Subject: Fwd.WTP Safety Culture/ promise

promised to fwd. annon.

Sent: Sunday, July 17, 2011 10:47 AM

i am a worker for bechtel building the VIT plant. not only do they suppress safety concerns they retaliate by laying us off. I am a union worker and have been let go from employment twice. this is my third dispatch for employment at BNI and I will not say anything about safety because I know it will cost me my job as it has happened twice in the past. this is real and nobody seems to care about these safety issues. this is the way it is for their (bni) work force and we live with it. thanks for your time
