

Fire Program Management Course M-581 Online Course Module (OCM) Guide to OCM Navigation

Using the Main Menu

When using the NAFRI M-581 Fire Program Manager Online Course Module (OCM), a few tips are necessary for smooth navigation!

The course is set up with an Introduction and eight lessons, which you may access from the Main Menu.

National Advanced Fire and Resource Institute M-581 Fire Program Management Online Course Modules

Welcome to the NAFRI Online Course Modules (OCM) for the M-581 Fire Program Management Course! The purpose of the OCM portion is to introduce you to the key concepts of Fire Program Management, locate resources, and prepare you for the classroom portion. The OCM is self-paced and contains a job aid for you to print and complete as part of the training. The OCM lessons map directly to the units of the classroom section.

Select the "M-581 Guide to OCM Navigation" to learn more on how to use the OCM. Select the "NAFRI_M-581_Fire_Program_Managemen_OCM_Job_Aid" to open and save this tool for use during the course. Then, starting with the Introduction lesson, select each lesson to complete the OCM.

Although it is recommended that you begin with the Introduction, it is not necessary to take the lessons in order.

Navigation Basics

Once you open a module, you will see a welcome screen. At the bottom of the screen, there will be a navigation menu. You can pause, move ahead, or move back by selecting the corresponding button along the bottom of the screen.

Standard buttons will appear in the same location on every screen for ease of use. An explanation of each standard button is provided in the table below.

Button	Function	Description
	Tabs	<p>The Outline tab allows the user to view the slides of the presentation in an outline view. You may use this feature in addition to the Back and Next arrows to navigate through the lesson.</p> <p>The Narration tab allows the user to view the narration text.</p> <p>The Search tab allows the user to search for keywords in the training.</p>
	Next	Displays the next screen in the presentation sequence.
	Back and Next	Displays the previous or next lesson section, respectively, in the presentation sequence.
	Audio Options	Allows the user to turn the volume up or down.

Attachments

Some lessons will contain documents for you to save or print. You may reference these by selecting the paperclip icon at the bottom right of the screen.

Completing the Course

You have completed the course when you have reviewed and completed all of the lessons. Once you complete the OCM, and prior to attending the class, you should finalize your Job Aid and email a completed copy as proof of completion of the OCM to the course coordinator or instructor, depending on where you will take the course. Please refer to the instructions for the course you are attending found on the National Wildland Fire Training website - <http://www.nationalfiretraining.net/>
