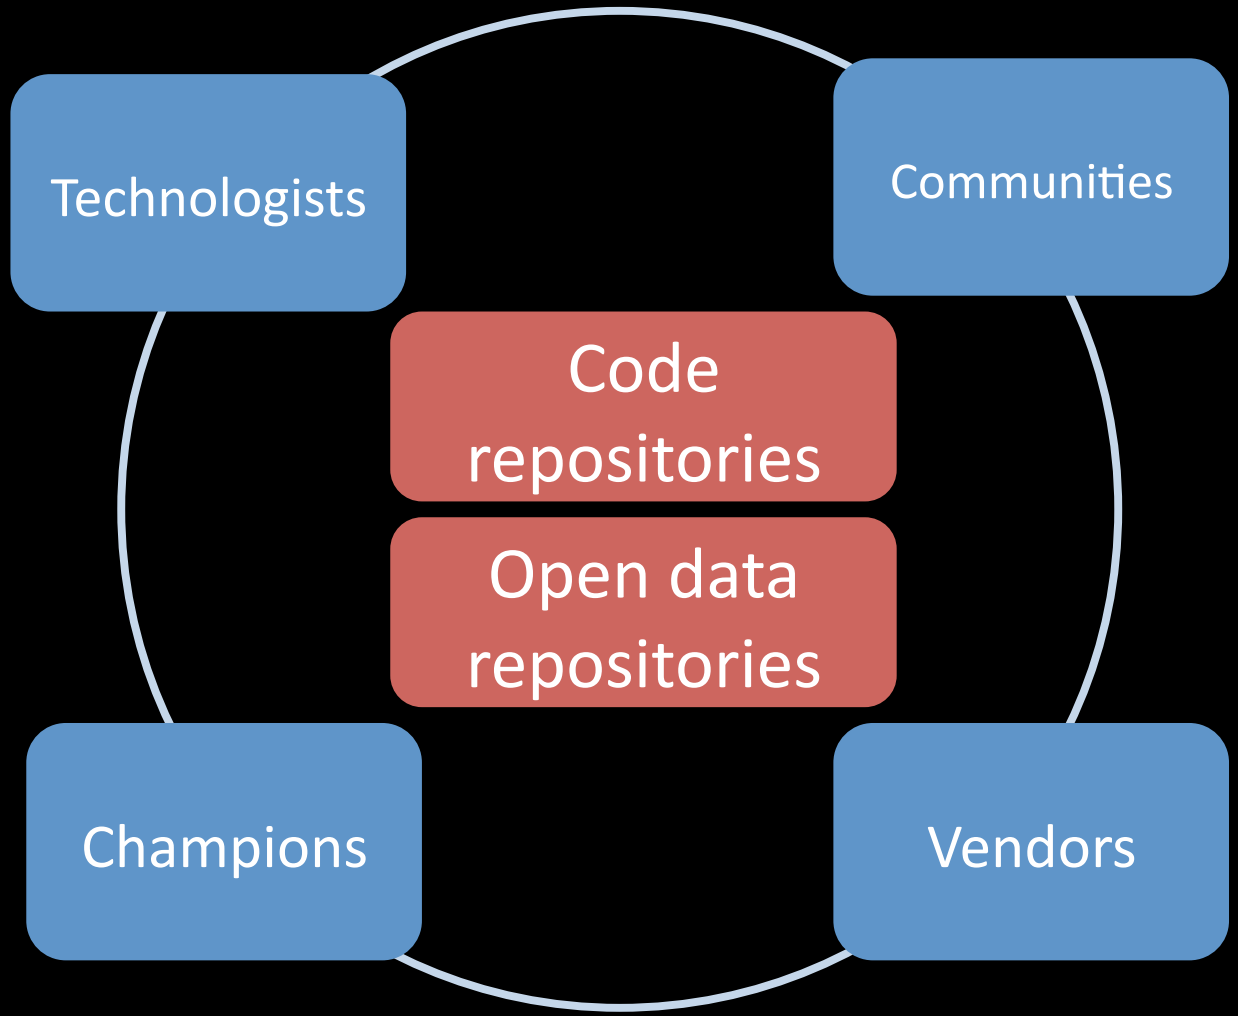
Question

How do we optimize the social and economic value of open data in Kenya?

What is a networked civic technology ecosystem?



What is the human centered design process?

- understand the problem
- ideation
- prototyping
- testing

openData

code4kenya structure

- 4 fellows selected for a 6 month period, focusing on water, health, education and counties data
- media houses and civil society organizations pitch ideas for fellows
- fellows work closely with expert working groups from government and international organizations
- resulting applications and platforms scaled across the institution
