INTERPOL CBRNE PROGRAMME

ANTHONY J THOMAS
Programme Manager
CBRNE Terrorism Prevention
Programme

INTERPOL

Role of Law Enforcement

- Address *Acts Which Violate Law*
- *Individuals Act*, or Intend to Act - Purpose Varies
- Stop *Individuals Who Do Not Want to be Stopped*
- Find *Facts/Truths* When People Do *Not* Want Them Found
- Doing So in a *Legally Defensible* Way for Presentation in Court, as Deemed Appropriate

INTERPOL Strategic Priorities for the CBRNE Programme

- I. Operational Data Services
- II. Urgent Investigative Support
- III. Capacity Building

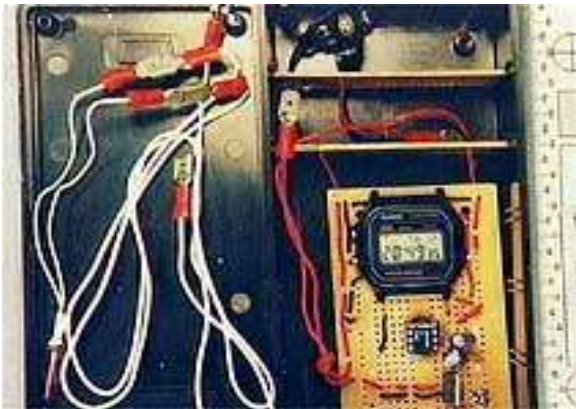

INTERPOL CBRNE Programme Structure

. . . consists of three terrorism prevention units:

Bioterrorism Unit (BioT)

Radiological and Nuclear Unit (RadNucT)

Chemical and Explosives Unit (ChemEx),
in formation at this time.

Goals of an Effective Police CBRNE Programme

1. Prevention of Initial Attack
2. Address Attack
3. Prevent Follow-on Attacks
4. Bring Conspirators and Perpetrators to Justice in Appropriate Court

*Criminal Legal Procedure and Rules of Evidence Must be Considered From the Outset of an Operation, if Prosecution is Desired.

INTERPOL

INTERPOL

Intelligence

- Specialized Databases covering CBRNE incidents Around the World
- Conducting CBRNE Threat and Risk Assessments
- Delivering Robust Analytical Products to All Member Countries
- Information Sharing and Joint Efforts in Partnerships

INTERPOL

Prevention

- Prevention must be emphasized
- High cost programs
+
Other priorities
for national police
=
This is where **INTERPOL** can
help

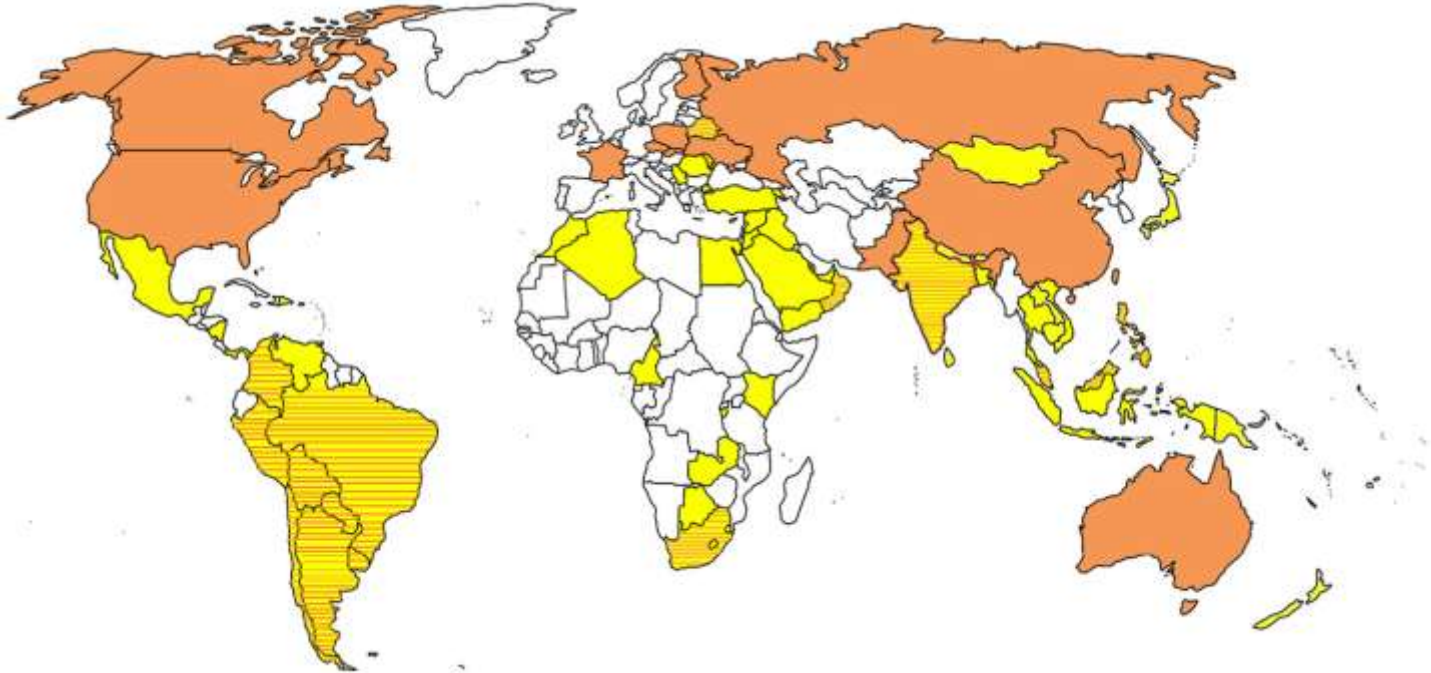

INTERPOL

Investigation & Operations

- A CBRNE Investigation Requires Both **Personnel** with Expertise and Specialized **Materiel**
- INTERPOL provides CBRNE Investigation Expertise to Investigators Around the World
- A Robust Response Capability paves the way for an *Effective* CBRNE Investigation

Capacity Building and Training

Countries that participated in TTX session

Countries that participated in TTT session

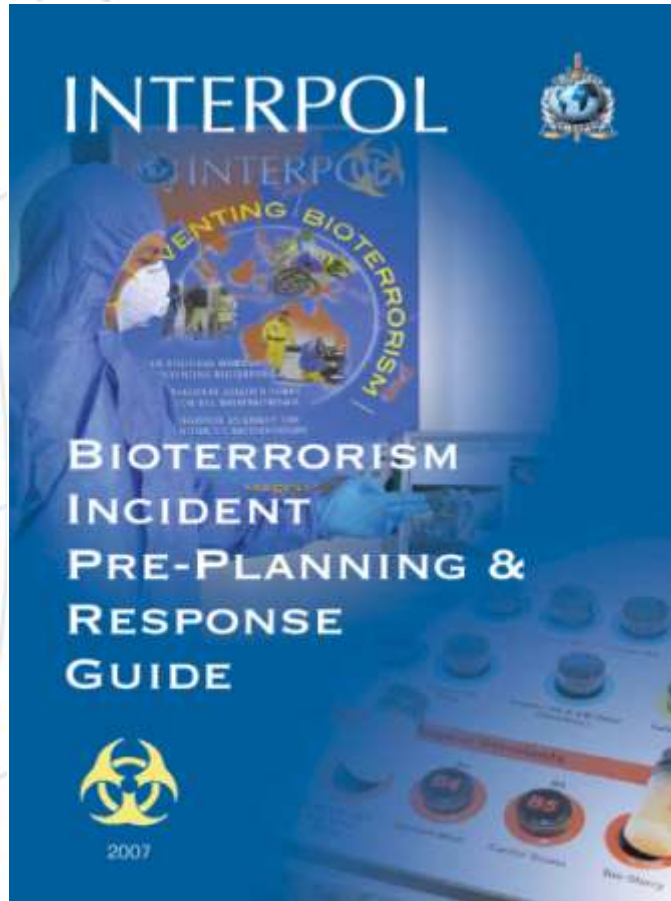

Countries that participated in both
