Back ⌨ Menu

"I find the ARJIS PDA an invaluable tool. I have found warrant subjects, gang members, and other persons trying to hide their past. We need more of these out in the field."
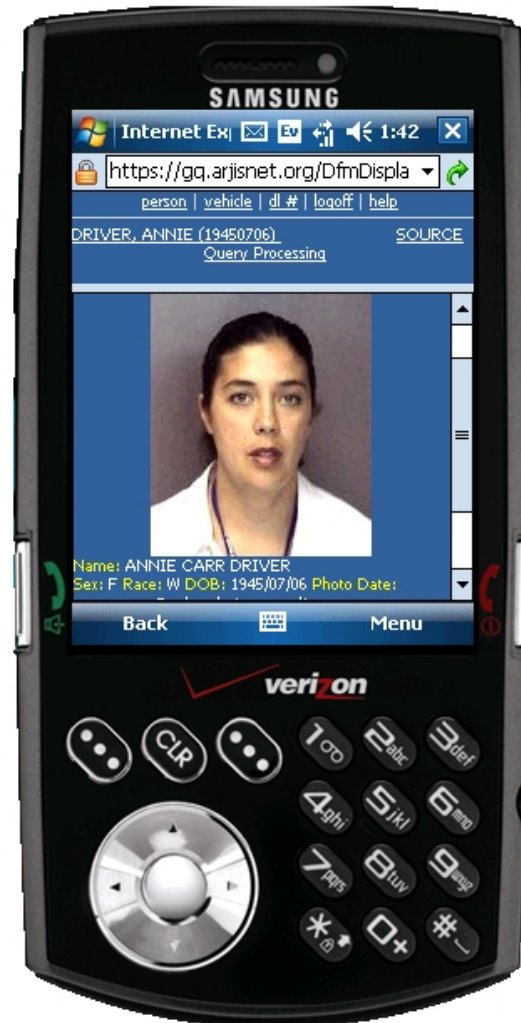

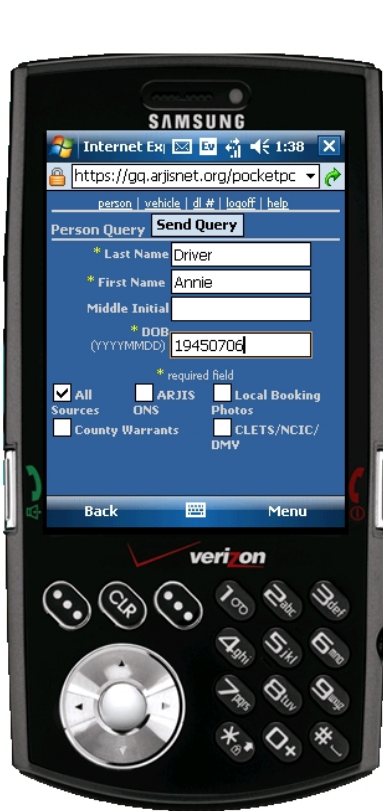

- A "one-stop shop" application that queries multiple databases.

- Same functionality as desktop

- Sized to fit PDA screen

- Supports Person, Vehicle and Drivers License Queries
  - Local Officer Alerts
  - Local Booking Photos
  - County Warrants
  - DMV/NCIC/CLETS

Mobile Applications
DMV Cal-Photo Mobile

"This machine has performed great. In fact, just a couple of days ago I used it to identify a subject in the field that I suspected of being a smuggler. The PDA provided me with a photo to look at for a match and an address that he was reluctant to give me on his own. Good stuff for future Intel operations. Turns out that this guy had been busted on 4 or 5 previous occasions for aliens smuggling."
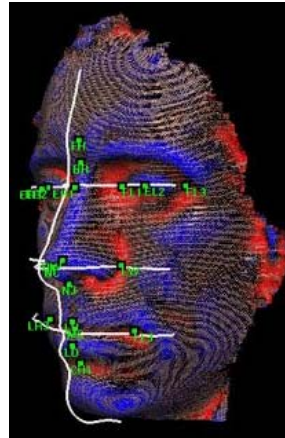

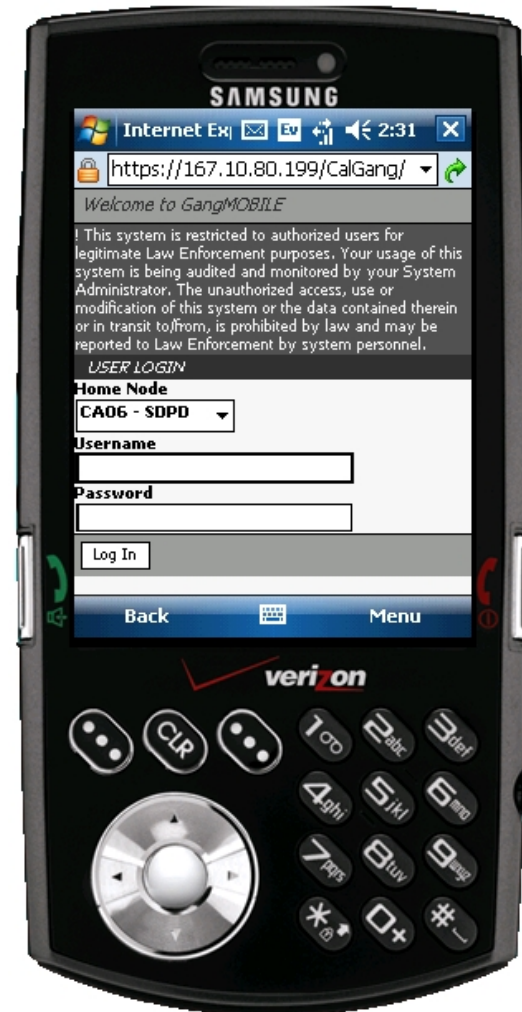

- Cal-Gang statewide database of documented gang members in California.
- Several flexible search parameters including:
  - Subject or description
  - Gang membership
  - Scars/marks/tattoos
  - Address/location

Users can also identify individuals by using the facial recognition component of this application.

Cal-Gang Mobile

Future Developments

- ARJIS is working on a new mobile application that will allow users to:
  - Search the Tabbed Browser (allowing them to use more than one application at a time)
  - Send messages to other PDA users within their group (w/ varying priority levels and attachments)
  - Share notes, including: text, photos, videos, sketches, locations, media, voice recordings, and URL's
  - Locate other users within their group utilizing GPS
