EXPORT-IMPORT BANK of the UNITED STATES

Buy U.S. Goods and Services with Competitive Financing

The **Export-Import Bank of the United States (Ex-Im Bank)** is the U.S. government's official export credit agency.

In its 70-plus year history, Ex-Im Bank has supported more than \$400 billion of U.S. exports.

Financing products include:

- Export Credit Insurance
- Loan Guarantees
- Project and Structured Finance
- Aircraft and Asset-backed Finance

Special initiatives include:

- Environmental Exports Program (EEP)
- Medical Equipment Initiative (MEI)
- Transportation Security Exports Program (T-SEP)

EXPORT CREDIT INSURANCE

Ex-Im Bank provides export credit insurance for U.S. exporters against foreign buyer nonpayment risk for commercial and political reasons (e.g., bankruptcy, war, or currency inconvertibility).

Benefits include:

- Enables U.S. exporters to offer short- and medium-term credit directly to their foreign buyers
- Increases cash flow by transforming export-related accounts receivable into receivables insured by the U.S. government, giving lenders an incentive to advance credit-

against receivables financing to U.S. exporters

- Offers an attractive substitute to cash in-advance, letters of credit and costly local bank financing
- Makes transactions more cost-effective by insuring letters of credit and avoiding bank confirmation charges

Short-Term Insurance

- Products must be shipped from the United States and have at least 51% U.S. content.
- Provides 180-day coverage for raw materials, spare parts, components, and most services.
- Provides 360-day coverage for bulk agricultural products, capital goods, and consumer durables.
- Multi-Buyer policies enable exporters to insure all sales to eligible foreign buyers on open-account-credit-terms and provide 95% commercial and political coverage against buyer defaults.
- Single-Buyer policies provide credit protection for short-term credit sales to a single foreign buyer with 90%-100% coverage against buyer defaults.

Medium-Term Insurance

- Products must be shipped from the U.S. and can receive coverage for up to 85% of the net U.S. contract value.

- Protects financing to international buyers of capital equipment or services, and can cover a series of shipments.
- Coverage generally extends up to five years and exceptionally seven years for all U.S. contract amounts up to \$10 million.

Success Story – Export Credit Insurance in SAUDI ARABIA: In 2006, InPro Corporation of Wisconsin shipped a \$270,000 multiple shipment order of plastic door and wall protectors to Saudi Metal Ceilings Manufacturing in Saudi Arabia. InPro Corporation used an Ex-Im Bank short-term, single-buyer export credit insurance policy to cover its export shipments.

LOAN GUARANTEES

Ex-Im Bank guarantees repayment of commercial bank loans to foreign buyers of U.S. goods and services.

Benefits include:

- Covers loans for U.S. capital equipment, services, and projects. Financing is also available for refurbished equipment, software, some banking and legal fees, and certain local costs and expenses.
- Commits the full faith and credit of the U.S. government.
- Covers 85% of the U.S. commercial contract.
- Foreign buyers are required to make a 15% cash down-payment. Banks often finance the 15% portion.
- Interest rates (fixed or floating) on guaranteed loans are negotiated between lending banks and foreign buyers. Often a floating rate is based on the spread over six-month U.S. dollar LIBOR rate.

- Loans are fully transferable and can be securitized.

Benefits to foreign buyers include:

- Lower interest rates
- Longer credit terms
- Increased international credit profile

Repayment Terms:

- Medium-Term Loan Guarantees – up to five years and exceptionally seven years.
- Long-Term Loan Guarantees – up to 10 years and possibly up to 15 years if supporting exports to renewable energy, water or hydroelectric projects.

Success Story – Loan Guarantee in EGYPT: In 2004, Sokhna Port Development Company (SPDC), a private company that owns and manages the first Egyptian private deep-sea port, procured one high-energy X-ray system for inspection of sea-going containers and two smaller X-ray systems for viewing small cargo moving through the Port of Sokhna. Ex-Im Bank provided a 10-year, \$7.9 million comprehensive guarantee to HSBC to support the X-ray equipment sale by the U.S. firm, American Science and Engineering. The transaction qualified for Ex-Im Bank's Transportation Security Program (T-SEP) and Ex-Im Bank was able to offer 10-year repayment terms and local cost support equal to 15% of the U.S. contract value.

PROJECT AND STRUCTURED FINANCE

Limited-recourse (project) and structured finance are solutions tailored to meet the needs of borrowers and help U.S. exporters compete globally in a range of industries.

Ex-Im Bank can consider limited-recourse project finance in most countries and has no country or project dollar limits. Financed amounts are limited only by the amount of U.S. content and the credit-worthiness of the transaction.

Project Finance

Under this arrangement, Ex-Im Bank lends or guarantees loans to project companies and looks primarily to the project's future cash flow as the source of repayment.

- Appropriate where hard currency revenues can be captured offshore or long-term off-take (purchase) contracts with creditworthy off-takers ensure project cash flows.
- Costly and complex due diligence process makes project finance most appropriate for large transactions.

Structured Finance

Ex-Im Bank considers financing transactions for existing foreign companies based on their creditworthiness, as reflected by their financial statements and other sources of collateral or security.

SPECIAL INITIATIVES

Environmental Exports Program

Enhanced support for environmentally-beneficial U.S. exports:

- Renewable energy – photovoltaic, wind, hybrid, biomass, fuel cells, waste to energy, hydroelectric, coal gasification and geothermal
- Wastewater, sewage, and waste treatment projects
- Drinking water treatment

Enhancements include:

- Maximum allowable repayment terms permissible under OECD guidelines for long-term loans and guarantees (up to 15 years for exports to renewable energy, water and hydroelectric projects)
- Capitalization of interest during construction
- Up to 15% local cost support within the U.S. scope of supply

Success Story – Project Financing in

JORDAN: X-Press telecommunications Company of Amman, Jordan, built a nationwide radio dispatch and cellular telecommunications network with support from Ex-Im Bank. Our \$54.4 million loan guarantee to Citibank helped make financing possible for X-Press Telecommunications Company's purchases from Motorola and a number of other U.S. suppliers. The project, which includes an Integrated Digital Enhanced Network (iDEN) supplied by Motorola, features "push-to-talk" service and mobile telephony, text messaging and data services. The network became operative in early 2005.

Medical Equipment Initiative

Enhanced support for U.S. medical equipment exports:

- Automatic financing for local costs related to the exporter's scope of work for up to 15% of the U.S. contract value (including import and similar duties)
- Terms up to seven years offered for medium-term transactions when consistent with the expected life of a product (subject to a minimum contract value of \$350,000)
- Capitalization of interest when there is an extended installation and/or construction period

Transportation Security Initiative

Enhanced support for U.S. exports related to international transportation security:

- Local cost cover up to 15% of the net contract value
- Maximum allowable repayment terms permissible under OECD guidelines
