g. Summary of DoD information system or electronic collection. Answers to these questions should be consistent with security guidelines for release of information to the public.

(1) Describe the purpose of this DoD information system or electronic collection and briefly describe the types of personal information about individuals collected in the system.

The DoDEA Online Student Pre-Registration is a web-based application that will enable parents to pre-register their dependents for DoDEA schools. DoDEA uses this application to collect and store the information necessary to begin the enrollment process into a DoDEA school. This includes sponsor name and contact information, the student(s) name and age, as well as emergency contact information. The sponsor is also given an opportunity to upload a copy of their orders as well as supporting documentation for their dependents (immunization records, Student Health History, age verification for K-1 students, etc). The data and application resides on secure servers located at HQ. School staff members use a secure Internet connection to connect to the servers. Each staff member is given a user id and password and has been provided with a secure role-based access level, which can be customized as necessary.

(2) Briefly describe the privacy risks associated with the PII collected and how these risks are addressed to safeguard privacy.

Records are maintained in a controlled facility. Physical entry is restricted by the use of locks, guards, and is accessible only to authorized personnel. Access to records is limited to person(s) responsible for servicing the record in performance of their official duties and who are properly screened and cleared for need-to-know. Access to computerized data is restricted by passwords, which are changed periodically.

h. With whom will the PII be shared through data exchange, both within your DoD Component and outside your Component (e.g., other DoD Components, Federal Agencies)? Indicate all that apply.

i. Do individuals have the opportunity to object to the collection of their PII?

Yes

No

(1) If "Yes," describe method by which individuals can object to the collection of PII.

Individuals can choose to not use this system to pre-register their dependents and only go to the physical registration site to register. DoDEA does not require the use of this system in order for dependents to be enrolled in a DoDEA school. Its purpose is to accelerate the enrollment process by collecting necessary information for registrars to begin the registration process before the sponsors arrive to complete the registration process.

(2) If "No," state the reason why individuals cannot object.

j. Do individuals have the opportunity to consent to the specific uses of their PII?

Yes

No

(1) If "Yes," describe the method by which individuals can give or withhold their consent.

On the registration form 600 they have the ability to say if information can be used on the internet, and forwarded or not forwarded to military recruitment personnel.

(2) If "No," state the reason why individuals cannot give or withhold their consent.

k. What information is provided to an individual when asked to provide PII data? Indicate all that apply.
