitlin displayed a keen ability to listen to and accommodate the views of others, all the while simultaneously expressing and justifying her own view of the law. Although the Court during the 1997 Term issued an unusually high proportion of unanimous decisions, Caitlin's demeanor as a law clerk exuded reasonableness and collegiality even in those areas where we law clerks—and the Justices for whom we worked—disagreed.

In sum, we hold Caitlin Halligan in high regard as a talented and fair-minded colleague who was a pleasure to work with in a sophisticated and demanding legal setting. We have no doubt that if she is confirmed by the Senate, her colleagues on the federal bench will soon arrive at a similar conclusion, and we appreciate your attention to her nomination.

Chairman, Committee on the Judiciary, U.S. Senate, Dirksen Senate Office Building, Washington, DC.

Hon. CHUCK GRASSLEY,
Ranking Member, Committee on the Judiciary, U.S. Senate, Dirksen Senate Office Building, Washington, DC.

DEAR CHAIRMAN LEAHY AND RANKING MEMBER GRASSLEY: On behalf of the U.S. Women's Chamber of Commerce, I write in enthusiastic support of the nomination of Caitlin Halligan to be a judge on the United States Court of Appeals for the District of Columbia Circuit. Ms. Halligan is exceptionally well-qualified, and would be an excellent addition to that court. She would not only bring extraordinary legal talents but also increase the gender diversity of that court, increasing the representation of women on what has been called the second-highest court in the land.

Her résumé speaks for itself. Ms. Halligan has outstanding legal credentials and legal experience that is both broad and deep. Over the course of her career, she has developed significant expertise in appellate litigation, including before the U.S. Supreme Court. She has also generously contributed of her own time to pro bono service.

We ask that the Senate vote to confirm Caitlin Halligan to the United States Court of Appeals for the District of Columbia Circuit.

Sincerely,

Re Nomination of Caitlin J. Halligan to the United States Court of Appeals for the District of Columbia Circuit.

Hon. PATRICK J. LEAHY, *Chair, Senate Judiciary Committee, Dirksen Senate Office Building, Washington, DC.*

Hon. CHARLES GRASSLEY, *Ranking Member, Senate Judiciary Committee, Dirksen Senate Office Building, Washington, DC.*

DEAR CHAIRMAN LEAHY AND RANKING MEMBER GRASSLEY: On behalf of the National Conference of Women's Bar Associations, we write to express our enthusiastic support for the nomination of Caitlin J. Halligan to the United States Court of Appeals for the District of Columbia Circuit.

Ms. Halligan's broad experience, public service and intellect make her well suited to the federal appellate bench, and her appointment would add much needed diversity to the federal court, where currently only three women are among the active judges on the DC Circuit.

We join with many other organizations such as the National District Attorneys Association, the New York Women in Law Enforcement and the Women's Bar Association of the District of Columbia in urging the speedy confirmation of this outstanding nominee.

Very truly yours,

MARY E. SHARP,
President.

NOVEMBER 15, 2011.

Re Nomination of Caitlin J. Halligan to United States Court of Appeals for the District of Columbia Circuit.

Hon. HARRY REID,
Hart Senate Office Building, Washington, DC.

Hon. MITCH MCCONNELL,
Russell Senate Office Building, Washington, DC.

DEAR MAJORITY LEADER REID AND MINORITY LEADER MCCONNELL: We, the undersigned law school deans and professors, write in strong support of the nomination of Caitlin Halligan to the United States Court of Appeals for the District of Columbia Circuit. Ms. Halligan's legal credentials, experience, and accomplishments make her exceptionally well-qualified to serve on this court. We also note that women have been historically underrepresented on this court, as only five of the fifty-seven judges to serve there have been women, and only three of the court's eight active judges are women.

Ms. Halligan graduated from Georgetown University Law Center with honors, including Order of the Coif. She clerked for Judge Patricia M. Wald on the D.C. Circuit Court, and for Justice Stephen G. Breyer on the U.S. Supreme Court. Ms. Halligan's career includes public service, private practice, and legal education. She worked for the Attorney General of the State of New York, including as Solicitor General of the State of New York, and currently serves as General Counsel to the New York County District Attorney's office. She was a partner and head of the appellate practice at Weil, Gotshal and Manges, LLP. In addition, she has taught as an adjunct professor at Georgetown University Law Center and Columbia Law School. In all of these capacities, Ms. Halligan has won accolades for her judgment, legal acumen, and expertise in appellate litigation, which includes five arguments before the Supreme Court. Throughout her career, she has also contributed significant pro bono services.

Ms. Halligan received a unanimous "Well-Qualified" rating from the ABA Standing Committee on the Federal Judiciary. She

has been endorsed by numerous organizations, including the District Attorneys Association of the State of New York, the National District Attorneys Association, the New York State Association of Chiefs of Police, the New York State Sheriffs Association, the New York Women in Law Enforcement, the Women's Bar Association of the District of Columbia, the National Conference of Women's Bar Associations, the U.S. Women's Chamber of Commerce, and the National Center for Women & Policing.

We likewise offer our strong support of Ms. Halligan, and urge you to support her nomination to the United States Court of Appeals for the District of Columbia Circuit. If you have questions or if we can be of assistance, please contact Columbia Law School Professor Gillian Metzger at (212) 854-2667 or at gillian.metzger@law.columbia.edu.

Sincerely,

(Signed by 107 women law professors).

Mr. LEAHY. I fear that what is behind this misguided filibuster attempt is a continuation of a decades-long attempt by some Senate Republicans to play politics with the Federal court and, in particular, to engage in a rear guard action to preserve the D.C. Circuit as a Republican bastion, despite the fact that the American people elected a Democratic President. A recent Washington Post editorial urging the Senate to confirm Ms. Halligan's confirmation, suggested as much, stating: "GOP senators are grasping at straws to block Ms. Halligan's ascension, perhaps in hopes of preserving the vacancy for a Republican president to fill." Yet again, we see some Senate Republicans shifting the standards they use and the arguments they make based on the party of the President making the nominations. They say one thing when President Clinton is in office, flip when the President is a Republican, and flop when the American people elect President Obama.

When President Clinton nominated qualified moderates to vacancies on the D.C. Circuit, Republicans refused to proceed. The last of three Clinton nominees to the D.C. Circuit was confirmed in 1997, after being nominated in 1995 and stalled through the 1996 session when not a single circuit nominee was confirmed by the Senate Republican majority. When Senate Republicans stalled the nomination of Merrick Garland to the D.C. Circuit beyond the 1996 election, even Senator HATCH became frustrated, and in March 1997 he proclaimed that the way that Republicans were opposing judicial nominees was "playing politics with judges," was "unfair" and that he was "sick of it." He was right. Merrick Garland, like Caitlin Halligan, was superbly qualified, and was only being obstructed for partisan political gain.

But once the blockade against Judge Garland was broken by President Clinton's reelection, Senate Republicans erected an impenetrable wall around the D.C. Circuit. Neither of President Clinton's two other nominees were allowed a Senate vote, or even Judiciary Committee consideration. That escalation in the judge wars was untoward, it was wrong. It hurt the court and was

unfair to both Allen Snyder and Elena Kagan, President Clinton's outstanding nominees. Allen Snyder had served as a clerk to Justice Rehnquist and was an experienced and respected litigator. Elena Kagan went on to become Dean of the Harvard Law School and win confirmation to the United States Supreme Court. These were unquestionably qualified nominees. The fact is that for the rest of President Clinton's second term, virtually his entire second four years, given that Judge Garland had actually first been nominated in his first term, Senate Republicans would not consider another nominee to the D.C. Circuit. They just blocked and pocket filibustered outstanding nominees because they could.

Republican Senators pretended to justify their refusal to proceed on President Clinton's D.C. Circuit nominees not by arguing against the nominees, but by arguing that the caseload of the D.C. Circuit did not justify the confirmation of any more judges. They were contending that the 11th and 12th judgeships on the D.C. Circuit should not be filled. They argued that 10 judges were enough.

But what happened when George W. Bush became President? Republican Senators set aside those arguments when considering the nominations of a Republican President to the same court even as the caseload numbers went down. Senate Republicans abandoned their hollow caseload arguments to press for confirmation of multiple Bush nominees to the D.C. Circuit. Their actions showed that they were not really concerned with a caseload justification. Their reversal now to readopt a caseload argument is not consistency of principle, but relates to the principal who is making the nomination and appears political.

Despite the unwillingness of Senate Republicans to act on President Clinton's nominees to the D.C. Circuit for years, Senate Democrats did proceed to consider President Bush's nominations. The first confirmation, for which I voted, was of now-Chief Justice John Roberts to be a judge on the D.C. Circuit. At the time, John Roberts had been Allen Snyder's junior and his partner at Hogan and Hartson. He was the first judge confirmed to the circuit in six years.

The Senate then confirmed a series of questionable nominees to the D.C. Circuit: Janice Rogers Brown, Thomas Griffith and Brett Kavanaugh. The same Republican Senators who blocked President Clinton's nominations from even being considered by the Judiciary Committee supported every nomination of President Bush's to the D.C. Circuit, as they filled the ninth seat, twice filled the 10th seat on the court and went on to fill the 11th seat that they had said was unnecessary when a Democratic President was doing the nominating. With the change of administration, Republican Senators have now dusted off an old obstructionist argument about the D.C. Circuit's case-

load, something they ignored for eight years as President Bush's nominees were confirmed to fill the 10th seat twice and also the 11th judgeship. But they have ratcheted up their partisan opposition and now oppose even filling the ninth judgeship. With three vacancies on the D.C. Circuit, that is the judgeship that Caitlin Halligan would be filling not the 11th that Senate Republicans filled just recently, or the 10th that they voted twice to fill, but the ninth. This is not a basis on which to oppose as qualified a nominee as Caitlin Halligan, who has widespread support from law enforcement and the legal community.

The so-called "caseload" concern is no justification for filibustering this nomination. The D.C. Circuit is now more than one-quarter vacant, with three judicial vacancies. In fact, the Senate has acted on the so-called caseload argument. We have already eliminated effective in 2008 the 12th judgeship on that court. In so doing, the Senate and the Congress reaffirmed the authorization of 11 judges needed for the important D.C. Circuit. This court is often considered the second most important court in the land because of the complex cases that it handles. The court reviews complicated decisions and rulemaking of many Federal agencies, and in recent years has handled some of the most important terrorism and enemy combatant and detention cases since the attacks of September 11. As noted in the recent Washington Post editorial: "[Caseload numbers do] not take into account the complexity and scope of the cases that land at the court. They include direct appeals involving federal regulatory decisions and national security matters, including cases stemming from the detentions at the U.S. naval base in Guantanamo Bay, Cuba."

The D.C. Circuit's cases have only increased in importance and the court's caseload has not gone down since Republican Senators supported every one of President Bush's nominations to that court. According to the Administrative Office of U.S. Courts, the caseload per active judge has increased by one third since 2005, when the Senate confirmed President Bush's nomination of Thomas Griffith to fill the 11th seat on the D.C. Circuit. That is right—the D.C. Circuit's caseload has actually increased. Judge Griffith's confirmation resulted in there being approximately 121 pending cases per active D.C. Circuit judge. There are currently 161 pending cases for each active judge on the D.C. Circuit, one-third higher. If Ms. Halligan were confirmed to the ninth seat, there would be approximately 143 pending cases for each active D.C. Circuit judge, still significantly higher than after the Senate confirmed President Bush's nominee to the 11th seat in 2005. In addition, according to the Administrative Office of the U.S. Courts, written decisions per active judge have risen 20 percent since 2007. By any objective measure the

work of the D.C. Circuit has grown and the multiple vacancies should be filled, not preserved and extended for partisan purposes.

Of course, if Republican Senators seeking to use caseload figures to justify their opposition to this nomination were serious, they would not be continuing their refusal to consent to the Senate considering the nominations of Morgan Christen of Alaska to the Ninth Circuit, and Judge Adalberto Jordan of Florida to the Eleventh Circuit, the two circuits with the highest number of cases per active judge. They would not be doing everything they can to delay filling vacancies on the Ninth Circuit, a court burdened by multiple vacancies and the largest caseload in the Nation, and we would instead take up and confirm the nomination of Jacqueline H. Nguyen who is nominated to fill the judicial emergency vacancy that remains open after the Republican filibuster of Goodwin Liu. I have repeatedly urged the Senate to take up and consider these nominations, which are supported by home state Senators, yet Republicans have refused to consider them for months. In fact, courts throughout the country are in need of more confirmed judges and more judgeships to handle high and increasingly complicated caseloads, yet we currently have 25 judicial nominations favorably reported by the Judiciary Committee awaiting final action by the Senate. Republicans concerned about caseload should join with us to consider these nominations.

The Senate should not filibuster but should be voting to confirm the nomination of Caitlin Halligan to fill a vacancy on a critical court that is one quarter vacant with only eight active judges and higher caseloads than when Republicans voted to confirm President Bush's nominees fill the ninth, 10th and 11th judgeships on this court just a couple of years ago.

Some have sought to criticize Ms. Halligan for positions she advocated on behalf of the State of New York while serving as its Solicitor General. At her confirmation hearing, Ms. Halligan made clear she filed briefs under the direction of New York's Attorney General, arguing on behalf of the State of New York, not based on her personal views. Yet some outside groups and even some Senators ignore this and seek to use those advocacy positions as a basis to filibuster her nomination.

These arguments are particularly hard to accept for anybody who understands the role of advocates in our legal system. Our legal system is an adversary one, predicated upon legal advocacy for both sides. Nominees such as Chief Justice John Roberts have said lawyers do not stand in the shoes of their clients. Since when do we impose a litmus test for nominees that they can never have been legal advocates? If we were to do that, we would have no judges. Almost every nominee who had been a practicing lawyer would be disqualified by one side or the

other. This is especially hard to understand for any Senators who support the rights of states to defend their interests in courts, the duty Caitlin Halligan owed to New York as its Solicitor General.

Some have pointed to her role as New York's Solicitor General acting at the direction of New York's Attorney General in tort lawsuits against gun manufacturers as suggesting that she will not uphold the Second Amendment if confirmed as a judge. As a strong supporter of the Second Amendment, I asked her during her hearing whether as a judge she would faithfully follow and apply the Supreme Court's precedent from *District of Columbia v. Heller* and *McDonald v. Chicago*, which held that the Second Amendment protects an individual right to keep and bear arms for self defense. She testified that she would. When asked by Senator GRASSLEY whether the rights conferred under the Second Amendment are fundamental, Ms. Halligan answered: "That is clearly what the Supreme Court held and I would follow that precedent, Senator."

In her personal capacity, Ms. Halligan has never challenged or otherwise criticized the Protection of Lawful Commerce in Arms Act (PLCAA) or been critical of the Second Amendment. As New York State's Solicitor General, she prepared an amicus brief at the direction of the New York Attorney General in a case where New York City challenged the PLCAA, seeking to safeguard New York's police powers. The arguments made in the brief were made on behalf of New York State. In the amicus brief, New York State argued that the PLCAA should be struck down as an unconstitutional exercise of Congress's legislative power that infringed on states' rights to exercise the police power within their borders. The amicus brief did not make a single reference to the Second Amendment. Any criticism of the PLCAA in New York State's brief or in the speech she gave as a surrogate for and on behalf of New York Attorney General Spitzer reflected New York State's federalism concerns. It is hardly surprising that New York State—like many other states—advocated for a position that supported state powers.

As Solicitor General for the State of New York, Caitlin Halligan vigorously advocated for New York's interests, in particular the right to govern in traditional state law areas. For example, in the *Grutter v. Bollinger* affirmative action case, New York joined 20 other states in arguing that they "must have the freedom and flexibility" to set their own education policy. I assume that position does not raise concerns for those seeking a basis for opposing her nomination. Nor I assume did her defense as New York's Solicitor General of the constitutionality of the death penalty.

Indeed, Ms. Halligan's time as Solicitor General shows all the hallmarks of serious advocacy consistent with the

interests of her "client". When New York municipal attorneys requested advice as to whether clerks could issue marriage licenses to same-sex couples, Ms. Halligan carefully analyzed New York's statutory law and concluded that the state legislature did not intend to authorize marriage licenses to be given to same-sex couples, even though the statutory language is gender neutral. After observing that this interpretation raised "constitutional questions," she outlined the current case law and stated that it was for the courts to resolve the issue. This measured response is no basis on which to caricature her record.

Most disconcerting of all are the attacks from some on the outside suggesting that Ms. Halligan lacked candor in the answers she provided to the Judiciary Committee. I hope that we do not see any Senators repeating these baseless charges to create another false controversy. Ms. Halligan has been honest and forthcoming throughout the confirmation process, providing the Committee with her entire record and giving detailed, accurate, and clear answers to over 150 questions from Judiciary Committee members at her hearing and in written follow-up questions on a wide range of topics, such as judicial philosophy, constitutional interpretation, the Tenth Amendment, the Second Amendment, the Commerce Clause, the Eighth Amendment and the death penalty, military commissions and indefinite detention, tort liability, Federal preemption, and standing. In my view, Ms. Halligan's answers to questions from Committee members were detailed and substantive, and show an impressive depth and breadth of knowledge on complex legal issues. There is no lack of record or failure to respond as there was, unfortunately, when the Bush administration would not make information available to Senators in connection with the nomination of Miguel Estrada. There is no lack of forthrightness, as there was when Brett Kavanaugh was manipulating the confirmation process as a political crony and insider during the Bush administration.

Those concerned with a 2004 report that questioned the indefinite detention of enemy combatants issued by the Association of the Bar of the City of New York's Committee on Federal Courts at a time when she served on the Committee continue to ignore Ms. Halligan's repeated testimony that she had no role in preparing the report, that she was not aware of the report until preparing for her nomination and that report "does not reflect [her] views." At no time during Ms. Halligan's hearing or in the Committee's consideration of her nomination did any Senator question Ms. Halligan's candor or thoroughness in answering questions. I hope that no Senator does so now to attempt to justify this unjustifiable filibuster.

Given Caitlin Halligan's impeccable credentials and widespread support,

this should be the kind of consensus nomination supported by Senators of both parties who seek to ensure that the Federal bench continues to attract the best and brightest. Certainly, her nomination should not be subject to a filibuster. Regrettably, however, the Senate's Republican leadership seems intent on continuing with the practices they began when President Obama first took office, engaging in narrow, partisan attacks on his judicial nominations. They seem intent on setting a new standard that could not be met by the judicial nominees of Presidents of either party.

Republican Senators who just a few years ago protested that the filibuster of any judicial nomination was unconstitutional, Republican Senators who joined in a bipartisan memorandum of understanding to head off the "nuclear option" and agreed that nominees should only be filibustered under "extraordinary circumstances," abandoned all that they said they stood for and joined together in an attempt to prevent an up-or-down vote on President Obama's very first judicial nominee, David Hamilton. There were certainly no "extraordinary circumstances" to justify the Republican filibuster of Judge Hamilton, and several Republican Senators joined together with Democratic Senators in rejecting that filibuster. I trust that they will do so, again, and reject this unjustifiable filibuster of Caitlin Halligan.

By the standard utilized in 2005 to end filibusters and vote on President Bush's controversial nominees, this filibuster should be ended and the Senate should vote on the nomination. Those Senators who claim to subscribe to a standard that prohibits filibusters of judicial nominees except in "extraordinary circumstances" cannot support this filibuster. There are no "extraordinary circumstances" here. The 14 Senators who signed the Memorandum of Understanding in 2005, the then "Gang of 14," wrote about their "responsibilities under the Advice and Consent Clause of the United States Constitution" and that fulfilling their constitutional responsibilities in good faith meant that nominations "should only be filibustered under extraordinary circumstance." Here there are none.

In 2005, Senator GRAHAM, a member of the "Gang of 14" described his view of what comprises the "extraordinary circumstances" justifying a filibuster. He said: "Ideological attacks are not an 'extraordinary circumstance.' To me, it would have to be a character problem, an ethics problem, so allegations about the qualifications of a person, not an ideological bent." Caitlin Halligan has no "character problem," no "ethics problem," and there is no justification for this filibuster. Caitlin Halligan is a superbly qualified nominee whose personal integrity, temperament and abilities have been attested to by lawyers and judges from both

sides of the aisle. The many leading lawyers who have worked with Ms. Halligan, law enforcement officials and organizations supporting her nomination have all attested to Ms. Halligan's "temperament," "fairness" and "balance" in addition to her legal judgment and qualifications for the D.C. Circuit. Hollow contentions about the caseload of the quarter-vacant D.C. Circuit fall well short of any standard of "extraordinary circumstances."

The signers of that 2005 Memorandum of Understanding, and the Senate, demonstrated what they thought that agreement entailed when they proceeded to invoke cloture on a number of controversial nominations. The Senate invoked cloture on the nomination of Janice Rogers Brown to the D.C. Circuit, the circuit to which Caitlin Halligan has been nominated.

As a Justice on the California Supreme Court, Janice Rogers Brown was a nominee with a consistent and extensive record, both on the bench and off, of using her position as a member of the court to put her views above the law. This was not a question of one case or one issue on which Democrats differed with the nominee—I have voted for hundreds of nominees of Republican and Democratic Presidents which whom I differ on many issues. But this was a nominee with views so extreme she was opposed not just by her home state Senators, but also by more than 200 law school professors from around the Nation who wrote to the Committee expressing their opposition.

Her record in numerous decisions as a judge showed that she was willing to put her personal views above the law on issue after issue, including a willingness to roll back the clock 100 years on workers' and consumers' rights, to undermine clean air and clean water protections for Americans and their communities, laws providing affordable housing, zoning laws that protect homeowners, and protections against sexual harassment, race discrimination, employment discrimination, and age discrimination. In fact, while serving on the California Supreme Court, Justice Brown had argued that Social Security is unconstitutional, a position clearly at odds with well established law. She went so far as to say "today's senior citizens blithely cannibalize their grandchildren."

Despite her ideological extremism and willingness to implement her radical personal views as a judge without regard to the existing law, she was confirmed to the D.C. Circuit, her nomination judged not to present "extraordinary circumstances" supporting a filibuster. There is no justification under the standard applied to the nomination of Janice Rogers Brown for a filibuster of the nomination of Caitlin Halligan, a widely respected nominee with a clear devotion to the rule of law and no record of ideological extremism.

Under the Gang of 14's Memorandum of Understanding, the Senate also

agreed to invoke cloture on the nomination of Priscilla Owen to the Fifth Circuit, a nominee whose rulings on the Texas Supreme Court were so extreme they drew the condemnation of other conservative judges on that court. Alberto Gonzales, President Bush's White House counsel and later his Attorney General, went so far as to describe one of her opinions as advocating "an unconscionable act of judicial activism." Her nomination was determined not to present "extraordinary circumstances."

Neither was the nomination of Thomas Griffith to the D.C. Circuit, despite his decision to practice law without a license for a good part of his career, which I felt should be disqualifying. Yet his nomination was not judged to present "extraordinary circumstances" and he was confirmed to fill the 11th seat on the D.C. Circuit. There is no question under the standard Republicans applied to the nomination of Thomas Griffith, Caitlin Halligan should be confirmed to fill the ninth judgeship on that court.

I urge Republican and Democratic Senators to come together and end this misguided filibuster of Caitlin Halligan's nomination to the D.C. Circuit. There is no basis under any standard for blocking her nomination from having an up-or-down vote. To the contrary, Caitlin Halligan's impeccable credentials and record as an accomplished advocate make her nomination worthy of bipartisan support. I look forward to ending this filibuster and voting to confirm Caitlin Halligan to the D.C. Circuit.

Mr. LEAHY. Mr. President, I suggest the absence of a quorum but ask unanimous consent that the time be equally divided.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. BAUCUS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BAUCUS. Mr. President, Henry Clay once said:

Of all the properties which belong to honorable men, not one is so highly priced as that of character.

It is my distinct privilege to rise today to speak on a nominee that possesses such character, Dana Christensen. The Senate will soon take up Dana's nomination for U.S. district judge for the District of Montana. To ensure the most ethical and qualified attorney was appointed as district judge, I created an advisory selection panel made up of five Montana lawyers with diverse legal backgrounds from across our State and across party lines.

I said to them: You just get me the best, the four or five best people I can choose from. I do not care if they are Republicans or Democrats or liberals or conservatives, you just get me the very best qualified.

That is what they did. From them I chose Dana Christensen, and the panel unanimously and enthusiastically recommended the nomination of Dana Christensen. I was proud to pass this recommendation on to the President.

Dana is a fourth generation Montanan, raised in Missoula, MT. He graduated from Stanford University in 1973, received his law degree from the University of Montana Law School in 1976. Dana started his legal career at the Billings, MT, law firm of Moulton, Bellingham, Longo & Mather, and then moved to Kalispell in 1981 to join the law firm of Murphy, Robinson, Heckathorn & Phillips. In 1998, Dana and two of his partners formed a new firm in Kalispell, MT, which has become one of the leading firms in Montana for civil defense, business law, real estate, and estate planning. Dana has tried more than 50 trials in State and Federal courts. He has an active mediation and arbitration practice. Outside of the office, Dana has been an active member of his community: a member of the board of directors of his local chamber of commerce, a member of the University of Montana School of Law board of visitors, and a member of the faculty of the University of Montana Advanced Trial Advocacy Program.

Over the past 35 years, Dana has commanded the respect of his colleagues across the State of Montana and elsewhere. Dana has received the highest rankings from peer review organizations, Chambers USA and Super Lawyers. He is also a member of the selective American Board of Trial Advocates and the American College of Trial Lawyers.

Upon his nomination in May, Montana's legal community lent their strong support for Dana's selection. U.S. District Judge Richard Cebull, who was appointed by President George Bush in 2001, said:

I do not think there is a better prospect in the whole State.

U.S. District Judge Sam Haddon, also appointed by President Bush, echoed his colleague. Judge Haddon said:

He's a good lawyer, a good man, and in my opinion, ethically totally qualified. The district will be well served by him.

I have gotten to know Dana over the past several decades. I could not agree more with Judge Sebold and Judge Haddon. Dana embodies those qualities that Montana and America need on the Federal bench: intellect, extensive experience in the courtroom, commitment to public service, integrity, and respect for precedent and the rule of law.

I congratulate Dana, his wife Stephanie, and his wonderful children, Cassidy and Ben, on this extraordinary achievement. I urge my colleagues to join me in supporting his nomination.

I yield the floor.

The PRESIDING OFFICER. The Senator from Iowa.

Mr. GRASSLEY. Mr. President, today the Senate is expected to con-

firm four additional judicial nominees. With these votes, we will have confirmed 61 article III nominees this Congress.

I want to note that in the first session of the 112th Congress we have now confirmed more nominees than during the entire 111th Congress. So I think we can declare real progress. Over 72 percent of President Obama's judicial nominees have been confirmed.

Despite this record of confirmations, we continue to hear complaints about the way this President's nominees are being treated. So I point out that in only six sessions of Congress in the last 30 years have more nominees been confirmed in a single session. Furthermore, given the cooperation we have shown, I am disappointed that the Senate majority wants to turn to a controversial nomination next rather than continue on the path of cooperative confirmations.

The Senate majority leader has scheduled a cloture vote for tomorrow on the nomination of Caitlin Halligan to be U.S. Circuit Judge for the District of Columbia Circuit. I will speak more about the merits of that nomination Tuesday. But I wanted to put that vote in some context.

It seems to me that the scheduling of such a controversial vote in the closing days of a session of Congress is designed to simply heat up the partisanship of judicial nominations. Perhaps that is the objective. The result may well be that such a divisive vote might have a chilling effect on reaching agreement on additional judicial nomination votes. I hope that is not the case. But everyone knows the final weeks of a session are often filled with unpredictable actions and outcomes.

With regard to the vote tomorrow, there will be some who say this nomination has been vacant for too long and that this nominee is being treated unfairly, needlessly waiting on the calendar for too many weeks. Well, such arguments fail to consider the history of this particular seat of the DC Circuit and of the record established by my colleagues on the other side regarding the consideration of nominations for this very same DC Circuit.

This seat has been vacant for over 6 years. It became vacant upon the elevation of John Roberts as Chief Justice. That was back in September 2005. Following Justice Robert's appointment, Peter Keisler was nominated to fill the vacancy in June 2006, with a hearing held August 1, 2006.

With a Republican majority in the 109th Congress, one would wonder why he never made it out of committee. Well, it is not that he did not have the votes in committee. The fact is, the Democratic minority would not allow a vote. This was accomplished by holding him over at his first markup, which the rules permit and is a legitimate exercise of the right of a minority and a right that this minority on our side exercised quite frequently this very year.

However, for the remaining executive sessions in September of that year,

prior to final adjournment they either made sure the committee did not have a quorum so we could not vote or they took the extraordinary step of invoking the 2-hour rule so the committee could not meet. I note that a quorum was present early in one meeting but evaporated when Mr. Keisler's nomination was the pending business. So basically the opponents ran out the clock on this nomination. He did not get a committee vote. He did not get the courtesy of floor consideration, not even a cloture vote like the nominee tomorrow will have.

Mr. Keisler was renominated in June 2007 when the Democrats assumed control of the Senate. But his nomination sat in committee with no action until it was returned to the President in January 2009. He was the recipient of a pocket filibuster. This was despite being rated "unanimously well qualified" by the ABA Standing Committee of the Federal judiciary and possessing outstanding qualifications to fill this position. So complaints about this seat being vacant for too long just ring hollow with this Senator.

Likewise, when one considers the treatment of previous nominees to the DC Circuit, it is evident that the nomination of Ms. Halligan is not being treated in an unfair manner. In fact, her nomination is proceeding far better than many nominated to this court. I would remind my colleagues that previous nominees were subjected to delay or multiple hearings, to extensive delays in committee, and to multiple filibusters on the Senate floor.

These include the nomination of Estrada, a Hispanic immigrant with a compelling personal story and outstanding judicial qualifications, who was subject to seven cloture votes; Janice Brown, an African-American female who had two cloture votes; Brett Kavanaugh; and Thomas Griffin. While all of these individuals were eventually confirmed, the procedural tactics used in their nominations made the confirmations very difficult.

I am not suggesting this is a pattern to follow, but it is relevant to the arguments that Ms. Halligan is being treated quite differently or in an unfair manner than other nominees.

With regard to the nomination before us today, I will say a few words about, first, Mr. Ramos, who is nominated to be U.S. District Judge for the Eastern District of New York. Mr. Ramos earned a BA from Yale in 1982; JD Harvard, 1987. Upon graduation from law school, Mr. Ramos worked as an associate at the law firm of Simpson, Thatcher & Bartlett in New York City.

In 1992, Mr. Ramos joined the Office of the U.S. Attorney for the Eastern District of New York, where he prosecuted a variety of Federal crimes, including white-collar crime, defense contractor fraud, money laundering, narcotics trafficking, labor racketeering, and violation of the Arms Export Control Act. In June 2000, he was

promoted to Deputy Chief of the Narcotics Section, where he supervised assistant U.S. attorneys prosecuting international narcotics trafficking and racketeering cases.

In 2002, the nominee joined the law firm of Day, Berry & Howard LLP, predecessor to the firm Day Pitney LLP, as a partner in the government investigations practice group. Currently, he represents corporations and individuals in connection with criminal and regulatory investigations involving antitrust, bank fraud, public corruption, securities fraud, and government program fraud.

The American Bar Association's Standing Committee on the Federal Judiciary has rated Mr. Ramos with a unanimous "well qualified" rating.

We are also considering the nomination of Judge Andrew L. Carter to be U.S. District judge, Southern District of New York. Judge Carter earned his B.A. from the University of Texas in 1991 and his J.D. from Harvard Law School in 1994.

Judge Carter's legal career began in 1996 as a staff attorney for the criminal defense division, Legal Aid Society, in New York, NY. In 2000, he became staff attorney for the Federal defenders division. The nominee became affiliated with the Federal Defenders of New York in 2005, first as staff attorney and, 1 year later, as a supervising attorney. His Federal practice included drug cases, gun cases, and immigration fraud.

In 2009, Judge Carter was appointed to his current position of U.S. magistrate judge for the Eastern District of New York, where he is primarily responsible for handling civil matters.

The American Bar Association's Standing Committee on the Federal Judiciary has rated Judge Carter with a unanimous "qualified" rating.

The third nominee we are considering is James Rodney Gilstrap to be a district judge for the Eastern District of Texas, a seat deemed to be a judicial emergency. Mr. Gilstrap received his B.A. from Baylor in 1978 and his J.D. from Baylor University School of Law 1981.

Mr. Gilstrap served as an associate attorney for Abney, Baldwin & Searcy from 1981 to 1984. In 1984, he left to begin his own legal practice, Smith & Gilstrap, where he currently practices representing individuals, corporations, and local governments on civil matters.

From 1989 to 2002, Mr. Gilstrap served as a county judge for Harrison County, where he had both administrative and judicial responsibilities.

The ABA Standing Committee on the Federal Judiciary has rated Mr. Gilstrap with a unanimous "qualified" rating.

Then we have the distinguished nominee from Montana, whom Senator BAUCUS just spoke about, Dana L. Christensen, to be U.S. District Judge for the District of Montana.

Mr. Christensen earned his B.A. from Stanford University in 1973 and his J.D.

from the University of Montana School of Law in 1976.

Earlier in his legal career, Mr. Christensen practiced natural resources law, representing coal mining and oil and gas companies in litigation in administrative matters. He went on to practice general insurance defense litigation and medical malpractice cases.

In 1996, he founded his own firm and continues to represent these entities and practices in this area. He has also represented defendants in large class-action lawsuits filed in the U.S. District Court for the District of Montana.

In addition to his litigation practices, Mr. Christensen has also represented at least 15 physicians in confidential disciplinary matters before the Montana Board of Medical Examiners. He has also represented health care providers in more than 200 matters before the Montana Medical Legal Panel.

The American Bar Association's Standing Committee on the Federal Judiciary has rated Mr. Christensen with a unanimous "well qualified" rating.

I intend to vote for all these candidates. I urge my colleagues to do the same.

I yield the floor and suggest the absence of a quorum.

Mr. CASEY. Mr. President, I yield the floor and suggest the absence of a quorum.

The assistant legislative clerk proceeded to call the roll.

Mrs. GILLIBRAND. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mrs. GILLIBRAND. Mr. President, I am proud to support Caitlin Halligan's nomination to the U.S. Court of Appeals for the DC Circuit.

Caitlin Halligan's impeccable career spans public and private practice, similar to that of John Roberts when he was confirmed unanimously to the DC Circuit. Ms. Halligan served as solicitor general of New York, a leading appellate lawyer at Weil, Gotshal & Manges, and currently as general coun-

sel at the New York County district attorney's office, which investigates and prosecutes 100,000 criminal cases annually.

She clerked for Supreme Court Justice Breyer and Judge Patricia Wald on the DC Circuit. The ABA's Standing Committee on the Federal Judiciary unanimously rated Ms. Halligan "well qualified" to serve on the DC Circuit.

Ms. Halligan has support from across the political spectrum, including Miguel Estrada, Carter Phillips, and officials in Democratic and Republican administrations. Twenty-three former U.S. Supreme Court clerks, the National District Attorneys Association, the National Conference of Women's Bar Associations, and the U.S. Women's Chamber of Commerce are supporting her nomination.

New York City police commissioner Ray Kelly has said Ms. Halligan has three qualities that are important for a nominee—intelligence, judicial temperament, and personal integrity.

Unfortunately, it appears some of my colleagues are determined to criticize Caitlin Halligan regardless of the facts.

One of the criticisms of Ms. Halligan is positions she advocated for while serving as solicitor general. She filed briefs at the direction of New York's attorney general and argued on behalf of the State. That was her job. She was not promoting her personal views.

Ms. Halligan testified she would faithfully follow and apply the Supreme Court's precedent from *Heller* and *McDonald*. When asked whether the rights conferred under the second amendment are fundamental, she answered: "That is clearly what the Supreme Court held, and I would follow that precedent."

Let me also address the workload concerns brought up by some of my fellow Senators. There are currently only eight active judges on the DC Circuit, making it one-quarter vacant. Miss Halligan has been nominated to fill the ninth seat—one of three current vacancies on the court. The Senate confirmed four of President Bush's nominees for the DC Circuit; however, the court's caseload is higher now than it was when President Bush's nominees were confirmed. If Ms. Halligan was confirmed today, it would reduce the caseload from its current level of 161 cases to approximately 143 cases per judge.

Women have been woefully underrepresented by the DC Circuit, often characterized as the second most important court in our entire Nation. Only 5 of the 57 judges serving throughout the history of the DC Circuit have been women. Ninety-one percent of the judges on this court throughout its 41-year history have been men.

If we continue down this road of filibustering nominees simply because their nomination originates across the aisle, we will establish an impossible standard that no nominee could or would ever meet.

Caitlin deserves an up-or-down vote, just as the Republicans advocated for

their past judicial nominees. The bottom line is that there is no credible opposition to her nomination or her confirmation. Caitlin Halligan has distinguished herself throughout her career. She has established a commitment to fairness, reasoned intellect, steadfast integrity, and profound respect for the law.

I look forward to supporting Caitlin Halligan's confirmation to the U.S. Court of Appeals for the District of Columbia, and I urge my fellow colleagues to support her nomination.

NOMINATION OF JAMES RODNEY GILSTRAP

• Mrs. HUTCHISON. Mr. President, I am pleased today to support the nomination of Mr. James Rodney Gilstrap to serve as a Federal district judge for the Eastern District of Texas in Marshall, TX.

Mr. Gilstrap attended Baylor University where he graduated magna cum laude with a bachelor of arts degree in religion. Following his graduation, Mr. Gilstrap continued his studies at Baylor University Law School, where he served as associate editor of the Baylor Law Review and received his juris doctor in 1981.

Mr. Gilstrap began his professional career in Marshall, TX, where he still resides today. In August of 1989, Mr. Gilstrap was appointed county judge of Harrison County and was then elected to the same position for the next three terms. In 2002, he retired as a county judge and returned to private practice at Smith & Gilstrap, where he still practices today.

Mr. Gilstrap has earned the respect and esteem of the legal community he has served and his professional credentials will continue the strong history of the Federal bench in Texas.

Mr. Gilstrap's impressive career is complemented by his dedication to his community. In addition to serving for years as county judge, Mr. Gilstrap has served on the board for the Harrison County Historical Society, the United Way for Harrison County, and the Trinity Episcopal Day School. He also served for 16 years on the Courthouse Preservation Council to help with the renovation of the Marshall courthouse that was completed in 2009. Mr. Gilstrap's passion for his work and his community will be a tremendous asset to the Marshall bench.

I join his family in congratulating him on all his outstanding accomplishments: his wife Sherry Sullivan Gilstrap, his daughter Lauren, who is continuing her medical studies at Harvard Medical School, and his son Stephen, who graduated from Yale Law School this year.

I am pleased to recommend his confirmation to my colleagues. •

NOMINATION OF CAITLIN HALLIGAN

Mrs. FEINSTEIN. Mr. President, I rise to speak on the nomination of Caitlin Halligan to be U.S. Circuit Judge for the D.C. Circuit Court of Appeals.

As the first woman to serve on the Senate Judiciary Committee—a com-

mittee on which I have served for 18 years—it is my great pleasure to speak in support of Ms. Halligan, who has excelled at every turn during her distinguished legal career.

She graduated cum laude from Princeton University in 1988. She received her law degree, magna cum laude, from Georgetown University Law Center, where she was managing editor of the Georgetown Law Journal and inducted into the Order of the Coif.

She began her legal career with a clerkship with Judge Patricia Wald on the U.S. Court of Appeals for the D.C. Circuit—the first woman to serve on that Court.

She then spent a year in private practice at the Washington, DC firm, Wiley, Rein, and Fielding, followed by a clerkship with Supreme Court Justice Stephen Breyer.

After another year in private practice, Ms. Halligan began work in the office of the Attorney General of the State of New York, first as Chief of the Internet Bureau.

She rose to become Solicitor General of the State of New York, the State's top appellate lawyer. She served in that role from 2001 through 2007.

During nearly all of Ms. Halligan's time as Solicitor General, George Pataki—a Republican—was Governor. Her job was to represent the State of New York zealously, and by all accounts she did so with skill and dignity.

Judith Kaye, the former Chief Judge of New York's highest court, writes on behalf of the Court's entire bench that “it was invariably a treat” to have Ms. Halligan argue before the Court.

In fact, the National Association of Attorneys General awarded Ms. Halligan the “Best Brief Award” for five consecutive years, 2001, 2002, 2003, 2004, and 2005.

Ms. Halligan left the Solicitor General post in 2007 to become the head of the appellate practice at the prestigious New York law firm, Weil, Gotshal, and Manges.

She has now returned to public service as the General Counsel of the New York County District Attorney's Office—one of the largest prosecutor's offices in the country.

Over the course of her distinguished career, Halligan has served as counsel for a party or amicus in the Supreme Court more than 45 times.

She has argued in the Supreme Court herself in five cases, most recently in March of this year. She also has argued or participated in numerous other cases before State and Federal appellate courts, including the New York Court of Appeals and the U.S. Court of Appeals for the Second Circuit.

In short, Ms. Halligan is an accomplished woman whose sterling qualifications for the bench are unassailable.

Ms. Halligan was first nominated more than 14 months ago. She was approved by the Senate Judiciary Committee nearly 9 months ago. She has

been waiting for an up-or-down vote on the floor ever since.

It is an unfortunate sign of the times that my colleagues on the other side have held up her confirmation.

I understand that the National Rifle Association is opposed to Ms. Halligan's confirmation.

Behind the NRA's opposition is the fact that, while she was New York's Solicitor General, the State of New York pursued public nuisance litigation against gun manufacturers.

Think about that—any time a person represents a State or local government, or the Federal Government, and takes a controversial position, that may jeopardize a later confirmation vote.

That is not fair. A government lawyer's job is to pursue the government's interest vigorously and to do justice.

Ms. Halligan was appointed by the Attorney General to represent the State of New York, while the State had a Republican Governor, George Pataki. Her job was to advance New York's interest, and she did so with vigor. She should not be penalized for it.

Senator SESSIONS made this point when the Senate was considering Judge Kavanaugh's nomination. He said that “[s]uggesting that service in an elective branch of Government somehow tarnishes a lawyer's reputation would be a terrible message for this body to send to the legal community and to all citizens.”

I couldn't agree more.

My Republican colleagues might also say that the D.C. Circuit's caseload does not support another judge, but they have short memories.

There are now three vacancies on the D.C. Circuit. That means that Ms. Halligan would only fill the ninth seat, out of 11 on the Court. Two seats would remain vacant.

However, my colleagues were not so concerned about this issue when President Bush's appointees were before the Senate. In fact, my Republican colleagues supported filling the 10th seat on the Court twice, and the 11th seat once.

I will conclude by simply saying that Ms. Halligan is a woman with sterling credentials, an exemplary record, and a wealth of experience.

She is President Obama's first and only nominee to the D.C. Circuit. She should be confirmed.

NOMINATIONS OF EDGARDO RAMOS AND ANDREW CARTER, SDNY

Mr. SCHUMER. Mr. President, today I rise to support two outstanding nominees to the federal bench in the Southern District of New York.

Over the years, I have had the great good fortune to support many outstanding candidates to the federal bench.

Rarely, however, have I come across two nominees who are as qualified, in every possible way, to be federal judges as Edgardo Ramos and Judge Andrew Carter.

Ramos is the quintessential example of the American dream—he was born in

Puerto Rico and was 1 of 7 children raised by a single mother in Newark, NJ. He excelled in school, earning his bachelor's degree from Yale and his law degree from Harvard.

After graduating, he was an associate at the New York firm Simpson, Thatcher & Bartlett, and then served for 10 years as an Assistant U.S. Attorney in the Eastern District of New York, including as Deputy Chief of the Narcotics Section. Since 2002, he has been a partner in the New York law firm Day Pitney. Ramos has earned an outstanding reputation among his fellow lawyers, prosecutors, and judges and in the Hispanic community. I have complete confidence that he will make an excellent judge.

Magistrate Judge Andrew Carter was born in Albany, GA and he came to New York after graduating from the University of Texas at Austin and Harvard Law School. After law school, he worked for two years at the Ford Foundation and became a public defender in New York courts, both state and federal. He spent nine years at the New York office of the Legal Aid Society, and then four years at the Federal Defenders of New York.

Since 2009, he has served as a United States magistrate judge in the Eastern District of New York, a position for which he was selected by a vote of the sitting district judges. And that is terrific training to be a Federal judge. Judge Carter is widely respected as a fair and mild-mannered magistrate judge who understands the courtroom and the needs of litigants.

Both Ramos and Judge Carter embody the three criteria that I look for in a federal judge—excellence, moderation, and diversity.

Both have consistently risen to the top, academically and professionally.

Both are entirely non-ideological—they are lawyers who are respected by all of their peers, and who have approached the law with respect and humility.

And, both increase the diversity of a bench that serves one of the most diverse populations in the country. I have always said that, all other things being equal, diversity of backgrounds, experience, and ethnicity is an important consideration for federal judges. So, I am pleased to have recommended two nominees to the federal bench who are outstanding in every way.

The bench of the Southern District of New York has been one of the hardest hit by judicial vacancies—currently, 21 percent of its seats are open. With the addition of Edgardo Ramos and Judge Andrew Carter, this important court will be closer to firing on all cylinders.

I look forward, with all New Yorkers, to their joining the bench.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant editor of the Daily Digest proceeded to call the roll.

Mr. LEAHY. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. LEAHY. Mr. President, we are soon going to a rollcall vote on Edgardo Ramos, of Connecticut, to be U.S. district judge for the Southern District of New York. We also have three others on here: Andrew L. TRIBUTE TO PEGGY BULGER

Mr. REID. Mr. President, Dr. Peggy A. Bulger will retire at the end of December after more than 12 years of service to the Library of Congress. As the Director of the Library's American Folklife Center, Dr. Bulger has worked to preserve our Nation's history for future generations.

Dr. Bulger began her service as Director of the American Folklife Center in 1999. She is the second person to hold the position since the Folklife

Center was established in 1976. The American Folklife Preservation Act states “that the diversity inherent in American folklife has contributed greatly to the cultural richness of the Nation and has fostered a sense of individuality and identity among the American people.” I couldn’t agree more. Dr. Bulger has worked to preserve the unique nature of American folklife for future generations.

During her tenure, the center’s archive has tripled. With more than 5 million items, it is the largest ethnographic archive in the United States and possibly the largest in the world. The collection is a treasure trove of American creativity that is reflected through music, stories, crafts, dances, foodways, and other forms of traditional expression.

I am particularly proud that under her leadership the Folklife Center developed and expanded the Veterans History Project. The project contains more than 78,000 pieces of war-time memories and experiences from Americans across our country. The Veterans History Project has become the largest oral history project in our Nation’s history, and it will all be preserved for generations at the Library of Congress.

The Folklife Center also uses the latest technology to share its holdings via online presentations, as well as through webcasts and social media. As a result, students in Nevada and other States can access the Folklife Center’s collections from their homes, classrooms, and others venues.

It is also important to note that Dr. Bulger and her colleagues have provided advice and support to struggling cultural programs during these difficult economic times. In my home State, for example, the center has served the Western Folklife Center in Elko as well as the Nevada Humanities. The assistance to Nevada’s arts and cultural organizations has been invaluable as my State has weathered the economic recession.

I am proud to recognize Peggy Bulger, and I appreciate her important contributions to the American Folklife Center. I know I speak for the Senate when we wish you the best in your future endeavors.

DEFENSE AUTHORIZATION

SECTION 647

Mr. KOHL. Mr. President, I understand there has been some confusion about the application of section 647 of the National Defense Authorization Act for Fiscal Year 2008, which is codified in 10 U.S.C. 12731(f). This law reduces the eligibility age for retired pay for non-regular service, to provide a benefit to Reserve component members called to Active Duty in support of a contingency operation. Mr. President, 10 U.S.C. 101(a)(13)(B) defines contingency operation to include section 688 relating to the ordering of retired members to Active Duty but does not include section 688a, added in response

to 9/11 and relating to the ordering to Active Duty of retired members in high-demand, low-density assignments.

I filed an amendment to resolve this inconsistency by including mobilizations under section 688a to qualify for earlier receipt of Reserve retired pay under 10 U.S.C. 12731(f). However, I would withdraw my amendment if we can clarify that the provisions of 10 U.S.C. 12731(f) should include mobilizations under 10 U.S.C. 688a.

I ask the chairman of the Armed Services Committee whether he understands that Reserve retirees recalled to Active Duty in support of a contingency operation should qualify for earlier receipt of reserve retired pay under section 12731(f).

Mr. LEVIN. I agree that the authorities allowing for earlier receipt of Reserve retired pay should apply to members of the retired Reserve called to Active Duty in support of a contingency operation to the same extent it applies to other members of the reserves.

Mr. KOHL. I agree with the chairman.

TRIBUTE TO FREDERICK M. KAISER

Mr. AKAKA. Mr. President, I rise today to recognize Frederick M. Kaiser, who retired from the Congressional Research Service, CRS, on November 3, 2011.

Mr. Kaiser, a former Specialist in American National Government at CRS, was an authority on congressional oversight issues of great importance to the Congress.

Mr. Kaiser’s career in service to Congress began in the summer of 1974, when he worked as a special staff consultant to the House Committee on Foreign Affairs, chaired by Representative Thomas E. “Doc” Morgan of Pennsylvania. At the request of Chairman Morgan, Mr. Kaiser conducted an evaluation of the committee’s oversight activities, which was subsequently published by the committee. This early focus on congressional oversight foretold key aspects of Mr. Kaiser’s CRS career.

Mr. Kaiser began his employment with CRS on February 18, 1975, where he was given responsibility for the subjects of general congressional oversight, congressional oversight of foreign policy, and the authority and role of the General Accounting Office, which is now known as the Government Accountability Office, GAO. These are subjects on which Mr. Kaiser has advised Congress throughout his career. As a result of his high-quality work in service to the Congress, Mr. Kaiser quickly earned the title of Specialist in American National Government just 6 years after joining CRS. Mr. Kaiser continued his high level of service throughout his career, and his areas of expertise gradually expanded. He was regularly recognized for his service to Congress through special

achievement awards and other recognition.

Mr. Kaiser produced hundreds of CRS publications; testified before congressional committees and commissions; and organized policy institutes, workshops, and other policy discussions for congressional staff. Over the course of his career, Mr. Kaiser developed a reputation among colleagues for being supportive and generous in sharing his knowledge and insights.

Mr. Kaiser was regularly at the forefront of emerging legislative issues. As the possibility of organizing Federal homeland security functions into a new department began to develop, Mr. Kaiser undertook studies of agencies that might be included in a new department. As Congress considered the Help America Vote Act, he contributed his expertise on the organization of agencies that might be established to carry out the purposes of the act. Mr. Kaiser’s analysis and insights were important to informing successful efforts to improve GAO’s ability to support congressional oversight of the intelligence community. In February 2008, Mr. Kaiser testified on congressional oversight of the intelligence community before the subcommittee I chair, the Subcommittee on Oversight of Government Management, the Federal Workforce, and the District of Columbia, of the Homeland Security and Governmental Affairs Committee. In his testimony, as well as separate research conducted for the subcommittee, he examined the importance of intelligence community oversight, congressional structures for conducting such oversight, and options for enhancing oversight.

Other examples of Mr. Kaiser’s writing and briefings in the area of congressional oversight of the intelligence community include analyses of proposals for a joint intelligence committee, organizational reform of the House Intelligence Committee, intelligence community whistleblower protection, unauthorized disclosure of classified information, and use of classified information by Members of Congress. Mr. Kaiser also advised Congress on creation of the 9/11 Commission and on implementation of its recommendations, particularly concerning the Commission’s authority and recommendations related to the intelligence community.

Mr. Kaiser has been a leading authority on the management and oversight of the executive branch. Mr. Kaiser analyzed the Government Performance and Results Act, private citizens’ complaint-handling mechanisms, postal reorganization, audit institutions in other nations, statutory inspectors general, privatization of government background investigations, and security clearances. He also authored, with other selected CRS specialists, the Congressional Oversight Manual. The 1993 bipartisan House Joint Committee on the Organization of Congress noted the value of this publication, stating:

“As a way to further enhance the oversight work of Congress, the Joint Committee would encourage the Congressional Research Service to conduct on a regular basis, as it has done in the past, oversight seminars for Members and congressional staff and to update on a regular basis its Congressional Oversight Manual.” Mr. Kaiser contributed the chapter on congressional-executive relations to the final report of the Joint Committee on the Organization of Congress.

Mr. Kaiser sought to enhance public understanding of the Federal Government as well. He wrote the introductory-level CRS report “American National Government: An Overview,” which explains the American national government structure. He also served as project coordinator for updates of Congress’s booklet on the Federal Government for the American people, “Our American Government.”

Finally, Mr. Kaiser has been a respected member of the academic community, and he has participated in numerous symposia; served as an adjunct professor at American University and the University of Maryland; and consulted with the Congress, the Department of State, and the Agency for International Development on democratic institution building in emerging democracies. Mr. Kaiser’s work has also appeared in numerous journals, including the *Administrative Law Review*, *Annals of the American Academy of Political and Social Science*, and the *International Journal of Intelligence and Counterintelligence*, and he has contributed to the *Encyclopedia of the American Presidency* and the *Encyclopedia of the U.S. Congress*.

As chairman of the subcommittee, I thank Mr. Kaiser for his dedication, professionalism, and lifetime of service to the Congress and our Nation. I wish him the best in retirement with his wife Carol and their children and grandchildren, and I am confident Congress, CRS, and the academic and professional community will continue to benefit from Mr. Kaiser’s research and analysis for many years to come.

TRIBUTE TO GENERAL PETER W. CHIARELLI

Mr. AKAKA. Mr. President, on behalf of myself and my Army Caucus co-chair, the senior Senator from Oklahoma, Mr. JIM INHOFE, I rise to congratulate GEN Peter W. Chiarelli, the 32nd Vice Chief of Staff of the Army, on his monumental contributions to our national security over the course of his distinguished 39-year career.

Throughout his career, General Chiarelli has been the consummate soldier’s soldier. His career is distinguished by excellence in command of troops from platoon to corps. General Chiarelli is known for his having an open mind and for his candor while addressing the issues affecting the Army today. He is a tremendous advocate for soldiers both within the Pentagon and

here on Capitol Hill. His advice, counsel, and friendship have been very valuable to us as Army Caucus cochairs, and he will be sorely missed. Who he is today though began being shaped many years ago.

After his graduation from Seattle University in 1972, Pete married his sweetheart, Beth, went to the Basic Course, and reported to his first assignment in the 9th Infantry Division at Fort Lewis, WA. After his time there, the Army offered him a job teaching at West Point, where he taught cadets in the distinguished Social Science Department.

In 1985, he graduated from the Naval Command and Staff College and returned to leading soldiers, this time in Germany with the 3rd Armored Division—the same division in which his father, also Pete Chiarelli, earned the Silver Star for heroism and a battlefield commission in 1945 as a tanker in World War II. It seems that character runs in the Chiarelli family. While in Germany, General Chiarelli showed his battlefield prowess—under his guidance, the U.S. tank crews won NATO’s distinguished Canadian Army Trophy for the nation with the best tankers.

After his success in Germany, he moved back to Washington in 1990, where took command of the 2nd Battalion, 1st Infantry Regiment, in the 9th Infantry Division. Following his time in command of the 2nd Battalion, he was sent to the prestigious National War College here in Washington, DC, and then to the 1st Cavalry Division at Fort Hood, TX, to serve as the operations officer. He continued to impress his peers and his superiors and was selected to return to his home State of Washington to command the 3rd Brigade of the 2nd Infantry Division at Fort Lewis.

In 1998, following his successful brigade command, he was hand-selected to be the executive officer to the Supreme Allied Commander Europe in Belgium, where he served for 2 years before heading back to the 1st Cavalry Division to be the assistant division commander in 2000. When the Nation was attacked on September 11, 2001, then-Brigadier General Chiarelli was serving in the Pentagon on the Army staff, where he played a key role in mobilizing Army forces for the wars in Iraq and Afghanistan. He was promoted to major general in 2003 and assumed command of the 1st Cavalry Division.

Over the next several years, General Chiarelli would spend the majority of his time deployed in support of Operation Iraqi Freedom. He served in Baghdad from 2003 to 2005 as the commander of Multi-National Division—Baghdad. At this time, Baghdad served as the center of gravity for Operation Iraqi Freedom. General Chiarelli was given the difficult task of maintaining order in this sprawling city of 7 million people. During his command, General Chiarelli was instrumental in developing several innovations that contributed to our success in Iraq. Chief

among these were job-creating civil service projects. His commitment to using “money as a weapons system” brought stability and saved the lives of Americans and Iraqis alike.

In 2006, General Chiarelli was given command of all troops in Iraq, totaling 160,000 at that time. As the commander of the Multi-National Corps-Iraq, he continued to innovate, pushing his troops to adopt practices that protected the populace even as they destroyed the insurgent networks. His time as the commander of day-to-day operations in Iraq was, perhaps, the most difficult period of our operations there, but General Chiarelli’s performance garnered the highest praise of then-Secretary of Defense Robert Gates.

After 5 years in Iraq, General Chiarelli earned his fourth star and was selected as the 32nd Vice Chief of Staff of the Army, an honor that speaks to the confidence that his superiors and peers had in his abilities. As the “Vice,” General Chiarelli is responsible for the day-to-day operations of the Army staff and its responsibility to man and equip the world’s greatest Army.

In this capacity, he has excelled on many fronts. He has been the military’s principal advocate for caring for our veterans with psychological health issues such as post-traumatic stress and traumatic brain injury. These “invisible wounds” affect thousands of our soldiers, sailors, airmen, and marines, who have deployed to Iraq and Afghanistan. His 2010 report entitled “Health Promotion, Risk Reduction, Suicide Prevention” was an effective call to action for leaders at the tactical level within the Army. This transparent and forthright self-evaluation of the Army’s small-unit leadership contained 45 hard-hitting pages of conclusions and recommendations, and we have been pleased with the general’s progress at following up with those.

As the Nation focuses on deficit reduction and budget cuts, General Chiarelli has been an important voice urging leaders to carefully consider the options. In testimony before both Chambers of Congress, he has advocated measured, strategy-based decisions that would meet budgetary needs, while maintaining a force that balances end-strength and capabilities.

Throughout all this important work, General Chiarelli is widely recognized as one of the most genuine and personable senior leaders in the military. One widely repeated anecdote is applicable here. While at a dinner at the White House in February 2011, General Chiarelli was passing behind another distinguished guest who, having seen his uniform pants and nothing more, asked him to refill her wine glass. The woman almost immediately recognized her error and was understandably mortified. Rather than be angry or embarrassed, General Chiarelli, as the second-ranking officer in the most powerful Army in the world, graciously filled

the glass. That speaks a lot about the character of the officer about whom we are speaking today.

Mr. President, we both extend our heartfelt thanks to GEN Pete Chiarelli, to his wife Beth, and to his children and their families for their lifetime of service to the Nation. Words cannot characterize properly the extraordinary character of General Chiarelli's accomplishments.

The Nation thanks him and wishes him success and happiness in all his future endeavors.

HONORING REGINALD COOPER AUGUSTINE, JR.

Mr. KIRK. Mr. President, I rise in tribute to an American hero and Illinois resident who was laid to rest at Arlington National Cemetery on December 2.

Reginald Cooper Augustine, Jr. was born on October 12, 1913 in Decatur, IL. His parents, Reginald and Pauline, were prominent members of the community, both serving at different times on the Decatur school board.

Reginald was an all American kid growing up in Illinois during the Great Depression. As a teenager in the 1920s, he spent his Saturdays at the silent moving pictures. In junior high, he spent a year delivering the Decatur Herald—getting up every morning at 3 a.m. and returning to bed by 5 a.m. During high school, he played football and participated in the school band, while also working at the Biflex Bumper Company.

After graduating from Decatur High School in 1931, Reginald attended Northwestern University as a member of the third entering class of Austin Scholars. This program, launched in September 1929, provided full room, board, and tuition for 4 undergraduate years, plus a year of all-expenses paid study and travel abroad. He received his bachelor's degree from Northwestern in 1935, with a major in Latin and a minor in German. These language skills proved pivotal in the direction of the rest of his life.

After college, Reginald spent 16 months touring Europe and North Africa on a Harley-Davidson motorcycle that he acquired in Rotterdam, perfecting his knowledge of German, French, Italian, Dutch, and Spanish. During an extended stay in Germany, he witnessed a Nazi party rally in Heidelberg that he later described as akin to a Fourth of July celebration with scarlet swastika banners and leather-booted storm troopers. He returned to the U.S. in late September 1937, never forgetting what he had witnessed.

The Selective Service Act of 1940 required all U.S. residents between the ages of 21 and 35 to register, and in 1940, Mr. Augustine was 27. He was to be drafted in February, 1942, but after the Japanese Empire bombed Pearl Harbor, he went straight to the enlistment center in Peoria to sign up and serve his country in the U.S. Army Air Corps.

During the Second World War, Mr. Augustine was selected to join an elite detachment of linguists, spies and scientists by COL Boris Pash, who headed a mission code-named Alsos. This mission was led by LTG Leslie R. Groves under the Manhattan Project. Groves suspected German physicists were engaging in a similar nuclear program and feared that they would complete a bomb first. The Alsos mission was tasked with determining whether the Nazis had developed an atomic bomb. Mission operatives moved into newly liberated areas just behind advancing Allied lines to find Nazi scientists, capture and interrogate them, as well as confiscate and secure stocks of refined uranium that were urgently needed by the Manhattan Project.

Reginald was selected as an ideal candidate and put in charge of field operations for this elite detachment because of his knowledge of French and German, as well as his extensive experience in Europe. During one operation in search of uranium in September 1944, he and Colonel Pash entered a plant located near Antwerp, Belgium where fighting was still going on between British and German forces. There, they found approximately 70 tons of refined uranium.

Far more difficult was a mission to southern France, which at that time was a dangerous no man's land, occupied by 2 competing resistance movements—one Communist, the other non-Communist. According to Reginald's memoirs, "no British or American forces, and not even any units of the regular French army" were present in the area. As part of a group of 6 Alsos officers, he conducted the negotiations with partisans and officials. At a French arsenal in Toulouse, armed with a Geiger counter, he discovered a major cache of uranium. Reginald, Colonel Pash, and a well-armed U.S. military contingent later returned to remove the uranium by force. Reginald accompanied the shipment of uranium back to the U.S. on a U.S. Navy ship. This uranium was eventually used in the Little Boy bomb dropped on Hiroshima.

Reginald went on many other critical missions, including one to recover the international radium standards from a small eastern German town only hours before it was handed over to Soviet forces. He oversaw the safe transfer of Nazi scientists, as well as American scientists, from one place to another. On one occasion, he found himself face-to-face with a Nazi checkpoint, manned by an armed German crew, but escaped unharmed.

Another mission that Reginald described as "a grand climax to all Alsos operations in the war," was the seizure of a strategic German atomic research center near Stuttgart. Once the area had been secured, he escorted several captured German scientists to American territory, including Otto Hahn, discoverer of the nuclear fission principle, Nobelist Max von Laue, and

physicists Karl Wirtz, Erich Bagge and Carl von Weizsacker.

Robert Norris, author of the 2003 book *Racing for the Bomb: General Leslie R. Groves, the Manhattan Project's Indispensable Man*, noted that "Alsos was one of the most successful intelligence operations of the war."

Reginald was promoted to the rank of captain by the end of the war. He was decorated for his service, including the Bronze Star and Order of the British Empire, which he received personally from King George VI.

After the war, he continued to serve his country for over two decades as a member of the Central Intelligence Agency. This included postings in Munich and Frankfurt during the 1950s and 60s, and to Saigon in 1968.

Reginald Augustine passed away on June 30 at the age of 97 and will be laid to rest today at Arlington Cemetery. He is an example of our nation's Greatest Generation of heroes that grew up during the Depression, responded to their country's call to arms during World War II, and continued to serve during the long Cold War against communism. As President Franklin D. Roosevelt described, "This generation of Americans [had] a rendezvous with destiny."

Mr. Augustine is survived by his wife of 61 years, two daughters, two sons-in-law, and two grandchildren. We owe him and his family, as well as his generation, a debt of gratitude.

HONORING JOHN KATZ

Mr. BEGICH. Mr. President, I rise today to commend the distinguished public service of a true statesman from my State of Alaska, John Katz. At the new year, John will step down as director of the State of Alaska's national office here in Washington, DC, after nearly three decades in that position. John Katz is an Alaska pioneer. He has been a key player in virtually every major public policy decision in Alaska for the past 40 years—and Alaska has only been a State for 52 years. John helped Alaska's transition to statehood in our formative years. He shaped and implemented key congressional laws, including the Alaska Native Claims Settlement Act and the Alaska National Interest Lands Conservation Act.

John laid the foundation for Alaska's robust resource-based economy, which at one point was providing this Nation a quarter of its domestic oil. John has helped transform the Last Frontier into a modern society, bringing basic facilities like water, sewer, and phone service to a territory one-fifth the size of the lower 48 States. Overall, John has helped carefully manage Alaska's often strained relationship with the Federal Government. After working as a high school teacher and coach in Baltimore public schools, John began his long career of service to Alaska when he joined the staff of Alaska Congressman Howard Pollock. My dad, Nick

Begich, succeeded Representative Pollock as Alaska's lone Member of the U.S. House.

In 1971, John became a legislative assistant to then-Senator Ted Stevens. His wise counsel to Senator Stevens would continue until Senator Stevens' tragic passing last year. John worked in Alaska on Native claims issues and as counsel to the Joint Federal-State Land Use Planning Commission. The Commission didn't have a very sexy title, but it crafted important policy about the land management relations between the State and Federal Governments. From 1981 to 1983, John served as commissioner of the Alaska Department of Natural Resources, arguably the most influential agency in Alaska State government. It oversees Alaska's 103 million acres of land and manages the resource base for our economy: oil and gas, mining, forestry, parks, and agriculture. In 1983, John was asked by then-Governor Bill Sheffield to move to Washington to direct the State's office here. It was a position in which he would serve seven different Alaska Governors, as varied politically as Alaska is richly diverse.

Democrats, Republicans, one Alaska Independent—all have relied heavily on John's encyclopedic knowledge of our State and his helping navigating the often choppy waters of Washington. Too often John's mission has been fighting against Federal encroachment into the lives of Alaskans. It is a battle we fight here every day. I, too, have relied on John's wisdom and insight, as mayor of our State's largest city, and now as I serve Alaska in this Chamber. After a distinguished career, John has cited what he called "the increased polarization and deterioration of the public policy process at the Federal level." He says it is the worst he has ever seen in nearly half a century of thankless public service. I am saddened by this turn of events and sad to agree with John about the state of our national discourse.

But I am heartened by John's dedication to the people of Alaska, to tirelessly working each and every day to educate non-Alaskans about the unique challenges and opportunities of our State. I also commend the contributions of John's longtime partner and wife, Sherry, and thank her for her sacrifice on behalf of Alaskans. John will be sorely missed as director of State and Federal relations for the State of Alaska. I only hope that he continues his distinguished service to Alaskans in the next phase of his life—and I wish him all the best.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. KOHL (for himself and Mr. WYDEN):

S. 1942. A bill to amend title 49, United States Code, to improve transportation for seniors, and for other purposes; to the Committee on Banking, Housing, and Urban Affairs.

Mr. KOHL. Mr President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1942

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Senior Transportation and Mobility Improvement Act of 2011".

SEC. 2. FINDINGS.

Congress finds the following:

(1) According to projections from the 2010 decennial census, the number of individuals in the United States who are 65 years of age or older will increase from 40,000,000 in 2010 to 72,000,000 in 2030. Yet, a 2004 report by the Surface Transportation Policy Project found that more than 1 in 5 (or 21 percent) of individuals who are 65 years of age or older do not drive.

(2) According to a 2011 report by the National Association of Area Agencies on Aging, inadequate transportation options for older adults has emerged as the second greatest challenge identified by communities during the 5-year period ending in 2011.

(3) According to a 2004 report by the Surface Transportation Policy Project, more than ½ of seniors who are 65 years of age and older (numbering 3,600,000 individuals) who no longer drive due to a decline in health, stay at home on any given day partially because they lack transportation options. Alternatives to driving are particularly sparse in some regions and in rural and small town communities.

(4) According to a 2004 report by the Surface Transportation Policy Project, compared with older drivers, older non-drivers in the United States make 15 percent fewer trips to the doctor, 59 percent fewer shopping trips, and 65 percent fewer trips for social, family, and religious activities.

(5) In 2009, the program under section 5310 of title 49, United States Code, provided more than 43,000,000 rides to older adults and people with disabilities.

(6) Access to mobility management services help transit and human services systems meet the needs of older adults and people with disabilities. This person-centered strategy helps individuals and families review available transportation options and support their decisions regarding the transportation options that are best suited to their circumstances, preferences and mobility needs.

By Mr. CASEY:

S. 1944. A bill to create jobs by providing payroll tax relief for middle class families and businesses, and for other purposes; read the first time.

Mr. CASEY. Mr. President, I am here to speak about legislation I am introducing today that will prevent a huge tax hike from hitting working families across America and in Pennsylvania.

As the clock continues to tick down, it is imperative we come together—Democrats and Republicans, Members of both parties, in both Chambers—and pass legislation to provide more take-home pay by cutting the payroll tax, as we did in 2010.

The legislation I am introducing is a compromise offer designed to bridge the gap and to get at least 60 votes in the Senate.

The legislation is fully paid for and includes measures that have received bipartisan support in the past. We can no longer afford to jeopardize middle-income Americans in order to protect the wealthiest few across our country.

This legislation will help working families by extending the current payroll tax cut and expanding that cut to a 3.1-percent level—a 3.1-percent reduction in the payroll tax. In essence, what we are talking about is cutting the payroll tax in half as it relates to employees.

Small businesses will benefit from this legislation by benefiting directly from the additional money in the pockets of Americans across the country.

Those with incomes above \$1 million should help in carrying a portion of this burden, and that is why the surtax is still in this legislation, but the surtax will now be only 1.9 percent, compared to the 3.25-percent in an earlier version of my legislation.

In addition, I have offered a few more offsets that have received bipartisan support.

The bottom line is—just as the first bill was that I offered—this legislation is indeed paid for.

The tax cut is key and an essential ingredient to job creation and economic growth in 2012. Economists and forecasters—from Moody’s Analytics to RBC Capital Markets, to Barclay’s Capital, to Macroeconomic Advisers—have all emphasized that the tax cut will accelerate growth in 2012. Without it, economic growth will slow and job creation will take a hit.

Mark Zandi, of Moody’s Analytics, has said that without the payroll tax cut for 2012, “we’ll likely go into recession.”

Congress should act quickly to expand tax relief and remove the uncertainty for working families in this holiday season about whether their taxes

will go up in the new year. More take-home pay to keep the economy growing is what we need right now—and especially in the year ahead.

I encourage all our colleagues in the Senate, as well as those in the House, to pass this legislation to continue and to expand a cut in the payroll tax.

S. 1945. A bill to permit the televising of Supreme Court proceedings; to the Committee on the Judiciary.

Mr. DURBIN. Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD as follows:

S. 1945

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. AMENDMENT TO TITLE 28.

(a) IN GENERAL.—Chapter 45 of title 28, United States Code, is amended by inserting at the end the following:

“§ 678. Televising Supreme Court proceedings

“The Supreme Court shall permit television coverage of all open sessions of the Court unless the Court decides, by a vote of the majority of justices, that allowing such coverage in a particular case would constitute a violation of the due process rights of 1 or more of the parties before the Court.”.

(b) CLERICAL AMENDMENT.—The chapter analysis for chapter 45 of title 28, United States Code, is amended by inserting at the end the following:

“678. Televising Supreme Court proceedings.”.

By Mr. WHITEHOUSE (for himself, Mr. SESSIONS, Mr. DURBIN, Mr. GRAHAM, Mr. LEAHY, Mrs. FEINSTEIN, Mr. NELSON, of Florida, Mr. BENNET, Mrs. MCCASKILL, and Mr. PRYOR):

S. 1946. A bill to require foreign manufacturers of products imported into the United States to establish registered agents in the United States who are authorized to accept service of process against such manufacturers; to the Committee on Finance.

Mr. WHITEHOUSE. Mr. President, I rise to speak in support of the Foreign Manufacturers Legal Accountability Act of 2011, which I am introducing today with Senator SESSIONS, Senator DURBIN, Senator GRAHAM, Senator LEAHY, Senator FEINSTEIN, Senator NELSON of Florida, Senator BENNET, Senator MCCASKILL, and Senator PRYOR.

This bipartisan bill is an important step in protecting American consumers and businesses from injuries caused by defective products manufactured outside the United States. Those products hurt American consumers—they lead to serious injuries, and even death—and they hurt the American businesses that must deal with angry customers, product recalls, and unusable inventory.

The list of recent examples of Americans injured by defective foreign prod-

ucts is shocking. Sadly, the situation is no better than when we first introduced this legislation in 2009. A recent rash of cases involving children’s toys is particularly chilling because children are so susceptible to the effects of defective products, and because there is no worse nightmare as a parent than seeing harm befall your child, particularly when that harm is preventable.

The following are just a few of the many examples of defective and dangerous toys and children’s products that are being sold to unknowing parents:

On October 27, the Consumer Product Safety Commission announced a settlement with a foreign toy maker because a line of its craft kits contained beads that were, unbelievably, coated with the chemical GHB, also known as “the date-rape drug.” Children who swallowed the beads became comatose, developed respiratory depression, or had seizures. Over 4.2 million of these toys were sold.

A week earlier, a line of wooden peg toys made by a foreign manufacturer were recalled for having small parts that could choke toddlers.

Earlier this year, there was a recall of jewelry marketed to children 12 years old and under because it contained cadmium, which can cause cancer. The cadmium levels in these products were as high as 2,300 times the legal limit in California, where the jewelry was distributed.

Foreign toys have been found to contain dangerous levels of lead. In 2007, a major toy company was forced to recall 18.6 million foreign-made toys for containing lead or dangerous magnets. The same year, another major company had to recall more than 1.6 million foreign-made toys for containing lead. In 2006, a foreign-made, lead-tainted charm bracelet claimed the life of a 4-year-old. The autopsy demonstrated that the charm was 99 percent lead, 1,650 times more than the 0.06 percent lead limit specified in enforcement guidelines for children’s jewelry.

However, it is not just toys and other children’s products that pose risks. In 2008, a contaminated blood thinner from a foreign manufacturer caused severe medical reactions and contributed to numerous deaths. Imported food products from seafood to honey have been contaminated with unthinkable chemicals, including veterinary drugs banned in domestic production, potentially harmful antibiotics, and unapproved food additives. Tens of millions of packages of pet food contaminated with tainted wheat gluten have been recalled. Substandard tires have failed, leading to fatalities. Defective drywall imported from China has been found to contain excessively high levels of sulfur, causing houses to smell like rotten eggs, corroding copper wiring, making expensive appliances fail, causing respiratory or other health problems, and making homes unlivable. Thousands of homes have been affected. I am very pleased that tomorrow Senator PRYOR

will chair an important hearing of the Commerce Committee Subcommittee on Consumer Protection, Product Safety, and Insurance, focusing on this contaminated drywall, and its awful consequences.

At a hearing that I chaired in 2009, the Senate Judiciary Committee Subcommittee on Administrative Oversight and the Courts explored the legal hurdles facing consumers who are injured by defective foreign products and by businesses that find that their foreign partners refuse to honor their contracts. These hurdles allow foreign manufacturers to injure American businesses and consumers with impunity. They also put American manufacturers at a competitive disadvantage since they allow foreign manufacturers to offer cheaper products that do not comply with American safety requirements.

Two major hurdles to proper accountability are the inability to serve process on the foreign manufacturer and the ability of that foreign manufacturer, even if served, to evade the jurisdiction of American courts. Legislation to address these issues is both necessary and appropriate. The Foreign Manufacturers Legal Accountability Act addresses both concerns.

The first problem, the inability to serve process on a manufacturer, essentially means that it is difficult for an American to give a foreign manufacturer the legally required notice that it is the subject of a lawsuit. This sounds like a simple step, and it should be. Unfortunately, however, it is very hard to serve process on foreign companies abroad. Service abroad is complicated by the Hague Convention on the Service Abroad of Judicial and Extra Judicial Documents in Civil and Commercial Matters, to which the United States is a signatory. Under that convention, a complaint must be translated into the foreign language, transmitted to the Central Authority in the foreign country, and then delivered according to the rules of service in the home country of the defendant. This can cause months and even years of delay, not to mention great expense for Americans.

The Foreign Manufacturers Legal Accountability Act will allow Americans to overcome that procedural hurdle by serving legal papers inside the United States on registered agents of foreign manufacturers. The bill requires the heads of Federal Government agencies such as the Food and Drug Administration to pass regulations requiring that foreign manufacturers of products regulated by their agencies register an agent who will accept service of process. It allows regulators to exclude manufacturers who only import a minimal amount of products into the United States. It imposes a minimal burden on foreign manufacturers, since they would only have to appoint one agent to accept service of process for all State and Federal regulatory and civil actions anywhere in the United

States. The bill allows the manufacturer to choose any location for that agent with a “substantial connection to the importation, distribution, or sale” of their products. This clear and straightforward system will allow Americans to commence their lawsuits fairly and promptly, and ensure that foreign manufacturers have proper and fair notice of the proceedings brought against them. It will not conflict with American obligations under the Hague convention, since that convention applies to service of process on foreign manufacturers in their home countries, not in the United States.

The second hurdle, the inability to establish personal jurisdiction over foreign manufacturers, can end a lawsuit against a foreign manufacturer before it even begins. Think about how unfair this is. A foreign manufacturer sells its defective products in the United States, injures American consumers and businesses, and then argues that it is not subject to the courts in the state where the American was injured—in legal parlance, that the courts do not have personal jurisdiction over it. Foreign manufacturers raise this technical legal defense to avoid liability even when serious injuries or even death have been caused by their products—their defective tires, firewalls, exercise equipment, bikes, and toys.

The Foreign Manufacturers Legal Accountability Act will enable injured Americans to surmount this hurdle. It will make clear to foreign manufacturers that by importing their products into the United States and by registering an agent in the United States, they are consenting to the jurisdiction of the courts in the state where their agent is located. By consenting to jurisdiction, the manufacturers will be unable to engage in unnecessary and expensive legislation about technical legal issues and allow courts to settle the merits of disputes. This approach is fair to foreign manufacturers since all American manufacturers are subject to the jurisdiction of the courts of at least one state. This bill therefore complies with the trade principle that we should not subject foreign manufacturers to burdens not already imposed on domestic manufacturers.

Indeed, the Foreign Manufacturers Legal Accountability Act is ultimately about fairness. We all know American manufacturers comply with regulations that ensure the safety of American consumers and businesses. When they fail to do so, they must answer to regulators and are held accountable through the American tort system. Unfortunately, foreign manufacturers are not being held to the same standards—injuring American consumers and businesses, and putting American manufacturers at a competitive disadvantage. We must level the playing field for all manufacturers and provide justice for American consumers and businesses. The Foreign Manufacturers Legal Accountability Act will allow us to make a major step in that direction. It cov-

ers major product categories including consumer goods, drugs, cosmetics, and chemicals, and it requires relevant agencies to study workable approaches to ensure that foreign food producers also are brought within the ambit of the American legal system.

Because of its benefits to consumers, this legislation has the support of several leading consumer groups, including Consumers Union, Consumer Federation of America, U.S. PIRG, and the National Association of Consumer Advocates.

Protecting Americans and holding foreign manufacturers accountable when their products harm American consumers and businesses is a bipartisan issue. Everyone agrees that we should do what we can to keep Americans safe from defective products. So too, I think, do we all agree that American companies should not be at a competitive disadvantage to their foreign counterparts. The Foreign Manufacturers Legal Accountability Act builds on those fundamental agreements. I am grateful to my colleague Senator SESSIONS, and the bill’s other cosponsors, for their hard work on this bill. I know that they all feel the impacts of harmful, defective foreign products in their home states, just as we feel it in Rhode Island.

I look forward to working with my colleagues on both sides of the aisle to see this important legislation passed into law.

(2) **INCREASE DESCRIBED.**—An increase described in this paragraph is one of the following:

(A) An increase in costs that is attributable to economic inflation after September 30, 2011.

(B) An increase in costs that is attributable to compliance with changes in Federal, State, or local laws enacted after September 30, 2011.

(C) An increase in the cost of an advanced extremely high frequency satellite that is attributable to the insertion of a new technology into the satellite that was not built into such satellites procured before fiscal year 2012, if the Secretary determines, and certifies to the congressional defense committees, that insertion of the new technology into the satellite is—

(i) expected to decrease the life-cycle cost of the satellite; or

(ii) required to meet an emerging threat that poses grave harm to the national security of the United States.

(d) **REPORTS.**—

(1) **REPORT ON CONTRACTS.**—Not later than 30 days after the date on which the Secretary enters into a contract under subsection (a), the Secretary shall submit to the congressional defense committees a report on the contract that includes the following:

(G) The process for determining how and when such activities and subprograms would transition to an existing program or be established as a new program of record.

(e) **USE OF FUNDS AVAILABLE FOR SPACE VEHICLE NUMBER 5 FOR SPACE VEHICLE NUMBER 6.**—The Secretary may obligate and expend amounts authorized to be appropriated for fiscal year 2012 by section 101 for procurement for the Air Force as specified in the funding table in section 4101 and available for the advanced procurement of long-lead parts and the replacement of obsolete parts for advanced extremely high frequency satellite space vehicle number 5 for the advanced procurement of long-lead parts and the replacement of obsolete parts for advanced extremely high frequency satellite space vehicle number 6.

(f) **SENSE OF CONGRESS.**—It is the sense of Congress that the Secretary should not enter into a fixed-price contract under subsection (a) for the procurement of two advanced extremely high frequency satellites unless the Secretary determines that entering into such a contract will save the Air Force not less than 20 percent over the cost of procuring two such satellites separately.

Subtitle C—Missile Defense Matters

SEC. 231. ENHANCED OVERSIGHT OF MISSILE DEFENSE ACQUISITION PROGRAMS.

(a) **IN GENERAL.**—Section 225 of the Ike Skelton National Defense Authorization Act for Fiscal Year 2011 (Public Law 111-383; 124 Stat. 4170; 10 U.S.C. 233 note) is amended—

(1) in subsection (d), by striking “each report” and inserting “each of the first three reports”; and

(2) by adding at the end the following new subsection:

“(e) **COMPTROLLER GENERAL ASSESSMENT.**—(1) At the end of each of fiscal years 2012 through 2015, the Comptroller General of the United States shall review the annual reports on acquisition baselines and variances required under subsection (c) and assess the extent to which the Missile Defense Agency has achieved its acquisition goals and objectives.

“(2) Not later than February 15, 2013, and each year thereafter through 2016, the Comptroller General shall submit to the congressional defense committees a report on the assessment under paragraph (1) with respect to the acquisition baselines for the preceding fiscal year. Each report shall include any findings and recommendations on missile defense acquisition programs and accountability therefore that the Comptroller General considers appropriate.”

(b) **REPEAL OF SUPERSEDED REPORTING AUTHORITY.**—Section 232 of the National Defense Authorization Act for Fiscal Year 2002 (10 U.S.C. 2431 note) is amended by striking subsection (g).

SEC. 232. GROUND-BASED MIDCOURSE DEFENSE PROGRAM.

(a) **FINDINGS.**—Congress makes the following findings:

(1) The Ground-based Midcourse Defense (GMD) element of the Ballistic Missile Defense System was deployed initially in 2004 as a contingency capability to provide initial protection of the United States homeland against potential limited long-range missile attacks by nations such as North Korea and Iran.

(2) As the Director of Operational Test and Evaluation has reported, prior to the decision in December 2002 to deploy the system, an operationally representative variant of the Ground-Based Interceptor had not been flight-tested.

(3) As the Department of Defense and the Government Accountability Office have acknowledged, the Ground-based Midcourse Defense system experienced high levels of concurrency in development and deployment, which led to a number of problems. In April 2011, the Missile Defense Agency acknowledged that the system “is still evolving and has not attained a stable configuration between missiles. It is still an ‘operational prototype’ system”.

(4) The Director of Operational Test and Evaluation reported in December 2010 that there have not been enough flight tests of the Ground-based Midcourse Defense system to permit an objective assessment of its operational effectiveness, suitability data remain insufficient, evaluation of survivability remains limited, and a “full end-to end performance assessment is still a minimum of 6 years away”.

(5) As is to be expected from a developmental system, the Ground-based Midcourse Defense system has experienced a number of technical problems in flight tests. Many of these problems have been resolved with further development, as demonstrated in successful flight tests. The system has been under continuous improvement since it was first deployed, but has not yet obtained desired levels of effectiveness, suitability, or reliability.

(6) In 2009, the Secretary of Defense announced that the Department of Defense would refocus efforts on improving the operational capability, reliability, and availability of the Ground-based Midcourse Defense system in order to maintain its ability to stay ahead of projected threats from North Korea and Iran for the foreseeable future.

(7) In February 2010 the Ballistic Missile Defense Review stated the United States is currently protected against limited intercontinental ballistic missile attacks as a result of investments made over the past decade in the Ground-based Midcourse Defense system and reiterated the commitment to improving the operational capability, reliability, and availability of the Ground-based Midcourse Defense System.

(8) The two most recent flight tests of the Ground-based Midcourse Defense system, using the newest Capability Enhancement-2 Exo-atmospheric Kill Vehicle (EKV) design, each failed to achieve the intended interception of a target.

(9) The two most recent flight tests are not indicative of the functionality of the Capability Enhancement-1 Exo-atmospheric Kill Vehicle design, which continues to provide the United States protection against a limited intercontinental ballistic missile attack.

(10) The Missile Defense Agency established a Failure Review Board to determine the root cause of the December 2010 flight-test failure of the Ground-based Midcourse Defense system. Its analysis will inform the proposed correction of the problem causing the flight-test failure.

(11) The Missile Defense Agency plans to design a correction of the problem causing the December 2010 flight-test failure and to verify the correction through extensive modeling and simulation, ground testing, and two flight tests, the first of which will not be an interception test.

(12) Until completing the verification of its corrective action, the Missile Defense Agency has suspended further production of Exo-atmospheric Kill Vehicles to ensure that potential flaws are not incorporated into them, and to permit any corrective action that may be needed to Exo-atmospheric Kill Vehicles at minimal cost and schedule risk.

(13) The Director of the Missile Defense Agency has testified that the Missile Defense Agency has sufficient funding available and planned for fiscal years 2011 and 2012, respectively, to implement the planned correction of the problem causing the December 2010 flight-test failure.

(b) **SENSE OF CONGRESS.**—It is the sense of Congress that—

(1) it is essential for the Ground-based Midcourse Defense element of the Ballistic Missile Defense System to achieve the levels of reli-

ability, availability, sustainability, and operational performance that will allow it to continue providing protection of the United States homeland, throughout its operational service life, against limited future missile attacks from nations such as North Korea and Iran;

(2) the Missile Defense Agency should, as its highest priority, determine the root cause of the December 2010 flight-test failure of the Ground-based Midcourse Defense system, design a correction of the problem causing the flight-test failure, and verify through extensive testing that such correction is effective and will allow the Ground-based Midcourse Defense system to reach levels described in paragraph (1);

(3) before verifying the success of the correction of the problem causing the December 2010 flight-test failure, the Missile Defense Agency should suspend further production of Exo-atmospheric Kill Vehicles to ensure that they will not be deployed with any component or design flaws that may have caused the flight-test failure;

(4) after the Missile Defense Agency has verified the correction of the problem causing the December 2010 flight-test failure, including through the two previously unplanned verification flight tests, the Agency should assess the need for any additional Ground-Based Interceptors and any additional steps needed for the Ground-based Midcourse Defense testing and sustainment program; and

(5) the Department of Defense should plan for and budget sufficient future funds for the Ground-based Midcourse Defense program to ensure the ability to complete and verify an effective correction of the problem causing the December 2010 flight-test failure, and to mitigate the effects of corrective actions on previously planned program work that is deferred as a result of such corrective actions.

(c) **REPORTS.**—

SEC. 233. MISSILE DEFENSE COOPERATION WITH RUSSIA.

(a) **FINDINGS.**—Congress makes the following findings:

(1) For more than a decade, the United States and Russia have discussed a variety of options for cooperation on shared early warning and ballistic missile defense. For example, on May 1,

2001, President George W. Bush spoke of a “new cooperative relationship” with Russia and said it “should be premised on openness, mutual confidence and real opportunities for cooperation, including the area of missile defense. It should allow us to share information so that each nation can improve its early warning capability, and its capability to defend its people and territory. And perhaps one day, we can even cooperate in a joint defense”.

(2) Section 1231 of the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001 (as enacted into law by Public Law 106-398; 1654A-329) authorized the Department of Defense to establish in Russia a “joint center for the exchange of data from systems to provide early warning of launches of ballistic missiles and for notification of launches of such missiles”, also known as the Joint Data Exchange Center (JDEC).

(3) On March 31, 2008, Deputy Secretary of Defense Gordon England stated that “we have offered Russia a wide-ranging proposal to cooperate on missile defense—everything from modeling and simulation, to data sharing, to joint development of a regional missile defense architecture—all designed to defend the United States, Europe, and Russia from the growing threat of Iranian ballistic missiles. An extraordinary series of transparency measures have also been offered to reassure Russia. Despite some Russian reluctance to sign up to these cooperative missile defense activities, we continue to work toward this goal”.

(4) On July 6, 2009, President Barack Obama and Russian President Dmitry Medvedev issued a joint statement on missile defense issues, which stated that “Russia and the United States plan to continue the discussion concerning the establishment of cooperation in responding to the challenge of ballistic missile proliferation. . . . We have instructed our experts to work together to analyze the ballistic missile challenges of the 21st century and to prepare appropriate recommendations”.

(5) The February 2010 report of the Ballistic Missile Defense Review established as one of its central policy pillars that increased international missile defense cooperation is in the national security interest of the United States and, with regard to cooperation with Russia, the United States “is pursuing a broad agenda focused on shared early warning of missile launches, possible technical cooperation, and even operational cooperation”.

(6) at the November 2010 Lisbon Summit, the North Atlantic Treaty Organization (NATO) decided to develop a missile defense system to “protect NATO European populations, territory and forces” and also to seek cooperation with Russia on missile defense. In its Lisbon Summit Declaration, the North Atlantic Treaty Organization reaffirmed its readiness to “invite Russia to explore jointly the potential for linking current and planned missile defence systems at an appropriate time in mutually beneficial ways”. The new NATO Strategic Concept adopted at the Lisbon Summit states that “we will actively seek cooperation on missile defence with Russia”, that “NATO-Russia cooperation is of strategic importance”, and that “the security of the North Atlantic Treaty Organization and Russia is intertwined”.

(7) In a December 18, 2010, letter to the leadership of the Senate, President Obama wrote that the North Atlantic Treaty Organization “invited Russia to cooperate on missile defense, which could lead to adding Russian capabilities to those deployed by NATO to enhance our common security against common threats. The Lisbon Summit thus demonstrated that the Alliance’s missile defenses can be strengthened by improving NATO-Russian relations. This comes even as we have made clear that the system we intend to pursue with Russia will not be a joint system, and it will not in any way limit United States’ or NATO’s missile defense capabilities. Effective cooperation with Russia could en-

hance the overall efficiency of our combined territorial missile defenses, and at the same time provide Russia with greater security”.

(8) Section 221(a)(3) of the Ike Skelton National Defense Authorization Act for Fiscal Year 2011 (Public Law 111-383; 124 Stat. 4167) states that it is the sense of Congress “to support the efforts of the United States Government and the North Atlantic Treaty Organization to pursue cooperation with the Russian Federation on ballistic missile defense relative to Iranian missile threats”.

(9) In a speech in Russia on March 21, 2011, Secretary of Defense Robert Gates cited “the NATO-Russian decision to cooperate on defense against ballistic missiles. We’ve disagreed before, and Russia still has uncertainties about the European Phased Adaptive Approach, a limited system that poses no challenges to the large Russian nuclear arsenal. However, we’ve mutually committed to resolving these difficulties in order to develop a roadmap toward truly effective anti-ballistic missile collaboration. This collaboration may include exchanging launch information, setting up a joint data fusion center, allowing greater transparency with respect to our missile defense plans and exercises, and conducting a joint analysis to determine areas of future cooperation”.

(10) In testimony to the Committee on Armed Services of the Senate on April 13, 2011, Deputy Assistant Secretary of Defense for Nuclear and Missile Defense Policy Bradley H. Roberts stated that the United States has been pursuing a Defense Technology Cooperation Agreement with Russia since 2004, and that such an agreement is necessary “for the safeguarding of sensitive information in support of cooperation” on missile defense, and to “provide the legal framework for undertaking cooperative efforts.” Further, Dr. Roberts stated that the United States would not provide any classified information to Russia without first conducting a National Disclosure Policy review. He also stated that the United States is not considering sharing “hit-to-kill” technology with Russia.

(11) The United States and Russia already engage in substantial cooperation on a number of international security efforts, including nuclear nonproliferation, anti-piracy, counter-narcotics, nuclear security, counter-terrorism, and logistics resupply through Russia of coalition forces in Afghanistan. These areas of cooperation require each side to share and protect sensitive information, which they have both done successfully.

(12) The United States currently has shared early warning agreements and programs of cooperation with eight nations in addition to the North Atlantic Treaty Organization. The United States has developed procedures and mechanisms for sharing early warning information with partner nations while ensuring the protection of sensitive United States information.

(13) Russia and the United States each have missile launch early warning and detection and tracking sensors that could contribute to and enhance each others’ ability to detect, track, and defend against ballistic missile threats from Iran.

(14) The Obama Administration has provided regular briefings to Congress on its discussions with Russia on possible missile defense cooperation.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) it is in the national security interest of the United States to pursue efforts at missile defense cooperation with Russia that would enhance the security of the United States, its North Atlantic Treaty Organization allies, and Russia, particularly against missile threats from Iran;

(2) the United States should pursue ballistic missile defense cooperation with Russia on both a bilateral basis and a multilateral basis with its North Atlantic Treaty Organization allies, particularly through the NATO-Russian Council;

(3) missile defense cooperation with Russia should not “in any way limit United States’ or

NATO’s missile defense capabilities”, as acknowledged in the December 18, 2010, letter from President Obama to the leadership of the Senate, and should be mutually beneficial and reciprocal in nature; and

(4) the United States should pursue missile defense cooperation with Russia in a manner that ensures that—

(A) United States classified information is appropriately safeguarded and protected from unauthorized disclosure;

(B) prior to sharing classified information with Russia, the United States conducts a National Disclosure Policy review and determines the types and levels of information that may be shared and whether any additional procedures are necessary to protect such information;

(C) prior to entering into missile defense technology cooperation projects, the United States enters into a Defense Technology Cooperation Agreement with Russia that establishes the legal framework for a broad spectrum of potential cooperative defense projects; and

(D) such cooperation does not limit the missile defense capabilities of the United States or its North Atlantic Treaty Organization allies.

(c) REPORT.—

(2) ELEMENTS.—The report required under paragraph (1) shall include the following:

(A) A summary of the status of discussions between the United States and Russia, and between the North Atlantic Treaty Organization and Russia, on efforts to agree on missile defense cooperation.

(B) A description of any agreements reached pursuant to such discussions, and any specific cooperative measures agreed, implemented, or planned.

(C) A discussion of the manner in which such cooperative measures would enhance the security of the United States, and the manner in which such cooperative measures fit within the larger context of United States-Russian cooperation on international security.

(D) A description of the status of efforts to conclude a bilateral Defense Technology Cooperation Agreement with Russia.

(E) A description of the status of any National Disclosure Policy Review relative to the possible sharing of classified information with Russia concerning missile defense cooperation.

(3) FORM OF REPORT.—The report required by paragraph (1) shall be submitted in unclassified form, but may include a classified annex.

(4) APPROPRIATE COMMITTEES OF CONGRESS DEFINED.—In this subsection, the term “appropriate committees of Congress” means—

(A) the Committees on Armed Services, Foreign Relations, and Appropriations of the Senate; and

(B) the Committees on Armed Services, Foreign Affairs, and Appropriations of the House of Representatives.

(1) An urgent need exists to transform the United States national security system in order to employ all elements of national power effectively and efficiently to meet the challenges of the 21st century security environment.

(2) The Quadrennial Defense Review Independent Panel emphasized this need in its July 2010 report, writing that “the Panel notes with extreme concern that our current Federal Government structures—both executive and legislative, and in particular those related to security—were fashioned in the 1940s and, at best, they work imperfectly today. . . . A new approach is needed”.

(3) The National Security Strategy–May 2010 calls for such a transformation of the United States national security system through its identification of organizational changes already underway, its recommendation of additional organizational changes to be undertaken, and its commitment to strengthening national capacity through a whole-of-government approach.

(4) The realization of these organizational goals can best be assured by the preparation of a report by the President on progress being made on organizational changes already underway and on an implementation plan for the organizational changes newly recommended in the National Security Strategy.

In mid-2011, the CBI transferred several billion dollars to designated banks, including Saderat, Mellat, EDBI and Melli, through a variety of payment schemes. In making these transfers, the CBI attempted to evade sanctions by minimizing the direct involvement of large international banks with both CBI and designated Iranian banks.”

(3) On November 22, 2011, the Under Secretary of the Treasury for Terrorism and Financial Intelligence, David Cohen, wrote, “Treasury is calling out the entire Iranian banking sector, including the Central Bank of Iran, as posing terrorist financing, proliferation financing, and money laundering risks for the global financial system.”

pursuit of nuclear weapons, support for international terrorism, and efforts to deceive responsible financial institutions and evade sanctions.

(C) **APPLICATION OF SANCTIONS.**—Except as provided in subparagraph (D), sanctions imposed under paragraph (1)(A) shall apply with respect to a financial transaction conducted or facilitated by a foreign financial institution on or after the date that is 180 days after the date of the enactment of this Act for the purchase of petroleum or petroleum products from Iran if the President determines pursuant to subparagraph (B) that there is a sufficient supply of petroleum and petroleum products from countries other

than Iran to permit a significant reduction in the volume of petroleum and petroleum products purchased from Iran by or through foreign financial institutions.

(D) EXCEPTION.—Sanctions imposed pursuant to paragraph (1) shall not apply with respect to a foreign financial institution if the President determines and reports to Congress, not later than 90 days after the date on which the President makes the determination required by subparagraph (B), and every 180 days thereafter, that the country with primary jurisdiction over the foreign financial institution has significantly reduced its volume of crude oil purchases from Iran during the period beginning on the date on which the President submitted the last report with respect to the country under this subparagraph.

TITLE XXXIII—MARITIME ADMINISTRATION

SEC. 3301. MARITIME ADMINISTRATION.

Section 109 of title 49, United States Code, is amended to read as follows:

“§ 109. Maritime Administration

“(a) **ORGANIZATION.**—The Maritime Administration is an administration in the Department of Transportation.

“(b) **MARITIME ADMINISTRATOR.**—The head of the Maritime Administration is the Maritime Administrator, who is appointed by the President by and with the advice and consent of the Senate. The Administrator shall report directly to the Secretary of Transportation and carry out the duties prescribed by the Secretary.

“(c) **DEPUTY MARITIME ADMINISTRATOR.**—The Maritime Administration shall have a Deputy Maritime Administrator, who is appointed in the competitive service by the Secretary, after consultation with the Administrator. The Deputy Administrator shall carry out the duties prescribed by the Administrator. The Deputy Administrator shall be Acting Administrator during the absence or disability of the Administrator and, unless the Secretary designates another individual, during a vacancy in the office of Administrator.

“(d) **DUTIES AND POWERS VESTED IN SECRETARY.**—All duties and powers of the Maritime Administration are vested in the Secretary.

“(e) **REGIONAL OFFICES.**—The Maritime Administration shall have regional offices for the Atlantic, Gulf, Great Lakes, and Pacific port ranges, and may have other regional offices as necessary. The Secretary shall appoint a qualified individual as Director of each regional office. The Secretary shall carry out appropriate activities and programs of the Maritime Administration through the regional offices.

“(f) **INTERAGENCY AND INDUSTRY RELATIONS.**—The Secretary shall establish and maintain liaison with other agencies, and with representative trade organizations throughout the United States, concerned with the transportation of commodities by water in the export and import foreign commerce of the United States, for the purpose of securing preference to vessels of the United States for the transportation of those commodities.

“(g) **DETAILING OFFICERS FROM ARMED FORCES.**—To assist the Secretary in carrying out

duties and powers relating to the Maritime Administration, not more than five officers of the armed forces may be detailed to the Secretary at any one time, in addition to details authorized by any other law. During the period of a detail, the Secretary shall pay the officer an amount that, when added to the officer's pay and allowances as an officer in the armed forces, makes the officer's total pay and allowances equal to the amount that would be paid to an individual performing work the Secretary considers to be of similar importance, difficulty, and responsibility as that performed by the officer during the detail.

“(h) **CONTRACTS, COOPERATIVE AGREEMENTS, AND AUDITS.**—

“(1) **CONTRACTS AND COOPERATIVE AGREEMENTS.**—In the same manner that a private corporation may make a contract within the scope of its authority under its charter, the Secretary may make contracts and cooperative agreements for the United States Government and disburse amounts to—

“(A) carry out the Secretary's duties and powers under this section, subtitle V of title 46, and all other Maritime Administration programs; and

“(B) protect, preserve, and improve collateral held by the Secretary to secure indebtedness.

“(2) **AUDITS.**—The financial transactions of the Secretary under paragraph (1) shall be audited by the Comptroller General. The Comptroller General shall allow credit for an expenditure shown to be necessary because of the nature of the business activities authorized by this section or subtitle V of title 46. At least once a year, the Comptroller General shall report to Congress any departure by the Secretary from this section or subtitle V of title 46.

“(i) **GRANT ADMINISTRATIVE EXPENSES.**—Except as otherwise provided by law, the administrative and related expenses for the administration of any grant programs by the Maritime Administrator may not exceed 3 percent.

“(j) **AUTHORIZATION OF APPROPRIATIONS.**—

“(1) **IN GENERAL.**—Except as otherwise provided in this subsection, there are authorized to be appropriated such amounts as may be necessary to carry out the duties and powers of the Secretary relating to the Maritime Administration.

“(2) **LIMITATIONS.**—Only those amounts specifically authorized by law may be appropriated for the use of the Maritime Administration for—

“(A) acquisition, construction, or reconstruction of vessels;

“(B) construction-differential subsidies incident to the construction, reconstruction, or conditioning of vessels;

“(C) costs of national defense features;

“(D) payments of obligations incurred for operating-differential subsidies;

“(E) expenses necessary for research and development activities, including reimbursement of the Vessel Operations Revolving Fund for losses resulting from expenses of experimental vessel operations;

“(F) the Vessel Operations Revolving Fund;

“(G) National Defense Reserve Fleet expenses;

“(H) expenses necessary to carry out part B of subtitle V of title 46; and

“(I) other operations and training expenses related to the development of waterborne transportation systems, the use of waterborne transportation systems, and general administration.

“(3) **TRAINING VESSELS.**—Amounts may not be appropriated for the purchase or construction of training vessels for State maritime academies unless the Secretary has approved a plan for sharing training vessels between State maritime academies.”

DIVISION D—FUNDING TABLES

SEC. 4001. AUTHORIZATION OF AMOUNTS IN FUNDING TABLES.

(a) **IN GENERAL.**—Whenever a funding table in this division specifies a dollar amount authorized for a project, program, or activity, the obligation and expenditure of the specified dollar

amount for the project, program, or activity is hereby authorized, subject to the availability of appropriations.

(b) MERIT-BASED DECISIONS.—Decisions by agency heads to commit, obligate, or expend funds with or to a specific entity on the basis of a dollar amount authorized pursuant to subsection (a) shall be based on authorized, transparent, statutory criteria, or merit-based selection procedures in accordance with the requirements of sections 2304(k) and 2374 of title 10,

United States Code, and other applicable provisions of law.

(c) RELATIONSHIP TO TRANSFER AND PROGRAMMING AUTHORITY.—An amount specified in the funding tables in this division may be transferred or reprogrammed under a transfer or reprogramming authority provided by another provision of this Act or by other law. The transfer or reprogramming of an amount specified in such funding tables shall not count against a ceiling on such transfers or reprogrammings

under section 1001 of this Act or any other provision of law, unless such transfer or reprogramming would move funds between appropriation accounts.

(d) ORAL AND WRITTEN COMMUNICATIONS.—No oral or written communication concerning any amount specified in the funding tables in this division shall supercede the requirements of this section.
