Dear Mr. Chairman:

In accordance with the Emergency Wartime Supplemental Appropriations Act, 2003 (Public Law 108-11), I am notifying you, on behalf of the Secretary of Defense, of the Department's intent to transfer \$400.0 million from the Iraq Freedom Fund (IFF) to the Operation and Maintenance, Defense-Wide appropriation as detailed in the enclosure.

Section 1310 of Public Law 108-11 provided the Department with the authority to transfer up to \$1,400.0 million for coalition support. On June 12, 2003, I notified the Congress of our intent to transfer \$800 million for such payments during FY 2003. As required by section 1310, the Secretary of Defense notified the Congress, and we obligated \$361.7 million for such reimbursement payments during FY 2003. On September 15, 2003, we transferred back to the IFF the \$438.3 million remaining balance of the distributed coalition support funds because we did not receive actual bills for FY 2003 requirements before the end of the fiscal year. This transfer redistributes \$400.0 million of the coalition support funds from the IFF to the FY 2004 Operation and Maintenance, Defense-Wide appropriation.

Once we make these funding transfers, the balance in the IFF will be \$937.9 million. I anticipate sending you additional notifications regarding transfers from the IFF in the near future.

We are available to provide any additional information you or your staff may require. I am sending a similar letter to the Chairmen and Ranking Members of the other congressional Defense Committees.

Dear Mr. Chairman:

In accordance with the Emergency Wartime Supplemental Appropriations Act, 2003 (Public Law 108-11), I am forwarding to you, on behalf of the Secretary of Defense, a quarterly summary of the funds that we transferred from the Iraq Freedom Fund (IFF) to various funds and appropriation accounts as detailed in enclosure (1). Enclosure (2) provides a summary of the funds transferred from the Natural Resources Risk Remediation Fund (NRRRF).

During fiscal year (FY) 2003, the Department transferred \$10,152.5 million from the IFF to the various appropriations, of which we transferred \$6,099.6 million during the fourth quarter. The quarterly transfers included a \$250.3 million transfer from the IFF to the NRRRF that we subsequently transferred to the Operation and Maintenance, Army appropriation for execution. In addition, we transferred \$904.8 million back to the IFF in September 2003 because those funds would not obligate before the appropriations expired. As of September 30, 2003, the IFF had a balance of \$6,431.2 million. This balance is prior to the congressional rescission of \$3,490 million, which Congress included in the Department of Defense Appropriations Act, 2004 (Public Law 108-87). After adjusting for the congressional rescission, the available balance would be \$2,941.2 million. This balance includes the \$811.9 million for the prior approval reprogramming action (FY 03-25 PA) submitted to Congress in August for investment-related items to include new starts and items that Department would not field within 18 months. We received final congressional of this reprogramming action on November 10, 2003.

| Budget Activity 1: Operating Forces | |

Funds are to be transferred from the IFF to the Operation and Maintenance, Army appropriation to fund the increased contract cost associated with training and equipping the New Iraqi Army (\$3.074 million). The previous IFF release was based on an estimate of \$45 million and the actual contract award was valued at \$48.074 million. Funds are also provided for communication infrastructure support to the Coalition Provisional Authority (CPA) (\$50.0 million). These funds will finance voice, data and video networks at CPA's Baghdad Headquarters, communications networks in the Iraq Forum (which houses the Iraqi Assistance Center, the Humanitarian Assistance Center, reconstruction offices, and ministerial offices), the CPA cables office, and connectivity to some regional headquarters not serviced by the civil telecommunications infrastructure.

The Honorable C.W. Bill Young
Chairman, Committee on Appropriations

Dear Mr. Chairman:

In accordance with the Emergency Wartime Supplemental Appropriations Act, 2003 (Public Law 108-11), I am forwarding to you, on behalf of the Secretary of Defense, a quarterly summary of the funds that we transferred from the Iraq Freedom Fund (IFF) to various funds and appropriation accounts as detailed in enclosure (1). Enclosure (2) provides a summary of the funds transferred from the Natural Resources Risk Remediation Fund (NRRRF).

During fiscal year (FY) 2003, the Department transferred \$10,152.5 million from the IFF to the various appropriations, of which we transferred \$6,099.6 million during the fourth quarter. The quarterly transfers included a \$250.3 million transfer from the IFF to the NRRRF that we subsequently transferred to the Operation and Maintenance, Army appropriation for execution. In addition, we transferred \$904.8 million back to the IFF in September 2003 because those funds would not obligate before the appropriations expired. As of September 30, 2003, the IFF had a balance of \$6,431.2 million. This balance is prior to the congressional rescission of \$3,490 million, which Congress included in the Department of Defense Appropriations Act, 2004 (Public Law 108-87). After adjusting for the congressional rescission, the available balance would be \$2,941.2 million. This balance includes the \$811.9 million for the prior approval reprogramming action (FY 03-25 PA) submitted to Congress in August for investment-related items to include new starts and items that Department would not field within 18 months. We received final congressional of this reprogramming action on November 10, 2003.

We are available to provide any additional information you or your staff may require. I am sending a similar letter to the Chairmen and Ranking Members of the other congressional Defense Committees.

Sincerely,

Funds are required to mitigate deficiencies in the U.S. Central Command's in-theater communications to provide an interoperable coalition network.
- Combined/Joint Task Force 7 (CJTF-7) Soldier Shelters: (\$30,000,000)
Funds are required for the initial purchase of 3,650 relocatable buildings to house 14,700 soldiers at 7 base camps in Iraq. The design includes the necessary power generation site preparation. The housing units are vital to executing the CJTF-7 Command's plan for sheltering soldiers from Iraq's harsh climates.

Operation and Maintenance, Navy

Budget Activity 1: Operating Forces

\$683,700,000
(\$683,700,000)

Funds are to be transferred from the IFF to the Operation and Maintenance, Navy appropriation for the following efforts:

- Air Depot Maintenance: (\$140,000,000)
The funding is required to reconstitute engines and airframes for deployable aviation assets and return aircraft to a mission capable status.
- Ship Depot Maintenance: (\$242,000,000)
The funds are required to return the ships that participated in OIF to their pre-war material condition. This funding is necessary to ensure that shipyard capacity is maximized in FY 2003 so that the force can be restored to the high level operational condition required during the Global War on Terrorism (GWOT).

- Depot Maintenance, USS Providence: (\$125,200,000)
The USS PROVIDENCE Engineering Overhaul (EOH) is currently planned for FY 2004 at the Puget Sound Naval Shipyard. Based on workforce constraints resulting from an extended operational deployment of the USS LINCOLN in the GWOT operations, the planned Dockside Planning Incremental Availability (DPIA) has been delayed, creating a shipyard workload overlap. The depot maintenance work on the USS PROVIDENCE will be shifted to Portsmouth Naval Shipyard in FY 2003. These funds are required to initiate planning efforts and fund the overhaul for that induction. This ship is an East Coast home ported submarine, and returning the work to an East Coast shipyard will relieve unnecessary family disruptions.
- Depot Maintenance, USS ABRAHAM LINCOLN: (\$43,000,000)
Funds will enable the Navy to fully fund the availability of the USS ABRAHAM LINCOLN and provide for depot maintenance bringing that ship up to wartime requirements.
- Mission and Flight Operations: (\$100,000,000)
These funds are requested to reimburse the Navy for expenses incurred during the buildup phase of OIF.
- Combat Support Forces: (\$28,000,000)
These funds are requested to reimburse the Navy for expenses incurred during the buildup phase of OIF.
- Communications: (\$5,500,000)
These funds are required to support critical communications systems in the Pacific Command. This funding replaces a Reserve Component communication signal unit with contracted commercial communications services (satellite transporter) to support U.S. forces in the Pacific theater.

Operation and Maintenance, Marine Corps

Budget Activity 1: Operating Forces

\$285,900,000
(\$285,900,000)

Operational Support and Operating Tempo (OPTEMPO): Funding is required to sustain our efforts in continuing the GWOT and other operations to include antiterrorism and force protection, sending Marines to support CJTF-Horn of Africa, and demobilizing Marine Corps Reserve units.

- Unit and Intermediate Level Maintenance: (\$51,000,000)
These funds will finance the cost of overhauls, electronic equipment repairs, secondary repairable and other items, as well as all costs associated with intermediate level maintenance. Maintenance is performed on such major items as amphibious vehicles, High Mobility Multipurpose Wheeled Vehicles (HMMWV), trucks, tanks, artillery, portable air conditioners, computers, machine guns, and ammunition loaders. Funding at this level anticipates that the Congress will approve the Omnibus II reprogramming, which transfers \$40,000,000 to support unit and intermediate level maintenance.
- Ammunition Inspection and Repackaging: (\$90,000,000)
These funds will finance the cost of contractors to clean and repackage air and ground ammunition. Funding to repackage offloaded inventories will prevent additional degradation in inventories.

- Restocking Supplies: (\$45,900,000)
The funds provide for restocking combat equipment and all classes of supplies to include batteries; individual clothing and combat equipment (ICCE); ground support equipment; tents and camouflage netting; medical supplies; and nuclear, biological and chemical (NBC) gear. Much of the equipment and unit issue items that were used or worn by Marines during prolonged combat operations and in extreme weather conditions (heat, sandstorms, and driving rain) have been degraded.
- Operating Support: (\$99,000,000)
The funds are required to support the current operating tempo needs of deployed soldiers.

Operation and Maintenance, Air Force
Budget Activity 1: Operating Forces

\$377,500,000
(\$377,500,000)

Funds are to be transferred from the IFF to the Operation and Maintenance, Air Force appropriation for the following efforts:

- Security Force Manpower Requirements: (\$351,700,000)
Funds are required to mitigate the Security Force Manpower Requirements driven by the significant and enduring threat apparent since 9/11. The most significant manpower requirements are driven by the need for access control, intrusion detection, and threat device detection. Funds are needed to purchase commercial off-the-shelf technology that will lessen the need for additional manpower and expedite the demobilization of some of the Army National Guard augmentation force.
- Restocking Supplies: (\$25,800,000)
Funds are required to restock combat equipment and all classes of supplies consumed during GWOT such as fuel bladders, chemical suits, and readiness spares kits.

(\$35,900,000)

(\$21,300,000)

- Communications:
Funds are required to pay for terrestrial communications leases that will provide volume price breaks and position DoD for quick reaction and high bandwidth communications capabilities in support of GWOT. Lessons learned from Iraq show that spot market leasing, rather than a coordinated strategy, is a less cost-effective approach. Leasing of commercial terrestrial and related satellite bandwidth will help cover the growing data requirements that cannot be supported with the existing limited Military Satellite Communications (MILSATCOM) resources. These funds will finance a more efficient mechanism for providing commercial satellite communications services to U.S. warfighters.
- Coalition Networks: (\$2,200,000)
Funds are required to procure and install 40 platforms, 14 Defense Collaboration Tool suites, and 5 monitoring systems to support the rapid growth of coalition networks, demonstrated most recently by operations in Iraq.
- Intrusion Detection Systems: (\$3,260,000)
The additional funds will procure and install enclave intrusion detection systems (IDSs) for the Coalition Wide Area Network (CWAN) in Iraq.
- Demilitarized Zone (DMZ) Sites: (\$8,390,000)
The funds will provide for two additional DoD DMZ sites to complete this essential element of DoD's perimeter defense for its computer network. This effort consolidates thousands of physical servers onto a few DoD Enterprise Servers where the security policy and server administration can be implemented as a single policy that will affect the thousands of hosted logical servers concurrently.
- Configuration Management and Other Initiatives: (\$750,000)
Additional funds are required to identify critical network nodes and to improve the configuration management of network switches for conducting Computer Network Defense (CND) operations on the secure network (SIPRNet) and associated enclaves.

**Transfers from the FY 2003/2004 Iraq Freedom Fund (IFF)
(July 1, 2004 through September 30, 2004)**

Operation and Maintenance, Army

\$126,320,000

Additional funding was provided to support higher Operational Tempo (OPTEMPO) in Iraq and in-theater equipment maintenance (\$126,000,000).

Funding was provided for the purchase of 300 Channel Acorn systems at a cost of \$1.5 million. Channel Acorn is an electronic jamming device that prevents the detonation of Improvised Explosive Devices (IED). Also, \$36 thousand was provided to the Army to finance the feeding and training of search dogs that specialize in detecting mines and IEDs. Funds from the FY 2003/FY 2004 Iraq Freedom Fund partially financed this requirement (\$320,000); the balance was financed from the FY 2004/FY 2005 Iraq Freedom Fund (\$1,216,000).

Operation and Maintenance, Defense-Wide

\$192,500,000

Additional funding was provided to the Defense Security Cooperation Agency (DSCA) for payments to reimburse cooperating nations for logistical and military support provided to U.S. military operations in connection with military action in Iraq and in the Global War on Terrorism (GWOT) (\$188,000,000).

Funds were also provided to DSCA for counter-terrorism military training for foreign governments (Jordan, \$3,000,000; Uzbekistan, \$1,000,000; Panama, \$200,000; El Salvador, \$200,000; and Paraguay, \$100,000) in connection with GWOT (\$4,500,000).

Other Procurement, Army

\$37,775,000

Additional funding was provided for procurement of Blue Force Tracking Aviation Systems in support of Operation Iraqi Freedom and Operation Enduring Freedom (\$18,859,000).

Additional funding was provided to finance the procurement of Ballistic Protection Kits and Gunner Protection Kits for Army vehicles (\$18,916,000).

Operation and Maintenance, Marine Corps

\$15,000,000

Additional funding was provided to finance continuing operations in Operation Iraqi Freedom and Operation Enduring Freedom. The funds provide for increased OPTEMPO, logistics support, repair parts, maintenance, medical supplies and sustainment of forward deployed units. The funding also supports joint and pre-deployment training required to meet the counter-insurgency threat.

Weapons Procurement, Navy

\$6,600,000

Additional funding was provided for procurement of 72 Hellfire missiles to replace operational expenditures.

Aircraft Procurement, Army

\$15,071,000

Additional funding was provided to accelerate the procurement of Aircraft Survivability Equipment. Funding provides for the purchase of the Common Missile Warning Systems/Improved Countermeasure Dispensing System for use on fixed and rotary wing aircraft.

Procurement of Ammunition, Air Force

\$990,000

Additional funding was added for the procurement of small arms ammunition and flares for use in the counter-terrorism training activities in Yemen.

Total Transfers from the FY 2003/FY 2004 IFF

\$394,256,000

**Transfers to the FY 2003/2004 Iraq Freedom Fund (IFF)
(July 1, 2004 through September 30, 2004)**

From Operation and Maintenance, Army

\$37,775,000

Funds were originally transferred to the Operation and Maintenance, Army appropriation for increased Operational Tempo (OPTEMPO) and to procure spare parts for equipment maintenance in-theater. The Army determined that funding Blue Force Tracking Aviation Systems was a higher priority requirement. The funds were transferred back to the IFF and then transferred to the Other Procurement, Army appropriation for execution (\$18,859,000).

Funds were originally transferred to the Operation and Maintenance, Army appropriation for the procurement of Ballistic Protection Kits and Gunner Protection Kits. It was determined that the equipment must be purchased in a procurement account. The funds were transferred back to the IFF, and subsequently transferred to the Other Procurement, Army appropriation for execution (\$18,916,000).

From Military Personnel, Marine Corps

\$21,600,000

Funds were originally transferred to the Military Personnel, Marine Corps appropriation for allowances for mobilized Reserve Component members. However, mobilization occurred at a lower than expected rate. The Navy and Marine Corps determined that funding OPTEMPO (\$15.0 million to the Operation and Maintenance, Marine Corps appropriation) and procuring additional Hellfire missiles (\$6.6 million to the Weapons Procurement, Navy appropriation) were higher priority requirements. The funds were transferred back to the IFF, and then transferred to the proper appropriation for execution.

From Operation and Maintenance, Air Force

\$990,000

Funds were originally transferred to the Operation and Maintenance, Air Force appropriation for procurement of small arms ammunition and flares for use in counter-terrorism training activities. It was later determined that the equipment must be purchased in a procurement account. The funds were transferred back to the IFF, and then transferred to the Procurement of Ammunition, Air Force appropriation for execution.

From Procurement of Ammunition, Army

\$15,071,000

Funds were originally transferred to the Procurement of Ammunition, Army appropriation for demolition munitions. The Army later determined that procurement of Aircraft Survivability Equipment was a higher priority requirement. The funds were transferred back to the IFF, and subsequently transferred to the Aircraft Procurement, Army account for execution.

Total Transfers to the FY 2003/2004 IFF

\$75,436,000

**Transfers from the FY 2004/2005 Iraq Freedom Fund (IFF)
(July 1, 2004 through September 30, 2004)**

Operation and Maintenance, Army

\$406,216,000

Additional funding was provided to support higher Operational Tempo (OPTEMPO) in Iraq and in-theater equipment maintenance (\$170,000,000).

Additional funding was provided to finance the increased cost of transportation of supplies and equipment over ocean in support of current operations in Iraq (\$225,000,000).

Dear Mr. Chairman:

In accordance with the Emergency Wartime Supplemental Appropriations Act, 2003 (Public Law 108-11), the Emergency Supplemental Appropriations Act, 2004 (Public Law 108-106) and the National Defense Authorization Act for Fiscal Year 2004 (Public Law 108-136), I am forwarding to you, on behalf of the Secretary of Defense, a summary of the transfers from the Iraq Freedom Fund (IFF) during the third quarter of FY 2004. The enclosures provide details of the transfers. During this quarter, there were no transfers to the Natural Resources Risk Remediation Fund from the IFF. The following table summarizes the IFF transactions.

As shown above, a total of \$862.2 million was transferred from the IFF accounts during the third quarter of FY 2004. In addition, the Department has transferred \$132.3 million back into the FY 2003/2004 IFF. Most of these funds, \$126.0 million, were the remaining balance from the Defense Emergency Response Fund and were transferred to the IFF pursuant to Section 1313 of the Emergency Wartime Supplemental Appropriations Act, 2003. The other \$6.3 million corrects the distribution of funds for counter-terrorism training; it does not change the purpose of the funding. The funds were transferred back from the Operation and Maintenance, Air Force appropriation and immediately redirected to the Air Force procurement appropriations for proper execution.

\$59,410,000

These funds were originally transferred to the Procurement of Ammunition, Navy and Marine Corps, 03/05, appropriation for various ammunition programs. Thus, the funds were realigned to address the higher priority projects. The congressional oversight committees were notified of these increases on February 4, 2004.

(\$15,410,000)

These funds were originally transferred to the Operation and Maintenance, Army, 04/04, appropriation for execution. Subsequently, it was determined that the funds should have been issued to the Other Procurement, Army, 04/06 appropriation instead. The congressional oversight committees were notified of this action on October 9, 2003.

**Transfers from the FY 2003/2004 Iraq Freedom Fund (IFF)
(July 1, 2004 through September 30, 2004)**

Operation and Maintenance, Army

\$126,320,000

Additional funding was provided to support higher Operational Tempo (OPTEMPO) in Iraq and in-theater equipment maintenance (\$126,000,000).

Funding was provided for the purchase of 300 Channel Acorn systems at a cost of \$1.5 million. Channel Acorn is an electronic jamming device that prevents the detonation of Improvised Explosive Devices (IED). Also, \$36 thousand was provided to the Army to finance the feeding and training of search dogs that specialize in detecting mines and IEDs. Funds from the FY 2003/FY 2004 Iraq Freedom Fund partially financed this requirement (\$320,000); the balance was financed from the FY 2004/FY 2005 Iraq Freedom Fund (\$1,216,000).

Operation and Maintenance, Defense-Wide

\$192,500,000

Additional funding was provided to the Defense Security Cooperation Agency (DSCA) for payments to reimburse cooperating nations for logistical and military support provided to U.S. military operations in connection with military action in Iraq and in the Global War on Terrorism (GWOT) (\$188,000,000).

Funds were also provided to DSCA for counter-terrorism military training for foreign governments (Jordan, \$3,000,000; Uzbekistan, \$1,000,000; Panama, \$200,000; El Salvador, \$200,000; and Paraguay, \$100,000) in connection with GWOT (\$4,500,000).

Other Procurement, Army

\$37,775,000

Additional funding was provided for procurement of Blue Force Tracking Aviation Systems in support of Operation Iraqi Freedom and Operation Enduring Freedom (\$18,859,000).

Additional funding was provided to finance the procurement of Ballistic Protection Kits and Gunner Protection Kits for Army vehicles (\$18,916,000).

Operation and Maintenance, Marine Corps

\$15,000,000

Additional funding was provided to finance continuing operations in Operation Iraqi Freedom and Operation Enduring Freedom. The funds provide for increased OPTEMPO, logistics support, repair parts, maintenance, medical supplies and sustainment of forward deployed units. The funding also supports joint and pre-deployment training required to meet the counter-insurgency threat.

Weapons Procurement, Navy

\$6,600,000

Additional funding was provided for procurement of 72 Hellfire missiles to replace operational expenditures.

Aircraft Procurement, Army

\$15,071,000

Additional funding was provided to accelerate the procurement of Aircraft Survivability Equipment. Funding provides for the purchase of the Common Missile Warning Systems/Improved Countermeasure Dispensing System for use on fixed and rotary wing aircraft.

Procurement of Ammunition, Air Force

\$990,000

Additional funding was added for the procurement of small arms ammunition and flares for use in the counter-terrorism training activities in Yemen.

Total Transfers from the FY 2003/FY 2004 IFF

\$394,256,000

**Transfers to the FY 2003/2004 Iraq Freedom Fund (IFF)
(July 1, 2004 through September 30, 2004)**

From Operation and Maintenance, Army

\$37,775,000

Funds were originally transferred to the Operation and Maintenance, Army appropriation for increased Operational Tempo (OPTEMPO) and to procure spare parts for equipment maintenance in-theater. The Army determined that funding Blue Force Tracking Aviation Systems was a higher priority requirement. The funds were transferred back to the IFF and then transferred to the Other Procurement, Army appropriation for execution (\$18,859,000).

Funds were originally transferred to the Operation and Maintenance, Army appropriation for the procurement of Ballistic Protection Kits and Gunner Protection Kits. It was determined that the equipment must be purchased in a procurement account. The funds were transferred back to the IFF, and subsequently transferred to the Other Procurement, Army appropriation for execution (\$18,916,000).

From Military Personnel, Marine Corps

\$21,600,000

Funds were originally transferred to the Military Personnel, Marine Corps appropriation for allowances for mobilized Reserve Component members. However, mobilization occurred at a lower than expected rate. The Navy and Marine Corps determined that funding OPTEMPO (\$15.0 million to the Operation and Maintenance, Marine Corps appropriation) and procuring additional Hellfire missiles (\$6.6 million to the Weapons Procurement, Navy appropriation) were higher priority requirements. The funds were transferred back to the IFF, and then transferred to the proper appropriation for execution.

From Operation and Maintenance, Air Force

\$990,000

Funds were originally transferred to the Operation and Maintenance, Air Force appropriation for procurement of small arms ammunition and flares for use in counter-terrorism training activities. It was later determined that the equipment must be purchased in a procurement account. The funds were transferred back to the IFF, and then transferred to the Procurement of Ammunition, Air Force appropriation for execution.

From Procurement of Ammunition, Army

\$15,071,000

Funds were originally transferred to the Procurement of Ammunition, Army appropriation for demolition munitions. The Army later determined that procurement of Aircraft Survivability Equipment was a higher priority requirement. The funds were transferred back to the IFF, and subsequently transferred to the Aircraft Procurement, Army account for execution.

The enclosures provide details of the transfers. During this quarter, there were no transfers to the Natural Resources Risk Remediation Fund from the IFF. The following table summarizes the IFF transactions.

Most of these funds, \$126.0 million, were the remaining balance from the Defense Emergency Response Fund and were transferred to the IFF pursuant to Section 1313 of the Emergency Wartime Supplemental Appropriations Act, 2003. The other \$6.3 million corrects the distribution of funds for counter-terrorism training; it does not change the purpose of the funding. The funds were transferred back from the Operation and Maintenance, Air Force appropriation and immediately redirected to the Air Force procurement appropriations for proper execution
