House Report 112-442 (H.R. 3263), to authorize the Secretary of the Interior to allow the storage and conveyance of nonproject water at the Norman project in Oklahoma, and for other purposes.

House Report 112-448, Part 1, (H.R. 1505), to prohibit the Secretaries of the Interior and Agriculture from taking action on public lands which impede border security on such lands, and for other purposes.

House Report 112-449 (H.R. 1335), to revise the boundaries of the Gettysburg National Military Park to include the Gettysburg Train Station, and for other purposes.

House Report 112-450 (H.R. 2240), to authorize the exchange of land or interest in land between Lowell National Historical Park and the city of Lowell in the Commonwealth of Massachusetts, and for other purposes.

House Report 112-451 (H.R. 2362), to facilitate economic development by Indian tribes and encourage investment by Turkish enterprises.

House Report 112-452 (H.R. 3452), to provide for the sale of approximately 30 acres of Federal land in Uinta-Wasatch-Cache National Forest in Salt Lake County, Utah, to permit the establishment of a minimally invasive transportation alternative for skiers, called "SkiLink", to connect two ski resorts in the Wasatch Mountains, and for other purposes.

House Report 112-473 (H.R. 2621), to establish the Chimney Rock National Monument in the State of Colorado, and for other purposes.

House Report 112-474 (H.R. 2745), to amend the Mesquite Lands Act of 1986 to facilitate implementation of a multispecies habitat conservation plan for the Virgin River in Clark County, Nevada.

House Report 112-475 (H.R. 3874), to provide for the conveyance of eight cemeteries that are located on National Forest System land in Black Hills National Forest, South Dakota.

House Report 112-500 (H.R. 1237), to provide for a land exchange with the Trinity Public Utilities District of Trinity County, California, involving the transfer of land to the Bureau of Land Management and the Six Rivers National Forest in exchange for National Forest System land in the Shasta-Trinity National Forest, and for other purposes.

House Report 112-501 (H.R. 1272), to provide for the use and distribution of the funds awarded to the Minnesota Chippewa Tribe, et al, by the United States Court of Federal Claims in Docket Numbers 19 and 188, and for other purposes.

House Report 112-502 (S. 363), a bill to authorize the Secretary of Commerce to convey property of the National Oceanic and Atmospheric Administration to the City of Pascagoula, Mississippi, and for other purposes.

House Report 112-503, Part 1, (H.R. 460), to authorize the Secretary of the Interior to facilitate the development of hydroelectric power on the Diamond Fork System of the Central Utah Project.

House Report 112-505 (H.R. 1818), to designate Mt. Andrea Lawrence, and for other purposes.

House Report 112-506 (S. 925), a bill to designate Mt. Andrea Lawrence.

House Report 112-509 (H.R. 4027), to clarify authority granted under the Act entitled "An Act to define the exterior boundary of the Uintah and Ouray Indian Reservation in the State of Utah, and for other purposes".

House Report 112-510 (H.R. 4222), to provide for the conveyance of certain land inholdings owned by the United States to the Tucson Unified School District and to the Pascua Yaqui Tribe of Arizona, and for other purposes.

House Report 112-512 (H.R. 2512), to provide for the conveyance of certain Federal land in Clark County, Nevada, for the environmental remediation and reclamation of the Three Kids Mine Project Site, and for other purposes.

House Report 112-524, Part 1, (H.R. 3685), to amend the Herger-Feinstein Quincy Library Group Forest Recovery Act to extend and expand the scope of the pilot forest management project required by that Act.

House Report 112-525 (H.R. 4039), to convey certain Federal land to the city of Yerington, Nevada.

House Report 112-526, Part 1, (H.R. 4094), to authorize pedestrian and motorized vehicular access in Cape Hatteras National Seashore Recreational Area, and for other purposes.

House Report 112-527 (S. 997), a bill to authorize the Secretary of the Interior to extend a water contract between the United States and the East Bench Irrigation District.

House Report 112-528, Part 1, (H.R. 4383), to streamline the application for permits to drill process and increase funds for energy project permit processing, and for other purposes.

House Report 112-529, Part 1, (H.R. 3065), to amend the Pittman-Robertson Wildlife Restoration Act to facilitate the establishment of additional or expanded public target ranges in certain States.

House Report 112-530 (H.R. 4381), to direct the Secretary of the Interior to establish goals for an all-of-the-above energy production plan strategy on a 4-year basis on all onshore Federal lands managed by the Department of the Interior and the Forest Service.

House Report 112-531 (H.R. 4382), to ensure Federal oil and natural gas lease sales occur, eliminate redundant leasing bureaucracy, and provide leasing certainty.

House Report 112-532 (H.R. 2352), to authorize the Secretary of the Interior to adjust the boundary of the Stephen Mather Wilderness and the North Cascades National Park in order to allow the rebuilding of a road outside of the floodplain while ensuring that there is no net loss of acreage to the Park or the Wilderness, and for other purposes.

House Report 112-533, Part 1, (H.R. 4234), to amend the Federal Land Policy and Management Act of 1976 to improve the management of grazing leases and permits, and for other purposes.

APPENDIX VI

ADDITIONAL VIEWS

Throughout the 112th Congress, the Natural Resources Committee has focused extensively on how to keep and create new American jobs, protect the environment and grow our economy through the responsible use and management of our natural resources. The Committee has advanced common sense actions plans to address some of our Nation's greatest obstacles, spur job creation, and increase America's economic competitiveness.

Republicans support a true all-of-the-above energy plan that includes alternative and renewable sources such as wind, solar, hydropower, nuclear, geothermal and biomass along with oil, natural gas and coal. Over the period covered by this report, the House of Representatives has passed numerous bipartisan bills from the Natural Resources Committee to expand access to all type of American energy resources.

In February the House voted to pass a bipartisan plan to expand offshore energy production, open less than three percent of the Arctic National Wildlife Refuge (ANWR) for oil and natural gas production, and encourage the development of 1.5 trillion barrels of oil shale in the Rocky Mountain West. This energy measure would create over 1.2 million jobs, raise over \$4.3 billion in new federal revenues, help lower gasoline prices and strengthen our national and economic security. The House has also passed legislation to promote the development of clean, renewable hydropower, ensure the timely develop of the National Petroleum Reserve-Alaska (NPR), and streamline government red tape to onshore energy production.

In addition to energy legislation, the Committee is conducting close oversight of the Obama Administration's offshore leasing plan for 2012–2017. This draft plan released by the Administration last year closes 85 percent of our offshore areas to energy activity. It opens no new areas for energy production and makes no mention of energy production goals. It's a plan that reinstates the drilling moratoria lifted in 2008 and locks up vital American energy resources.

The Natural Resources Committee has advanced several other bills to streamline government regulations that are costing American jobs and harming the economy.

In February, the House approved the bipartisan Sacramento-San Joaquin Valley Water Reliability Act. This compressive bill would restore water deliveries that have been cut-off due to federal regulations and environmental lawsuits, protect tens of thousands of jobs, ensure a reliable water supply for people and fish, secure water rights, and save taxpayer money by ending unnecessary and dubious government projects.

In June, the House passed the Conservation and Economic Growth Act, a bipartisan package of bills to remove federal red tape to responsible, local economic development and job growth. The bill would encourage tourism and recreation, promote responsible use of our public lands and resources, protect the environment, and secure federal lands along the U.S. border.

The Natural Resources Committee is also conducting oversight on a number of important issues.

The Committee has held multiple oversight hearings on the President's Executive Order to impose a National Ocean Policy and ocean zoning. This Executive Order creates a massive new bureaucracy that could harm our economy and American jobs. The impact of this Executive Order is not limited to just our oceans and establishes regional planning bodies with the authority to regulate as far inland as necessary. Millions of Americans depend on the ocean for their livelihoods and there needs to be a balanced, multi-use policy that recognizes both the importance of environmental stewardship and the responsible use of our oceans. Unfortunately, President Obama's Executive Order uses the ocean as a regulatory tool to limit job-creating activities on both land and sea.

The Committee is continuing to hold oversight hearings to examine how the Endangered Species Act (ESA) could be improved and updated. Congress last renewed the ESA in 1988. Updating the 24-year-old law will help ensure that it works better to recover endangered species and is not used as a simply a tool for endless, taxpayer funded litigation.

Finally, the Committee has been conducting two long-running oversight investigations into Obama Administration actions and policies that have a direct impact on American jobs and our economy. The investigations relate to the Obama Administration's rewrite of a coal production regulation and why an Obama Administration report that recommended a six-month drilling moratorium in the Gulf of Mexico was edited to make it appear as though the moratorium was supported by a panel of engineering experts when in fact it was not. The Interior Department is withholding requested information on these topics and continues to flout Congressional subpoenas for documents.

Through the responsible use of our natural resources, it's possible to create new jobs and revitalize our economy, while still protecting the environment. For the remainder of the year, the Natural Resources Committee will remain focused on promoting these common sense, job-creating policies.

DOC HASTINGS,
Chairman.

DISSENTING VIEWS

In our Dissenting Views on the 2nd Quarterly Activities Report submitted in December we noted that, “This repetitive, single-minded focus on drilling has operated to the exclusion of constructive discussions of cleaner, more sustainable energy sources, not to mention the broad array of non-energy related matters within the Committee’s jurisdiction . . . the Majority’s vision is so one-dimensional, and has been promoted so exclusively, that the Committee has largely abdicated its responsibility to respond to the legislative priorities of House Members.”

This unfortunate pattern continues. Two-thirds of the Full Committee Oversight hearings covered by this Activities Report were oil-related. This “Oil Above All” agenda not only prevents consideration of other critical priorities, it also prohibits bipartisan and bicameral cooperation. As a result, not a single Republican energy bill has been enacted into law. It is difficult to imagine a larger investment of Committee resources yielding a smaller return.

While the Committee has continued to pursue unserious drilling legislation, energy markets have proven that the premise underlying the Republican “Oil Above All” energy agenda is faulty. Domestic oil production from federal lands is higher than during the last three years of the Bush Administration and, across the United States, oil production is at an 18-year high and natural gas production is at an all-time high. Nevertheless, American consumers are still subject to harmful price fluctuations. Meanwhile, in Committee and on the House floor, Republicans have voted in lock-step to reject Democratic proposals to address the real causes of high energy prices—speculation and a lack of renewable alternatives. The Majority has also opposed requiring Big Oil to pay its fair share for the privilege of drilling on the public’s land at a time when the industry is enjoying record profitability.

The Majority has demonstrated that “Oil Above All” specifically means oil above our National Parks, Forests and Public Lands. House Republicans have pushed legislation that would require such extreme levels of oil and gas development on public lands that virtually all other uses—including hunting, fishing, recreation, grazing and conservation—would be excluded.

Despite requests from House Members from both sides of the aisle, the Majority is failing to act on popular, proactive, public lands bills. Instead, the Majority has pushed through the divisive Republican “Lands” package (H.R. 2578) which would mandate a 100-mile wide “drone zone” along our Mexican and Canadian borders within which 16 environmental statutes are waived and the Department of Homeland Security is authorized to seize control of all federal land management. While the Majority has looked the other way, vast swaths of the American West are being ravaged by

wildfire, insects, invasive species and habitat destruction; threatens the Majority steadfastly refuses to address.

The Subcommittee on Fisheries, Wildlife, Oceans and Insular Affairs continues to examine ways to undermine sound conservation policy while ignoring vital national security issues in insular areas. Notably, the Majority has sought amendments to the Lacey Act that would undermine law enforcement efforts targeting organized crime, harm the environment and domestic timber industry, and endanger law enforcement officers. The Majority also continues to promote partisan politics and fear mongering rather than supporting implementation of a National Ocean Policy that would coordinate traditional and new ocean users, create jobs and improve the health of the oceans and our national security.

The Indian and Alaska Native Affairs Subcommittee has been busy injecting Congress into inter-tribal disputes over gaming market shares and authorizing Alaska Native corporations to clear cut the Tongass. Meanwhile, the Committee has failed to address the impact of the Supreme Court decision in the Carcieri case which has left the status of tribal trust land in limbo.

The Water and Power Subcommittee appears focused on bestowing unjustifiable deregulatory giveaways on hydropower producers while doing nothing to address drought. At a time when the Congress should be helping local communities combat climate change and develop sustainable water and power supplies, the Subcommittee has instead focused on preempting state law, undermining sound science, blocking the development of transmission lines to bring renewable energy to market, and weakening existing environmental protections.

The Majority has also invested significant effort in two dubious investigations of the Obama Administration. The magnitude of the Committee's efforts appears inversely related to the significance of the subject-matter. Instead of investigating the BP oil spill and making sure necessary drilling safety improvements are made, the Majority has investigated the Administration's editing of a two-year-old report that provided recommendations on responding to the spill. Rather than documenting the environmental and public health harms caused by mountaintop removal mining, the Majority has investigated an ongoing rulemaking to protect Appalachian streams from this destructive practice. In the end, despite the enormous time and money expended by both the Administration and this Committee, no evidence of wrongdoing has been discovered in either investigation.

We have concluded our Dissenting Views on each of these Quarterly Activities Reports with a pledge to work with the Majority in the coming months on bipartisan legislation that would address the nation's resource needs and respond to the legislative priorities of House Members. Today, we reiterate that commitment. The final Activities Report to be filed in December will be the last opportunity for the Committee to demonstrate real accomplishment this Congress; we are hopeful that document will not require yet another round of Dissenting Views.
